(1) The first submission for matching funds following the candidate's threshold submission shall contain all the matchable contributions included in the threshold submission and any additional contributions to be submitted for matching in that submission. This submission shall contain all the information required for the threshold submission except that:

(i) The candidate is not required to resubmit the candidate agreement and certifications of 11 CFR 9033.1 and 9033.2;

(ii) The candidate is required to submit an alphabetical list of contributors, but not segregated by State as required in the threshold submission;

(iii) The candidate is required to submit a listing, alphabetical by contributor, of all checks returned unpaid, but not segregated by State as required in the threshold submission;

(iv) The Candidate is required to submit a listing, in alphabetical order by contributor, of all contributions refunded to the contributor but not segregated by State as required in the threshold submission.

(v) The occupation and employer's name need not be disclosed on the contributor list for individuals whose aggregate contributions exceed $200 in the calendar year, but such information is subject to the recordkeeping and reporting requirements of 2 U.S.C. 432(c)(3), 434(b)(3)(A) and 11 CFR 102.9(a)(2), 104.3(a)(4)(i); and

(vi) The photocopies of each check or written instrument and of supporting documentation shall either be alphabetized and referenced to copies of the relevant deposit slip, but not segregated by State as required in the threshold submission; or such photocopies may be batched in deposits of 50 contributions or less and cross-referenced by deposit number and sequence number within each deposit on the contributor list.

(2) Following the first submission under 11 CFR 9036.2(b)(1), candidates may request additional matching funds on dates prescribed by the Commission by making a full submission as required under 11 CFR 9036.2(b)(1). The amount requested for matching may include contributions received up to the last business day preceding the date of the request.

(c) *Additional submissions submitted in non-Presidential election year.* The candidate may submit additional contributions for review during the year preceding the presidential election year; however, the amount of each submission made during this period must exceed $50,000. Additional submissions filed by a candidate in a non-Presidential election year will not result in payment of matching funds to the candidate until after January 1 of the Presidential election year. If the projected dollar value of the nonmatchable contributions exceeds 15% of the amount requested, the procedures described in 11 CFR 9036.2(d)(2) shall apply, unless the submission was made on the last submission date in December of the year before the Presidential election year.

(d) *Certification of additional payments by Commission.* (1) When a candidate who is eligible under 11 CFR 9033.4 submits an additional submission for payment in the Presidential election year, and before the candidate's date of ineligibility, the Commission will review the additional submission and will certify to the Secretary at least once a month on dates to be determined and published by the Commission, an amount to which the candidate is entitled in accordance with 11 CFR 9034.1(b). See 11 CFR 9036.4 for Commission procedures for certification of additional payments.

(2) After a candidate's date of ineligibility, the Commission will review each additional submission and resubmission, and will certify to the Secretary, at least once a month on dates to be determined and published by the Commission, an amount to which the ineligible candidate is entitled in accordance with 11 CFR 9034.1(b), unless the projected dollar value of the nonmatchable contributions contained in the submission or resubmission exceeds 15% of the amount requested. In the latter case, the Commission will return the additional submission or resubmission to the candidate and request that it be corrected, unless the resubmission was made on the last date for resubmissions in September of the year following the Presidential election year. Corrected submissions and resubmissions will be reviewed by the Commission in accordance with 11 CFR 9036.4 and 9036.5. Submissions and resubmissions will not be considered to be corrected unless the projected dollar value of nonmatchable contributions has been reduced to no more than 15% of the amount requested.

6. 11 CFR part 9036 would be amended by revising § 9036.4 to read as follows:

§ 9036.4 Commission review of submissions.

(a) *Non-acceptance of submission for review of matchability.* (1) The Commission will make an initial review of each submission made under 11 CFR Part 9036 to determine if it substantially meets the format requirements of 11 CFR 9036.1(b) and 9036.2(b) and the Federal Election Commission's Guideline for Presentation in Good Order. If the Commission determines that a submission does not substantially meet these requirements, it will not review the matchability of the contributions contained therein.

(2) For submissions made in the year before the Presidential election year (other than submissions made on the last submission date in that year), and submissions made after the candidate's date of ineligibility, the Commission will stop reviewing the submission once the projected dollar value of nonmatchable contributions exceeds 15% of the amount requested, as provided in 11 CFR 9036.2 (c) or (d), as applicable.

(3) Under either paragraph (a)(1) or (a)(2), the Commission will return the submission to the candidate and request that it be corrected in accordance with the applicable requirements. If the candidate makes a corrected submission within 5 business days after the Commission's return of the original, the Commission will review the corrected submission prior to the next regularly scheduled submission date, and will certify to the Secretary the amount to which the candidate is entitled on the regularly scheduled certification date for the original submission. Corrected submissions made after this five-day period will be reviewed subsequent to the next regularly scheduled submission date, and the Commission will certify to the Secretary the amount to which the candidate is entitled on the next regularly scheduled certification date. Each corrected submission shall only contain contributions previously submitted for matching in the returned submission and no new or additional contributions.

(b) *Acceptance of submission for review of matchability.* If the Commission determines that a submission made under 11 CFR part 9036 satisfies the requirements of 11 CFR 9036.1(b) and 9036.2 (b), (c) and (d), and the Federal Election Commission's Guideline for Presentation in Good Order, it will review the matchability of the contributions contained therein. The Commission, in conducting its review, may utilize statistical sampling techniques. Based on the results of its review, the Commission may calculate a matchable amount for the submission which is less than the amount requested by the candidate. If the Commission certifies for payment to the Secretary an amount that is less than the amount requested by the candidate in a particular submission, or reduces the amount of a subsequent certification to the Secretary by adjusting a previous certification made under 11 CFR 9036.2(c)(1), the Commission will notify the candidate in writing of the following:

(1) The amount of the difference between the amount requested and the amount to be certified by the Commission;

(2) The amount of each contribution and the corresponding contributor's name for each contribution that the Commission has rejected as nonmatchable and the reason that it is not matchable; or if statistical sampling is used, the estimated amount of contributions by type and the reason for rejection;

(3) The amount of contributions that have been determined to be matchable and that the Commission will certify to the Secretary for payment; and

(4) A statement that the candidate may supply the Commission with additional documentation or other information in the resubmission of any rejected contribution under 11 CFR 9036.5 in order to show that a rejected contribution is matchable under 11 CFR 9034.2.

(c) *Adjustment of amount to be certified by Commission.* (1) The candidate shall notify the Commission as soon as possible if the candidate or the candidate's authorized committee(s) has knowledge that a contribution submitted for matching does not qualify under 11 CFR 9034.2 as a matchable contribution, such as a check returned to the committee for insufficient funds or a contribution that has been refunded, so that the Commission may properly adjust the amount to be certified for payment.

(2) After the candidate's date of ineligibility, if the candidate does not receive the entire amount of matching funds on a regularly scheduled payment date due to a shortfall in the matching payment account, prior to each subsequent payment date on which the candidate receives payments from any previous certification, the Commission may revise the amount previously certified for payment pursuant to 11 CFR 9034.5(f). The Commission will promptly notify the Secretary and the candidate of any revision to the amount certified.

(d) *Commission audit of submissions.* The Commission may determine, for the reasons stated in 11 CFR part 9039, that an audit and examination of contributions submitted for matching payment is warranted. The audit and examination shall be conducted in accordance with the procedures of 11 CFR part 9039.

7. 11 CFR part 9036 would be amended by revising paragraph (d) of § 9036.5 to read as follows:

§ 9036.5 Resubmissions.

* * * * *

(d) *Certification of resubmitted contributions.* Contributions that the Commission determines to be matchable will be certified to the Secretary at least once a month on dates to be determined and published by the Commission. If the candidate chooses to request the specific contributions rejected for matching pursuant to 11 CFR 9036.5(a)(2), the amount certified shall equal only the matchable amount of the particular contribution that meets the standards on resubmission, rather than

VOL
56
ISS
123
JE
26
1991
UMI

the amount projected as being nonmatchable based on that contribution due to the sampling techniques used in reviewing the original submission.

* * * * *

8. 11 CFR part 9036 would be amended by revising § 9036.6 to read as follows:

§ 9036.6 Continuation of certification.

Candidates who have received matching funds and who are eligible to continue to receive such funds may continue to submit additional submissions for payment to the Commission on dates specified in the Federal Election Commission's Guideline for Presentation in Good Order. The last date for first-time submissions will be the first Monday in March of the year following the election. No contribution will be matched if it is submitted after the last submission date, regardless of the date the contribution was deposited.

PART 9037—PAYMENTS

9. The authority citation for part 9037 would continue to read as follows:

Authority: 26 U.S.C. 9037 and 9039(b).

10. 11 CFR part 9037 would be amended by revising § 9037.1 to read as follows:

§ 9037.1 Payments of Presidential primary matching funds.

Upon receipt of a written certification from the Commission, but not before the beginning of the matching payment period, the Secretary will promptly transfer the amount certified from the matching payment account to the candidate. A matching fund certification may not result in full payment by the Secretary in the case of a shortfall in the matching payment account. See 26 CFR 702.9037–1 and 702.9037–2.

11. 11 CFR part 9037 would be amended by revising § 9037.2 to read as follows:

§ 9037.2 Equitable distribution of funds.

In making such transfers to candidates of the same political party, the Secretary will seek to achieve an equitable distribution of funds available in the matching payment account, and the Secretary will take into account, in seeking to achieve an equitable distribution of funds available in the matching payment account, the sequence in which such certifications are received. See 26 CFR 702.9037–2(c) regarding partial payments to candidates in the case of a shortfall in the matching payment account.

Dated: June 21, 1991.

John Warren McGarry,

Chairman, Federal Election Commission.

1991
UMI

DEPARTMENT OF COMMERCE

International Trade Administration

Docket No. 910637-1137

Consortia of American Businesses in Eastern Europe

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of a New Business Consortia Grant Program to Assist U.S. Firms Establishing a Commercial Presence in Eastern Europe.

SUMMARY: A pilot program has been designed to assist U.S. firms in establishing a commercial presence in Eastern Europe through the formation of Consortia of American Businesses in Eastern Europe (CABEE). CABEEs are private and public non-profit organizations which will be formed to promote U.S. goods and services in Eastern Europe. The participants in these consortia will be for-profit U.S. firms interested in trade with Eastern Europe. CABEEs will establish offices and staff in Eastern Europe to provide a broad range of services for their member firms, including market research, sales promotion, and other trade facilitation services. Grant funds will be awarded as seed money to pay the start-up costs of establishing and operating CABEE offices in Eastern Europe. CABEEs can be organized along a single industry line or represent more than one business sector. There is no limitation on the number of for-profit firms that a consortium may represent.

SUPPLEMENTARY INFORMATION:

Program Objectives

CABEEs are intended to strengthen the U.S. business presence in Eastern Europe. They will provide direct trade facilitation support for their member firms, stimulating increased U.S. exports, joint ventures, and U.S. direct investment in Eastern Europe. CABEEs will promote two-way trade and will be expected to support development of counterpart host country trade associations and/or other organizations that can respond to the business opportunities represented through the consortia.

Funding Availability

Pursuant to the provision headed section (a)(8) under the heading "Assistance for Eastern Europe" of Title II of the Foreign Operations, Export Financing and Related Programs Appropriation Act, 1991, Public Law 101-513 and section 632(a) of the Foreign Assistance Act of 1961, as amended, funding for the program will come from the Agency for International Development. Commerce will administer the program on a pilot basis pursuant to the authority contained in section 635(b) of the Foreign Assistance Act of 1961, as amended. The total amount of grant funds available for the pilot program is $2.5 million.

Funding Instrument and Project Duration

The Federal grant contribution will not exceed 50 percent of proposed eligible project costs with a maximum grant amount of $500,000 per consortium. Applicants are expected to provide the remaining share, preferably in cash. Federal funding will be a one-time injection with a grant period not to exceed three years. Assistance will be available for the period of time required to complete the scope of work but not to exceed three years from the date of the grant offer.

Request for Applications

Competitive Application Kits (Application Kits) #180-0028-1 will be available from Commerce starting June 28, 1991.

To obtain a copy of the Application Kit #180-0028-1, please send a written request with two self-addressed mailing labels to Mr. George Muller, Director, Office of Export Trading Company Affairs, room 1800 HCHB, U.S. Department of Commerce, 14th and Constitution Avenue NW., Washington, DC 20230. Only written requests will be honored; telephone, fax, or walk-in requests will not be accepted. Only one copy of the Application Kit will be provided to each organization requesting it, but it may be reproduced by the requester. Applications (Standard Form 424 (Rev. 4-88)) are to be received at the address designated in the Application Kit no later than 3 p.m., e.d.t., August 13, 1991. Subject to the availability of funds, awards will be made prior to the end of 1991.

Eligibility

Eligible applicants for the Business Consortia Grant Program will be private and public non-profit U.S. organizations including non-profit corporations, associations and public sector entities. Within the industry or industries represented by the consortium, membership in a consortium must be available on a non-discriminatory basis. For example, membership in a trade association cannot be a requirement for membership in a consortium. Only applicants proposing to open an office in one or more of the following East European countries are eligible for this program: Poland, Hungary, Czechoslovakia, Bulgaria, Romania, and Yugoslavia. Each application will receive an independent, objective review by one or more review panels qualified to evaluate the applications submitted under the program. Applications will be evaluated on a competitive basis in accordance with the selection criteria set below.

Selection Criteria

Priority consideration will be given to those CABEE proposals which:

1. Focus on Poland, Hungary, and Czechoslovakia as the geographic target of commercial activities.
2. Involve or relate to the following industries: environment, energy, telecommunications, agriculture and agribusiness, and housing. Marketability of the products and/or services in the applicable East European countries will be taken into account in evaluating applications.
3. Are proposed by applicants with the capacity, qualifications and staff necessary to successfully undertake the intended activities.
4. Demonstrate the capability and intent of enlisting small and mid-sized U.S. firms as CABEE members.
5. Provide a reasonable assurance that the proposed project can be continued on a self-sustained basis after expiration of the Federal grant.
6. Contain a commitment to encourage, support and assist development of indigenous counterpart organizations (e.g. trade associations) and a well reasoned explanation as to how that will be accomplished.
7. Present a realistic work plan detailing the services it will provide to the CABEE members.
8. Present a reasonable, itemized budget for the proposed activities.

Selection criteria 1-3 will be weighted equally but will be accorded a greater degree of importance than the remaining criteria. Selection criteria 4-8 will be weighted equally.

Notifications

All applicants are advised of the following:

1. Applicants that have an outstanding account receivable with the Federal Government may not be considered for funding until these debts have been paid or arrangements satisfactory to the Department are made to pay the debt.
2. 15 CFR part 28 prohibits recipients of Federal contracts, grants, and cooperative agreements from using appropriated funds for lobbying the Executive or Legislative branches of the Federal government in connection with a specific contract, grant, or cooperative agreement. A "Certification Regarding Lobbying" and the SF-LLL, "Disclosure of Lobbying Activities" (if applicable), is required for awards exceeding $100,000.
3. Applicants are subject to Governmentwide Debarment and Suspension (Nonprocurement) requirements as stated in 15 CFR part 26. In accordance with the Drug-Free Workplace Act of 1988, each applicant must make the appropriate certification as a "prior condition" to receiving a grant or cooperative agreement.
4. A false statement on the application may be grounds for denial or termination of funds.
5. Awards under this program shall be subject to all Federal and Departmental regulations, policies and procedures applicable to financial assistance awards.
6. All recipients are advised of the applicability of Executive Order 12372, "Intergovernmental Review of Federal Programs."
7. The Standard Form 424 (Rev. 4-88) mentioned in this Notice is subject to the requirements of the Paperwork Reduction Act and it has been approved by OMB under Control No. 0348-0006.

Dated: June 21, 1991.

George Muller,

Director, Office of Export Trading Company Affairs.

Department of Education

Educational Research Grant Program: Researcher Training Project; Notice Inviting Applications for New Awards for FY 1991

VOL
56
ISS
123
JE
26
1991
UMI

DEPARTMENT OF EDUCATION

[CFDA No.: 84.117H]

Educational Research Grant Program: Researcher Training Project; Notice Inviting Applications for New Awards for Fiscal Year (FY) 1991

Note to Applicants: This notice is a complete application package. Together with the statute authorizing the program and applicable regulations governing the program, including the Education Department General Administrative Regulations (EDGAR), this notice contains all of the information, application forms, and instructions needed to apply for a grant under this competition.

Purpose of Program: The Educational Research Grant Program (ERGP) supports scientific inquiry designed to advance educational theory and practice.

Eligible Applicants: The following are eligible for awards under the Educational Research Grant Programs: (a) Institutions of higher education; (b) Public and private organizations, institutions, and agencies; and (c) Individuals.

Deadline for Transmittal of Applications: July 31, 1991.

Available Funds: $150,000.

Estimated Range of Awards: $150,000.

Estimated Average Size of Awards: $150,000.

Estimated Number of Awards: 1.

Note: The Department is not bound by any estimates in this notice.

Project Period: Up to 12 months.

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR part 74 (Administration of Grants to Institutions of Higher Education, Hospitals, and Nonprofit Organizations), part 75 (Direct Grant Programs), part 77 (Definitions that Apply to Department Regulations), part 80 (Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments), part 81 (General Education Provisions Act—Enforcement), part 82 (New Restrictions on Lobbying), part 85 (Government-wide Debarment and Suspension (Nonprocurement) and Government-wide Requirements for Drug-Free Workplace (Grants)), part 86 (Drug-Free Schools and Campuses); and (b) The regulations for this program in 34 CFR part 700.

Eligible Activity: Under 34 CFR 700.3 (a) and (b), the Secretary restricts applications under this competition to those proposing the following activity: training of individuals in educational research. Only applications proposing to conduct this activity will be considered under this competition.

Invitational Priority: The Secretary is particularly interested in applications that propose to conduct educational research training projects that involve (1) mentored internships in research institutions such as the Research and Development Centers and Regional Educational Laboratories supported by the Department's Office of Educational Research and Improvement; and (2) opportunities for participants to engage in original research and scholarly writing. The Secretary encourages projects that make special efforts to recruit minority individuals through, among other activities, collaboration with institutions and organizations where minority individuals who are potential educational research candidates may be found, such as historically Black colleges and universities, other colleges and universities that prepare minority educators, or professional associations. A grantee may not, however, limit eligibility to participate in the project on the basis of minority status. See Nondiscrimination in Federally Assisted Programs; title VI of the Civil Rights Act of 1964; Policy Interpretation, 44 FR 58509 (October 10, 1979). Copies can be obtained from the address listed in the "FOR FURTHER INFORMATION CONTACT" section of this notice.

Under 34 CFR 75.105(c)(1), an application that meets this invitational priority does not receive competitive or absolute preference over other applications that do not meet the invitational priority.

Selection Criteria

(a)(1) In evaluating applications for new grants under this competition, the Secretary uses the selection criteria in 34 CFR 700.22.

(2) The program regulations in 34 CFR 700.20(b)(2) provide that the Secretary may award up to 100 points for the selection criteria, including a reserved 25 points distributed in accordance with 34 CFR 700.20(b)(4).

(3) For this competition the Secretary distributes the 25 points as follows:

(i) Plan of operation (34 CFR 700.22(a)). Ten points are added to this criterion for a total of 20 points.

(ii) Evaluation plan (34 CFR 700.22(d)). Five points are added to this criterion for a total of 10 points.

(iii) Significance (34 CFR 700.22(f)). Five points are added to this criterion for a total of 20 points.

(iv) Technical soundness (34 CFR 700.22(g)). Five points are added to this criterion for a total of 20 points.

(4) The maximum score for each criterion is indicated in parentheses.

(b) (1) *Plan of operation* (20 points). The Secretary reviews each application to determine the quality of the plan of operation for the project, including—

(i) The extent to which the plan of management is effective and ensures proper and efficient administration of the project;

(ii) The quality of the applicant's plans to use its resources and personnel to achieve each objective of the project; and

(iii) The extent to which the applicant will equitably address the educational needs of students and educators in both public and private educational institutions.

(2) *Quality of key personnel* (20 points).

(i) The Secretary reviews each application to determine the quality of key personnel the applicant plans to use on the project, including—

(A) The qualifications of the principal investigator;

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (b)(2)(i) (A) and (B) will commit to the project; and

(ii) How the applicant, as part of its nondiscriminatory employment practices, will ensure that its personnel are selected for employment without regard to race, color, national origin, gender, age, or handicapping condition.

(ii) To determine personnel qualifications under paragraphs (b)(2)(i) (A) and (B), the Secretary considers—

(A) Experience and training in fields related to the objectives of the project; and

(B) Any other qualifications that pertain to the quality of the project.

(3) *Budget and cost-effectiveness* (5 points). The Secretary reviews each application to determine the extent to which—

(i) The budget is adequate to support the project; and

(ii) Costs are reasonable in relation to the objectives, design, and potential significance of the project.

(4) *Evaluation plan* (10 points). The Secretary reviews each application to determine the quality of the evaluation plan for the project, including the extent to which the applicant's methods of evaluation—

(i) Are appropriate to the project; and

(ii) To the extent possible, are objective and produce data that are quantifiable.

(5) *Adequacy of resources* (5 points). The Secretary reviews each application to determine the adequacy of the resources that the applicant plans to devote to the project, including facilities, equipment and supplies.

(6) *Significance* (20 points).

(i) The Secretary reviews each application to determine the significance of the proposed project.

(ii) The Secretary determines the project's potential to make a significant contribution to American education, as measured by factors such as—

(A) Importance of the proposed project from the standpoint of basic knowledge or of problems in American education;

(B) The likely magnitude of the addition that will be made to knowledge or educational practices if the project is successful, including the extent to which the proposed outcomes can be broadly applied;

(C) The extent to which the project involves creative or innovative approaches that complement or are alternatives to existing approaches to the project's problem area; and

(D) The extent to which the project is designed to yield products and outcomes that can be disseminated and utilized in other settings, such as information, materials, processes, or techniques.

(7) *Technical soundness* (20 points).

(i) The Secretary reviews each application to determine the technical soundness of the proposed activities.

(ii) The Secretary determines—

(A) The adequacy of the project's design, methodology, instrumentation, and data analysis plan, as applicable;

(B) The extent to which the application exhibits a thorough knowledge of current research and development concepts, theories, and outcomes and relates these to the proposed activity; and

(C) The extent to which, where appropriate, the perspectives of a variety of disciplines are used.

Instructions for Transmittal of Applications

(a) If an applicant wants to apply for a grant, the applicant shall—

(1) Mail the original and two copies of the application on or before the deadline date to: U.S. Department of Education, Application Control Center, Attention: (CFDA #84.117H) Washington, DC 20202–4725 or

(2) Hand deliver the original and two copies of the application by 4:30 p.m. (Washington, DC time) on the deadline date to: U.S. Department of Education, Application Control Center, Attention: (CFDA #84.117H), room #3633, Regional Office Building #3, 7th and D Streets, SW., Washington, DC.

(b) An applicant must show one of the following as proof of mailing:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from commerical carrier.

(4) Any other proof of mailing acceptable to the Secretary.

(c) If an application is mailed through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing:

(1) A private metered postmark.

(2) A mail receipt that is not dated by the U.S. Postal Service.

Notes: (1) The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

(2) The Application Control Center will mail a Grant Application Receipt Acknowledgment to each applicant. If an applicant fails to receive the notification of application receipt within 15 days from the date of mailing the application, the applicant should call the U.S. Department of Education Application Control Center at (202) 708–0494.

(3) The applicant must indicate on the envelope and—if not provided by the Department—in Item 10 of the Application for Federal Assistance (Standard Form 424) the CFDA number—and suffix letter, if any—of the competition under which the application is being submitted.

Application Instructions and Forms

The appendix to this application is divided into three parts plus a statement regarding estimated public reporting burden and various assurances and certifications. These parts and additional materials are organized in the same manner that the submitted application should be organized. The parts and additional materials are as follows:

Part I: Application for Federal Assistance (Standard Form 424 (Rev. 4–88)) and instructions.

Part II: Budget Information—Non-Construction Programs (Standard Form 424A) and instructions.

Part III: Application Narrative.

Additional Materials

Estimated Public Reporting Burden.

Assurances—Non-Construction Programs (Standard Form 424B).

Certifications regarding Lobbying; Debarment, Suspension, and Other Responsibility Matters; and Drug-Free Workplace Requirements (ED 80–0013).

Certification regarding debarment, Suspension, Ineligibility and Voluntary Exclusion: Lower Tier Covered Transactions (ED 80–0014, 9/90) and instructions.

Note: ED 80–0014 is intended for the use of grantees and should not be transmitted to the Department.)

Disclosure of Lobbying Activities (Standard Form LLL) (if applicable) and instructions; and Disclosure of Lobbying Activities Continuation Sheet (Standard Form LLL–A).

An applicant may submit information on a photostatic copy of the application and budget forms, the assurances, and the certifications. However, the application form, the assurances, and the certifications must each have an original signature. No grant may be awarded unless a completed application form has been received.

FOR FURTHER INFORMATION CONTACT: Cheryl Garnette, U.S. Department of Education, 555 New Jersey Avenue NW., room 510B Capitol Place, Washington, DC 20208–5644. Telephone: 202–219–2287. FAX: 202–219–2106. Deaf and hearing impaired individuals may call the Federal Dual Party Relay Service at 1–800–877–8339 (in the Washington, DC 202 area code, telephone 703–9300) between 8 a.m. and 7 p.m., Eastern time.

Program Authority: 20 U.S.C. 1221e.

Dated: June 21, 1991.

Bruno V. Manno,

Acting Assistant Secretary for Educational Research and Improvement.

Standard Form 424 (REV 4-88)
Prescribed by OMB Circular A-102

Authorized for Local Reproduction

INSTRUCTIONS FOR THE SF 424

This is a standard form used by applicants as a required facesheet for preapplications and applications submitted for Federal assistance. It will be used by Federal agencies to obtain applicant certification that States which have established a review and comment procedure in response to Executive Order 12372 and have selected the program to be included in their process, have been given an opportunity to review the applicant's submission.

Item:	Entry:
1.	Self-explanatory.
2.	Date application submitted to Federal agency (or State if applicable) & applicant's control number (if applicable).
3.	State use only (if applicable).
4.	If this application is to continue or revise an existing award, enter present Federal identifier number. If for a new project, leave blank.
5.	Legal name of applicant, name of primary organizational unit which will undertake the assistance activity, complete address of the applicant, and name and telephone number of the person to contact on matters related to this application.
6.	Enter Employer Identification Number (EIN) as assigned by the Internal Revenue Service.
7.	Enter the appropriate letter in the space provided.
8.	Check appropriate box and enter appropriate letter(s) in the space(s) provided: — "New" means a new assistance award. — "Continuation" means an extension for an additional funding/budget period for a project with a projected completion date. — "Revision" means any change in the Federal Government's financial obligation or contingent liability from an existing obligation.
9.	Name of Federal agency from which assistance is being requested with this application.
10.	Use the Catalog of Federal Domestic Assistance number and title of the program under which assistance is requested.
11.	Enter a brief descriptive title of the project. If more than one program is involved, you should append an explanation on a separate sheet. If appropriate (e.g., construction or real property projects), attach a map showing project location. For preapplications, use a separate sheet to provide a summary description of this project.
12.	List only the largest political entities affected (e.g., State, counties, cities).
13.	Self-explanatory.
14.	List the applicant's Congressional District and any District(s) affected by the program or project.
15.	Amount requested or to be contributed during the first funding/budget period by each contributor. Value of in-kind contributions should be included on appropriate lines as applicable. If the action will result in a dollar change to an existing award, indicate *only* the amount of the change. For decreases, enclose the amounts in parentheses. If both basic and supplemental amounts are included, show breakdown on an attached sheet. For multiple program funding, use totals and show breakdown using same categories as item 15.
16.	Applicants should contact the State Single Point of Contact (SPOC) for Federal Executive Order 12372 to determine whether the application is subject to the State intergovernmental review process.
17.	This question applies to the applicant organization, not the person who signs as the authorized representative. Categories of debt include delinquent audit disallowances, loans and taxes.
18.	To be signed by the authorized representative of the applicant. A copy of the governing body's authorization for you to sign this application as official representative must be on file in the applicant's office. (Certain Federal agencies may require that this authorization be submitted as part of the application.)

INSTRUCTIONS FOR THE SF-424A

General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require budgets to be separately shown by function or activity. For other programs, grantor agencies may require a breakdown by function or activity. Sections A,B,C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the latter case, Sections A,B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a-k of Section B.

Section A. Budget Summary
Lines 1-4, Columns (a) and (b)

For applications pertaining to a *single* Federal grant program (Federal Domestic Assistance Catalog number) and *not requiring* a functional or activity breakdown, enter on Line 1 under Column (a) the catalog program title and the catalog number in Column (b).

For applications pertaining to a *single* program *requiring* budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the catalog program title on each line in *Column* (a) and the respective catalog number on each line in Column (b).

For applications pertaining to *multiple* programs where one or more programs *require* a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should provide the summary totals by programs.

Lines 1-4, Columns (c) through (g.)

For new applications, leave Columns (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

Lines 1-4, Columns (c) through (g.) (continued)

For continuing grant program applications, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal granter agency instructions provide for this. Otherwise, leave these columns blank. Enter in columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (e) and (f).

For supplemental grants and changes to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (e) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (e) and (f).

Line 5 — Show the totals for all columns used.

Section B Budget Categories

In the column headings (1) through (4), enter the titles of the same programs, functions, and activities shown on Lines 1-4, Column (a), Section A. When additional sheets are prepared for Section A, provide similar column headings on each sheet. For each program, function or activity, fill in the total requirements for funds (both Federal and non-Federal) by object class categories.

Lines 6a-i — Show the totals of Lines 6a to 6h in each column.

Line 6j – Show the amount of indirect cost.

Line 6k – Enter the total of amounts on Lines 6i and 6j. For all applications for new grants and continuation grants the total amount in column (5), Line 6k, should be the same as the total amount shown in Section A, Column (g), Line 5. For supplemental grants and changes to grants, the total amount of the increase or decrease as shown in Columns (1)-(4), Line 6k should be the same as the sum of the amounts in Section A, Columns (e) and (f) on Line 5.

INSTRUCTIONS FOR THE SF-424A *(continued)*

Line 7 – Enter the estimated amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount. Show under the program narrative statement the nature and source of income. The estimated amount of program income may be considered by the federal grantor agency in determining the total amount of the grant.

Section C. Non-Federal-Resources

Lines 8-11 – Enter amounts of non-Federal resources that will be used on the grant. If in-kind contributions are included, provide a brief explanation on a separate sheet.

Column (a) – Enter the program titles identical to Column (a), Section A. A breakdown by function or activity is not necessary.

Column (b) – Enter the contribution to be made by the applicant.

Column (c) – Enter the amount of the State's cash and in-kind contribution if the applicant is not a State or State agency. Applicants which are a State or State agencies should leave this column blank.

Column (d) – Enter the amount of cash and in-kind contributions to be made from all other sources.

Column (e) – Enter totals of Columns (b), (c), and (d).

Line 12 — Enter the total for each of Columns (b)-(e). The amount in Column (e) should be equal to the amount on Line 5, Column (f), Section A.

Section D Forecasted Cash Needs

Line 13 – Enter the amount of cash needed by quarter from the grantor agency during the first year.

Line 14 – Enter the amount of cash from all other sources needed by quarter during the first year.

Line 15 – Enter the totals of amounts on Lines 13 and 14.

Section E. Budget Estimates of Federal Funds Needed for Balance of the Project

Lines 16 - 19 – Enter in Column (a) the same grant program titles shown in Column (a), Section A. A breakdown by function or activity is not necessary. For new applications and continuation grant applications, enter in the proper columns amounts of Federal funds which will be needed to complete the program or project over the succeeding funding periods (usually in years). This section need not be completed for revisions (amendments, changes, or supplements) to funds for the current year of existing grants.

If more than four lines are needed to list the program titles, submit additional schedules as necessary.

Line 20 – Enter the total for each of the Columns (b)-(e). When additional schedules are prepared for this Section, annotate accordingly and show the overall totals on this line.

Section F. Other Budget Information

Line 21 – Use this space to explain amounts for individual direct object-class cost categories that may appear to be out of the ordinary or to explain the details as required by the Federal grantor agency.

Line 22 – Enter the type of indirect rate (provisional, predetermined, final or fixed) that will be in effect during the funding period, the estimated amount of the base to which the rate is applied, and the total indirect expense.

Line 23 – Provide any other explanations or comments deemed necessary.

BILLING CODE 4000-01-C

VOL 56 ISS 123 JE 26 1991 UMI

Part III—Application Narrative

A. *Application Instructions for New Awards—*

1. Information on who is eligible to apply for a grant award can be found in section 700.2 of the Final Regulations for the program.

2. In order to be considered for funding you must submit an original and two copies (and in order to expedite the review and award process, it is strongly suggested that you voluntarily submit three additional copies).

B. *Instructions for Proposal Narrative—*

1. Research Priorities

Applicants are invited to address the priority published in the Federal Register Notice Inviting Applications contained in this application package.

2. Proposal Narrative

a. Applicants must provide a proposal narrative not to exceed 80–100 double spaced typed pages (normal sized type, no smaller than 10 point pica). The narrative must address each of the following criteria contained in 34 CFR 700.22:

(1) Plan of operation
(2) Quality of key personnel
(3) Budget and cost-effectiveness
(4) Evaluation plan
(5) Adequacy of resources
(6) Significance
(7) Technical soundness

Under the discussion of technical soundness, applicants should describe in detail and justify the procedures that will be used to carry out the proposed work.

b. Applicants are encouraged to provide a summary of the program project (not to exceed 500 words).

3. Budget Information

Applicants must provide a detailed budget for each project and activity to support the request in the budget information from (SF 424A). The cost categories for the detailed budget for each project must be consistent with the cost categories in the summary budget information form. (Instructions are included.)

Provide (at line 21 and attached sheets) a breakdown detailing individual units or activities and amount for each "object class category." For example, for "personnel," show salaries and wages for each staff member by position or name; for "contractual," show consultants, sub-contractual services, materials.

4. Technical Assistance

Any questions regarding a competition should be addressed to the contact person named in the notice inviting applications contained in this package.

5. Reporting Requirements

Each applicant should consider reporting requirements in developing the plan of operation. Performance of financial reports are required at the completion of each project period. Additional guidance will be given prior to the time that the grant is awarded.

Instructions for Estimated Public Reporting Burden

Under terms of the Paperwork Reduction Act of 1980, as amended, and the regulations implementing that Act, the Department of Education invites comment on the public reporting burden in this collection of information. Public reporting burden for this collection of information is estimated to average 27 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of infomation. You may send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Education, Information Management and Compliance Division, Washington, DC 20202–4651; and to the Office of Management and Budget, Paperwork Reduction Project 1850–0651, Washington, DC 20503.

(Information collection approved under OMB control number 1850–0651. Expiration date: November 30, 1993)

BILLING CODE 4000-01-M

OMB Approval No. 0348-0040

ASSURANCES — NON-CONSTRUCTION PROGRAMS

Note: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States, and if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§ 4728-4763) relating to prescribed standards for merit systems for programs funded under one of the nineteen statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§ 6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§ 523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. 290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. § 3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.
7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
8. Will comply with the provisions of the Hatch Act (5 U.S.C. §§ 1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.
9. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§ 276a to 276a-7), the Copeland Act (40 U.S.C. § 276c and 18 U.S.C. §§ 874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§ 327-333), regarding labor standards for federally assisted construction subagreements.

Authorized for Local Reproduction

VOL 56 ISS 123 JE 26 1991 UMI

10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program andto purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.

11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§ 1451 et seq.); (f) conformity of Federal actions to State (Clear Air) Implementation Plans under Section 176(c) of the Clear Air Act of 1955, as amended (42 U.S.C. § 7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended, (P.L. 93-523); and (h) protection of endangered species under the Endangered Species Act of 1973, as amended, (P.L. 93-205).

12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§ 1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. 469a-1 et seq.).

14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.

15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. 2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.

16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§ 4801 et seq.) which prohibits the use of lead based paint in construction or rehabilitation of residence structures.

17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act of 1984.

18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations and policies governing this program.

SIGNATURE OF AUTHORIZED CERTIFYING OFFICIAL	TITLE
APPLICANT ORGANIZATION	DATE SUBMITTED

SF 424B (4-88) Back

CERTIFICATIONS REGARDING LOBBYING; DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS; AND DRUG-FREE WORKPLACE REQUIREMENTS

Applicants should refer to the regulations cited below to determine the certification to which they are required to attest. Applicants should also review the instructions for certification included in the regulations before completing this form. Signature of this form provides for compliance with certification requirements under 34 CFR Part 82, "New Restrictions on Lobbying," and 34 CFR Part 85, "Government-wide Debarment and Suspension (Nonprocurement) and Government-wide Requirements for Drug-Free Workplace (Grants)." The certifications shall be treated as a material representation of fact upon which reliance will be placed when the Department of Education determines to award the covered transaction, grant, or cooperative agreement.

1. LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 34 CFR Part 82, for persons entering into a grant or cooperative agreement over $100,000, as defined at 34 CFR Part 82, Sections 82.105 and 82.110, the applicant certifies that:

(a) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making of any Federal grant, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal grant or cooperative agreement;

(b) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form - LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions;

(c) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subgrants, contracts under grants and cooperative agreements, and subcontracts) and that all subrecipients shall certify and disclose accordingly.

2. DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS

As required by Executive Order 12549, Debarment and Suspension, and implemented at 34 CFR Part 85, for prospective participants in primary covered transactions, as defined at 34 CFR Part 85, Sections 85.105 and 85.110 –

A. The applicant certifies that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

(b) Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and

(d) Have not within a three-year period preceding this application had one or more public transactions (Federal, State, or local) terminated for cause or default; and

B. Where the applicant is unable to certify to any of the statements in this certification, he or she shall attach an explanation to this application.

3. DRUG-FREE WORKPLACE (GRANTEES OTHER THAN INDIVIDUALS)

As required by the Drug-Free Workplace Act of 1988, and implemented at 34 CFR Part 85, Subpart F, for grantees, as defined at 34 CFR Part 85, Sections 85.605 and 85.610 –

A. The applicant certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an on-going drug-free awareness program to inform employees about –

(1) The dangers of drug abuse in the workplace;

(2) The grantee's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will –

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency, in writing, within 10 calendar days after receiving notice under subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to: Director, Grants and Contracts Service, U.S. Department of Education, 400 Maryland Avenue, S.W. (Room 3124, GSA Regional Office

Building No. 3), Washington, DC 20202-4571. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is so convicted—

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e), and (f).

B. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, state, zip code)

_____

_____

Check ☐ if there are workplaces on file that are not identified here.

DRUG-FREE WORKPLACE
(GRANTEES WHO ARE INDIVIDUALS)

As required by the Drug-Free Workplace Act of 1988, and implemented at 34 CFR Part 85, Subpart F, for grantees, as defined at 34 CFR Part 85, Sections 85.605 and 85.610 –

A. As a condition of the grant, I certify that I will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in conducting any activity with the grant; and

B. If convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity, I will report the conviction, in writing, within 10 calendar days of the conviction, to: Director, Grants and Contracts Service, U.S. Department of Education, 400 Maryland Avenue, S.W. (Room 3124, GSA Regional Office Building No. 3), Washington, DC 20202-4571. Notice shall include the identification number(s) of each affected grant.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above certifications.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions

This certification is required by the Department of Education regulations implementing Executive Order 12549, Debarment and Suspension, 34 CFR Part 85, for all lower tier transactions meeting the threshold and tier requirements stated at Section 85.110.

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion—Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Certification

(1) The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

(2) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

Federal Use Only	Authorized for Local Reproduction Standard Form - LLL

INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Use the SF-LLL-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.
2. Identify the status of the covered Federal action.
3. Identify the appropriate classification of this report. If this is a followup report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.
4. Enter the full name, address, city, state and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.
5. If the organization filing the report in item 4 checks "Subawardee", then enter the full name, address, city, state and zip code of the prime Federal recipient. Include Congressional District, if known.
6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.
7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.
8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."
9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, state and zip code of the lobbying entity engaged by the reporting entity identified in item 4 to influence the covered Federal action.

    (b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a). Enter Last Name, First Name, and Middle Initial (MI).
11. Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (item 4) to the lobbying entity (item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.
12. Check the appropriate box(es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.
13. Check the appropriate box(es). Check all boxes that apply. If other, specify nature.
14. Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with Federal officials. Identify the Federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.
15. Check whether or not a SF-LLL-A Continuation Sheet(s) is attached.
16. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, D.C. 20503

The Federal Register

Regulations appear as agency documents which are published daily in the **Federal Register** and codified annually in the **Code of Federal Regulations**

The Federal Register, published daily, is the official publication for notifying the public of proposed and final regulations. It is the tool for you to use to participate in the rulemaking process by commenting on the proposed regulations. And it keeps you up to date on the Federal regulations currently in effect.

Mailed monthly as part of a Federal Register subscription are: the LSA (List of CFR Sections Affected) which leads users of the Code of Federal Regulations to amendatory actions published in the daily Federal Register; and the cumulative Federal Register Index.

The Code of Federal Regulations (CFR) comprising approximately 196 volumes contains the annual codification of the final regulations printed in the Federal Register. Each of the 50 titles is updated annually.

Individual copies are separately priced. A price list of current CFR volumes appears both in the Federal Register each Monday and the monthly LSA (List of CFR Sections Affected). Price inquiries may be made to the Superintendent of Documents, or the Office of the Federal Register.

Superintendent of Documents Subscription Order Form

Order Processing Code:
*6463

Charge your order. It's easy! VISA

Charge orders may be telephoned to the GPO order desk at (202) 783-3238 from 8:00 a.m. to 4:00 p.m. eastern time, Monday-Friday (except holidays)

Guide to Record Retention Requirements

in the Code of Federal Regulations (CFR)

GUIDE: Revised January 1, 1989
SUPPLEMENT: Revised January 1, 1991

The GUIDE and the SUPPLEMENT should be used together. This useful reference tool, compiled from agency regulations, is designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

Order from Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402-9325.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 56 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

WASHINGTON, DC

WHEN: July 2, at 9:00 am
WHERE: Office of the Federal Register, First Floor Conference Room, 1100 L Street NW., Washington, DC
RESERVATIONS: 202–523–5240

NEW ORLEANS, LA

WHEN: July 23, at 9:00 am
WHERE: Federal Building, 501 Magazine St., Conference Room 1120, New Orleans, LA
RESERVATIONS: Federal Information Center 1–800–366–2998

Rules and Regulations

Federal Register
Vol. 56, No. 124
Thursday, June 27, 1991

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1210

[WRPA Docket No. 1; FV-91-253]

Watermelon Research and Promotion Plan; Amendments to Rules and Regulations

AGENCY: Agricultural Marketing Service (USDA).
ACTION: Interim final rule.

SUMMARY: This interim final rule amends rules and regulations issued under the Watermelon Research and Promotion Plan to clarify when the 90-day refund period begins for assessments paid by producers and handlers and specifies that, when requesting a refund, handlers must submit copies of a specified report, and producers must submit receipts or copies of receipts received from handlers on the date the producer's watermelons were handled.

DATES: Effective June 27, 1991. Comments which are received by July 29, 1991 will be considered prior to the issuance of any final rule.

ADDRESSES: Interested persons may submit written comments concerning this interim final rule. Comments must be sent in triplicate to the Docket Clerk, Fruit and Vegetable Division, AMS, USDA, room 2525, South Building, P.O. Box 96456, Washington, DC 20090-6456. Comments should reference docket number FV-91-253 and the date and page number of this issue of the **Federal Register**. A copy of comments received will be made available for public inspection in the office of the Docket Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: Richard H. Mathews, Marketing Order Administration Branch, F&V, AMS, USDA, room 2525-South, P.O. Box 96456, Washington, DC 20090-6456; telephone (202) 447-4140.

SUPPLEMENTARY INFORMATION: This interim final rule is issued under the Watermelon Research and Promotion Plan (Plan) (7 CFR part 1210). The Plan is effective under the Watermelon Research and Promotion Act (7 U.S.C. 4901-4916), hereinafter referred to as the Act.

This rule has been reviewed by the Department of Agriculture (Department) in accordance with Departmental Regulation No. 1512-1 and the criteria contained in Executive Order 12291 and has been detemined to be a "non-major" rule.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened.

The Act and Plan provide that all producers (not including persons engaged in the growing of less than five acres of watermelons) and handlers of watermelons are subject to regulation under the Plan for watermelons produced in the contiguous 48 States. The Act and Plan provide that watermelon producers and handlers pay equal assessments for operating the program. The Act and Plan further provide that handlers are responsible for collecting and submitting both producer and handler assessments to the National Watermelon Promotion Board (Board), reporting their handling of watermelons, and for maintaining records necessary to verify their reportings.

There are approximately 750 watermelon handlers and 5,000 watermelon producers subject to regulation under the Plan. Small agricultural service firms are defined by the Small Business Administration (13 CFR 121.2) as those having annual receipts of less than $3,500,000 and small agricultural producers are defined as those having annual receipts of less than $500,000. The majority of watermelon handlers and producers may be classified as small entities.

This action would not have a significant economic impact on small handlers or producers. This action would benefit both producers and handlers by clarifying when the refund period starts and what documentation is acceptable for proving payment of assessments.

Section 1647(b)(2) of the Act (7 U.S.C. 4906(b)(2)) and § 1210.327(b) (7 CFR 1210.327(b)) of the Plan authorize the Board to recommend to the Secretary such rules and regulations as are necessary to effectuate the terms and conditions of the Plan. Section 1210.520 of the current regulations (7 CFR 1210.520) specifies the procedures for requesting refunds of assessments.

Based on the exeperience of its first year of operation, the Board believes that the wording in § 1210.520 is confusing and open to misinterpretation by watermelon producers and handlers. The Board believes that replacement of the word "payable" with the word "due" in the first sentence of § 1210.520 will clarify that the section is referring to the end for the month the watermelons were actually handled. The industry considers the payable date as being the thirtieth day following the month the watermelons were handled, which is the date by which handlers must remit their assessments to the Board.

Also, the Board recommended revision of § 1210.520(b) to clarify when the 90-day period begins for the submission of a refund application, by both producers and handlers. The Board believes that the current provision could be interpreted as meaning that the 90-day period begins on the actual day of handling; on the last day of the month of handling; on the handler's due date for paying assessments, following the month of handling; or on some other date. The Board wants to clarify the provision establishing when the refund period begins by specifying that the refund period begins for both producers and handlers on the last day of the month of handling.

While no refunds, in part or total, have been denied because of a misunderstanding regarding the beginning of the 90-day refund period, the Board believes this revision should eliminate the potential for refunds being denied because of misunderstandings of when the refund period begins. This revision is consistent with the requirements of the Act which provide that both producers and handlers be

VOL 56 ISS 124 JE 27 1991 UMI

given not less than 90 days to request a refund of assessments paid.

Also, the Board recommends that § 1210.520 be revised to specify what documents must be submitted by producers and handlers as evidence of payment of assessments when requesting a refund. As revised, this provision specifies that producers must submit a receipt, or copy thereof, received from the handler on the date the watermelons were handled. It further specifies that handlers must submit a copy of the handler's report which they submitted to the Board when they paid the assessments.

In compliance with Office of Management and Budget (OMB) regulations (5 CFR part 1320) which implement the Paperwork Reduction Act (PRA) of 1980 (44 U.S.C. chapter 35) and section 3504(h) of the PRA, the information collection requirements and refund application forms used under the provisions of § 1210.520 have been previously approved by the OMB under OMB No. 0581-0158. This action places no new recordkeeping or reporting requirements on producers or handlers.

Based on available information, the Administrator of the AMS has determined that the issuance of this rule will not have a significant economic impact on a substantial number of small entities.

Upon the basis of the evidence provided by the Board, it is found that this action, and all of its terms and conditions as set forth, will tend to effectuate the declared policy of the Act.

Pursuant to the provisions in 5 U.S.C. 553, it is found and determined that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice prior to putting this rule into effect and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because: (1) This action clarifies the provisions of § 1210.520 by specifying when the 90-day refund period begins; (2) specifying what documents need to accompany refund applications as evidence of the payment of the assessments; and (3) the 1991 crop year began in early April 1991 and any amended rules and regulations should be in place as soon as possible. All written comments received in response to this publication by the date specified herein will be considered prior to any finalization of this interim final rule.

List of Subjects in 7 CFR Part 1210

Agricultural promotion, Agricultural research, Market development, Reporting and recordkeeping requirements, Watermelons.

For the reasons set forth in the preamble, chapter XI of title 7 is amended as follows:

PART 1210—WATERMELON RESEARCH AND PROMOTION PLAN

1. The authority citation for 7 CFR part 1210 continues to read as follows:

Authority: 7 U.S.C. 4901-4916.

2. Section 1210.520 is amended by revising the introductory text, paragraph (b) introductory text, and paragraph (c) to read as follows:

§ 1210.520 Refunds.

Each watermelon producer or handler against whose watermelons an assessment became due and was paid pursuant to this subpart may obtain a refund of the assessment amount paid for any calendar month by following the procedures prescribed in this section.

* * * * *

(b) *Submission of refund application to the Board.* A handler or producer may request a refund of their assessments paid by submitting a refund application within a 90 day period beginning the last day of the month the watermelons were actually handled. The refund application shall show the following:

* * * * *

(c) *Proof of payment of assessment.* Evidence of payment of assessments satisfactory to the Board shall accompany the producer's or handler's refund application. Producers must submit a receipt, or a copy thereof, received from a handler on the date the watermelons were handled. Handlers must submit a copy of the handler's report filed when the handler paid the assessments. Evidence submitted with refund applications shall not be returned to the applicant.

BILLING CODE 3410-02-M

Farmers Home Administration

7 CFR Parts 1951 and 1955

Certain Leaseback/Buyback and Disposal of Farm Inventory Property Provisions of the Food, Agriculture, Conservation, and Trade Act of 1990

AGENCY: Farmers Home Administration, USDA.

ACTION: Interim rule with a request for comments.

SUMMARY: The Food, Agriculture, Conservation, and Trade Act of 1990 (Pub. L. 101-624), hereinafter referred to as the "1990 Farm Bill," amends provisions of the Agricultural Credit Act of 1987 and therefore removes and revises certain provisions of the leaseback/buyback program as well as the procedure by which FmHA manages and disposes of suitable farm inventory property. The FmHA amends its regulations to conform to certain provisions of section 1813, "Disposition of Suitable Property," of the 1990 Farm Bill.

The intended effect is to facilitate keeping borrowers on their farm and ranch property, enhance the Agency's efforts to sell suitable farm property to family size farm operators, provide more guidance to the FmHA field staff, and implement the provisions of the 1990 Farm Bill.

DATES: Interim rule effective June 27, 1991. Comments must be submitted on or before July 29, 1991.

ADDRESSES: Submit written comments, in duplicate, to the Office of the Chief, Regulations Analysis Control Branch, Farmers Home Administration, USDA, room 6348, South Agriculture Building, 14th and Independence Avenue SW., Washington, DC 20250. All written comments will be available for public inspection during regular working hours at the above address.

FOR FURTHER INFORMATION CONTACT: Roger Witt, Branch Chief, Farmers Programs, Farmers Home Administration, USDA, room 5446, Washington, DC 20250, telephone (202) 382-1948.

SUPPLEMENTARY INFORMATION:

Classification

This action has been reviewed under USDA procedures established in Departmental Regulation 1512-1, which implements Executive Order 12291, and has been determined to be nonmajor because it will not result in an annual effect on the economy of 100 million dollars or more.

Programs Affected

These changes affect the following FmHA programs as listed in the catalog of Federal Domestic Assistance:

10.404—Emergency Loans.
10.406—Farm Operating Loans.
10.407—Farm Ownership.
10.407—Low Income Housing Loans.
(Section 502 Rural Housing Loans)
10.416—Soil and Water Loans.

Intergovernmental Consultation

1. For the reasons set forth in the final rule related to notice 7 CFR 3015, subpart V (48 FR 29115, June 24, 1983) and FmHA Instruction 1940-J, "Intergovernmental Review of Farmers Home Administration Programs and Activities," (December 23, 1983), Emergency Loans, Farm Operating Loans, and Farm Ownership Loans are excluded with the exception of the nonfarm enterprise activity from the scope of Executive Order 12372 which requires intergovernmental consultation with State and local officials.

2. The Soil and Water Loans Program is subject to the provisions of Executive Order 12372 and FmHA Instruction 1940-J

Environmental Impact Statement

This document has been reviewed in accordance with 7 CFR part 1940, subpart G, "Environmental Program." It is the determination of FmHA that this action does not constitute a major Federal action significantly affecting the quality of the human environment, and in accordance with the National Environmental Policy Act of 1969 (Pub. L. 91-190), An Environmental Impact Statement is not required.

Background

This document amends the interim rule published in the **Federal Register** (53 FR 35638-35798) on September 14, 1988, which implemented certain provisions of the Agricultural Credit Act of 1987. The 1990 Farm Bill amends the Agricultural Credit Act of 1987 and related statutes as it pertains to the leaseback/buyback program and the manner by which the Agency disposes of suitable farm inventory property. In accordance with the provisions of section 1813, "Disposition of Suitable Inventory Property," of the 1990 Farm Bill, the Agency is amending its regulations to be in compliance with the 1990 Farm Bill. Several of the changes required by section 1813 are as follows:

1. Paragraph (b), "Random Selection Among Equally Qualified Applicants." This provision provides that the County Committee will randomly select the purchaser of suitable farm property when there are two or more applicants that meet the loan eligibility criteria and deletes the requirement that the selection will be based on majority vote.

2. Paragraph (c), "Property Subject to Borrower Purchase or Lease Option." The Agricultural Credit Act of 1987 provided that the leaseback/buyback property consisted of all real property. The 1990 Farm Bill limits the leaseback/buyback property to that of real farm and ranch property, including the principal residence of the borrower.

3. Paragraph (g), "Offering Price." This provision deletes the conflicting provisions of the Food Security Act of 1985 that required farmland be sold at its capitalization value while the Agricultural Credit Act of 1987 required suitable farm property be sold at its market value. To resolve these conflicting provisions, the Agency offered farm property for sale at the lower of its capitalization value or market value. The 1990 Farm Bill deletes the capitalization value price. This provision removes the conflict in the statute and provides that suitable farm property will be offered for a value not greater than that which reflects the appraised market value of such farmland.

In the interim rule date September 14, 1988, FmHA implemented the leaseback/buyback provisions of the Agriculture Credit Act of 1987 by providing that the former owner had the first priority to purchase the real property that FmHA acquired from the former owner. In the event the former borrower was not the same individual as the former owner, FmHA would give a priority to the former owner to purchase the property, not the former borrower. If the borrower was the operator of the farm, the operator would have a priority to purchase the farm, if the former owner or the former owner's spouse and children did not exercise their leaseback/buyback rights. To implement the provisions of paragraph (c) of the 1990 Farm Bill and to ensure that the farm or ranch property will continue to have a residence for the operator of farm or ranch property, we have amended the definition of leaseback/buyback property to provide that the leaseback/buyback property consists of real farm and ranch property of the former owner, including any principal residence of the operator of the farm or ranch. This definition in the 1990 Farm Bill limits the scope of the property that the former owner will have a priority right to acquire from FmHA. In the event that the former owner's residence is acquired by FmHA, such residence is not a part of the farm or ranch property, and the former owner was not the operator of the farm, the former owner's residence would not be a part of the leaseback/buyback property. Likewise, if the former borrower's residence is acquired by FmHA; such residence is not part of the farm and ranch property, and the former borrower was not the operator of the farm or ranch property, the former borrower's residence would not be a part of the leaseback/buyback property. The leaseback/buyback property, however, would consist of any principal residence of the operator, if owned by the same individual that owned the real farm and ranch property. In most situations, the former owner is the former borrower as well as the operator of the farm. However, in the event the former owner, former borrower, and the operator are different individuals, and each reside in a separate residence which are all owned by the same owner, and no residence is considered a part of the farm or ranch property, only the principal residence of the operator would be considered as leaseback/buyback property. With this definition of leaseback/buyback property, it needs to be recognized that there may be a small number of cases where the former owner's residence is located on a nonfarm tract, is not considered a part of the farm or ranch property, and such owner is not the operator of the farm or ranch property. In such case, the former owner will not have a priority to purchase the property under FmHA's leaseback/buyback program; however, in the event the former owner is also the former borrower, such individual would have an opportunity, under FmHA's homestead protection program, to lease with an option to purchase the former borrower's residence and up to ten acres.

The Agency has temporarily suspended the lease and sale of certain real farm and ranch inventory property pending implementation of the 1990 Farm Bill. This document is being published as an interim rule with a 30-day comment period in order that the Agency can resume leaseback/buyback transactions where wetlands are not involved. Many of the farm properties in FmHA inventory will be leased or sold to the former owner and the former owner's family members. In order that the Agency can assist the former owner and the former owner's family members to remain on the farm and continue with their farming operations, for the 1991 crop year and beyond, it is important that FmHA has rules and regulations in place to expedite the lease or sale, in accordance with the provisions of the 1990 Farm Bill.

There are other provisions of section 1813 of the 1990 Farm Bill that require revisions to FmHA regulations but will be addressed in separate issuances of the regulations.

List of Subjects

7 CFR Part 1951

Account servicing, Credit, Loan programs—Agriculture, Loan

VOL 56 ISS 124 JE 27 1991 UMI

programs—Housing and Community development, Low and Moderate income housing loans—Servicing, Debt restructuring.

7 CFR Part 1955

Foreclosure, Government acquired property, Government property management, Sale of government acquired property, Surplus government property.

Accordingly, chapter XVIII, title 7, Code of Federal Regulations is amended as follows:

PART 1951—SERVICING AND COLLECTIONS

1. The authority citation for part 1951 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23 and 2.70

Subpart S—Farmer Programs Account Servicing Policies

2. Section 1951.906 is amended by removing the definition of "inventory property" and adding, in alphabetical order, the definition of "Leaseback/Buyback Property" to read as follows:

§ 1951.906 Definitions.

* * * * *

Leaseback/Buyback Property. Real farm and ranch property and any off the farm principal residence(s) of the operator(s) which secured a Farmer Programs loan. Any off farm principal residence(s) of the former borrower(s) and/or owner(s), who are not the operator(s) of the farm or ranch property, are not considered leaseback/buyback property.

* * * * *

3. Section 1951.911 is amended by removing the first two sentences and adding three new sentences to the beginning of the introductory text of paragraph (a), removing the first two sentences and adding two new sentences to the beginning of paragraph (a)(1)(ii) and revising paragraph (a)(2)(ii) to read as follows:

§ 1951.911 Preservation loan service programs.

(a) *Leaseback/Buyback.* This section contains the policies and procedures pertaining to the Farmer Programs Leaseback/Buyback Program. The Farmer Programs Leaseback/Buyback Program will permit the previous owner of real farm and ranch property, including any off the farm principal residence of the former operator, which was security for a Farmer Programs loan(s), to have the first opportunity to lease or purchase the leaseback/buyback property from FmHA. Any off the farm residence(s) of the former borrower(s) and/or owner(s), who are not the operator(s) of the farm or ranch property are not considered leaseback/buyback property, unless such residence(s) are a part of the farm or ranch property. * * *

(1) * * *

(ii) When FmHA acquires real farm and ranch property, including the principal residence of the former operator, which collateralized a Farmer Programs loan, the former owner will be sent exhibit O of this subpart within 30 days. The former owner has 180 days from the date FmHA acquired the real farm and ranch property, including any off the farm principal residence of the former operator, to apply for leaseback/buyback, unless State laws provide for a longer period. * * *

* * * * *

(2) * * *

(ii) Within each of the foregoing priorities, if there is more than one individual eligible for leaseback/buyback in any category who has indicated an intention, in writing, to the County Supervisor to participate in the leaseback/buyback program (e.g., one individual wants to purchase and the other individual wants to rent), priority within the category will be given to an individual who wants to purchase the leaseback/buyback property, either for cash or by credit sale. There is no preference for a cash sale over a credit sale. If there are two or more individuals in the same priority category who are eligible for leaseback/buyback who both want to purchase (or to lease if no one wants to purchase), the County Committee will make the selection of the lessee and/or purchaser by lot by placing the names in a receptacle and drawing names sequentially. Drawn offers will be numbered and those drawn after the first drawn offer will be held as back-up offers pending sale to the successful offeror. The random selection of the County Committee is not an appealable item for those individuals that are not the successful lessee and/or purchaser.

* * * * *

PART 1955—PROPERTY MANAGEMENT

4. The authority citation for part 1955 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23 and 7 CFR 2.70.

Subpart A—Liquidation of Loans Secured by Real Estate and Acquisition of Real and Chattel Property

5. Section 1955.3 is amended by revising the definition of "Leaseback/Buyback Property" to read as follows:

§ 1955.3 Definitions.

* * * * *

Leaseback/Buyback Property. Real farm and ranch property and any off the farm principal residence(s) of the operator(s) which secured a Farmer Programs loan. Any off farm principal residence(s) of the former borrower(s) and/or owner(s), who are not the operator(s) of the farm or ranch property, are not considered leaseback/buyback property.

* * * * *

6. Section 1955.18 is amended by revising paragraph (i) to read as follows:

§ 1955.18 Actions required after acquisition of property.

* * * * *

(i) *Leaseback/buyback.* The County Supervisor will notify the immediate previous owner of leaseback/buyback rights by sending exhibit O of subpart S of 1951 of this chapter, to the immediate previous owner, certified mail, return receipt requested, immediately after FmHA acquires real farm and ranch property, including any off the farm principal residence of the former operator, that secured an FP loan. The County Supervisor will notify the immediate previous operator of leaseback/buyback rights in accordance with § 1951.911(a)(1)(iii) of subpart S of part 1951 of this chapter by sending exhibit P of subpart S of part 1951 of this chapter to the immediate previous operator, certified mail, return receipt requested, immediately after FmHA acquires real farm and ranch property, including the principal residence of the former operator, that secured an FP loan.

* * * * *

Subpart B—Management of Property

7. Section 1955.53 is amended by adding, in alphabetical order, a new definition of "Leaseback/Buyback Property" to read as follows:

§ 1955.53 Definitions.

* * * * *

Leaseback/Buyback Property. Real farm and ranch property and any off the farm principal residence(s) of the operator(s) which secured a Farmer Programs loan. Any off farm principal residence(s) of the former borrower(s) and/or owner(s), who are not the operator(s) of the farm or ranch property, are not considered leaseback/buyback property.

* * * * *

8. Section 1955.66 is amended by revising paragraph (h) to read as follows:

§ 1955.66 Lease of real property.

* * * * *

(h) *Lease of farm property with option to purchase.* Except for property that was pledged to secure a loan to an organization (as defined in § 1955.53 of this subpart), a lessee may be given the option to purchase farm property.

Terms of the option will be set forth as part of the lease as a special stipulation in accordance with the FMI for form FmHA 1955–20.

(1) The lease payments will not be applied toward the purchase price.

(2) The purchase price (option price) will be the appraised market value of the property. For farm property, the purchase price (option price) will be the market value of the property, as of the date the option is exercised, as set forth in subpart A of part 1809 of this chapter (FmHA Instruction 422.1).

(3) A lease with option to purchase to individuals with leaseback/buyback rights will be for a term not to exceed 5 years. For Preservation Loan Service Programs, refer to subpart S of part 1951 of this chapter. For those individuals that do not have leaseback/buyback rights, a lease with option to purchase farm property will normally not exceed 1 year but may be, in justifiable cases, for a period not longer than 3 years.

(4) If there is more than one prospective lessee that wishes to lease the property with an option to purchase, the County Committee will select the lessee/purchaser in accordance with § 1955.107 of subpart C of part 1955 of this chapter.

(5) Indian tribes or tribal corporations which utilize the Indian Land Acquisition Program will be allowed to purchase the property for its market value less the contributory value of the buildings, in accordance with subpart N of part 1823 of this chapter (FmHA Instruction 442.11).

(6) Denials of applications for or disputes over terms and conditions of a lease are appealable, pursuant to subpart B of part 1900 of this chapter.

* * * * *

Subpart C—Disposal of Inventory Property

9. Section 1955.103 is amended by adding, in alphabetical order, a definition for "Leaseback/Buyback Property" to read as follows:

§ 1955.103 Definitions.

* * * * *

Leaseback/Buyback Property. Real farm and ranch property and any off the farm principal residence(s) of the operator(s) which secured a Farmer Programs loan. Any off farm principal residence(s) of the former borrower(s) and/or owner(s), who are not the operator(s) of the farm or ranch property, are not considered leaseback/buyback property.

* * * * *

10. Section 1955.107 is amended by revising paragraph (c) to read as follows:

§ 1955.107 Sale of suitable property (CONACT).

* * * * *

(c) *Price.* Property will be offered or listed for its appraised market value based on the condition of the property at the time it is made available for sale. For farm property, the market value will be determined by an appraisal made in accordance with subpart A of part 1809 of this chapter (FmHA Instruction 422.1).

BILLING CODE 3410–07–M

NUCLEAR REGULATORY COMMISSION

10 CFR Parts 0, 1 and 2

RIN 3150–AD73

Procedures for Direct Commission Review of Decisions of Presiding Officers

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is amending its rules of procedure to establish a new system for agency appellate review of decisions and actions of presiding officers in all formal and informal agency adjudications.[1] The Commission's prior decision to abolish the Atomic Safety and Licensing Appeal Panel which had provided mandatory administrative appellate review of initial decisions of presiding officers in agency adjudications necessitates the establishment of a new system. The new system provides for discretionary review by the Commissioners of the NRC of most partial and final initial decisions, referred rulings and certifications of questions.

EFFECTIVE DATE: July 29, 1991.

FOR FURTHER INFORMATION CONTACT: E. Neil Jensen, Senior Attorney, Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555; Telephone (301) 492–1634.

SUPPLEMENTARY INFORMATION: This final rule (1) sets forth procedures for petitioning for Commission review of decisions and actions for which review is permitted; (2) establishes a standard which the Commission will employ in determining whether to take review; (3) codifies the existing case law standard for interlocutory review in revised § 2.786(g) and provides that this standard must be met for interlocutory appeals under §§ 2.718(i) and 2.730(f); (4) retains the Commission's current immediate effectiveness review procedure whereby designated licensing board decisions do not become effective until the Commission so determines; (5) makes clear that for all orders subject to judicial review a petition for Commission review is an available remedy for a disappointed party; and (6) incorporates the provisions of present § 2.762 into § 2.1015(c) (relating to licensing of a high level waste repository) which is otherwise unaltered by this rulemaking. In addition, this final rule deletes reference to the Appeal Panel or to appeal boards from NRC regulations. Finally, the NRC's regulations describing internal agency organization are amended to reflect the creation of a new Office of Commission Appellate Adjudication whose function is to assist the Commission in exercising its adjudicatory responsibilities.

This rule includes an additional amendment to 10 CFR part 2. This amendment adds a new § 2.8 entitled, "Information collection requirements: OMB approval." This section provides the OMB clearance approval authority for the existing information collection requirements in 10 CFR part 2, appendix B. The new § 2.8 is included in 10 CFR part 2 solely to correct a technical oversight in the regulations.

[1] For simplicity, these initial decisions will be referred to as licensing board decisions; however, all initial adjudicatory decisions are covered by this final rulemaking.

VOL 56 ISS 124 JE 27 1991 UMI

Background

On October 24, 1990 (55 FR 42947), the Commission published a notice of proposed rulemaking announcing its proposal to establish a new system for providing agency appellate review of initial decisions in all formal and informal agency adjudications to replace the system of mandatory review of initial decisions by appeal boards followed by discretionary review of appeal board decisions by the Commission. The Commission's need to formulate a new system was created by its earlier decision to abolish the Appeal Panel. The Commission proposed to adopt a system providing for direct discretionary review of licensing board decisions by the Commission and further proposed to adopt a broad review standard like that which applied when the Atomic Safety and Licensing Board was established in 1962, rather than the more narrow standard that the Commission has applied in determining whether to take review of appeal board decisions.

The Commission invited public comment on its choices and on necessary or desirable procedural changes incident to either system as well as on whether the Commission should make use of an existing organization or establish a separate office to assist it in performing its adjudicatory function. The comment period expired December 10, 1990. Seven comments were received: four from electric utilities or their counsel, one from an industry organization (Nuclear Management and Resources Council (NUMARC)), one from a public interest group (Ohio Citizens for Responsible Energy (OCRE)) and one from the Department of Energy. Copies of all comments received are available for public inspection, and copying for a fee, at the NRC Public Document Room at 2120 L Street, NW. (lower level), Washington, DC.

Summary of Public Comments

A. General

All industry commenters and the Department of Energy supported the Commission's proposals to adopt a discretionary review system and a broad standard of review. These commenters noted that this system would give the Commission the flexibility to involve itself only in cases requiring special Commission attention, such as cases involving novel, complex, or precedent-setting issues. This would enhance the Commission's ability to determine how best to allocate its resources to carry out its public health and safety functions. One industry commenter, while supportive of discretionary review in most cases, urged that review be mandatory in those cases where a licensing board and the NRC Staff hold conflicting views with respect to the issuance of certain types of authorizations because an internal conflict, in the view of the commenter, requires resolution by the Commission. This commenter also suggested that the Commission's immediate effectiveness rule be supplanted with a different procedure which would provide a definite time limit to the automatic stay now provided for licensing board decisions affected by this rule to help streamline the licensing process. OCRE objected to the Commission's decision to abolish the Appeal Panel and, absent reconsideration of that decision, favored mandatory review by the Commission. In OCRE's view, a mandatory review system would be the best means of securing direct Commission involvement in agency adjudications and would also be more fair to potential appellants in that all parties dissatisfied with licensing board decisions would be assured an equal degree of agency appellate review.

B. Commission Responses to Specific Comments

1. Abolition of the Appeal Panel

OCRE objects to the Commission's decision to abolish the Appeal Panel and asserts that this decision should not have been made without advance notice and solicitation of public comments. In addition, OCRE notes that Congress, in transferring the functions of the Appeal Panel to the Commission at the time it enacted the Energy Reorganization Act of 1974, required the Commission to notify Congress in advance of any decision to abolish the Appeal Panel. OCRE believes that the Appeal Panel served an important "separation of powers" function because it did not have the potential conflict of interest inherent in the Commission's dual function of being both an adjudicatory body and the supervisor of the NRC Staff which is frequently a party in adjudications before the Commission. OCRE states that it prefers the system of review by appeal boards where opportunity for oral argument is available to the parties.

The Commission's decision to abolish the Appeal Panel was an internal management decision concerning which agency organization would conduct administrative appellate review. In adopting interim procedures for conducting appellate review itself, the Commission explicitly stated that it intended to follow existing procedures and thus the existing right of the parties to a merits review of an initial decision would not be affected. (October 24, 1990; 55 FR 42944). Given these facts, the Commission was under no legal duty to provide notice and opportunity for public comment with respect to its decision to abolish the Appeal Panel. See 5 U.S.C. 553(b)(A). In any event, we have considered OCRE's view and do not find it persuasive.

The present rulemaking proceeding, which substitutes a discretionary system of review for a mandatory system and changes certain procedures by which review is conducted, does affect the procedural rights of prospective appellants and, for this reason, has been made the subject of a notice and comment rulemaking proceeding. In response to OCRE's comments concerning NRC's obligations to Congress, we note that Congress was notified of the Commission's plan to abolish the Appeal Panel by letters dated July 3, 1990, from the Chairman of the Commission to the President of the Senate and the Speaker of the House. In response to OCRE's concern that the Commission will be subject to a conflict of interest in conducting appellate review, we note that OCRE's objection is applicable to all agencies with both adjudicatory and staff supervisory functions and is not ground for retaining the Appeal Panel. Moreover the Commission's rules governing ex parte communication and separation of functions (10 CFR 2.780 and 2.781) have long and successfully protected the integrity of adjudicatory proceedings" from potential conflicts of the sort complained of here. There is no reason to suppose that these regulations will not continue to serve their function of assuring the impartiality of the Commission and its adjudicatory employees in agency adjudications. Finally, the availability of oral argument in agency appellate review has always been, and will continue to be, a matter of agency discretion. See 10 CFR 2.763.

2. Mandatory vs. Discretionary Review

As noted above, all commenters except OCRE supported adoption of a discretionary review system. Reasons given emphasized the administrative efficiency which will result from the Commission having the flexibility to involve itself only in appeals warranting Commission attention, such as cases involving particularly novel, complex, or precedent-setting issues or important legal, policy, or public health and safety questions. In the view of one industry commenter, a discretionary system, by giving the Commission the opportunity

to focus its attention only on the truly significant cases, will provide more meaningful access to the Commission than would a mandatory system requiring that all cases, including the routine or insignificant, come before the Commission for review. OCRE, on the other hand, favors a mandatory review system. OCRE believes that a mandatory system will serve to increase the Commission's direct involvement in agency adjudications which was one of the reasons given for the decision to abolish the Appeal panel. Further, in OCRE's view, mandatory review will be more fair to all parties in NRC adjudicatory proceedings because all parties will be assured of a thorough agency review of licensing board decisions without the need to incur the expense and delay of judicial review. OCRE mentions the filing fee, the costs of printing and binding the briefs and appendix, and the need for legal counsel as expenses necessitated by a decision to seek judicial review of an initial decision.

The Commission believes that a discretionary review system will be administratively more efficient than a mandatory system for the reasons suggested by the commenters and will also achieve appropriate involvement of the Commission in agency adjudications. While OCRE is technically correct that a mandatory system would bring greater direct involvement of the Commission, the desirability of direct involvement must be balanced against a sensible use of the Commission's time and resources. Even in a discretionary system, the Commission will examine all licensing board decisions to determine whether to take review *sua sponte*. Where review is not taken, a discretionary system will have the benefit of expeditiously bringing the adjudication to an end and enabling a disappointed party to seek judicial review at an earlier point. The direct involvement of the Commission in those cases where review is taken will be more meaningful because the significance of the case will be highlighted by the very fact that the Commission has taken review.

The Commission does not agree with OCRE that is somehow inequitable to provide review of licensing board decisions in some cases but to deny review in others and thus leave some parties with the sole recourse of seeking an initial merits review in the courts. Many disappointed litigants may lose again on appeal. Thus such a party would be saddled with the expense and delay of an appeal before the Commission as well as an appeal in court. Moreover, the expenses of an appeal to the Commission and an appeal to a court would be much the same unless, as contemplated by OCRE, the appellants appear *pro se* before the Commission but retain counsel in court. Even in such an unusual case, however, it may be possible for the appellants to argue *pro se* in court as well. In short, a potential appellant of an initial decision is at least as likely to save on expenses by being able to go to court if a petition for Commission review is rejected as by having to incur the expenses of an appeal before the Commission before judicial review becomes available.

3. Mandatory Review of Licensing Board—NRC Staff Conflicts

One industry commenter, while agreeing that the discretionary review system is appropriate for most cases, suggested that the Commission provide for mandatory review in a proceeding where the licensing board disagrees with the staff's findings and recommendations as to issuance of a site permit, design approval, construction authorization, operating license, combined license, or license amendment. This is because such a situation would create an intra-agency conflict that the commenter believes would warrant mandatory Commission review.

The Commission agrees that the circumstance envisioned is one that might likely merit Commission review. However, to make review mandatory in such a situation might create the appearance that the staff is a party more equal than others in the adjudicatory proceeding before the licensing board and might tend to unduly focus the proceeding on the findings and recommendations of the staff as opposed to those of the applicant on whom the burden of proof has traditionally rested at least in initial licensing cases. Thus the Commission believes that an exception to the discretionary review system need not be carved out to deal with this potential circumstance.

4. Standard for Granting Review

All commenters addressing the issue supported the Commission's proposed adoption of a standard of review similar to that employed by the Commission at the time the Atomic Safety and Licensing Board was established in 1962. That standard states:

> The petition for review may be granted in the discretion of the Commission, giving due weight to the existence of a substantial question with respect to such considerations as the following:
>
> (1) A finding of a material fact is clearly erroneous;
>
> (2) A necessary legal conclusion is without governing precedent or is a departure from or contrary to established law;
>
> (3) A substantial and important question of law, policy or discretion has been raised;
>
> (4) The conduct of the proceeding involved a prejudicial procedural error; or
>
> (5) Any other consideration which the Commission may deem to be in the public interest. (January 13, 1962; 27 FR 377)

An industry commenter urged adoption of an additional factor:

> A conflict in licensing board decisions on a controlling question of law or matter of fact necessary for decision.

Commission review of conflicting interpretations of law by different licensing boards and reconciliation of those interpretations, it is argued, would contribute to a more consistent body of NRC precedent. Similarly, the commenter contends that review where there are conflicts in material factual findings (such as the adequacy of a particular design used at different reactors) would enable the Commission to reconcile differences between licensing boards and would also carry over the policy embodied in present 10 CFR 2.786(b)(4)(ii), wherein the Commission may take review of an appeal board decision if it appears that the appeal board has resolved a factual issue necessary for decision in a clearly erroneous manner contrary to resolution of that same issue by the licensing board.

The Commission adopts this suggestion in part. The potential conflict between licensing boards as to issues of material fact is not explicitly comprised within the review standard but it is clearly a reason for the Commission to take review. Thus the Commission has incorporated this part of the commenter's suggestion into § 2.786(b)(4) of the final rule. On the other hand, a potential conflicting interpretation of law between licensing boards is already a matter comprised within the second or third factor of the January 13, 1962 (27 FR 377) rule. Thus the Commission believes that adding another factor to address this circumstance would be redundant.

The same commenter also suggested that the language of the Commission's present standard for taking review of appeal board decisions be added, perhaps as a footnote, to the standard of review to emphasize that issues presented for review must be significant and thus discourage frivolous appeals. That regulation states:

> A petition for review of matters of law or policy will not ordinarily be granted unless it

VOL 56 ISS 124 JE 27 1991 UMI

appears the case involves an important matter that could significantly affect the environment, the public health and safety, or the common defense and security, constitutes an important antitrust question, involves an important procedural issue, or otherwise raises important questions of public policy.

10 CFR 2.786(b)(4)(i) (1989). The Commission does not agree that this additional language is necessary to discourage frivolous appeals. The standard already provides that the Commission, in determining whether to take review, will give due weight to the existence of a substantial question with respect to, among other things, a substantial and important question of law, policy or discretion. This language should be sufficient to warn potential appellants that issues presented for review must be significant. Moreover, coupling the more restrictive language of the standard the Commission has used to determine whether to take review of appeal board decisions with the more flexible language of the January 13, 1982 (27 FR 377) standard could lead to confusion as to what standard is really being applied. Thus the Commission has not adopted this suggestion.

5. Immediate Effectiveness Rule Amendment

The Commission's notice of proposed rulemaking noted one potential problem with adopting a discretionary review system: The possibility that a licensing board's decision might be appealed to a court without any petition for review having been submitted to the agency altering the agency to potential problems with the decision and giving the agency an opportunity to correct these problems. However, the Commission expressed the view that one way of avoiding this problem would be to continue the Commission's immediate effectiveness regulation (10 CFR 2.764) which provides an automatic stay of effectiveness of designated licensing board decisions until the Commission has reviewed the decision to determine whether it should be allowed to become effective pending any appellate review of the merits of the decision.

Two industry commenters addressed this matter. One favored continuation of the present immediate effectiveness rule; the other urged that the immediate effectiveness rule be replaced with an alternative procedure whereby the Commission would have a brief time limit (10 days was suggested) within which to decide whether to review a licensing board decision authorizing issuance of a construction permit or operating license for a nuclear power reactor. During the period, a party would be able to request a stay of the decision pending any merits review by the Commission. The stay motion would be governed by the factors specified in 10 CFR 2.788(e). If both a stay and review were granted, the licensing action authorized by the decision would not become effective and the decision would not become final agency action. If review were granted but a stay denied, the licensing action authorized by the decision would be effective but there would be no final agency action as to the merits of the licensing board decision. A court could review the Commission's stay decision, but not the merits of the licensing board decision. The advantage of this alternative procedure, in the commenter's view, is that it would help streamline the licensing process in that there would no longer be an automatic stay of indefinite length before the licensing board's decision is allowed to take effect.

The Commission does not believe that it would be feasible to set a regulatory time limit on its decision whether to take review of a licensing board decision of the brevity suggested by the commenter due to the wide variety of cases, including cases presenting multiple complex technical or legal issues where the record is voluminous, that come before the board. The time suggested is not adequate for petitions for review, and responses thereto, to be filed and considered. The Commission's present rule governing petitions for review of appeal board decisions (which will be retained and applied to licensing board decisions) provides a thirty-day period for a decision on whether to take review (10 CFR 2.786(b)(5)). The Commission is establishing a separate Office of Commission Appellate Adjudication with the function of assisting the Commission in the exercise of its appellate review functions. The Commission believes that it will be able to reach a decision on whether to take review in an expeditious fashion but that to impose a severe regulatory time limit for this decision could interfere with its duty to make sure that no public health or safety problems are unresolved before a decision is allowed to become final. Thus the Commission has not adopted this suggestion.

These amendments will take effect thirty days after publication in the Federal Register. The amendments apply to any licensing board decision or action issued on or after the effective date of these rules. Appeals presently pending before an appeal board in the Seabrook operating license proceeding, Advanced Medical Systems (Suspension Order) and Wrangler Laboratories enforcement proceedings, and the Turkey Point (OLA-4) and Turkey Point (OLA-5) license amendment proceedings will be governed by the rules in effect prior to October 24, 1990. Licensing board decisions or actions issued before the date these amendments become effective are governed by the rules in effect prior to October 24, 1990, except that the Commission will take the place of appeal boards under those rules and except that the Commission will not entertain a petition for review of its own decision.

Environmental Impact: Categorical Exclusion

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22(c)(1). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final regulation.

Paperwork Reduction Act Statement

This final rule contains no information collection requirements and therefore is not subject to the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501, et. seq.).

Regulatory Analysis

The Commission's prior decision to abolish the Appeal Panel which had provided administrative appellate review of initial decisions of presiding officers in agency adjudications necessitates the establishment of a new system wherein the Commission itself will review initial decisions. On October 24, 1990 (55 FR 42944), the Commission put in place interim procedures for conducting this review. In this rulemaking, the Commission adopts a discretionary review system, including a standard whereby the Commission will exercise its discretion whether to take review of a licensing board decision. This system replaces the system of mandatory appellate review formerly provided by appeal boards. The cost of the new discretionary review system is likely to be less in all cases where review is not taken the Commission and the parties will not need to expend further time and resources before a final agency decision is reached. Thus the cost entailed in the promulgation and application of this final rule is necessary and appropriate. The foregoing discussion constitutes the regulatory analysis for this rule.

Regulatory Flexibility Certification

As required by the Regulatory Flexibility Act (5 U.S.C. 605(b)), the Commission certifies that this rule will not have a significant economic impact upon a substantial number of small entities. Many applicants, licensees and intervenors fall within the definition of small businesses found in section 34 of the Small Business Size Standards set out in regulations issued by the Small Business Administration at 13 CFR part 121, or the NRC's size standards published December 9, 1985 (50 FR 50241). In a discretionary review system, the procedural requirements on licensees or intervenors may be reduced because they will not need to fully brief errors of fact or law that they may perceive in a presiding officer's decision prior to seeking judicial review unless the Commission first determines to take review of the decision. Licensees and intervenors will, however, need to file petitions for discretionary review with the Commission if they perceive errors in the presiding officer's decision and intend to seek judicial review.

Backfit Analysis

The NRC has determined that the backfit rule, 10 CFR 50.109, does not apply to this final rule, and therefore, that a backfit analysis is not required for this final rule, because these amendments do not involve any provisions which would improve backfits as defined in 10 CFR 50.109(a)(1).

List of Subjects

10 CFR Part 0

Conflict of interest, Criminal penalty.

10 CFR Part 1

Organization and functions (Government agencies).

10 CFR Part 2

Administrative practice and procedure, Antitrust, Byproduct material, Classified information, Environmental protection, Nuclear materials, Nuclear power plants and reactors, Penalty, Sex discrimination, Source material, Special nuclear material, Waste treatment and disposal.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and 5 U.S.C. 552 and 553, the Nuclear Regulatory Commission is adopting the following amendments to 10 CFR parts 0, 1, and 2.

PART 0—CONDUCT OF EMPLOYEES

1. The authority citation for part 0 continues to read as follows:

Authority: Secs. 25, 161, 68 Stat. 925, 948, as amended (42 U.S.C. 2035, 2201); sec. 201, 88 Stat. 1242, as amended (42 U.S.C. 5841); E.O. 11222, 30 FR 6469, 3 CFR 1964–1965 COMP., p. 306; 5 CFR 735.104.

Sections 0.735–21 and 0.735–29 also issued under 5 U.S.C. 552, 553. Section 0.735–26 also issued under secs. 501, 502, Pub. L. 95–521, 92 Stat. 1864, 1867, as amended by secs. 1, 2, Pub. L. 99–28, 99 Stat. 78, 77, (18 U.S.C. 207).

2. In 10 CFR part 0, all references to "the Atomic Safety and Licensing Appeal Panel" or "ASLAP" are removed, and where the word "or" precedes either of these terms, it is moved to the appropriate location in the text.

PART 1—STATEMENT OF ORGANIZATION AND GENERAL INFORMATION

3. The authority citation for part 1 continues to read as follows:

Authority: Secs. 23, 161, 68 Stat. 925, 948, as amended (42 U.S.C. 2033, 2201); sec. 29, Pub. L. 85–256, 71 Stat. 579, Pub. L. 95–209, 91 Stat. 1483 (42 U.S.C. 2039); sec. 191, Pub. L. 87–615, 76 Stat. 409 (42 U.S.C. 2241); secs. 201, 203, 204, 205, 209, 88 Stat. 1242, 1244, 1245, 1246, 1248, as amended (42 U.S.C. 5841, 5843, 5844, 5845, 5849); 5 U.S.C. 552, 553; Reorganization Plan No. 1 of 1980, 45 FR 40561, June 16, 1980.

4. In § 1.11, paragraph (c) is revised to read as follows:

§ 1.11 The Commission.

* * * * *

(c) The following staff units and officials report directly to the Commission: Atomic Safety and Licensing Board Panel, Office of the General Counsel, Office of the Secretary, Office of Commission Appellate Adjudication, Office of the LSS Administrator, Office of Governmental and Public Affairs, and other committees and boards which are authorized or established specifically by the Act. The Advisory Committee on Reactor Safeguards also reports directly to the Commission.

* * * * *

§ 1.17 [Removed]

5. Part 1 is amended by removing § 1.17.

6. In § 1.23, paragraph (b) is revised to read as follows:

§ 1.23 Office of the General Counsel.

* * * * *

(b) Reviews and prepares appropriate draft Commission decisions on public petitions seeking direct Commission action and rulemaking proceedings involving hearings, monitors cases pending before presiding officers and reviews draft Commission decisions on Atomic Safety and Licensing Board decisions and rulings;

* * * * *

7. A new § 1.24 is added to read as follows:

§ 1.24 Office of Commission Appellate Adjudication.

The Office of Commission Appellate Adjudication—

(a) Monitors cases pending before presiding officers;

(b) Provides the Commission with an analysis of any adjudicatory matter requiring a Commission decision (e.g., petitions for review, certified questions, stay requests) including available options;

(c) Drafts any necessary decisions pursuant to the Commission's guidance after presentation of options; and

(d) Consults with the Office of the General Counsel in identifying the options to be presented to the Commission and in drafting the final decision to be presented to the Commission.

§ 1.1 [Amended]

8. In 10 CFR 1.1 the words "and the Atomic Safety and Licensing Appeal Panel" are removed.

PART 2—RULES OF PRACTICE FOR DOMESTIC LICENSING PROCEEDINGS

9. The authority citation for part 2 continues to read as follows:

Authority: Secs. 161, 181, 68 Stat. 948, 953, as amended (42 U.S.C. 2201, 2231); sec. 191, as amended, Pub. L. 87–615, 76 Stat. 409 (42 U.S.C. 2241); secs. 201, 88 Stat. 1242, as amended (42 U.S.C. 5841); 5 U.S.C. 552.

Section 2.101 also issued under secs. 53, 62, 63, 81, 103, 104, 105, 68 Stat. 930, 932, 933, 935, 936, 937, 938, as amended (42 U.S.C. 2073, 2092, 2093, 2111, 2133, 2134, 2135); sec. 114(f), Pub. L. 97–425, 96 Stat. 2213, as amended (42 U.S.C. 10134(f)); sec. 102, Pub. L. 91–190, 83 Stat. 853, as amended (42 U.S.C. 4332); sec. 301, 88 Stat. 1248 (42 U.S.C. 5871). Sections 2.102, 2.103, 2.104, 2.105, 2.721 also issued under secs. 102, 103, 104, 105, 183, 189, 68 Stat. 936, 937, 938, 954, 955, as amended (42 U.S.C. 2132, 2133, 2134, 2135, 2233, 2239). Section 2.105 also issued under Pub. L. 97–415, 96 Stat. 2073 (42 U.S.C. 2239). Sections 2.200–2.206 also issued under secs. 186, 234, 68 Stat. 955, 83 Stat. 444, as amended (42 U.S.C. 2236, 2282); sec. 206, 88 Stat. 1246 (42 U.S.C. 5846). Sections 2.600–2.606 also issued under sec. 102, Pub. L. 91–190, 83 Stat. 853, as amended (42 U.S.C. 4332). Sections 2.700a, 2.719 also issued under 5 U.S.C. 554. Sections 2.754, 2.760, 2.770, 2.780 also issued under 5 U.S.C. 557. Section 2.764 and Table 1A of appendix C also issued under secs. 135, 141, Pub. L. 97–425, 96 Stat. 2232, 2241 (42 U.S.C. 10155, 10161). Section 2.790 also issued under sec. 103, 68 Stat. 936, as amended (42 U.S.C. 2133) and 5 U.S.C. 552. Sections 2.800 and 2.808 also issued under 5 U.S.C. 553. Section 2.809 also issued under 5 U.S.C. 553 and sec. 29, Pub. L. 85–256, 71 Stat. 579, as amended (42 U.S.C. 2039). Subpart K also issued under sec. 189, 68 Stat. 955 (42 U.S.C. 2239); sec. 134, Pub. L. 97–425, 96 Stat. 2230 (42 U.S.C. 10154). Subpart L also issued under sec. 189, 68 Stat.

VOL 56 ISS 124 JE 27 1991 UMI

955 (42 U.S.C. 2239). Appendix A also issued under sec. 6, Pub. L. 91-560, 84 Stat. 1473 (42 U.S.C. 2135). Appendix B also issued under sec. 10, Pub. L. 90-340, 90 Stat. 1842 (42 U.S.C. 2021b et seq.).

10. In the definition of *Commission adjudicatory employee* in § 2.4, paragraph (2) is revised to read as follows:

§ 2.4 Definitions.

* * * * *

Commission adjudicatory employee means—

* * * * *

(2) The employees of the Office of Commission Appellate Adjudication;

* * * * *

11. A new § 2.8 is added preceding subpart A to read as follows:

§ 2.8 Information collection requirements: OMB approval.

(a) The Nuclear Regulatory Commission has submitted the information collection requirements contained in this part to the Office of Management and Budget (OMB) for approval as required by the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.) OMB has approved the information collection requirements contained in this part under control number 3150-0136.

(b) The approved information collection requirements contained in this part appear in appendix B.

12. In § 2.704, paragraph (d)(2) is revised to read as follows:

§ 2.704 Designation of presiding officer, disqualification, unavailability.

* * * * *

(d) * * *

(2) The Commission may direct that the record be certified to it for decision; or

* * * * *

13. Section 2.714a(a) is revised to read as follows:

§ 2.714a Petitions for review of certain rulings on petitions for leave to intervene and/or requests for hearing.

(a) Notwithstanding the provisions of § 2.730(f), an order of the presiding officer or the atomic safety and licensing board designated to rule on petitions for leave to intervene and/or requests for hearing may be appealed, in accordance with the provisions of this section, to the Commission within ten (10) days after service of the order. The appeal shall be asserted by the filing of a notice of appeal and accompanying supporting brief. Any other party may file a brief in support of or in opposition to the appeal within ten (10) days after service of the appeal. No other appeals from rulings on petitions and/or requests for hearing shall be allowed.

* * * * *

§ 2.713 [Amended]

13A. In § 2.713(c)(4), the reference to "2.788(b) (1), (2) and (4)" is revised to read "§ 2.788(b) (1), (2), and (3)."

§ 2.715 [Amended]

13B. In § 2.715(d), the words "by the Appeal Board on appeal or sua sponte or" are removed.

§ 2.721 [Amended]

14. In § 2.721, paragraph (c) is removed and paragraph (d) is redesignated as paragraph (c).

15. In § 2.760, paragraphs (a), (b)(1), and (c)(4) are revised to read as follows:

§ 2.760 Initial decision and its effect.

(a) After hearing, the presiding officer will render an initial decision which will constitute the final action of the Commission forty (40) days after its date unless any party petitions for Commission review in accordance with § 2.786 or the Commission takes review sua sponte or the decision is subject to the provisions of § 2.764.

(b) * * *

(1) Prepare its own decision which will become final unless the Commission grants a petition for reconsideration pursuant to § 2.771; or

* * * * *

(c) * * *

(4) The time within which a petition for review of the decision may be filed, the time within which answers in support of or in opposition to a petition for review filed by another party may be filed and, in the case of an initial decision which may become final in accordance with paragraph (a) of this section, the date when it may become final.

16. In § 2.761, paragraphs (a)(1) and (c)(1) are revised to read as follows:

§ 2.761 Expedited decisional procedure.

(a) * * *

(1) All parties stipulate that the initial decision may be omitted and waive their rights to file a petition for review, to request oral argument, and to seek judicial review;

* * * * *

(c) * * *

(1) All parties stipulate that the initial decision may be made effective immediately and waive their rights to file a petition for review, to request oral argument, and to seek judicial review;

* * * * *

§ 2.762 [Removed]

17. Part 2 is amended by removing § 2.762.

18. Section 2.763 is revised to read as follows:

§ 2.763 Oral argument.

In its discretion the Commission may allow oral argument upon the request of a party made in a petition for review or brief on review, or upon its own initiative.

§ 2.764 [Amended]

18a. In § 2.764, paragraph (e)(1)(i), the words "Appeal Board and" are removed, and the reference to "paragraphs (e)(2) and (e)(3)" is revised to read "paragraph (e)(2)".

19. In § 2.764, paragraph (e)(3) is removed and paragraphs (a), (b), (e)(2), (f)(2)(iv), and (g) are revised to read as follows:

§ 2.764 Immediate effectiveness of initial decision directing issuance or amendment of construction permit or operating license.

(a) Except as provided in paragraphs (c) through (f) of this section, or as otherwise ordered by the Commission in special circumstances, an initial decision directing the issuance or amendment of a construction permit, a construction authorization, or an operating license shall be effective immediately upon issuance unless the presiding officer finds that good cause has been shown by a party why the initial decision should not become immediately effective, subject to review thereof and further decision by the Commission upon petition for review filed by any party pursuant to § 2.786 or upon its own motion.

(b) Except as provided in paragraphs (c) through (f) of this section, or as otherwise ordered by the Commission in special circumstances, the Director of Nuclear Reactor Regulation or Director of Nuclear Material Safety and Safeguards, as appropriate, notwithstanding the filing or granting of a petition for review, shall issue a construction permit, a construction authorization, or an operating license, or amendments thereto, authorized by an initial decision, within ten (10) days from the date of issuance of the decision.

* * * * *

(e) * * *

(2) Commission. Within sixty days of the service of any Licensing Board decision that would otherwise authorize issuance of a construction permit, the Commission will seek to issue a decision on any stay motions that are timely filed. Such motions shall be filed as provided by 10 CFR 2.786. For the purpose of this policy, a "stay" motion is one that seeks to defer the effectiveness of a Licensing Board decision beyond the period necessary for the Commission action described herein. If no stay papers are filed, the Commission will, within the same time period (or earlier if possible), analyze the record and construction permit decision below on its own motion and will seek to issue a decision on whether a stay is warranted. It shall not, however, decide that a stay is warranted without giving the affected parties an opportunity to be heard. The initial decision will be considered stayed pending the Commission's decision. In deciding these stay questions, the Commission shall employ the procedures set out in 10 CFR 2.788.

(f) * * *

(2) * * *

(iv) In announcing a stay decision, the Commission may allow the proceeding to run its ordinary course or give instructions as to the future handling of the proceeding. Furthermore, the Commission may in a particular case determine that compliance with existing regulations and policies may no longer be sufficient to warrant approval of a license application and may alter those regulations and policies.

(g) The Commission's effectiveness determination is entirely without prejudice to proceedings under § 2.786 or § 2.788.

20. In § 2.770, paragraph (a) is revised to read as follows:

§ 2.770 Final decision.

(a) The Commission will ordinarily consider the whole record on review, but may limit the issues to be reviewed to those identified in an order taking review.

* * * * *

21. In § 2.771, paragraph (a) is revised to read as follo

§ 2.771 Petition for reconsideration.

(a) A petition for reconsideration of a final decision may be filed by a party within ten (10) days after the date of the decision.

* * * * *

22. In § 2.780, paragraph (e)(2) is revised to read as follows:

§ 2.780 Ex parte communication.

* * * * *

(e) * * *

(2) The prohibitions of this section cease to apply to ex parte communications relevant to the merits of a full or partial initial decision when, in accordance with § 2.786, the time has expired for Commission review of the decision.

* * * * *

23. In § 2.781, paragraphs (d)(2) and (f) are revised to read as follows:

§ 2.781 Separation of functions.

* * * * *

(d) * * *

(2) The prohibitions of this section will cease to apply to the disputed issues pertinent to a full or partial initial decision when, in accordance with § 2.786, the time has expired for Commission review of the decision.

* * * * *

(f) If an initial or final decision is stated to rest in whole or in part on fact or opinion obtained as a result of a communication authorized by this section, the substance of the communication must be specified in the record of the proceeding and every party must be afforded an opportunity to controvert the fact or opinion. If the parties have not had an opportunity to controvert the fact or opinion prior to the filing of the decision, a party may controvert the fact or opinion by filing a petition for review of an initial decision, or a petition for reconsideration of a final decision that clearly and concisely sets forth the information or argument relied on to show the contrary. If appropriate, a party may be afforded the opportunity for cross-examination or to present rebuttal evidence.

§ 2.785 [Removed]

24. Part 2 is amended by removing § 2.785.

25. Section 2.786 is revised to read as follows:

§ 2.786 Review of decisions and actions of a presiding officer.

(a) Within forty (40) days after the date of a decision or action by a presiding officer, or within thirty (30) days after a petition for review of the decision or action has been filed under paragraph (b) of this section, whichever is greater, the Commission may review the decision or action on its own motion, unless the Commission, in its discretion, extends the time for its review.

(b)(1) Within fifteen (15) days after service of a full or partial initial decision by a presiding officer, and within fifteen (15) days after service of any other decision or action by a presiding officer with respect to which a petition for review is authorized by this part, a party may file a petition for review with the Commission on the grounds specified in paragraph (b)(4) of this section. The filing of a petition for review is mandatory for a party to exhaust its administrative remedies before seeking judicial review.

(2) A petition for review under this paragraph must be no longer than ten (10) pages, and must contain the following:

(i) A concise summary of the decision or action of which review is sought;

(ii) A statement (including record citation) where the matters of fact or law raised in the petition for review were previously raised before the presiding officer and, if they were not why they could not have been raised;

(iii) A concise statement why in the petitioner's view the decision or action is erroneous; and

(iv) A concise statement why Commission review should be exercised.

(3) Any other party to the proceeding may, within ten (10) days after service of a petition for review, file an answer supporting or opposing Commission review. This answer must be no longer than ten (10) pages and should concisely address the matters in paragraph (b)(2) of this section to the extent appropriate. The petitioning party shall have no right to reply, except as permitted by the Commission.

(4) The petition for review may be granted in the discretion of the Commission, giving due weight to the existence of a substantial question with respect to the following considerations:

(i) A finding of material fact is clearly erroneous or in conflict with a finding as to the same fact in a different proceeding;

(ii) A necessary legal conclusion is without governing precedent or is a departure from or contrary to established law;

(iii) A substantial and important question of law, policy or discretion has been raised;

(iv) The conduct of the proceeding involved a prejudicial procedural error; or

(v) Any other consideration which the Commission may deem to be in the public interest.

(5) A petition for review will not be granted to the extent that it relies on matters that could have been but were not raised before the presiding officer. A matter raised sua sponte by a presiding officer has been raised before the presiding officer for the purpose of this section.

(6) A petition for review will not be granted as to issues raised before the presiding officer on a pending motion for reconsideration.

(c) If within thirty (30) days after the filing of a petition for review the Commission does not grant the petition, in whole or in part, the petition shall be

VOL 56 ISS 124 JE 27 1991 UMI

deemed denied, unless the Commission in its discretion extends the time for its consideration of the petition and any answers thereto.

(d) If a petition for review is granted, the Commission will issue an order specifying the issues to be reviewed and designating the parties to the review proceeding and direct that appropriate briefs be filed, oral argument be held, or both.

(e) Petitions for reconsideration of Commission decisions granting or denying review in whole or in part will not be entertained. A petition for reconsideration of a Commission decision after review may be filed within ten (10) days, but is not necessary for exhaustion of administrative remedies. However, if a petition for reconsideration is filed, the Commission decision is not final until the petition is decided.

(f) Neither the filing nor the granting of a petition for review will stay the effect of the decision or action of the presiding officer, unless otherwise ordered by the Commission.

(g) Certified questions and referred rulings. A question certified to the Commission under § 2.718(i) or a ruling referred under § 2.730(f) must meet one of the alternative standards in this subsection to merit Commission review. A certified question or referred ruling will be reviewed if it either—

(1) Threatens the party adversely affected by it with immediate and serious irreparable impact which, as a practical matter, could not be alleviated through a petition for review of the presiding officer's final decision; or

(2) Affects the basic structure of the proceeding in a pervasive or unusual manner.

§ 2.787 [Removed]

26. Part 2 is amended by removing § 2.787.

27. Section 2.788 is revised to read as follows:

§ 2.788 Stays of decisions of presiding officers pending review.

(a) Within ten (10) days after service of a decision or action of a presiding officer any party to the proceeding may file an application for a stay of the effectiveness of the decision or action pending filing of and a decision on a petition for review. This application may be filed with the Commission or the presiding officer, but not both at the same time.

(b) An application for a stay must be no longer than ten (10) pages, exclusive of affidavits, and must contain the following:

(1) A concise summary of the decision or action which is requested to be stayed;

(2) A concise statement of the grounds for stay, with reference to the factors specified in paragraph (e) of this section; and

(3) To the extent that an application for a stay relies on facts subject to dispute, appropriate references to the record or affidavits by knowledgeable persons.

(c) Service of an application for a stay on the other parties shall be by the same method, e.g., telecopier message, mail, as the method for filing the application with the Commission or the presiding officer.

(d) Within ten (10) days after service of an application for a stay under this section, any party may file an answer supporting or opposing the granting of a stay. This answer must be no longer than ten (10) pages, exclusive of affidavits, and should concisely address the matters in paragraph (b) of this section to the extent appropriate. No further replies to answers will be entertained. Filing of and service of an answer on the other parties must be by the same method, e.g., telecopier message, mail, as the method for filing the application for the stay.

(e) In determining whether to grant or deny an application for a stay, the Commission or presiding officer will consider:

(1) Whether the moving party has made a strong showing that it is likely to prevail on the merits;

(2) Whether the party will be irreparably injured unless a stay is granted;

(3) Whether the granting of a stay would harm other parties; and

(4) Where the public interest lies.

(f) In extraordinary cases, where prompt application is made under this section, the Commission or presiding officer may grant a temporary stay to preserve the status quo without waiting for filing of any answer. The application may be made orally provided the application is promptly confirmed by telecopier message. Any party applying under this paragraph shall make all reasonable efforts to inform the other parties of the application, orally if made orally.

28. Section 2.1000 is revised to read as follows:

§ 2.1000 Scope of subpart.

The rules in this subpart govern the procedure for applications for a license to receive and possess high-level radioactive waste at a geologic repository operations area noticed pursuant to § 2.101(f)(8) or § 2.105(a)(5) of this part. The procedures in this subpart take precedence over the 10 CFR part 2, subpart G, rules of general applicability, except for the following provisions: §§ 2.702, 2.703, 2.704, 2.707, 2.709, 2.711, 2.713, 2.715, 2.715a, 2.717, 2.718, 2.720, 2.721, 2.722, 2.732, 2.733, 2.734, 2.742, 2.743, 2.750, 2.751, 2.753, 2.754, 2.755, 2.756, 2.757, 2.758, 2.759, 2.760, 2.761, 2.763, 2.770, 2.771, 2.772, 2.780, 2.781, 2.786, 2.788, and 2.790.

29. In § 2.1015, paragraph (c) is revised to read as follows:

§ 2.1015 Appeals.

* * * * *

(c) Appeals from a Presiding Officer initial decision or partial initial decision must be filed and briefed before the Commission in accordance with the following requirements.

(1) *Notice of appeal.* Within ten (10) days after service of an initial decision, any party may take an appeal to the Commission by filing a notice of appeal. The notice shall specify:

(i) The party taking the appeal; and

(ii) The decision being appealed.

(2) *Filing appellant's brief.* Each appellant shall file a brief supporting its position on appeal within thirty (30) days (40 days if Commission staff is the appellant) after the filing of notice required by paragraph (a) of this section.

(3) *Filing responsive brief.* Any party who is not an appellant may file a brief in support of or in opposition to the appeal within thirty (30) days after the period has expired for the filing and service of the brief of all appellants. Commission staff may file a responsive brief within forty (40) days after the period has expired for the filing and service of the briefs of all appellants. A responding party shall file a single responsive brief regardless of the number of appellants' briefs filed.

(4) *Brief content.* A brief in excess of ten (10) pages must contain a table of contents, with page references, and a table of cases (alphabetically arranged), statutes, regulations, and other authorities cited, with references to the pages of the brief where they are cited.

(i) An appellant's brief must clearly identify the errors of fact or law that are the subject of the appeal. An intervenor-appellant's brief must be confined to issues which the intervenor-appellant placed in controversy or sought to place in controversy in the proceeding. For each issue appealed, the precise portion of the record relied upon in support of the assertion of error must also be provided.

(ii) Each responsive brief must contain a reference to the precise portion of the record which supports each factual assertion made.

(5) *Brief length.* A party shall not file a brief in excess of seventy (70) pages in length, exclusive of pages containing the table of contents, table of citations and any addendum containing statutes, rules, regulations, etc. A party may request an increase of this page limit for good cause. Such a request shall be made by motion submitted at least seven (7) days before the date upon which the brief is due for filing and shall specify the enlargement requested.

(6) *Certificate of service.* All documents filed under this section must be accompanied by a certificate reflecting service upon all other parties to the proceeding.

(7) *Failure to comply.* A brief which in form or content is not in substantial compliance with the provisions of this section may be stricken, either on motion of a party or by the Commission on its own initiative.

* * * * *

30. In § 2.1209, paragraph (d) is revised to read as follows:

§ 2.1209 Power of presiding officer.

* * * * *

(d) Certify questions to the Commission for determination, either in the presiding officer's discretion or on direction of the Commission;

* * * * *

31. Section 2.1241 is revised to read as follows:

§ 2.1241 Settlement of proceedings.

The fair and reasonable settlement of proceedings subject to this subpart is encouraged. A settlement must be approved by the presiding officer or the Commission as appropriate in order to be binding in the proceeding.

32. In § 2.1251, paragraphs (a), (c)(3) and (f) are revised to read as follows:

§ 2.1251 Initial decision and its effect.

(a) Unless the Commission directs that the record be certified to it in accordance with paragraph (b) of this section, the presiding officer shall render an initial decision after completion of an informal hearing under this subpart. That initial decision constitutes the final action of the Commission thirty (30) days after the date of issuance, unless any party petitions for Commission review in accordance with § 2.786 or the Commission takes review of the decision sua sponte.

* * * * *

(c) * * *

(3) The time within which a petition for review may be filed, the time within which any answer to a petition for review may be filed, and the date when the decision becomes final in the absence of the Commission taking review of the decision.

* * * * *

(f) Following an initial decision resolving all issues in favor of the licensing action as specified in paragraph (e) of this section, the Director of Nuclear Reactor Regulation or the Director of Nuclear Material Safety and Safeguards, as appropriate, notwithstanding the filing of a petition for review or pendency of any review taken by the Commission pursuant to § 2.786, shall take the appropriate licensing action upon making the appropriate licensing findings promptly, except as may be provided pursuant to paragraph (e)(1) or (2) of this section.

33. Section 2.1253 is revised to read as follows:

§ 2.1253 Petitions for review of initial decisions.

Parties and § 2.1211(b) participants may petition for review of an initial decision under this subpart in accordance with the procedures set out in § § 2.786 and 2.763 or the Commission may review the decision on its own motion. Commission review will be conducted in accordance with those procedures the Commission deems appropriate. The filing of a petition for review is mandatory for a party to exhaust its administrative remedies before seeking judicial review.

§ 2.1255 [Removed]

34. Part 2 is amended by removing § 2.1255.

§ 2.1257 [Removed]

35. Part 2 is amended by removing § 2.1257.

36. In part 2, appendix A, section IX is removed and section I(b) is revised to read as follows:

Appendix A—Statement of General Policy and Procedure: Conduct of Proceedings for the Issuance of Construction Permits and Operating Licenses for Production and Utilization Facilities for Which a Hearing Is Required Under Section 189a of the Atomic Energy Act of 1954, as Amended

* * * * *

I. Preliminary Matters

* * * * *

(b) In fixing the time and place of any conference, including prehearing conferences, or of any adjourned session of the evidentiary hearing, due regard shall be had for the convenience and necessity of the parties, petitioners for leave to intervene, or the representatives of such persons, as well as of the Board members, the nature of such conference or adjourned session, and the public interest. Adjourned sessions of hearings may be held in the Washington, DC area if all parties so stipulate. If the parties disagree, and any party considers that there are valid reasons for holding such session in the Washington, DC area, the matter should be referred to the Commission for resolution.

* * * * *

36A. In part 2, appendix a, section I(c)(1), the reference to "§§ 2.760 and 2.762" is revised to read "§ 2.760".

37. In 10 CFR part 2, all further references to the "Atomic Safety and Licensing Appeal Panel," "Atomic Safety and Licensing Appeal Board" and "Appeal Board" are removed and the following instructions apply:

A. In cases where there are two references, and the word "or" precedes or follows one of the listed terms, it is removed with the term.

B. In cases were there are two references and the words "as appropriate" appear in the same sentence with the listed term, they are also removed.

C. If the words "and" or "and/or" precede one of the terms listed, it is removed with the term.

D. The words "the", "a", or "an" preceding one of the listed terms is removed with the term if there are no other remaining terms to which the word applies.

Dated at Rockville, MD this 19th day of June , 1991.

For the Nuclear Regulatory Commission,

Samuel J. Chilk,

Secretary of the Commission.

BILLING CODE 7590-01-M

FEDERAL RESERVE SYSTEM

12 CFR Part 261

[Docket No. R-0713]

Rules Regarding Availability Of Information; Freedom of Information Reform Act

AGENCY: Board of Governors of the Federal Reserve System

ACTION: Final Rule.

SUMMARY: The Board of Governors of the Federal Reserve System (the "Board") has adopted as a final rule, without change, the amendment to its Rules Regarding Availability of Information that was adopted by interim rule effective January 2, 1991 (55 FR 49876, December 3, 1990). The interim rule reflected changes in the direct costs to the Board to conduct searches, review documents, and copy documents in

VOL 56 ISS 124 JE 27 1991 UMI

response to requests made under the Freedom of Information Act ("FOIA") by adding an "appendix A" to 12 CFR 2610.10—Freedom of Information Fee Schedule. "Appendix A" amended the Board's previous fee schedule established in 1987 (52 FR 15299, April 28, 1987). Appendix A will remain the same as that adopted in the interim rule.

EFFECTIVE DATE: June 27, 1991

FOR FURTHER INFORMATION CONTACT: Elaine M. Boutilier, Senior Attorney, Legal Division (202/452-2418); or Susanne K. Mitchell, Manager, Freedom of Information Office (202/452-3684); or for the hearing impaired *only*, Telecommunications Device for the Deaf ("TDD"), Dorothea Thompson (202/452-3544), Board of Governors of the Federal Reserve System, Washington, DC 20551.

SUPPLEMENTARY INFORMATION: The Freedom of Information Reform Act of 1986 (Pub. L. 99-570) ("FOI Reform Act") requires each federal agency to "promulgate regulation, pursuant to notice and receipt of public comment, specifying the schedule of fees applicable to the processing of requests" under the Freedom of Information Act. These regulations must conform to guidelines issued by the Office of Management and Budget ("OMB") (52 FR 10018, March 27, 1987). The FOI Reform Act requires that the fees charged provide only for the recovery of the direct costs of search, review, and duplication (5 U.S.C. 552(a)(4)(A)(iv)).

The Board's current fee schedule, which was established by the interim rule, amended the fee schedule that had been in effect since May 1987 (52 FR 15299, April 28, 1987). The Board issued the current fee schedule as an interim rule; and the Board invited comments regarding the interim fee schedule prior to adoption of the final rule (55 FR 49676 December 3, 1990).

The comment period has expired and the Board has received no comments regarding this matter. Accordingly, the Board has adopted as a final rule the increase in its fees applicable to FOIA requests set out in the interim rule. Neither the interim rule nor this final rule makes any change in the definition of services or direct or actual costs, or in the treatment of various categories of requesters.

Pursuant to 5 U.S.C. 553(d), the Board finds that good cause exists to make this final rule effective immediately. The interim rules provided a 30-day comment period, and no comments were received during or after the comment period. The interim rule and the final rule are identical, and the interim rule remains in force until the final rule becomes effective. Therefore, no useful purpose would be served by having this rule take effect after 30 days instead of immediately.

Regulatory Flexibility Act Analysis

Pursuant to section 605(b) of the Regulatory Flexibility Act (Pub. L. 96-354, 5 U.S.C. 601 *et seq.*), the Board certifies that this rule will not have a significant economic impact on a substantial number of small entities that would be subject to the regulation. The amendment confirms a change in agency fees applicable to FOIA requests and will not have any particular impact on small entities subject to the regulation.

List of Subjects in 12 CFR Part 261

Confidential business information, Federal Reserve System, Freedom of Information.

For the reasons set forth in this document, and pursuant to the Board's authority under the Freedom of Information Reform Act of 1986 (Pub. L. 99-570, 5 U.S.C. 552(a)(4)(A)(i)) to promulgate rules implementing the FOI Reform Act, the Board confirms its amendment of 12 CFR part 261.

PART 261—RULES REGARDING AVAILABILITY OF INFORMATION

Accordingly, the interim rule amending 12 CFR part 261 which was published at 55 FR 49676 on December 3, 1990, is adopted as a final rule without change.

By order of the Board of Governors of the Federal Reserve System, June 21, 1991.

William W. Wiles,

Secretary of the Board.

[FR Doc. 91-15297 Filed 6-26-91; 8:45 am]

BILLING CODE 6210-01-F

FARM CREDIT ADMINISTRATION

12 CFR Parts 611, 620, and 621

RIN 3052-AB20

Organization; Disclosure to Shareholders; Accounting and Reporting Requirements

AGENCY: Farm Credit Administration.

ACTION: Final rule.

SUMMARY: The Farm Credit Administration (FCA), by the Farm Credit Administration Board, adopts final regulations that amend 12 CFR parts 611, 620, and 621, that were published as proposed regulations on January 24, 1991 (56 FR 2715). These final regulations implement changes made necessary as a result of the amendment of the Farm Credit Act of 1971 (1971 Act), as amended by the Agricultural Credit Act of 1987 (1987 Act) (Pub. L. 100-233). The final regulations require disclosure of enforcement actions and additional disclosure related to capital, obligations of the Farm Credit System Financial Assistance Corporation, obligations insured by the Farm Credit System Insurance Corporation (FCSIC), and the establishment of the Federal Agricultural Mortgage Corporation (Farmer Mac); and new authorities to participate in Farmer Mac programs. Other amendments clarify the existing disclosure and accounting and reporting requirements; reflect changes to generally accepted accounting principles; and modify existing requirements for preparing, distributing, and filing reports. The final regulations also include technical amendments necessary to recognize the structural changes in Farm Credit System (System) institutions and changes in lending authority required or authorized by the 1987 Act.

EFFECTIVE DATE: These regulations shall become effective upon the expiration of 30 days after this publication during which either or both Houses of Congress are in session. Notice of the effective date will be published in the **Federal Register.**

FOR FURTHER INFORMATION CONTACT:

Tong-Ching Chang, Staff Accountant, Policy and Risk Analysis Division, Office of Examination, Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102-5090, (703) 883-4483, TDD (703) 883-4444;

or

Joy Strickland, Attorney, Office of General Counsel, Farm Credit Administration 1501, Farm Credit Drive, McLean, Virginia 22102-5090, (703) 883-4020, TDD (703) 883-4444.

SUPPLEMENTARY INFORMATION: On January 24, 1991, the Farm Credit Administration (FCA) published for public comment (56 FR 2715) proposed amendments to 12 CFR parts 611, 620, and 621 relating to Farm Credit System (System) institutions' disclosure to shareholders. The proposed amendments also reflected changes in the Farm Credit Act of 1971, as amended by the Agricultural Credit Act of 1987 (1987 Act) (Pub. L. 100-233). The proposed amendments were divided into three categories. In the first category were proposed technical amendments to the regulations addressing changes in the structure and lending authority of System institutions. The second category comprised proposed amendments requiring disclosure related

to capital, obligations insured by the Farm Credit System Insurance Corporation (FCSIC), obligations issued by the Farm Credit System Financial Assistance Corporation, purchases and sales of loans, participation in secondary market activities, and enforcement actions. The third category comprised other proposed procedural, technical, and conforming changes. Clarifications to the existing regulations regarding disclosure and accounting and reporting requirements were also proposed. The comment period for these proposed amendments closed on February 25, 1991.

The FCA received two letters commenting on the proposed regulations. One letter was submitted by the Farm Credit Council (FCC) on behalf of its membership and the Farm Credit Banks Funding Corporation (Funding Corporation). The other letter was submitted by the Farm Credit Bank (FCB) of Springfield and the Springfield Bank for Cooperatives endorsing the comments contained in the FCC letter. The FCC letter represented a summary of the consolidated comments of its membership and the Funding Corporation.

The FCC comment letter incorporated by reference two attachments containing a list of issues regarding the disclosure regulations identified by the System Financial Reporting/Disclosure Workgroup on which the System workgroup sought interpretations and expressed concerns. The issues were submitted by the System workgroup in August 1990. Some of these issues are addressed by the final regulations and others were addressed in a February 1991 FCA staff response that clarified existing provisions. The FCC requested that the final regulations address those requested interpretations and concerns and that clarifications be included as supplemental information to the final rule.

The FCA believes the final rule clarifies those points that need to be clarified and does not believe that it is necessary or appropriate to include the full text of the February response as supplemental information to the final regulations. However, the final regulations make no change to § 620.3(i)(2) of the existing regulations to increase the minimum reporting level of compensation to senior officers from $50,000 to $60,000 as requested. The issue of raising the compensation minimum reporting level for senior officers was included in the System workgroup's list of concerns. In adopting the proposed amendments to the existing regulations, the FCA considered the issue and believed that raising the minimum reporting level would not ensure Farm Credit institutions' full disclosure to shareholders. The FCA determined that an amendment in the proposed rule to raise the compensation minimum reporting level for senior officers was not appropriate and the final rule confirms the FCA's determination to make no changes to redesignated § 620.5(i)(2). The basis for establishing the existing minimum reporting level can be found at 51 FR 21336, June 12, 1986.

In addition, the FCA has not adopted the suggestion that a number of significant items of § 620.5 be relegated to a supplemental report that is available to shareholders only upon request. Because the annual and quarterly reports required by part 620 are used both as a prospectus and a shareholder report, the FCA believes it would not be appropriate to relegate essential disclosures to such supplemental reports. The FCA continues to believe that the nature of the information suggested to be included in a supplemental report is the information about an institution's operations that is needed by shareholders to make informed decisions and to hold management accountable for its actions. The FCA further believes that requiring shareholders to request essential disclosures constitutes an undue burden on shareholders and could preclude the receipt of data by shareholders on a timely basis.

The following discussion summarizes comments received and the FCA's response to the comments. The discussion is presented by section in the order the sections appear in the final regulations. It includes an explanation of the proposed amendments to the existing regulations, comments on the proposed amendments, the FCA response to the comments, significant supplementary information contained in the proposed rule necessary to clarify the final regulations, and an explanation of significant changes made to the proposed regulations in adopting the final regulations.

I. Part 611—Organization

Subparts L, M, and N of the existing regulations were proposed to be revised to reflect changes to the citations to part 620 that would be required by the proposed amendments. These are conforming changes only and are adopted with minor technical revisions.

II. Part 620—Disclosure to Shareholders

The FCC requested that the FCA clarify how the proposed regulations would apply to associations that have become long-term direct lenders but have not purchased the bank's existing loan portfolio. In response to this comment, the FCA notes that the term "direct lender", as defined in § 619.9135, includes agricultural credit associations (ACAs) and Federal land credit associations (FLCAs) that are authorized to lend to eligible borrowers. Thus, any association having such authority is a direct lender association for the purposes of the disclosure regulations. Accordingly, each association having direct lending authority must comply with the disclosure requirements for direct lenders, whether or not the association has purchased the existing bank loan portfolio.

A. Subpart A—General

The amended disclosure regulations contain many procedural and technical changes to part 620. A new subpart A has been added, and the existing subparts of part 620 have been redesignated accordingly. New "Subpart A—General" contains definitions and general provisions that are applicable to all disclosure statements required by all subparts of part 620. Specific requirements pertaining to individual reports remain in the applicable subparts.

1. Section 620.1—Definitions

To reflect the structural and capitalization changes in System institutions as a result of the 1987 Act, the final regulation incorporates new definitions as part 619 for "association," "bank," and "direct lender association" and new definitions in part 615 for "permanent capital" and "protected borrower capital." In addition, the final regulation adds a new definition of "significant event." The final regulation also adds new definitions, "related association" and "related bank," to replace the previous references to "district bank" and "association in the district"; updates the definition of "loan" to reflect the Federal Agricultural Mortgage Corporation (Farmer Mac) secondary market activities and purchases and sales of loans; and clarifies the definition of "normal risk of collectibility" in which loans having a greater than normal risk of collectibility may include loans other than nonperforming loans.

The FCC commented on several definitions contained in the proposed amendments. The first comment was on the proposed definition of "loan" in § 620.1(g). The FCC stated that the definition as drafted could be construed

VOL 56 ISS 124 JE 27 1991 UMI

to have a much broader meaning. They further stated that the statement "that is recorded as an asset" contained in the first sentence of the definition should be repeated in the second sentence to subject all items listed in the second sentence to the same condition. The FCA notes that the first sentence of the definition provides a general definition that requires an item to be recorded as an asset in order to be considered a loan. The second sentence clarifies the general definition with specific examples that normally fall within the meaning of the general definition. Therefore, the repetition of the condition in the second sentence would be unnecessary. However, to ensure clarity, the FCA believes that it is necessary to include "lease financings" in the second sentence to support the general definition "extension of * * * lease" stated in the first sentence. The FCC also suggested that the definition of "loan" in parts 620 and 621 should be consistent. When it reviews part 621, the FCA will consider this specific comment as well as other comments made by the FCC relating to part 621 in that review.

The FCC further commented that the term "net worth" is unnecessary and possibly confusing. They believe that the term "capital" continues to be a suitable descriptive term to include all equity accounts. The FCA has considered the FCC's comment and concluded that the terms"capital" and "net worth" are generally interchangeable in the industry. However, the FCA has revised the final regulation to include the term "capital" in place of the proposed term "net worth." The FCA believes that capital that is protected by the 1987 Act must be separated from capital that is at risk on the face of the financial statements. This distinction is critical to readers' understanding of the financial statements and necessary for full disclosure regarding an institution's capital structure. Accordingly, the final regulation specifies what elements of "capital" are to be used in the calculation of certain financial ratios and in matters relating to the disclosure of capital.

Regarding the definition of "normal risk of collectibility," the FCC stated that the proposed amendment would result in an open-ended set of criteria. They believe that the "other high risk" classification in § 621.2(a)(18) would adequately cover any "miscellaneous" circumstances where a loan has more than the normal risk of collectibility and that the definition in part 620 is unnecessary and should be eliminated. The existing definition of "normal risk of collectibility" provides that "* * *. Any loans properly identifiable as 'nonperforming loans' * * * shall be deemed to have more than a normal risk of collectibility." This has been misinterpreted to mean that only nonperforming loans involve more than normal risk of collectibility. The FCA wishes to clarify that while all loans identified as nonperforming in accordance with § 621.2(a)(17) are determined to have more than a normal risk of collectibility, other loans may also be considered to have more than a normal risk of collectibility even though they may not be classified as nonperforming loans. The amendment is intended to emphasize that management is required to exercise judgment to determine whether a loan involves more than a normal risk of collectibility and such determination should be made independent from the classification of the loan as nonperforming. When it reviews part 621, the FCA will consider the definition of "other high risk loans" in its review. The FCA adopts the clarification of "normal risk of collectibility" as proposed.

Moreover, the FCC commented that "permanent capital" is not a term used in general-purpose financial statements and that the use of a permanent capital concept should be limited to certain regulatory calculations. They further commented that the amount of permanent capital disclosed on the balance sheet may differ from the permanent capital used in the computation of the permanent capital ratio (PCR) due to double-counted capital eliminations and the use of average daily balances. The FCA believes that "permanent capital" is an important and relevant term to shareholders because the ability of the institution to distribute earnings depends upon the level of permanent capital. The regulation does not contemplate that the term "permanent capital" be used on the face of the financial statements. The proposed regulations required disclosure of the amount of permanent capital in the selected financial data section, not in the financial statements. In order to clarify what amount of permanent capital is required under the selected financial data section, the FCA has revised the proposed heading "Permanent capital" in § 620.5(f) to "At-risk capital." The reporting institution should also disclose that, for the purpose of computing the PCR, adjustments in accordance with regulatory requirements are necessary.

Another comment stated that the proposed definition of "protected borrower stock" in § 620.1(k) is not sufficiently comprehensive and suggested using the term "protected borrower capital" to include any protected allocated surplus to make it clear to readers that more than stock is included. The FCA believed that the term "protected borrower stock" included protected allocated surplus because it references § 615.5200 and corresponds with the 1987 Act in which "borrower stock" includes stock, participation certificates, and allocated equities. However, in order to clarify this regulation, the FCA has no objection to using the suggested term "protected borrower capital" in place of "protected borrower stock," and has adopted the term in the final regulations.

Lastly, regarding the definition of "significant event" in § 620.1(q), the FCC asserted that a bank's execution of a financial assistance agreement with a small association may not represent a material risk to the bank, and the probability of activation of such an agreement may not be likely. The FCC requested clarification as to whether the financial assistance agreement in such circumstance would constitute a significant event. In order to clarify the requirements, the FCA notes that items listed in the proposed definition, i.e., actual or probable noncompliance with the regulatory minimum permanent capital standards or capital adequacy requirements, stock impairment, the imposition of or entering into enforcement actions, execution of financial assistance agreements with other institutions, collateral deficiencies that impact a bank's ability to obtain loan funds, and defaults of debt obligations, are deemed by the FCA to be significant events and are not subject to any evaluation or judgment as to their materiality or likelihood.

The FCC also asserted that the definition of "significant event" should include a reasonable future time period within which such events must occur in order to be considered significant and suggested 12 months to be a reasonable period of time in which to forecast significant events. The FCA disagrees with the FCC and believes that any significant event that is likely to have a material impact on the reporting institution should be disclosed, if known, without regard to the expectation of when such event will occur. However, it is recognized that the extent of the disclosure may vary depending on the institution's knowledge of the significance of the event at the time of the reporting.

2. Section 620.2—Preparing and Filing the Reports

Section 620.2 of the final regulations clarifies that reports sent to the FCA may be filed with offices designated by the Chief Examiner and specifies that the reports must be filed on or before the date required by the regulation. The section also contains a new requirement that reports be available for public inspection at the issuing institution. In addition, the reports must include a statement that the shareholders' investment in an association is materially affected by the financial condition of the related bank. The reports must also include the address and telephone number where an association shareholder can obtain copies of bank quarterly reports for quarters in which the bank does not distribute such information. The regulation also requires that the bank reports be provided to the requesting shareholder free of charge.

The FCC provided several comments on this section. First, it was suggested that proposed § 620.2(a) be clarified to state that each institution is required to file three copies of material actually provided to stockholders with the FCA. The FCA intends to prescribe the minimum requirements for filing of periodic reports with the FCA in § 620.2(a). The FCA has determined that the regulation as written is clear but also agrees that an institution would satisfy this regulatory requirement if it files with the FCA copies of material actually provided to stockholders. Therefore, no change to the regulation is necessary.

Secondly, the FCC recognized that a bank and its related associations continue to be financially and operationally interdependent and that they should continue to report on a combined basis. However, the FCC suggested that because facts and circumstances may change, the regulation should provide for greater flexibility by requiring that the reporting entity comply with Generally Accepted Accounting Principles (GAAP) rather than requiring combined reporting.

The FCA recognizes that the need for reporting on a combined bank and association basis may at some point change due to structural changes in the System, new capital requirements, and the prospect of increased autonomy and financial independence of associations. However, until conditions in the System change, the FCA continues to believe that combined bank and association reports provide shareholders with needed information to assess the impact that the bank and its related associations have on the financial condition of a particular association and its ability to obtain loan funds. Further, the FCA is monitoring developments of the Financial Accounting Standards Board in the area of consolidated reporting for the purpose of evaluating whether adjustments to the regulations are needed. The disclosure regulations can be amended at a later date to conform to any changes that may occur. Thus, the FCA has determined that no changes to the proposed regulations are needed at this time.

In addition, the FCC requested the FCA to develop in the context of the accounting and reporting regulations, a meaningful and usable presentation of the allowance for loan losses and provision for loan losses for the users of financial statements of production credit associations (PCAs). The FCC further suggested that the regulation should provide for the balance sheet and the statement of income to be prepared in accordance with GAAP and allow the impact of the statutory requirements to be disclosed in notes to the financial statements. The FCC believes that this would result in the most meaningful presentation to shareholders and would eliminate the "unnecessary and complex Management Discussion and Analysis" which currently must explain and disclose statutory requirements that have no impact on the operations of the PCAs.

The FCA will consider these comments in its review of part 621 in the light of any legislative changes to section 2.3(b) of the 1971 Act that may have occurred at that time.

The FCC further suggested that the regulations use the term "district report" to reference the report prepared on a combined basis for a bank and its related associations and the term "bank only" to reference the report of a bank standing alone. Moreover, they requested that redesignated § 620.2(g) be revised to clarify that bank-only financial statements may be in summary form and to include additional language concerning disclosure for a bank for cooperatives (BC).

In response to these comments, the FCA has revised the last sentence of § 620.2(g) to clearly reflect that the bank-only statements that are included in the annual and quarterly bank reports may be provided in summary form. However, the combination requirement in paragraph (g) only applies when a bank has related associations. Since BCs do not have related associations, the requirement for combined financial statements does not apply.

Lastly, the FCC states that proposed § 620.2(i) appeared to require that two reports be sent to requesting shareholders—one from the association and one from its related bank—and requested that the FCA clarify what is intended by the paragraph. To clarify the requirement of § 620.2(i), the FCA has revised the final regulations to require the institution receiving the request to provide the requesting shareholder with a bank quarterly report.

3. Section 620.3—Prohibition Against Incomplete, Inaccurate, or Misleading Disclosure

The FCA proposed a new § 620.3 that expands the prohibition against incomplete, inaccurate, or misleading disclosures in connection with an election to apply to any disclosure made by a Farm Credit institution or its officers, directors, or employees to the general public concerning any matter required by part 620. Section 620.3 also requires an institution or person to make additional or corrective disclosure when a disclosure is made that is, in the judgment of the FCA, incomplete, inaccurate, or misleading.

The FCC commented that the term "incomplete" is too vague to provide appropriate guidance as to when a disclosure is, in fact, "complete." The FCC suggested using language similar to that used by the Federal Deposit Insurance Corporation (FDIC) in regulations relating to shareholder meetings. The FDIC regulation at 12 CFR 335.206 includes the phrase "omits to state any material fact necessary in order to make the statement therein not false or misleading." The FCC believes this phrase to be a more precise standard and more capable of uniform application by System banks and associations. The FCC also commented that its review of comparable Federal banking regulations failed to disclose any similar requirement for corrective statements when judged necessary by the regulator.

In response to these comments, the FCA believes that shareholders of System institutions are entitled to full and fair disclosure relating to the financial condition and operations of such institutions. The regulations in part 620 are intended to provide the minimum information necessary to constitute full and fair disclosure. Therefore, if a portion of the required information were not disclosed in the annual and quarterly reports, such as a description of material pending legal proceedings, the reports would not present full disclosure to the

VOL 56 ISS 124 JE 27 1991 UMI

shareholders. The application of the terms "incomplete," "inaccurate," and "misleading" would include situations in which a reporting institution omitted a material fact necessary in order to make the other statements made not false or misleading. However, the FCA also wishes to ensure that the prohibition covers situations in which required disclosure items are omitted that do not make other disclosures false or misleading but would result in a shareholder's receiving less than full disclosure of the financial condition and operations of the institution.

Regarding the requirement that an institution or person make additional or corrective disclosure, the FCA believes corrective disclosure is an appropriate remedy in instances where shareholders or the general public have been provided with information that does not represent full and fair disclosure. For these reasons, the FCA has determined not to make any of the suggested changes to § 620.3.

B. Subpart B—Annual Report to Shareholders

1. Section 620.4—Preparing and Distributing the Annual Report

Section 620.4 sets forth specific requirements for filing of the annual report. The section consists of the requirements contained in § 620.2 (a), (b), and (c) of the existing regulations with necessary adjustments to reflect structural changes of Farm Credit institutions. The section requires that the entire bank report (which includes financial statements of the bank and combined financial statements of the bank and its related associations as well as management's discussion and analysis (MD&A)) be distributed to association shareholders. It also includes a new statement to clarify that a bank shall coordinate its distribution of an annual report with its related associations.

2. Section 620.5—Contents of the Annual Report to Shareholders

Section 620.3 of the existing regulations has been redesignated as § 620.5. Redesignated § 620.5 requires disclosure to reflect statutory and regulatory changes regarding capital adequacy, lending authority, insurance of certain Systemwide debt obligations, participation in the Farmer Mac secondary market program, and other activities authorized or mandated by the 1987 Act. The section also requires disclosure of enforcement actions, presentation of a statement of cash flows, and a statement of changes in protected borrower capital and at-risk capital.

The FCC's letter contained a number of specific comments on this section. The FCA's responses to these comments are discussed below by paragraph.

(a) Description of business. Redesignated § 620.5(a)(3) sets forth the requirement for disclosure of the types of lending activities engaged in and financial services offered by the reporting institutions. Section 620.5(a)(3) also requires a bank to include disclosure for services offered by its related associations. Section 620.5(a)(3) of the proposed regulations referred to a bank's related associations as "associations that are its shareholders." The FCC questioned whether a bank's disclosure should include a description for an association that has terminated its System status but continues to be a shareholder of the bank. The FCA did not intend to require a bank to disclose business of a non-System institution. Although the association continues to be a shareholder of the bank, disclosure of an institution that has ceased its System status is not required. To clarify the intent of the regulation, the FCA has revised the above reference in paragraph (a)(3) by substituting the defined term "related associations" for "associations that are its shareholders." The FCC also expressed its concern on the provision requiring only banks to disclose services offered by a service organization. The FCC indicated that at some future time associations may also own service organizations to engage in Farmer Mac secondary market activities as proposed in 55 FR 9136, March 12, 1990. In response to this comment, the FCC has expanded the provision to apply to associations. Also, the requirement for a disclosure of the institution's participation in the Farmer Mac program and origination of loans for resale in § 620.5(a)(3) has been relocated to § 620.5(g)(1)(iii)(A).

Moreover, the FCC suggested that both § 620.5 (a)(3) and (a)(9), concerning a description of the business of and relationship with its related System institutions, be revised to subject these requirements to a materiality judgment. The FCA notes that the disclosure required under paragraphs (a)(3) and (a)(9) is a general description of the activities and services offered by the reporting entity and its related organizations and a brief description of the reporting entity's relationship with its related organizations. The extent of the description of the required disclosure is subject to management's materiality judgment. However, the disclosure required by these paragraphs is not subject to a materiality judgment.

Though the FCA did not propose any change to the provision, the FCC suggested that paragraph (a)(4) be amended to reduce the period to be covered in the discussion of significant business developments from 5 years to 3 years. The FCA believes that a 5-year period is necessary to show the trend of business movements and makes no change in this provision.

(b) Description of property. Redesignated § 620.5(b) includes a new statement to clarify the existing term "principal offices" as "major facilities where the institution makes and services its loans." The FCC suggested that the FCA revise the proposed clarification by using a minimum standard relating to the book value of the facility as compared to the institution's capital, or a standard relating to a minimum percentage of total loan volume to provide more precise guidance as to which facilities qualify as "principal offices." The FCA notes that disclosure in § 620.5(b) is intended to identify major office locations where the reporting institution makes and services its loans. Therefore, any measurement relative to the value of the facilities is irrelevant to why an office location must be included. Each reporting institution must exercise judgment to determine whether an office constitutes a "major facility."

(c) Legal proceedings and enforcement actions. Redesignated § 620.5(c)(2) was proposed to require disclosure of enforcement actions. The FCC suggested that the proposed requirement for disclosure of the "nature" of enforcement actions be revised to require disclosure of the "type" of enforcement actions. Paragraph (c)(2) was intended to require a reporting institution to provide a general description of the condition or circumstances giving rise to the enforcement action. The institution should always identify the type of enforcement action when disclosing the existence of such action. To clarify what is to be disclosed, the FCA has revised paragraph (c)(2) to require a disclosure of the "type of and reason for each enforcement action in effect." The language in the final regulation has also been clarified to include disclosure of prohibitions from further participation in the conduct of the affairs of the institutions as well as removals of officers and directors. In addition, in reviewing comments received on the proposed regulations, the FCA considered the requirement to disclose suspensions of officers and directors.

Due to the effect the disclosure of a suspension could have on a director or officer personally, the FCA has deleted the mandatory requirement for disclosure of suspensions in the final rule. Consequently, the determination of whether or not suspensions are to be disclosed will be made by management on a case-by-case basis depending upon the materiality of the impact of a suspension on the reporting institution. Section 620.5(c)(2) as revised is similar to the requirements of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA).

(d) Description of capital structure. Redesignated § 620.5(d) reflects statutory and regulatory requirements with respect to capitalization of Farm Credit institutions. Institutions are required to state the regulatory permanent capital standards; the institutions' capital adequacy requirements and minimum stock purchase requirements; statutory and regulatory restrictions on the distribution of earnings and retirement of stock when capital standards are not met; the regulatory requirement that banks for cooperatives add annual amounts to unallocated surplus until the unallocated surplus reaches half of the institutions' minimum permanent capital requirements; and whether the reporting institutions are currently subject to any such restrictions or requirements or know of any reason they will be subject to such requirements during the fiscal year subsequent to the fiscal year just ended.

The FCC commented that a simple statement regarding each item would be adequate and that guidance as to the nature and extent of the expected disclosure for capital-related matters is necessary. The FCA concurs with the FCC's view that a simple statement that effectively describes each of the subject matters is adequate. The FCA recognizes that the regulatory permanent capital standard is only a minimum standard, and an institution may nevertheless need more permanent capital to provide for the growth necessary to meet the needs of its borrowers and offset the risks inherent in that institution. As a result, the FCA believes that it is necessary to distinguish the regulatory minimum permanent capital standards from an institution's capital adequacy needs. Accordingly, a new § 620.5(d)(4) has been added to require a separate disclosure of the institution's capital adequacy requirements, and proposed § 620.5(d)(2) has been revised to require a description of regulatory minimum permanent capital standards and the disclosure of the institution's compliance with such standards. The final regulations also require banks to disclose the compliance of their related associations with the standards.

(e) Description of liabilities. Redesignated § 620.5(e) contains amendments to reflect the establishment of the FCSIC and the Farm Credit System Financial Assistance Corporation. The FCC contended that the requirement in § 620.5(e)(1) for a separate disclosure of insured versus uninsured debt is unnecessary and that disclosure of insured and uninsured debt would be made in accordance with GAAP if material. The FCA believes that shareholders are entitled to accurate information about the different nature and magnitude of insured and uninsured debt obligations issued by the reporting institution. Therefore, the FCA has concluded that the amounts of outstanding insured and uninsured debt are relevant and material to readers of financial statements, regardless of the quantitative materiality of the individual items.

The FCC also commented that any disclosure relative to other System institutions' responsibilities to repay obligations issued by the Farm Credit System Financial Assistance Corporation under paragraph (e)(4) would be unnecessarily complex and of no practical value to shareholders. The FCC further stated that disclosure in accordance with GAAP would meet the objective for meaningful disclosure to shareholders. The intent of § 620.5(e)(4) is to require a reporting institution to describe in general the System institutions' responsibility, as a whole, for repayment of such debt obligations. Section 620.5(e)(4) does not require a reporting institution to disclose specific repayment obligations of other System institutions. When the repayment obligation of the reporting institution is estimable, disclosure in accordance with GAAP would be required. Thus, no changes to paragraph (e)(4) are needed.

(f) Selected financial data. Redesignated § 620.5(f) is amended to conform to statutory and regulatory changes in the structure and capitalization of Farm Credit institutions. It also contains other technical changes, including the disclosure of extraordinary items and the deletion of the requirement to disclose the debt-to-capital ratio. In the final regulations, each selected item has been designated with a paragraph number for reference.

The FCC suggested that the FCA clarify whether the order and captions of the items in paragraph (f) may be altered or expanded by management to ensure the most appropriate and meaningful disclosure consistent with the other financial statements and schedules included in the annual report. The introductory paragraph of redesignated § 620.5 states that "The report shall contain the following items in substantially the same order * * *." This provision requires that discussions relating to the major caption of each paragraph that appeared in lower-case alphabetical order under § 620.5 be presented in the annual report in substantially the same order as prescribed in the regulations. However, this requirement does not apply to subissues prescribed within each of those paragraphs of § 620.5 that appeared in numerical order, Roman numeral sequence, or any other sequence. Accordingly, except for the major captions, management may expand the list under "Selected Financial Data" of § 620.5(f) and present the items prescribed thereunder in any logical order that would enhance readers' understanding of the report. In addition, the FCA does not object to System institutions' presentation of financial highlights in the form of condensed financial statements: *Provided*, That all items required are presented, and the presentation does not divert readers' attention away from significant financial indicators.

The FCC submitted two comments regarding disclosure of the permanent capital ratio (PCR). The FCC stated that the PCR of a combined entity is less meaningful than the bank-only PCR and requested the FCA to clarify that the 5-year disclosure requirement does not apply to the PCR for the years prior to the enactment of the 1987 Act. The FCA concurs with the first comment that the PCR of a combined entity is less meaningful and has modified proposed § 620.5(f) to specify that banks present the bank-only PCR. However, the FCA believes that a specific provision in the regulation to clarify that the 5-year PCR disclosure requirement does not apply to the years prior to the enactment of the 1987 Act is not necessary. It is presumed that each reporting institution is required to comply with the regulations for the years that are applicable to such institution. Therefore, disclosure of the PCR for the years prior to 1988 is not required.

The FCC further suggested that the term "allocated equities" be replaced by the term "allocated surplus." Because the suggested term "allocated surplus" is also an appropriate term for presentation of equity accounts in the financial statements, the FCA has

VOL
56
ISS
1
24
JE
27
1991
UMI

adopted the suggested term in the final rule.

Lastly, the FCC suggested that the FCA insert in § 620.5(f) a provision permitting the combination of insignificant items and require only material items to be disclosed similar to provisions governing quarterly reports. In response to this comment, the FCA notes that the selected financial data should be distinguished from the condensed financial statements, where the combination of insignificant items is necessary in order to make a condensed balance sheet or income statement balance. The 5-year selected financial data required is data that is relevant in the analysis of the System institutions. Such disclosure is intended to allow readers of the financial statements to analyze the institution's performance based on trends over a period of years in the items presented. In presenting the required selected data, materiality is not relevant. Because the data selected are single elements within the major financial statement captions, the totaling of individual selected items is not required. Therefore, it is unnecessary to include a provision in paragraph (f) to allow the combination of insignificant data. However, a reporting institution may omit a selected item that is not applicable to the institution.

With respect to condensed financial statements, the rules for condensation for quarterly reports are intended to allow an institution to prepare a less detailed financial report than the annual report while ensuring that any major increases or decreases since the end of the preceding fiscal year are disclosed. This takes into consideration materiality and also presumes that the users of the interim financial information have read or have access to the audited financial statements for the preceding fiscal year. Because of the difference in purpose of the quarterly reports and the 5-year selected data, the criteria for presentation of the data and the application of materiality are also different.

(g) Management's discussion and analysis of financial condition and results of operations. The amendments to redesignated § 620.5(g) reflect changes resulting from the 1987 Act and require additional disclosure in the MD&A for capital, sales and purchases of loans, and secondary market activities of the reporting institution. In view of the focus on the statutory and regulatory requirements of permanent capital and capital adequacy, the amended regulations delete the concept of "risk funds." The provision requiring banks to disclose agricultural production loans by major subcategory is also deleted. Each institution is required to discuss the adequacy of its permanent capital position and any trends, commitments, contingencies, or events that are reasonably likely to have a materially adverse effect on the institution's capital adequacy or its ability to meet minimum permanent capital standards. It also requires disclosure of any foreseeable material change in its capital plan adopted pursuant to § 615.5200 that may have an effect on the institution's minimum stock purchase requirement or its ability to retire stock and distribute earnings. In addition, in order to make the association's report more complete, each association is required to disclose its relationship with its related bank, as well as any events affecting the bank, if known, that would also materially affect the association.

Some institutions have misinterpreted the existing regulations to require that the quarterly report contain a management's discussion and analysis (MD&A) repeating much of the same information included in its annual report. The regulation only requires discussion of any material changes that have occurred since the end of the last fiscal year to be presented in an easily understandable format. For presentation of financial statements, § 620.11(b)(4) of the existing regulations states that "* * * footnote disclosure that would substantially duplicate the disclosure contained in the most recent audited financial statements (such as a statement of significant accounting policies and practices), and details of accounts that have not changed significantly in amount or composition since the end of the most recent completed fiscal year may be omitted." With respect to the MD&A, § 620.3(c) of the existing regulations states that "Discuss material changes, if any, to the information provided to shareholders pursuant to § 620.3(g) that have occurred during the periods specified * * *."

Management of each institution is responsible for ensuring that quarterly reports include an appropriate discussion regarding an institution's financial health. It need not be voluminous to comply with the disclosure regulations. As the FCA has noted in the past, institutions that include information not required by the regulations may not necessarily be making the most meaningful disclosure to shareholders. Disclosure of a large volume of information without clarity and focus does not constitute meaningful disclosure. The quarterly report should contain a concise but meaningful discussion of material changes presented in an easily understandable format. Disclosure by an institution to its shareholders of information that is not organized in an easily understandable format or is presented in a manner that is misleading would constitute a reporting deficiency pursuant to redesignated § 620.11(a).

The FCC submitted three comments on § 620.5(g). The first comment was on proposed § 620.5(g)(1)(iii), which requires disclosure of the amount of purchased loans, loans sold with recourse, retained subordinated interests in loans sold, and interest in pools of subordinated interests that are held in lieu of retaining a subordinated participation interest in the loans sold. The FCC believed that paragraph (g)(1)(iii) as proposed would potentially require extensive disclosure and suggested that the provision be amended to require only disclosure of arrangements that are significant to the institution's operation. The FCC further suggested that the FCA clarify whether this requirement is intended to apply to all participations.

The FCA does not intend redesignated § 620.5(g)(1)(iii) to apply to loans sold with no recourse. However, disclosure relating to loans sold into the Farmer Mac program without recourse is required in paragraph (g)(1)(iv)(E) of the same section. The FCA believes that the disclosure required by the proposed regulation is meaningful in that activities relating to the Farmer Mac secondary market and purchases and sales of loans involves different risk exposure than holding loans in an institution's portfolio. Disclosure required by paragraph (g)(1)(iii) is merely the "amount" of the arrangements by type; a detailed discussion of the institution's involvement is not required. However, when such arrangements are material to the institution's operations, additional disclosure of the institution's involvement and risk exposure in the arrangements is required under the provisions of § 620.5(g)(1)(iv)(B) and (E). Section 620.5(g)(1)(iii) of the proposed regulations has been redesignated as § 620.5(g)(1)(iii)(B) of the final rule.

The FCC also commented that any explanation of the basis of the calculation of ratios relating to permanent capital and at-risk capital would be too technical for a meaningful disclosure to shareholders. The FCA believes a general discussion of how the ratios are computed and the adequacy of capital is important to a shareholder's understanding of the restrictions on the distribution of earnings. The FCA intends that the explanation be a general explanation on how the ratios are computed rather than a technical description of the computations.

The FCC also questioned whether the purpose of the proposed amendment of § 620.5(g)(4)(ii) is to require a greater quantification of data or a discussion of trends. The FCA proposed to amend paragraph (g)(4)(ii) to ensure that each institution's disclosure would cover all aspects of capital resources, i.e., protected borrower capital, permanent capital, debt obligations, and any off-balance-sheet financing, and changes thereto. The amended § 620.5(g)(4)(ii) should not be construed as seeking a greater quantification of data.

(j) Transactions with senior officers and directors. This paragraph was proposed to be amended to eliminate the reference to district Federal land banks, which no longer exist as a result of the 1987 Act. The FCC requested that the FCA clarify whether the phrase "the last full fiscal year-to-date" in the paragraph means "the last fiscal year" in the context of the annual report. The FCA clarifies the phrase in the final regulations by removing the hyphens and affirms the FCC's interpretation of the phrase in the context of the annual report.

C. Subpart C—Quarterly Report to Shareholders

1. Section 620.10—Preparing and Distributing the Quarterly Report

The final rule makes substantive changes in the distribution of bank quarterly reports to the shareholders of its related associations. The final regulations require the quarterly reports of the bank to be sent to association shareholders, except for quarters in which no significant events have occurred and no previously disclosed significant events continue to materially affect the bank and the related associations. For periods in which no significant events occur and no previously disclosed significant events continue to materially affect the related associations, bank quarterly reports are required to be made available upon request to association shareholders. Further, the final regulations require the bank to certify to the FCA that no significant events have occurred during the current quarter and no such events that occurred during previous quarters continue to have a material impact on related associations. The certification is required to be signed by the persons who are required to sign the quarterly report filed with the FCA. The regulation further require that bank quarterly reports be routinely distributed to shareholders of Federal land bank associations, which are not direct lender associations.

The FCC made several comments and suggestions regarding amended § 620.10, but was supportive of the changes in the proposed regulations modifying the requirement for routine distribution of bank quarterly reports to shareholders of direct lender associations. Regarding § 620.10(a), the FCC stated that paragraph (a) could be interpreted to exempt a bank from quarterly reporting requirements when all of the related associations in its district have direct lending authority. The FCC seeks clarification as to whether the FCA intends this result. In response to this comment, the FCA notes that the term "direct lender" should be distinguished from the term "retail lender." Farm Credit Banks are direct lenders by virtue of their authority to lend to associations, even if all retail authority has been transferred to the associations. As such, banks are required to prepare and distribute quarterly reports regardless of whether or not they exercise their direct lending authority.

Regarding § 620.10(e) and the definition of "significant event" in § 620.1(q) of the final regulations, the FCC interpreted the language of the proposed regulations as follows: During the quarter in which a bank receives or enters into an enforcement action or executes a financial assistance agreement, the bank's quarterly report would be distributed to association shareholders. In the quarters subsequent to the quarter in which the enforcement action or financial assistance agreement was put in place, the bank would not be required to distribute its quarterly report to association shareholders if no significant events which occurred during preceding quarters continue to materially affect the related associations. Therefore, the bank would be required to conduct an analysis to determine whether the occurrence of the event continued to materially affect the related associations, and, if it did not, the bank would then make the certification to the FCA that no significant events continue to affect related associations.

The FCA confirms that the FCC's interpretation is correct. The regulation is intended to require that, when a significant event described in § 620.10 occurs, the bank must distribute its quarterly report to association shareholders. For the quarters following the initial occurrence of the event, whether or not distribution is required will depend upon the materiality of the subsequent development of the event on its related associations.

The FCC further contended that the requirement of § 620.10(e) of the proposed regulations for each board member to sign the certification that no significant event has occurred is excessive and suggested that it would be sufficient to require the signature of the chairman of the board, the chief executive officer, and the disclosure officer. Due to the financial interdependence of banks and associations and the impact the significant events could have on the associations, the FCA believes that the determination of whether significant events have occurred should be made by the full board. The board must make a reasonable attempt to obtain signatures of all board members. However, the FCA is aware that, at times, an individual required to sign the certification may not sign, but the FCA does not believe that this fact alone should require distribution of bank quarterly reports when they would not otherwise be required to be distributed. Therefore, in the final regulations, the FCA has revised paragraph (e) to require the certification to be signed by the same persons who are required to certify for the filing of the report with the FCA pursuant to redesignated § 620.2(b)(3). If a majority of the board of directors decides that no significant events have occurred or continue to have a material impact on related associations and signs the certification, the report need not be distributed. In such instances, the certification would be sent to the FCA with the names of the individuals who did not sign and a statement as to why they did not sign. However, if a majority of the board of directors is unable or refuses to sign the certification, the bank must distribute its quarterly report to association shareholders.

The FCC also suggested that the certification reference the definition of "significant event" in § 620.1(q). The FCA has revised the certification as suggested and also inserted the qualifier, "that are direct lenders," after "related associations" because a bank is only required to certify for its related direct lender associations.

Lastly, the FCC suggested that it is appropriate for associations to insert a disclosure of the procedures regarding distribution of bank reports only if the associations and bank elect to change their procedures in accordance with the proposed regulations. The FCC also suggested that § 620.10(g) of the proposed regulations state that the disclosure is required to be made after

VOL 56 ISS 124 JE 27 1991 UMI

the effective date of the "subsection," rather that the effective date of the "amendment." Because the revised procedures for distribution of bank quarterly reports to association shareholders apply to all banks and associations and the revision constitutes a regulatory change, the FCA believes shareholders should be informed of the change even if the banks and associations do not intend to change the routine distribution of bank quarterly reports immediately. Section 620.10(g) has been revised to substitute the "paragraph" for the word "amendment."

2. Section 620.11—Content of Quarterly Report to Shareholders

Amendments were proposed to § 620.11 of the existing regulations to clarify current FCA requirements and to require a statement of cash flows in the disclosure regulations. Amended § 620.11 requires banks to publish the statement of cash flows on a quarterly basis and associations to publish the quarterly statement of cash flows at their option. The FCA believes that the quarterly statement of cash flows is less meaningful for an association than for a bank, since associations obtain funding from their related banks and loan payments received are seasonal.

The FCC requested that proposed § 620.11(d) be further amended to allow banks to prepare the quarterly statement of cash flows at their option. The FCA believes that banks should be required to publish the combined statement of cash flows on a quarterly basis, as the statement provides meaningful information to shareholders and holders of bank obligations. The statement of cash flows is, in part, intended to assess a reporting entity's ability to generate positive future net cash flows to meet its obligations and pay dividends and to assess its needs for external financing. Since Farm Credit banks issue debt obligations to the general public to obtain funding from external sources, this necessitates that banks publish the statement of cash flows on a quarterly basis. The FCC also suggested that the word "required" be changed to "provided" in proposed § 620.11(b). The FCA has made this change in the final regulations.

D. Subpart D—Association Annual Meeting Information Statement and Subpart E—Bank Director Disclosure Requirements

Subparts D and E of part 620 of the existing regulations were proposed to be revised to correctly reference the redesignated sections of part 620. These are conforming changes only and have been adopted as proposed.

III. Part 621—Accounting and Reporting Requirements

A. Subpart A—Accounting Requirements

1. Section 621.2—Definitions

The FCA proposed a technical amendment to the definition of "formally restructured loans" to clarify that the disclosure of formally restructured loans should be made in accordance with GAAP. The FCC made no comment on the proposed amendment but suggested that the supplementary information regarding this change contained in the proposed regulations be included in the final regulations. As stated in the supplementary information of the proposed regulations, existing § 621.2(a)(8) refers to "formally restructured" as defined in Statement of Financial Accounting Standards (SFAS) No. 15, Accounting by Debtors and Creditors for Troubled Debt Restructuring (SFAS No. 15), issued by the Financial Accounting Standards Board. In the second sentence of § 621.2(a)(8), it further states that, "After a loan is classified as 'formally restructured,' it shall continue to be classified as formally restructured until it is fully paid off or otherwise discharged." However, paragraph 40(a) of SFAS No. 15, which describes disclosure requirements for troubled debt restructuring, provides that a "* * * receivable whose terms have been modified need not be included in that disclosure if, subsequent to restructuring, its effective interest rate * * * has been equal to or greater than the rate that the creditor was willing to accept for a new receivable with comparable risk." As a result, some have questioned whether the regulation adequately reflects the possibility that, under SFAS No. 15, a restructured loan would no longer be considered formally restructured if, as a result of fluctuations in the interest rates on new receivables, the effective interest rate on a restructured loan is considered a market rate, i.e., the rate that the creditor was willing to accept for a new receivable with comparable risk. To prevent any further confusion, the FCA has amended § 621.2(a)(8) by deleting the second sentence, which has been interpreted as requiring, without exception, that a loan continue to be disclosed as "formally restructured" until it is fully paid off or otherwise discharged.

It should be noted that this change only addresses the issue of whether or not a loan shall be reported as a restructured loan in an institution's financial statements in accordance with the requirements of SFAS No. 15. For purposes other than reporting the loan in the financial statements in accordance with SFAS No. 15, the loan may still be considered a restructured loan.

List of Subjects in 12 CFR Parts 611, 620 and 621

Accounting, Agriculture, Banks, Banking, Credit, Organization and functions (Government agencies), Reporting and recordkeeping requirements, Rural areas.

For the reasons stated in the preamble, parts 611, 620, and 621 of chapter VI, title 12 of the Code of Federal Regulations are amended as follows:

PART 611—ORGANIZATION

1. The authority citation for part 611 continues to read as follows:

Authority: Secs. 1.3, 1.15, 2.0, 2.10, 3.0, 3.21, 4.12, 4.15, 5.0, 5.9, 5.10, 5.17, 7.0–7.13; 12 U.S.C. 2011, 2021, 2071, 2091, 2121, 2142, 2183, 2203, 2221, 2243, 2244, 2252, 2279a–2279f–1; secs. 411 and 412 of Pub. L. 100–233.

Subpart L—Liquidation of Associations

§ 611.1166 [Amended]

2. Section 611.1166 is amended by removing the references, "part 620, subpart A", "§ 620.3", "§ 620.2(e)", and "§ 620.2(f)" and adding in their places, the references, "§ 620.2 and subpart B of part 620", "§ 620.5", "§ 620.2(b)", and "§ 620.2(c)" in the first, second, and third sentences of paragraph (d) introductory text, respectively; by removing the reference, "§ 620.3(c)" and adding in its place, the reference "§ 620.5(c)" in paragraph (d)(2); by removing the reference, "§ 620.3(1)" and adding in its place, the reference "§ 620.5(1)" in paragraph (d)(3); by removing the reference, "subpart B" and adding in its place, the references "§ 620.2 and subpart C" in the first sentence of paragraph (e) introductory text; and by removing the reference, "§ 620.10(d)" and adding in its place, the reference "§ 620.2(b)" in the second sentence of paragraph (e) introductory text.

Subpart M—Liquidation of Banks

§ 611.1175 [Amended]

3. Section 611.1175 is amended by removing the references, "part 620, subpart A", "§ 620.3", "§ 620.2(e)", and "§ 620.2(f)" and adding in their places, the references "§ 620.2 and subpart B of part 620", "§ 620.5", "§ 620.2(b)", and "§ 620.2(c)" in the first, second, and third sentences of paragraph (d)

introductory text, respectively; by removing the reference, "§ 620.3(c)" and adding in its place, the reference, "§ 620.5(c)" in paragraph (d)(2); by removing the reference, "§ 620.3(1)" and adding in its place, the reference "§ 620.5(1)" in paragraph (d)(3); by removing the reference, "subpart B", and adding in its place, the references, "§ 620.2 and subpart C" in the first sentence of paragraph (e) introductory text; and by removing the reference, "§ 620.10(d)" and adding in its place, the reference "§ 620.2(b)" in the second sentence of paragraph (e) introductory text.

Subpart N—Conservators and Conservatorships of Banks and Associations

§ 611.1182 [Amended]

4. Section 611.1182 is amended by removing the references "§§ 620.2(e), 620.3(m) (3), 620.10(d), and 620.20(e) and (f)" and adding in their place, the references "§§ 620.2(b), 620.2(c), and 620.5(m)(2)" in paragraph (d).

PART 620—DISCLOSURE TO SHAREHOLDERS

5. The authority citation for part 620 continues to read as follows:

Authority: Secs. 5.17, 5.19, 8.11; 12 U.S.C. 2252, 2254, 2279aa–11; sec. 424 of Pub. L. 100–233.

Subparts B, C, D, and E [Redesignated as C, D, E, and F]

6. Subparts B, C, D, and E are redesignated as new subparts C, D, E, and F.

6A. A new Subpart B—Annual Report to Shareholders is added.

§ 620.3 [Redesignated as § 620.5]

7. Section 620.3 is redesignated as new § 620.5 in subpart B.

8. Subpart A is amended by revising the heading to read as follows:

Subpart A—General

9. Section 620.1 is amended by adding introductory text; removing existing paragraph (i); redesignating paragraphs (b), (c), (d), (e), (f), (g), (h), and (j) as new paragraphs (o), (e), (f), (g), (h), (i), (n), and (p); adding new paragraphs (b), (c), (d), (j), (k), (l), (m), and (g); and revising newly redesignated paragraphs (g) and (i) to read as follows:

§ 620.1 Definitions.

For the purpose of this part, the following definitions shall apply:

* * * * *

(b) *Association* means any of the associations as described in § 619.9050 of this chapter.

(c) *Bank* means any of the Farm Credit banks as described in § 619.9140 of this chapter.

(d) *Direct lender association* means any association that is a direct lender as described in § 619.9135 of this chapter.

* * * * *

(g) *Loan* means any extension of credit or lease that is recorded as an asset of a reporting institution, whether made directly or purchased from another lender. The term "loan" includes, but is not limited to, loans originated through direct negotiations between the reporting institution and a borrower; purchased loans or interests in loans, including participation interests, retained subordinated participation interests in loans sold, interests in pools of subordinated participation interests that are held in lieu of retaining a subordinated participation interest in loans sold; contracts of sale; notes receivable; and other similar obligations and lease financings.

* * * * *

(i) *Normal risk of collectibility* means the ordinary risk inherent in the lending operation. Loans that are deemed to have more than a normal risk of collectibility include, but are not limited to, any loans properly identifiable as "nonperforming" as defined in § 621.2(a)(17) of this chapter.

(j) *Permanent capital* shall have the same meaning as set forth in § 615.5201(h) of this chapter.

(k) *Protected borrower capital* means eligible borrower stock as defined in § 615.5260 of this chapter.

(l) *Related association* means an association within the reporting bank's chartered territory that generates loans for the bank or whose operations the bank funds.

(m) *Related bank* means a reporting association's funding bank or the bank for which it generates loans.

* * * * *

(q) *Significant event* means any event that is likely to have a material impact on the reporting institution's financial condition, results of operations, cost of funds, or reliability of sources of funds. The term "significant event" includes, but is not limited to, actual or probable noncompliance with the regulatory minimum permanent capital standards or capital adequacy requirements, stock impairment, the imposition of or entering into enforcement actions, execution of financial assistance agreements with other institutions, collateral deficiencies that impact a bank's ability to obtain loan funds, or defaults on debt obligations.

10. Section 620.2 is amended by revising the heading; adding introductory text; redesignating paragraphs (a), (b), and (c) as new § 620.4, paragraphs (a), (b), and (c) in subpart B; removing paragraph (j); redesignating paragraphs (d), (e), (f), (g), (h), (i), and (k) as new paragraphs (a), (b), (c), (d), (e), (f), and (g); adding new paragraphs (h) and (i); removing the reference "paragraph (e)" and adding in its place "paragraph (b)" in newly redesignated paragraph (c); removing the words "this subpart" and adding in their place "subparts B and D" in newly redesignated paragraph (f); and revising newly redesignated paragraphs (a), (b)(3) attestation text, and (g) to read as follows:

§ 620.2 Preparing and filing the reports.

For the purposes of this part, the following shall apply:

(a) Three complete copies of each report or information statement required by this part (for the purpose of this section, referred to as "report" unless otherwise specified), including financial statements and related schedules, exhibits, and all other papers and documents that are part of the report shall be filed with the Chief Examiner, Farm Credit Administration, McLean, Virginia 22102–5090, or with such other Farm Credit Administration offices as the Chief Examiner designates. The report shall be received by the Farm Credit Administration within the period prescribed under applicable sections of individual subparts regarding preparation and distribution of the report. The annual and quarterly reports shall be available for public inspection at the issuing institution and the Farm Credit Administration office with which the reports are filed. Bank reports shall also be available for public inspection at each related association office.

(b) * * *

(3) * * *

The undersigned certify that this report has been prepared in accordance with all applicable statutory and regulatory requirements and that the information contained herein is true, accurate, and complete to the best of his or her knowledge and belief.

* * * * *

(g) Each annual and quarterly report of a bank shall present the financial statements of the bank and its related associations on a combined basis. The report shall also include, at a minimum, the statement of condition and statement of income for the bank only. The bank-only statements may be in summary form and shall disclose the basis of presentation if different from

VOL 56 ISS 124 JE 27 1991 UMI

the accounting policies of the combined bank and association statements.

(h) Each association shall include a statement in a prominent location within each annual and quarterly report that the shareholders' investment in the association is materially affected by the financial condition and results of operations of the related bank and that a copy of the bank quarterly report is available upon request free of charge.

(i) Each annual and quarterly report shall include addresses and telephone numbers where association shareholders may obtain copies of bank quarterly reports. Upon request, the institution receiving the request shall promptly mail or deliver a bank quarterly report to the requesting shareholder free of charge.

11. A new § 620.3 is added to subpart A to read as follows:

§ 620.3 Prohibition against incomplete, inaccurate, or misleading disclosure.

No institution and no employee, officer, director, or nominee for director of the institution shall make any disclosure to shareholders or the general public concerning any matter required to be disclosed by this part that is incomplete, inaccurate, or misleading. When any such person makes disclosure that, in the judgment of the Farm Credit Administration, is incomplete, inaccurate, or misleading, whether or not such disclosure is made in disclosure statements required by this part, such institution or person shall make such additional or corrective disclosure as is necessary to provide shareholders and the general public with a full and fair disclosure.

12.–13. Newly redesignated § 620.4 is amended by adding a new section heading; revising paragraph (b); and removing the reference to "§ 620.3" and adding in its place "§ 620.5" in paragraph (c) to read as follows:

§ 620.4 Preparing and distributing the annual report.

* * * * *

(b) Each bank shall distribute its annual report to the shareholders of related associations within the period required by paragraph (a) of this section. Each bank shall coordinate such distribution with its related associations.

* * * * *

14. Newly designated § 620.5 is amended by removing the words "mergers or consolidations" and adding in their place "changes in the reporting entity" in paragraph (a)(4); adding the words ", i.e., headquarters, and major facilities where the institution makes and services its loans," after the word "principal offices" in paragraph (b); revising paragraph (c) heading; redesignating existing paragraph (c) text as new paragraph (c)(1); adding new paragraph (c)(2); removing the words "in the institution's judgment" from paragraph (g)(2)(v); revising paragraphs (a)(3), (a)(9), (d), (e)(1), (e)(2), (f), (g) introductory text, (g)(1)(i), (g)(2)(ii), (g)(2)(iii), (g)(4)(ii), (j)(3)(i), and (m)(1); removing paragraph (m)(2); redesignating existing paragraphs (g)(1)(iii), (g)(2)(vi), (g)(4)(v), and (m)(3) as new paragraphs (g)(1)(iv), (g)(2)(vii), (g)(4)(vi), and (m)(2); adding paragraphs (e)(4), (g)(1)(iii), (g)(1)(iv)(E), (g)(2)(vi), (g)(3)(ii)(C), and (g)(4)(v); and revising redesignated paragraph (g)(1)(iv) heading, paragraph (g)(1)(iv)(D), and paragraph (g)(4)(vi) to read as follows:

§ 620.5 Contents of the annual report to shareholders.

* * * * *

(a) *Description of business.* * * *

(3) The types of lending activities engaged in and financial services offered. Each bank shall also briefly describe the lending and financial services offered by its related associations, as well as financial services offered to the borrowers in the bank's chartered territory by any service organization in which it has an ownership interest. Each association shall briefly describe the lending and financial services offered by its related organizations or incorporate by reference relevant portions of the related bank's report, if such report is distributed to association shareholders;

* * * * *

(9) A brief description of the business of any related Farm Credit institution, as described in § 619.9146 of this chapter, and the nature of the institution's relationship with such organization.

* * * * *

(c) *Legal proceedings and enforcement actions.* * * *

(2) Describe the type of and reason for each enforcement action in effect, i.e., agreements, cease and desist orders, temporary cease and desist orders, prohibitions and removals of officers or directors, or civil money penalties, if any, imposed or assessed on the institution or its officers or directors and the amount of any civil money penalties assessed.

(d) *Description of capital structure.*

(1) Describe each class of stock and participation certificates the institution is authorized to issue and the rights, duties, and liabilities of each class. The description shall include:

(i) The number of shares of each class outstanding;

(ii) The par or face value;

(iii) The voting and dividend rights;

(iv) The order of priority upon impairment or liquidation;

(v) The institution's retirement policies and restrictions on transfer;

(vi) The statutory requirement that a borrower purchase stock as a condition to obtaining a loan;

(vii) The manner in which the stock is purchased (i.e., promissory note to the issuer, or cash not advanced by issuing institution);

(viii) The statutory authority of the institution to require additional capital contributions, if any; and

(ix) The statutory and regulatory restrictions regarding retirement of stock and distribution of earnings, and for banks for cooperatives, the amount required to be added to the unallocated surplus, pursuant to §§ 615.5215 and 615.5330 of this chapter.

(2) Describe regulatory minimum permanent capital standards, and the institution's compliance with such standards. For banks, also discuss any related associations that are not currently in compliance with the standards.

(3) State whether the institution is currently prohibited from retiring stock or distributing earnings by the statutory and regulatory restrictions described in paragraph (d)(1)(ix) of this section, or knows of any reason such prohibitions may apply during the fiscal year subsequent to the fiscal year just ended.

(4) Describe the institution's capital adequacy requirements and the minimum stock purchase requirement in effect.

(e) *Description of liabilities.* (1) Describe separately the institution's insured and uninsured debt, indicating the type, amount, maturity, and interest rates of each category of obligations outstanding at the end of the fiscal year just ended. Describe the nature of the insurance provided under part E of title V of the Act. Describe any applicable statutory and regulatory restrictions on the institution's ability to incur debt.

(2) Describe fully the institution's rights and obligations under any agreement, formal or informal, between the institution and any other person or entity having to do with capital preservation, loss sharing, or any other form of financial assistance.

* * * * *

(4) Describe the statutory responsibility of Farm Credit System institutions for repayment of obligations issued by the Farm Credit System Financial Assistance Corporation.

(f) *Selected financial data.* Furnish in comparative columnar form for each of the last 5 fiscal years the following financial data:

(1) *For banks and direct lender associations.*

(i) *Balance sheet.*

(A) Total assets.

(B) Investments.

(C) Loans.

(D) Allowance for losses.

(E) Net loans.

(F) Acquired property.

(G) Total liabilities.

(H) Obligations with maturities less than 1 year.

(I) Obligations with maturities longer than 1 year.

(J) Protected borrower capital.

(K) *At-risk capital.*

(*1*) Stock and participation certificates.

(*2*) Allocated surplus.

(*3*) Unallocated surplus.

(ii) *Statement of income.*

(A) Net interest income.

(B) Provision for loan losses.

(C) Extraordinary items.

(D) Net income.

(iii) *Key financial ratios.*

(A) Return on average assets.

(B) Return on average protected borrower capital and at-risk capital.

(C) Net interest margin as a percentage of average earning assets.

(D) Protected and at-risk capital-to-total assets.

(E) Net chargeoffs-to-average loans.

(F) Allowance for loan losses-to-loans.

(iv) *Net income distributed.*

(A) Dividends.

(B) *Patronage refunds.*

(*1*) Cash.

(*2*) Stock.

(*3*) Allocated surplus.

(*2*) *For associations that are not direct lender associations.*

(i) *Balance sheet.*

(A) Total assets.

(B) Accrued obligation under loss-sharing agreement, if any.

(C) Protected borrower capital.

(D) At-risk capital.

(ii) *Statement of income.*

(A) Compensation from related bank.

(B) Total operating expense.

(C) Extraordinary items.

(D) Provision for obligation under capital preservation or loss-sharing agreement, if any.

(E) Net income.

(iii) *Other.*

(A) Loans serviced for related bank.

(B) Dividends paid.

(C) *Patronage refunds paid.*

(*1*) Cash.

(*2*) Stock.

(*3*) Allocated surplus.

(D) Payments under lose-sharing agreement.

(3) *For all institutions.*

(i) Permanent capital ratio (for associations); or

(ii) Bank-only permanent capital ratio (for banks).

(g) *Management's discussion and analysis of financial condition and results of operations.* Fully discuss any material aspects of the institution's financial condition, changes in financial condition, and results of operations during the last 2 fiscal years, identifying favorable and unfavorable trends, and significant events or uncertainties. In addition to the items enumerated below, the discussion shall provide such other information as is necessary to an understanding of the institution's financial condition, changes in financial condition, and results of operations.

(1) *Loan portfolio.* (i) Describe the types of loans in the portfolio by major category (e.g., agricultural real estate mortgage loans, rural home loans, agricultural production loans, processing and marketing loans, farm business loans, and international loans), indicating the approximate percentage of the total dollar portfolio represented by each major category. Associations that make agricultural production loans shall provide the information required for such loans by major subcategory (e.g., cash grains, field crops, livestock, dairy, poultry, and timber). For each category and subcategory, discuss any special features of the loans that may be material to the evaluation of risk and any economic or business conditions that have had or are likely to have a material impact on their collectibility. For banks, also disclose separately the aggregate amount of loans outstanding to related associations and other financial institutions.

* * * * *

(iii) *Purchases and sales of loans.* (A) Describe any participation in the Federal Agricultural Mortgage Corporation program or origination of loans for resale.

(B) Disclose the amount of purchased loans, loans sold with recourse, retained subordinated participation interests in loans sold, and interests in pools of subordinated participation interests that are held in lieu of retaining a subordinated participation interest in the loans sold.

(iv) *Risk exposure.* * * *

(D) For banks, a description in the aggregate of the recent loss experience of related associations that are its shareholders, including the items enumerated in paragraphs (g)(1)(iv) (A), (B), and (C) of this section.

(E) Describe any obligations with respect to loans sold and the amount of any contributions made in connection with loans sold into the secondary market pursuant to § 8.7 of the Act. Further disclose the amount of risk of loss associated with such obligations and the amount included in the allowance for losses to provide for such risk.

(2) *Results of operations.* * * *

(ii) Describe any unusual or infrequent events or transactions or any significant economic changes, including, but not limited to, financial assistance received or paid that materially affected reported income. In each case, indicate the extent to which income was so affected.

(iii) Discuss the factors underlying the material changes, if any, in the return on average assets, the return on average protected borrower capital and at-risk capital, and the permanent capital ratio as determined in accordance with part 615, subpart H of this chapter. An explanation of the basis of the calculation of ratios relating to permanent capital and at-risk capital shall be included.

* * * * *

(vi) For associations, discuss any events affecting a related organization that are likely to have a material impact on the associations' financial condition, results of operations, cost of funds, or reliability of sources of funds.

* * * * *

(3) *Liquidity and funding sources.* * * *

(ii) *Liquidity.* * * *

(C) Discuss the institution's participation in the Federal Agricultural Mortgage Corporation secondary market programs authorized by title VIII of the Act and the origination of loans for resale under other authorities, if any.

* * * * *

(4) *Capital resources.* * * *

(ii) Describe any material trends or changes in the mix and cost of debt and capital resources. The discussion shall consider changes in protected borrower capital, permanent capital, debt, and any off-balance-sheet financing arrangements.

* * * * *

(v) Discuss the adequacy of the current permanent capital position and any material changes in the capital plan adopted pursuant to § 615.5200 of this chapter, to the extent that such changes may have an effect on the institution's minimum stock purchase requirements and its ability to retire stock and distribute earnings.

VOL 56 ISS 124 JE 27 1991 UMI

(vi) Discuss any trends, commitments, contingencies, or events that are reasonably likely to have a materially adverse effect upon the institution's ability to meet the regulatory minimum permanent capital standards and capital adequacy requirements.

* * * * *

(j) *Transactions with senior officers and directors.* * * *

(3) *Loans to senior officers and directors.* (i) To the extent applicable, state that the institution (or in the case of an association that does not carry loans to its senior officers and directors on its books, its related bank) has had loans outstanding during the last full fiscal year to date to its senior officers and directors, their immediate family members, and any organizations with which such senior officers or directors are affiliated with:

* * * * *

(m) *Financial statements.* (1) Furnish financial statements and related footnotes that have been prepared in accordance with generally accepted accounting principles and instructions and other requirements of the Farm Credit Administration and that have been audited in accordance with generally accepted auditing standards by a qualified public accountant, as defined in § 621.2(a)(21) of this chapter, and an opinion expressed thereon. The statements shall include the following statements and related footnotes for the last 3 fiscal years: balance sheet, statement of income, statement of changes in protected borrower capital and at-risk capital, and statement of cash flows.

* * * * *

Subpart C—Quarterly Report to Shareholders

15. Section 620.10 is revised to read as follows:

§ 620.10 Preparing and distributing the quarterly report.

(a) Each institution that is a direct lender shall prepare and distribute to its shareholders a quarterly report within 45 days after the end of each fiscal quarter, except that no report need be prepared for the fiscal quarter that coincides with the end of the fiscal year of the institution.

(b) Except as provided in paragraphs (e) and (f) of this section, each bank shall distribute its quarterly reports to shareholders of related associations within the period required by paragraph (a) of this section. Each bank shall coordinate such distribution with its related associations.

(c) The report shall contain, at a minimum, the information specified in § 620.11 and, in addition, such other material information as is necessary to make the required disclosures, in light of the circumstances under which they are made, not misleading.

(d) Distribution to shareholders may be by mail or by publication in newspapers or periodicals in the trade area of wide enough circulation to be reasonably assured that all of the institution's shareholders are reached on a timely basis.

(e) A bank is not required to distribute its quarterly reports to shareholders of related associations that are direct lender associations for those quarters in which no significant events have occurred or no significant events which occurred during the preceding quarters continue to materially affect the related associations. For each quarter in which no distribution is made, the bank shall certify to the Farm Credit Administration as follows:

> The undersigned certify that for the period between the end of the preceding fiscal quarter and the end of the most recent fiscal quarter, no significant events (as defined in § 620.1(q)) have occurred which are likely to have a material impact on related associations that are direct lenders or no significant events which occurred during the preceding quarters continue to materially affect such related associations.

The certification shall accompany the quarterly report filed with the FCA and shall be dated and signed by:

(1) The person designated by the board of directors to certify the reports of condition and performance in accordance with § 621.12 of this chapter,

(2) The chief executive officer, and

(3) Each member of the board.

The name and position title of each person signing the certification shall be typed or printed beneath his or her signature. If any officer or any member of the board is unable to or refuses to sign the certification, the bank shall disclose the individual's name and position title and the reasons such individual is unable or refuses to sign the report. If a majority of the board of directors is unable to or refuses to sign the certification, the bank must distribute its quarterly report to shareholders of related direct lender associations.

(f) For each quarter in which distribution of bank quarterly reports to association shareholders is not made pursuant to paragraph (e) of this section, copies of bank quarterly reports shall be made available free of charge to shareholders of related associations promptly upon request by the shareholder to the issuing bank or to the association of which the requestor is a shareholder.

(g) Each direct lender association shall include a statement in the first annual and first quarterly reports issued after the effective date of this paragraph explaining the regulatory changes in the distribution of bank quarterly reports and the new procedures under which association shareholders can obtain the bank quarterly reports.

16. Section 620.11 is amended by revising paragraph (a); adding (b) introductory text; removing paragraph (b)(3); redesignating existing paragraphs (b)(4), (b)(5), (b)(6), (b)(7), (b)(8), and (b)(9) as new paragraphs (b)(3), (b)(4), (b)(5), (b)(6), (b)(7), and (b)(8); removing the words ", in the opinion of management," from redesignated paragraph (b)(8); removing the reference "§ 620.3(g)" and adding in its place "§ 620.5(g)" in paragraph (c) introductory text; revising paragraph (d)(3); and adding new paragraph (d)(4) to read as follows:

§ 620.11 Content of quarterly report to shareholders.

(a) *General.* The information required to be included in the quarterly report may be presented in any format deemed suitable by the institution, except as otherwise required by this section. The report must be organized in an easily understandable format and not presented in a manner that is misleading.

(b) *Rules for condensation.* For purposes of this section, major captions to be provided in the financial statements are the same as those provided in the financial statements contained in the institution's annual report to shareholders, except that the financial statements included in the quarterly report may be condensed into major captions in accordance with the rules prescribed under this paragraph and paragraph (f) of this section.

* * * * *

(d) *Financial statements.* * * *

(3) Interim statements of changes in protected borrower capital and at-risk capital for the period between the end of the preceding fiscal year and the end of the most recent fiscal quarter, and for the comparable period for the preceding fiscal year.

(4) For banks, interim statements of cash flows for the period between the end of the preceding fiscal year and the end of the most recent fiscal quarter, and for the comparable period for the preceding fiscal year. For associations, interim statements of cash flows are optional.

* * * * *

Subpart D—Association Annual Meeting Information Statement

17. Section 620.20 is amended by removing the references "subpart A" and "subpart B" and adding in their place "subpart B" and "subpart C," respectively, in paragraph (c); removing paragraphs (d), (e), (f), (g), and (h); and revising the section heading to read as follows:

§ 620.20 Preparing and distributing the information statement.

§ 620.21 [Amended]

18. Section 620.21 is amended by removing the references "§ 620.3(j)" "§ 620.3(k)", "§ 620.3 (j) and (k)", "§ 620.3 (j) and (k)" and adding in their place the references "§ 620.5(j)", "§ 620.5 (k)", "§ 620.5 (j) and (k)", and § 620.5 (j) and (k)" in paragraph (c)(4), respectively; and by removing the reference "§ 620.3 (j) and (k)" and adding in its place the reference "§ 620.5 (j) and (k)" in the first and second sentences of paragraph (d)(5).

§ 620.22 [Removed]

19. Section 620.22 is removed.

Subpart E—Bank Director Disclosure Requirements

§ 620.32 [Removed]

20. Section 620.32 is removed.

PART 621—ACCOUNTING AND REPORTING REQUIREMENTS

21. The authority citation for part 621 continues to read as follows:

Authority: Secs. 5.17, 8.11; 12 U.S.C. 2252, 2279aa–11.

Subpart A—Accounting Requirements

§ 621.2 [Amended]

22. Section 621.2 is amended by removing the second sentence from the introductory text of paragraph (a)(8).

Dated: June 18, 1991.

Curtis M. Anderson,

Secretary, Farm Credit Administration Board.

BILLING CODE 6705-01-M

DEPARTMENT OF COMMERCE

Bureau of Export Administration

15 CFR Parts 776, 779, and 799

[Docket No. 910516-1116]

Foreign Policy Controls on Equipment and Technical Data Used in the Development of Nuclear-Capable Missiles; Revisions

AGENCY: Bureau of Export Administration, Commerce.

ACTION: Final rule.

SUMMARY: The Bureau of Export Administration maintains the Commodity Control List (CCL), which identifies those items subject to Department of Commerce export controls. This final rule amends a number of Export Control Commodity Numbers (ECCNs) on the CCL to conform with U.S. foreign policy controls on equipment and technical data related to the design, development, production, or use of nuclear weapons delivery systems described in § 778.18 of the Export Administration Regulations (EAR). These foreign policy controls are maintained by the United States in consultation with other countries that participate in the Missile Technology Control Regime (MTCR).

Specifically, this rule revises certain ECCNs on the CCL to correctly reference which items are subject to U.S. foreign policy controls that are designed to limit the proliferation of nuclear-capable missiles. In certain instances, the addition or removal of a reference to these foreign policy controls, in the Reason for Control paragraph of a particular ECCN, will affect the eligibility of an item for export under General License GCT. When this occurs, the ECCN under which the item is controlled will be revised to reflect this change in eligibility by revising, adding, or removing the Commodities Not Eligible for General License GCT paragraph found in the ECCN.

The changes made by this rule will increase the scope for these foreign policy controls for certain ECCNs. For other ECCNs, these controls will be reduced or will remain unchanged. Accordingly, the net effect of these changes on export licensing will be limited.

EFFECTIVE DATE: This rule is effective June 27, 1991.

FOR FURTHER INFORMATION CONTACT: Willard Fisher, Office of Technology and Policy Analysis, Bureau of Export Administration, Telephone: (202) 377-3856.

SUPPLEMENTARY INFORMATION:

Background

The Department of Commerce maintains foreign policy controls on certain equipment and technical data on the Commodity Control List (CCL) that are related to the design, development, production, or use of nuclear weapons delivery systems described in § 778.18 of the EAR. The items on the CCL that are subject to these foreign policy controls are included in the "Equipment and Technology Annex" (the Annex) maintained by the governments participating in the Missile Technology Control Regime (MTCR). As agreed by all MTCR participating governments, items contained on the Annex are controlled by these governments through the implementation of national export control programs. Annex items are subject to control because of concerns relating to the proliferation of nuclear weapons delivery systems.

This final rule revises certain Export Control Commodity Numbers (ECCNs) on the CCL to conform to the Annex language. These revisions are based on multilateral technical consultations with MTCR countries for the purpose of harmonizing national interpretations of the Annex. Hence, the revisions made by this rule help to ensure that the same items controlled by the United States in meeting its MTCR obligations are similarly controlled by other MTCR participating countries.

This rule revises ECCNs 1548A, 1561A, 1733A, and 1763A to indicate that certain items listed under these entries are subject to U.S. foreign policy controls on the nonproliferation of nuclear weapons delivery systems. ECCN 1564A is revised to indicate that these foreign policy controls apply only to certain analog-to-digital converters having the characteristics described in paragraph (a)(1) or (a)(2) of that entry. New ECCNs 4131B and 4133B are created to clarify that validated license requirements apply to certain pumps and valves usable for nuclear weapons delivery systems. ECCNs 1361A, 1465A, and 1501A are revised to reference the items in each entry that are subject to foreign policy controls on nuclear weapons delivery systems.

This rule removes ECCNs 4529B and 4587B from the CCL since the items under these entries are not included on the MTCR Annex and, thus, are not subject to these foreign policy controls. ECCNs 1516A, 1517A, 1518A, 1533A, and 1715A are revised to remove all references to the application of these foreign policy controls, since none of the items controlled by these entries is included on the MTCR Annex.

VOL 56 ISS 124 JE 27 1991 UMI

Supplement No. 4 to part 779 is amended as follows: To add new technical data entries for ECCNs 4131B, 4133B, 1548A, 1561A, 1733A, and 1763A; to revise the existing entries for ECCNs 1361A, 1485A, 1501A, and 1564A; and to remove the entries for ECCNs 1516A, 1517A, 1529A, 4529B, 4587B, and 1715A.

Rulemaking Requirements

1. This rule is consistent with Executive Orders 12291 and 12661.

2. This rule involves collections of information subject to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*). These collections have been approved by the Office of Management and Budget under control numbers 0694–0005, 0694–0007, 0694–0010, 0694–0013, 0694–0015, and 0694–0021.

3. This rule does not contain policies with Federalism implications sufficient to warrant preparation of a Federalism assessment under Executive Order 12612.

4. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by section 553 of the Administrative Procedure Act (5 U.S.C. 553) or by any other law, under sections 603(a) and 604(a) no initial or final Regulatory Flexibility Analysis has to be or will be prepared.

5. The provisions of the Administrative Procedure Act, 5 U.S.C. 553, requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a foreign and military affairs function of the United States. No other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this rule.

Therefore, this regulation is issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis. Comments should be submitted to Willard Fisher, Office of Technology and Policy Analysis, Bureau of Export Administration, Department of Commerce, P.O. Box 273, Washington, DC 20044.

List of Subjects

15 CFR Parts 776 and 799

Exports, Reporting and recordkeeping requirements.

15 CFR Part 779

Computer technology, Exports, Reporting and recordkeeping requirements, Science and technology.

Accordingly, parts 776, 779, and 799 of the Export Administration Regulations (15 CFR parts 730–799) are amended as follows:

1. The authority citation for 15 CFR part 776 continues to read as follows:

Authority: Pub. L. 96–72, 93 Stat. 503 (50 U.S.C. app. 2401 *et seq.*), as amended; Pub. L. 95–223, 91 Stat. 1626 (50 U.S.C. 1701 *et seq.*); Pub. L. 95–242, 92 Stat. 141 (42 U.S.C. 2139(a)); E.O. 12730 of September 30, 1990 (55 FR 40373, October 2, 1990); and E.O. 12735 of November 16, 1990 (55 FR 48587, November 20, 1990).

2. The authority citation for 15 CFR parts 779, and 799 is revised to read as follows:

Authority: Pub. L. 96–72, 93 Stat. 503 (50 U.S.C. app. 2401 *et seq.*), as amended; Pub. L. 95–223, 91 Stat. 1626 (50 U.S.C. 1701 *et seq.*); E.O. 12730 of September 30, 1990 (55 FR 40373, October 2, 1990); and E.O. 12735 of November 16, 1990 (55 FR 48587, November 20, 1990).

PART 776—[AMENDED]

3. Section 776.18 is amended by revising the section heading and the introductory text to read as follows:

§ 776.18 Equipment and related technical data for the development of missiles capable of delivering nuclear weapons.

In support of U.S. foreign policy to limit the proliferation of missiles that are capable of delivering nuclear weapons, an individual validated license is required to export certain equipment and technical data related to the development and production of such nuclear-capable missiles to Country Groups QSTVWYZ. The specific commodities appear within ECCNs 2018A, 2118A, 4118B, 4131B, 4133B, 4302B, 1357A, 1361A, 1362A, 1385A, 1460A, 1485A, 1501A, 4518B, 1531A, 1548A, 1561A, 1564A, 1565A, 1568A, 4568B, 1595A, 1733A, 1746A, and 1763A.

* * * * *

PART 779—[AMENDED]

Supplement No. 4. to Part 779 [Amended]

4. Supplement No. 4 to part 779 (Additional Specifications for Certain Technical Data Requiring a Validated License to all Destinations Except Canada) is amended:

a. By revising the introductory text of paragraph (4), Technical data;

b. By revising in paragraph (4) the heading of the entry for ECCN 1131A to read "ECCN 4131B" and adding a new entry for ECCN 4133B immediately preceding the entry for ECCN 4302B;

c. By revising in paragraph (4) the entries for ECCN 4302B, ECCN 1361A, ECCN 1362A, ECCN 1460A, and ECCN 1485A;

d. By revising in paragraph (4) the phrase "paragraphs (b) (2) through (5) and (c)" in the entry for ECCN 1501A to read "paragraphs (b)(1), (b)(2), (b)(4), (b)(5), and (c)";

e. By removing in paragraph (4) the entries for ECCN 1516A, ECCN 1517A, ECCN 1529A, and ECCN 4529B;

f. By adding in paragraph (4) a new entry for ECCN 1548A immediately following the entry for ECCN 1531A and a new entry for ECCN 1561A immediately following the new entry for ECCN 1548A;

g. By revising in paragraph (4) the entry for ECCN 1564A;

h. By removing in paragraph (4) the entries for ECCN 4564B, ECCN 4587B, and ECCN 1715A;

i. By adding in paragraph (4) a new entry for ECCN 1733A immediately following the entry for ECCN 1595A; and

j. By adding in paragraph (4) a new entry for ECCN 1763A immediately following the entry for ECCN 1746A and immediately preceding paragraph (5), as follows:

Supplement No. 4—Additional Specifications for Certain Technical Data Requiring a Validated License to All Destinations Except Canada

* * * * *

(4) Technical data and software for the development and production of commodities that are listed below in numerical order by their respective Export Control Commodity Number. The technical data and software for these commodities are controlled for nuclear weapons delivery reasons (see § 776.18 of this subchapter).

* * * * * *

ECCN 4133B: Valves used in propulsion systems and related components as follows: Servo valves designed for flow rates of 24 liters per minute or greater at a pressure of 250 bars, and having flow contact surfaces made of 90 percent or more tantalum, titanium, or zirconium, either separately or combined, and when designed to operate in vibrating environments of more than 12g rms between 20 Hz and 2000 Hz, except when such surfaces are made of materials containing more than 97 percent and less than 99.7 percent titanium.

ECCN 4302B: Pyrolitically derived materials formed on a mould, mandrel, or other substrate from precursor gases that decompose in the 1,573 K (1,300 °C) to 3,173 K (2,900 °C) temperature range at pressures of 133.3 Pa to 19.995 kPa and specially designed nozzles for producing these pyrolitically derived materials.

ECCN 1357A: * * *

ECCN 1361A: Wind tunnels not excepted from control by paragraph (a), in the "List of Wind Tunnels Controlled by ECCN 1361A".

ECCN 1362A: Vibration test equipment had high intensity acoustic test equipment described in paragraphs (a) and (b), respectively, in the List of Vibration Test Equipment Controlled by ECCN 1362A.

ECCN 1385A: * * *

ECCN 1460A: Small fuel efficient gas turbine zero engines described in paragraph (c) and specially designed components for these engines described in paragraph (d) of the "List of Nonmilitary Equipment controlled by ECCN 1564A". Small fuel efficient gas turbine aero engines are those engines, uncertified or certified, with 2,000 pounds thrust or less (un-installed) and having a thrust specific fuel consumption (CSFC) for maximum power at sea level static, standard day equal to or less than 0.45 lb./lb./hr.). (See also paragraphs (6)(i), (6)(iii), and (6)(iv) in this Supplement No. 4 to part 779, which describe additional technical data for aircraft and helicopters that are controlled for nuclear weapons delivery reasons.)

ECCN 1485A: Commodities described in paragraphs (b) and (c) and (f) through (j), in the "List of Equipment Controlled by ECCN 1485A".

* * * * * *

ECCN 1531A: * * *

ECCN 1548A: Photosensitive components, including linear and focal plane arrays, and dice and wafers therefor that have any of the characteristics describe in paragraph (d) of the "List of Photosensitive Components Controlled by ECCN 1548A".

ECCN 1561A: Materials specially designed for use as absorbers of electromagnetic waves, as described under the "List of Materials Controlled by ECCN 1561A".

ECCN 1564A: Analog-to-digital converters having all of the following characteristics:

(a) The characteristics described in paragraph (a)(1) or (a)(2) under the "List of Equipment Controlled by ECCN 1564A"; *and*

(b) Both of the following characteristics:

(1) A maximum conversion rate to rated accuracy of more than 50,000 complete conversions per second, *i.e.*, a conversion time to maximum resolution of less than 20 microseconds; *and*

(2) An accuracy of better than ±0.025% of full scale over the specified operating temperature range.

* * * * * *

ECCN 1595A: * * *

ECCN 1733A: Ceramic-ceramic "composite" materials described in paragraph (c) of the "List of Products controlled by ECCN 1733A".

ECCN 1746A: * * *

ECCN 1763A: Fibers prepregs and fiber preforms described in paragraph (c) and "composite" structures, laminates, and manufacturers thereof described in paragraph (d) of the "List of Materials Controlled by ECCN 1763A".

* * * * * *

PART 799—[AMENDED]

Supplement No. 1 to § 799.1 [Amended]

5. In Supplement No. 1 to § 799.1 (the Commodity Control List), the entries listed below are amended by revising the parenthetical "(see § 799.4(d)(2))" to read "(see § 799.4(d)(18) of this subchapter)" in the *Technical Data* paragraph under the Controls for ECCN heading for each entry:

A. In Commodity Group 0 (Metal-Working Machinery): ECCN 2018A;

B. In Commodity Group 1 (Chemical and Petroleum Equipment): ECCN 2118A;

C. In Commodity Group 3 (General Industrial Equipment): ECCNs 4302B and 1385A;

D. In Commodity Group 5 (Electronics and Precision Instruments): ECCNs 1531A, 1568A, 4568B, and 1595A; and

E. In Commodity Group 7 (Chemicals, Metalloids, Petroleum Products and Related Materials): ECCN 1746A.

Supplement No. 1 to § 799.1 [Amended]

6. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 1 (Chemical and Petroleum Equipment), ECCN 4118B is amended under the Controls for ECCN heading by revising the *Technical Data* paragraph, as follows:

4118B Batch mixers specially designed or modified for mixing solid propellants with a working capacity of 30 U.S. gallons (114 liters) or more, according to the manufacturer's technical specifications, or a total (volumetric) capacity of 45 U.S. gallons (170 liters) or more, and specially designed components therefor.

Controls for ECCN 4118B

* * * * * *

Technical Data: Exports of certain related technical data require a validated license to all destinations except Canada (see § 779.4(d)(18) of this subchapter).

* * * * * *

Supplement No. 1 to § 799.1 [Amended]

7. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 1 (Chemical and Petroleum Equipment), a new ECCN 4131B is added immediately following ECCN 3131A, as follows:

4131B Pumps (except vacuum pumps) having the characteristics described in paragraph (a) of the list below, and specially designed parts and accessories therefor.

Controls for ECCN 4131B

Unit: Report pumps in "number"; parts and accessories in "$ value."

Validated License Required: Country Groups QSTVWYZ.

GLV $ Value Limit: $1,000 for Country Groups T & V, except $0 for the People's Republic of China; $0 for all other destinations.

Processing Code: TE.

Reason for Control: Foreign policy. Foreign policy controls apply to pumps and related components described in paragraphs (a) and (b), respectively, in the List of this ECCN, for nuclear weapons delivery systems described in § 776.18(a) of this subchapter.

Special Licenses Available: None.

Technical Data: Exports of certain related technical data require a validated license to all destinations except Canada (see § 779.4(d)(18) of this subchapter).

List of Pumps Controlled by ECCN 4131B

Pumps, except vacuum pumps, having any of the following characteristics:

(a) Pumps, designed to operate in vibrating environments of more than 12g rms between 20 Hz and 2000 Hz, having all flow contact surfaces made of 90 percent or more tantalum, titanium, or zirconium, either separately or combined, except when such surfaces are made of materials containing more than 97 percent and less than 99.7 percent titanium; and

(b) Specially designed parts and accessories for pumps described in paragraph (a) of this ECCN.

Supplement No. 1 to § 799.1 [Amended]

8. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 1 (Chemical and Petroleum Equipment), a new ECCN 4133B is added immediately following ECCN 4131B and immediately preceding ECCN 1145A, as follows:

4133B Servo valves having the characteristics described in paragraph (a) of the list below, and specially designed parts and accessories therefor.

Controls for ECCN 4133B

Unit: Report valves in "number"; parts and accessories in "$ value."

VOL 56 ISS 124 JE 27 1991 UMI

Validated License Required: Country Groups QSTVWYZ.

GLV $ Value Limit: $1,000 for Country Groups T & V, except $0 for the People's Republic of China; $0 for all other destinations.

Processing Code: TE.

Reason for Control: Foreign policy. Foreign policy controls apply to valves and related components described in paragraphs (a) and (b), respectively, in the List of this ECCN, for nuclear weapons delivery systems described in § 776.18(a) of this subchapter.

Special License Available: None.

Technical Data: Exports certain related technical data require a validated license to all destinations except Canada (See § 779.4(d)(18) of this subchapter).

List of Valves Controlled by ECCN 4133B

Servo valves having any of the following characteristics:

(a) Servo valves, designed for flow rates of 24 liters per minute or greater at a pressure of 250 bars and designed to operate in vibrating environments of more than 12g rms between 20 Hz and 2000 Hz, having flow contact surfaces made of 90 percent or more tantalum, titanium or zirconium, either separately or combined, except when such surfaces are made of materials containing more than 97 percent and less than 99.7 percent titanium.

(b) Specially designed parts and accessories for servo valves described in paragraph (a) of this ECCN.

Supplement No. 1 to § 799.1 [Amended]

9. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 3 (General Industrial Equipment), ECCN 1361A is amended under the Controls for ECCN heading by revising the *Commodities Not Eligible for General License GCT* paragraph, the *Reason for Control* paragraph, and the *Technical Data* paragraph, as follows:

1361A Test facilities and equipment for the design or development of aircraft or gas turbine aero-engines; and specially designed components, and accessories therefor.

* * * * *

Controls for ECCN 1361A

* * * * *

GLV $ Value Limit: * * *

Commodities Not Eligible for General License GCT: Wind tunnels not excepted from control by paragraph (a), electromagnetic interference and electromagnetic pulse (EMI/EMP) simulators described in paragraph (f), and specially designed test facilities and equipment described in paragraph (g) in the List of this ECCN.

Processing Code: * * *

Reason for Control: National security; foreign policy. Foreign policy controls apply to wind tunnels not excepted from control by paragraph (a), in the List of this ECCN 1361A, for nuclear weapons delivery systems described in § 776.18(a) of this subchapter.

Special Licenses Available: * * *

Technical Data: Exports of certain related technical data require a validated license to all destinations except Canada (see § 799.4(d)(18) of this subchapter).

* * * * *

Supplement No. 1 to § 799.1 [Amended]

10. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 3 (General Industrial Equipment), ECCN 1362A is amended by revising the *Commodities Not Eligible for General License GCT* paragraph, the *Reason for Control* paragraph, and the *Technical Data* paragraph under the Controls for ECCN heading and by removing the reference "1531A," where it appears in paragraphs (a)(5), (b)(2), and (c)(2) in the List of the ECCN, as follows:

1362A Vibration test equipment.

Controls for ECCN 1362A

* * * * *

GLV $ Value: * * *

Commodities Not Eligible for General License GCT: Vibration test equipment and high intensity acoustic test equipment described in paragraphs (a) and (b), respectively, in the List of this ECCN.

Processing Code: * * *

Reason for Control: National security; nuclear non-proliferation; foreign policy. Foreign policy controls apply to vibration test equipment and high intensity acoustic test equipment described in paragraphs (a) and (b), respectively, in the List of this ECCN, for nuclear weapons delivery systems described in § 776.18(a) of this subchapter.

Special Licenses Available: * * *

Technical Data: Exports of certain related technical data require a validated license to all destinations except Canada (see § 779.4(d)(18) of this subchapter.

* * * * *

Supplement No. 1 to § 799.1 [Amended]

11. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 4 (Transportation Equipment), ECCN 1485A is amended by revising the heading of the ECCN and by revising the *Commodities Not Eligible for General License GCT* paragraph, the *Reason for Control* paragraph, and the *Technical Data* paragraph, under the Controls for ECCN heading, as follows:

1485A Inertial navigation systems, inertial equipment, gyroscopes (gyros) and accelerometers, as follows, and specially designed components therefor.

* * * * *

Controls for ECCN 1485A

* * * * *

GLV $ Value Limit: * * *

Commodities Not Eligible for General License GCT: Commodities described in paragraphs (b) and (c), and (f) through (j), in the List of this ECCN.

Processing Code: * * *

Reason for Control: National security; foreign policy. Foreign policy controls apply to the equipment described in paragraphs (b) and (c), and (f) through (j), in the List of this ECCN, for nuclear weapons delivery systems described in § 776.18(a) of this subchapter.

Special Licenses Available: * * *

Technical Data: Exports of related technical data require a validated license to all destinations except Canada (see § 779.4 (d)(5) and (d)(18) of this subchapter). The Department of State, Office of Defense Trade Controls, has jurisdiction over certain inertial system technical data (see Interpretation 21 of Supplement No. 1 to § 799.2).

* * * * *

Supplement No. 1 to § 799.1 [Amended]

12. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 5 (Electronics and Precision Instruments), ECCN 1501A is amended under the Controls for ECCN heading by revising the *Commodities Not Eligible for General License GCT* paragraph, the *Reason for Control* paragraph, and the *Technical Data* paragraph, as follows:

1501A Navigation, direction finding, radar and airborne communication equipment.

* * * * *

Controls for ECCN 1501A

* * * * *

GLV $ Value Limit: * * *

Commodities Not Eligible for General License GCT: Navigation and direction finding equipment described in paragraphs (b)(1), (b)(2), (b)(4), and (b)(5) and radar equipment described in paragraph (c) in the List of this ECCN.

Processing Code: * * *

Reason for Control: National security; foreign policy. Foreign policy controls apply to: 1. Commodities described in paragraphs (a), (b)(1), and (c)(1), in the List of this ECCN, for Libya; 2. Commodities described in paragraph (b)(1), in the List of this ECCN, for nuclear weapons delivery systems described in § 776.18(a) of this subchapter; and 3. Commodities described in paragraphs (b)(2), (b)(4), (b)(5), and (c), in the List of this ECCN, for launch and ground support equipment, including precision tracking systems, for nuclear weapons delivery systems described in § 776.18(a) of this subchapter.

Special Licenses Available: * * *

Technical Data: Exports of related technical data require a validated license to all destinations except Canada (see § 779.4(d)(3), (d)(5), and (d)(18) of this subchapter).

* * * * *

Supplement No. 1 to § 799.1 [Amended]

13. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 5 (Electronics and Precision Instruments), ECCN 1516A is amended under the Controls for ECCN heading by removing the *Commodities Not Eligible for General License GCT* paragraph; by revising the *Reason for Control* paragraph; and by removing the *Technical Data* paragraph, as follows:

1516A Receivers, and specially designed components and accessories therefor.

* * * * *

Controls for ECCN 1516A

* * * * *

Reason for Control: National security; foreign policy (crime control). See the *Special Foreign Policy Controls* paragraph below for licensing requirements on crime control and detection instruments and equipment.

* * * * *

Supplement No. 1 to § 799.1 [Amended]

14. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 5 (Electronics and Precision Instruments), ECCN 1517A is amended under the Controls for ECCN heading:

a. By removing the *Commodities Not Eligible for General License GCT* paragraph;

b. By revising the *Reason for Control* paragraph;

c. By revising the *Special Licenses Available* paragraph; and

d. By removing the *Technical Data* paragraph, as follows:

1517A Radio transmitters, except radio relay communications equipment (for which see ECCN 1520A), and specially designed components therefor.

Controls for ECCN 1517A

* * * * *

Reason for Control: National security.

Special Licenses Available: See part 773 of this subchapter.

* * * * *

Supplement No. 1 to § 799.1 [Amended]

15. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 5 (Electronics and Precision Instruments), ECCN 4518B is amended under the Controls for ECCN heading by revising the *Technical Data* paragraph, as follows:

4518B Telemetering and telecontrol equipment suitable for use with aircraft (piloted or pilotless) or space vehicles, and test equipment specially designed for such equipment, except equipment specially designed to be used for remote control of toys such as model planes and boats and having electric field strength of not more than 200 microvolts per meter at a distance of 500 meters; and specially designed parts and accessories therefor. (Specify by name and model number.)

Controls for ECCN 4518B

* * * * *

Technical Data: Exports of related technical data require a validated license to all destinations except Canada (see § 779.4 (d)(3), (d)(5), and (d)(18) of this subchapter).

Supplement No. 1 to § 799.1 [Amended]

16. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 5 (Electronics and Precision Instruments), ECCN 1519A is amended under the Controls for ECCN heading by revising the *Special Licenses Available* paragraph and by removing the *Technical Data* paragraph, as follows:

1519A "Telecommunication transmission equipment", measuring and test equipment, as follows, and specially designed components and accessories therefor.

* * * * *

Controls for ECCN 1519A

* * * * *

Special Licenses Available: See part 773 of this subchapter.

* * * * *

Supplement No. 1 to § 799.1 [Amended]

17. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 5 (Electronics and Precision Instruments), ECCN 1529A is amended under the Controls for ECCN heading:

a. By removing the *Commodities Not Eligible for General License GCT* paragraph;

b. By revising the *Reason for Control* and *Special Licenses Available* paragraphs; and

c. By removing the *Technical Data* paragraph, as follows:

1529A Electronic equipment for testing, measuring or for microprocessor/microcomputer development, as follows.

* * * * *

Controls for ECCN 1529A

* * * * *

Reason for Control: National security; nuclear nonproliferation.

Special Licenses Available: See part 773 of this subchapter.

* * * * *

Supplement No. 1 to § 799.1 [Amended]

18. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 5 (Electronics and Precision Instruments), ECCN 4529B is removed.

Supplement No. 1 to § 799.1 [Amended]

19. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 5 (Electronics and Precision Instruments), ECCN 1533A is amended:

a. By revising the heading of the ECCN;

b. By removing the *Commodities Not Eligible for General License GCT* paragraph under the Controls for ECCN heading; and

c. By revising the *Reason for Control* paragraph under the Controls for ECCN heading, as follows:

1533A "Signal analyzers" (including spectrum analyzers) and network analyzers, as follows, and specially designed components and accessories therefor.

* * * * *

Controls for ECCN 1533A

* * * * *

Reason for Control: National security.

* * * * *

Supplement No. 1 to § 799.1 [Amended]

20. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 5 (Electronics and Precision Instruments), ECCN 1548A is amended under the Controls for ECCN heading:

a. By adding a *Commodities Not Eligible for General License GCT* paragraph immediately following the *GLV $ Value Limit* paragraph;

b. By revising the *Reason for Control* and *Special Licenses Available* paragraphs; and

c. By adding a *Technical Data* paragraph immediately following the *Special Licenses Available* paragraph, as follows:

VOL 56 ISS 124 JE 27 1991 UMI

1548A Photosensitive components, including linear and focal plane arrays, and dice and wafers therefor.

Controls for ECCN 1548A

* * * * *

GLV $ Value Limit * * *

Commodities Not Eligible for General License GCT: Commodities controlled by this entry that have the characteristics described in paragraph (d) in the List of this ECCN.

Processing Code: * * *

Reason for Control: National Security; foreign policy. Foreign policy controls apply to commodities described in paragraph (d), in the List of this ECCN, for nuclear weapons delivery systems described in § 776.18(a) of this subchapter.

Special Licenses Available: None available for commodities subject to foreign policy controls for nuclear weapons delivery purposes (§ 776.18(c) of this subchapter). See part 773 of this subchapter for other commodities described in ECCN 1548A.

Technical Data: Exports of certain related technical data require a validated license to all destinations except Canada (see § 779.4(d)(18) of this subchapter).

* * * * *

Supplement No. 1 to § 799.1 [Amended]

20. In Supplement No. 1 to § 779.1 (the Commodity Control List), Commodity Group 5 (Electronics and Precision Instruments), ECCN 1561A is amended under the **Controls for ECCN** heading:

a. By adding a *Commodities Not Eligible for General License GCT* paragraph immediately following the *GLV $ Value Limit* paragraph;

b. By revising the *Reason for Control* and the *Special Licenses Available* paragraphs; and

c. By adding a *Technical Data* paragraph immediately following the *Special Licenses Available* paragraph, as follows:

1561A Materials specially designed for use as absorbers of electromagnetic waves.

Controls for ECCN 1561A

* * * * *

GLV $ Value Limit: * * *

Commodities Not Eligible for General License GCT: Entire entry.

Processing Code: * * *

Reason for Control: National security; foreign policy. Foreign policy controls apply to materials described in the List of this ECCN for nuclear weapons delivery systems described in § 776.18(a) of this subchapter.

Special Licenses Available: None available for commodities under foreign policy controls for nuclear weapons delivery purposes (§ 776.18(c) of this subchapter). See part 773 of this subchapter for other commodities described in ECCN 1561A.

Technical Data: Exports of certain related technical data require a validated license to all destinations except Canada (see § 779.4(d)(18) of this subchapter).

* * * * *

Supplement No. 1 to § 799.1 [Amended]

21. In Supplement No. 1 to § 779.1 (the Commodity Control List), Commodity Group 5 (Electronics and Precision Instruments), ECCN 1564A is amended:

a. By adding a *Commodities Not Eligible for General License GCT* paragraph immediately following the *GLV $ Value Limit* paragraph under the Controls for ECCN heading;

b. By revising the *Reason for Control* paragraph and the *Technical Data* paragraph under the Controls for ECCN heading; and

c. By adding a parenthetical phrase immediately following the heading of (Advisory) Note 4, as follows:

1564A Integrated circuits, including packages therefor, "assemblies", "modules", and "substrates".

Controls for ECCN 1564A

* * * * *

GLV $ Value Limit: * * *

Commodities Not Eligible for General License GCT: Analog-to-digital converters having:

(a) The characteristics described in paragraph (a)(1) or (a)(2) in the List of this ECCN 1564A; *and*

(b) Both of the following characteristics:

(1) A maximum conversion rate to rated accuracy of more than 50,000 complete conversions per second, *i.e.*, a conversion time to maximum resolution of less than 20 microseconds; *and*

(2) An accuracy of better than ±0.025% of full scale over the specified operating temperature range.

Special Licenses Available: * * *

Technical Data: Exports of certain related technical data require a validated license to all destinations except Canada (see § 779.4(d)(18) of this subchapter).

List of Equipment Controlled by ECCN 1564A

* * * * *

(Advisory) Note 4: (NOT ELIGIBLE FOR GENERAL LICENSE GFW: analog-to-digital converters described in the *Reason for Control* paragraph of this ECCN 1564A as subject to foreign policy controls for nuclear weapons delivery proposes.) * * *

Supplement No. 1 to § 799.1 [Amended]

22. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 5 (Electronics and Precision Instruments), ECCNs 4564B and 4587B are removed.

Supplement No. 1 to § 799.1 [Amended]

23. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 7 (Chemicals, Metalloids, Petroleum Products and Related Materials), ECCN 1715A is amended:

a. By adding a Note immediately following the heading of the entry;

b. By removing the *Commodities Not Eligible for General License GCT* paragraph under the Controls for ECCN heading;

c. By revising the *Reason for Control* and the *Special Licenses Available* paragraphs; and

d. By removing the *Technical Data* paragraph, as follows:

1715A Boron, as described in this entry.

Note: High energy density fuels such as Boron Slurry are controlled under the International Traffic in Arms Regulations (ITAR) (22 CFR parts 120–130) administered by the Office of Defense Trade Controls, U.S. Department of State.

Controls for ECCN 1715A

* * * * *

Reason for Control: National security; nuclear nonproliferation. Nuclear nonproliferation controls do not apply to commodities described in paragraphs (b)(2) and (b)(3) in the List of this ECCN.

Special Licenses Available: None available for commodities described in paragraphs (a) and (b)(1) in the List of this ECCN. See part 773 of this subchapter for special licenses available for other commodities described in this ECCN 1715A.

* * * * *

Supplement No. 1 to § 799.1 [Amended]

24. In Supplement No. 1 to § 799.1 (the Commodity Control List), Commodity Group 7 (Chemicals, Metalloids, Petroleum Products and Related Materials), ECCN 1733A is amended under the **Controls for ECCN** heading:

a. By adding a *Commodities Not Eligible for General License GCT* paragraph immediately following the *GLV $ Value Limit* paragraph;

b. By revising the *Reason for Control* and *Special Licenses Available* paragraphs; and

c. By adding a *Technical Data* paragraph immediately following the *Special Licenses Available* paragraph, as follows:

1733A Base materials, non-"composite" ceramic materials, ceramic-ceramic "composite" materials and precursor materials, as follows, for the manufacture of high temperature fine technical ceramic products.

Controls for ECCN 1733A

* * * * *

GLV $ Value Limit: * * *

Commodities Not Eligible for General License GCT: Ceramic-ceramic "composite" materials described in paragraph (c) in the List of this ECCN.

Processing Code: * * *

Reason for Control: National security; foreign policy. Foreign policy controls apply to ceramic-ceramic "composite" materials described in paragraph (c), in the List of this ECCN, for nuclear weapons delivery systems described in § 776.18(a) of this subchapter.

Special Licenses Available: None available for commodities under foreign policy controls for nuclear weapons delivery purposes (§ 776.18(c) of this subchapter). See part 773 of this subchapter for other commodities described in ECCN 1733.

Technical Data: Exports of certain related technical data require a validated license to all destinations except Canada (see § 779.4(d)(18) of this subchapter).

* * * * *

Supplement No. 1 to § 799.1 [Amended]

25. In Supplement No. 1 § 799.1 (the Commodity Control List), Commodity Group 7 (Chemicals, Metalloids, Petroleum Products and Related Materials), ECCN 1763A is amended by revising the ECCN heading and, under the Controls for ECCN heading, by revising the *Reason for Control* paragraph and by adding a new *Technical Data* paragraph immediately following the *Special Licenses Available* paragraph, as follows:

1763A "Fibrous and filamentary materials" that may be used in organic "matrix", metallic "matrix" or carbon "matrix" "composite" structures or laminates, and such "composite" structures and laminates and "specially designed software" therefor.

* * * * *

Controls for ECCN 1763A

* * * * *

Reason for Control: National security; nuclear non-proliferation; foreign policy. Foreign policy controls apply to materials described in paragraphs (c) and (d), in the List of this ECCN, for nuclear weapons delivery systems described in § 776.18(a) of this subchapter.

Special Licenses Available: * * *

Technical Data: Exports of certain related technical data require a validated license to all destinations except Canada (see § 779.4(d)(18) of this subchapter).

* * * * *

Dated: June 14, 1991.

Attestations by Employers Using Alien Crewmembers for Longshore Activities in U.S. Ports; Correction

AGENCY: Employment and Training Administration, Labor; and Wage and Hour Division, Employment Standards Administration, Labor.

ACTION: Interim final rule; request for comments; correction.

SUMMARY: The Department of Labor is correction an interim final rule published at 56 FR 24648 (May 30, 1991). In that document, the OMB control number was inadvertently omitted from the common rule; and the appendix to subpart F of the common rule was placed incorrectly and omitted from the various tables of sections headings.

EFFECTIVE DATE: May 28, 1991.

FOR FURTHER INFORMATION CONTACT: On 20 CFR part 655, subpart F, and 29 CFR part 506, subpart F, contact David O. Williams, Chair, Immigration Task Force, Employment and Training Administration, Department of Labor, room N-4470, 200 Constitution Avenue NW., Washington, DC 20210; Telephone: 202-535-0174 (this is not a toll-free number).

On 20 CFR part 655, subpart G, and 29 CFR part 506, subpart G, contact Mr. Solomon Sugarman, Chief, Farm Labor Programs, Wage and Hour Division, Employment Standards Administration, Department of Labor, room S-3502, 200 Constitution Avenue NW., Washington, DC 20210; Telephone: 202-523-7605 (this is not a toll-free number).

Signed at Washington, DC, this 21st day of June, 1991.

Lynn Martin,

Secretary of Labor.

The following corrections are made in FR Doc 91-12718, published in the **Federal Register** at 56 FR 24648 on May 30, 1991:

Appendix 1 to Subpart F [Corrected]

1. "Appendix 1—U.S. Seaports", which appears beginning in the third column on page 24667 and continues through the end of page 24668, is correctly designated as "Appendix 1 to Subpart F—U.S. Seaports" and should have appeared in the first column on page 24660 at the end of the common rule text for subpart F.

2. An entry for "Appendix 1 to Subpart F—U.S. Seaports" is added to the following tables of section headings:

a. On page 24654, in the first column, at the end of the entry for subpart F in the table of section headings for the common rule text;

b. On page 24667, in the first column, at the end of the entry for subpart F in the table of section headings for 20 CFR part 655; and

c. On page 24667, in the second column, at the end of the entry for subpart F in the table of section headings for 29 CFR part 506.

3. The phrase "[Approved by the Office of Management and Budget under Control No. 1205-0309.]" is added to the common rule text at the following locations.

a. On page 24659, in the second column, it is displayed at the end of § ____.510 of the common rule text;

b. On page 24660, in the first column, it is displayed at the end of § ____.520 of the common rule text; and

VOL 56 ISS 124 JE 27 1991 UMI

c. On page 24660, in the first column, it is displayed at the end of § ——.550 of the common rule text.

[T.D. 8345]

RIN 1545-AP49

Arbitrage Restrictions on Tax Exempt Bonds; Correction

AGENCY: Internal Revenue Service, Treasury.

ACTION: Corrections to temporary regulations.

SUMMARY: This document contains corrections to the temporary regulations (T.D. 8345), which were published Thursday, April 25, 1991 (56 FR 19023). The regulations relate to the arbitrage rebate requirements applicable to tax exempt bonds issued by States and local governments under section 103 of the Internal Revenue Code.

EFFECTIVE DATE: April 25, 1991.

FOR FURTHER INFORMATION CONTACT: William P. Cejudo (202) 566-3283 (not a toll-free call).

SUPPLEMENTARY INFORMATION:

Background

The temporary regulations amend the Income Tax Regulations (26 CFR part 1) promulgated with respect to sections 103, 148, and 149 of the Internal Revenue Code to simplify, clarify, and expand certain provisions of the temporary and proposed regulations §§ 1.148-0T through 1.148-9T and § 1.149(d)-1T published in the **Federal Register** for May 15, 1989 (54 FR 20787) (1989).

Need for Correction

As published, the temporary regulations contain errors which may prove to be misleading and are in need of clarification.

Correction of Publication

Accordingly, the publication of the temporary regulations (T.D. 8345), which was the subject of FR Doc. 91-9559, is corrected as follows:

§ 1.148-0T [Corrected]

Par. 1. On page 19028, second column, in § 1.148-0T, paragraph (b)(2)(ii)(B)(*4*), line 5, the language "1991. See § 1.148-1T(d)(3)" is corrected to read "1991. See § 1.149(d)-1T(d)(3)".

§ 1.149(d)-1T [Corrected]

Par. 2. On page 19037, third column, in § 1.149(d)-1T, paragraph (d)(3)(iii), line seven, the language "section 149(d)(5)" is corrected to read "section 149(d)(5))".

Dale D. Goode,

Federal Register Liaison Officer, Assistant Chief Counsel (Corporate).

Final Regulations Under Sections 382 and 383 of the Internal Revenue Code of 1986; Pre-change Attributes

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary and final regulations.

SUMMARY: This document contains final regulations relating to the use of certain corporate tax attributes under sections 382 and 383 of the Internal Revenue Code of 1986 ("the Code") that are attributable to the period preceding an ownership change of the corporation. Section 382 was amended by the Tax Reform Act of 1986 (the "1986 Act"), the Revenue Act of 1987 (the "1987 Act"), the Technical and Miscellaneous Revenue Act of 1988 (the "1988 Act") and the Revenue Reconciliation Act of 1989 (the "1989 Act"). Section 383 was amended by the 1986 Act and the 1988 Act. The final regulations under section 383 provide guidance relating to the manner and method of absorbing the section 382 limitation with respect to certain capital losses and excess credits after there has been an ownership change of a corporation within the meaning of section 382.

DATES: The regulations are effective as of June 26, 1991, and generally are applicable to any ownership change within the meaning of section 382 occurring after December 31, 1986.

FOR FURTHER INFORMATION CONTACT: Lori J. Jones of the Office of Assistant Chief Counsel (Corporate), Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, DC 20224 (attention: CC:CORP:3) or telephone (202) 566-3422 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The collections of information contained in this final regulation have been reviewed and approved by the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act (44 U.S.C. 3504(h)) under control number 1545-0123. The estimated annual burden per respondent/recordkeeper varies from 6 minutes to 30 minutes, depending on individual circumstances, with an estimated average of 18 minutes.

These estimates are an approximation of the average time expected to be necessary for a collection of information. They are based on such information as is available to the Internal Revenue Service. Individual respondents/recordkeepers may require greater or less time, depending on their particular circumstances.

Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the Internal Revenue Service, attn: IRS Reports Clearance Officer TR:FP, Washington, DC 20224.

Background

This document contains final regulations to be added to part 1 of title 26 of the Code of Federal Regulations ("CFR") under sections 382 and 383 of the Code. On September 20, 1989, the **Federal Register** published a notice of proposed rulemaking (54 FR 38695) proposing amendments to the Income Tax Regulations (26 CFR part 1) under sections 382 and 383 by cross-reference to temporary regulations published the same day in the **Federal Register** (T.D. 8264; 54 FR 38664). That document also amended temporary regulations under section 382 which were published in the **Federal Register** on August 11, 1987 (T.D. 8149, 52 FR 29668). The temporary regulations published on August 11, 1987, also were proposed to be adopted as final regulations (52 FR 29704).

The only written comments received by the Internal Revenue Service with respect to T.D. 8264 regarded the effect of the amendments to the section 382 temporary regulations on regulated investment companies under section 851 of the Code. These comments, which relate to the method of determining whether a regulated investment company has an ownership change, and not to the manner in which capital losses and excess credits are limited as the result of an ownership change, will be considered in a separate regulations project. Because no other comments were received and no public hearing was requested with respect to the temporary regulations under section 383, the final regulations adopt the temporary regulations under section 383 without any substantive changes other than a clarification of the ordering rule for absorption of general business credits and carryovers and, as discussed below, the addition of a rule coordinating sections 283(h)(6) (relating to the treatment of certain built-in items) and 383. The final regulations under section 383 provide guidance relating to the manner and method of absorbing the section 382 limitation with respect to certain capital losses and excess credits after there has been an ownership change of a corporation within the meaning of section 382.

The document also includes final regulations under section 382 (new § 1.382-2) which contain the definitions of pre-change loss and loss corporation. The definition of pre-change loss was initially included in the temporary and proposed regulations published on August 11, 1987 and was amended by T.D. 8264 published on September 20, 1989. Only one technical comment with respect to the definition of pre-change loss was received; however, after careful consideration, it was determined that the definition in the temporary and proposed regulations is consistent with section 382 and the use of the term in those regulations. No public hearing was requested with respect to the above definition of pre-change loss. Accordingly, the final regulations adopt this definition, as amended by T.D. 8264, without any substantive changes from the temporary regulations.

The definition of a loss corporation was also initially included in the temporary and proposed regulations published on August 11, 1987. Written comments were received in response to the definition of a loss corporation in the 1987 regulations, relating principally to the clarification of the separate accounting of losses and credits of an acquiring corporation and those of the distributor or transferor loss corporation in a section 381 transaction. The definition was amended by T.D. 8264 and additionally proposed to be further amended by a notice of proposed rulemaking published in the **Federal Register** on January 29, 1991 (56 FR 4183). The proposed amendments published on January 29, 1991, also relate to the appropriate scope of the separate accounting rules and are still under consideration. Therefore, although the final regulations adopt the definition of a loss corporation, as published on August 11, 1987, and amended by T.D. 8264, without substantive change, the final regulations may be amended to further reflect the January 29, 1991 proposed amendments. Also, the amendment to § 1.382-2T(a)(2)(ii) made by T.D. 8264, relating to the filing of an information statement, is not adopted as a final regulation in this document, but will be addressed in connection with the temporary regulations published under section 382 on August 11, 1987.

The final regulations under section 383 also adopt a change to § 1.383-1T(g) relating to the coordination of the rules of section 383 with rules and principles of section 382. These regulations provide that to the extent section 382(h)(6) (relating to the treatment of certain built-in items) applies to credits, the principles of section 383 apply to such credits.

Regulations under section 382(h)(6) will address the application of that section to credits. Also, it is expected that separate proposed regulations addressing the allocation of income, loss and credits in the loss corporation's taxable year that includes the change date between pre- and post-change periods will provide additional rules for the application of sections 382 and 383 with respect to the change year.

Special Analyses

It has been determined that these rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) and the Regulatory Flexibility Act (5 U.S.C. chapter 6) do not apply to these regulations, and, therefore, a final Regulatory Flexibility Analysis is not required. Pursuant to section 7805(f) of the Internal Revenue Code (as then in effect), the notice of proposed rulemaking for the regulations was submitted to the Administrator of the Small Business Administration for comments on their impact on small business.

Drafting Information

The principal author of these regulations is Lori J. Jones of the Office of Assistant Chief Counsel, Corporate, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, on matters of both substance and style.

List of Subjects

26 CFR 1.56-0T through 1.58-9T

Income taxes, Reporting and recordkeeping requirements.

26 CFR 1.301-1 through 1.383-3

Income taxes, Reporting and recordkeeping requirements.

26 CFR Part 602

Reporting and recordkeeping requirements.

Adoption of Amendments to the Regulations

Accordingly, parts 1 and 602 of title 26 of the Code of Federal Regulations are amended as follows:

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Paragraph 1. The authority citation for part 1 is amended in part by adding the following citation:

Authority: 26 U.S.C. 7805 * * * § 1.382-2 also issued under 26 U.S.C. 382(m) and 26 U.S.C. 383, and § 1.383-1 and § 1.383-2 also issued under 26 U.S.C. 383.

§ 1.56(g)-1 [Amended]

Par. 2. Section 1.56(g)-1 is amended by removing "§ 1.382-2T(f)(1)" in paragraphs (k)(2) and in (k)(4) in *Example* paragraph (iv) and adding in lieu thereof "§ 1.382-2(a)(1)".

Par. 3. New § 1.382-0 is added to read as follows:

§ 1.382-0 Effective date.

(a) Temporary regulations § 1.382-1T and § 1.382-2T and the final regulations under 382 (other than the regulations described in paragraph (b) of this section) reflect the amendments made to sections 382 and 383 by the Tax Reform Act of 1986. See § 1.382-2T(m) for effective date rules.

(b) Sections 1.382-1A, 1.382-2A, 1.382-3A, and 1.382-4A do not reflect the amendments made to sections 382 and 383 by the Tax Reform Act of 1986.

Par. 4. Sections 1.382(a)-1, 1.382(b)-1, 1.382(c)-1 and 1.382-2 are amended as follows:

§ 1.382(a) [Amended]

1. Section 1.382(a)-1 is redesignated as § 1.382-1A and the section heading is revised to read, "Purchase of a corporation and change in its trade or business (Pre-Tax Reform Act of 1986)".

§ 1.382(b) [Amended]

2. Section 1.382(b)-1 is redesignated as § 1.382-2A and the section heading is revised to read, "Change of ownership as the result of a reorganization (Pre-Tax Reform Act of 1986)".

§ 1.382(c)-1 [Amended]

3. Section 1.382(c)-1 is redesignated as § 1.382-3A and the section heading is revised to read, "Definition of stock (Pre-Tax Reform Act of 1986)".

VOL 56 ISS 124 JE 27 1991 UMI

§ 1.382-2 [Amended]

4. Section 1.382-2 is redesignated as § 1.382-4A.

Par. 5. An undesignated center heading is added to precede newly designated § 1.382-1A to read as follows:

Regulations Applicable to Taxable Years Prior to Tax Reform Act of 1986

Par. 6. New §§ 1.382-1 is added and reserved and 1.382-2 is added to read as follows:

§ 1.382-1 Limitations on the use of certain tax attributes following an ownership change. [Reserved]

§ 1.382-2 Definition of ownership change under section 382 as amended by the Tax Reform Act of 1986.

(a) *Certain definitions for purposes of sections 382 and 383 and the regulations thereunder.* The following definitions apply for purposes of sections 382 and 383 and the regulations thereunder.

(b) [Reserved]

§ 1.382-1T [Amended]

Par. 7. Section 1.382-1T is amended by removing the entries for paragraphs (a)(2)(iv) and (f)(1) (i), (ii) and (iii).

§ 1.382-2T [Amended]

Par. 8. Section 1.382-2T is amended as follows:

1. By removing the "T" from references to "§ 1.383-1T" wherever it appears in paragraphs (a)(1), (f)(1) (i) and (ii), and (f)(22) (iv) and (v).

2. The fifth sentence of paragraph (a)(1) is amended by removing "paragraphs (f) (1) and (3)" and adding in lieu thereof "§ 1.382-2(a)(1) and paragraph (f)(3)".

3. The last sentence of paragraph (a)(2)(ii) is amended by removing "paragraph (a)(2)(iv) and" and adding in lieu thereof "§ 1.383-1(k) and paragraph".

4. Paragraph (e)(2)(iv) is amended by removing "paragraph (f)(1)(ii)" in *Example 3* and adding in lieu thereof "§ 1.382-2(a)(1)(ii)," and by removing "paragraph (f)(1)(iii)" each place it appears in *Examples 1, 2* and *3* and adding in lieu thereof "§ 1.382-2(a)(1)(iii)".

5. Paragraph (f)(1) is redesignated as § 1.382-2(a)(1) and is amended by—

A. Removing "paragraph (a)(2)(i) of this section" and adding in lieu thereof "§ 1.382-2T(a)(2)(i)" in paragraph (a)(1)(i)(B),

B. Removing "paragraph (f)(1)" and adding in lieu thereof "paragraph (a)(1)" each place it appears, and

C. Removing "paragraph (e)(2)(iv) of this section" and adding in lieu thereof "§ 1.382-2T(e)(2)(iv)" in paragraph (a)(1)(iii).

6. The second sentence of paragraph (f)(18)(ii)(C) is removed.

7. The second sentence of paragraph (f)(18)(iii)(C) is removed.

8. Paragraph (f)(22) is redesignated as § 1.382-2(a)(2).

9. The second sentence of paragraph (h)(4)(ix) is removed.

10. New paragraphs (f)(1) and (f)(22) are added to read as follows:

§ 1.382-2T Definition of ownership change under section 382, as amended by the Tax Reform Act of 1986 (temporary).

* * * * *

(f) * * *

(1) *Loss corporation.* See section 382 and § 1.382-2(a)(1) for the definition of a loss corporation.

* * * * *

(22) *Pre-change loss.* See section 382 and § 1.382-2(a)(2) for the definition of pre-change loss.

* * * * *

Par. 9. Section 1.383-0 is added as follows:

§ 1.383-0 Effective date.

(a) The regulations under section 383 (other than the regulations described in paragraph (b) of this section) reflect the amendments made to sections 382 and 383 by the Tax Reform Act of 1986. See § 1.383-1(j) for effective date rules.

(b) Sections 1.383-1A, 1.383-2A, and 1.383-3A do not reflect the amendments made to sections 382 and 383 by the Tax Reform Act of 1986.

§§ 1.383-1, 1.383-2, 1.383-3 [Amended]

Par. 10. Sections 1.383-1, 1.383-2, and 1.383-3 are amended as follows:

1. Section 1.383-1 is redesignated as § 1.383-1A and the section heading is revised to read, "Special limitations on carryovers of unused investment credits, work incentive program credits, foreign taxes and capital losses (Pre-Tax Reform Act of 1986)".

2. Section 1.383-2 is redesignated as § 1.383-2A and the section heading is revised to read, "Purchase of a corporation and change in its trade or business (Pre-Tax Reform Act of 1986)".

3. Section 1.383-3 is redesignated as § 1.393-3A and the section heading is revised to read, "Change in ownership as the result of a reorganization (Pre-Tax Reform Act of 1986)".

4. Section 1.383-1A, as redesignated, is amended by removing "1.383-2 and 1.383-3" and adding in lieu thereof "1.383-2A and 1.383-3A" in the next to the last sentence and by removing "§ 1.382-2" in the last sentence and adding in lieu thereof "§ 1.382-4A".

§ 1.383-1T [Redesignated as § 1.383-1]

Par. 11. Section 1.383-1T is redesignated as § 1.383-1 and is amended as follows:

1. The section heading is revised by removing "(Temporary)".

2. Paragraph (a) is amended by adding at the end of the table of contents, "(k) Transitional rules regarding information statements".

3. Paragraph (c)(2)(ii) is amended by removing "attributable" and adding in lieu thereof "allocable".

4. Paragraphs (c)(3) (i)(B) and (ii)(B) are amended by removing "attributable" and adding in lieu thereof "allocable".

5. Paragraphs (c)(4) and (d)(2)(iii) are amended by removing "§ 1.382.2T(f)(22)" and adding in lieu thereof "§ 1.382-2(a)(2)".

6. Paragraph (e)(4)(i) is amended by removing in the last sentence, "general business credits arising in the taxable year are considered (under section 39) to offset regular tax liability before general business credit carryovers to the taxable year." and, adding in lieu thereof, "general business credit carryovers to the taxable year are considered (under section 39) to offset regular tax liability before general business credits arising in the taxable year."

7. Paragraph (e)(4)(ii) is amended by adding after "section 38(c)(2)," the words "as applicable, taking into account amendments made by section 11813 of the Revenue Reconciliation Act of 1990,".

8. Paragraph (g) is amended by adding a new sentence after the first sentence and adding a new sentence at the end thereof as set forth below.

§ 1.383-1 Special limitations on certain capital losses and excess credits.

* * * * *

(g) *Coordination with section 382 and the regulations thereunder.* * * * To the extent section 382(h)(6) applies to credits, the principles of this section apply to such credits. * * * For example, in applying § 1.382-2T (f)(18)(ii)(C), (f)(18)(iii)(C) and (h)(4)(ix), any pre-change credits, as defined in paragraph (c)(3) of this section, must be converted to a deduction equivalent by dividing the amount of such credits by the maximum effective rate of tax provided for under section 11 (e.g., 0.34 for taxable years beginning in 1989).

* * * * *

§ 1.382-2T [Amended]

Par. 12. A further amendment is made to § 1.382-2T as follows. Paragraph (a)(2)(iv) is redesignated as paragraph (k) of newly designated § 1.383-1 and amended by:

A. Revising the heading of newly redesignated paragraph to read, "Transitional rules regarding information statements",

B. Redesignating paragraphs (a)(2)(iv) (A) and (B) as paragraphs (k)(1) and (k)(2), respectively, of § 1.383-1,

C. Removing "paragraph (a)(2)(ii) of this section" in newly redesignated paragraph (k)(1) and adding in lieu thereof, "§ 1.382-2T(a)(2)(ii)",

D. Removing "§ 1.383-1T(c)(2) (i) and (ii)" each place it appears in newly redesignated paragraph (k) and adding in lieu thereof "paragraphs (c)(2) (i) and (ii) of this section",

E. Removing "§ 1.383-1T(c)(3)" each place it appears in newly redesignated paragraph (k) and adding in lieu thereof "paragraph (c)(3) of this section",

F. Removing "paragraphs (a)(2)(ii) (A) and (B) of this section" in newly redesignated paragraph (k) and adding in lieu thereof "§ 1.382-2T (a)(2)(ii) (A) and (B)",

G. Removing "§ 1.383-1T" in newly redesignated paragraph (k)(2) and adding in lieu thereof "this section", and

H. Removing "subdivision (B)" in the last sentence of newly redesignated paragraph (k)(2) and adding in lieu thereof "paragraph (k)(2)".

§ 1.383-2T [Redesignated as § 1.383-2]

Par. 13. Section 1.383-2T is redesignated as § 1.383-2 and the section heading is amended by removing "(Temporary)".

PART 602—OMB CONTROL NUMBERS UNDER PAPERWORK REDUCTION ACT

Par. 14. The authority for part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

§ 602.101 [Amended]

Par. 15. Section 602.101(c) is amended by inserting in the appropriate place in the table "Section 1.383-1 * * * 1545-0123".

Approved: May 16, 1991.

Commissioner of Internal Revenue.

Kenneth W. Gideon,

Assistant Secretary of the Treasury.

BILLING CODE 4830-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 100

[CGD 05-91-19]

Special Local Regulations for Marine Events; Fourth of July Fireworks Display; Parker Island, Little Egg Harbor, Beach Haven, NJ

AGENCY: Coast Guard, DOT.

ACTION: Notice of implementation of 33 CFR 100.514.

SUMMARY: This notice implements 33 CFR 100.514 for the Fourth of July fireworks display launched from Parker Island, Little Egg Harbor, Beach Haven, New Jersey. The regulations in 33 CFR 100.514 are needed to control vessel traffic within the immediate vicinity of this event. The regulations restrict vessel traffic in the area for the safety of the life and property on the navigable waters during the event.

EFFECTIVE DATE: The regulations in 33 CFR 100.514 are effective from 8:30 p.m. to 11:30 p.m., July 4, 1991. If inclement weather causes the postponement of the event, the regulations are effective from 8:30 p.m. to 11:30 p.m., July 5, 1991.

FOR FURTHER INFORMATION CONTACT: Stephen L. Phillips, Chief, Boating Affairs Branch, Boating Safety Division, Fifth Coast Guard District, 431 Crawford Street, Portsmouth, Virginia 23704-5004, (804) 398-6204.

SUPPLEMENTARY INFORMATION:

Drafting Information

The drafters of this notice are QM1 Kevin R. Connors, project officer, Boating Affairs Branch, Boating Safety Division, Fifth Coast Guard District, and Lieutenant Monica L. Lombardi, project attorney, Fifth Coast Guard District Legal Staff.

Discussion of Regulations

The Red, White and Blue Committee, Ltd., Beach Haven, New Jersey submitted an application on April 2, 1991 to hold a fireworks display launched from Parker Island, Little Egg Harbor, Beach Haven, New Jersey. The regulations in 33 CFR 100.514 are needed to control marine traffic on the waters of Little Egg Harbor. In order to protect life and property, Parker Island will be closed. A circle around the island's center with a radius of 1000 feet will be closed to waterborne traffic during the event. Vessels transiting the area will not be inconvenienced since the deep water channel will remain open.

Dated: June 24, 1991.

P.A. Welling,

Rear Admiral, U.S. Coast Guard, Commander, Fifth Coast Guard District.

DEPARTMENT OF EDUCATION

34 CFR Parts 74, 80, 85, 86, 201, 215, 222, 231, 232, 233, 234, 235, 300, 302, 315, 332, 346, 365, 366, 367, 369, 380, 385, 396, 400, 441, 600, 607, 608, 609, 624, 628, 629, 630, 631, 637, 639, 643, 644, 645, 646, 649, 653, 656, 657, 658, 668, 682, 690, 692, 764, 765, 766, 768, 769, 771, 772

Announcement of Effective Dates

AGENCY: Department of Education.

ACTION: Notice of effective dates.

SUMMARY: Section 431(d) of the General Education Provisions Act requires that most Department of Education regulatory documents be published in the **Federal Register** for forty-five (45) calendar days, or longer if Congress takes certain adjournments, before they take effect. Since future congressional adjournments cannot be predicted with certainty when a document is published, the Department cannot announce a specific effective date at the time of publication. This notice announces the effective dates for certain regulatory documents subject to the delayed effective date requirement of section 431(d).

DATES: For effective dates, see Supplementary Information.

FOR FURTHER INFORMATION CONTACT: Kenneth C. Depew, U.S. Department of Education, 400 Maryland Avenue SW., Room 2131 FOB-6, Washington, DC 20202-2241. Telephone: (202) 401-2887. Deaf and hearing impaired individuals may call the Federal Dual Party Relay Service at 1-800-877-8339 (in the Washington DC 202 area code, telephone 708-9300) between 8 a.m. and 7 p.m., Eastern time.

SUPPLEMENTARY INFORMATION: The effective date provision for each of the regulatory documents included in this notice stated that the effective date would be announced in a notice published in the **Federal Register.** Accordingly, this notice announces the following effective dates:

1. 34 CFR part 690, final regulations for the Pell Grant Program, published April 5, 1990 (55 FR 12784).

Dates: Effective date: May 20, 1990.

2. 34 CFR part 222, final regulations for Assistance for Local Educational

BILLING CODE 4000-01-M

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 36

Loan Guaranty: Implementation of Public Law 100-198

AGENCY: Department of Veterans Affairs.

ACTION: Technical amendment.

SUMMARY: VA published a document concerning VA loan charges and fees which appeared in the **Federal Register** on October 4, 1990 (55 FR 40656). The amendment instructions assigned incorrect paragraph designations and created a duplication of paragraphs. This document will correct those problems.

EFFECTIVE DATE: November 5, 1990.

FOR FURTHER INFORMATION CONTACT: Judith A. Caden, Assistant Director for Loan Policy (264), (202) 233-3042.

SUPPLEMENTARY INFORMATION: In 55 FR 40656, October 4, 1990, item 5, § 36.4312, VA announced incorrect instructions to redesignate paragraph (e)(4) to (e)(5) and to add a new paragraph (e)(4). The redesignation of paragraph (e)(4) created two paragraphs (e)(5): a previous amendment in 55 FR 37476, item 23, September 12, 1990, had established a paragraph (e)(5), which has since become obsolete and is removed by this amendment.

The addition of the new paragraph (e)(4) in 55 FR 40656 created repetitive text in paragraphs (e)(4) and (e)(5). This amendment removes paragraph (e)(5).

List of Subjects in 38 CFR Part 36

Condominiums, Handicapped, Housing loan program—housing and community development, Manufactured homes, Veterans.

Approved: June 18, 1991.

B. Michael Berger,

Director, Records Management Service.

For the reasons set out in the preamble, 38 CFR part 36 is amended as set forth below.

PART 36—LOAN GUARANTY

1. The authority citation for part 36 continues to read as follows:

Authority: Sections 36.4300 through 36.4375 issued under 72 Stat. 1114 (38 U.S.C. 210).

§ 36.4312 [Amended]

2. Section 36.4312 is amended by removing paragraph (e)(5), redesignated by item 23 (55 FR 37476, September 12, 1990), and by removing paragraph (e)(5) redesignated by item 5 (55 FR 40656, October 4, 1990).

BILLING CODE 8320-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[FRL-3961-3]

Approval and Promulgation of State Implementation Plans; Utah; Prevention of Significant Deterioration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is today approving revisions to Utah's State Implementation Plan (SIP) submitted by the Governor on May 2, 1991, which modified the prevention of significant deterioration of air quality (PSD) portion of the SIP, section 8, and the PSD regulations (section R446-1-3 of the Utah Air Conservation Regulations [U.A.C.R.]), to incorporate the nitrogen dioxide (NO_2) increments. The May 2, 1991 submittal also included minor "housekeeping" changes to the Foreward and Definitions (U.A.C.R. R446-1-1), and to the PSD and new source review provisions contained in the Control of Installations (U.A.C.R. R446-1-3). The effect of this action is to make the NO_2 increment revisions to the PSD program, and the "housekeeping" changes, part of the Utah SIP and thus federally enforceable.

EFFECTIVE DATE: This action will become effective on August 26, 1991, unless notice is received by July 29, 1991, that someone wishes to submit adverse or critical comments. If the effective date is delayed, timely notice will be published in the **Federal Register.**

ADDRESSES: Copies of the documents relevant to this action are available for public inspection between 8 a.m. and 4 p.m., Monday through Friday at the following offices:

Environmental Protection Agency, Region VIII, Air Programs Branch, 999 18th Street, suite 500, Denver, Colorado 80202-2405.

Bureau of Air Quality, Department of Health, 1950 West North Temple, Salt Lake City, Utah 84116.

Public Information Reference Unit, Environmental Protection Agency, 401 M Street SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Mindy Mohr, Environmental Protection Agency, Region VIII, Air Programs Branch, 999 18th Street, suite 500, Denver, Colorado 80202-2405, (303) 294-7539, FTS 330-7539.

SUPPLEMENTARY INFORMATION:

NO_2 Increment Revisions:

On October 17, 1988 (53 FR 40656), EPA promulgated ambient air quality increments for NO_2 under the PSD regulations at 40 CFR 51.166 and 40 CFR 52.21. The effective date promulgated for the NO_2 increments in 40 CFR 51.166 is October 17, 1989 and in 40 CFR 52.21, November 19, 1990.

Guidance dated August 17, 1990, from Gary McCutchen, Chief of the New Source Review Section, to NSR Contacts, Region I-X, entitled "Final Guidance on Incorporating the NO_2 Increments Regulations Into State Implementation Plans (SIP's) and Delegation Agreements (DA's)," describes the minimum PSD program elements regarded as necessary for protection of the NO_2 increments. States must confirm that they intend to comply with, as well as explain how they intend to comply with, as well as explain how they intend to satisfy, each of these program elements. Utah's PSD program was originally approved by EPA on February 12, 1982 (47 FR 6427). Since Utah's PSD program is a SIP-approved program, the minimum program elements include:

1. *Regulatory Language*—revised State PSD rules as required by revisions to 40 CFR 51.166.

2. *NO_2 Increment Consumption Analyses by Major Sources*—assurance that air quality modeling analyses prepared for major source permit applications consider minor source emissions (which include minor point sources, area sources and mobile sources) since the minor source baseline date.

3. *NO_2 Increment Consumption Status Review*—periodic reviews of increment status for each section 107 area designated as attainment, summarized in a report for EPA and the public. Additionally, the State is required to prepare an initial report which covers the transition period between February 8, 1988 and the date on which EPA approves the revisions to the SIP for NO_2.

4. *Legal Authority*—certification that the State has the legal authority under State law to administer all of the NO_2 increment provisions of the SIP.

The State's May 2, 1991 submittal, and material submitted by the Utah Bureau of Air Quality on February 26, 1991 in a letter from F. Burnell Cordner, Executive Secretary, Utah Air Conservation Committee to Douglas Skie, EPA, addressed the above items. The submittal of February 26, 1991 contained an official version of the U.A.C.R. with a codification error, since there were two subparagraphs labeled as "(E)" in U.A.C.R. R446-1-3.6.5. Correction of this error was deemed a nonsubstantive change by the Utah Division of Administrative Rules (DAR), and in a letter of May 1, 1991 from Kenneth A. Hansen, Administrative Code Editor of the DAR, to Dave McNeill, Planning Section Manager of the Bureau of Air Quality, the State was notified that this correction had been made, effective May 1, 1991.

In addition to the NO_2 increment revisions, with the May 2, 1991 submittal, the State has also made several "housekeeping" changes in its definitions, and PSD and new source review provisions. The definitions changes include in modifications to, or addition of, the definitions of "fugitive emissions", "source", "incinerator", "owner or operator", "reasonable further progress", and "enforceable". The new sources review and PSD changes include modification to U.A.C.R. R446-1-3.1.10 to add the requirement that the owner or operator of a major new source or major modification which would emit carbon monoxide and impact a carbon monoxide nonattainment area must submit a adequate analysis of alternative sites, sizes, production processes and environmental control techniques; addition of subsection U.A.C.R. R446-1-3.1.11 to correspond to the federal provision at 40 CFR 51.165(a)(5)(ii); modification of the statement on banking of emission offset credits at U.A.C.R. R446-1-3.3.5 to explicitly identify applicable federal requirements; and modifications to the area redesignation provisions at U.A.C.R. R446-1-3.6.2 to include the word "federal" in several places. EPA is approving the revisions to the SIP to incorporate these changes.

Therefore, EPA believes that the State of Utah has adopted the minimum PSD program elements regarded as necessary for protection of the NO_2 increments.

EPA is publishing this action without prior proposal because the Agency views this as a noncontroversial amendment and anticipates no adverse comments. This action will be effective August 26, 1991, unless, within 30 days of its publication, notice is received that adverse or critical comments will be submitted.

If such notice is received, this action will be withdrawn before the effective date by publishing two subsequent notices. One notice will withdraw the final action and another will begin a new rulemaking by announcing a proposal of the action and establishing a comment period. If no such comments are received, the public is advised that this action will be effective August 26, 1991.

Final Action: EPA is today approving revisions to Utah's SIP, submitted by the Governor on May 2, 1991, which modified the prevention of significant deterioration of air quality (PSD) portion of the SIP, Section 8, and the State's prevention of significant deterioration of air quality (PSD) regulations of the Utah Air Conservation Regulations, to incorporate the nitrogen dioxide (NO_2) increments. EPA is also approving several "housekeeping" modifications to Utah Air Conservation Regulations.

Nothing in this action should be construed as permitting or allowing or

VOL 56 ISS 124 JE 27 1991 UMI

establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to any state implementation plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

Under 5 U.S.C. 605(b), I certify that this SIP revision will not have a significant economic impact on a substantial number of small entities (46 FR 8709).

This action has been classified as a Table 3 action by the Regional Administrator under the procedures published in the Federal Register on January 19, 1989 (54 FR 2214–2225). On January 6, 1989, the Office of Management and Budget waived Table 2 and 3 SIP revisions (54 FR 2222) from the requirements of section 3 of Executive Order 12291 for a period of two years.

The Agency has reviewed this request for revision of the federally-approved SIP for conformance with the provisions of the 1990 Amendments enacted on November 15, 1990. The Agency has determined that this action conforms with those requirements irrespective of the fact that the submittal preceded the date of enactment. Approval of this specific revision to the SIP does not indicate EPA approval of the SIP in its entirety.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review must be filed in the United States Court of Appeals for the appropriate circuit by August 26, 1991. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Air pollution control, Incorporation by reference, Nitrogen dioxide.

Note: Incorporation by reference of the State.

Implementation Plan for the State of Utah was approved by the Director of the Federal Register on July 1, 1982.

Dated: May 17, 1991.

James J. Scherer,

Regional Administrator.

40 CFR part 52, subpart TT, is amended as follows:

Subpart TT—UTAH

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401–7642.

2. Section 52.2320 is amended by adding (c)(23) to read as follows:

§ 52.2320 Identification of plan.

* * * * *

(c) * * *

(23) On May 2, 1991 the Governor of Utah submitted revisions to the plan. The revisions include amendments to the prevention of significant deterioration (PSD) portion of the plan to incorporate the nitrogen dioxide (NO_2) increments, and several "housekeeping" changes to definitions, new source review, and PSD regulations.

(i) Incorporation by reference

(A) Revisions to the Utah Air Conservation Regulations, section R446–1–1, Foreword and Definitions, section R446–1–3, Control of Installations, and section R446–2–1, Utah State Implementation Plan Incorporation by Reference, effective January 1, 1991.

(B) Letter dated May 1, 1991, from Kenneth Hansen of the Utah Division of Administrative Rules to Dave McNeill of the Utah Bureau of Air Quality, confirming a codification change to paragraph R446–1–3.6.5, effective May 1, 1991. This letter contains a reprinted version of R446–1–3.6.5.

(ii) Additional material

(A) February 26, 1991, letter from F. Burnell Cordner, Executive Secretary, Utah Air Conservation Committee, to Douglas M. Skie, EPA, transmitting administrative materials for the SIP revision.

(B) May 2, 1991, letter from Norman H. Bangerter, Governor, State of Utah, to James J. Scherer, EPA. Official SIP submittal, transmitting the SIP narrative modifying section 8, Prevention of Significant Deterioration, and other administrative materials.

General Services Administration Property Management Regulations: Common Rule: Drug-Free Workplace Requirements

AGENCY: Office of Acquisition Policy, GSA.

ACTION: Final rule; correction.

SUMMARY: This document transmits editorial corrections to the General Services Administration Property Management Regulations (GSPMR), chapter 105, as a result of a general review of the final rule published in 41 CFR chapter 105–68 (revised as of July 1, 1990).

EFFECTIVE DATE: June 27, 1991.

FOR FURTHER INFORMATION CONTACT: Ms. Ida M. Ustad, Office of GSA Acquisition Policy (VP), (202) 501–1224.

SUPPLEMENTARY INFORMATION:

List of Subjects in 41 CFR Part 105–68

Debarment and suspension (nonprocurement), Drug abuse, Grant programs.

In 41 CFR chapter 105–68 (Revised as of July 1, 1990), make the following corrections:

PART 105–68—GOVERNMENTWIDE DEBARMENT AND SUSPENSION (NONPROCUREMENT) AND GOVERNMENTWIDE REQUIREMENTS FOR DRUGFREE WORKPLACE (GRANTS)

1. The authority citation for 41 CFR part 105–68 continues to read as follows:

Authority: Title 5, subtitle D; 41 U.S.C. 701 et seq.; 40 U.S.C. 486(c).

§ 105–68.305 [Corrected]

2. Section 105–68.305(c)(5) is corrected by changing "subpart F" in the second line of the paragraph to read "subpart 105–68.6."

§ 105–68.310 [Corrected]

3. Section 105–68.310 is corrected by adding "and 48 CFR subpart 509.4" at the end of the section.

§ 105–68.320 [Corrected]

4. Section 105–68.320(a) (1) and (2) is corrected by changing "subpart F" to "subpart 105–68.6."

§ 105–68.325 [Corrected]

5. Section 105–68.325(b)(3) is corrected by removing the repeated text, "may be imputed to other participants if the conduct occurred for or on behalf of the joint venture, grant pursuant to a joint application, or similar arrangement."

§ 105–68.410 [Corrected]

6. Section 105–68.410(b) is corrected by adding "and 48 CFR subpart 509.4" at the end of the paragraph.

§ 105–68.610 [Corrected]

7. Section 105–68.610(c) is corrected by changing "subparts A, B, C, D and E" to read "subparts 105–68.1, 105–68.2, 105–68.3, 105–68.4 and 105–68.5."

§§ 105–68.505, 105–68.510, Appendix A [Amended]

8. Sections 105–68.505(d), 105–68.510 (a) and (b), and appendix A, paragraph 8 are corrected by removing "(Tel. #)" and inserting in its place, "(202) 501–0688" in each paragraph where "(Tel. #)" appears.

Dated: June 12, 1991.

DEPARTMENT OF TRANSPORTATION

Coast Guard

46 CFR Part 160

[CGD 78–174b]

RIN 2115–AC16

Approval of Inflatable Lifejackets

AGENCY: Coast Guard, DOT.

ACTION: Adoption of interim final rule as final.

SUMMARY: On May 29, 1985 the Coast Guard published a notice of proposed rulemaking in the Federal Register which proposed structural and performance standards and procedures for approval of inflatable lifejackets, as well as requirements for associated manuals, servicing programs, and shore-side service facilities. On December 5, 1989 the Coast Guard published an interim final rule based on these proposals. Because the interim final rule contained several provisions which were not in the NPRM, the Coast Guard extended an opportunity for comment on these sections. This final rule adopts the interim final rule with only minor changes.

EFFECTIVE DATE: This rule becomes effective on July 29, 1991.

FOR FURTHER INFORMATION CONTACT: Mr. Samuel Wehr, Office of Marine Safety, Security, and Environmental Protection, Attn: G–MVI–3/14, 2100 Second St. SW., Washington, DC 20593–0001, (202) 267–1444.

SUPPLEMENTARY INFORMATION:

Regulatory Background

A notice of proposed rulemaking (NPRM) was published in the Federal Register on May 29, 1985 (50 FR 21662 and 21878). Corrections to the NPRM were published in the Federal Register on June 16, 1985 (50 FR 25274). The comment period on the proposal ended on July 15, 1985.

An interim final rule was published in the December 5, 1989, issue of the Federal Register (54 FR 50316), with an effective date of January 4, 1990. The interim final rule changed the NPRM in several areas due to public comments, International Maritime Organization (IMO) clarifications of the 1983 Amendments to the International Convention for the Safety of Life at Sea, 1974 (SOLAS 74/83), and Coast Guard observations. These changes affected § 160.176–13(d)(3) and (4), Static Measurements and Average Requirements; § 160.176–13(g), Lanyard Pull Test; and § 160.176–19, Servicing.

Because these changes were not in the NPRM, the interim final rule invited comments on these sections. That comment period ended on January 19, 1990. Comments were received from three sources, including a lifejacket/personal flotation device (PFD) manufacturer, an independent laboratory, and the developer of a new type of inflation mechanism. All these comments addressed matters in addition to those which were open to comment. These comments are addressed below.

Additionally, the Coast Guard has become aware of the fact that several minor provisions were not entirely consistent with the scope of the interim final rule. These provisions, also discussed below, have therefore been revised.

Hybrid Personal Flotation Devices (PFD's)

The NPRM proposed requirements for both hybrid PFD's and inflatable lifejackets. An interim final rule promulgating hybrid PFD requirements was published in the Federal Register on August 22, 1985 (50 FR 33923). Corrections to this rule were published on February 4, 1986 (51 FR 4349). Comments that addressed concerns relating to the hybrid requirements were analyzed and discussed in that publication. Some of those comments were also relevant to inflatable lifejackets and were discussed in the interim rule for inflatable lifejackets.

Carriage Requirements for Inflatable Lifejackets

Provisions relating to carriage of inflatable lifejackets as substitutes for other required lifejackets on board various types of vessels will be included in regulations being proposed in another rulemaking. That rulemaking is part of a project to update the lifesaving appliances and arrangements for all vessels to implement the 1983 Amendments to SOLAS 1974 (SOLAS 74/83) (Docket CGD 84–069) (new Subchapter W). Advance notice of that related rulemaking was published in the Federal Register of April 29, 1985 (50 FR 17530). A Notice of Proposed Rulemaking was published April 21, 1989 (54 FR 16198). Until that rulemaking is completed, inflatable lifejackets may be accepted for carriage under the equivalency provisions in the various vessel regulations by contacting the Commandant (G–MVI) (46 CFR 30.15, 46 CFR 70.15, 46 CFR 90.15, 46 CFR 108.105, 46 CFR 167.35–1, 46 CFR 169.109, and 46 CFR 175.15). The Coast Guard expects to follow the guidelines in the inflatable PFD NPRM published on May 29, 1985 (50 FR 21878) when granting an acceptance.

VOL 56 ISS 124 JE 27 1991 UMI

Drafting Information

The principal persons involved in drafting this rule are Mr. Samuel Wehr, Office of Marine Safety, Security, and Environmental Protection, and Lieutenant Ralph Hetzel, Office of Chief Counsel.

Discussion of Comments and Revisions Made

General

Two organizations commented on the interim final rule within the comment period. One was an independent laboratory which had commented previously and the other was a manufacturer of PFDs who had commented on the rules for hybrid PFDs. The laboratory primarily sought clarifications of the approval testing procedures. The PFD manufacturer questioned the reliability of inflation mechanisms.

A late comment from the developer of a new type of inflation mechanism suggested that new technology may become available shortly which could improve reliability of automatic inflation systems. This comment is discussed under the heading Reliability of Inflation Mechanisms.

None of the comments addressed §§ 160.176–13(d) (3) and (4); 160.176–13(g); or 160.176–19 which were the sections of the rule for which comments were requested. The comments did, however, point out typographical errors which have been corrected in this rulemaking. They also suggested clarifying language for a number of sections. Clarifications were adopted in §§ 160.176–5(a)(3)(iii); 160.176–13 (b)(1), (c)(4), (d)(2)(ii), and (j)(1)(ii); and 160.176–15(g)(3)(iii). None of these comments resulted in substantive changes to the rule.

The following comment discussion is divided into three areas:
—Changes made for clarification.
—Correction of errors.
—Additional matters.

Changes Made for Clarification

Section 160.176–5(a)(3)(iii). One comment recommended that some guidelines be established for the range of tolerances that should be allowed for buoyancy and torque as required to be set by this section. Present Coast Guard policy letters and approval practices allow ±10 percent tolerances for such values unless adequate justification is provided for wider tolerances. The Coast Guard also requires the prototype devices tested to tend toward the center of the specified tolerance range, or that the proposed tolerances be adjusted so that the production devices will be similar to the prototypes tested. Since similar types of guidelines are specified for the materials used to make the lifejacket, the Coast Guard agrees that the requested guidelines, reflecting present policy, should be added to this section.

Section 160.176–8 (k) and (m). In keeping with the scope covered in § 160.176–1(c)(2) of the interim final rule, the PFD light requirement has been revised to ensure that a light meeting SOLAS 74/83 is provided with the lifejacket. Also, in keeping with this scope and the SOLAS 74/83 Convention, a requirement has been added to require that a whistle be provided with the lifejacket. These items are required in order for the Coast Guard to issue a "SOLAS 74/83 certificate" for a vessel. The language of this change is essentially the same as the requirements published in the NPRM of April 21, 1989, previously discussed in this preamble.

Section 160.176–13(b)(1). A comment asked whether the donning instructions could be reviewed prior to the donning test. Since the vessel regulations require a briefing/demonstration of the use of the lifesaving equipment on board, the donning instructions may be reviewed prior to the donning attempt. Text has been added to the regulation to make it clear that the instructions may be reviewed.

Section 160.176–13(b)(2). A comment stated that the requirement to inflate the device in the donning time is significant because another inflation test has a 30 second time limit, and the devices have an automatic inflation mechanism. It should be noted that one of the standards referenced (UL 1517) does included inflation in the required 1 minute donning requirement. However, since the time for the device to fully inflate was not intended to be counted and the time limit is shorter, the wording of the preceding paragraph § 160.176–13(b)(1) (which sets the test conditions) has been changed to require the subject to "activate the inflation mechanism" instead of "inflate" the device.

Since the device need not actually inflate for this test, § 160.176–13(b)(1) has also been changed to allow the manual inflation mechanism to be disabled during the test.

Section 160.176–13(c)(4). A comment questioned the need for the oral inflation test of the packed device. This comment indicates that there is some misunderstanding of "packed" and "packaged". The test is intended to determine whether someone, who cannot forcefully exhale, can inflate a device that has "break-away" closures around the inflation chamber while it is worn or in the ready-to-use but uninflated condition. If the device could not comply with this test, the device may be unusable by such people in an emergency. The test is not intended to apply when the device is restricted by some kind of disposable packaging or closure that would be opened before donning or by the action of accessing the oral inflator. Since the text of the interim final rule caused confusion, it has been changed for clarity by explaining, in the introductory text of paragraph (c), that any non-reusable cover is to be removed prior to this test.

Section 160.176–13(d)(2)(ii). One comment suggested that the next to last sentence of this section be changed to clarify that a total of three righting evaluations is all that is required. The text of the regulation stated that "each subject repeats these steps three times". The comment suggested that "three" be changed to "two additional" times. The change has been made.

Correction of Errors

Spelling and Typographical Errors. One comment pointed out several spelling and typographical errors, which have been corrected. The affected sections are: 160.176–8(k), 160.176–13(a)(1), and 160.176–23 (c) and (e).

Rounding Error. One comment suggested that the accuracy of the scales be revised from ±13 grams to ±14 grams to be consistent with other related standards. The Coast Guard agrees. The value published in the Interim Final Rule was rounded off incorrectly and therefore has been revised to correct the error. The affected sections are: 160.176–13(j)(1)(ii) and 160.176–15(g)(3)(iii).

Additional Matters

General. As mentioned previously, none of the comments addressed the specific sections of the rule for which comments were requested. The remaining comments have been analyzed and found not to provide clarification or benefit. The analysis of all but two of these comments has been placed in the docket rather than in this publication because they are not of general interest. The other two comments are discussed under the following heading.

Reliability of Inflation Mechanisms. Two comments questioned the reliability of the automatic inflation mechanisms which will meet the requirements of the subpart, and § 160.176–9(b)(5) in particular. The testing required for approval will demonstrate whether a limited number of automatic inflation mechanisms will work under a variety of environmental conditions. The subpart does not require enough samples to be tested to determine a statistically significant reliability value for the devices. Note, however, that no failures are permitted during the testing. The Coast Guard's position is that this regulation and the SOLAS 74/83 inflatable lifejacket requirements concerning back-up systems and annual servicing provide sufficient reliability that the overall lifesaving potential of the system is not compromised. When more comprehensive reliability information is available, the Coast Guard will consider requiring a demonstrated high reliability in place of, or in addition to, some of the current back-up inflators and servicing requirements. No change has been made at present.

Regulatory Evaluation

These regulations are considered to be non-major under Executive Order 12291 and non-significant under Department of Transportation regulatory policies and procedures (44 FR 11034, February 26, 1979). A regulatory evaluation has been prepared and placed in the rulemaking docket. It may be inspected and copied at the address listed above under **ADDRESSES**. Copies may also be obtained by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**.

The evaluation provides a detailed explanation of the estimated costs of these proposed regulations. The total approval costs per design are expected to be approximately $4,000 for inflatable lifejackets. Costs to approve other types of PFD's are approximately $2,000. The additional cost to approve inflatable lifejackets could easily be absorbed in the cost of the units produced. The cost increase per lifejacket would be small considering the number of lifejackets to be produced under authorization of each approval certificate. The Coast Guard anticipates that, within the first year after issuing the final rules, one or two inflatable lifejacket designs would be approved.

Production inspection costs imposed by these regulations will be approximately $1,000 for the largest size lot of inflatable lifejackets permitted. This cost is similar to that incurred for other types of approved PFD's.

The retail cost, per device, is expected to be $100–$200 for inflatable lifejackets. These costs would be optional since carriage is optional. Currently approved PFD's range in price from $7 to $200. Type I devices that could be replaced by inflatable lifejackets have an average cost of about $40.

These regulations provide an alternative to users for whom limited stowage space or other operational considerations make the carriage of conventional inherently buoyant PFD's impractical or inadvisable. For these users, the optional carriage of inflatable lifejackets will meet their specific operational needs and will therefore justify the higher cost relative to inherently buoyant PFD's.

These regulations will have little or no effect on federal, state, or local governments except in their capacities as consumers of PFD's. Coast Guard steps to implement these rules will be done within the scope of ongoing marine safety activities, and there will be no need for additional federal budget commitments.

Regulatory Flexibility Act

Based upon the information in the evaluation, as discussed above, the Coast Guard certifies that this rule will not have a significant economic impact on a substantial number of small entities.

Federalism

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment

The Coast Guard considered the environmental impact of this proposal and concluded that, under section 2.B.2 of Commandant Instruction M16475.1B, this proposal is categorically excluded from further environmental documentation. The reasons for categorical exclusion are (1) the action is to carry out statutory authority in the area of maritime safety and (2) it is an administrative action which clearly has no environmental impact. A Categorical Exclusion Determination is available in the docket for inspection or copying where indicated under **ADDRESSES**.

List of Subjects in 46 CFR Part 160

Incorporation by reference, Marine safety, Reporting and recordkeeping requirements.

Accordingly, the interim final rule amending chapter I of title 46 of the Code of Federal Regulations which was published at 54 FR 50316 on December 5, 1989, is adopted as a final rule with the following changes.

PART 160—LIFESAVING EQUIPMENT

1. The authority citation for part 160 continues to read as follows:

Authority: 46 U.S.C. 3306, 3703, 4104, and 4302; E.O. 12234, 45 FR 58801, 3 CFR, 1980 Comp., p 277; 49 CFR 1.46.

2. Section 160.176–5 is amended by revising paragraph (a)(3)(iii) to read as follows:

§ 160.176–5 Approval procedures.

(a) *Modifications to general procedures.* * * *

(3) * * *

(iii) Buoyancy and torque values along with tolerances to be allowed in production. The Coast Guard normally will approve tolerances of up to ±10% unless prototypes are tested at greater extremes or greater tolerances are otherwise justified.

* * * * *

3. Section 160.176–8 is amended by revising paragraph (k) and adding paragraph (l) and (m) to read as follows:

§ 160.176–8 Materials.

* * * * * *

(k) *PFD light.* Each lifejacket must have a PFD light that is approved under subpart 161.012 of this chapter and that meets the requirements of Regulations III/30.2 and III/32.3 of the 1983 Amendments to the International Convention for the Safety of Life at Sea, 1974 (SOLAS 74/83). The light must be securely attached to the front shoulder area of the lifejacket. Attachment of the light must not impair lifejacket performance.

(l) [Reserved]

(m) *Whistle.* Each lifejacket must have a whistle of the ball type or multi-tone type and of corrosion-resistant construction. The whistle must be securely attached to the lifejacket by a lanyard. The lanyard must be long enough to permit the whistle to reach the mouth of the wearer. If the lanyard would normally allow the whistle to hang below the waist of the average size wearer, the whistle must be stowed in a pocket on the lifejacket. The attachment of the whistle must not impair lifejacket performance.

4. Section 160.176–13 is amended by revising paragraphs (a)(1), (b)(1), (c) introductory text, (c)(4), (d)(2)(ii), and (j)(1)(ii) to read as follows:

§ 160.176–13 Approval tests.

(a) *General.*

(1) This section contains requirements for approval tests and examinations of inflatable lifejackets. Each test or examination must be conducted or supervised by an independent laboratory. The tests must be done using lifejackets that have been constructed in accordance with the plans and specifications in the application for

VOL 56 ISS 124 JE 27 1991 UMI

approval. Unless otherwise specified, only one lifejacket, which may or may not have been subjected to other tests, is required to be tested in each test. One or more lifejackets that have been tested as prescribed in paragraph (h) of this section must be used for the tests prescribed in paragraphs (j), (n), (q), and (r) of this section. The tests prescribed in paragraph (y) of this section require one or more lifejackets as specified in that paragraph.

* * * * *

(b) *Donning.*

(1) No second stage donning is allowed in the tests in this paragraph. Test subjects may read the donning instructions to be provided with the device, if any. An uninflated lifejacket with size adjustment at its mid-range is given to each test subject with the instruction: "Please don as quickly as possible, adjust to fit snugly, and inflate." Each subject must, within one minute, don the uninflated lifejacket, adjust it to fit snugly, and then activate the manual inflation mechanism.

Note: For this test the manual inflation mechanism may be disabled.

* * * * *

(c) *Inflation Testing.* No second stage donning is allowed in the tests in this paragraph. A lifejacket with each automatic inflation mechanism disabled must be used for the tests prescribed in paragraphs (c)(1) and (c)(2) of this section. For the tests prescribed in paragraph (c)(4) of this section, remove any non-reusable cover or packaging from the lifejacket, but do not open any cover or closure which is intended to be closed when the lifejacket is worn in the uninflated condition.

* * * * *

(4) Air at a pressure of 4.2 kPa (0.6 psig) is applied separately to each oral inflation mechanism of the lifejacket. In each application the chamber must fully inflate within 1 minute.

* * * * *

(d) *Flotation Stability.* * * *

(2) *Righting Action.* * * *

(ii) Each subject then takes three gentle breast strokes and while still face-down in the water, relaxes completely while slowly exhaling to FRC. Each subject remains in this limp position long enough to determine if the lifejacket will turn the subject from the face-down position to a position in which the subject's breathing is not impaired. The time from the last breast stroke until breathing is not impaired is recorded. Each subject repeats these steps two additional times, and the average time for the three righting actions is calculated. This average time must not exceed 5 seconds.

* * * * *

(j) *Buoyancy and Inflation Medium Retention Test.* * * *

(1) *Equipment.* * * *

(ii) A scale that is sensitive to 14 g (0.5 oz.) and that has an error of less than ±14 g (0.5 oz.).

* * * * *

5. Section 160.176–15 is amended by revising paragraph (g)(3)(iii) to read as follows:

§ 160.176–15 Production tests and inspections.

* * * * *

(g) *Facilities and Equipment.* * * *

(3) *Equipment.* * * *

(iii) *A scale* that has sufficient capacity to weigh a submerged basket for buoyancy tests. The scale must be sensitive to 14 g (0.5 oz.) and must not have an error exceeding ±14 g (0.5 oz.).

* * * * *

§ 160.176–23 [Amended]

6. Section 160.176–23 is amended by removing the paragraph number and heading "(3) *Approved Applications."* *and inserting in its place "(e) Approved Applications.".*

Dated: April 30, 1991.

J.D. Sipes,

Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Safety, Security and Environmental Protection.

BILLING CODE 4910–14–M

GENERAL SERVICES ADMINISTRATION

48 CFR Parts 538 and 552

[APD 2800.12A CHGE 25]

General Services Administration Acquisition Regulation; Implementation of Public Law 99–506

AGENCY: Office of Acquisition Policy, GSA.

ACTION: Final rule.

SUMMARY: The General Services Administration Acquisition Regulation (GSAR) is revised to further the policy expressed in section 506 of the Rehabilitation Act of 1973, as amended (Pub. L. 99–506) (29 U.S.C. 794d) by prescribing a clause for inclusion in multiple award schedules for electronic office equipment that encourages offerors to identify those products which provide accessibility for handicapped individuals. The General Services Administration believes that the strictly voluntary participation by vendors will be beneficial not only to schedule users, who will become more aware of the availability of electronic office equipment providing accessibility, but to the vendors, themselves, because the identification of such equipment will serve as a valuable marketing tool.

EFFECTIVE DATE: July 8, 1991.

FOR FURTHER INFORMATION CONTACT: Paul Linfield, Office of GSA Acquisition Policy (202) 501–1224.

SUPPLEMENTARY INFORMATION:

A. Background

Section 506 of the Rehabilitation Act of 1973, as amended, mandates that the Administrator of General Services, together with the Secretary of Education and in consultation with the electronics industry, develop and establish guidelines for electronic equipment accessibility designed to ensure that handicapped individuals may use electronic office equipment with or without special peripherals. Furthermore, the Administrator is directed to adopt those guidelines for Federal procurement of electronic equipment. Mandatory coverage regarding office equipment accessibility for all automatic data processing equipment acquisitions is provided in the Federal Information Resources Management Regulation (FIRMR).

B. Determination not to Solicit Public Comment

Under multiple award schedules, contractors currently are required to submit certain marketing information with their offers and to publish and distribute to ordering agencies commercial catalogs and/or pricelists. Because this change merely requests the voluntary identification of certain information currently submitted by contractors, this rule does not constitute a significant revision requiring solicitation of public comment.

C. Executive Order 12291

The Director, Office of Management and Budget (OMB), by memorandum dated September 14, 1984, exempted certain agency procurement regulations from Executive Order 12291. The exemption applies to this rule.

D. Regulatory Flexibility Act

The Regulatory Flexibility Act (Pub. L. 96–354) does not apply to this rule because it is not a "significant revision" as defined in FAR 1.501–1.

E. Paperwork Reduction Act

This regulation contains information collection and/or recordkeeping requirements. GSA believes, however, that the time and financial resources necessary for members of the public to comply with those requirements are limited to those that are ordinarily incurred in the normal course of business activities. Specifically, vendors normally prepare catalogs and pricelists which are furnished to prospective buyers as a means of marketing and advertising the vendor's products. Accordingly, this information collection is approved under OMB Control Number 3090–0250 (expires 11/30/92), "Zero Burden Information Collections." Comments regarding the information collection requirements contained in the proposed rule may be sent to: GSA Desk Officer, Office of Management and Budget, room 3235 NEOB, Washington, DC 20503, and to Mr. Paul Linfield, Office of GSA Acquisition Policy, room 4025, 18th & F Streets NW., Washington, DC, 20405.

List of Subjects in 48 CFR Parts 538 and 552

Government procurement.

1. The authority citation for 48 CFR parts 538 and 552 continues to read as follows:

Authority: 40 U.S.C. 486(c).

PART 538—[AMENDED]

2. Section 538.000 is revised to read as follows:

538.000 Scope of part.

Unless otherwise stated, the policies and procedures in this part are prescribed for contracting for supplies and services by the Federal Supply Service (FSS) and the Information Resources Management Service (IRMS) under their respective schedule programs.

3. Section 538.203–71 is revised to read as follows:

538.203–71 Contract clauses.

(a) The contracting officer shall insert the clause at 552.238–72, Contractor's Report of Orders Received, in solicitations issued and contracts awarded under GSA's schedule program. Paragraph (b) of the basic clause may be modified as necessary to meet program requirements. If it is necessary to identify the official responsible for preparing the report, the contracting officer may use the clause with its Alternate I. When the clause is used by IRMS, the contracting officer shall use the clause with its Alternate II.

(b) The contracting officer shall insert the clause at 552.238–70, Identification of Electronic Office Equipment Providing Accessibility for the Handicapped, in solicitations and contracts awarded under the multiple award schedule program when the solicitation includes electronic office equipment.

4. Section 55.238–70 is added to read as follows:

PART 552—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

552.238–70 Identification of Electronic Office Equipment Providing Accessibility for the Handicapped.

As prescribed in 538.203–71(b), insert the following clause:

Identification of Electronic Office Equipment Providing Accessibility for the Handicapped (May 1991)

(a) *Definitions.* "Electronic office equipment accessibility" means the application/configuration of electronic office equipment in a manner that accommodates the functional limitations of individuals with disabilities (i.e., handicapped individuals) so as to promote productivity and provide access to work related and/or public information resources.

"Handicapped individuals" means qualified individuals with impairments as cited in 29 CFR 1613.702(f) who can benefit from electronic office equipment accessibility.

"Special peripheral" means a special needs aid that provides access to electronic equipment that is otherwise inaccessible to a handicapped individual.

(b) The offeror is encouraged to identify in its offer, and include in any commercial catalogs and pricelists accepted by the Contracting Officer, office equipment, including any special peripheral, that will facilitate electronic office equipment accessibility for handicapped individuals. Identification should include the type of disability accommodated and how the users with that disability would be helped.

Dated: June 19, 1991.

Richard H. Hopf, III,

Associate Administrator for Acquisition Policy.

BILLING CODE 6820–61–M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 672

[Docket No. 901184–1042]

Groundfish of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of prohibition of retention; request for comments.

SUMMARY: The Regional Director, Alaska Region, NMFS (Director), is prohibiting further retention of the shortraker/rougheye (SRRE) species category by vessels fishing in the Eastern and Central Regulatory areas of the Gulf of Alaska (GOA) and is requiring that SRRE be treated in the same manner as a prohibited species. This action is necessary to prevent overfishing of this species category and is intended to promote optimum use of groundfish stocks.

DATES: *Effective:* 12 noon on June 21, 1991, Alaska local time, through 12 midnight, December 31, 1991. Comments are invited until July 6, 1991.

ADDRESSES: Comments should be mailed to Dale R. Evans, Chief, Fisheries Management Division, National Marine Fisheries Service, P.O. Box 21668, Juneau, Alaska 99802–1668, or be delivered to 9109 Mendenhall Mall Road, Federal Building Annex, suite 6, Juneau, Alaska.

FOR FURTHER INFORMATION CONTACT: Andrew N. Smoker, Resource Management Specialist, NMFS, 907–586–7228.

SUPPLEMENTARY INFORMATION: The Fishery Management Plan for the Gulf of Alaska Groundfish Fishery (FMP) governs the groundfish fishery in the exclusive economic zone in the GOA under the Magnuson Fishery Conservation and Management Act. The FMP was prepared by the North Pacific Fishery Management Council (Council) and was implemented by regulations appearing at 50 CFR 611.92 and parts 620 and 672.

The Guidelines for Fishery Management Plans (Guidelines), 50 CFR 602.11(c)(1) (July 24, 1989; 54 FR 30834), define overfishing as a level or rate of fishing mortality that jeopardizes the long-term capacity of a stock or stock complex to produce its maximum sustainable yield on a continuing basis. Furthermore, Amendment 21 to the FMP (January 24, 1991; 56 FR 2700), requires

VOL 56 ISS 124 JE 27 1991 UMI

that conservation and management measures shall prevent overfishing.

In accordance with § 672.22(a)(2)(i)(A), if the Secretary of Commerce (Secretary) determines that the overfishing of any species or stock of fish may occur, under § 672.22(a)(1), he may issue an inseason adjustment to the groundfish fisheries taking into account all information relevant to one or more of the following factors: (i) The effect of overall fishing effort within a regulatory area; (ii) catch per unit of effort and rate of harvest; (iii) relative abundance of stocks within the area; (iv) the condition of the stock within all or part of a regulatory area; (v) economic impacts on fishing businesses being affected; (vi) or any other factor relevant to the conservation and management of groundfish species for which a total allowable catch (TAC) has been specified.

The FMP describes the maximum fishing mortality rate that defines the amount of harvest that constitutes overfishing for fisheries in that regulatory area. In their report to the Council for the GOA, the Scientific and Statistical Committee (SSC) recommended the allowable biological catch (ABC) for the SRRE group at 2,000 metric tons (mt) and noted that it was equivalent to the definition of overfishing. The Advisory Panel of the Council recommended that the TAC equal the ABC, which was adopted by the Council. The final notice of 1991 initial specifications (March 1, 1991; 56 FR 8723) established an ABC and TAC of 2,000 mt for SRRE in the GOA. It further apportioned the TAC among the three regulatory areas as follows: Western Gulf—100 mt; Central Gulf—1,320 mt; and Eastern Gulf-580 mt.

Under directed fishing standards at § 672.20(g)(3), directed fishing for SRRE is defined as retention of SRRE at any time during a trip in amounts greater than or equal to 20 percent of the amount of all other fish species retained at the same time by the vessel during the same trip. The best available information indicates that ordinarily the amount of SRRE caught incidentally in directed fisheries for other groundfish is less than that amount allowed under the directed fishing standards. However, in consideration of the high value and desirability of this species group (and the potential under § 672.20(g)(3) to harvest the maximum allowable bycatch) the remaining TAC of SRRE may not be large enough to allow sufficient true bycatch needed to continue other target groundfish fisheries in the GOA for the remainder of the year. Therefore, in order to prevent reaching the level of overfishing by take of SRREs, and on the basis of the information summarized below, the Secretary issues this inseason adjustment closing the fishing season for SRRE in the Eastern and Central Regulatory areas of the GOA. After June 21, 1991, fishermen must treat SRRE harvested from the Eastern and Central Regulatory areas as a prohibited species as described in § 672.20(e). The Secretary has determined this is the least restrictive management adjustment necessary to prevent reaching overfishing of SRRE.

Pursuant to § 672.22(a)(3), the Regional Director considered all information relevant to the following factors in making the determination required under paragraph (a)(2) of § 672.22.

1. *The effect of overall fishing effort within a regulatory area*—SRREs are a highly valued fish. Some fishermen are able to target on them and to some extent avoid them, and they occur as incidental catch in other directed fisheries. Currently there are at least eight directed fisheries in the GOA that are likely to take SRRE as incidental catch.

2. *Catch per unit of effort and rate of harvest*—If the SRRE species group in these areas is maintained in the bycatch status, which allows for a retention in amounts less than 20 percent of all other fish species retained on board, the remaining TAC of this species category will be exceeded prior to the end of the fishing year. By prohibiting the retention of SRRE, the Director will remove all incentive to target that species group, thereby reducing the potential for overfishing.

3. *Relative abundance of stocks within an area*—The SSC estimated the exploitable biomass of SRREs at 72,600 mt in the GOA. Prior to 1991, the SRREs were part of the slope rockfish species group. As a group, the slope rockfish have declined substantially in recent years (1991 SAFE Report—GOA).

4. *Economic impacts on fishing businesses being affected*—Should the catch of SRRE exceed the ABC as established by the SSC, the stock would become overfished. Management measures would have to be taken to prevent the catch of SRRE in excess of the ABC, such as the termination of other fisheries in the GOA. The cessation of other fisheries in the GOA would result in a major negative economic impact on fishing businesses.

Classification

This action is taken under 50 CFR 672.22 and is in compliance with Executive Order 12291.

Immediate effectiveness of this notice is necessary to prevent overfishing of SRRE stocks. Therefore, the Assistant Administrator for Fisheries, NOAA, finds for good cause that it is impractical and contrary to the public interest to provide prior notice and comment on this notice or to delay its effective date. However, interested persons are invited to submit comments in writing to the above address until July 6, 1991.

Proposed Rules

Federal Register
Vol. 56, No. 124
Thursday, June 27, 1991

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1205

[CN-91-007]

Amendment to the Cotton Research and Promotion Regulations for Cotton Board Membership

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposal would amend the Cotton Research and Promotion regulations regarding Cotton Board membership. This proposal would establish a procedure for determining the number of importer members and alternate members to serve on the Cotton Board based on the annual volume of imported cotton and cotton products. Also, this proposal would provide for participation of importers in nominating importers to serve as members and alternate members on the Cotton Board.

DATES: Written comments concerning the proposed rule must be sent in triplicate and received no later than July 12, 1991.

ADDRESSES: Written comments should be sent to: Craig Shackelford, USDA, AMS, Cotton Division; P.O. Box 96456; room 2641-S; Washington, DC 20090-6456. All comments will be made available for public inspection at the Office of the Docket Clerk during regular business hours. All comments should reference the date and page of the Federal Register publication. In addition, comments concerning the information collection requirements should be sent to: Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, Attention: Desk Officer for Agricultural Marketing Service, USDA.

FOR FURTHER INFORMATION CONTACT: Craig Shackelford (202) 447-2259.

SUPPLEMENTARY INFORMATION: These amendments to the regulations regarding Cotton Board membership are proposed in accordance with the Cotton Research and Promotion Act Amendments of 1990 (Subtitle G of title XIX of the Food, Agriculture, Conservation and Trade Act of 1990, Public Law 101-624, November 28, 1990) which amended the Cotton Research and Promotion Act (7 U.S.C. 2101 *et. seq.*). The provisions of the Cotton Research and Promotion Act Amendments of 1990 are to be implemented by an amendment to the Cotton Research and Promotion Order. A proposed Order was issued by the Department of Agriculture and published in the Federal Register, April 10, 1991 (56 FR 14462). Written comments concerning the proposed Order were to be received no later than May 10, 1991. The proposed Order will not become effective unless approved in a referendum to be held in accordance with the requirements of the 1990 Act amendments. Should the proposed Order be approved in the referendum, the proposed amendments to the regulations regarding Cotton Board membership would be necessary.

This proposed rule has been reviewed in accordance with Executive Order 12291 and Departmental Regulation 1512-1 and has been determined to be a non-major rule under Executive Order 12291 since it does not meet the criteria for a major regulatory action contained in that Order.

The Administrator, Agricultural Marketing Service (AMS), has considered the economic impact of this proposed action on small entities pursuant to the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). There are an estimated 35,000 domestic cotton producers who are presently subject to the regulation regarding Cotton Board membership. There are also an estimated 10,000 importers that would become subject to the regulations. The majority of these producers and importers would be classified as small businesses under the criteria established by the Small Business Administration. The economic impact of this proposal is not expected to be significant. Also, importers who would be selected as members to the Cotton Board would serve without compensation but would be reimbursed for necessary expenses, as approved by the Board, incurred by them in their performance of their duties under the Order. Accordingly, the Administrator of AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

In compliance with Office of Management and Budget (OMB) regulations (5 CFR part 1320) which implement the Paperwork Reduction Act (PRA) of 1980 (44 U.S.C. chapter 35) and Section 3504(h) of the PRA, the information collection and recordkeeping requirements for domestic producers and importers contained in this subpart, have been approved and assigned OMB control number 0581-0093. Individual producers and importers nominated to the Board will be required to submit a membership background information sheet previously approved by OMB and assigned OMB control number 0505-0001. The estimated number of producer and importer respondents is 32 per year. The estimated number of importer respondents is 8 per year. Each respondent would submit one response when nominated, with an estimated average reporting burden of 0.5 hour per response.

Comments concerning the information collection requirements contained in this action should be sent to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503. Attention: Desk Officer for Agricultural Marketing Service, USDA.

This proposal establishes procedures for determining how many importer representatives should serve on the Cotton Board and the procedures importers would follow in nominating potential Cotton Board members. The proposal establishes these procedures to reflect procedures already existing for cotton producers.

The volume of baled lint Upland cotton imported and the cotton content of imported products in terms of 480 pound bales would be used to determine in accordance with the provisions of § 1205.322 of the proposed Order how many additional persons above the base number of two should represent importers on the Cotton Board. The proposed Order published in the April 10, 1991, Federal Register (56 14482) provided that membership on the Cotton Board would be for cotton importers by one member for each 1 million bales or

VOL 56 ISS 124 JE 27 1991 UMI

major fraction (more than one-half) thereof of imported cotton subject to assessments during the period specified in the regulations for determining Board membership. In addition, the proposed Order provided that the number of cotton importers represented on the Cotton Board would in no case be less than two and the percentage of importers represented on the Board would in no case be greater than 20 percent. All importer members appointed would serve out their three-year terms even if the volume of imported cotton should decrease. Each year in approximately July, the Director of the Cotton Division would contact certified importer organizations notifying each of the number of importer vacancies to be filled on the Cotton Board.

The Director will work with the certified importer organizations to determine a time and place for all such importer organizations to caucus for nominating importers to serve on the Cotton Board. Each organization would be entitled to have one representative attend the nominating caucus. The representatives of the importer organizations would jointly nominate two qualified persons for each member and alternate member position vacant. The proposed procedures reflect procedures already established for cotton producer nominations. References to Order section numbers in the proposal reflect the Order section numbers as proposed in the April 10, 1991, **Federal Register** (56 FR 14482). Also, the authority citation for Part 1205 would be amended for clarity.

Written comments are requested from interested persons regarding this proposal. A 15 day comment period is considered appropriate and is necessary so that the U.S. Department of Agriculture and cotton importers may begin planning for importer representation on the Cotton Board that may be adopted as soon as possible. Caucuses for nominating members to the Cotton Board take considerable time to plan. Early establishment of any procedures that may be adopted as a result of this rulemaking would allow importer caucuses to be held as soon as possible, thereby assisting in timely implementation of the Act amendments of 1990.

List of Subjects in 7 CFR Part 1205

Advertising, Agricultural research, Cotton, Marketing agreements, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR Part 1205 is proposed to be amended as follows:

PART 1205—COTTON RESEARCH AND PROMOTION

1. The authority citation for part 1205 is revised to read as follows:

Authority: Cotton Research and Promotion Act, as amended, 7 U.S.C. 2101–2118.

2. Section 1205.402 is revised to read as follows:

§ 1205.402 Determination of Cotton Board membership.

(a) In determining whether any cotton producing state is entitled to be represented by more than one member of the Cotton Board pursuant to § 1205.322, average annual production in terms of 480-pound net weight bales for the five most recent marketing years shall be used as the criteria for determination of such additional members.

(b) In determining whether importers of cotton and products containing cotton are entitled to be represented by more than two members of the Cotton Board pursuant to § 1205.322, average annual imports of cotton and products containing cotton in terms of 480-pound net weight bales for the five most recent calendar years shall be used as the criteria for determination of such additional members.

(c) All members appointed from a state shall be entitled to serve a full three-year term even though it is determined in a subsequent year that a state should have fewer additional members by using the average production of the five most recent marketing years as specified in paragraph (a) of this section.

(d) All members appointed to represent importers shall be entitled to serve a full three-year term even though it is determined in a subsequent year that importers should be represented by fewer additional members by using the average of imports of cotton and products containing cotton of the most recent five calendar years as specified in paragraph (b) of this section.

(e) Each year the Director shall:

(1) Based on the average annual production of Upland cotton in terms of 480-pound net weight bales for the five most recent marketing years, notify all certified cotton producer organizations in each cotton producing state of the number of vacancies to be filled by cotton producers on the Cotton Board; and

(2) Based on the average annual imports of cotton and products containing cotton in terms of 480-pound net weight bales for the five most recent calendar years, notify all certified cotton importer organizations of the number of vacancies to be filled by cotton importers on the Cotton Board.

3. Section 1205.403 "Nomination procedure" is revised to read as follows:

§ 1205.403 Nomination procedure.

(a) The Director shall notify all certified producer organizations within each cotton producing state and all certified importer organizations of the location, date, and time of the caucus of such organizations pursuant to § 1205.324 for the purpose of making nomination for members and alternate members of the Cotton Board. The Director will designate a representative from the Cotton Division to attend the caucus meeting of cotton producer organizations in each state, and of cotton importer organizations. Each eligible cotton producer organization within each cotton producing state and each importer organization shall be entitled to only one representative at the caucus for the purpose of nominating two qualified persons for each member and for each alternate member to be selected. Representatives for cotton producer organization shall be a cotton producer and resident of such state, an officer or member of the Board of Directors of such organization, and duly and unqualifiedly authorized in writing by such organization to make nominations on its behalf. Representatives for importer organizations shall be an importer of cotton and/or products containing cotton, an officer or member of the Board of Directors of such organization, and duly and unqualifiedly authorized in writing by such organization to make nominations on its behalf. The representative of the Director designated to attend the caucus meeting of cotton producer organizations in each state and of cotton importer organizations shall ascertain the qualifications and eligibility of each representative of a cotton producer organization or cotton importer organization to participate in said meeting and to make nominations.

(a) Each caucus shall be conducted as follows:

(1) The representative from the Cotton Division shall act as temporary chairperson and shall explain the procedure for nominations and the duties of the Cotton Board;

(2) The representatives in attendance from the certified organizations shall then select a chairperson and secretary;

(3) At each caucus there shall be presented for nomination and there shall be nominated not less than the number of nominees required under the

provisions of §§ 1205.322, 1205.324, and 1205.402.

Dated: June 21, 1991.

Daniel Haley,

Administrator.

AGENCY: Rural Electrification Administration, USDA.

ACTION: Notice of correction and extension of the comment period.

SUMMARY: The Rural Electrification Administration (REA) published a proposed rule in the **Federal Register** on Thursday, March 14, 1991, (56 FR 10835) to revise telephone standards and specifications by rescinding REA Bulletin 345–165 (REA Form 522) and issuing a revised version as Bulletin 1753E–001 (522). Due to an error in the proposal, REA is extending the comment period to provide interested persons with additional time in which to prepare comments.

DATES: Written comments must be submitted on or before July 29, 1991. REA requests an original and three copies of all comments.

ADDRESSES: Comments must be mailed to Donald M. Van Bellinger, Director, Telecommunications Staff Division, Rural Electrification Administration, room 2835, South Building, USDA, Washington, DC 20250–1500.

All comments received will be made available for public inspection during regular business hours at the address above (7 CFR 1.27(b)).

FOR FURTHER INFORMATION CONTACT: Joseph A. Baude, Acting Chief, Central Office Equipment Branch, Telecommunications Staff Division, Rural Electrification Administration, room 2832, South Building, USDA, Washington, DC 20250–1500, telephone (202) 382–1443.

SUPPLEMENTARY INFORMATION: The Rural Electrification Administration (REA) published a proposed rule in the **Federal Register** on Thursday, March 14, 1991, (56 FR 10835). Page 10837 of the proposal contains an error which was corrected by the Office of the **Federal Register** (OFR) on Wednesday, April 24, 1991, (56 FR 18878). 15.4.2 d. was corrected to read:

d. In central office switching systems of less than 400 equipped lines, any single nonduplicated power converter failure shall not cause a complete loss of service to more than 25 percent of the total equipped lines.

REA has determined that an extension of time to allow for additional comments would prove beneficial and the comment period is hereby extended until July 29, 1991.

Authority: 7 U.S.C. 901 *et seq.*, 7 U.S.C. 1921 *et seq.*

Dated: June 19, 1991.

Gary C. Byrne,

Administrator.

BILLING CODE 3410–15–M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 914

Indiana Regulatory Program; Revegetation, Nonprime Farmland, Underground Mining Operations

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule.

SUMMARY: OSM is announcing receipt of a proposed amendment submitted by Indiana as a modification to the State's regulatory program (hereinafter referred to as the Indiana program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA).

The amendment (Program Amendment Number 91–6) consists of proposed changes to the Indiana Surface Mining Rule provisions concerning revegetation of nonprime farmland for underground mining operations. The amendment is intended to amend the revegetation success standards for nonprime farmland areas affected by underground mining operations.

This notice sets forth the times and locations that the Indiana program and the proposed amendment to that program will be available for public inspection, the comment period during which interested persons may submit written comments on the proposed amendment, and the procedures that will be followed for a public hearing, if one is requested.

DATES: Written comments must be received on or before 4 p.m. on July 29, 1991; if requested, a public hearing on the proposed amendment is scheduled for 1 p.m. on July 22, 1991; and requests to present oral testimony at the hearing must be received on or before 4 p.m. on July 12, 1991.

ADDRESSES: Written comments and requests to testify at the hearing should be directed to Mr. Richard D. Rieke, Director, Indianapolis Field Office, at the address listed below. If a hearing is requested, it will be held at the same address.

Copies of the Indiana program, the amendment, a listing of any scheduled public meetings, and all written comments received in response to this notice will be available for public review at the following locations, during normal business hours, Monday through Friday, excluding holidays:

Office of Surface Mining Reclamation and Enforcement, Indianapolis Field Office, Minton-Capehart Federal Building, 575 North Pennsylvania Street, room 301, Indianapolis, IN 46204. Telephone: (317) 226–6166.

Indiana Department of Natural Resources, 402 West Washington Street, room 295, Indianapolis, IN 46204. Telephone: (317) 232–1547.

Each requester may receive, free of charge, one copy of the proposed amendment by contacting the OSM Indianapolis Field Office.

FOR FURTHER INFORMATION CONTACT: Mr. Richard D. Rieke, Director, Telephone (317) 226–6166; (FTS) 331–6166.

SUPPLEMENTARY INFORMATION:

I. Background on the Indiana Program

On July 29, 1982, the Indiana program was made effective by the conditional approval of the Secretary of the Interior. Information pertinent to the general background on the Indiana program, including the Secretary's findings, the disposition of comments, and a detailed explanation of the conditions of approval of the Indiana program can be found in the July 26, 1982, **Federal Register** (47 FR 32107). Subsequent actions concerning the conditions of approval and program amendments are identified at 30 CFR 914.10, 914.15, and 914.16.

II. Discussion of the Proposed Amendments

By letter dated May 23, 1991 (Administrative Record No. IND–0874), the Indiana Department of Natural Resources (IDNR) submitted a proposed amendment to the Indiana program at Indiana Administrative Codes (IAC) 310 IAC 12–5. The proposed amendment would repeal 310 IAC 12–5–65, 310 IAC 12–5–128, and 310 IAC 12–5–129 and add new sections 310 IAC 12–5–128.1, 128.2,

VOL 56 ISS 124 JE 27 1991 UMI

and 128.3. The added sections would establish standards at underground mine areas for: Revegetation success for nonprime farmlands; revegetation sampling techniques for nonprime farmland; and statistical methodology to evaluate the success of revegetation.

The full text of the proposed program amendment submitted by Indiana is available for public inspection at the addresses listed above. The Director now seeks public comment on whether the proposed amendment is no less effective than the Federal regulations. If approved, the amendment will become part of the Indiana program.

III. Public Comment Procedures

In accordance with provisions of 30 CFR 732.17(h), OSM is now seeking comment on whether the amendment proposed by Indiana satisfies the requirements of 30 CFR 732.15 for the approval of State program amendments. If the amendment is deemed adequate, it will become part of the Indiana program.

Written Comments

Written comments should be specific, pertain only to issues proposed in this rulemaking, and include explanations in support of the commenter's recommendations. Comments received after the time indicated under **"DATES"** or at locations other than the Indianapolis Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to comment at the public hearing should contact the person listed under **"FOR FURTHER INFORMATION CONTACT"** by the close of business on July 12, 1991. If no one requests an opportunity to comment at a public hearing, the hearing will not be held.

Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to comment have been heard. Persons in the audience who have not been scheduled to comment and who wish to do so will be heard following those scheduled. The hearing will end after all persons who desire to comment have been heard.

Public Meeting

If only one person requests an opportunity to comment at a hearing, a public meeting, rather than a public hearing may be held.

Persons wishing to meet with OSM representatives to discuss the proposed amendment may request a meeting at the Indianapolis Field Office by contacting the person listed under **"FOR FURTHER INFORMATION CONTACT."** All such meetings will be open to the public and, if possible, notices of meetings will be posted at the locations listed above under **"ADDRESSES."** A summary of the meeting will be included in the Administrative Record.

30 CFR Part 914

Indiana Regulatory Program; Revegetation, Nonprime Farmland

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule.

SUMMARY: OSM is announcing receipt of a proposed amendment submitted by Indiana as a modification to the State's regulatory program (hereinafter referred to as the Indiana program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA).

The amendment (Program Amendment Number 91-4) submitted consists of proposed changes to the Indiana Surface Mining Rule provisions concerning revegetation of nonprime farmland. The amendment is intended to establish revegetation success standards for nonprime farmland areas affected by surface mining operations.

This notice sets forth the times and locations that the Indiana program and the proposed amendment to that program will be available for public inspection, the comment period during which interested persons may submit written comments on the proposed amendment, and the procedures that will be followed for a public hearing, if one is requested.

DATES: Written comments must be received on or before 4 p.m. on July 29, 1991, if requested, a public hearing on the proposed amendment is scheduled for 1 p.m. on July 22, 1991; and requests to present oral testimony at the hearing must be received on or before 4 p.m. on July 12, 1991.

ADDRESSES: Written comments and requests to testify at the hearing should be directed to Mr. Richard D. Rieke, Director, Indianapolis Field Office, at the address listed below. If a hearing is requested, it will be held at the same address.

Copies of the Indiana program, the amendment, a listing of any scheduled public meetings, and all written comments received in response to this notice will be available for public review at the following locations, during normal business hours, Monday through Friday, excluding holidays:

Office of Surface Mining Reclamation and Enforcement, Indianapolis Field Office, Minton-Capehart Federal Building, 575 North Pennsylvania Street, room 301, Indianapolis, IN 46204. Telephone: (317) 226-6166.

Indiana Department of Natural Resources, 402 West Washington Street, room 295, Indianapolis, IN 46204. Telephone: (317) 232-1547.

Each requester may receive, free of charge, one copy of the proposed amendment by contacting the OSM Indianapolis Field Office.

FOR FURTHER INFORMATION CONTACT: Mr. Richard D. Rieke, Director, Telephone (317) 226-6166; (FTS) 331-6166.

SUPPLEMENTARY INFORMATION:

I. Background on the Indiana Program

On July 29, 1982, the Indiana program was made effective by the conditional approval of the Secretary of the Interior. Information pertinent to the general background on the Indiana program, including the Secretary's findings, the disposition of comments, and a detailed explanation of the conditions of approval of the Indiana program can be found in the July 26, 1982 **Federal Register** (47 FR 32107). Subsequent actions concerning the conditions of approval and program amendments are identified at 30 CFR 914.10, 914.15, and 914.16.

II. Discussion of the Proposed Amendments

By letter dated May 22, 1991, (Administrative Record No. IND-0872), the Indiana Department of Natural Resources (IDNR) submitted a proposed amendment to the Indiana program at Indiana Administrative Code (IAC) 310 IAC 12-5-64. The proposed amendment would repeal 310 IAC 12-5-64 and add sections 64.1, 64.2, and 64.3. The added sections would establish standards for: Revegetation success for nonprime farmlands; revegetation sampling techniques for nonprime farmland; and statistical methodology to evaluate the success of revegetation.

The full text of the proposed program amendment submitted by Indiana is available for public inspection at the addresses listed above. The Director now seeks public comment on whether the proposed amendment is no less effective than the Federal regulations. If approved, the amendment will become part of the Indiana program.

III. Public Comment Procedures

In accordance with provisions of 30 CFR 732.17(h), OSM is now seeking comment on whether the amendment proposed by Indiana satisfies the requirements of 30 CFR 732.15 for the approval of State program amendments. If the amendment is deemed adequate, it will become part of the Indiana program.

Written Comments

Written comments should be specific, pertain only to issues proposed in this rulemaking, and include explanations in support of the commenter's recommendations. Comments received after the time indicated under **"DATES"** or at locations other than the Indianapolis Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to comment at the public hearing should contact the person listed under **"FOR FURTHER INFORMATION CONTACT"** by the close of business on July 12, 1991. If no one requests an opportunity to comment at a public hearing, the hearing will not be held.

Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to comment have been heard. Persons in the audience who have not been scheduled to comment and who wish to do so will be heard following those scheduled. The hearing will end after all persons who desire to comment have been heard.

Public Meeting

If only one person requests an opportunity to comment at a hearing, a public meeting, rather than a public hearing, may be held.

Persons wishing to meet with OSM representatives to discuss the proposed amendment may request a meeting at the Indianapolis Field Office by contacting the person listed under **"FOR FURTHER INFORMATION CONTACT."** All such meetings will be open to the public and, if possible, notices of meetings will be posted in advance at the locations listed above under **"ADDRESSES."** A summary of the meeting will be included in the Administrative Record.

30 CFR Part 914

Indiana Regulatory Program; Prime Farmland Special Performance Standards

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule.

SUMMARY: OSM is announcing receipt of a proposed amendment submitted by Indiana as a modification to the State's regulatory program (hereinafter referred to as the Indiana program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA).

The amendment (Program Amendment Number 91-5) consists of proposed changes to the Indiana Surface Mining Rule provisions concerning prime farmland special performance standards. The amendment is intended to revise the existing prime farmland soil productivity restoration performance standards for revegetation and restoration of soil productivity on prime farmland.

This notice sets forth the times and locations that the Indiana program and the proposed amendment to that program will be available for public inspection, the comment period during which interested persons may submit written comments on the proposed amendment, and the procedures that will be followed for a public hearing, if one is requested.

DATES: Written comments must be received on or before 4 p.m. on July 29, 1991; if requested, a public hearing on the proposed amendment is scheduled for 1 p.m. on July 22, 1991; and requests to present oral testimony at the hearing must be received on or before 4 p.m. on July 12, 1991.

ADDRESSES: Written comments and requests to testify at the hearing should be directed to Mr. Richard D. Rieke, Director, Indianapolis Field Office, at the address listed below. If a hearing is requested, it will be held at the same address.

Copies of the Indiana program, the amendment, a listing of any scheduled public meetings, and all written comments received in response to this notice will be available for public review at the following locations, during normal business hours, Monday through Friday, excluding holidays:

Office of Surface Mining Reclamation and Enforcement, Indianapolis Field Office, Minton-Capehart Federal Building, 575 North Pennsylvania Street, room 301, Indianapolis, IN 46204. Telephone: (317) 226-6166.

Indiana Department of Natural Resources, 402 West Washington Street, room 295, Indianapolis, IN 46204. Telephone: (317) 232-1547.

Each requester may receive, free of charge, one copy of the proposed amendment by contacting the OSM Indianapolis Field Office.

FOR FURTHER INFORMATION CONTACT: Mr. Richard D. Rieke, Director, Telephone (317) 226-6166; (FTS) 331-6166.

SUPPLEMENTARY INFORMATION:

I. Background on the Indiana Program

On July 29, 1982, the Indiana program was made effective by the conditional approval of the Secretary of the Interior. Information pertinent to the general background on the Indiana program, including the Secretary's findings, the disposition of comments, and a detailed explanation of the conditions of approval of the Indiana program can be found in the July 26, 1982 **Federal Register** (47 FR 32107). Subsequent actions concerning the conditions of approval and program amendments are identified at 30 CFR 914.10, 914.15, and 914.16.

II. Discussion of the Proposed Amendments

By letter dated May 23, 1991, (Administrative Record No. IND-0873), the Indiana Department of Natural Resources (IDNR) submitted a proposed amendment to the Indiana program at Indiana Administrative Code (IAC) 310 IAC 12-5-145 through 310 IAC 12-5-518 The proposed amendment would amend existing 310 IAC 12-5-145, 310 IAC 12-5-146, and 310 IAC 12-5-148 by revising the performance standards for restoring soil productivity. The proposed amendment would repeal 310 IAC 12-5-147. The amendment would also add a new 310 IAC 12-5-148.5 which would create specific standards for

VOL 56 ISS 124 JE 27 1991 UMI

revegetation and restoration of soil productivity on prime farmland.

The full text of the proposed program amendment submitted by Indian is available for public inspection at the addresses listed above. The Director now seeks public comment on whether the proposed amendment is no less effective than the Federal regulations. If approved, the amendment will become part of the Indiana program.

III. Public Comment Procedures

In accordance with provisions of 30 CFR 732.17(h), OSM is now seeking comment on whether the amendment proposed by Indiana satisfies the requirements of 30 CFR 732.15 for the approval of State program amendments. If the amendment is deemed adequate, it will become part of the Indiana program.

Written Comments

Written comments should be specific, pertain only to issues proposed in this rulemaking, and include explanations in support of the commenter's recommendations. Comments received after the time indicated under "DATES" or at locations other than the Indianapolis Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to comment at the public hearing should contact the person listed under "FOR FURTHER INFORMATION CONTACT" by the close of business on July 12, 1991. If no one requests an opportunity to comment at a public hearing, the hearing will not be held.

Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to comment have been heard. Persons in the audience who have not been scheduled to comment and who wish to do so will be heard following those scheduled. The hearing will end after all persons who desire to comment have been heard.

Public Meeting

If only one person requests an opportunity to comment at a hearing, a public meeting, rather than a public hearing, may be held.

Persons wishing to meet with OSM representatives to discuss the proposed amendment may request a meeting at the Indianapolis Field Office by contacting the person listed under "FOR FURTHER INFORMATION CONTACT." All such meetings will be open to the public and, if possible, notices of meetings will be posted in advance at the locations listed above under "ADDRESSES." A summary of the meeting will be included in the Administrative Record.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 91-172, RM-7726]

Radio Broadcasting Services; Cushing, TX

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission requests comments on a petition by Cavalier Broadcasting proposing the allotment of Channel 245A to Cushing, Texas, as the community's first local FM service. Channel 245A can be allotted to Cushing in compliance with the Commission's minimum distance separation requirements without the imposition of a site restriction. The coordinates for Channel 245A at Cushing are North Latitude 31-48-42 and West Longitude 94-50-30.

DATES: Comments must be filed on or before August 12, 1991, and reply comments on or before August 27, 1991.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Shaun Maher, Esq., Blair, Joyce & Silva, 1825 K Street, NW., Washington, DC 20036 (Counsel to petitioner).

FOR FURTHER INFORMATION CONTACT: Pamela Blumenthal, Mass Media Bureau (202) 632-6302.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 91-172, adopted June 13, 1991, and released June 21, 1991. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, Downtown Copy Center, (202) 452-1422, 1714 21st Street, NW., Washington, DC 20036.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contracts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

47 CFR Part 73

[MM Docket No. 89-91, RM-6659]

Radio Broadcasting Services; Billings and Lewistown, MT

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; denial of.

SUMMARY: A Notice of Proposed Rule Making was issued in response to a petition filed by Comanche Enterprises, proposing the reallotment of then vacant TV Channel 13 from Lewistown to Billings, Montana, as that community's seventh TV service. *See* 54 FR 18311, April 28, 1989. Since the release of the Notice, an application has been filed for the channel at Lewistown. It is Commission policy not to reallot a channel in which interest has been expressed, absent a sufficient reason, and we find that petitioner has failed to provide sufficient reasons. Accordingly, the proposal in this proceeding to allot Channel 13 to Billings, Montana, by deleting Channel 13 from Lewistown, Montana, is denied.

FOR FURTHER INFORMATION CONTACT: Kathleen Scheuerle, Mass Media Bureau, (202) 634-6530.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

49 CFR Part 571

[Docket No. 91-13; Notice 1]

RIN 2127-AD65

Federal Motor Vehicle Safety Standards

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: Standard No. 123, Motorcycle controls and displays, currently specifies a transverse (crosswise) or longitudinal (lengthwise) axis of rotation for manual fuel shutoff controls. This notice would continue to require that those controls rotate, but proposes to amend the standard to remove the restriction on the orientation of the axis of rotation. It would also continue to require that the control positions (on, off, and reserve) be separated by 90 degrees of rotation, but proposes to eliminate other current restrictions on the location of those control positions. This action, taken in response to a grant of a petition for rulemaking, would relieve current design restrictions which have been tentatively determined by the agency to be no longer necessary for motor vehicle safety.

DATES: Comments on this proposal must be received by NHTSA no later than August 12, 1991.

If adopted in a final rule, the amendment would take effect 30 days after publication in the Federal Register.

ADDRESSES: Comments should refer to Docket No. 91-13; Notice 1, and be submitted to: Docket Section, room 5109, NHTSA, 400 Seventh Street, SW, Washington, DC 20590. The docket section is open from 9:30 a.m. to 4 p.m. Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Jere Medlin, Crash Avoidance Division, NRM-11, room 5307, NHTSA, 400 Seventh Street SW, Washington, DC 20590 (202-366-5276).

SUPPLEMENTARY INFORMATION:

Background

Standard No. 123, Motorcycle controls and displays (49 CFR 571.123), specifies requirements for the location, operation, identification, and illumination of motorcycle controls and displays, and requirements for motorcycle stands and footrests. Table 1 of Standard No. 123 currently specifies that manual fuel shutoff controls, when provided, have the following identification and modes of operation:

"On"—Control downward; "Off"—Control forward (if control rotates around a transverse axis) or Horizontal—Left or Right (if control rotates around a longitudinal axis); "Reserve On"—(if provided) Control upward.

Thus, the standard requires that the manual fuel shutoff control rotate around a transverse or longitudinal axis.

The current specification is the result of a final rule published on September 7, 1984 (49 FR 35380). The agency determined that motor vehicle safety was best served by retaining the standardization of control position relationships while allowing the manufacturer to place the control so that it may operate in its required positions around either a longitudinal or transverse axis. Although NHTSA stated that it found merit in a comment received in response to the notice of proposed rulemaking (48 FR 40286) that favored allowing rotation around any axis, the agency declined to consider comments that went beyond the rule as proposed.

On November 14, 1990, the Motorcycle Industry Council (MIC) petitioned the

agency to amend Standard No. 123 to permit the manual fuel shutoff valve controls to rotate around any axis, provided that the relationship of the control positions (on, off, reserve) to each other remains the same as the current standard. MIC stated that the mechanical components on many of today's motorcycles are enclosed in a streamlined body. Since few parts of streamlined bodies follow the longitudinal or transverse axes of the motorcycle, MIC claimed that "special provisions" must be made in the design of the body in order to comply with the standard. This in turn severely restricts freedom of design, MIC asserted. On March 1, 1991, NHTSA granted MIC's petition. This notice is in response to the grant of that petition.

Proposed Rule

NHTSA has tentatively concluded that there is no safety-related justification for restricting the design of manual fuel shutoff controls to a longitudinal or transverse axis. Even though the axis orientation of the manual fuel shutoff control is currently standardized, there is no location requirement for the control itself, or even that the control be provided. Also, the standard does not regulate non-manual valves. Nor does it specify that there be adequate access of the hand to the control. Thus, there does not appear to be any justification for regulating manual fuel shutoff control axis orientation.

However, the agency has tentatively concluded that the requirements for standardization of the relationship between the control positions (on, off, and reserve) are a necessary crash avoidance requirement. Standardization of the control positions enables the operator to use the control without taking his or her eyes off the road.

MIC suggested that the manual fuel shutoff control have the following modes of operation: "Off" would be located midway between "On" and "Reserve"; and "On" located 180 degrees from "Reserve." Although MIC's suggestion recognizes the importance of standardization of the relative position of the control settings, its workability is premised on the existence of a "Reserve" setting. However, such a setting may not be provided since provision of that setting is not required by the standard. If there is no "Reserve" setting, MIC's suggested amendment would not adequately regulate the relative positions of the "On" and "Off" positions. Although the agency is not aware of a shutoff control which lacks a "Reserve" position, the installation of such a control is not required under the standard.

Therefore, the agency is proposing a standardized control position requirement that is not dependent upon the existence of a "Reserve" setting.

Effective Date

Because the proposed amendment relieves restrictions and is optional in nature, the agency has tentatively determined that there is good cause shown that an effective date earlier than 180 days after issuance is in the public interest, and proposes that the effective date be 30 days after publication in the Federal Register.

Rulemaking Analyses and Notices

Executive Order 12291 (Federal Regulation) and DOT Regulatory Policies and Procedures

The agency has analyzed the economic and other effects of this proposal and determined that they are neither "major" within the meaning of Executive Order 12291 nor "significant" within the meaning of the Department of Transportation regulatory policies and procedures. This proposed amendment would impose no additional requirements but would permit manufacturers greater design flexibility in locating the manual fuel shutoff control. The agency has determined that the economic effects of the proposed amendments are so minimal that a full regulatory evaluation is not required.

Regulatory Flexibility Act

In accordance with the Regulatory Flexibility Act, NHTSA has evaluated the effects of this proposed action on small entities. Based upon this evaluation, I certify that the proposed amendment would not have a significant economic impact on a substantial number of small entities. As stated above, the proposed action would allow additional design flexibility. Manufacturers of motorcycles, who would be affected by the proposed amendment, are generally not considered small businesses for the purposes of the Regulatory Flexibility Act. Further, small organizations and governmental jurisdictions would not be significantly affected since the price of new motorcycles would be minimally impacted. Accordingly, no regulatory flexibility analysis has been prepared.

Executive Order 12612 (Federalism)

This rule has been analyzed in accordance with the principles and criteria contained in Executive Order 12612. The agency has determined that the proposed rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

National Environmental Policy Act

The agency has also analyzed this rule for the purpose of the National Environmental Policy Act, and determined that it would not have any significant impact on the quality of the human environment nor would it require any increase in materials required in the manufacture of motorcycles.

Procedures for Filing Comments

Interested persons are invited to submit comments on the proposal. It is requested but not required that 10 copies be submitted.

All comments must not exceed 15 pages in length. (49 CFR 553.21). Neccasary attachments may be appended to these submissions without regard to the 15-page limit. This limitation is intended to encourage commenters to detail their primary arguments in a concise fashion.

If a commenter wishes to submit certain information under a claim of confidentiality, three copies of the complete submission, including purportedly confidential business information, should be submitted to the Chief Counsel, NHTSA, at the street address given above, and seven copies from which the purportedly confidential information has been deleted should be submitted to the Docket Section. A request for confidentiality should be accompanied by a cover letter setting forth the information specified in the agency's confidential business information regulation. 49 CFR part 512.

All comments received before the close of business on the comment closing date indicated above for the proposal will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Comments received too late for consideration in regard to the final rule will be considered as suggestions for further rulemaking action. Comments on the proposal will be available for inspection in the docket. The NHTSA will continue to file relevant information as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Those persons desiring to be notified upon receipt of their comments in the rules docket should enclose a self-addressed, stamped postcard in the envelope with their comments. Upon receiving the comments, the docket supervisor will return the postcard by mail.

List of Subjects in 49 CFR Part 571

Imports, Motor vehicle safety, Motor vehicles, Rubber and rubber products, tires.

In consideration of the foregoing, NHTSA proposes to amend 49 CFR part 571 as follows:

PART 571—[AMENDED]

1. The authority citation for part 571 would continue to read as follows:

Authority: 15 U.S.C. 1392, 1401, 1403, 1407; delegation of authority at 49 CFR 1.50.

§ 571.123 [Amended]

2. The operation requirements for the manual fuel shutoff control (item 7) in column 3 of table 1 of Standard No. 123 would be revised to read as follows:

Rotate to operate. "On" and "Off" are separated by 90 degrees of rotation. "Off" and "Reserve" (if provided) are separated by 90 degrees of rotation. Sequence order: "On"-"Off"-"Reserve".

* * * * *

Issued on: June 21, 1991.

Barry Felrice,

Associate Administrator for Rulemaking.

BILLING CODE 4910-59-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

Endangered and Threatened Wildlife and Plants; Finding on a Petition To List the Sonoran Desert Tortoise as Threatened or Endangered

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of petition finding.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces a 12-month finding on a petition to amend the List of Endangered and Threatened Wildlife and Plants. After review of all available scientific and commercial information available on the Sonoran population of the desert tortoise (*Gopherus* (=*Exerobates*) *agassizii*), the Service has determined that listing the Sonoran desert tortoise as threatened or endangered is not warranted at this time.

DATES: The finding announced in this notice was made on June 20, 1991. Comments and information should be submitted until further notice.

ADDRESSES: Information, comments, or questions should be submitted to the Field Supervisor, U.S. Fish and Wildlife Service, Ecological Services Field Office, 3616 West Thomas Road, suite 6, Phoenix, Arizona 85019. The petition, findings, supporting data, and comments are available for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Mr. Sam Spiller, Field Supervisor at the above address or telephone 602/379-4720 or FTS 261-4720.

SUPPLEMENTARY INFORMATION:

Background

On September 14, 1984, the Service received a petition to list the desert tortoise (*Gopherus agassizii*) as an endangered species throughout the remainder of its range in Arizona, California, and Nevada (the Beaver Dam Slope population of the desert tortoise in Utah was listed as threatened with critical habitat in 1980). The desert tortoise also occurs in Sonora and Sinaloa, Mexico.

A 90-day finding that the petition presented substantial information indicating that the requested action may be warranted was made on December 14, 1984, and published on April 2, 1985 (50 FR 13054). On December 5, 1985, the Service published a 12-month finding (50 FR 49863) that the petition to list the desert tortoise throughout its range was warranted, but precluded by other pending proposals of higher priority. On July 1, 1987, after review of additional data, the Service again published a finding of warranted but precluded in the Federal Register (52 FR 24485).

On May 31, 1989, substantial new information on population declines due to Upper Respiratory Disease Syndrome (URDS) was provided, and the Service was petitioned to list the desert tortoise as endangered throughout its range in the United States. As a result of the new information, the Service listed the Mojave population as endangered by emergency rule on August 4, 1989 (54 FR 32326). The Mojave population was designated in the rule as all tortoises north and west of the Colorado River (California, Nevada, the Arizona Strip, and Utah). The emergency rule provided protection under the ESA for 240 days, until April 2, 1990. The Service did not list the Sonoran population (occurring south and east of the Colorado River) under the emergency provisions of the ESA for the following reasons:

1. Historically, desert tortoises in the Sonoran population occur in numerous distinct, small groups in a distribution pattern described as patchy or disjunct and inhabiting steep-sided canyons.

2. The very patchiness of the distribution in the Sonoran population leads the Service to conclude that the URDS affecting other subpopulations will not likely reach the epidemic proportions that it has in locations like the Desert Tortoise Natural Area in California. Although a few instances of respiratory disease have been documented in the Sonoran population, it appears that respiratory disease is: (a) Usually present in tortoise populations to varying degrees, (b) has not shown any evidence of becoming pandemic, (c) has not been shown to be URDS, and (d) is currently being addressed by the Service and the Arizona Game and Fish Department (AGFD), who will continue to gather and evaluate data.

On October 13, 1989, the Service published a proposal (54 FR 42270) to list the Mojave population of the desert tortoise as an endangered species under regular listing procedures.

The reasons for not proposing the Sonoran population as endangered at that time were the same as applied at the time of the emergency listing, plus the fact that the habitat in the Sonoran Desert is less subject to disturbance than is the more level terrain occupied by tortoises in the Mojave Desert. Additionally, the proposed rule stated that a report on the results of studies undertaken on the Sonoran population in 1990 would be available in January 1991. The report would contain information needed to determine whether the Sonoran population of the desert tortoise warranted listing. All available information on distribution, abundance, and threats would be summarized. This summary would include review of published and unpublished information and preparation of maps overlaying tortoise distribution with projected land use patterns. Results of field work to determine population status and trends, with emphasis on reproduction, disease, and mortality, would be available by revisting previously sampled sites.

On April 2, 1990, the Service listed the Mojave population of the desert tortoise as a threatened species (55 FR 12178). The Service stated that it would continue to evaluate the status of the Sonoran population and, in settlement of litigation, agreed that it would determine either that a proposal to list the Sonoran population of desert tortoises as an endangered or threatened species was warranted, as provided in section 4(b)(3)(B)(ii) or the Act, 16 U.S.C. 1533(b)(e)(B)(ii), or that such action is not warranted, as

VOL

1991
UMI

provided in section 4(b)(3)(B)(i) of the Act 16 U.S.C. 1533 (b)(3)(B)(i). The October 16, 1990, petition finding stated that the Sonoran Desert population of the desert tortoise would be addressed in a later and separate administrative finding.

Information already in Service files and that obtained in 1990 have been assembled into a document entitled "Status Summary of the Desert Tortoise in the Sonoran Desert." All these best available data show neither a significant decrease in the species' range nor a decline in abundance over a significant portion of the range.

The five factors for listing prescribed by the Act were evaluated in order to make a determination in response to the petition.

A. The Present or Threatened Destruction, Modification, or Curtailment of Its Habitat or Range

As currently assessed by the AGFD, there are approximately 27,623 km² of potential tortoise habitat in the Sonoran Desert in Arizona. It is projected that approximately 10,061 km² (36 percent) of all tortoise habitat in the Sonoran Desert in Arizona may receive adverse impacts, directly or indirectly, over the next 25 years. Conversely, 64 percent of all tortoise habitat in Arizona is not expected to receive impacts at all over the next 25 years. The levels of the impacts for land uses thought to be potential threats to tortoises and/or their habitat have not been fully assessed, and may range from non-existent to exceedingly severe. The magnitude and extent of the impacts often depends upon land ownership and associated management policies, but overall, will ultimately be determined by Arizona's economic situation.

From a land ownership perspective, Federal and State land management agencies and wildlife agencies have the greatest potential for affecting Sonoran tortoise populations in Arizona. Approximately 48 percent of the Sonoran habitat occupied by tortoises in Arizona is under management jurisdiction of the Bureau of Land Management (BLM) and Forest Service (FS) which manage the majority of their lands for multiple use. These uses may include oil, gas, and mineral exploration; livestock grazing; recreation; and wildlife management. The Service and various Federal, State, and local parks and recreation-oriented agencies manage 9 percent of the habitat in the aggregate. The State of Arizona owns 16 percent of the occupied habitat, and another 12 percent is in private ownership. Both State and private lands are, for the most part, managed for economic benefit. Indian reservations and the military manage 16 percent of the tortoise habitat. There are currently no data by which to determine the quality of habitat or density of tortoise populations managed by each entity.

Although most Federal agencies are currently managing the desert tortoise as a candidate category 2 species, the BLM, National Park Service (NPS), and the Service have specific management policies that provide increased levels of protection for the desert tortoise. The BLM, which manages approximatley 41 percent of the desert tortoise habitat in Arizona, is operating under the "Desert Tortoise Habitat Management on Public Lands: A Range-wide Plan" and the "Strategy for Desert Tortoise Habitat Management on Public Lands in Arizona." These documents provide objectives and management actions for the conservation of desert tortoises on BLM lands.The Service and NPS have management policies for the preservation and protection of natural ecosystems. Additionally, in November of 1990, Congress passed the Arizona Desert Wilderness Act (Act) of 1990. On BLM land, the Act designates 30 wilderness areas containing approximately 2,805 km² of desert tortoise habitat. The act also provides for approximately 1,435 km² of Wilderness containing desert tortoise habitat on four National Wildlife Refuges in Arizona.

From a historical perspective, of over 200 townships reviewed by AGFD, there were only four townships in Arizona where Sonoran tortoise occurrence has not been re-confirmed since 1965. These data indicate that the overall range of the tortoise in Arizona has not been reduced in recent times. However, some populations within the range in metropolitan areas have been severely affected or perhaps eliminated. It appears that the tortoise currently occupies virtually all potential habitat in Arizona.

Desert tortoise populations in the Sonoran Desert occupy discrete mountain ranges. Valleys between these mountains are and have been historically unoccupied by desert tortoises, except for dispersal and movement among preferred habitats. As the human population of Arizona has expanded, the tortoise populations within the mountain ranges may have become further isolated due to agriculture, urbanization, construction of roadways, utility corridors, canals, grazing, and off-highway vehicle activity. These activities have resulted in local changes to vegetative communities, especially the reduction in diversity and cover of shrubs and perennial grasses. These changes have created openings and barren areas in some desert landscapes and may have degraded the quality of habitat for dispersing tortoises in some areas. The effects on dispersal have not been examined.

The impacts of off-highway vehicles (OHV's) on tortoises are well established for the Mojave Desert. In the Mojave Desert, OHV's compact the soil, crush tortoises, crush dens and pallets, and reduce plant abundance, cover, and productivity. Although some OHV traffic occurs year-round in desert tortoise habitat in Arizona, no quantifiable data exist on amount of impact caused by OHV's. Most OHV use occurs in more navigable areas, away from the best tortoise habitat. Sonoran habitats, especially upland shelter sites, are generally less subject to compaction because they are rocky. However, OHV use may affect desert washes where tortoise travel routes often occur and tortoise burrows occasionally are found. Very little OHV impact to tortoises or their habitat occurs in Mexico.

The impacts of livestock grazing to Sonoran tortoises are not well known but seem to be different than those that have been documented in the Mojave Desert. In general, the sites most heavily grazed by livestock in Arizona (i.e., flatlands) do not have tortoise populations and livestock rarely extend up the rocky slopes preferred by Sonoran Tortoises. In the Mojave population, which occurs on more level ground, there has been considerable concern about grazer/tortoise interaction and/or competition. It is unknown whether tortoises and livestock compete for forage or have simple dietary overlaps.

Mexico contains about a third of the desert tortoise's total range and perhaps more than 50 percent of the Sonoran population's range. It appears that potential threats to the tortoise in Mexico may be less severe than in the U.S. due to economics: Slower urban growth and the lack of potable water throughout much of the Sonoran Desert reduces the human-related impacts from development and proximity to habitation. Other Mexican impacts of unknown magnitude to tortoise populations occur from illegal take for pets, consumption, etc., and from habitat alterations due to livestock grazing, including the introduction and propagation of non-native grasses such as buffle grass (*Cenchrus* sp.).

Although there are no data to support or refute any inferences of the relative security of desert tortoise populations in Mexico, a major threat from urban growth is not immediate. Some of the highest densities of tortoise known in the Sonoran Desert occur on Isla Tiburòn in the Sea of Cortez. This island is now protected as a preserve by the Mexican government.

B. Overutilization for Commercial, Recreational, Scientific, or Educational Purposes

It is currently estimated that over 100,000 tortoises exist in captivity in the Sonoran and Mojave deserts. Existing tortoise adoption programs, which distribute surplus backyard tortoises and those brought in from permanent habitat modification projects, probably meet most of the demand for pets and for scientific and educational purposes.

Commercial use of tortoises does not appear to be widespread in Arizona, probably because pet store owners are more aware of the pertinent State laws than is the general public. AGFD investigations of the black market pet trade over the past several years have revealed very little tortoise activity.

Human predation of desert tortoises occurred historically and still continues today in some areas. In Mexico, consumption of tortoise appears to be a threat to some tortoise populations. Not only do isolated ranches hunt tortoises for inexpensive meat, but there are reports of tortoise hunters, "tortugueros", who seek out populations and hunt them until they are depleted. Although consumption of tortoises appears to be a more-or-less common practice in rural Mexico, it most likely occurs only in isolated events in the United States.

C. Disease or Predation

URDS is the principal disease threat to Mojave tortoises, where it has reached epidemic proportions in some populations. Although URDS-like signs have been diagnosed from several Arizona localities, there are no veterinary diagnoses which confirm this syndrome in Arizona. The only population of tortoises exhibiting a suite of characteristic signs occurs in the Black Mountains near Bullhead City. Signs of a respiratory disease have been observed in localities near Tucson and in the San Pedro River Valley. There have been no precipitous population declines from URDS in the Sonoran population, as were documented in Mojave populations.

D. The Inadequacy of Existing Regulatory Mechanisms

The State of Arizona currently has no specific law for the protection of endangered species or their habitat and no State environmental policy legislation. The AGFD includes the desert tortoise on its list of Threatened Native Wildlife in Arizona (1988), as a candidate for State endangered or threatened status. This designation has no regulatory mandate vested in law. However, on January 1, 1988, the Arizona Game and Fish Commission prohibited the take of desert tortoises from the wild. The Commission also prohibits the sale of tortoises and the export of tortoises from the State.

Illegal vandalistic shooting and intentional killing of tortoises have been documented in Arizona. The impact of these activities is unknown, but is probably greater to populations near urban centers.

Because state laws do not apply on Indian reservations, prohibition of take can only be enforced through the Lacey Act when a tortoise is taken across reservation boundaries. The Lacey Act also regulates the transport of tortoises across state lines. *Gopherus* spp. are listed in appendix II of the Convention on International Trade in Endangered Species (CITES), which requires a Federal export permit when taking a tortoise out of the United States. Because Mexico has not signed CITES, no CITES export permit is required to transport a tortoise from Mexico to the United States, but a Mexican export permit from the Secretaria de Desarrollo Urbano y Ecologia (SEDUE) is required.

For purposes of regulating commerce and taking of federally listed species, tortoises from the Sonoran Desert found outside their natural range in Arizona (south and east of the Colorado River) and Mexico are considered a threatened species due to similarity of appearance to Mojave tortoises.

In Mexico, the desert tortoise is categorized as endangered in its natural environment. As of August 2, 1985, SEDUE prohibited the take of tortoises from the wild. Regulations state that it is unlawful to hunt, capture, possess, harass, transport, sell, or purchase specimens of or goods made from the desert tortoise. A special permit is required from SEDUE to capture or export the desert tortoise.

E. Other Natural or Manmade Factors Affecting Its Continued Existence

No such factors have been documented or recognized at this time.

After review of all available scientific and commercial information available on the Sonoran population of the desert tortoise, the Service has determined that listing the Sonoran desert tortoise as threatened or endangered is not warranted at this time. This decision is based on scientific information contained in the petition and otherwise available to the Service at the time the 12-month finding was made.

Author

The primary author of this notice is Dr. Richard A. Byles, Endangered Species Division, Fish and Wildlife Enhancement, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103–1306 (505/766–3972 or FTS 474–3972).

Authority

The authority for this action is the Endangered Species Act (16 U.S.C. 1531–1543); unless otherwise noted.

DEPARTMENT OF AGRICULTURE

Forms Under Review by Office of Management and Budget

June 21, 1991.

The Department of Agriculture has submitted to OMB for review the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35) since the last list was published. This list is grouped into new proposals, revisions, extensions, or reinstatements. Each entry contains the following information:

(1) Agency proposing the information collection; (2) Title of the information collection; (3) Form number(s), if applicable; (4) How often the information is requested; (5) Who will be required or asked to report; (6) An estimate of the number of responses; (7) An estimate of the total number of hours needed to provide the information; (8) Name and telephone number of the agency contact person.

Questions about the items in the listing should be directed to the agency person named at the end of each entry. Copies of the proposed forms and supporting documents may be obtained from: Department Clearance Officer, USDA, OIRM, room 404–W Admin. Bldg., Washington, DC 20250, (202) 447–2118.

Forest Service

Tolan Creek Timber Sale; Bitterroot National Forest, Ravalli County, MT; Intent To Prepare an Environmental Impact Statement

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The notice is hereby given that the Forest Service is gathering information in order to prepare an Environmental Impact Statement (EIS) for a proposal to harvest timber in the Tolan Creek drainage. The drainage is located approximately 35 air miles southwest of Hamilton, Montana, on the Sula Ranger District, Bitterroot National Forest, Ravalli County, Montana, in T1N and T1S, R18W, Principal Meridian Montana.

DATES: A public open house will be held in Hamilton, Montana, on July 25, 1991, and a public field review will give interested individuals an opportunity to visit the Tolan Creek area with Forest Service personnel on July 27, 1991. The meeting dates will be announced in local newspapers and through individual contact with interested local publics. Written comments concerning the scope of the analysis must be received on or before August 12, 1991.

ADDRESSES: Send written comments and suggestions to District Ranger, Sula Ranger District, Sula, Montana 59871.

FOR FURTHER INFORMATION CONTACT: Questions about the proposed action and EIS should be directed to Stuart Lovejoy, Resource Coordinator, Sula Ranger District, Phone: (406) 821–3201.

SUPPLEMENTARY INFORMATION: These management activities would be administered by the Sula Ranger District of the Bitterroot National Forest in Ravalli County, Montana. This EIS will tier to the Bitterroot National Forest Plan of September 1987 (Forest Plan) which provides the overall guidance (goals, objectives, standards and guidelines, and management area direction) in achieving the desired future condition for all areas of the Bitterroot National Forest. The purpose and goals for the proposed action are:

(1) To maintain or improve forest health, diversity and the future productive potential of the Tolan Creek area.

(2) To reduce the potential for mountain pine beetle infestation and large stand-replacement fires in the Tolan Creek drainage.

(3) To maintain or improve habitat and security for elk.

(4) To supply raw materials to the local timber market.

The process in preparing the Draft EIS will include:

1. Identification of potential issues.
2. Identification of issues to be analyzed in depth.
3. Elimination of insignificant issues or those which have been covered by a relevant previous environmental analysis.
4. Identification of reasonable alternatives.
5. Identification of potential environmental effects of the alternatives.
6. Determination of potential cooperating agencies and task assignments.

The agency invites written comments and suggestions on the issues and management opportunities in the area being analyzed. For most effective use, comments should be sent to the agency within 45 days from the date of this publication in the **Federal Register**. A public meeting will be held in Hamilton, Montana on July 25, 1991, to obtain public input and provide additional information concerning planned management activities. On July 27, 1991, a public field review will give interested individuals an opportunity to visit the Tolan Creek drainage with Forest Service Personnel and to discuss proposed management activities.

The Forest Plan provides the overall guidance for management activities within the potentially affected area through its goals, objectives, standards and guidelines, and management area direction. The potentially affected area is composed of the following management areas:

Management Area 1: Consists of lands designated for timber and forage production. The management goal is to emphasize timber management, livestock and big-game forage production and assure a minimum level of visual quality, old growth, and habitat for other wildlife species. Extensive vegetation manipulation with associated new road construction may occur in this management area within guidelines provided by the Bitterroot Forest Plan.

Management Area 2: Consists of lands designated primarily for winter range habitat for elk. The goal is to optimize winter range habitat using timber and other vegetation management practices while providing moderate levels of visual quality, old-growth habitat for other wildlife species, and livestock forage. Vegetation manipulation and road construction may occur within guidelines set by wildlife objectives.

Management Area 3a: Consists of lands designated primarily for management of visual quality. The goal is to maintain the partial retention visual quality objective and manage timber. Roaded dispersed recreation activities, old growth, and big-game cover are emphasized. Vegetation manipulation with associated road construction may occur provided activities are subordinate to the natural landscape.

Management Area 3b: Consists of lands designated primarily for fisheries riparian area management. The goal is to manage riparian areas to maintain flora, fauna, water quality and water-related recreation activities.

Emphasis is placed upon water and soil protection, dispersed recreation use, visual quality, and old growth. Only limited vegetation manipulation may occur in this management area.

Management Area 8a: Includes lands designated to be managed at minimum level for elk security, old growth, and habitat diversity. Existing uses and facilities are to be maintained.

A range of alternatives will be considered. One of these will be the "no-action" alternative, in which all management activities would be deferred. Other alternatives will examine vegetation and woody fuel manipulation using various methods and intensities to meet resources objectives. Some alternatives may consider road construction as a means to facilitate management activities and accomplish resource objectives.

The Forest Service will analyze and document the direct, indirect, and cumulative environmental effects of the alternatives. This will include an analysis of the effects of alternatives on the roadless character of the area affected. In addition, this EIS will disclose the analysis of site specific mitigation measures and their effectiveness.

Public participation will be important during this analysis. People may visit with Forest Service officials at any time during the analysis period and prior to the decision; however, two periods of time are identified for the receipt of comments on the analysis. The two public comment periods are during the scoping process and during the Draft EIS review period (approximately February or March, 1992).

During the scoping process, the Forest Service is seeking information and comments from Federal, State and local agencies, Indian tribes, and other organizations or individuals interested in or affected by the proposed action.

The draft environmental impact statement (DEIS) is expected to be available for public review in February or March, 1992. After a 45-day public comment period, the comments received will be analyzed and considered by the Forest Service while preparing the final environmental impact statement (FEIS). The FEIS is scheduled to be completed by June, 1992. In the FEIS, the Forest Service will respond to the comments received. The District Ranger of the Sula Ranger District, Bitterroot National Forest, is the responsible official for this EIS and will consider the comments and responses, environmental consequences discussed in the FEIS, and applicable laws, regulations, and policies when making a decision regarding this proposal. The decision, and reasons for the decision, will be documented in the Record of Decision.

The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes it is important to give reviewers notice at this early stage of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact

VOL
56
ISS

27
1991
UMI

statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. (*Vermont Yankee Nuclear Power Corp.* v. *NRDC*, 435 U.S. 519, 553 (1978).) Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. (*Wisconsin Heritages, Inc.* v. *Harris*, 490 F. Supp. 1334 (E.D. Wis. 1980).) Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement. To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statment or the merits of the alternatives formulated and discussed in the statement. (Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.)

The responsible official is David M. Campbell, District Ranger of the Sula Ranger District, Bitterroot National Forest.

Dated: June 3, 1991.

David M. Campbell,

District Ranger, Sula Ranger District, Bitterroot National Forest.

BILLING CODE 3410-11-M

Oil and Gas Leasing; Carbon, Park, Stillwater, and Sweet Grass Counties, MT; Intent To Prepare an Environmental Impact Statement

AGENCY: Forest Service, USDA.

ACTION: Notice; intent to prepare environmental impact statement.

SUMMARY: The USDA, Forest Service, will prepare an environmental impact statement (EIS) to disclose the environmental effects of oil and gas leasing and subsequent reasonably foreseeable exploration, development, and production. The USDI—Bureau of Land Management will cooperatively participate in the preparation of this document. The lands involved include portions of the Beartooth Ranger District, Custer National Forest.

The Custer National Forest Land and Resources Management Plan and Record of Decision (1987) identified lands on the Forest that are administratively available for oil and gas leasing. This EIS, consistent with the Federal Onshore Oil and Gas Leasing Reform Act of 1987, will reaffirm the administratively available decision, identify specific lands the BLM may offer for lease, and develop site-specific lease stipulations designated to reduce impacts to surface resource values. This analysis will evaluate reasonably foreseeable impacts of post-leasing effects. The analysis will tier from the Forest Plan EIS.

DATES: Public meetings will be held to identify issues to be addressed in this analysis. Meetings are planned in Columbus (July 9), Red Lodge (July 10), and Billings, Montana (July 11). Locations will be announced in local newspapers and in scoping documents sent to those on mailing list.

Written comments concerning the scope of the analysis must be received on or before August 26, 1991 or as listed in information mailed to the public.

ADDRESSES: Written comments concerning the analysis should be sent to Curtis W. Bates, Forest Supervisor, Custer National Forest, PO Box 2556, Billings, Montana 59103.

FOR FURTHER INFORMATION CONTACT: Questions about the proposed action and EIS should be directed to David Hatfield, Interdisciplinary Team Leader, Beartooth Ranger District. Phone (406) 446-2103

SUPPLEMENTARY INFORMATION:

Purpose and Objectives

This analysis will address oil and gas leasing and the site specific application of lease stipulations on the entire Beartooth Ranger District except for the Pryor Mountains and the Absaroka-Beartooth Wilderness. The decision to be made is whether or not to issue oil and gas leases, and if so, what stipulations are necessary to reduce impacts to surface resource values.

The Bureau of Land Management is responsible for the actual issuance of these leases, but the Forest Service, as the suface management agency must "consent to" the issuance of a lease on Acquired lands under the Mineral Leasing Act of 1947, or "not object to" leasing of Public Domain lands under the Federal Onshore Oil and Gas Leasing Reform Act of 1987. The decision "to consent or not object to" leasing can be conditioned by requiring stipulations attached to the leases.

Analysis Area

The study area will include approximately 183,000 non-wilderness acres reaching from the Wyoming border to the boundary with the Gallatin National Forest north and west of the Meyers Creek Guard Station. Approximately 46,000 acres are currently leased within the study area.

Lands involved in this analysis include portions of the following Townships: T3S—R14–15E; T4S—R14–15E; T5S—R13–16E; T6S—R15–18E; T7S—R15–20E; T8S—R14–15E & R18–20E; T9S—R14–20E.

Forest Plan Standards

The environmental impact statement (EIS) will address the environmental effects of leasing in the various management areas defined by the Custer National Forest Land and Resource Management Plan that was approved June 19, 1987. The scope of the EIS will be confined to issues of oil and gas leasing and will not address the land allocations that were made in the Forest Plan.

Management Areas within the study area include portions of B,C,D,E,F,G,H,M,P,R, and T. Generalized management goals for each management area are as follows:

MA B—To provide for continuation of livestock grazing, implementation of intensive range management systems and the facilitation of minerals and energy development with consideration of other resource needs. In areas not considered key for wildlife, adverse impacts to the wildlife habitat will be mitigated where feasible, but not to the exclusion of range and mineral/energy management and development activities. In key wildlife areas, the habitat may not be adversely impacted from development activities.

MA C—Manage key wildlife habitat areas for the optimum quality and diversity that the land can offer. Other resource activities will be modified to maintain or improve the existing habitat. Key areas for the Beartooth District include the Line Creek Plateau, Meyers Creek, Swamp Creek, and Picket Pin for elk; Palisades for moose; Stillwater for big horn sheep; and Slough Creek for grizzly bear.

MA D—Maintain or improve long-term diversity and quality of habitat for elk, bighorn sheep, black bear, and moose as well as accommodate oil and gas operations, livestock grazing, and timber harvest.

MA E—Encourage and facilitate the exploration, development, and production of mineral and energy resources. Other resources will be considered and impacts will be mitigated to the extent possible through standard operating procedures, and, on a limited basis, through special lease stipulations necessary to manage key surface resources. Energy/mineral development will not be precluded by these resource concerns within legal constraints.

MA F—Provide a spectrum of recreation opportunities and settings in and around developed sites and the access corridors to the sites in the categories of semiprimitive motorized, semiprimitive non-motorized, and roaded natural appearing and rural.

MA G—Manage these areas for the maintenance and improvement of a healthy diverse forest and as a source of wood products for dependent local markets. Silvicultural systems will consider other resource needs such as wildlife habitat, visual impacts, and livestock management.

MA H—Retain the wilderness characteristics of these areas until a Congressional decision is made regarding wilderness classification.

MA M—Protect from conflicting uses in order to provide healthy, self-perpetuating plant and water communities that will have optimum diversity and density of understory and overstory vegetation in riparian areas.

MA P—Provide adequate facilities for forest administration.

MA R—Protect and maintain high quality water for public domestic use.

MA T—Provide facilities, information, and interpretation to Forest visitors regarding the human and natural history of the landscape seen from the Beartooth highway.

Decisions based on this analysis will not address possible future site-specific proposals for exploration or development of the oil and gas resources. When such a proposal is submitted that involves surface disturbance, a separate NEPA analysis will be conducted.

Public Participation, Issues, and Alternatives

Federal, state, and local agencies, potential developers, and other individuals or organizations interested in or affected by the decision are invited to participate in the scoping process. Input to identify issues to be addressed in this analysis will be gathered from the public through mailing of scoping information to all known interested publics and through public meetings.

Based on comments made by the public on past proposals or actions the following list of preliminary issues to be addressed has been identified. This list will be verified, expanded, or modified based on input from the public.

1. The effects of leasing and subsequent actions on critical terrestrial habitat of plants and animals.
2. The effects of leasing and subsequent actions on local and regional economies and social frameworks.
3. The effect of leasing and subsequent actions on the quality of the scenic and natural setting.
4. The effect of leasing and subsequent actions on water quality and aquatic habitat.

Alternatives to be considered in this analysis will depend on the comments received during scoping, but the following have been identified as preliminary alternatives:

(1) No Action (no leasing at this time).

(2) Issue leases with stipulations identified as standards and guidelines in the Forest Plan.

(3) Issue leases with standard lease terms (no additional stipulations).

Release of Draft and Final EIS

The draft environmental impact statement (DEIS) is scheduled for release to the public for comment on or about April 30, 1992 and the final EIS filed on or about December 1, 1992. The comment period on the draft environment impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register.**

The Forest Service believes it is important to give reviewers notice at this early stage of several court rulings related to public participation in the environmental review process. First, reviewers draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power* v. *NRDC, 435 U.S. 519, 553 (1978).* Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final enviromental impact statement may be waived or dismissed by the courts. *Wisconsin Heritages, Inc.* v. *Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objection are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering tentative issues and proposed alternatives it is helpful if comments are as specific as possible. (Reviewers may wish to Refer to the Council on Enviornmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points).

The responsible official for this EIS and decision is John W. Mumma, Regional Forester, USDA Forest Service, 200 East Broadway, P.O. Box 7669, Missoula, Montana 59807.

Dated: June 6, 1991.

John W. Mumma,

Regional Forester.

[FR Doc. 91-15338 Filed 6-26-91; 8:45 am]

BILLING CODE 3410-11-M

Oil and Gas Leasing; Custer National Forest; Little Missouri National Grasslands: Billings, Golden Valley and Slope Counties, ND; Cedar River National Grasslands: Sioux and Grant Counties, ND; Grand River National Grasslands: Corson and Perkins Counties, SD; Custer National Forest: Hardin County, SD; Intent To Prepare an Environmental Impact Statement

AGENCY: Forest Service, USDA.

ACTION: Notice; intent to prepare environmental statement.

SUMMARY: The USDA, Forest Service, will prepare an environmental impact statement (EIS) to disclose the environmental effects of oil and gas leasing and reasonably foreseeable actions resulting from subsequent exploration and development, as well as interconnected actions on a portion of the Little Missouri National Grassland, involving the Medora Ranger District; the Cedar River and Grand River National Grasslands involving the Grand River Ranger District; and a portion of the Sioux Ranger District, Custer National Forest. The USDI—Bureau of Land Management will cooperatively participate in the preparation of this document.

The Custer National Forest Management Plan and Record of Decision (1987) identified which lands on the Forest are available for oil and gas leasing. This EIS, consistent with the Federal Onshore Oil and Gas Leasing Reform Act of 1987, will reaffirm the administratively available decision,

VOL 56 ISS 124 JE 27 1991 UMI

identify specific lands the BLM may offer for lease, and develop site-specific lease stipulations designed to reduce impacts to surface resource values. This analysis will evaluate reasonably foreseeable impacts of post-leasing activity. The analysis will tier to the Forest Plan EIS.

DATES: Comments concerning the scoping to identify issues should be received in writing by July 31, 1991.

ADDRESSES: Written comments concerning the analysis should be sent to Curtis W. Bates, Forest Supervisor, Custer National Forest, P.O. Box 2556, Billings, Montana 59103.

FOR FURTHER INFORMATION CONTACT: Margaret Walker, EIS Team Leader, Custer National Forest, Phone (701) 225-5151.

SUPPLEMENTARY INFORMATION: This analysis will address oil and gas leasing and the site specific application of lease stipulations in the following areas:

1. Medora Ranger District—Those lands in North Dakota lying between and including T133N and a portion of T139N, and R99W and R106W, 5th PM. The northern boundary of the analysis area is a line two miles north of the line between T138N and T139N. Land within the analysis area totals approximately 704,000 acres. Forest Service owns approximately 275,000 acres within the analysis area and approximately 93,000 acres are leased.

2. *Grand River Ranger District*—Those lands in North Dakota lying between and including T129N and T130N, and R94W and R90W, 5th PM; and those lands in South Dakota lying between and including T17N and T23N, and R11E and R16E, Black Hills Meridian. Land within the analysis area totals approximately 472,737 acres. Forest Service owns approximately 155,000 acres within the analysis area and approximately 30,000 acres are leased.

3. *Sioux Ranger District.*—Those lands in South Dakota lying between and including T16N and T22N, and R4E and R9E, Black Hills Meridian. The area does not include the East and West Short Pine Hills. Land within the analysis area totals approximately 70,794 acres. Forest Service owns approximately 60,000 acres within the analysis area and approximately 42,000 acres are currently leased.

The area to be included in this analysis is located in the southern portion of the Williston Basin. The environmental impact statement (EIS) will address the environmental effects of leasing in the various management areas defined in the Custer National Forest Land and Resource Management Plan that was approved June 19, 1987. The scope of the EIS will be confined to those issues of oil and gas leasing and will not address the land allocations that were made in the Forest Plan.

The decision to be made is whether or not to issue oil and gas leases, and if so, what stipulations are necessary to protect other resource values. The Bureau of Land Management is responsible for the actual issuance of these leases, but the Forest Service, as the surface management agency must consent to the issuance of a lease on Acquired lands under the Mineral Leasing Act of 1947, or not object to leasing of Public Domain lands under the Federal Onshore Oil and Gas Leasing Reform Act of 1987. This consent or no objection can be conditioned by requiring certain stipulations to be attached to the leases.

This analysis will address oil and gas leasing in the following Management Areas (MA) as described in the Custer Forest Plan:

MA B—The goal of this management area is to provide for the continuation of livestock grazing, implementation of intensive range management systems, and the facilitation of minerals and energy development with consideration of other resource needs.

MA C—The goal of this management area is to manage key wildlife habitat areas for the optimum quality and diversity that the land can offer. Other resource activities will be modified to maintain or improve the existing habitat.

MA D—The goal is to maintain or improve the long-term diversity and quality of habitat for the selected species identified by Ranger District as well as accommodating other resource management activities such as timber harvest, livestock grazing, and oil and gas development.

MA E—The goal is to facilitate and encourage the exploration, development, and production of energy and mineral resources from the National Forest System lands.

MA F—The goal of the management area is to provide a spectrum of recreation opportunities and settings in and around developed sites and the access corridors to the sites in the categories of Semi-primitive Non-motorized/Motorized, Roaded Natural Appearing, and Rural.

MA L—The goal is to provide an opportunity for research, study, observation, and monitoring of natural-occurring ecological processes.

MA M—The goal of this management area is to manage to protect from conflicting uses in order to provide healthy, self-perpetuating plant and water communities that will have optimum diversity and density of understory vegetation.

MA N—The goal is to provide healthy, self-perpetuating plant communities that will have optimum diversity and density of understory and overstory vegetation.

MA O—The goal is to protect the unique geological and scenic features of the National Natural Landmarks and provide a recreation opportunity.

MA P—The goal is to provide adequate facilities for the administration of the Custer National Forest.

Federal, state, and local agencies, potential developers, and other individuals or organizations who may be interested in or affected by the decision are invited to participate in the scoping process. Input to identify the issues to be addressed in the conducting of this analysis will be gathered from the public through mailing of scoping information to all known interested publics. Similar information will be distributed through the local media. No public meetings are scheduled at this time.

Based on comments made by the public on past proposals or actions the following list of preliminary issues to be addressed has been identified. This list will be verified, expanded, or modified based on public scoping for this proposal.

1. The effects of leasing and subsequent actions on wildlife and wildlife habitat.

2. The effects of leasing and subsequent actions on woody draws, woodlands, and riparian areas.

3. The effect of leasing and subsequent actions on the integrity of Native American cultural and traditional sites.

Alternatives to be considered in this analysis will depend on the comments received during scoping, but the following have been identified as preliminary alternatives: (1) No Action (no leasing at this time), (2) Issue leases with the stipulations identified as standards and guidelines in the Custer Forest Plan, and (3) Issue leases with standard lease terms (no additional stipulations).

The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes it is important to give reviewers notice at this early stage of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp.* v. *NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *Wisconsin Heritages, Inc.* v. *Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by providing substantive comments at this time so they can meaningfully consider them and respond to them in developing issues and alternatives.

To assist the Forest Service in identifying and considering issues on the proposed action, comments should be as specific as possible. (Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.).

The draft environmental impact statement is scheduled for release to the public for comment on or about April 30, 1992 and the final statement being filed by December 20, 1992.

The responsible official for this EIS and these decisions is John W. Mumma, Regional Forester, USDA Forest Service, 200 East Broadway, P.O. Box 7669, Missoula, Montana 59807.

Dated: June 6, 1991.

John W. Mumma,

Regional Forester.

[FR Doc. 91-15337 Filed 6-26-91; 8:45 am]

BILLING CODE 3410-11-M

Devils Canyon Timber Sale; Tahoe National Forest; Nevada County, CA; Intent To Prepare an Environmental Impact Statement

AGENCY: Forest Service, USDA.

ACTION: Notice; intent to prepare environmental impact statement.

SUMMARY: Notice is hereby given that the Forest Service will prepare an environmental impact statement (EIS) on a proposal to harvest timber on the Nevada City Ranger District of the Tahoe National Forest.

The Proposed Action is to harvest 399 acres in the Devils Canyon Compartment in fiscal year 1992. Harvest would be a combination of sanitation, seed tree and clearcut, using tractor, skyline and helicopter methods. Possible alternatives include; to do nothing, to manage Devils Canyon drainage as a wildlife corridor by deferring harvest on 129 of the 399 total acres; to manage the Devils Canyon and Poorman Creek drainages as a wildlife corridor and California spotted owl habitat by deferring harvest on 253 of the 399 total acres, to minimize harvest impacts by changing harvest type to sanitation on the 399 acres; and to harvest on 399 acres using tractor and skyline systems.

Public comment and internal scoping over the past year and a half have identified the following as the major issues concerning the Devils Canyon drainage: ancient forest values, corridor for furbearing mammals, furbearer habitat, and spotted owl habitat.

The agency gives notice of the full environmental analysis and decision making process that will occur on the Proposed Action so that interested and affected people, along with local, State and other Federal agencies, are aware of how they may participate and contribute to the final decision. The Tahoe National Forest invites written input concerning issues specific to the Proposed Action.

DATES: Input concerning issues with the Proposed Action must be received by Friday, August 2, 1991.

ADDRESSES: Direct written input and questions about the Proposed Action and Environmental Impact Statement to the District Ranger, Nevada City Ranger District, Tahoe National Forest, P.O. Box 6003, Nevada City, CA 95959-6003.

FOR FURTHER INFORMATION CONTACT: Ruth Norman, Project Leader, Nevada City Ranger District, Tahoe National Forest, P.O. Box 6003, Nevada City, CA 95959-6003, telephone (916) 265-4531.

SUPPLEMENTARY INFORMATION: The proposed action is derived from a 1984 environmental assessment (EA), decision notice (DN) and updates (1989 and 1990).

The EIS will tier to the Tahoe National Forest Lands and Resource Management Plan and Forest Plan EIS. The purpose of the Proposed Action is to improve vigor of trees, maintain old-forest structure where important for visual quality and wildlife habitat (travel corridor), help satisfy short-term demands for timber, and increase the ability to control wildland fire.

Public participation for a supplement to the 1984 EA was first solicited in early 1990 and again in 1991. Letters were sent to individuals, organizations, and government agencies. A public field trip and workshop were held in April and May of 1991, at Devils Canyon and Nevada City Ranger District, respectively.

Considerable interest has been shown in retaining the Devils Canyon drainage as an old-growth corridor for wildlife, especially furbearing mammals.

Consultation with the U.S. Fish and Wildlife Service will be initiated with regard to listed species. Letters will be sent to those who received previous mailings. No public meetings are presently scheduled.

The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the Federal Register.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of a draft EIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp.* v. *NRDC*, 435 U.S. 519, 553 (9178). Also, environmental objections that could be raised at the draft EIS stage but that are not raised until after completion of the final EIS may be waived or dismissed by the courts. *City of Angoon* v. *Hodel*, 803 F.2d 1016, 1022 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period on the draft EIS so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS.

To assist the Forest Service in identifying and considering issues and concerns on the Proposed Action, comments on the draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft EIS or the merits of the alternatives formulated and discussed in the statement. (Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.)

A draft EIS is expected to be available for agency and public review by October 1991. A final EIS is expected to be completed by March 1992 and documented by a Record of Decision.

The responsible official for this EIS and decision is John H. Skinner, Forest

VOL 56 ISS 124 JE 27 1991 UMI

Supervisor, Tahoe National Forest, P.O. Box 6003, Nevada City, CA 95959–6003.

Dated: June 19, 1991.

John H. Skinner,

Forest Supervisor.

[FR Doc. 91–15302 Filed 6–26–91; 8:45 am]

BILLING CODE 3410–11–M

Supplement to the Final Environmental Impact Statement for the Land and Resource Management Plan, Tahoe National Forest, Within Nevada, Placer, Plumas, Sierra, and Yuba Counties, CA; Intent To Prepare an Environmental Impact Statement

AGENCY: Forest Service, USDA.

ACTION: Notice of Intent to prepare a supplement to an environmental impact statement.

SUMMARY: The Forest Service will prepare a Supplement to the Final Environmental Impact Statement (FEIS) for the Land and Resource Management Plan (LRMP) for the Tahoe National Forest (TNF) approved June 14, 1990. The supplement will disclose the effects of implementing the direction in the LRMP to develop a program for managing old growth, riparian, and old-forest habitats. This direction is found in several places including the Record of Decision, LRMP Forestwide Standard 23 (Endangered, Threatened, and Sensitive Species Management, pages V–27, and V–28), Forestwide Standard 25 (Diversity, pages V–28 and V–29), and Appendix D (pages D–2 and D–3). Management will be designed to provide suitable habitat for individual species such as pine marten, fisher, and Sierra Nevada red fox as well as the species groups associated with riparian and late seral stage habitats. The Forest Service invites specific written comments and suggestions on the scope of the proposed analysis. In addition, this notice includes an overview of the full environmental analysis and decision-making process that will occur on the proposal so that interested and affected people are aware of how they may participate and contribute to the final decision.

DATES: Specific comments concerning the scope of the analysis should be sumitted by August 30, 1991.

ADDRESSES: Submit written comments and suggestions concerning the scope of the analysis to John H. Skinner, Forest Supervisor, Tahoe National Forest, 631 Coyote Street, P.O. Box 6003, Nevada City, California 95959–6003.

FOR FURTHER INFORMATION CONTACT: Direct questions about the proposed action and Environmental Impact Statement to Terry Randolph, Forest Planner, or Bill Baker, Environmental Coordinator, Tahoe National Forest, 631 Coyote Street, P.O. Box 6003, Nevada City, California 95959–6003, phone 916–265–4531.

SUPPLEMENTARY INFORMATION: The LRMP includes direction for developing programs for management of old growth and old-forest habitats. This direction is found in several places including the Record of Decision, LRMP Forestwide Standard 23 (Endangered, Threatened, and Sensitive Species Management, pages V–27 and V–28), Forestwide Standard 25 (Diversity, pages V–28 and V–29), and Appendix D (pages D–2 and D–3). The TNF is initiating this supplement as a continuation of our normal planning process; our schedule is to complete the supplement and amend the LRMP over the next 24 months.

The Issue

The issue of protecting or maintaining "old growth" has commonly represented by various wildlife species including the spotted owl and, specifically, furbearers on the TNF. There is a difference between classically defined "old growth"and habitat requirements for species living or using older forests. Usually, the animals are using and thriving in older forests that may or may not have all the attributes usually associated with true old-growth forests.

Definitions of old growth generally describe these areas as consisting of old trees (200 years and older), little evidence of human activity, more that one three-canopy level, down logs, big trees, and snags.

Much of the Tahoe National Forest was logged during the mining era, about 1850 to 1910, which has resulted in much of the Tahoe supporting thrifty stands of relatively young (80- to 130-year-old) trees. These same stands, however, also support large trees.

Where are We Now

(1) The TNF is currently assessing old growth and habitats for old-forest-associated wildlife through the project-area environmental analysis process until a forestwide program can be developed.

(2) We are currently completing a literature review on topics ranging from old-growth definitions, and ecological values of old-growth forests, to habitat requirements for those species requiring or associated with mature/old-growth forest components. In addition, we are developing an inventory of old-forest stands for use in the analysis.

(3) The Chief has produced a statement on the values of old growth, which is enclosed and will be used as a starting point for determining the value and amount of old growth to be managed on the Forest.

(4) Old growth and older-forest habitats on the TNF will be managed; however, the intensity and direction of that management will vary with objectives based on old-growth and older-forest values and site-specific conditions. Stategies for management may range from old-growth set/aside areas, with monitoring as the only management activity, to areas where regeneration harvest is the management activity.

Where We Want to Be

(1) We want to plan for sustainable old-growth and other late seral stage habitats for the TNF.

(2) We want to have reliable information on the amount and location of older forests on the TNF. In addition, we want to know the amount and distribution of older forests on other lands.

(3) Finally, we would like to reach a consensus with our publics on a program for managing old growth and older-forest habitats. The program would identify the amount and location for old-forest management now and into the future.

Chief's Position Statement on National Forest Old-Growth Values

The Forest Service recognizes the many significant values associated with old-growth forests, such as biological diversity, wildlife and fisheries habitat, recreation, aesthetics, soil productivity, water quality, and industrial raw material. Old growth on the National Forests will be managed to provide the foregoing values for present and future generations. Decisions on managing existing old-growth forests to provide these values will be made in the development and implementation of forest plans.

These plans shall also provide for a succession of young forests into old-growth forests in light of their depletion due to natural events or harvest.

Old-growth forests encompass the late stages of stand development and are distinguished by old trees and related structural attributes. These attributes such as tree size, canopy layers, snags, and down trees, generally defined forests that are in an old-growth condition. The specific attributes vary by forest type. Old-growth definitions are to be developed by forest type or type groups for use in determining the extent and distribution of old-growth forests.

Where goals for providing old-growth values are not compatible with timber harvesting, lands will be classified as unsuitable for timber production. Where these goals can be met by such measures as extending the final harvest age well beyond the normal rotation or by using silvicultural practices that maintain or establish specific old-growth values, lands will be classified as suitable for timber production. In making these determinations, consideration shall be given to the extent and distribution of old growth on National Forest lands that are Congressionally or administratively withdrawn from timber harvest, as well as adjacent ownerships.

Old-growth values shall be considered in designing the dispersion of old growth. This may range from a network of old-growth stands for wildlife habitat to designated areas for public visitation. In general, areas to be managed for old-growth values are to be distributed over individual National Forests with attention given to minimizing the fragmentation of old growth into small isolated areas. Old growth on lands suitable for timber production and not subject to extended rotations is to be scheduled for harvest to establish young stands which more fully utilize potential timber productivity and also meet other resource objectives.

Regions with support with Research shall continue to develop forest type old-growth definitions, conduct old-growth inventories, develop and implement silvicultural practices to maintain or establish desired old-growth values, and explore the concept of ecosystem management on a landscape basis. Where appropriate, land management decisions are to maintain future options so the results from the foregoing efforts can be applied in subsequent decisions. Accordingly, field units are to be innovative in planning and carrying out their activities in managing old-growth forests for their many significant values.

Generic Definition and Description of Old-Growth Forest

Purpose and Scope

The following describes the ecologically important structural features of old-growth ecosystems. Measurable criteria for these attributes will be established in more specific definitions for forest types, habitat types, plant associations or groupings of them. The intent of the generic definition is to guide design of specific definitions and new inventories that include measurement of specific attributes. Although old-growth ecosystems may be distinguished functionally as well as structurally, this definition is restricted primarily to stand-level structural features which are readily measured in forest inventory.

Definition

Old-growth forests are ecosystems distinguished by old trees and related structural attributes. Old growth encompasses the later stages of stand development that typically differ from earlier stages in a variety of characteristics which may include tree size, accumulations of large dead woody material, number of canopy layers, species composition, and ecosystem function.

Description

The age at which old growth develops and the specific structural attributes that characterize old growth will vary widely according to forest type, climate sites, conditions, and disturbance regime. For example, old growth in fire-dependent forest types may not differ from younger forest in the number of canopy layers or accumulations of down woody material. However, old growth is typically distinguished from younger growth by several of the following attributes:

1. Large trees for species and site.
2. Wide variation in tree sizes and spacing.
3. Accumulations of large-size dead standing and fallen trees that are high relative to earlier stages.
4. Decadence in the form of broken or deformed tops or bole and root decay.
5. Multiple canopy layers.
6. Canopy gaps and understory patchiness.

Compositionally, old growth encompasses both older forests dominated by early seral species, such as fire-dependent species, and forests in later successional stages dominated by shade-tolerant species. Rates of change in composition and structure are slow relative to younger forests. Different stages or classes of old growth will be recognizable in many forest types.

Sporadic, low-to-moderate severity disturbances are an integral part of the internal dynamics of many old-growth ecosystems. Canopy openings resulting from the death of overstory trees often give rise to patches of small trees, shrubs, and herbs in the understory.

Old growth is not necessarily "virgin" or "primeval." Old growth could develop following human disturbance.

The structure and function of an old-growth ecosystem will be influenced by its stand size and landscape position and context.

Responsible Official

John H. Skinner, Forest Supervisor, Tahoe National Forest, is the responsible official for the Management Plan and EIS. The analysis is expected to take up to 24 months and the Draft EIS is expected to be available for review and comment by October 1992. The Final EIS is scheduled to be completed by June, 1993.

Dated: June 19, 1991.

John H. Skinner,

Forest Supervisor.

BILLING CODE 3410–11–M

COMMISSION ON CIVIL RIGHTS

Agenda and Public Meeting of the Wisconsin Advisory Committee

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the Wisconsin Advisory Committee to the Commission will be held from 1 p.m. until 5 p.m. on Wednesday, July 31, 1991, at the Marc Plaza Hotel, Milwaukee, Wisconsin. The purpose of this meeting is to discuss current issues, orient members, and plan future activities.

Persons desiring additional information should contact Committee Chairperson, James Baughman, at (608) 262–3691 or Constance Davis, Director of the Midwestern Regional Office, U.S. Commission on Civil Rights, at (312) 353–8311. Hearing-impaired persons who will attend the meeting and require the services of a sign language interpreter should contact the Regional Division at least five (5) working days before the scheduled date of the meeting.

The meeting will be conducted pursuant to the provisions of the rules and regulations of the Commission.

Dated at Washington, DC, June 17, 1991.

Carol Lee Hurley,

Chief, Regional Programs Coordination Unit.

BILLING CODE 6335–01–M

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 36–91]

Foreign-Trade Zone 65—Panama City, FL; Request for Manufacturing Authority Wellstream Corp., Flexible Pipe Plant

An application has been submitted to the Foreign-Trade Zones Board (the

VOL 56 ISS 124 JE 27 1991 UMI

Board) by the Panama City Port Authority, grantee of FTZ 85, on behalf of Wellstream Corporation, requesting authority for the manufacture of flexible pipe under zone procedures within FTZ 85, Panama City, Florida, it was filed on June 14, 1991.

The Wellstream facility (202 employees, 150,000 sq. ft.) is located at 1700 C Avenue within the Panama City Port Complex. The plant is used to produce flexible plastic composite piping, reinforced with steel, primarily for the offshore oil and gas extraction industry. The pipes range from 2 to 12 inches in size (inside diameter) and have burst pressure ratings of up to 20,000 psi. The piping is produced by covering an interlocked steel carcass (carbon or stainless) with viscous nylon or a similar compound. Two layers of flat steel bands are then wrapped to cover the hardened nylon. The final step in the external application of an extruded polymer, protective jacket.

Currently, components are purchased mainly from domestic sources. However, Wellstream wishes to improve its competitiveness in seeking foreign contracts, which may require foreign components. Foreign materials may include natural and synthetic rubber, non-alloy and stainless steel, polymers, nylon, and resins. The firm projects that approximately 60 percent of its annual shipments will be exported.

Zone procedures would exempt Wellstream from Customs duty payments on the foreign components that are used in production for export. On its domestic sales, the company would be able to choose the duty rate that applies to finished plastic piping reinforced with steel (HTS# 3917.31/3917/.39—3.1%). The duty rates on foreign materials range from zero to 11.6 percent. The applicant indicates that zone savings will improve the plant's international competitiveness.

Comments concerning the application are invited from interested parties. They should be addressed to the Board's Executive Secretary at the address below and postmarked on or before August 12, 1991. Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 3716, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

Dated: June 21, 1991.

John J. Da Ponte, Jr.,

Executive Secretary.

BILLING CODE 3510-DS-M

International Trade Administration

[C-122-807]

Fresh, Chilled and Frozen Pork From Canada: Revocation of Countervailing Duty Order and Termination of Administrative Review

AGENCY: Import Administration, International Trade Administration, Commerce.

EFFECTIVE DATE: June 27, 1991.

FOR FURTHER INFORMATION CONTACT: Rick Herring or Roy A. Malmrose, Office of Countervailing Duty Investigations, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone (202) 377-3530 or 377-5414.

Revocation of Order and Termination of Administrative Review

On July 24, 1989, the Department of Commerce ("Commerce") published notice of its *Final Countervailing Duty Determination: Fresh, Chilled and Frozen Pork from Canada* (54 FR 30774). On September 13, 1989, the International Trade Commission ("Commission") made a determination that the domestic industry was threatened with material injury by reason of the importation of the subject merchandise. As a result, Commerce issued a countervailing duty order with respect to the products subject to investigation (54 FR 39031, September 22, 1989). Subsequent to publication of the order, Canadian respondents appealed both Commerce's and the Commission's determinations to the U.S.-Canada Binational Panel ("Panel"), pursuant to Article 1904 of the United States-Canada Free Trade Agreement ("FTA") and title IV of the United States-Canada Free Trade Implementation Act of 1988, 19 U.S.C. 1516a(g)(2) (1989).

On January 22, 1991, the panel reviewing the Commission's threat of injury determination concluded that the finding was not supported by substantial evidence and remanded to the Commission. Pursuant to this remand, the Commission determined on February 12, 1991 that an industry in the United States was not threatened with material injury by reason of imports of fresh, chilled and frozen pork from Canada. *Fresh, Chilled and Frozen Pork from Canada,* USITC Pub. 2362, Inv. No. 701-TA-298 (Feb. 1991).

On March 27, 1991, an Extraordinary Challenge Committee ("Committee") was requested pursuant to Article 1904.13 and Annex 1904.13 of the FTA to review the January 22, 1991 Panel decision. The Committee has now affirmed the Panel's decision. Memorandum Opinion and Order, ECC-91-1904-01USA (June 14, 1991). As a result, Commerce is revoking the countervailing duty order on fresh, chilled and frozen pork from Canada. The Department will instruct the Customs Service to proceed with liquidation of all unliquidated merchandise without regard to countervailing duties and to refund all cash deposits and release all securities posted to cover estimated countervailing duties.

The Department is also terminating the administrative review initiated for the period of September 13, 1989 through March 31, 1990 (55 FR 43153).

Dated: June 21, 1991.

Eric I. Garfinkel,

Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

Export Trade Certificate of Review

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of application for an amendment to an export trade certificate of review.

SUMMARY: The Office of Export Trading Company Affairs, International Trade Administration, Department of Commerce, has received an application for an amendment to an Export Trade Certificate of Review. This notice summarizes the conduct for which certification is sought and requests comments relevant to whether the Certificate should be amended.

FOR FURTHER INFORMATION CONTACT: George Muller, Director, Office of Export Trading Company Affairs, International Trade Administration, 202/377-5131. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 (15 U.S.C. 4001-21) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review. A Certificate of Review protects the holder and the members identified in the Certificate from state and federal government antitrust actions and from private, treble damage antitrust actions for the export conduct specified in the Certificate and carried out in compliance with its terms and conditions. Section 302(b)(1) of the Act and 15 CFR 325.6(a) require the Secretary to publish a notice in the **Federal Register** identifying the applicant and summarizing its proposed export conduct.

Request for Public Comments

Interested parties may submit written comments relevant to the determination whether a Certificate should be amended. An original and five (5) copies should be submitted not later than 20 days after the date of this notice to: Office of Export Trading Company Affairs, International Trade Administration, Department of Commerce, room 1800, Washington, DC 20230. Information submitted by any person is exempt from disclosure under the Freedom of Informtion Act (5 U.S.C. 552). Comments should refer to this application as "Export Trade Certificate of Review, application number 89-3A016."

OETCA has received the following application for an amendment to Export Trade Certificate of Review No. 89-00016, issued on February 5, 1990 (55 FR 4647, February 9, 1990). Previous amendments to the Certificate were issued on November 7, 1990 (55 FR 47784, November 15, 1990) and on April 17, 1991 (56 FR 16328, April 22, 1991).

Summary of the Application

Applicant: National Geothermal Association, P.O. Box 1350, Davis, California 95617.

Contact: Arthur John Armstrong, Counsel, Telephone: (202) 452-6972.

Application No.: 89-3A016.

Date Deemed Submitted: June 13, 1991.

The National Geothermal Association seeks to amend its Certificate by:

(1) Adding REEP, Inc. and USGIC Dominica, L.P., both of Bethesda, MD, as "Members" of the Certificate; and

(2) Revising paragraphs 1, 6, 7, and 8 of the Export Trade Activities and Methods of Operation section of the Certificate as follows:

1. Engage in joint selling arrangements for the sale of Products and/or Services in Export Markets, such as joint marketing, negotiations, offering, bidding and financing, and allocate sales resulting from such arrangements.

6. Coordinate the development of projects in Export Markets, such as project identification, project financing, exploration, scientific and/or technical assessment, transportation and/or delivery, installation, construction, operations, servicing, ownership and transfer of project ownership; and establish joint warranty, service, parts warehousing, and training centers related to the foregoing.

7. Engage in joint promotional activities, such as advertising, demonstrations, field trips, and trade shows and trade missions; and bring together, from time to time, groups of Members to plan and discuss how to fulfill technical and commercial Product and Service requirements of specific export customers in order to develop existing or new Export Markets.

8. Establish and operate jointly owned subsidiaries or other joint venture entities owned exclusively by Members for the purposes of engaging in the Export Trade Activities and Methods of Operation herein other than the licensing of associated Technology Rights pursuant to paragraph 15. NGA and/or one or more of its Members may establish and operate joint ventures for operations in Export Markets with non-Members, including (a) public-sector foreign corporations and other foreign governmental entities, and/or (b) private-sector foreign entities such as corporations.

Dated: June 21, 1991.

George Muller,

Director, Office of Export Trading Company Affairs.

[FR Doc. 91-15293 Filed 6-26-91; 8:45 am]

BILLING CODE 3510-DR-M

[Docket No. 910515-1115]

Foreign Buyer Program; Support for Domestic Trade Shows

AGENCY: International Trade Administration, U.S. Department of Commerce.

ACTION: Call for applications for the FY93 Foreign Buyer Program (October 1, 1992, through September 30, 1993).

SUMMARY: This notice sets forth objectives, procedures and application review criteria associated with the U.S. Department of Commerce's Foreign Buyer Program (FBP) to support domestic trade shows.

The FBP was established to bring foreign buyers together with U.S. firms by promoting leading U.S. trade shows in industries with high export potential. The FBP emphasizes cooperation between the Department and trade show organizers to benefit U.S. firms exhibiting at selected events and provides practical, hands-on assistance to U.S. companies interested in exporting. The assistance provided includes export counseling, market analysis, and overseas promotion of selected shows to potential foreign buyers, end-users, agents and distributors. Shows selected for the Foreign Buyer Program will provide a venue for U.S. companies interested in expanding their sales into international markets.

DATES: Applications must be received by July 31, 1991.

ADDRESSES: Export Promotion Services/Foreign Buyer Program, U.S. and Foreign Commercial Service (US&FCS), International Trade Administration, U.S. Department of Commerce, room 2118, 14th and Constitution Avenue NW., Washington, DC 20230. Tel. (202) 377-0481 (facsimile applications will not be accepted).

FOR FURTHER INFORMATION CONTACT: Product Manager, Foreign Buyer Program, room 2118, Export Promotion Services, U.S. and Foreign Commercial Service, International Trade Administration, U.S. Department of Commerce, 14th and Constitution Avenue NW., Washington, DC 20230. Tel. (202) 377-0481 or fax 202/377-0178.

SUPPLEMENTARY INFORMATION: The International Trade Administration of the U.S. Department of Commerce is accepting applications for the Foreign Buyer Program (FBP) for events taking place between October 1, 1992, and September 30, 1993.

Under the FBP, the Department seeks to bring foreign buyers together with U.S. firms by selecting and promoting in foreign markets domestic trade shows in industries with high-export potential. Selection of a trade show is one-time, i.e., a trade show organizer seeking selection for a recurring event must submit a new application for selection for each occurrence of the event. If the event occurs more than once in the 12 month period covering this announcement, the trade show organizer must submit a separate application for each event.

The Department will select 18 events to support during this 12 month period. If resources permit, additional shows may be added to the schedule of events. The Department will select those events that, in its judgment, most clearly and best meet the Department's objectives as well as satisfy the selection criteria. For this reason, non-selection of an event should not be viewed as a finding that the event will not be successful in promoting U.S. exports.

The collection of the information required in an application is authorized by law (15 U.S.C. 1512 *et seq.*). A trade show will not be considered for the Foreign Buyer Program unless a completed application has been received.

The Office of Management and Budget has approved the information collection requirement contained in this notice under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et*

VOL 56 ISS 124 JE 27 1991 UMI

seq.) (OMB number 0625-0151 approved for use through September 30, 1991).

Public reporting burden for this collection of information is estimated to average 3 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to Reports Clearance Officer, International Trade Administration, room 4001, U.S. Department of Commerce, Washington, D.C. 20230 and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Paperwork Reduction Project (0625-0151), Washington, DC 20503.

General Selection Criteria

Subject to Departmental budget and resource constraints, selection will be granted to those events which, in the judgment of the Department, most clearly and best meet the following criteria:

(a) Export Potential. The products and services to be promoted at the trade show should be from U.S. industries which have high export potential as determined by U.S. Department of Commerce sources, i.e. best prospects lists and U.S. export statistics. (Certain industries are rated as priorities by our domestic and international commercial officers in their annual workplans and country marketing plans.)

(b) International Interest. Trade shows will be selected which meet the needs of a significant number of overseas markets covered by the US&FCS and correspond to marketing opportunities as identified by the posts in their country marketing plans (e.g. best prospects). Previous foreign attendance at the show may be used as an indicator.

(c) Scope of the Show. The event must offer a broad spectrum of U.S. made products and/or services for the subject industry. Trade shows with a majority of U.S. firms will be given preference.

(d) Stature of the Show. The trade show must be clearly recognized by the industry it covers as a leading event for the promotion of that industry's products and services both domestically and internationally and as a showplace for the latest technology or techniques in that industry.

(e) Exhibitor Interest. Show Organizer must demonstrate interest on the part of U.S. exhibitors in receiving international business visitors during the trade show. A significant number of these exhibitors should be new-to-export or seeking to expand sales into additional foreign markets.

(f) Overseas Marketing. Show Organizer must describe efforts made to market event overseas for prior shows as well as to detail international marketing efforts for the event for which FBP support is being sought.

(g) Logistics The trade show site, facilities, transportation services and availability of accommodations must be in keeping with the stature of an international-class trade show.

(h) Delegation Incentives Show Organizers should list types of incentives to be offered delegations and delegation leaders recruited through US&FCS overseas posts. Examples of incentives include waived or reduced admission fees to the event, competitive travel packages, plant tours, international receptions, complimentary accommodations for delegation leaders, etc.

(i) Cooperation Successful applicants will be required to enter into a Memorandum of Understanding (MOU) which sets forth the specific actions to be performed by the show producer/owner and the USDOC. There must be a willingness on the part of the trade show organizer to cooperate with the US&FCS to further the program's goals, and to adhere to target dates set out in the MOU and the event timetable.

Note: Past experience in the Foreign Buyer Program will be taken into account in evaluating current application to the program.

Department of Commerce Support of Foreign Buyer Program Events

The support provided for selected events may differ depending on the specific needs identified and agreed upon by the Department and the show organizer. Services may include, but are not limited to special overseas marketing efforts by staff of the US&FCS. Such marketing activities include contacting key foreign government and private sales prospects and providing publicity in appropriate Departmental periodicals.

Specific Department Actions

For selected shows the Department of Commerce will: (a) Designate a project manager as central contact to work with the show organizer on all aspects of promotion abroad and foreign buyer assistance at the show. The project manager will work closely with the show organizers' contact to develop an overall promotional timetable to promote the event.

(b) Advise and work closely with all interested U.S. Embassies and Consulates to encourage maximum trade show promotion and exposure for those exhibitors indicating export interest.

(c) Promote industry trade show participation through announcements in publications with overseas distribution. (E.g., regional and embassy commercial newsletters, and *Commercial News USA*).

(d) Provide show organizer with specifications of a DOC-designed hard panel system International Business Center (IBC), including furniture requirements, DOC office, conference rooms, lounge area, storage area, etc.

(e) Provide show organizer with samples of multi-language brochures, U.S. Embassy/Consulate address labels, shipping instructions and quantities required for overseas shipment.

(f) Provide show organizer with promotional articles about the Foreign Buyer Program and the services available to U.S. exhibitors and foreign visitors at the International Business Center. Will send a letter with program flyer to all U.S. exhibitors at least one month before the show to promote the IBC and the benefits of the Program.

(g) Provide a final show report to the show organizer not later than 120 days after the show. This report will include data collected by show organizer in a post show survey reflecting FBP results.

(h) Request US&FCS District Offices in the U.S. to provide export counseling or specific marketing information to those U.S. participants that have indicated a need for such counseling before and during the show.

(i) Review all printed materials bearing the Foreign Buyer Program logo for substantive and legal accuracy of statements regarding the Program or DOC activities and event support.

Commerce Services Provided at Trade Show Site

(a) At least one project manager will provide primary management of the International Business Center (IBC), facilitate matching foreign buyers with exhibiting U.S. companies, and inform U.S. companies about U.S. Department of Commerce products and services and other International Trade Administration programs. At least one Trade Specialist from a US&FCS District Office will be available during the show to provide additional export counseling.

(b) The Department of Commerce will provide export counseling at the International Business Center to exhibitors and assist foreign buyers to meet their purchasing/representation objectives during the show.

(c) US&FCS staff will participate, if appropriate, in special export promotion seminars specifically aimed at new-to-market/new-to-export firms exhibiting at the trade show.

Specific Responsibilities of the Show Organizer

Show organizers selected for the FBP must: (a) Designate an official authorized to work with the US&FCS project manager on all aspects of the show promotion as well as a contact during the show to assist with foreign visitor information and product referral (matchmaking services).

(b) Produce and distribute a multilingual promotional brochure in four or more languages and in the quantities specified by the project manager for overseas distribution. Draft of the brochure must be approved by the project manager prior to printing and include the FBP logo and information on the Program and the services available for the international buyer. These brochures must be printed not less than six months prior to the show.

When mailing the brochures to overseas posts, the show organizer is expected to provide names of attendees to the most recent show (by country and on mailing labels if possible), most recent show directory/exhibits guide, and a press release directed to prospective international attendees. Copies of Commercial News advertisement, promotional video, etc. also may be made available.

(c) Produce a one-page promotional advertisement to be placed in Commercial News/USA. Advertisement must be approved by the project manager, have FBP logo prominently displayed, and refer foreign firms to "the Commercial Section of the nearest U.S. Embassy or Consulate" for information on the show(s).

(d) Coordinate with project manager in developing and promoting delegation incentive program to U.S. Embassies and Consulates. Program may include reduced admission fees, complimentary accommodations for delegation leaders leading delegations of more than 15 foreign buyers, etc., all intended to encourage recruitment of delegations.

(e) Provide overseas posts with hotel information at least 6 months prior to the event. Coordinate hotel reservations arrangements.

(f) With guidance from project manager, prepare and distribute an information letter and survey to U.S. exhibitors to determine interest in exporting and international marketing objectives. Information collected will include products or services that the U.S. exhibitors wish to export, international marketing objectives and geographic areas of interest to the company. Information will be incorporated by the show organizer into the show directory or as a separate Export Interest Directory. If published as an Export Interest Directory, two to three copies will be distributed to all Department of Commerce posts overseas 1-3 months prior to the show. If published in the show directory, copies will be distributed upon completion of the show. Preliminary copies may be distributed overseas prior to the show, if possible.

(g) Establish an International Business Center (IBC) at the show in a prominent location adjacent to the main registration area with conspicious display of signage throughout the show to indicate its location. The IBC will consist of a separate registration area for foreign visitors (see item k), lounge area, 2 to 3 conference rooms, and a business office for USDOC officials. The show organizer will staff the IBC with interpreters covering 5-7 languages and sufficient show organizer personnel to assist the two USDOC officials from Washington and the one District Office trade specialist. USDOC design specifications do not allow for pipe and drape at the IBC. A hard panel system is required. A business service center (photocopying, facsimile service, typing, etc.) for attendees and exhibitors may be located within the IBC.

(h) Provide to the project manager a proposed Convention Center floor layout indicating the location and dimensions of the Intl. Business Center at least six (6) months prior to the event.

(i) Provide all U.S. exhibitors with information about the IBC and Department of Commerce services prior to the show and encourage them to visit the IBC.

(j) Will include a one page advertisement in the show directory/exhibits guide highlight the FBP and the IBC and publish in the Show Daily an article describing the FBP and the services provided at the IBC. The copy will be supplied by the Department of Commerce.

(k) Establish a separate international registration system to ensure Commerce project managers access to all foreign attendees at time of registration and to facilitate distribution of the Export Interest Directory and Importer Profile Cards. This registration area should be located within the IBC or adjacent to it. The Importer Profile should include the product interest and marketing objectives of all foreign buyers interested in meeting with U.S. exhibitors. (Show organizers are encouraged to computerize this information). The Importer Profile will be posted at the International Business Center for the benefit of U.S. exhibitors. U.S. attendees interested in international business and will be disseminated at the conclusion of the event to all U.S. exhibitors and U.S. attendees indicating interest in international business.

Important: The Show Organizer must provide a cashier to process all international registration and seminar fees. DOC employees are not bonded, and therefore, cannot handle currency.

(l) Within 3 months following the show, send the following information to all posts: Results of the selected FBP event and information on the next show, copies of the export interest and show directories, importer profile and printout of the names and addresses of the foreign attendees from the respective countries (Embassy/Consulate mailing labels will be provided by the project manager).

Show organizer will also survey all U.S. exhibitors to determine international business results. Survey will include the number of useful international contacts at the event, number of agent/distributor agreements made or pending, joint venture or licensee type arrangements made or pending, dollar value of overseas orders booked at event, and projected overseas sales as a result of contacts made at the event. This information will be incorporated into the final report to be prepared by the DOC project manager.

(m) Upon notification of acceptance into the Foreign Buyer Program, remit the appropriate contribution. For this recruitment period the contribution is $3,500.

Selection

Selection indicates that the Department has found the event to be a leading international trade show appropriate for participation by U.S. exporting firms and promotion in overseas markets by U.S. Embassies and Consulates. Selection does not constitute a guarantee by the U.S. Government of success of the show or of the undertaking or obligations of the show organizer. Selection is not an endorsement of the show organizer except as to its Foreign Buyer activities. Each successful applicant will be given copies of an official U.S. Department of Commerce logo and/or logo of the U.S. and Foreign Commercial Service for use in its advertising promotional materials. Further, DOC review is necessary of any materials using these logos.

Exclusions

Trade shows will not be considered that are either first time events or are

VOL 56 ISS 124 JE 27 1991 UMI

horizontal, that is, not industry specific. Annual trade shows will not be selected more than twice in any three year period (e.g., shows selected for fiscal years 1991 and 1992 are not eligible for inclusion in calendar year 1993, but will be considered in subsequent years).

When, Where and How to Apply for Selection in the 1993 Foreign Buyer Program

Except to the extent required by laws, no information of a proprietary nature reported on this application will be disclosed without the prior written consent of the relevant firm.

Please type the information requested below on company letterhead and mail two (2) complete sets of your application to: Product Manager, Foreign Buyer Program, room 2118, Cooperative Events Division, OEMP/EPS, U.S. and Foreign Commercial Service, International Trade Administration, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC 20230.

Applications must be received at the above address by July 31, 1991. Facsimile applications will not be accepted. Answer to the questions listed below constitutes the formal application:

(1) Name of show.
(2) Site of show.
(3) Dates of show. Indicate if shoe is held annually, biennially, or other.
(4) Name, address, and phone number of applicant.
(5) Name, address, and phone number of applicant contact.
(6) Name, address, and phone number of show sponsor (trade association, national or state government, etc.)
(7) Basic history or description of show. Applicant must demonstrate that subject event is a leading international trade show for the industry (e.g., what makes this show unique as compared to other U.S. or international shows)? Include copies of previous show promotion materials.
(8) Resume of applicant's show experience.
(9) Number of total exhibitors at the past two shows (show U.S. and foreign separately).
(10) Specify net square feet of paid exhibit space the past two shows. Show U.S. and foreign separately.
(11) Specify the total number of attendees at the past two shows (show U.S. and foreign separately). Also include the number of countries represented at past two shows. Do not include exhibitor attendance in these figures.
(12) State any admission fees for show visitors and indicate if there are or will be reduced or waived fees for international visitors or for members of Embassy delegations.
(13) Give a description of any technical program offered and the cost to attend (if applicable).
(14) State product categories to be displayed.
(15) State the audience profile of potential foreign customers (target countries, industries, profession or technical level).
(16) Describe marketing efforts made to promote event overseas for prior show and proposed marketing plan for event being applied for (e.g. use of overseas trade associations, publications, travel agents, etc.).
(17) Sepcify delegation incentives to be offered to delegations and delegation leaders recruited through U.S. Embassies or Consulates. (Examples include waived or reduced admission fees to the exhibition or conference, competitive travel packages, plant tours, international receptions, complimentary accommodations for delegation leaders, etc.).
(18) Submit two (2) sets of all show promotional literature, including show catalog, for previous show.

Applicant must type the following and submit with the appropriate signature:

The above information is correct and the applicant will abide by the terms set forth in this Notice of Call for Applications for the FY93 Foreign Buyer Program (October 1, 1992, through September 30, 1993).

Applications will be processed by the Cooperative Events Division, Office of Export Marketing Programs, Export Promotion Services, and final selection of events will be made approximately 75 days after publication of this **Federal Register** notice.

Contribution. A contribution of $3,500 is required for shows selected and promoted during the October 1, 1992, through September 30, 1993, period.

ITA has determined that this action is not a major rule within the meaning of section 1(b) of Executive Order 12291. Therefore, a Regulatory Impact Analysis has not nor will be prepared. Because a notice of proposed rulemaking and an opportunity for public comment is not required for this agency action relating to practice and procedure under the Administrative Procedure Act (5 U.S.C. 553) or any other statute, no initial or final Regulatory Flexibility Analysis has to be or will be prepared. This notice does not contain policies with Federalism implications sufficient to warrant preparation of a Federalism assessment under Executive Order 12612.

Dated: June 21, 1991

Ann H. Watts,

Director, Cooperative Events Division, Office of Export Marketing Programs, Export Promotion Services, U.S. and Foreign Commercial Service, International Trade Administration, U.S. Department of Commerce.

BILLING CODE 3510-FP-M

Food and Drug Administration, et al.; Notice of Consolidated Decision on Applications for Duty-Free Entry of Scientific Instruments

This is a decision consolidated pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in room 4204, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instruments described below, for such purposes as each is intended to be used, is being manufactured in the United States.

Docket Number: 90-212. *Applicant:* Food and Drug Administration, Bethesda, MD 20892. *Instrument:* Microvolume Stopped-flow Spectrofluorimeter, SF-17MW. *Manufacturer:* Applied Photophysics, United Kingdom. *Intended Use:* See notice at 55 FR 51752, December 17, 1990. *Reasons:* The foreign instrument provides: (1) Sub-millisecond dead times, (2) simultaneous absorbance and fluorescence measurements and (3) sample volumes to 100 µl. *Advice Submitted By:* National Institutes of Health: March 27, 1991.

Docket Number: 90-220. *Applicant:* University of Minnesota, Minneapolis, MN 55455. *Instrument:* Stopped-Flow Spectrofluorimeter, Model SHU/13-106. *Manufacturer:* Applied Photophysics Ltd., United Kingdom. *Intended Use:* See notice at 56 FR 11545, March 19, 1991. *Reasons:* The foreign instrument provides: (1) a fluorescence collection efficiency of f/0.4, (2) sub-millisecond dead time and sample size to 100 µl. *Advice Submitted By:* National Institutes of Health, March 27, 1991.

Docket Number: 90-225. *Applicant:* University of Utah, Salt Lake City, UT 84112. *Instrument:* GC/Mass Spectrometer/Data System, Model MAT 95. *Manufacturer:* Finnigan MAT, West Germany. *Intended Use:* See notice at 56 FR 1513, January 15, 1991. *Reasons:* The foreign instrument provides: (1) mass range to 17,000, (2) resolution to 60,000, (3) scan rate to 0.1 seconds per decade and (4) FAB ion source. *Advice Submitted By:* National Institutes of Health, March 27, 1991.

The National Institutes of Health advises that (1) the capabilities of each of the foreign instruments described above are pertinent to each applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value for the intended use of each instrument.

We know of no other instrument or apparatus being manufactured in the United States which is of equivalent scientific value to any of the foreign instruments.

Frank W. Creel,

Director, Statutory Import Programs Staff.

BILLING CODE 3510-DS-M

Metro Health Medical Center, et al.; Notice of Consolidated Decision on Applications for Duty-Free Entry of Scientific Instruments

This is a decision consolidated pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in room 4204, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instruments described below, for such purposes as each is intended to be used, is being manufactured in the United States.

Docket Number: 90-226. *Applicant:* Metro Health Medical Center, Cleveland, OH 44109. *Instrument:* Rapid Karyotyping System, Model RK1. *Manufacturer:* Image Recognition Systems, United Kingdom. *Intended Use:* See notice at 56 FR 4046, February 1, 1991. *Reasons:* The foreign instrument provides low-light image capture with a resolution of 768 x 575 pixels and computer classification of fluorescent stained chromosomes. *Advice Submitted By:* National Institutes of Health, March 27, 1991.

Docket Number: 90-230. *Applicant:* Harvard University School of Public Health, Boston, MA 02115. *Instrument:* Mass Spectrometer, Model ZAB-VSE. *Manufacturer:* VG Analytical, United Kingdom. *Intended Use:* See notice at 56 FR 4047, February 1, 1991. *Reasons:* The foreign instrument provides: (1) A focal plane ion detector, (2) resolution to 125 000, (3) scan rates to 0.1 seconds per decade and (4) mass range to 15 000. *Advice Submitted By:* National Institutes of Health, March 27, 1991.

Docket Number: 90-028. *Applicant:* The Regents of the University of California, Riverside, CA 92521. *Instrument:* Inductively Coupled Plasma/Mass Spectrometer, Model PlasmaQuad PQ2. *Manufacturer:* VG Instruments, United Kingdom. *Intended Use:* See notice at 56 FR 11546, March 19, 1991. *Reasons:* The foreign instrument provides quantitation of element species by mass detection of singly charged ions from an inductively coupled argon plasma with ppt detection limits. *Advice Received By:* National Institutes of Standards and Technology, November 20, 1990.

The National Institutes of Health and National Institute of Standards and Technology advise that (1) the capabilities of each of the foreign instruments described above are pertinent to each applicant's intended purpose and (2) they know of no domestic instrument or apparatus of equivalent scientific value for the intended use of each instrument.

We know of no other instrument or apparatus being manufactured in the United States which is of equivalent scientific value to any of the foreign instruments.

Frank W. Creel,

Director, Statutory Import Programs Staff.

National Institute of Standards and Technology

[Docket No. 910513-1113]

State Technology Access Program

AGENCY: National Institute of Standards and Technology, Technology Administration, Department of Commerce.

ACTION: Availability of funds.

SUMMARY: In cooperation with the Small Business Administration and pursuant to the National Institute of Standards and Technology's (NIST) authority provided in 15 U.S.C. 272 *et seq.*, the Director of NIST invites proposals to establish pilot Technology Access Programs in five States to provide resident small businesses with improved online access to public and private technology, services and expertise, so as to accelerate the transfer of technology and expertise to small businesses and to improve the productivity and economic competitiveness of these small businesses.

Although not required to do so, any State may elect to hire a private contractor to carry out some or all aspects of the technology access program. Part of the Federal funds will be expected to subsidize or defray the cost of small business access to private sector data base vendors and to provide public access nodes for those small businesses lacking computer access. The States will be expected to provide an equal match to the Federal share. At least half of the State match must be in cash from non-Federal sources. The Federal funds must be used for the purpose of demonstration, training, and subsidized computer access by small business. The States will have discretion in proposing how they will apply their matching funds, provided it is consistent with the objective of improving the competitiveness of small business in their State.

CLOSING DATE FOR APPLICATIONS: Proposals for Technology Access Program will be accepted until August 12, 1991. Proposals received by NIST after that date will not be considered unless they are postmarked no later than that date and received within five working days thereafter.

ADDRESSES: Applicants must submit one signed original plus one (1) copy of the proposal along with Standard Form 424 (Rev 4-88) as referenced under the provisions of OMB Circular A-110 to: National Institute of Standards and Technology, Technology Services, Physics Building, room A363, Gaithersburg, MD 20899.

FOR FURTHER INFORMATION CONTACT: Donald W. Corrigan, 301-975-4511.

ELIGIBILITY: State Small Business Development Center Directors only shall be eligible to apply for funding on behalf of their State. Each State should submit no more than two proposals for a Technology Access Program.

SUPPLEMENTARY INFORMATION: The Fiscal Year 1991 Appropriation for the Small Business Administration (SBA) (Pub. L. 101-515) authorizes the establishment of pilot technology access programs within five States to provide funding to increase small businesses access to online databases. "The purpose of this program shall be to provide small businesses, in States selected to participate in this demonstration program, with access to public and private technology, services and expertise, so as to accelerate the transfer of technology and expertise to small businesses and to improve the productivity and economic competitiveness of the small business."

The Fiscal Year 1991 Authorization for SBA (Pub. L. 101-574) recommended their consultation with the National Institute of Standards and Technology (NIST) in making the awards to five States. NIST has an existing mandate to "provide technical assistance to State technology programs throughout the United States, in order to help those programs help businesses, particularly small and medium-sized businesses, to enhance their competitiveness through the application of science and technology."

The SBA Authorization also requires that the following selection criteria be included in selecting the five States:

(1) The ability of the State to carry out the purposes described . . . in a manner relevant to the needs of industries in that State;

(2) The ability of the State to integrate the implementation of the Program with existing Federal and State technical and business assistance resources, including Small Business Development Centers; and

(3) The ability of the State to continue the program established pursuant to this section after the termination of the Program.

As a result of a written agreement with SBA, NIST intends to use its existing authority to implement the pilot Technology Access Program on SBA's behalf and in close cooperation with them while, at the same time, furthering NIST's own objective of coordinated statewide programs of technical assistance to small businesses. Accordingly, NIST intends to enter into cooperative agreements with five States to demonstrate the value to small businesses of online access to commercially available computer databases and technical information services.

The Federal funds will have to be used to: (1) Defray all or part of the cost of small business access to database services during the term of the cooperative agreement; (2) actively demonstrate to small businesses the benefits of accessing such databases; and (3) train small business how to make the most effective use of such databases and access to technical information and consultants.

The legislation and legislative history make it clear that the Small Business Development Centers are intended to actively participate in these "Technology Access Programs." Consequently, we expect that the State SBDC Director will assume the lead role for this program in each State. However, the legislation and legislative history also make it clear that other existing technical and business assistance programs in the States are to be integrated into the development and operation of these programs. Careful attention will have to be given to the appropriate integration of all existing small business service programs within the State. Sharing of the funds among the participating State programs is implicit. However, Federal participants would be expected to use their own resources to support their participation.

Subsidized assisted computer searching of a wide range of both local and national technical and business databases is one element of the program. Access to a network of technical consultants available for subsidized initial inquiries is another program element. The legislative history also makes it clear that a desire for improved small business access to Federal technology and Federal expertise was one of the driving motivations for this legislation. Careful consideration will be given to those proposals which include credible plans to improve small businesses' access to Federal technology or technical expertise. However, the absence of such an element will not be counted against any proposal.

Since the long-term objective of the program is to improve the productivity and economic competitiveness within each participating State, it will be important for the participating States to carry out the program in a manner relevant to the needs of industries in that State. One indication of the overall ability of any State to fulfill the requirements of the program would be in their analysis of their most economically significant industries, the nature of the small business segment of those industries, and the technical needs of those small businesses.

Financing Available

A total of $1 million is available for distribution in this fiscal year. Awards to five states are anticipated. Funding up to a maximum of $200,000 is available for each state. A matching contribution (half in non-Federal cash) from each state is required. Future or continued funding will be at the discretion of the National Institute of Standards and Technology based on such factors as satisfactory performance and the availability of funds.

Proposal Format

Proposals should be typewritten and organized in a manner consistent with required content of this notice. They should be no longer than 25 pages, not including appendices, and must convey the information required by this notice. Appendices of relevant supporting information are encouraged, including agreements with prospective private sector vendors. Letters of endorsement or other documents not germane to the evaluation criteria *should not be included.*

Proposal Content

Section 1. An executive summary.

Section 2. A description of the participating technical and business assistance programs within the State, how they will be integrated, their respective network, outreach and technology transfer experience, and the extent of their current computer usage.

Section 3. A description of the State's primary industries, the needs of the small business segments, and the feasibility of applying the Technology Access Program to fulfill their existing needs.

Section 4. A description of the types of services to be made available through the program and by whom.

Section 5. A description of the financial management plan including: the source of matching funds and how they will be used; costs, fees, and discounts provided by private sector vendors; the nature and extent of the computer access subsidy to small business; the planned application of user fees, if any; plans to continue the program after the Federal share ceases.

Section 6. An evaluation plan to enable measurement of the impact of the program.

Evaluation Criteria

Types and quality of services to be offered, including demonstration and training as well as demonstrated ability to establish public accessibility to on-line databases and their small businesses in their use in a manner relevant to the needs of industries in the State. (35 points)

Feasibility of the plan to integrate all relevant programs, including Federal and State technical and business assistance resources, including Small Business Development Centers. (20 points)

Experience of the participating programs in networking, outreach, technology transfer and computer applications to assist small businesses. (20 points)

Demonstrated understanding of the State's industry and its needs. (10 points)

Reasonableness of the plans to continue the program after Federal funds are no longer available. (10 points)

Method for evaluating the success, strengths and weaknesses of the program and responding to lessons learned. (5 points)

Paperwork Reduction Act

The SF-424 mentioned in this notice is subject to the requirements of the Paperwork Reduction Act and it has been approved by OMB under Control No. 0348-0006, and SF-LLL has been approved under Control No. 0348-0046.

Additional Requirements

All applicants must submit a certification ensuring that employees of the applicant are prohibited from engaging in the unlawful manufacturing, distribution, dispensing, possession or use of a controlled substance at the work site, as required by the regulations implementing the Drug-Free Workplace of 1988, 15 CFR part 26, subpart F. Applicants are subject to the Governmentwide Debarment and Suspension (Nonprocurement) requirements as stated in 15 CFR part 26.

Section 319 of Public Law 101-121 generally prohibits recipients of Federal contracts, grants, and loans from using appropriated funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a specific contract, grant, or loan. A "Certification for Contracts, Grants, Loans, and Cooperative Agreements" and the SF-LLL, "Disclosure of Lobbying Activities" (if applicable), is required to be submitted with any application. Applicants are reminded that a false statement may be grounds for denial or termination of funds and grounds for possible punishment by fine or imprisonment. Any recipient/applicant who has an outstanding indebtedness to the Department of Commerce will not receive a new award until the debt is paid or arrangements satisfactory to the Department are made to pay the debt.

An evaluation panel of six Federal employees including representatives of both NIST and SBA will evaluate all qualified proposals in accordance with the selection criteria set forth in this notice and selection will be based on their rank ordering. This review process should take approximately 30 days. Awards under this program shall be subject to all Federal and Departmental regulations, policies, and procedures applicable to financial assistance awards.

Dated: June 24, 1991.

John W. Lyons,

Director, National Institute of Standards and Technology.

[FR Doc. 91-15295 Filed 6-26-91; 8:45 am]

BILLING CODE 3510-13-M

National Oceanic and Atmospheric Administration

Status Review of Endangered Whales

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of availability of status reviews.

SUMMARY: NMFS has completed status reviews for eight species of large whales as required under section 4(c)(2) of the Endangered Species Act of 1973 (ESA). A report summarizing the reviews is available upon request.

FOR FURTHER INFORMATION CONTACT: Dr. Charles Karnella, Deputy Director, Office of Protected Resources, NMFS, 1335 East-West Highway, Silver Spring, MD 20910, 301/427-2322.

SUPPLEMENTARY INFORMATION: The ESA is administered jointly by the U.S. Fish and Wildlife Service (FWS), Department of the Interior, and NMFS, Department of Commerce. NMFS has jurisdiction over most marine species and, under section 4(a) of the ESA, determines whether species should be listed as endangered or threatened. FWS maintains and publishes the List of Endangered and Threatened Wildlife (List) in 50 CFR part 17 for all species determined by NMFS or FWS to be endangered or threatened. A list of endangered species under the jurisdiction of NMFS is contained in 50 CFR 222.23(a) and threatened species in 50 CFR 227.4.

VOL 56 ISS 124 JE 27 1991 UMI

Section 4(c)(2) of the ESA requires that, at least once every 5 years, a review of the species on the List be conducted as a basis for determining whether any species should be (1) removed from the List, (2) changed in status from an endangered species to a threatened species, or (3) changed in status from a threatened species to an endangered species. On January 3, 1990, NMFS published a notice in the Federal Register (55 FR 164) advising that status reviews were being conducted for species under its jurisdiction and soliciting comments and information. Status reviews for the following eight endangered whale species have been completed: Blue whale (*Bloenoptera musculus*), Bowhead whale (*Baloena mysticetus*), Fin whale (*Balaenoptera physalus*), Gray whale (*Eschrichtius robustus*), Humpback whale (*Megaptera novaeangliae*), Northern right whale (*Eubalaena glacialis*), Sei whale (*Balaenoptera borealis*), Sperm whale (*Physeter macrocephalus*).

A report Endangered Whales: Status Update summarizing the reviews is available upon request (see **FOR FURTHER INFORMATION CONTACT**). On the basis of this review, NMFS intends to publish a proposed determination in the Federal Register that the listing status of the eastern North Pacific (California) population of gray whale should be changed. The 1988 stock size is at least equal to the estimated initial stock size in 1846, and the stock has been increasing at an average rate of 3.2 percent per year since commercial whaling ended in the early 1960s.

Dated: June 14, 1991.

Michael F. Tillman,

Deputy Assistant Administrator for Fisheries.

[FR Doc. 91-15252 Filed 6-26-91; 8:45 am]

BILLING CODE 3510-22-M

National Technical Information Service

Prospective Grant of Exclusive Patent License

This is notice in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i) that the National Technical Information Service (NTIS), U.S. Department of Commerce, is contemplating the grant of an exclusive license in the United States and certain foreign countries to practice the invention embodied in U.S. Patent Application Serial Number 7-451,953 entitled, Hepatocellular Oncogene to Triton Diagnostics, Inc. having a place of Business in Alameda, California. The Patent rights in this invention have been assigned to the United States of America.

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within sixty days from the date of this published Notice, NTIS receives written evidence and argument which establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

The present invention relates to an oncoprotein specific for hepatocellular carcinomas and to a nucleotide sequence that codes for such a protein. The invention further relates to screening and diagnostic methodologies (and kits based thereon) that make use of the oncoprotein (or antibodies specific for same) and the nucleotide sequence.

The availability of the invention for licensing was published in the Federal Register of July 23, 1990.

A copy of the instant patent application may be purchased from the NTIS sales Desk by telephoning 1-800-553-NTIS or by writing to Order Department, NTIS, 5285 Port Royal Road, Springfield, VA 22161.

Inquiries, comments and other materials relating to the contemplated license must be submitted to Papan Devnani, Center for Utilization of Federal Technology, NTIS, Box 1423, Springfield, VA 22151. Property filed competing applications received by the NTIS in response to this notice will be considered as objections to the grant of the contemplated license.

Douglas J. Campion,

Center for Utilization of Federal Technology, National Technical Information Service, U.S. Department of Commerce.

BILLING CODE 3510-04-M

DEPARTMENT OF DEFENSE

Department of the Air Force

USAF Scientific Advisory Board; Meeting

The USAF Scientific Advisory Board's Ad Hoc Committee on Air Force Aircraft Jet Engine Manufacturing and Production Processes will meet on 22-23 July 1991 from 8 a.m. to 5 p.m. at the ANSER Corporation, 1215 Jefferson Davis Highway, Arlington, Virginia.

The purpose of this meeting is to gather information for the study.

The meeting will be closed to the public in accordance with section 552b(c) of title 5, United States Code, specifically subparagraphs (1) and (4) thereof.

For further information, contact the Scientific Advisory Board Secretariat at (703) 697-4811.

Patsy J. Conner,

Air Force Federal Register, Liaison Officer.

BILLING CODE 3910-01-M

Corps of Engineers, Department of the Army

Intent To Prepare a Draft Environmental Impact Statement for the Proposed Development of Bel Marin Keys Unit V, Consisting of a Residential, Commercial, and Recreational Community in Marin County, CA

AGENCY: U.S. Army Corps of Engineers (San Francisco District), Department of Defense.

ACTION: Notice of intent to prepare a draft environmental impact statement.

SUMMARY: The Bel Marin Keys Development Associates have applied for Department of the Army (DA) permit for authorization to discharge dredged and fill material, and to work in navigable waters of the United States in association with the proposed development of Bel Marin Keys Unit V, consisting of a residential, commercial, and recreational community in Marin County, California. The permit application process, scoping process, and preparation of the Draft EIS will be the responsibility of the Regulatory Branch of the San Francisco District.

FOR FURTHER INFORMATION CONTACT: Questions regarding the scoping process, preparation of the draft EIS, and processing of the permit application may be directed to Dr. Susan Ryan at the Corps of Engineers (Telephone (415) 744-3322, ext. 224).

SUPPLEMENTARY INFORMATION:

1. Proposed Action

The Corps of Engineers (Corps) has received an application for a Department of the Army permit from the Bel Marin Keys Development Associates to develop Bel Marin Keys Unit V, consisting of a residential, commercial, and recreational community in Marin County, California. The proposed project site is presently farmed and is located just east of Highway 101 and just north of the former Hamilton Air Force Base in Marin County, California. The permit application will be processed by the Regulatory Branch of the San Francisco District, Corps of Engineers, pursuant to the provisions of section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403) and section 404 of the Clean Water Act. (33 U.S.C. 1344).

The purpose of the proposed project is to construct a multipurpose development community with residential, commercial, and recreational components.

In accordance with the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*) the Corps has determined that the proposed action may have a significant impact on the quality of the human environment and therefore requires the preparation of an Environmental Impact Statement (EIS). A combined EIS/EIR (Environmental Impact Report) will be prepared with the Corps as the Federal lead agency for the EIS, and the County of Marin as the lead agency for the EIR.

2. Alternatives

The project alternatives under consideration are:

a. Proposed Project. The proposed Master Plan/Rezoning would allow for development of 1,190 new residential units, 152,000 square feet of commercial space, a 135 acre golf course, 15 acres of community park and marina, 463 acres of lagoons, 250 acres of seasonal marshland, and 660 acres of wetland habitat on a 1,610-acre site. The project also includes development of a ferry system, light rail system, bus system, and improvements in the local road system.

b. No Action Plan. Under this plan, which is equivalent to permit denial by the Corps, no action could be taken by the Bel Marin Keys Development Associates to develop the Bel Marin Keys Unit V residential, commercial, and recreational community.

c. Status Quo (Current Zoning) Alternate

d. Alternative Residential Development

e. Reduced Size Alternative

f. Alternative Mix/Type of Uses Alternative

g. Mitigated Project Design for Revised or Reconfigured Development Design

h. Higher Density Residential

i. Alternative Site

j. Other Project Proposals That are Identified During the Public Scoping Process

3. Scoping Process

Pursuant to the National Environmental Policy Act, as amended, agency planning for federal or federally permitted projects must include a "scoping" process. Scoping primarily involves determining the scope of issues to be addressed, and identifying the significant issues for in-depth analysis in the draft EIS. The scoping process includes public participation to integrate information regarding public needs and concerns into the environmental document.

The Corps and the County will hold a public scoping meeting on July 24, 1991 at 7 pm at the Bel Marin Keys Community Services District Community Center, #4 Montego Key, Novato, CA 94947. A formal presentation will precede the request for public comment. Representatives from the Corps of Engineers, the County, and the Environmental Science Associates, Inc. (the consultant preparing the joint EIR/EIS), will be available at this meeting to receive comments from the public regarding issues of concern that should be addressed in the environmental document.

Agencies and the public are also invited and encouraged to provide written comments in addition to, or in lieu of, oral comments at the scoping meeting. To be most helpful, the scoping comments should clearly describe specific environmental issues or topics which the commentator believes the document should address. Written statements should be mailed no later than August 7, 1991 to the District Engineer, U.S. Army Corps of Engineers, San Francisco District, 211 Main Street, San Francisco, California 94105.

a. Significant Issues The following issues have been identified as potentially significant and will be evaluated in the draft EIS:

(1) Geologic conditions.
(2) Water quality.
(3) Water supply.
(4) Endangered species.
(5) Wetlands.
(6) Air quality.
(7) Agricultural activity.
(8) Growth inducement.
(9) Traffic and transportation.
(10) Cultural resources.

b. Environmental Requirements Environmental review and other consultation requirements applicable to the proposed action include:

(1) National Environmental Policy Act, as amended.
(2) Clean Water Act, as amended.
(3) Clean Air Act, as amended.
(4) National Historic Preservation Act, as amended.
(5) Fish and Wildlife Coordination Act.
(6) Endangered Species Act, as amended.
(7) Coastal Zone Management Act.
(8) California Environmental Quality Act; and
(9) Council on Environmental Quality Memorandum—Analysis of Impacts on Prime and Unique Agricultural Lands.

4. Availability of EIS

The Draft EIS will be available for public review in December 1991.

Stanley G. Phemambucq,

LTC(P), EN Commanding.

BILLING CODE 3710-FS-M

Intent To Prepare a Draft Supplemental Environmental Impact Statement (DSEIS) for Oakland Harbor, Deep Draft Navigation Improvements, Alameda County, CA

AGENCY: U.S. Army Corps of Engineers, Department of Defense.

ACTION: Notice of intent.

1. Summary: *Proposed Action.* The Corps of Engineers, San Francisco District has been authorized by the Water Resources Development Act of 1986, 99th Congress, 2nd Session, Public Law 99-662 to improve the navigation channels at Oakland Harbor in San Francisco Bay. The Port of Oakland is the non-Federal (i.e. local) sponsor of the Federal project. The environmental impacts of these improvements have been previously evaluated in Final Environmental Impact Statements filed with the Environmental Protection Agency in 1981 and 1985 and a Supplemental Environmental Impact Statement in 1988. The proposed Supplemental Draft Environmental Impact Statement will address changes in the authorized project related to dredged material disposal instituted since 1988.

For further information, contact Mr. Rod Chisholm, USAED, San Francisco, 211 Main Street, San Francisco, California 94105-1905; (415) 744-3032.

2. *Supplementary Information:* Construction of the authorized project for Oakland Harbor will generate an estimated 7 million cubic yards of dredged material. Disposal of this dredged material has been the subject of great controversy in the San Francisco Bay Area. As originally authorized, disposal of the dredged material was to be at a contemporary site irlentified by the U.S. Environmental Protection Agency as "SF-11" near Alcatraz Island in Central San Francisco Bay. Due to the mounding of dredged material historically disposed at the Alcatraz Site which was discovered in 1982, and increased public concern about the impact of large scale dredged material disposal events on the resources of San

VOL 56 ISS 124 JE 27 1991 UMI

Francisco Bay, ocean disposal of Oakland Harbor dredged material was proposed in 1986. A Supplemental EIS was prepared to evaluate the impacts of direct ocean disposal and designate an ocean disposal site under Section 103 of the Marine Protection Research and Sanctuaries Act of 1972. The ocean disposal site designation was given limited approval by EPA. The Record of Decision following the Final Supplemental EIS reduced the dredged material quantity for ocean disposal to 500,000 cubic yards and directed additional environmental documentation be prepared before construction of the remainder of the authorized project. After the Record of Decision was signed, the project was challenged in federal Court by local fisherman, and construction of a reduced project was delayed. The Federal Court decided not to enjoin the project, and the local sponsor, by section 215 agreement (42 USCA sec. 1962d–5a) with the Corps, started construction in May 1988. A few days after this construction began, the project was enjoined in State Court by a suit brought by San Mateo County, and construction was stopped. Both the Federal and state courts retain jurisdiction over the Project.

Authorized deep-draft navigation improvements to the Oakland Harbor would deepen the Outer Harbor and Inner Harbor from −35 feet Mean Low Lower Water (MLLW) to −42 feet MLLW. Approximately 3.4 miles of the Outer Harbor would be deepened and enlarged. Approximately 4.0 miles of the Inner Harbor would be deepened between the Entrance Channel reach and the Howard Terminal. The Entrance Channel, an area at channel mile 3.0, and the upper reach of the Inner Harbor Channel would be widened. An existing turning area in the Outer Harbor would be widened. A new turning basin for the Inner Harbor would be provided in the area of the Clay Street Pier. In addition, all berthing areas served by the project would be deepened by the local sponsor to depths commensurate with the improved Federal channels. All of these improvements will require the removal and disposal of approximately 7 million cubic yards of channel bottom sediments.

3. *Alternatives:* Dredged material disposal alternatives to be considered in the Draft Supplemental Environmental Impact Statement (DSEIS) are land and unconfined aquatic disposal. Dredged material disposal in the San Francisco Bay Area is the subject of intensive study by the Corps of Engineers, the Environmental Protection Agency, and two state regulatory agencies, under the Long-Term Management Strategy for the Disposal of Dredged Material in the San Francisco Bay Region (LTMS). The disposal alternatives to be discussed in the DSEIS reflect the work of the LTMS, but because of the needs of the Oakland Deepening Project, specific sites will be identified and analyzed.

Upland disposal of dredged material will be considered for the disposal of material unsuitable for unconfined aquatic disposal. Other land disposal options will be evaluated as an alternative to unconfined aquatic disposal of suitable material. Potential land sites identified at this time include: Galbraith Golf Course, on the Port of Oakland property in the City of San Leandro; former dry dock slips continguous to San Francisco Bay in the Port of Richmond, the Sonoma Baylands site adjacent to San Pablo Bay in Sonoma County, and other sites that are identified through the LTMS process and compatable with the timing of the Oakland Harbor project.

Open water dredged material disposal alternatives will include locations in both San Francisco Bay and the Pacific Ocean. San Francisco Bay sites to be evaluated include the Alcatraz Disposal Site (SF–11) near Alcatraz Island in central San Francisco Bay, and a proposed new site known as the Bay Farm Island Borrow Area located near the City of Alameda in San Francisco Bay.

The ocean disposal alternative will be limited to disposal at an EPA designated (designation in progress) ocean disposal site offshore of the Golden Gate. All open water disposal alternatives will include discussion of test results conducted under the Dredge Material Testing Manual, EPA–503/8–91/001 (New Greenbook).

4. *Scoping:* The San Francisco District, Corps of Engineers, in association with the non-Federal sponsor, the Port of Oakland, will hold meetings to invite public participation in identifying the important issues and information to be included in the DSEIS. Two scoping meetings are scheduled. The first meeting will be held at 7:30 p.m. at the Bay Model Visitor Center, 2800 Bridgeport Way, Sausalito, California on August 7, 1991. The second meeting will be held at 7:30 p.m. at the Port of Oakland, 530 Water Street, Oakland, California on August 8, 1991.

The District's experience has shown that the significant issues associated with the Oakland Project primarily concern the disposal of the dredged material. The following dredging and disposal impacts will be discussed in the DSEIS:

1. Acute water quality impacts (aquatic disposal).
2. Chronic and sublethal water quality impacts (aquatic disposal).
3. Aquatic resources impacts (aquatic disposal).
4. Water quality impacts (land disposal).
5. Terrestrial impacts (land disposal).
6. Wetland impacts (land disposal).
7. Air quality impacts (land disposal).
8. Contaminated material impacts (land disposal).
9. Disposal site capacity impacts (land and aquatic disposal).
10. Social-Economic impacts (aquatic and land disposal).

The DSEIS will be used as the primary information document to secure concurrence in a Federal Coastal Zone Consistency Determination. In addition, the DSEIS will be used by the local sponsor to meet its responsibilities under the California Environmental Quality Act (CEQA), and may also be used by the San Francisco Bay Regional Water Quality Control Board to meet its responsibilities under the same Act. Other reviews in which the DSEIS may be a secondary source of information are: Fish and Wildlife Coordination Act, Marine Protection, Research and Sanctuaries Act, Endangered Species Act, Clean Water Act, and "trustee agency" reviews by the State of California.

Stanley G. Phernambucq,

LTC(P) EN, Commanding.

BILLING CODE 3710–EF–M

DELAWARE RIVER BASIN COMMISSION

Amendment to Comprehensive Plan and Water Code of the Delaware River Basin

AGENCY: Delaware River Basin Commission.

ACTION: Final rule revision.

SUMMARY: At its June 19, 1991 business meeting the Delaware River Basin Commission amended its Comprehensive Plan and Water Code in relation to water conservation performance standards for plumbing fixtures and fittings. The amendment revised a rule adopted by the Commission on May 24, 1989 by changing the effective date of Resolution No. 88–2 (Revised) from January 1, 1991 to July 1, 1991 in order to coordinate the effective date of the Commission's rule with amendatory changes at the state and local levels.

EFFECTIVE DATE: July 1, 1991.

ADDRESSES: Copies of the Commission's Water Code are available from the Delaware River Basin Commission, P.O. Box 7360, West Trenton, New Jersey 08628.

FOR FURTHER INFORMATION CONTACT: Susan M. Weisman, Commission Secretary, Delaware River Basin Commission: Telephone (609) 883–9500.

SUPPLEMENTARY INFORMATION: The Commission held a public hearing on the proposed amendment on June 19, 1991 as noticed in the May 9, 1991 and June 12, 1991 issues of the **Federal Register** (Vol. 56, No. 90 and Vol. 56, No. 113). Based upon testimony received and further deliberation, the Commission has adopted its proposal and amended its Comprehensive Plan and Water Code of the Delaware River Basin.

Article 2 of the Water Code of the Delaware River Basin, which is referenced in 18 CFR part 410, is amended by the deletion of existing subsections 2.1.5.(1)(b) and 2.1.5(1)(c) and the addition of new subsections 2.1.5(1)(b) and 2.1.5(1)(c) to read as follows:

§ 2.1.5. Water conservation performance standards for plumbing fixtures and fittings.

(1) (a) * * *

(b) Any water conservation performance standards adopted prior to the effective date of this regulation that are not in compliance with the provisions of (a) shall be amended or revised to comply with the provisions of (a) by July 1, 1991.

(c) The Commonwealth of Pennsylvania is encouraged to adopt water conservation performance standards for plumbing fixtures and fittings that comply with the provisions of (a) by July 1, 1991. The Commission shall notify all municipalities within the Pennsylvania portion of the Basin of the requirement to adopt and enforce local regulations that comply with the provisions of (a) if Pennsylvania has not adopted such standards. Upon notification by the Commission, municipalities shall have one year to adopt such local regulations.

Delaware River Basin Compact, 75 Stat. 688.

Dated: June 21, 1991.

Susan M. Weisman,

Secretary.

BILLING CODE 6360–01–M

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

ACTION: Notice of proposed information collection requests.

SUMMARY: The Director, Office of Information Resources Management, invites comments on proposed information collection requests as required by the Paperwork Reduction Act of 1980.

DATES: An expedited review has been requested in accordance with the Act, since allowing for the normal review period would adversely affect the public interest. Approval by the Office of Management and Budget (OMB) has been requested by July 19, 1991.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Dan Chenok, Desk Officer, Department of Education, Office of Management and Budget, 726 Jackson Place, NW., room 3208, New Executive Office Building, Washington, DC 20503. Requests for copies of the proposed information collection request should be addressed to Mary P. Liggett, Department of Education, 400 Maryland Avenue, SW., room 5624, Regional Office Building 3, Washington, DC 20202.

FOR FURTHER INFORMATION CONTACT: Mary P. Liggett, (202) 708–5174.

SUPPLEMENTARY INFORMATION: Section 3517 of the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 3517) requires that the Director of OMB provide interested Federal agencies and persons an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations.

The Director, Office of Information Resources Management, publishes this notice with the attached proposed information collection request prior to submission of this request to OMB. This notice contains the following information: (1) Type of review requested, e.g., expedited; (2) Title; (3) Abstract; (4) Additional Information; (5) Frequency of collection; (6) Affected public; and (7) Reporting and/or Recordkeeping burden. Because an expedited review is requested, a description of the information to be collected is also included as an attachment to this notice.

Dated: June 21, 1991.

Kent H. Hannaman,

Acting Director, Office of Information Resources Management.

Office of Special Education and Rehabilitative Services

Type of Review: Expedited.

Title: Application for Grants Under the Program for Children and Youth with Serious Emotional Disturbance.

Abstract: This form will be used by State Educational agencies and non-profit institutions to apply for funding under the Program for Children and Youth with Serious Emotional Disburbance.

Additional Information: An expedited review is requested in order to keep the grant awards under the Program for Children and Youth with Serious Emotional Disburbance in FY 1991. This application contains part I—Standard Form 424 (Application for Federal Assistance), part II—Standard Form 424A (Budget Information—Non-Construction Programs), part III—Application Narative, and part IV—Standard Form 424B (Assurances), Lobbying Certifications, Debarment Certifications, Drug-Free Certifications, and Lobbying Activities Disclosures.

Frequency: Annually.

Affected Public: State or local governments; Non-profit institutions.

Reporting Burden: Responses: 30.

Recordkeeping Burden: Recordkeepers: 0.

Burden Hours: 1,260.

Burden Hours: 0.

BILLING CODE 4000–1–M

VOL 56 ISS 124 JE 27 1991 UMI

DRAFT

PART III - APPLICATION NARRATIVE AND INSTRUCTIONS

Applications are more likely to receive favorable reviews by panels when they are organized according to the published evaluation criteria. If you prefer to use a different format you may wish to cross-reference the sections of your application to the evaluation criteria to be sure that reviewers are able to find all relevant information. These suggestions should be viewed, however, as advisory only; the scope and complexity of projects is too variable to establish firm limits on length and format.

The project applications include the following features in order listed below:

(a) An abstract of the project;
(b) The importance of the project;
(c) The technical method (soundness);
(d) The plan of operation which the applicant proposes to use to administer the project;
(e) The evaluation plan to evaluate the project;
(f) The key personnel to be used to achieve each objective;
(g) The adequacy of resources available and needed to achieve each objective;
(h) The probable impact of the project;
(i) organizational capability;
(j) The budget necessary to achieve the proposed activity.

BILLING CODE 4000-1-C

DEPARTMENT OF ENERGY

Office of Fossil Energy

[FE Docket No. 91-20-NG]

Texaco Gas Marketing Inc.; Order Granting Blanket Authorization To Export Natural Gas to Mexico

AGENCY: Department of Energy, Office of Fossil Energy.

ACTION: Notice of an order granting blanket authorization to export natural gas to Mexico.

SUMMARY: The Office of Fossil Energy of the Department of Energy gives notice that is has issued an order granting Texaco Gas Marketing Inc. blanket authorization to export to Mexico up to 90 Bcf of natural gas over a two-year period beginning on the date of first delivery

A copy of this order is available for inspection and copying in the Office of Fuels Programs Docket Room, 3F-056, Forrestal Building, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-9478. The docket room is open between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, DC, June 21, 1991.

Clifford P. Tomaszewski,

Acting Deputy Assistant Secretary for Fuels Programs, Fossil Energy.

[Project No. 10570-001 Washington]

Barrish & Sorenson Hydroelectric Co.; Surrender of Preliminary Permit

June 21, 1991.

Take notice that Barrish & Sorenson Hydroelectric Company, Permittee for the Smith Creek Project No. 10570, has requested that its preliminary permit be terminated. The preliminary permit for Project No. 10570 was issued November 18, 1988, and would have expired October 31, 1991. The project would have been located on Smith Creek within the Gifford Pinchot National Forest in Lewis County, Washington.

The Permittee filed the request on June 11, 1991, and the preliminary permit for Project No. 10570 shall remain in effect through the thirtieth day after issuance of this notice unless that day is a Saturday, Sunday or holiday as described in 18 CFR 385.2007, in which case the permit shall remain in effect through the first business day following that day. New applications involving this project site, to the extent provided for under 18 CFR part 4, may be filed on the next business day.

BILLING CODE 6717-01-M

[Docket No. TM91-1-63-003]

Carnegie Natural Gas Co.; Notice of Compliance Filing

June 21, 1991.

Take notice that on June 14, 1991, Carnegie Natural Gas Company ("Carnegie") tendered for filing the following revised tariff sheet to its FERC Gas Tariff, Second Revised Volume No. 1:

3 Substitute First Revised Sheet No. 10

The above tariff sheet is proposed to be effective October 1, 1990.

Carnegie states that it is filing the above tariff sheet to comply with the Commission's Letter Order issued on May 30, 1991, in Docket Nos. RP88-127-007, *et al.* Carnegie states that, as directed by the Commission, the revised tariff sheet correctly states Carnegie's ACA charge applicable to its transportation rates as $.0021 per Dth rather than $.0022 per Mcf as previously stated. Carnegie also states that this revised tariff sheet was effectively superseded on June 1, 1991, by Second Revised Sheet No. 10, which implemented new transportation rates, subject to refund, in accordance with the Commission's suspension order issued in Carnegie's Section 4 rate proceeding in Docket No. RP91-37-000, 53 FERC 61,454 (1990).

Carnegie states that copies of its filing were served on all jurisdictional customers and interested state commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure, 18 CFR 385.211 and 385.214. All such protests should be filed on or before June 28, 1991. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Persons that are already parties to this proceeding need not file a motion to intervene in this matter. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 91-15279 Filed 6-26-91; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. RP88-227-024]

Paiute Pipeline Co.; Notice of Compliance Filing

June 21, 1991.

Take notice that on June 18, 1991, Paiute Pipeline Company (Paiute) tendered for filing the following substitute tariff sheets to be part of its FERC Gas Tariff, First Revised Volume No. 1-A:

Substitute Original Sheet No. 57
Substitute Original Sheet No. 58
Second Substitute Original Sheet No. 69

Paiute states that the purpose of its filing is to comply with the Commission's order issued June 3, 1991 in Docket Nos. RP88-227-022, et al. Paiute states that in that order the Commission granted reconsideration of an order issued March 26, 1991 and approved the provisions of a February 13, 1990 settlement offer and related certificate application, as clarified, with respect to the daily allocation for scheduling of transportation capacity on Paiute's system at its interconnection with Northwest Pipeline Corporation (the "Receipt Point"). Paiute states that it was directed to amend its April 25, 1991 compliance filing in Docket No. RP88-227-021 to reflect the conclusions in the June 3, 1991 order. To accomplish this purpose, Paiute indicates that it has revised § 4.2(d) of its General Terms and Conditions, which sets forth its Receipt Point capacity allocation procedure, and has made a conforming change to its annual overrun penalty provisions.

Paiute requests that the proposed tariff sheets be permitted to become effect June 1, 1991, in order to make such tariff sheets effective upon the date that Paiute implemented conversions of firm sales service to firm transportation service on its system.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure 18 CFR 385.214 and 385.211. All such protests should be filed on or before June 28, 1991. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Persons that are already parties to this proceeding need not file a motion to intervene in this matter. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER91-475-000]

Montaup Electric Co., Notice of Filing

June 21, 1991.

On June 3, 1991, Montaup Electric Company (Montaup) tendered for filing its Conservation and Load Management Annual Report required under the provisions of its Conservation and Load Management Adjuster Mechanism as authorized under the terms of a Settlement Agreement in Docket No. ER90-247-000. On June 7, 1991, the Secretary issued a notice of the filing which stated that motions to intervene or protests were to be filed on or before June 21, 1991.

The June 7, 1991 notice of filing is hereby clarified to provide that the comment period established for the filing of motions to intervene or protests does not preclude any interested party from exercising rights under the Settlement Agreement including the right to file protests within 90 days in accordance with the terms of the Settlement Agreement.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP91-68-006]

Penn-York Energy Corp.; Notice of Proposed Changes in FERC Gas Tariff

June 21, 1991.

Take notice that Penn-York Energy Corporation ("Penn-York"), on June 18, 1991, tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, the following tariff sheets, to become effective on July 1, 1991.

Second Revised Sheet No. 8
Second Revised Sheet No. 17

Penn-York states that the purpose of this filling is to comply with the Commission's Letter Order and Order Denying Rehearing, issued April 2, and June 3, 1991, respectively, in the above-captioned proceeding.

Penn-York states that copies of this filing were served upon the company's jurisdictional customers and the Regulatory Commissions of the States of Connecticut, Delaware, Massachusetts, New Hampshire, New York, Pennsylvania, New Jersey, and Rhode Island.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's rules of practice and procedure 18 CFR 385.214 and 385.211. All such protests should be filed on or before June 28, 1991. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Persons that are already parties to this proceeding need not file a motion to intervene in this matter. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. TA91-1-40-005]

Raton Gas Transmission Co.; Notice of Compliance

June 21, 1991.

Take notice that on June 10, 1991, Raton Gas Transmission Company (Raton), to comply with the Commission's letter order dated May 31, 1991 filed Fourth Substitute Eighteenth Revised Sheet No. 4 and Third Revised Sheet No. 22 to its FERC Gas Tariff Original Volume No. 1.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NW., Washington, DC 20426, in accordance with rules 214 and 211 of the Commission's rules of practice and procedure (18 CFR 385.214 and 385.211). All such protests should be filed on or before June 28, 1991. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make Protestants parties to the proceeding. Persons that are already parties to this proceeding need not file a motion to intervene in this matter. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Project No. 6910-000 Wyoming]

Ten Sleep Hydropower, Inc.; Availability of Environmental Assessment

June 21, 1991

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the application for major license for the proposed Ten Sleep Creek Project, to be located on Ten Sleep Creek in Washakie County, near Ten Sleep, Wyoming, and has prepared an Environmental Assessment (EA) for the proposed project. In the EA, the Commission's staff has analyzed the project and has concluded that approval of the proposed project, with appropriate mitigative measures, would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Public Reference Branch, Room 1000, of the Commission's offices at 825 North Capitol Street, NE., Washington, DC 20426.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP91-2314-000]

Zenith Natural Gas Co; Application To Abandon and Petition for Declaratory Order

June 20, 1991.

Take notice that on June 18, 1991, Zenith Natural Gas Company (Zenith), 30 West Sherman, Hutchinson, Kansas 67501, filed an application in Docket No. CP91-2314-000 for permission to abandon jurisdictional sales service to Panhandle Eastern Pipe Line Company (Panhandle) and for an expedited order declaring that Zenith is a gathering company exempt from regulation as a jurisdictional pipeline company, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Zenith indicates that effective on July 1, 1991, Panhandle would no longer purchase natural gas from Zenith and is entitled to automatic abandonment of its purchase obligation to Zenith upon expiration of its current contract. Zenith requests the Commission to authorize Zenith to abandon its sales service obligation to Panhandle.

Zenith states that it currently operates a small system located primarily within Barber County, Kansas, with one short six-mile diameter segment extending 2.5 miles into Woods County, Oklahoma. It is indicated that the system gathers gas from 25 wells in three gas fields and consists of well laterals ranging from two to six inches in diameter converging into slightly larger-diameter supply lines. Zenith states that it currently purchases gas at the wellhead and sells gas to Panhandle and the City of Hardtner, Kansas, with approximately 99 percent of the gas being sold to Panhandle. Zenith states that upon the termination of its sales to Panhandle it would be faced with the prospect of discontinuing or substantially reducing operations on July 1, 1991. It is also indicated that the wells from which Zenith purchases its supplies would be forced to be shut in and that service to Hardtner, Kansas would be jeopardized.

Zenith states that consistent with the modified primary function test adopted in the Amerada Hess case, 52 FERC 61,268, that, upon abandonment of its sales to Panhandle, its facilities should be declared to be gathering facilities exempt from regulation under section 1(b) of the Natural Gas Act. In support of this contention, Zenith describes its facilities as small diameter, short-length, and low-pressure.

Zenith also requests to be treated as an independent producer in order to allow Zenith to change its rates under the blanket authority of § 154.94 of the Commission's regulations. Zenith indicates that otherwise it would be unable to adjust its rates for sales to Hardtner without burdensome and repetitive rate filings under the Natural Gas Act.

Any person desiring to be heard or to make any protest with reference to said petition should on or before July 1, 1991 file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 385.214 or 385.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to

VOL 56 ISS 124 JE 27 1991 UMI

intervene in accordance with the Commission's Rules.

Lois D. Cashell,

Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-3966-5]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden.

DATES: Comments must be submitted on or before July 29, 1991.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA, (202) 382-2740.

SUPPLEMENTARY INFORMATION:

Office of Research and Development

Title: Milk Cow and Population Survey (EPA No. 1221.03; OMB No. 2060-0017). This ICR is a renewal of an existing information collection.

Abstract: Under 44 U.S.C. 3501(1)(3), the EPA conducts an annual or biennial survey of dairy farms and ranches within a 300 kilometer radius of the Nevada Test Site (NTS). The information collected includes the location of dairy farms and ranches, and the diet and number of milk-producing livestock at these farms and ranches. The EPA compiles this information in a directory that is used, along with other data, to predict radiation exposure levels exposure levels outside of the NTS. The directory may also be used by the EPA to develop a sampling strategy following a release of radioactivity from the NTS.

Burden Statement: Public reporting burden for this collection of information is estimated to average 30 minutes per response including reviewing instructions, searching existing information sources, maintaining records, and completing and reviewing the collection of information.

Respondents: Farms.

Estimated Numbers of Respondents: 505.

Frequency of Collection: Annual.

Estimated Number of Responses Per Respondent: 1.

Send comments regarding the burden estimate, or any other aspect of this collection of information, including suggestions for reducing the burden, to:

Sandy Farmer, U.S. Environmental Protection Agency, Information Policy Branch (PM-223Y), 401 M Street, SW., Washington, DC 20460.

and

Ron Minsk, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th St., N.W., Washington, DC 20503.

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before July 29, 1991.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA, (202) 382-2740.

SUPPLEMENTARY INFORMATION:

Office of Air and Radiation

Title: NSPS subpart G—Information Requirements for Nitric Acid Plants. (ICR #1056.04; OMB #2060-0019). This is a renewal of a currently approved collection.

Abstract: Owners or operators of nitric acid plants must notify EPA of construction, reconstruction, modification, date of anticipated and actual startup, shutdown, malfunctions and date and results of performance tests. Owners or operators of affected facilities are required to install, calibrate, maintain, and operate a continuous monitoring system (CMS) for the measurement and recording of nitrogen oxides. They must submit semiannual reports of excess emissions measured by CMS that include all 3-hour periods during which the average nitrogen oxides emissions exceeds 1.5 kg per metric ton of nitric acid produced. EPA uses the information to determine compliance with and enforce the new source performance standard.

Burden Statement: The public reporting burden for this collection of information is estimated to average 9.15 hours per response for reporting, and 175 hours per recordkeeper annually. The estimated reporting burden includes the time needed to review instructions, search existing data sources, gather the data needed and review the collection of information.

Respondents: Owners and operators of nitric acid plants.

Estimated No. of Respondents: 36.

Estimated No. of Responses Per Respondent: 2.

Estimated Total Annual Burden on Respondents: 6,959 hours.

Frequency of Collection: Once and semiannually.

Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to:

Sandy Farmer, U.S. Environmental Protection Agency, Information Policy Branch (PM-223Y), 401 M Street, SW., Washington, DC 20460.

and

Troy Hillier, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th Street, NW., Washington, DC 20503.

Biotechnology Science Advisory Committee; Subcommittee on the Proposed Biotechnology Rule under TSCA; Open Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of open meeting.

SUMMARY: There will be a 1-day meeting of the Biotechnology Science Advisory Committee's Subcommittee on the proposed biotechnology rule under TSCA. The meeting will be open to the public. The Subcommittee will review a set of scientific issues being considered by the Agency in connection with a proposed rule under the Toxic Substances Control Act (TSCA) for screening and use of microorganisms subject to TSCA.

DATES: The meeting will be held on Monday, July 22, 1991, starting at 9 a.m. and ending at 5 p.m.

ADDRESSES: The meeting will be held at: The Hyatt-Regency Crystal City, 2799 Jefferson Davis Highway, Arlington, VA.

FOR FURTHER INFORMATION CONTACT: David Kling, Acting Director, Environmental Assistance Division (TS-799), Office of Toxic Substances, Environmental Protection Agency, rm. EB-44, 401 M St., SW., Washington, DC 20460, telephone (202) 554-1404, TDD (202) 554-0551.

SUPPLEMENTARY INFORMATION: This notice is in accordance with the Federal Advisory Committee Act which requires timely notice of each meeting of a Federal Advisory Committee be published in the **Federal Register**. This notice announces such a meeting. Attendance by the public will be limited to available space. The TSCA Assistance Office will provide summaries of the meeting at a later date.

Dated: June 21, 1991.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection Requirement Submitted to Office of Management and Budget for Review

June 21, 1991

The Federal Communications Commission has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1980 (44 U.S.C. 3507).

Copies of this submission may be purchased from the Commission's copy contractor, Downtown Copy Center, 1114 21st Street, NW., Washington, DC 20036, (202) 452-1422. For further information on this submission contact Kathy Conley, Federal Communications Commission, (202) 632-7513. Persons wishing to comment on this information collection should contact Jonas Neihardt, Office of Management and Budget, room 3235 NEOB, Washington, DC 20503, (202) 395-4814.

OMB Number: 3060-0051.

Title: Application for Renewal of Ship/Aircraft Radio Station License.

Action: Revision.

Respondents: Individuals, State or local governments, Business (including small business), and Non-profit institutions.

Frequency of Response: On occasion reporting and other: every 5 years

Estimated Annual Burden: 50,000 responses, .166 hours average burden per respondent, 8,300 hours total annual burden.

Needs and Uses: The FCC 405B is a computer generated expiration notice which is sent to Ship and Aircraft Radio Station licensees. By returning this notice to the FCC, the licensees are able to renew their authorization when there are no changes or only minor changes to the existing authorization. Data is used to update the existing database and to issue renewed licenses.

Public Information Collection Requirement Submitted to Office of Management and Budget for Review

June 21, 1991

The Federal Communications Commission has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reducation Act of 1980 (44 U.S.C. 3507).

Copies of this submission may be purchased from the Commission's copy contractor, Downtown Copy Center, 1114 21st Street, NW., Washington, DC 20036, (202) 452-1422. For further information on this submission contact Kathy Conley, Federal Communications Commission, (202) 632-7513. Persons wishing to comment on this information collection should contact Jonas Neihardt, Office of Management and Budget, room 3235 NEOB, Washington, DC 20503, (202) 395-4814.

OMB Number: None.

Title: Application for Renewal of Private Radio Station License.

Action: New Collection.

Respondents: Individuals State or local governments, Business (including small business), and Non-profit institutions.

Frequency of Response: On occasion reporting and other: every 5 years.

Estimated Annual Burden: 2,700 responses, .166 hours average burden per respondent, 448 hours total annual burden.

Needs and Uses: This form is filed by licensees in the Marine Coast and Aviation Ground Radio services for renewal of an existing authorization. The data is used to determine eligibility for renewal, issue a radio station authorization, and used in conjunction with field engineers for enforcement purposes.

Federal Communications Commission.

FEDERAL DEPOSIT INSURANCE CORPORATION

Information Collection Submitted to OMB for Review

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Notice of information collection submitted to OMB for review and approval under the Paperwork Reduction Act of 1980.

SUMMARY: In accordance with requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35), the FDIC hereby gives notice that it has submitted to the Office of Management and Budget a request for OMB review of the information collection system described below.

Type of Review: Revision of a currently approved collection.

Title: Report of Pledged Assets.

Form Number: None.

OMB Number: 3064–0010.

Expiration Date of OMB Clearance: July 31, 1991.

Frequency of Response: On occasion and semiannually.

Respondents: U.S. branches of foreign banks and depositories holding their pledged assets.

Number of Respondents: 51.

Number of Responses Per Respondent: 2.78.

Total Annual Responses: 142.

Average Number of Hours Per Response: 1.

Total Annual Burden Hours: 142.

OMB Reviewer: Gary Waxman, (202) 395–7340, Office of Management and Budget, Paperwork Reduction Project (3064–0010), Washington, DC 20503.

FDIC Contact: Steven F. Hanft, (202) 898–3907, Office of the Executive Secretary, room F–400, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429.

Comments: Comments on this collection of information are welcome and should be submitted before August 26, 1991.

ADDRESSES: A copy of the submission may be obtained by calling or writing the FDIC contact listed above. Comments regarding the submission should be addressed to both the OMB reviewer and the FDIC contact listed above.

SUPPLEMENTARY INFORMATION: Section 5(c) of the Federal Deposit Insurance Act (12 U.S.C. 1815(c)) provides that before any U.S. branch of a foreign bank becomes insured, the bank shall deliver to the FDIC a surety bond, a pledge of assets, or both. The pledged assets are to be lodged at a designated depository. The assets will protect the FDIC against the risks of insuring the domestic deposits of a U.S.-based branch of a foreign bank whose operations are in large part outside the United States. To ensure compliance, the FDIC has placed reporting requirements (initial and semiannual reports) in its regulation regarding Foreign Banks, 12 CFR part 346.

Dated: June 21, 1991.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

BILLING CODE 6714–01–M

FEDERAL RESERVE SYSTEM

Agency Forms Under Review

June 21, 1991.

Background

On June 15, 1984, the Office of Management and Budget (OMB) delegated to the Board of Governors of the Federal Reserve System (Board) its approval authority under the Paperwork Reduction Act of 1980, as per 5 CFR 1320.9, "to approve of and assign OMB control numbers to collection of information requests and requirements conducted or sponsored by the Board under conditions set forth in 5 CFR 1320.9." Board-approved collections of information will be incorporated into the official OMB inventory of currently approved collections of information. A copy of the SF 83 and supporting statement and the approved collection of information instrument(s) will be placed into OMB's public docket files. The following forms, which are being handled under this delegated authority, have received initial Board approval and are hereby published for comment. At the end of the comment period, the proposed information collection, along with an analysis of comments and recommendations received, will be submitted to the Board for final approval under OMB delegated authority.

DATES: Comments must be submitted on or before July 12, 1991.

ADDRESSES: Comments, which should refer to the OMB Docket number (or Agency form number in the case of a new information collection that has not yet been assigned an OMB number), should be addressed to Mr. William W. Wiles, Secretary, Board of Governors of the Federal Reserve System, 20th and C Streets, NW., Washington, DC 20551, or delivered to room B–2223 between 8:45 a.m. and 5:15 p.m. Comments received may be inspected in room B–1122 between 8:45 a.m. and 5:15 p.m., except as provided in § 261.8(a) of the Board's Rules Regarding Availability of Information, 12 CFR 261.8(a).

A copy of the comments may also be submitted to the OMB desk officer for the Board: Gary Waxman, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, room 3208, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: A copy of the proposed form, the request for clearance (SF 83), supporting statement, instructions, and other documents that will be placed into OMB's public docket files once approved may be requested from the agency clearance officer, whose name appears below. Federal Reserve Board Clearance Officer—Frederick J. Schroeder—Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202–452–3829).

Proposal to approve under OMB delegated authority the extension, without revision, of the following report:

1. Report title: Annual Report on Status of Disposition of Assets Acquired in Satisfaction of Debt Previously Contracted.

Agency form number: FR 4006.

OMB Docket Number: 7100–0129.

Frequency: Annual.

Reporters: Bank holding companies.

Annual reporting hours: 3000.

Estimated average hours per response: 5.

Number of respondents: 600.

Significant effect on small business is not expected.

General description of report: This information collection is required by law [12 U.S.C. 1843(c)(2) and 1844(c)]. Certain portions may be given confidential treatment at applicant's request [5 U.S.C. 552(b)(4)]

Abstract: Bank holding companies that acquire assets in satisfaction of debts previously contracted are required to submit an annual report to the Board on the progress made to dispose of assets or shares that have been held two years beyond the initial date of their acquisition. The report is submitted by letter, does not have required format, and serves to identify potentially unsound situations and to encourage timely compliance with the divestiture requirement as contained in the statutes and regulation.

Proposal to approve under OMB delegated authority the implementation of the following report:

1. Report title: Survey of the Nation's Check-Collection System.

Agency form number: FR 3065.

OMB Docket Number: 7100–0251.

Frequency: One-time.

Reporters: Certain depository institutions.

Annual reporting hours: 40,000.

Estimated average hours per response: 80.

Number of respondents: 500.

Small businesses are not affected.

General description of report: This information collection is voluntary [12 U.S.C. 4001 *et seq.*] and individual respondent data from the depository institutions are given confidential treatment [5 U.S.C. 552(b)(4)].

Abstract: The Federal Reserve proposes to participate with the Bank Administration Institute (BAI) in a survey of the nation's check-collection system. The survey would involve a sample of some 500 depository institutions nationwide and is aimed at providing an accurate, up-to-date description of the U.S. check-collection system and clearing patterns at both the national and regional levels, as well as on a bank-size basis. The survey would provide information regarding forward collection and returned check processes, as well as the increasing use of electronic check services.

Board of Governors of the Federal Reserve System, June 21, 1991.

William W. Wiles,

Secretary of the Board.

[FR Doc. 91–15296 Filed 6–26–91; 8:45 am]

BILLING CODE 6210–01–M

[Docket No. 7100–0126]

Federal Reserve Reporting Form

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Interim extension of agency form.

BACKGROUND: Notice is hereby given of approval, on an interim basis, by the Board of Governors of the Federal Reserve System ("Board") of the extension of the reporting requirement that is identified below, under authority delegated to the Board by the Office of Management and Budget ("OMB"), as

VOL 56 ISS 124 JE 27 1991 UMI

per 5 CFR 1320.9 (OMB Regulations on Controlling Paperwork Burdens on the Public). The approval on an interim basis allows for the uninterrupted collection of confidential data by the Federal Reserve System. The extension will allow the Federal Reserve to continue the information collection in its current form until a review of the reporting requirements can be completed in view of the restrictions contained in sections 23A and 23B of the Federal Reserve Act and in other proposed regulations governing intercompany transactions. (All proposed revisions resulting from these efforts would undergo the normal clearance process, including the opportunity for public comment.) The interim extension shall be effective immediately. The Board will consider all public comments and determine, on the basis of those comments, whether this extension as approved on an interim basis should become final.

DATES: Comments must be submitted on or before July 12, 1991.

ADDRESSES: Comments, which should refer to the OMB Docket numbers, should be addressed to Mr. William W. Wiles, Secretary, Board of Governors of the Federal Reserve System, 20th and C Streets, NW., Washington, DC 20551, or delivered to room B-2223 between 8:45 a.m. and 5:15 p.m. Comments received may be inspected in room B-1122 between 8:45 a.m. and 5:15 p.m., except as provided in § 261.8(a) of the Board's Rules Regarding Availability of Information, 12 CFR 261.8(a).

A copy of the comments may also be submitted to the OMB desk officer for the Board: Gary Waxman, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, room 3208, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: A copy of the report form, the request for clearance (SF 83), supporting statement, instructions, and other documents that will be placed into OMB's public docket files upon final approval may be requested from the agency clearance officer, whose name appears below. Federal Reserve Board Clearance Officer—Frederick J. Schroeder—Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202-452-3829).

Questions on the substance of the proposal should be addressed to Steve Lovette, Manager, Policy Implementation Section, Division of Banking Supervision and Regulation, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202-452-3622).

Interim approval under OMB delegated authority of the one-year extension, without revision, of the following report:

1. Report title: Report of Bank Holding Company Intercompany Transactions and Balances.
Agency form number: FR Y-8.
OMB Docket number: 7100-0126.
Frequency: Semiannual.
Reporters: Bank holding companies.
Annual reporting hours: 10,080.
Estimated average hours per response: 9.
Number of respondents: 550.
Small businesses are not affected.
General description of report: This report is mandatory [12 U.S.C. 1844(c)] and collections data required to supervise bank holding companies and their subsidiary banks. The data gathered on the form is accorded confidential treatment [5 U.S.C. 552b(8)].

Abstract: This report collects data on the transactions between a domestic bank holding company (or its nonbank subsidiaries) and its subsidiary banks. The information collected enables the Federal Reserve to identify categories of intercompany funds flows, internal transactions and balances that may have an adverse impact on the safety and soundness of federally-insured bank subsidiaries of bank holding companies.

A one-year interim extension is proposed to allow sufficient time to review the reporting requirements in view of the restrictions placed on intercompany transactions by sections 23A and 23B of the Federal Reserve Action and other applicable regulations. These modifications have become necessary to address supervisory and regulatory concerns arising from recent significant increases in intercompany transactions.

Board of Governors of the Federal Reserve System, June 21, 1991.
William W. Wiles,
Secretary of the Board.

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration; Statement of Organization, Functions, and Delegations of Authority

Part H, chapter HF (Food and Drug Administration) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health and Human Services (35 FR 3685, February 25, 1970, as amended most recently in pertinent part at 55 FR 42655, October 22, 1990) is amended to change the designator for the chapter and all of its sections from HF to HK and to reflect the organization realignment of the Food and Drug Administration. The realignment will establish an overall management and organizational structure that will reduce the FDA Commissioner's span of control to better develop and to implement the Agency's strategic objectives.

Food and Drug Administration

Under chapter HK, list the major sections of the chapter and its statements as:

HK-A Mission
HK-B Organization
HK-C Order of Succession
HK-D Delegations of Authority

Under section HK-A, Mission, substitute the following:

The mission of the Food and Drug Administration (FDA) is to protect the public health of the Nation as it may be impaired by foods, drugs, biological products, cosmetics, medical devices, ionizing and non-ionizing radiation-emitting products and substances, poisons, pesticides, and food additives. FDA's regulatory functions are geared to insure that: Foods are safe, pure and wholesome; drugs, medical devices, and biological products are safe and effective; cosmetics are harmless; all of the above are honestly and informatively packaged; and that exposure to potentially injurious radiation is minimized.

Under section HK-B, Organization, substitute the following:

The Food and Drug Administration is administered by a Commissioner of Food and Drugs under the direction of the Assistant Secretary for Health. The Food and Drug Administration consists of the following major components with functions as indicated.

Under section HK-B, Organization, substitute all titles and functional statements within the Food and Drug Administration with the following:

Office of the Commissioner (HKA). The Commissioner and the Deputy Commissioners are responsible for the efficient and effective implementation of the Food and Drug Administration's (FDA) mission.

The Office of the Commissioner includes the: Office of the Administrative Law Judge (HKA2), Office of Executive Operations (HKA4), Office of Equal Employment and Civil Rights (HKA5).

Office of Operations (HKB). Advises and assists the Commissioner and other key officials on compliance-oriented matters.

Develops and administers all Agency field operations and provides direction and counsel to Regional Food and Drug Directors.

Administers regulation of biological products under the biological product control provisions of the Public Health Service Act and applicable provisions of the Federal Food, Drug, and Cosmetic Act. Works to develop an AIDS vaccine and AIDS diagnostic tests, and conducts other AIDS-related activities.

Develops and administers programs with regard to the safety, effectiveness, and labeling of all drug products for human use.

Develops and administers programs with regard to the safety, composition, quality (including nutrition), and labeling of foods, food additives, colors, and cosmetics.

Develops and administers programs with regard to control of unnecessary exposure of humans to, and assures the safe and efficacious use of, ionizing and non-ionizng radiation-emitting electronic products.

Develops and administers programs with regard to the safety, effectiveness, and labeling of medical devices for human use.

Develops and administers programs with regard to the safety and effectiveness of animal drugs, feeds, feed additives, veterinary medical devices (medical devices for animal use), and other veterinary medical products.

The Office of Operations includes the: Office of Regulatory Affairs (HKBC), Regional Field Offices (HKBR), Center for Biologics Evaluation and Research (HKBB), Center for Drug Evaluation and Research (HKBD), Center for Food Safety and Applied Nutrition (HKBE), Center for Devices and Radiological Health (HKBW), Center for Veterinary Medicine (HKBV).

Office of Policy (HKC). Directs and coordinates the Agency's rulemaking activities and regulations development system. Initiates new and more efficient systems or procedures to accomplish Agency goals in the rulemaking process and plans "regulatory reform" steps.

Serves as the Agency focal point for developing and maintaining communications, policies, and programs with regard to regulations development and international harmonization, including international standard setting and bilateral agreements on inspections.

Office of External Affairs (HKE). Advises and assist the Commissioner concerning legislative needs. Serves as focal point for overall legislative liaison activities.

Advises and assists the Commissioner and other key officials on all public information programs. Acts as the focal points for disseminating news on FDA activities.

Advises and assists the Commissioner on health issues which have an impact on policy, direction, and long-range program goals. Coordinates Agency relations with health professional groups and represents the Agency on issues involving technology assessment and medical insurance coverage decisions regarding FDA-regulated products.

Advises and assists the Commissioner on consumer affairs issues. Serves as the Agency focal point for coordinating information from the appropriate Agency components about significant consumer affairs issues.

Advises and assists the Commissioner and other Agency officials on industry-related issues which have an impact on policy, direction, and goals. Serves as Agency focal point on small business, scientific, and trade affairs.

The Office of External Affairs includes the: Office of Small Business, Scientific, and Trade Affairs (HKEC), Office of Health Affairs (HKEB), Office of Legislative Affairs, (HKED), Office of Consumer Affairs (HKEG), Office of Public Affairs (HKE).

Office of Science (HKH). Advises and assists the Commissioner on scientific biotechnological issues which have an impact on policy, direction, and long-range goals.

Manages the implementation of the provisions of the Orphan Drug Act.

Coordinates the Agency's Acquired Immune Deficiency Syndrome (AIDS) program.

Advises and assists the Commissioner with regard to research programs being conducted to study the biological effects of potentially toxic chemical substances found in the environment to determine the adverse health effects resulting from long-term, low-level exposure to chemical toxicants in animal organisms, to develop improved methodologies and test protocols for evaluating the safety of chemical toxicants, and to develop data to facilitate the extrapolation of toxicological data from laboratory animals to man.

The Office of Science includes the: Office of AIDS Coordination (HKHC), Office of Orphan Products Development (HKHE), Office of Biotechnology (HKHH), National Center for Toxicological Research (HKHT).

Office of Management and Systems (HKJ). Advises and assists the Commissioner regarding the performance of FDA resource planning, development, and evaluation activities.

Develops programs and planning stragegy through analysis and evaluation of issues affecting policies and program performance.

Assures that the conduct of Agency administrative and financial management activies, including budget, finance, personnel, organization, methods, grants and contracts, procurement and property, records, and similar support activities, effectively supports program operations.

Coordinates the integration and development of management information systems.

Advises the Commissioner on management information systems policies.

The Office of Management and Systems includes the: Office of Planning and Evaluation (HKJB), Office of Management (HKJC).

Under Section HK-D, Delegations of Authority, add the following paragraph:

Prior Delegations of Authority. Pending further delegations, directives, or orders by the Commissioner of Food and Drugs, all relevant delegations in effect prior to the date of this order shall continue in effect among officers, employees, or their successors.

Dated: June 7, 1991.
Louis W. Sullivan,
Secretary.
[FR Doc. 91-15254 Filed 6-26-91; 8:45 am]
BILLING CODE 4160-1-M

Agency for Toxic Substances and Disease Registry

[ATSDR-35]

Environmental Protection Agency; Intent To Revise the Priority List of Hazardous Substances That Will Be the Subject of Toxicological Profiles

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Public Health Service (PHS), Department of Health and Human Services (DHHS); and Environmental Protection Agency (EPA).

ACTION: Request for Public Comment on the Revised Methodology for Generating the Priority List of Hazardous Substances.

SUMMARY: The Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund), as amended by the Superfund Amendments and Reauthorization Act (SARA), establishes certain requirements for ATSDR and EPA with regard to

VOL 56 ISS 124 JE 27 1991 UMI

hazardous substances which are most commonly found at facilities on the CERCLA National Priorities List (NPL). CERCLA, as amended (42 U.S.C. 9604(i)(2)), requires that the two agencies prepare a list, in order of priority, of at least 100 hazardous substances that are most commonly found at facilities on the NPL and which, in their sole discretion, are determined to pose the most significant potential threat to human health (see 52 FR 12866, April 17, 1987). CERCLA also requires the agencies to revise the priority list to include 100 or more additional hazardous substances (see 53 FR 41280, October 20, 1988), and to include at least 25 additional hazardous substances in each of the three successive years following the 1988 revision (see 54 FR 43619, October 26, 1989; 55 FR 42067, October 17, 1990). Each substance on the list of priority hazardous substances becomes the subject of a toxicological profile prepared by ATSDR.

This notice provides notification that the algorithm used to generate the priority list of hazardous substances is being reevaluated and revised to include more current and comprehensive information in the ranking process. With this notice, ATSDR and EPA solicit public comment on this revised approach for evaluating and ranking hazardous substances found at NPL sites. After the agencies consider the comments received, the revised algorithm will be applied to an inventory of candidate substances, as described in section II.A. of this notice, including the 250 previously ranked substances, to generate a new priority list of 275 hazardous substances which will be the subject of toxicological profiles. This new list will be published in the **Federal Register** on or before October 17, 1991, fulfilling the requirements of CERCLA section 104(i), as amended, which mandated the ATSDR to generate a priority list of 275 hazardous substances by that date. The agencies intend to revise the list of hazardous substances annually thereafter to reflect changes and improvements in data collection.

DATES: Comments concerning this notice must be received by July 26, 1991.

ADDRESSES: Comments on this notice should bear the docket control number ATSDR–35, and should be submitted to: ATSDR, Division of Toxicology, Mail Stop E–29, 1600 Clifton Rd. NE., Atlanta, GA 30333.

All comments will be placed in a publicly accessible docket; therefore, please do not submit confidential business information.

FOR FURTHER INFORMATION CONTACT: Quality Assurance Branch, Division of Toxicology, ATSDR, Atlanta, GA, 30333; 404–639–6030 or FTS 236–6030.

SUPPLEMENTARY INFORMATION:

I. Background

Section 104(i) of CERCLA, as amended, requires ATSDR and EPA to: (1) Prepare a list of hazardous substances found at NPL sites (in order of priority), (2) develop toxicological profiles for those substances, and (3) initiate a research program to fill priority data needs identified for the substances.

A priority list of the first 100 substances was published on April 17, 1987 (52 FR 12866), with a short summary of the procedure used by ATSDR and EPA to compile the list. In that notice, the agencies solicited public comment on the approach adopted for evaluating and ranking hazardous substances found at NPL sites and announced the intention to refine the listing process in response to these comments, as well as the ongoing efforts by the agencies to improve the listing process.

A second priority list of 100 additional substances was published on October 20, 1988 (53 FR 41280), and the revised procedure used to prepare the second priority list was summarized. For the most part, the same procedure was used to generate the third and fourth lists of 25 substances each (54 FR 43619, October 26, 1989, and 55 FR 42067, October 17, 1990).

The previous priority lists of hazardous substances were based on the most comprehensive and relevant information available when the lists were developed. More comprehensive sources of information for the frequency of occurrence of substances at NPL sites and the potential for human exposure at these sites have become available since publication of the first priority list in 1987. The approach described in this notice will be used to reevaluate the 250 substances included on the previous priority lists and will be used to identify at least 25 additional substances. A revised priority list of 275 hazardous substances will subsequently be published in the **Federal Register.**

The current approach proposed for use in generating the revised priority list of 275 hazardous substances is summarized below. With this notice, the agencies solicit comments from the public on this approach; such comments should be submitted in accordance with the instructions provided in this notice. The agencies will continue to seek improvements in the listing process as future revisions of the list are prepared. All comments previously received are in the public file. Descriptions of the previous listing methodologies are contained in the **Federal Register** citations provided above and in support documents which have been placed in the public file and are available for review (see section IV of this notice).

II. Methodology for Identifying Substances for the Revised Priority List

A. General Approach Taken by ATSDR and EPA

The approach used by ATSDR and EPA to generate the revised priority list of hazardous substances is a modification of the approaches used for the previous lists. The modifications reflect efforts to: (1) Improve data acquisition for substances on the previous lists, and (2) adapt the method to include data sources that provide a more direct indication of potential exposure to substances found at NPL sites. The hazardous substances to be considered for inclusion in the revised priority list will be drawn from an ATSDR list of at least 700 hazardous substances with documented evidence of occurrence at one or more NPL sites. ATSDR and EPA will establish the priority of these substances based on the following three criteria for determining the degree to which each substance poses a potential human health risk: (1) Frequency of occurrence at NPL sites, (2) toxicity, and (3) potential for human exposure to the substance. These criteria meet the requirements of section 104(i)(2) of CERCLA, as amended, and reflect the general practice of defining human health risk in terms of the toxicity and human exposure potential of a substance.

B. Selection of a Data Source for the Frequency-of-Occurrence Criterion

ATSDR and EPA have selected ATSDR's HAZDAT database as the source of data on frequency of occurrence of substances at NPL hazardous waste sites or facilities. The HAZDAT system is the scientific and administrative database developed by ATSDR as a repository for information on hazardous substances found at NPL and non-NPL waste sites or emergency events and on the potential health effects of hazardous substances on human populations. The sources of HAZDAT site-specific information include ATSDR health assessments, health consultations, and other site-specific documents submitted to ATSDR by EPA, state agencies, and other parties. HAZDAT has information on approximately 1300 sites that have been proposed for, listed on, or delisted from the NPL. Furthermore, the HAZDAT database contains information on substances that have been identified at sites but are currently not included in EPA's Contract Laboratory Program databases. HAZDAT contains information on substances in groundwater, surface water, leachate, soil, sludge, sediment, air, soil gas, biota, human tissues, and waste materials or containers.

C. Determination of the Toxicity Component of the Ranking Methodology

For several reasons, ATSDR and EPA will continue to use the Reportable Quantity (RQ) approach as the toxicity hazard scoring system. It provides the most complete characterization of toxicity of all hazard scoring systems reviewed by the two agencies; other schemes were most limited in either the consideration of different types of toxic effects, severity of effects, or potency. In addition, toxicity data used in the RQ approach are derived from primary peer-reviewed literature, and RQs have already been established for the majority of substances frequently detected at hazardous waste sites. Moreover, the determination of RQ health effect values utilizes weight-of-evidence considerations in the evaluation of data.

The reportable quantity ranking scheme was developed by EPA to set RQs for hazardous substances as required by CERCLA. Under CERCLA section 103(a), any person in charge of a vessel or facility from which a hazardous substance has been released in a quantity that equals or exceeds its RQ must immediately notify the National Response Center and state and local response authorities of the release. RQs are developed for individual chemicals and waste streams that have already been designated under CERCLA section 101(14) as hazardous substances.

Each CERCLA hazardous substance is assigned to one of five tiered RQ categories (1, 10, 100, 1000, and 5000 pounds) based on chronic toxicity, acute toxicity, carcinogenicity, aquatic toxicity, and ignitability and reactivity. RQs are determined for each criterion separately, and the lowest of these is selected as the RQ for the substance. RQ methodology will be applied for those candidate substances which lack final CERCLA RQs to establish a toxicity score. The RQ scoring scheme is described in several **Federal Register** documents (50 FR 13456, April 4, 1985; 51 FR 34534, September 29, 1986; and 52 FR 8140, March 16, 1987).

D. Determination of the Potential for Human Exposure Component of the Ranking Methodology

In the approach for the revised priority list, ATSDR and EPA have identified the most useful and directly relevant data to assess the potential for human exposure to hazardous substances at NPL sites. The exposure component will be based on the following information.

(1) Concentrations of the Substances in Environmental Media

To provide a means of ranking substances based on concentration data, the following formula for calculating a relative source contribution (SC) will be used:

$$SC = \frac{(C_w A_w) + (C_w A_w) + (C_s A_s)}{RQ}$$

Where C_x = mean concentration of the substance in a particular environmental media (a = air, w = water, s = soil); A_x = standard exposure assumption for the particular environmental media to calculate the potential daily dose to humans (e.g., 2 liters drinking water consumed per day); and RQ = the reportable quantity for the substance. This factor will assist in distinguishing between those substances that occur at low concentrations but are highly toxic and those substances that occur at higher concentrations but are relatively less toxic. The HAZDAT system will be the primary source of the concentration data.

(2) Exposure Status of Populations

Information concerning documented exposure or potential exposure to a particular substance or to environmental media in which a substance is found will be used in the exposure component. HAZDAT provides information on exposure or potential exposure to specific substances and to media, such as drinking water. For substances lacking HAZDAT information, the National Priorities List Technical Database (NPLT) may be used to provide information on exposure to substances or environmental media.

(3) Populations Surrounding NPL Sites

For substances that lack concentration and exposure status data, data on populations surrounding sites at which the substance is found will be used as a factor in the potential for human exposure component. While ATSDR and EPA recognize that this is an indirect indication of the potential for human exposure to a substance, consideration of the size of the population potentially impacted is relevant to the establishment of priority rank. Sources of population data include HAZDAT (estimates of exposed and potentially exposed populations), EPA's NPLT (estimates of populations by site and by media), and EPA's ACCESS (1988 population data by site).

III. Generation of the Revised Priority List

Using the data sources described in this notice, ATSDR and EPA will rank the hazard potential of each candidate substance. A revised priority list of at least 275 substances that will be the subject of toxicological profiles and subsequent identification of priority data needs will then be published in the **Federal Register** on or before October 17, 1991.

IV. Administrative Record

ATSDR and EPA are establishing a single administrative record entitled ATSDR–35 for materials pertaining to this notice. All materials received as a result of this notice will be included in the public file which is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, except Federal legal holidays, at the Agency for Toxic Substances and Disease Registry, Building 33, Executive Park Drive, Atlanta, Georgia.

Dated: June 11, 1991.

For the Agency for Toxic Substances and Disease Registry.

Walter R. Dowdle,

Acting Administrator, Agency for Toxic Substances and Disease Registry.

Dated: June 11, 1991.

Alcohol, Drug Abuse, and Mental Health Administration

Advisory Committee Meeting in July

AGENCY: Alcohol, Drug Abuse, and Mental Health Administration.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of the forthcoming meeting of an agency advisory committee in the month of July 1991.

The meeting of the Extramural Science Advisory Board, NIMH, will

VOL 56 ISS 124 JE 27 1991 UMI

include a comprehensive overview and discussion of the Institute's extramural research portfolio. The meeting will be open and attendance by the public will be limited to space available.

Notice of this meeting is required under the Federal Advisory Committee Act, Public Law 92-463.

* * * * *

Committee Name: Extramural Science Advisory Board, NIMH.

Meeting Date(s): July 22-23, 1991.

Place: National Institutes of Health Building 31, Conference Room 8 Bethesda, MD.

Open: July 22-23, 8:30 a.m.-5 p.m.

Contact: Tony Pollitt, room 17C-26, Parklawn Building, Telephone (301) 443-3175.

Substantive information, meeting summary, and roster of committee members may be obtained from Ms. Joanna Kieffer, NIMH Committee Management Officer, room 9-105, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857 (Telephone 301-443-4333).

Dated: June 21, 1991.

Peggy W. Cockrill,

Committee Management Officer, Alcohol, Drug Abuse, and Mental Health Administration.

BILLING CODE 4160-20-M

Centers for Disease Control

[Program Announcement Number 141]

Identification and Prevention of Air Pollutants and Other Environmental Determinants of Asthma Among Minority Children in Urban Areas; Availability of Fund for Fiscal Year 1991

Introduction

The Centers for Disease Control (CDC) announces that cooperative agreement applications are being accepted for a demonstration project dealing with the Identification and Prevention of Air Pollutants and other Environmental Risk Factors for Asthma Among Minority Children in Urban Areas. The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority areas of Environmental Health and Diabetes and Chronic Disabling Conditions. (For ordering a copy of Health People 2000, see the Section Where to Obtain Additional Information.)

Authority: This program is authorized under section 317 of the Public Health Service Act, as amended (42 U.S.C. 247b). Program regulations are set forth in Title 42, U.S. Code to Federal Regulations, part 51b.

Eligible Applicants

Eligible applicants are state health departments of other state agencies or departments deemed most appropriate to lead, coordinate, and conduct this demonstration project, and agencies or units of local governments that serve a metropolitan population which includes at least 75,000 black or other minority children under age 15. This eligibility includes health departments or other official organization authority (agency or instrumentality) of the District of Columbia, the Commonwealth of Puerto Rico, and any territory or possession of the United States.

Only one application from an official agency will be accepted from each state. If an agency applying for funds is other than the official state health department, written concurrence by the state health department must be provided.

Eligible applicants may enter into contracts and consortia agreements and understanding as necessary to meet the requirements of the program and strengthen the overall application. Since one objective of this cooperative agreement is to demonstrate agency capability, no more than 20% of the total direct costs can to used for contracts, consortia agreements, or understandings with other parties. The intent to use such mechanisms must be stated in the application and the nature and scope of work of these mechanisms requires the approval of CDC.

Availability of Funds

Approxmately $120,000 is available in Fiscal Year 1991 to fund one demonstration project with a project period of up to three years. The award will begin on or about September 30, 1991, for a 12-month budget period. Funding for future years depends on availability of funds and demonstrated progress. Funding estimates may vary and are subject to change. Successful completion of epidemiologic studies and the design of an intervention program does not assure continued funding for program implementation.

Funds may not be expended for medical care and treatment or environmental remediation of air pollution sources.

Purpose

The purpose of this demonstration project is to identify environmental risk factors for asthma exacerbations which could then form the basis for effective prevention strategies.

Minority children have been targeted because asthma is more common in children than in adults, and hospitalizations from asthma is twice as prevalent among blacks than whites. The specific objectives are:

A. To identify specific environmental risk factors, including air pollutants and other environmental determinants, which may be associated with asthma exacerbations among minority children, estimate exposure to these risk factors, and measure the strength of the associations between these risk factors and asthma morbidity, based on epidemiologic studies. The project could include surveilliance for hospitalizations or emergency room visits, followed by a case-control or cohort study of hypothesized risk factors and asthma occurrence.

B. To establish priorities for education and other prevention efforts aimed at reducing asthma morbidity among urban minority children, based on the results of epidemiologic studies conducted under this project.

C. To design an intervention aimed at reducing exposures to one or more identified risk factors, which shall include air pollutants such as ozone, sulfur dioxide, acid aerosols, particulate, exposures to irritant chemicals resulting from industrial emissions or the use of consumer products, or other environmental factors of interest in the study area.

Program Requirements

In conducting activities to achieve the purpose of this program, the recipient shall be responsible for conducting activities under A. below and CDC will be responsible for conducting activities under B. below.

A. Recipient Activities

1. Identify a study area which is urban and where black or other minority children under age 15 number at least 75,000.

2. Design a protocol and implement an epidemiologic study of children served by one or more major medical facilities (public or private) in the study area, to identify the primary environmental risk factors for asthma.

3. Take baseline measures of exposures to specific environmental risk factors among children with asthma served by these facilities.

4. Develop a trial intervention program (including educational interventions) within the target population to reduce exposure to one or more of the identified risk factors.

5. Develop a time-phased evaluation plan so the progress of the program objectives can be clearly measured.

6. Evaluate the experiences of the project and prepare a final report of the project.

B. Centers for Disease Control Activities

1. Collaborate with the recipient in all stages of the project, including the design of the protocol and data collection instruments, data analysis, interpretation of results, and preparation of written reports.

2. Provide on-site programmatic technical assistance in planning, implementing, and evaluating ongoing and innovative program activities.

3. Participate in improving program performance through consultation based on information and activities of other projects.

Evaluation Criteria

Applications will be reviewed and evaluated according to the following criteria:

A. Evidence of an Asthma Problem among Urban Minority Children and an Air Pollution Problem (30%)

The applicant's ability to identify populations and communities at potentially high risk of environmentally-related asthma, as defined by census figures, data from local hospitals or other medical facilities, demographic data, environmental data, or other existing information resources.

B. Understanding the Problem (10%)

The quality and consistency of the applicant's proposal with respect to the asthma problem and program needs and purposes of the project. This specifically includes the public health importance of the problem as reflected by reducing the prevalence, severity, and economic burden for asthma.

C. Technical Approach (25%)

The quality of the applicant's plan for conducting program activities and the potential effectiveness of the proposed methods in meeting its objectives. The adequacy of the program design includes the extent to which the evaluation plan can be used to effectively measure progress towards the stated objectives.

D. Program personnel (20%)

The extent to which the proposal has described (a) the qualifications and commitment of the applicant, (b) detailed allocations of time and effort of staff devoted to the project, (c) information on how the applicant will develop, implement and administer the program, and (d) the qualifications of the support staff.

E. Collaboration (15%)

The applicant should demonstrate the ability to collaborate with political subdivisions of the state, agencies with pollution and related environmental data necessary for the conduct of the project, and/or local medical facilities. The degree of commitment and cooperation of collaborating parties (as evidenced by letters detailing the specific nature and extent of the involvement).

In addition, consideration will also be given to the extent that the budget request and proposed use of project funds are appropriate and reasonable.

Other Requirements

Projects involving the collection of information from 10 or more individuals and funded by cooperative agreement will be subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act.

Executive Order 12372 Review

The intergovernmental review requirements of Executive Order 12372, as implemented by DHHS regulations in 45 CFR 100, are applicable to this program. Executive Order 12372 sets up a system for state and local government review of proposed Federal assistance applications. Applicants should contact their state Single Point of Contact (SPOCs) as early as possible to alert them to the prospective applications and receive any necessary instructions on the state process. For proposed projects serving more than one state, the applicant is advised to contact the SPOC of each affected state. A current list of SPOCs is included in the application kit. The due date for state process recommendations is 30 days after the application deadline date for new and competing continuation awards. The granting agency does not guarantee to accommodate or explain for state process recommendations it receives after that date.

Catalog of Federal Domestic Assistance Number

[The Catalog of Federal Assistance Number is 93.283.]

Application Submission and Deadline

Applicants should follow the guidance provided in PHS form 5161-1 (Revised 01/89) in preparing grant applications. The original and two copies must be submitted on or before August 1, 1991, to Henry S. Cassell, III, Grants Management Officer, Centers for Disease Control, Grants Management Branch, Procurement and Grants Office, 255 East Paces Ferry Road, NE., room 300, Atlanta, GA 30305.

1. Deadline

Applications shall be considered as meeting the deadline if they are either:

A. Received on or before the deadline date, or

B. Sent on or before the deadline date and received in time for submission for the review process. Applicants must request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or U.S. Postal Service. Private metered postmarks shall not be acceptable as proof of timely mailing.

2. Late Applications

Applications which do not meet the criteria in 1.A. or 1.B. above are considered late applications and will be returned to the applicant.

Where to Obtain Additional Information

A complete program description, information on application procedures, application package, and business management technical assistance may be obtained from Lisa Tamaroff, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, NE., room 300, Mail Stop E-14, Atlanta, Georgia, 30305, Telephone: (404) 842-6630.

Please refer to Announcement Number 141 when requesting information on this program.

Programmatic technical assistance may be obtained from James Rifenburg, Center for Environmental Health and Injury Control, Division of Environmental Hazards and Health Effects, Air Pollution and Respiratory Health Activity, Centers for Disease Control, 1600 Clifton Road, Mail Stop F-28, Atlanta, Georgia, 30333, Telephone (404) 488-4682 or FTS 236-4682.

Potential applicants may obtain a copy of Healthy People 2000 (Full Report, Stock No. 017-001-00474-0) or Healthy People 2000 (Summary Report, Stock No. 017-001-00473-1) through the Superintendent of Documents, Government Printing Office, Washington, DC 20402-9325, (Telephone (202) 783-3238).

Dated: June 20, 1991.

Ladene H. Newton,

Acting Director, Office of Program Support, Centers for Disease Control.

[Announcement Number 139]

Availability of Funds for Fiscal Year 1991 an Investigation to Identify Strategies for Prevention of Childhood Deaths From Diarrhea

Introduction

The Centers for Disease Control (CDC) announces a program for new competitive cooperative agreement applications for Fiscal Year 1991 to provide assistance in examining the possibilities of preventing childhood deaths from diarrhea and for determining interventions most likely to have a positive impact. Surveillance activity will begin with health department death certificate reviews to identify all children who have died from diarrhea over a 3-year period. Investigations will be directed toward identifying where each child died, medical factors and issues relating to delivery of care which influenced the outcome, and any interventions that may have prevented the death. The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of maternal and infant health. (For ordering a copy of Healthy People 2000, see the section Where to Obtain Additional Information).

Authority

This program is authorized under section 301(a) of the Public Health Service Act (42 U.S.C. 241(a), as amended, and section 317(k)(3) of the Public Health Service Act (42 U.S.C. 247b (k)(3)).

Eligible Applicants

Eligible applicants are restricted to the official public health agencies of all states, the District of Columbia, America Samoa, the Commonwealth of Puerto Rico, the Virgin Islands, the Federated States of Micronesia, Guam, the Northern Mariana Islands, the Republic of the Marshall Islands, and the Republic of Palau. No other applications will be accepted. This restriction is based on the requirement that applicants must have access to all medical and death records in their state or areas listed above. In addition, sufficient numbers of events during a given time period are necessary for accurate assessment of deaths due to a specific cause. Therefore, eligible applicants must show evidence of either of the following in children of ages 1 months to 5 years based on National Center for Health Statistics data during the years 1979–1987: diarrheal death rate in excess of 3.00 per 100,000 per year or a total of more than 10 diarrheal deaths per year. Collaboration with schools of public health, specifically the Maternal and Child Health programs, is encouraged.

Availability of Funds

Approximately $188,000 will be available in Fiscal Year 1991 to fund 4–6 new cooperative agreements. The average award is expected to be $37,600, ranging from $31,333 to $47,000. It is expected that the average award will begin on or about September 20, 1991, and will usually be for a 12-month budget period within a 1- to 3-year project period. Funding estimates may vary and are subject to change, depending upon the availability of funds. Continuation awards within the project period will be made on the basis of satisfactory progress and availability of funds.

Purpose

The purpose of these awards is to provide assistance in examining the possibility of preventing deaths from diarrhea and to determine the interventions most likely to have an impact. Surveillance activity will be initiated through eligible public health agencies to identify all children who die from diarrhea. During the project period, each death would be investigated in depth to determine the location of the care which influenced the outcome, and what interventions, if any, might have prevented the death. This project would assist in providing specific recommendations to prevent diarrheal deaths in American children, and would leave in place a surveillance system to monitor their occurrence over time and assess the impact of proposed interventions.

Program Requirements

In conducting activities to achieve the purpose of this program, the recipient shall be responsible for conducting specified activities under section A. below, and CDC shall be responsible for conducting activities under Section B. The applications should be presented in a manner that demonstrates the applicant's ability to address the proposed activities in a collaborative manner with CDC.

A. Recipient Activities

1. Demonstrate ability to identify and access target populations.
2. Describe their respective organizational structures and provide organizational charts.
3. Participate in a planning and implementation meeting.
4. Implement methods, techniques, and approaches for dealing with questions surrounding the surveillance of diarrheal deaths in children ages 1 month through 5 years.
5. Develop data collection procedures and forms.
6. Review death certificates as they are received by the state or area and identify death of children under 5 years of age for whom diarrhea, gastroenteritis, or enterocolitis was listed anywhere on the certificate. All deaths occurring from September 1990 to September 1991 will be identified retrospectively and investigated in the fall of 1991. From September 1991 to September 1993, diarrheal deaths should be identified at quarterly intervals and investigated on an ongoing basis. To assure consistency, this review should begin immediately after the award of assistance funds.
7. Perform hospital and clinical chart reviews. Conduct analyses of hospital chart reviews and summarize as case reports.
8. Conduct standardized and open interviews with parents and other caretakers of children who have recently died.
9. Maintain confidentiality of data.
10. Analyze and present findings of data which identify all suspected childhood diarrheal deaths in the age group from 1 month to 5 years occurring in each state and which identify the circumstances of death.

B. CDC Activities

1. In addition to financial support, CDC will collaborate with the recipient in the design and development of project protocols, data collection forms, and data management systems.
2. Conduct a planning meeting of all recipients.
3. Provide coordination among recipients for each project to insure comparability of core data.
4. Aggregate data from recipients and assist in the presentation of findings.

Review and Evaluation Criteria

Applications will be reviewed and evaluated according to the following criteria:

A. The applicant's understanding of the purpose of the proposed activity and the feasibility of accomplishing the outcomes described.

B. The extent to which background information and other data demonstrate that the applicant has the appropriate organizational structure, administrative support, and ability to access appropriate target populations or study objects.

C. The degree to which the proposed objectives are: consistent with the defined purpose of this program, specific, measurable, and time-phased.

D. The degree to which program plans will be able to achieve the objectives, and the quality of the methods and instruments to be used.

E. The extent to which background information and other data demonstrate the need for this project.

F. The qualifications, including training and experience, of project personnel, and the projected level of effort by each toward accomplishment of the proposed activities.

G. The extent to which the budget is reasonable, clearly justified, and consistent with the intended use of cooperative agreement funds.

H. The ability to maintain confidentiality.

Other Requirements

Projects involving the collection of information from 10 or more individuals and funded by cooperative agreement will be subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act.

Executive Order 12372 Review

Applications are subject to Intergovernmental Review of Federal Programs as governed by Executive Order 12372. E.O. 12372 sets up a system for state and local government review of proposed Federal assistance applications. Applicants (other than Federally-recognized Indian tribal governments) should contact their state Single Point of Contact (SPOCs) as early as possible to alert them to the prospective applications and receive any necessary instructions on the state process. For proposed projects serving more than one state, the applicant is advised to contact the SPOC of each affected state. A current list of SPOCs is included in the application kit. The due date for state process recommendations will be 30 days after the application deadline date for new and competing continuation awards. (A waiver for the 60 day requirement has been requested.) If SPOCs have any state process recommendations on applications submitted to CDC, they should forward them to Candice Nowicki, Grants Management Officer, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 225 East Paces Ferry Road, NE., Atlanta, Georgia 30305. The granting agency does not guarantee to "accommodate or explain" for state process recommendations it receives after that date.

Catalog of Federal Domestic Assistance Number

The Catalog of Federal Domestic Assistance number assigned to this program is 93.283.

Application Submission and Deadline

The original and two copies of the application (Form PHS–5161–1) must be submitted to Candice Nowicki, Grants Management Officer, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, NE., room 300, Mailstop E14, Atlanta, Georgia 30305, on or before August 8, 1991.

A. Deadline

Applications shall be considered as meeting the deadline if they are either: 1. Received on or before the deadline date, or

2. Sent on or before the deadline date and received in time for submission to the independent review group. (Applicants must request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or the U.S. Postal Service.) Private metered postmarks will not be accepted as proof of timely mailing.

B. Late applications

Applications which do not meet criteria A.1. or A.2. above are considered late applications. Late applicaitions will not be considered in the current competition and will be returned to the applicant.

Where to Obtain Additional Information

A complete program description, information on application procedures, application package, and business management technical assistance may be obtained from Leah D. Simpson, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, NE., room 300, Mailstop E–14, Atlanta, Georgia 30305, telephone (404) 842–6594 or FTS (404) 236–6594.

Programmatic technical assistance may be obtained from G. William Gary, M.P.H., Dr.P.H., or Caryn Bern, M.D., Division of Viral and Rickettsial Diseases, Center for Infectious Diseases, Centers for Disease Control, 1600 Clifton Road NE, Mailstop G–04, Atlanta, Georgia 30333, telephone (404) 639–3607 or 639–2395, or FTS (404) 236–3607 or 236–2395.

Please refer to Announcement Number 139 when requesting information and submitting an application.

Potential applicants may obtain a copy of Healthy People 2000 (Full Report: Stock No. 017–001–00474–0) or Healthy People 2000 (Summary Report: Stock No. 017–001–00473–1) through the Superintendent of Documents, Government Printing Office, Washington, DC 20402–9325, Telephone (202) 783–3238.

Dated: June 21, 1991.

Robert L. Foster,

Acting Director, Office of Program Support Centers for Disease Control.

BILLING CODE 4160–18–M

[Announcement 131]

Tuberculosis (TB)/Human Immunodeficiency Virus (HIV) Risk Factor Data and HIV Serostatus Surveillance

Introduction

The Centers for Disease Control (CDC) announces the availability of cooperative agreement funds in fiscal year 1991 to conduct TB/HIV Risk Factor Data and HIV Serostatus Surveillance.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority areas of HIV Infection and Immunization and Infectious Diseases. (For ordering a copy of Healthy People 2000, see the Section Where to Obtain Additional Information.)

Authority: This program is authorized under the Public Health Service Act, section 301(a) (42 U.S.C. 241(a)), as amended; and section 317(k) (42 U.S.C. 247b(k)), as amended.

Eligibility

Eligible applicants for this program are current recipients of Tuberculosis Control or Tuberculosis Human Immunodeficiency Virus cooperative agreements. To ensure statistical significance in identifying factors that are most closely related to co-infection with TB and HIV and due to resource limitations, only areas that have reported 300 or more AIDs cases and at least 100 TB cases for 1989 are eligible.

Availability of Funds

Approximately $450,000 is available for Fiscal Year 1991, to fund approximately 15 projects. Awards are

VOL 56 ISS 124 JE 27 1991 UMI

expected to range from $20,000 to $75,000. The awards will begin on or about September 1, 1991, for a 12-month budget period within a 4-year project period. Funding estimates may very and are subject to change. Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.

Purpose

If TB is to be eliminated in the United States as outlined in the *Department's Strategic Plan for the Elimination of Tubeculosis in the United States*, a concerted effort must be undertaken to find and treat TB cases. Public Law 101–368 authorizes prevention, control, and elimination of tuberculosis.

The purpose of this program is to assist TB programs in improving their surveillance systems for TB in relation to HIV infection. The specific goals are: (A) To identify TB patients co-infected with HIV and ensure that they receive appropriate therapy and case management; (B) to determine and monitor trends in the number and proportion of TB cases with underlying HIV infection; (C) to determine and monitor trends in the descriptive epidemiology and clinical characteristics of persons with TB disease and HIV infection; and (D) to determine the prevalance of substance abuse among TB patients.

Program Requirements

In conducting activities to achieve the purpose of this program, the recipient shall be responsible for conducting activities under A (below), and CDC will be responsible for conducting activities under B (below).

A. Recipient Activities

1. Identify and provide HIV counseling and antibody testing to all patients with suspected or confirmed TB.

2. Monitor trends and refer all infected contacts of TB patients for HIV risk factor evaluation and ensure that HIV counseling and antibody testing is provided for those with behaviors associated with an increased risk of HIV infection. TB/HIV Risks include (A) drug use; (B) alcohol use; (C) sex between two men; (D) hemophilia; (E) receipt of blood or blood products between 1978–85; (F) heterosexual activity with multiple partners; (G) sex with a man who has sex with another man; (H) sex with a drug user; (I) sex with an HIV-infected person; (J) sex with a person with hemophilia; and (K) sex from drugs/money.

3. Collect data on all patients with suspected or confirmed TB. The data will contain demographic and clinical information related to TB and HIV, questions on substance abuse and HIV transmission risk factors, HIV test results, and information on whether the patient is eventually verified to have TB (according to CDC Report of Verified Case of Tuberculosis (RVCT) criteria).

4. Ensure the confidentiality and physical security of HIV-specific information.

5. Analyze, in collaboration with CDC, risk factor information on all patients (without personal identifiers).

B. CDC Activities

1. Collaborate and consult in the development and implementation of strategies and protocols.

2. Provide up to date scientific information regarding methods of risk reduction for HIV transmission and current recommended TB diagnostic and treatment regimens.

3. Assist in data management and analysis.

4. Assist in the transfer of information and methods developed in these projects to other TB elimination programs.

Review and Evaluation Criteria

Applications will be reviewed and evaluated individually according to the following criteria:

A. The ability of the applicant to describe the problem of tuberculosis and HIV infection in its area including:

1. The number of tuberculosis cases reported annually from the area;

2. The number of AIDS cases reported annually from the area; and,

3. The number of persons with tuberculosis who have AIDS. (Maximum 25 points)

B. The quality of the proposed plan to meet the objectives of the project, including:

1. Identifying TB patients co-infected with HIV and ensuring that they recieve appropriate therapy and case management;

2. Determining and monitoring trends in the number and proportion of TRB cases with underlying HIV infection;

3. Determining and monitoring trends in the demographic and clinical characteristics of persons with TB disease and HIV infection; and,

4. Determining the prevalence of substance abuse among TB patients. (Maximum 25 points)

C. The extent to which realistic short-term and long-term objectives are measurable, time-phased, and related to recipient activities. (Maximum 25 points)

D. The overall effectiveness of the applicant's proposed activities and the methods for meeting the stated objectives. (Maximum 15 points)

E. The adequacy of plans to evaluate progress in implementing methods and achieving objectives. (Maximum 10 points)

Consideration will also be given to the extent the budget request is clearly explained, adequately justified, reasonable, consistent with the intended use of funds, and the extent to which the applicant is contributing its own resources to HIV/AIDS and TB prevention activities.

Proposals with budgets larger than can reasonably be funded under this announcement may be returned to the applicant without review.

Other Requirements

Recipients must comply with the document titled Content of Aids-Related Written Materials, Pictorials, Audiovisuals, Questionnaires, Survey Instruments, and Educational Sessions (January 1991).

Applicants must have in place systems to ensure the confidentiality of all patient records. Assurance of compliance with regulations regarding protection of human subjects will be required.

Projects involving the collection of information from 10 or more respondents and funded by cooperative agreement may be subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act.

Executive Order 12372

Applications are subject to Intergovernmental Review of Federal Programs as governed by Executive Order 12372. Executive Order 12372 sets up a system for state and local government review of proposed Federal assistance applications. Applicants (other than Federally-recognized Indian tribal governments) should contact their state Single Point of Contact (SPOCs) as early as possible to alert them to the prospective applications and receive any necessary instructions on the state process. For proposed projects serving more than one state, the applicant is advised to contact the SPOC of each affected state. A current list of SPOCs is included in the application kit. If SPOCs have any state process recommendations on applications submitted to CDC, they should forward them to Edwin L. Dixon, Grants Management Officer, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, NE., Atlanta, Georgia 30305 no later than September 1, 1991. The granting agency does not guarantee to accommodate or explain for state process recommendations it receives after that date.

Catalog of Federal Domestic Assistance

The Catalog of Federal Domestic Assistance number is 93.118, Acquired Immunodeficiency Syndrome (AIDS) activities.

Application Submission and Deadline

The original and two (2) copies of the application (PHS 5161–1) must be submitted to Edwin L. Dixon, Grants Management Officer, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, NE., room 300, Atlanta, Georgia 30305 on or before August 1, 1991.

A. Deadline. Applications shall be considered as meeting the deadline if they are either:

1. Received on or before the deadline date, or

2. Sent on or before the deadline date and received in time for submission to the independent review group. (Applicants must request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or U.S. Postal Service. Private metered postmarks shall not be accepted as proof of timely mailing.)

B. Late applications which do not meet the criteria in A.1. or A.2. are considered late applications. Late applications will not be considered in the current competition and will be returned to the applicant.

Where to Obtain Additional Information

A complete program description, information or application procedures, an application package, and business management technical assistance may be obtained from Victoria Westberg, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, NE., room 300, Atlanta, GA 30305, (404) 842–6640, or FTS 236–6640. Please refer to Announcement Number 131 when requesting information and submitting any application on the Request for Assistance.

Programmatic technical assistance may be obtained from Harry Stern and Walter Ihle, Division of Tuberculosis Elimination, Center for Prevention Services, Centers for Disease Control, Atlanta, GA, (404) 639–2501 or FTS 236–2501.

Potential applicants may obtain a copy of Healthy People 2000 (Full Report, Stock No. 017–001–00474–0) or Healthy People 2000 (Summary Report; Stock No. 017–001–00473–1) through the Superintendent of Documents, Government Printing Office, Washington, DC 20402–9325 (Telephone (202) 783–3238).

Dated: June 20, 1991.

Ladene H. Newton,

Acting Director, Office of Program Support, Centers for Disease Control.

[FR Doc. 91–15336 Filed 6–26–91; 8:45 am]

BILLING CODE 4160–18–M

Food and Drug Administration

[Docket No. 91N–0233]

Drug Export; Multiscreen (HBsAg, HIV–1/HIV–2)

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Abbott Laboratories has filed an application requesting approval for the export of the biological product Multiscreen (HBsAg, HIV–1/HIV–2) to Belgium, Denmark, Finland, Iceland, Ireland, Luxembourg, The Netherlands, Norway, Portugal, Sweden, and The United Kingdom.

ADDRESSES: Relevant information on this application may be directed to the Dockets Management Branch (HFA–305), Food and Drug Administration, rm. 1–23, 12420 Parklawn Dr., Rockville, MD 20857, and to the contact person identified below. Any future inquiries concerning the export of human biological products under the Drug Export Amendments Act of 1986 should also be directed to the contact person.

FOR FURTHER INFORMATION CONTACT: Carl J. Chancey, Center for Biologics Evaluation and Research (HFB–124), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–295–8191.

SUPPLEMENTARY INFORMATION: The Drug Export Amendments Act of 1986 (Pub. L. 99–660) (section 802 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 382)) provide that FDA may approve applications for the export of biological products that are not currently approved in the United States. Section 802(b)(3)(B) of the act sets forth the requirements that must be met in an application for approval. Section 802(b)(3)(C) of the act requires that the agency review the application within 30 days of its filing to determine whether the requirements of section 802(b)(3)(B) have been satisfied. Section 802(b)(3)(A) of the act requires that the agency publish a notice in the **Federal Register** within 10 days of the filing of an application for export to facilitate public participation in its review of the application. To meet this requirement, the agency is providing notice that Abbott Laboratories, Diagnostics Division, Abbott Park, IL 60064, has filed an application requesting approval for the export of the biological product Multiscreen (HBsAg, HIV–1/HIV–2) to Belgium, Denmark, Finland, Iceland, Ireland, Luxembourg, The Netherlands, Norway, Portugal, Sweden, and The United Kingdom. Abbott Multiscreen is an *In Vitro* Enzyme Immunoassay for the simultaneous detection of Hepatitis B Surface Antigen (HBsAg) and/or Antibodies to Human Immunodeficiency Virus Type 1 and/or Type 2 (HIV–1/HIV–2) in human serum or plasma. The application was received and filed in the Center for Biologics Evaluation and Research on April 26, 1991, which shall be considered the filing date for purposes of the act.

Interested persons may submit relevant information on the application to the Dockets Management Branch (address above) in two copies (except that individuals may submit single copies) and identified with the docket number found in brackets in the heading of this document. These submissions may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

The agency encourages any person who submits relevant information on the application to do so by July 8, 1991, and to provide an additional copy of the submission directly to the contact person identified above, to facilitate consideration of the information during the 30-day review period.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (section 802 (21 U.S.C. 382)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Center for Biologics Evaluation and Research (21 CFR 5.44).

Dated: June 18, 1991.

Thomas S. Bozzo,

Director, Office of Compliance, Center for Biologics Evaluation and Research.

BILLING CODE 4160–01–M

[Docket No. 90F–0311]

Nissin Chemical Industry Co., Ltd.; Withdrawal of Food Additive Petition

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the

VOL 56 ISS 124 JE 27 1991 UMI

withdrawal, without prejudice to a future filing, of a food additive petition (FAP OB4224) proposing that the food additive regulations be amended to provide for the safe use of vinyl chloride/vinyl acetate/maleic anhydride/glycidyl methacrylate copolymer as a component of coatings for articles that will contact food.

FOR FURTHER INFORMATION CONTACT: Vir Anand, Center for Food Safety and Applied Nutrition (HFF–335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of October 19, 1990 (55 FR 42484), FDA published a notice that it had filed a petition (FAP OB4224) from Nissin Chemical Industry Co., Ltd., c/o 1730 Rhode Island Ave. NW., Washington, DC 20036, that proposed to amend § 175.300 Resinous and polymeric coatings (21 CFR 175.300) to provide for the safe use of vinyl chloride/vinyl acetate/maleic anhydride/glycidyl methacrylate copolymer, as a component of coatings that will contact food. Nissin Chemical Industry Co., Ltd., has now withdrawn the petition without prejudice to a future filing (21 CFR 171.7).

Dated: June 19, 1991.

Fred R. Shank,

Director, Center for Food Safety and Applied Nutrition.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[OR–130–4410–06; GP1–267]

Spokane District, WA; West Side State Exchange; Environmental Statement

AGENCY: Bureau of Land Management, Interior.

ACTION: Comment Period Extension for: Notice of Availability of The Finding of No Significant Impact on the Final Planning Analysis for Spokane District West Side State Exchange.

SUMMARY: Public notice was given in the **Federal Register** on May 29, 1991, Volume 56, No. 103, on page 24200 of the Notice of Availability of the Finding of No Significant Impact on the Final Planning Analysis for Spokane District West Side State Exchange

The comment period on this Planning Analysis that would have closed on June 29, 1991, is hereby extended for 30 days commencing from the publication of this Notice. This extension would allow sufficient time for public review of this action.

FOR FURTHER INFORMATION CONTACT: Joseph K. Buesing, District Manager, Spokane District Office, East 4217 Main Avenue, Spokane. WA 99202.

Or

James F. Fisher, Area Manager, Wenatchee Resource Area Office, 1133 North Western Avenue, Wenatchee, WA 98801.

Copies of this Planning Analysis will be made available for review at the following offices and libraries:

U.S. Bureau of Land Management, Spokane District Office, East 4217 Main Avenue, Spokane, WA 99202.
U.S. Bureau of Land Management, Wenatchee Resource Area Office, 1133 North Western Avenue, Wenatchee, WA 98801.
Washington State Library, State Library Building, Olympia, WA 98504.
San Juan County Court House Annex Library, 135 Rhone Street, Friday Harbor, WA 98250.

A limited supply of copies of the Planning Analysis are available upon request to the Spokane District Manager or the Wenatchee Resource Area Manager.

Thank you.

Dated: June 21, 1991.

Pearl E. Lee,

Acting District Manager.

BILLING CODE 4310–33–M

Coos Bay District; Advisory Council Meeting

[OR120–6310–02: GP1–263]

AGENCY: Bureau of Land Management, Interior.

ACTION: Meeting of Coos Bay District Advisory Council.

SUMMARY: Notice is hereby given in accordance with Public Law 94–579 and 43 CFR part 1780 that a meeting of the Coos Bay District Advisory Council will be held on Wednesday, August 28, 1991, beginning at 1 p.m. The meeting will be held in the Coos Bay District Office, 1300 Airport Lane, North Bend, OR.

AGENDA: The agenda for the meeting will include:

1. Discussion of the RMP schedule and update of the current status of the planning effort.
2. Discussion of the 1991 and 1992 timber sale plans and conferencing with the U.S. Fish and Wildlife Service.
3. Discussion of Fish & Wildlife 2000 and Recreation 2000 and new initiatives on the Coos Bay District.
4. Arrangements for the next meeting.
5. Discussion of Land and Water Conservation Funds (LWLF).

The meeting is open to the public and news media. Interested persons may make oral statements to the council between 1:30 p.m. and 2 p.m. on Wednesday, August 28, or file written statements for the council's consideration. Anyone wishing to make an oral statement must notify the District Manager by close of business on Wednesday, August 14, 1991 (Telephone 503–756–0100).

ADDRESS: Bureau of Land Management, Coos Bay District Office, 1300 Airport Lane, North Bend, OR 97459.

Minutes of the meeting will be maintained at the District office and made available during regular business hours (7:45 a.m. to 4:30 p.m.) for public inspection or reproduction at the cost of duplication.

Dated: June 20, 1991.

Melvin E. Chase,

District Manager.

Roseburg District Advisory Council Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The District Advisory Council for the Bureau of Land Management, Roseburg District will meet for a tour July 29, 1991, starting from the Roseburg District Office visitors' parking lot at 8 a.m. The itinerary includes a fisheries enhancement project on Wolf Creek and one or more stops to discuss 1991 cone collection activities. The group will stop at the Tyee Recreation Site at approximately 12 p.m. to eat lunch. Afterwards, the Council will be updated on the District timber program and the Bureau's Watchable Wildlife and Back Country Byways initiatives. There will be an opportunity for public comments before the Council at 1 p.m.

ADDRESS: Bureau of Land Management, Roseburg District, 777 NW Garden Valley Blvd., Roseburg, OR 97470.

FOR FURTHER INFORMATION CONTACT: Mel Ingeroi, Public Affairs Specialist (503) 672–4491.

SUPPLEMENTARY INFORMATION: Although transportation will not be provided to the general public, they are welcome to come on the tour. In addition, lunch will be provided only for Council members and BLM employees at a cost to be specified later. Comments for the Council can be mailed to the District Manager prior to the meeting or presented to the Council during the meeting. Summary minutes will be available for public review within 30 days of the meeting.

Dated: June 20, 1991.

Gordon Chenise,

Acting District Manager.

Realty Action Exchange of Public and Private Lands in San Luis Obispo County, CA

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Realty Action—CA 28306.

SUMMARY: The following described public land has been determined to be suitable for exchange under section 206 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716):

Mt. Diablo Meridian, California

T.29S., R.14E.
Section 35 S½NE¼ 80 acres (parcel #4)
T.29S., R.15E.
Section 31 SE¼NW¼ 40 acres (parcel #7)
T.30S., R.14E.
Section 1 Lots 22 & 23 83.52 acres (parcel #9)

All mineral rights on the subject public land will be exchanged, along with the surface rights. In exchange for this public land, the Bureau of Land Management (BLM) will acquire an equal value of lands from the Nature Conservancy (TNC) in the Carrizo Plain Natural Area. These lands will be purchased by TNC from willing sellers, will be somewhere within the following sections, and will include surface rights only:

Mt. Diablo Meridian, California

T.30S., R.20E.
Sec. 19 to 22, 25 to 31, and 34 to 36
T.30S., R.21E.
Sec. 23 to 36
T.30S., R.22E.
Sec. 31

T.11N., R.24W.
Sec. 18 to 20 and 29 to 32
T.10N., R.26W.
Sec. 11 and 12
T.10N., R.25W.
Sec. 1 to 3, 7, 8, 12, and 16

SUPPLEMENTARY INFORMATION: Lands transferred from the United States will be offered for purchase to adjacent landowners by The Nature Conservancy. Lands transferred from the United States will reserve a right-of-way for ditches or canals constructed by the authority of the United States, under the Act of August 30, 1890 (43 U.S.C. 945). Publication of this notice in the **Federal Register** segregates the subject public land from the operation of the public land laws and the mining laws, except for mineral leasing. The segregative effect will end upon issuance of patent or two years from the date of publication in the **Federal Register**, whichever occurs first.

The purpose of the exchange is to acquire a portion of the private lands in the Carrizo Plain Natural Area. This Area will promote the conservation of threatened and endangered species and preserve a representative sample of the historic southern San Joaquin Valley flora and fauna. The ultimate goal for the Natural Area is to acquire approximately 155,000 acres of private land. A secondary purpose of the exchange is to consolidate the BLM lands and reduce the number of scattered, isolated BLM parcels that are difficult to manage. The public interest will be well served by completing the exchange. The exchange will operate under the Cooperative Land Exchange Agreement between BLM and TNC within California, dated August 16, 1990. Under that agreement, BLM and TNC will "pool" offered private land and selected public land throughout California, and convey the lands through exchanges between the BLM and TNC. Values of lands conveyed from the pool will be balanced on a statewide basis at least every two years. Interested parties may submit comments to the Area Manager at the following address until August 12, 1991. For further information contact: Bureau of Land Management, Caliente Resource Area, Attn: Dan Vaughn, 4301 Rosedale Highway, Bakersfield, CA 93308; (805) 861–4236.

Dated: June 4, 1991.

Glenn A. Carpenter,

Caliente Resource Area Manager.

[FR Doc. 91–14065 Filed 6–26–91; 8:45 am]

BILLING CODE 4310–40–M

[G–040–G1–0405–4212–14; OK NM 82739]

Tulsa District Office; Proposed Direct Sale

AGENCY: United States Department of Interior, Bureau of Land Management.

ACTION: Notice of realty action.

SUMMARY: The following described public land has been examined and determined to be suitable for transfer out of Federal ownership by direct sale under the authority of section 203 of the Federal Land Policy and Management Act (FLPMA) of 1976 (90 Stat. 2750; 43 U.S.C. 1713), at not less than the appraised fair market value:

Indian Meridian, Oklahoma

T. 12 N., R. 1 E.,
Sec. 22, lot 6.

Containing a total of 0.98 acres in Oklahoma County.

The land will not be offered for sale until at least 60 days after publication of this notice in the **Federal Register**. The fair market value of the parcel has been determined to be $100.00.

Publication of this notice will segregate the above-described land from all appropriation, under the public land laws including the mining laws, but not from sale under the above-cited statute, for 270 days from the date of publication of this notice, or until title transfer is completed or the segregation is terminated by publication in the **Federal Register**, whichever occurs first.

The subject lands are part of the remaining public land holdings in Oklahoma scattered throughout the state. The lands are being offered for sale since the Bureau of Land Management (BLM) can not economically or feasibly manage the subject lands. No other federal agency or department was interested in managing these lands. The sale is consistent with the Bureau planning for the lands involved and has been discussed with government units and local officials. Direct sale procedures

VOL 56 ISS 124 JE 27 1991 UMI

are appropriate because of the parcels' physical location as being incorporated within Horseshoe Lake and suitable for management by the surrounding owner. Use of direct sale procedures will avoid an inappropriate land ownership pattern. The sale is consistent with the Planning Analysis and Decision Document for Central Oklahoma Land Disposal and the public interest would be served by offering these lands for sale.

The parcel is being offered to Oklahoma Gas and Electric Company, using the direct sale procedures authorized under title 43 CFR 2711.3–3. The terms, conditions, and reservations applicable to the sale are as follows:

1. The grantees will be required to submit a deposit of either cash, certified check, cashier's check, bank draft, money order, or any combination thereof for not less than 30 percent of the appraised value. The remainder of the full appraised price must be submitted prior to the expiration of 180 days from the date of the sale. Failure to submit the remainder of the full appraised price shall result in the cancellation of the sale and the forfeiture of the deposit.

2. All minerals shall be reserved to the United States, together with the right to prospect for, mine, and remove the minerals. A more detailed description of this reservation which will be incorporated in the patent document, is available for review at this BLM office.

3. Title will be issued by a patent subject to all prior valid existing rights and reservations of record.

4. Title will be issued by a patent with restrictions under Executive Order 11988 (42 CFR 26951 May 25, 1977), for the protection and management of floodplain on the above-described lands.

DATES: Until August 12, 1991, interested parties may submit comments to the District Manager, BLM, Tulsa District Office, 9522H E. 47th Place, Tulsa, Oklahoma 74145. Any adverse comments will be reviewed by the District Manager, who may sustain, vacate or modify this realty action and issue a final determination. In the absence of any action by the District Manager, this realty action will become the final determination of the Department of Interior.

For Further Information Contact: Jacqueline Gratton, (405) 704–0624.

Dated: June 20, 1991.

[WY-940-01-4730-12]

Filing of Plats of Survey: Nebraska/Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The plats of survey of the following described lands are scheduled to be officially filed in the Wyoming State Office, Cheyenne, Wyoming, thirty (30) calendar days from the date of this publication.

Sixth Principal Meridian, Nebraska

T. 24 N., R. 9 E., accepted June 19, 1991
T. 31 N., R. 5 W., accepted June 19, 1991

Sixth Principal Meridan, Wyoming

T. 40 N., R. 70 W., accepted June 19, 1991.
T. 25 N., R. 84 W., accepted June 19, 1991.

If protests against a survey, as shown on any of the above plats, are received prior to the official filing, the filing will be stayed pending consideration of the protest(s). A plat will not be officially filed until after disposition of protests(s) and or appeal(s).

These plats will be placed in the open files of the Wyoming State Office, Bureau of Land Management, 2515 Warren Ave., Cheyenne, Wyoming, and will be available to the public as a matter of information only. Copies of the plats will be made available upon request and prepayment of the reproduction fee of $2.00 per copy. A person or party who wishes to protest a survey must file with the State Director, Bureau of Land Management, Cheyenne, Wyoming, a notice of protest prior to thirty (30) calendar days from the date of this publication. If the protest notice did not include a statement of reasons for the protest, the protestant shall file such a statement with the State Director within thirty (3) calendar days after the notice of protest was filed.

The above-listed plats represent dependent resurveys and subdivisions.

FOR FUTHER INFORMATION CONTACT: Bureau of Land Management, P.O. Box 1828, 2515 Warren Avenue, Cheyenne, Wyoming 82003.

Dated: June 19, 1991.

Cancellation of Proposed Withdrawal Application; Oklahoma

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Department of the Army, Corps of Engineers, has relinquished its application for withdrawal of public land for flood control purposes, and to protect water supply, water quality, recreation, navigation, and fish and wildlife on Kaw Lake and Keystone Lake.

On April 10, 1991, The Department of the Army, Corps of Engineers relinquished its application for withdrawal of public land. The segregation from surface entry automatically terminated on November 20, 1989. Therefore, application for withdrawal, Serial Number OKNM 63446, is hereby cancelled on the following land:

Indian Meridian

T. 29 N., R. 3 E.,
sec. 25, lot 5.
T. 21 N., R. 9 E.,
sec. 32, lot 10.
The acres described aggregate 11.89 acres in Kay and Pawnee Counties.

This order does not otherwise affect the status of the land.

Dated: June 21, 1991.

Monte G. Jordan,

Associate State Director.

[OR-943-4214-10; GP1-256; OR-45401]

Proposed Withdrawal and Opportunity for Public Meeting; Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management proposes to withdraw an additional 29.58 acres of public lands and 3,703.69 acres of non-Federal lands, which will be acquired for protection of the New River Area of Environmental Concern. Because this notice amends the original petition/application, the two year temporary segregation from surface entry and mining will expire on March 29, 1992. The public land will remain open to mineral leasing.

DATE: Comments and requests for a public meeting must be received by September 25, 1991.

ADDRESS: Comments and meeting requests should be sent to the Oregon State Director, BLM, P.O. Box 2965, Portland, Oregon 97208.

FOR FURTHER INFORMATION CONTACT: Linda Sullivan, BLM, Oregon State Office, P.O. Box 2965, Portland, Oregon 97208, 503–280–7171.

SUPPLEMENTARY INFORMATION: On May 31, 1991, a petition was approved allowing the Bureau of Land Management to file an amendment to the original petition/application to withdraw the following described additional lands from settlement, sale, location, or entry under the general land laws, including the mining laws, subject to valid existing rights. Such segregation will automatically attach to the non-Federal lands upon acquisition by the United States:

Willamette Meridian

Public Domain Lands

T. 30 S., R. 15 W.,
Sec. 32, lot 1;
Sec. 33, lot 2.
The area described contains 29.58 acres in Curry County, Oregon.

Willamette Meridian

Non-Federal Lands

T. 30 S., R. 15 W.,
Sec. 2, lots 3 and 4, S½NW¼, and W½SW¼;
Sec. 3, lots 1 and 2;
Sec. 10, lot 6 and E½NE¼;
Sec. 11, W½NW¼, SE¼NW¼, and NW¼SW¼;
Sec. 15, lot 5, SE¼NE¼, SE¼SW¼, and SE¼;
Sec. 21, lot 1;
Sec. 22, E½, E½NW¼, NE¼SW¼, and S½SW¼;
Sec. 27, N½NE¼, SW¼NE¼, W½, and W½SE¼;
Sec. 28, lots 1, 2, 3, and 4, SE¼NE¼, and E½SE¼;
Sec. 33, lots 1, 3 and 4, E½, and E½SW¼.
T. 31 S., R. 15 W.,
Sec. 4, lots 1, 2, 3, and 4, S½N½, and S½;
Sec. 5, lots 1, 2, 3, and 4, and E½SE¼;
Sec. 7, lot 1;
Sec. 8, lots 3, 4, 5, and 6, N½NE¼, and SW¼NE¼;
Sec. 9, NW¼NW¼.
The areas described aggregate, including any accretions thereto, approximately 3,703.69 acres in Coos and Curry Counties, Oregon.

The purpose of the proposed withdrawal is to protect the New River area of Critical Environmental Concern which is located adjacent to the Pacific Ocean approximately 30 miles south of the city of Coos Bay.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the undersigned officer within 90 days from the date of publication of this notice. Upon determination by the authorized officer that a public meeting will be held, a notice of the time and place will be published in the Federal Register at

VOL 56 ISS 124 JE 27 1991 UMI

least 30 days before the scheduled date of the meeting.

The application will be processed in accordance with the regulations set forth in 43 CFR part 2300.

Because this is an amendment to the original petition/application, the two year temporary segregation will expire on March 29, 1992. The lands will be segregated as specified above unless the application is denied or canceled or the withdrawal is approved prior to that date. The temporary uses which may be permitted during this segregative period are leases, licenses, permits, rights-of-way, and disposal of mineral or vegetative resources other than under the mining laws.

Dated: June 14, 1991.

Robert E. Mollohan,

Chief, Branch of Lands and Minerals Operations.

[FR Doc. 91-15323 Filed 6-26-91; 8:45 am]

BILLING CODE 4310-55-M

Fish and Wildlife Service

Receipt of Applications for Permit

The following applicants have applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*):

Applicant: Pacific Gas and Electric Company, San Ramon, CA, PRT-755945.

The applicant requests a permit to conduct surveys of Shasta crayfish (*Pacifastacus fortis*) in Fall River, Hat Creek and Pit River and tributaries and reservoirs, Shasta County, California, in order to determine the distribution and relative abundance of this species.

Applicant: Dr. Clayton White, Brighan Young University, PRT-758552.

The applicant requests a permit to import 4 male and 5 female peregrine falcons (*Falco peregrinus nesiotes*) removed from the wild on various islands within the Fiji Group, for the purpose of scientific research and enhancement of propagation and survival of the species.

Written data or comments should be submitted to the Director, U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, room 432, Arlington, Virginia 22203 and must be received by the Director within 30 days of the date of this publication.

Documents and other information submitted with these applications are available for review by any party who submits a written request for a copy of such documents to, or by appointment during normal business hours (7:45—4:15) in, the following office within 30 days of the date of publication of this notice: U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, room 432, Arlington, Virginia 22203. Phone: (703/358-2104); FAX: (703/358-2281)

Dated: June 20, 1991.

Maggie Tieger,

Acting Chief, Branch of Permits, Office of Management Authority.

BILLING CODE 4310-55-M

Availability of a Draft Environmental Assessment for the Proposed Experimental Release of Red-crowned Cranes in Schoolcraft Co., Upper Peninsula of Michigan

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: This notice advises the public that the draft Environmental Assessment on the proposed experimental release of red-crowned cranes (*Grus japonensis*) in Schoolcraft County, Michigan, is available for public review. Comments and suggestions are requested. The Ohio Cooperative Fish and Wildlife Research Unit (OCFWRU) proposes to release approximately 16 isolation-reared, juvenile red-crowned cranes on Seney National Wildlife Refuge in each summer of 1991 and 1992. The purpose of this release is to complete development of a reintroduction technique applicable to a migratory population of the endangered whooping crane (*G. americana*). The proposed release area is within the Great Lakes to Florida migration route traditionally used by the eastern population of greater sandhill cranes (*G. canadensis tabida*). This route is within the recent historical range of the whooping crane. Whooping cranes are not available for use in this experiment, and the red-crowned crane, an endangered species native to eastern Asia, is the only species sufficiently similar to provide a suitable surrogate at this stage of experimentation. Sterilization of males before release and removal of birds from the wild at the conclusion of the experiment would ensure that no population of this exotic species could become established on this migration route.

DATES: Written comments on the draft Environmental Assessment are requested by August 12, 1991.

ADDRESSES: Comments should be addressed to: Regional Director, U.S. Fish and Wildlife Service, Region 3, Federal Building, Fort Snelling, Twin Cities, MN 55111.

FOR FURTHER INFORMATION CONTACT: Richard P. Urbanek, OCFWRI Research Associate, Seney National Wildlife Refuge, Seney, MI 49883, 906/586-9851. Individuals wishing copies of this environmental assessment for review should immediately contact Dr. Urbanek. Copies have been sent to all agencies and individuals who participated in the scoping process and to all others who have already requested copies.

SUPPLEMENTARY INFORMATION: Richard Urbanek is the primary author of this document. This action is designed to develop a reintroduction technique applicable to the whooping crane by use of the red-crowned crane as an experimental surrogate.

The U.S. Whooping Crane Recovery Plan recommends establishment of two wild populations of at least 25 breeding pairs each in addition to the existing Wood Buffalo/Aransas population before the whooping crane can be downlisted from endangered to threatened status. An experiment in Idaho was unable to confirm cross-fostering (i.e., placing whooping crane eggs in sandhill crane nests) as a reliable reintroduction technique. Releases of captive-reared sandhill cranes in Mississippi and in the Great Lakes Region have been successful in augmenting existing sandhill populations, but these methods have not been tested with whooping cranes or with a more appropriate surrogate species than the sandhill crane. Releases of captive-reared individuals of an introduced species into areas where that species does not currently occur have not been made and evaluated. Proven techniques for establishing additional populations of the whooping crane are, therefore, lacking. Whooping crane eggs are not available for the proposed experiment; therefore, use of an ecologically similar, closely related substitute species is required. Because proven facilities, staff, and a successful sandhill crane research program are currently operating at Seney National Wildlife Refuge, prospects for successful development of an isolation-rearing/gentle release technique using the red-crowned crane as an experimental surrogate are excellent at this time.

This action will result in an increased probability of recovery and a reduced threat of extinction of the whooping crane in North America, the red-crowned crane in Asia, and possibly other endangered or threatened species of cranes if a new reintroduction technique can be developed. No significant adverse consequences of the proposed action have been identified.

The primary study area is Seney National Wildlife Refuge and adjacent areas in the Upper Peninsula of Michigan, including the Hiawatha National Forest and Lake Superior State Forest. Study areas on the migration route include northeastern/east-central Wisconsin, Jasper-Pulaski State Fish and Wildlife Area in Indiana, and wintering areas in southern Georgia and peninsular Florida.

Approximately 16 red-crowned crane chicks will be isolation-reared (i.e., reared in groups of their own species by puppets/costumed humans and without exposure to human features or voices) and gentle-released on Seney National Wildlife Refuge during each summer, 1991 and 1992, according to procedures previously used with sandhill cranes and appropriately modified. Eggs will be surplus obtained from captive propagation. Males will be sterilized by vasectomy, and all birds will be confirmed negative for serious disease before release. Released cranes will be monitored by radiotelemetry and visual observation to assess survival, migration movements, return rate, and social behavior. Removal of birds from the wild will be attempted after monitoring is completed. The initial stage of the project will continue until approximately October 1, 1993. Additional research after that date will depend on survival of released birds, satisfactory progress toward accomplishing project objectives, and continued availability of staff and funding.

The major alternative to performing the experiment is no action. That alternative would reduce available reintroduction options and could jeopardize or delay the recovery of the whooping crane. The development of an effective reintroduction technique is essential to this recovery, and isolation-rearing/gentle release in a migratory situation is certainly one of the better options that needs to be investigated.

More than 30 government agencies or individual biologists were consulted in planning and preparation of the proposal and this environmental assessment. The project was discussed with seven members of the U.S. Whooping Crane Recovery Team in a meeting at Seney National Wildlife Refuge on July 24, 1990. A written response by the Team was complied and transmitted through Region 2, U.S. Fish and Wildlife Service.

All agencies and individuals are urged to provide comments and suggestions for improving this environmental assessment as soon as possible. All comments received by the dates given above will be considered in preparation of the final environmental assessment for this proposed action.

Dated: May 17, 1991.

James C. Gritman,

Regional Director, Fish and Wildlife Service.

Office of Surface Mining Reclamation and Enforcement

Information Collection Submitted to the Office of Management and Budget for Review Under the Paperwork Reduction Act.

The proposal for the collection of information listed below has been submitted to the Office of Management and Budget for approval under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35). Copies of the proposed collection of information and related form may be obtained by contacting the Bureau's clearance officer at the phone number listed below. Comments and suggestions on the proposal should be made directly to the bureau clearance officer and to the Office of Management and Budget, Paperwork Reduction Project (1029-0097), Washington, DC, 20503, telephone 202-395-7340.

Title: State Enforcement Activities, 30 CFR part 720.

OMB Approval Number: 1029-0097.

Abstract: Information collected in part 720 is used to monitor State permitting and inspection activities and to provide the Office of Surface Mining Reclamation and Enforcement with necessary information for purposes of conducting Federal mine inspection and enforcement activities under the initial regulatory program.

Bureau Form Number: None.

Frequency: On occasion.

Estimated Completion Time: One hour.

Description of Respondents: State regulatory authorities.

Annual Responses: One.

Annual Burden Hours: One.

Bureau Clearance Officer: Richard L. Wolfe (202) 343-5143.

Dated: May 24, 1991.

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

Public Information Collection Requirements Submitted to OMB for Review

The Agency for International Development (A.I.D.) submitted the

VOL 56 ISS 124 JE 27 1991 UMI

following public information collection requirements to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96–511. Comments regarding these information collections should be addressed to the OMB reviewer listed at the end of the entry no later than ten days after publication. Comments may also be addressed to, and copies of the submissions obtained from the Reports Management Officer, Fred D. Allen, (703) 875–1573, MS/AS/ISS, room 1209B, SA–14, Washington, DC 20523–1413.

Date Submitted: June 18, 1991.

Submitting Agency: Agency for International Development.

OMB Number: None assigned.

Form Number: In draft.

Type of Submission: New Collection.

Title: The Microenterprise Monitoring System Project (MEMS).

Purpose: The Agency for International Development (A.I.D.) provides funds to various organizations worldwide to carry out activities in support of microentrepreneurs. These activities range from the provision of technical assistance to the creation of credit programs for the very poor. As a part of legislation A.I.D. has been directed to report annually to the Congress on its microenterprise program. It has also been instructed to implement a monitoring system which will enable the Agency to provide very detailed data on the outputs and beneficiaries of the microenterprise programs.

Annual Reporting Burden: Respondents: 485; annual responses: 1; average hours per response: 21.1; burden hours: 10,290.

Reviewer: Marshall Mills (202) 395–7340, Office of Management and Budget, room 3201, New Executive Office Building, Washington, DC 20503.

DEPARTMENT OF JUSTICE

Lodging of Two Consent Decrees Pursuant to Cercla In United States v. Jessee Roofing and Pointing Co., Inc.

In accordance with Department policy, 28 CFR 50.7, notice is hereby given that on June 17, 1991, two proposed Consent Decrees in *United States* v. *Jessee Roofing and Pointing Co., Inc.* Civil Action No. 3–91–80035 were lodged with the United States District Court for the Southern District of Iowa (Davenport Division).

The Complaint in this enforcement action was filed on April 1, 1991, against Jessee Roofing and Pointing Co., Inc., Charles J. Jessee, Dorothy L. Jessee, and Tully Automotive, Ltd. under Section 107 of the Comprehensive Environmental Response Compensation and Liability Act (CERCLA), 42 U.S.C. 9607, seeking reimbursement of costs incurred by the United States in responding to the release or threat of release of hazardous substances from the Bettendorf Site located in Bettendorf, Iowa.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the two proposed Consent Decrees. Comments should be addressed to the Assistant Attorney General, Land and Natural Resources Division, U.S. Department of Justice, Washington, DC 20530, and should refer to *United States* v. *Jessee Roofing and Pointing Co., Inc.* (DoJ # 90–11–3–555a).

The two proposed Consent Decrees may be examined at the office of the United States Attorney, Southern District of Iowa, 115 U.S. Courthouse, East 1st & Walnut Sts., Des Moines, Iowa 50309 and the United States Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101. Copies of the two proposed Consent Decrees may be obtained in person or by mail from the Environmental Enforcement Section Document Center, 1521, 601 Pennsylvania Avenue, NW., Washington, DC 20004. In requesting a copy please enclose a check in the amount of $ .25 per page payable to the Treasurer of the United States.

Richard B. Stewart,

Assistant Attorney General, Environment and Natural Resources Division.

BILLING CODE 4410–01–M

Antitrust Division

Pursuant to the National Cooperative Research Act of 1984—Hydrogen Chloride Joint Venture

Notice is hereby given that, on June 3, 1991, pursuant to section 6(a) of the National Cooperative Research Act of 1984, 15 U.S.C. 4301 *et seq.* ("the Act"), written notice has been filed by The Drackett Company simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties to the Hydrogen Chloride Joint Venture ("Joint Venture") and (2) the nature and objectives of the Joint Venture. The notification was filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties to the Joint Venture and its general areas of planned activity are given below.

The parties to the Joint Venture are: Amrep, Inc.; A.B.C. Compounding Co., Inc.; Betco Corporation; Canberra Corporation; Carroll Company; Cello/Grow Group; Chemical Specialties Manufacturers Association; Creative Chemicals, Inc.; The Dial Corporation; Diversey Wyandotte Corporation; The Drackett Company; Dymon, Inc.; Flo-Kem, Inc.; Huntington Laboratories; Hysan Corporation; S.C. Johnson Wax; L & F Products Group; Lonza, Inc.; NCH Corporation; Nyco Products Company; Oxford Chemical; Reckitt & Colman Household Products; I. Schneid, Inc.; Scott/Sani-Fresh International; Spartan Chemical Co.; Stepan Company; Theochem Laboratories (Time Products, Inc.); Warsaw Chemical; Zep Manufacturing Company.

The objective of the Joint Venture is to sponsor and conduct toxicological research on the chemical known as hydrogen chloride and to submit the results of this research to the U.S. Environmental Protection Agency ("EPA") in response to the Data Call-In for List D issued by the EPA in January 1990.

Membership in the Joint Venture remains open, and the parties intend to file additional written notification disclosing all changes in membership.

Joseph H. Widmar,

Director of Operations, Antitrust Division.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Inter-Arts Advisory Panel Meeting

Pursuant to section 10(a) (2) of the Federal Advisory Committee Act (Pub. L. 92–463), as amended, notice is hereby given that a meeting of the Inter-Arts Advisory Panel (Challenge III section) to the National Council on the Arts will be held on July 18, 1991 from 9 am.–5:30 pm. in room 714 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

Portions of this meeting will be open to the public from 9 a.m. –10 am. and 4:30 pm.–5:30 pm. The topics will be opening remarks and introductions, overview of Challenge III, and policy discussion.

The remaining portion of this meeting from 10 a.m.–4:30 p.m. is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman of June 5, 1991, this session will be closed to the public pursuant to paragraphs (c)(4), (6) and (9)(B) of section 552b of title 5, United States Code.

Any interested persons may attend, as observers, meetings, or portions thereof, of advisory panels which are open to the public.

Members of the public attending an open session of a meeting will be permitted to participate in the panel's discussions at the discretion of the chairman of the panel if the chairman is a full-time Federal employee. If the chairman is not a full-time Federal employee, then public participation will be permitted at the chairman's discretion with the approval of the full-time Federal employee in attendance at the meeting, in compliance with this guidance.

If you need special accommodations due to a disability, please contact the Office of Special Constituencies, National Endowment for the Arts, 1100 Pennsylvania Avenue, NW., Washington, DC 20506, 202/682–5532, TTY 202/682–5496, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Ms. Yvonne M. Sabine, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call (202) 682–5433.

Dated: June 19, 1991.

Yvonne M. Sabine,

Director, Council and Panel Operations, National Endowment for the Arts.

BILLING CODE 7537–01–M

NUCLEAR REGULATORY COMMISSION

[Docket No. 70–398]

Finding of no Significant Impact and Opportunity for a Hearing Renewal of Special Nuclear Material License No. SNM–362 Department of Commerce National Institute of Standards and Technology Gaithersburg, MD

The U.S. Nuclear Regulatory Commission (the Commission) is considering the renewal of Special Nuclear Material License No. SNM–362 for the continued operation of the Department of Commerce, National Institute of Standards and Technology (NIST), located in Gaithersburg, Maryland.

Summary of the Environmental Assessment

Identification of the Proposed Action

The proposed action is the renewal of License SNM–362. Renewal will allow NIST to continue to receive, store, and use unsealed radioactive material and sealed radioactive sources covered by this license. Work performed under this license includes irradiation of material and equiment, preparation of sources, characterization and calibration of sources and instruments, sample assays,

VOL
56
ISS
1
24
JE
27
1991
UMI

radiochemistry, and general research and development.

NIST also has three other NRC licenses, two for distribution of radioactive material and one for the operation of the facility's research reactor. These licenses are separate from SNM–362 and are in no way impacted by the proposed action.

The Need For The Proposed Action

NIST provides a variety of services for federal, state, commercial, and international needs. The nuclear power industry sends radioactive sources and instruments to NIST for calibration. Industrial users depend upon NIST-certified sources for radiography. State, national, and international facilities and laboratories interact with NIST in radioactivity and radiation projects. NIST also has miscellaneous research and development projects using licensed material.

Environmental Impacts of the Proposed Action

Assessing the radiological impact to the environment from activities authorized by License SNM–362 is complicated by the operation of the facility's research reactor. Reactor operation produces most of the effluents released from the site, and they are regulated by another NRC license. All waste water from the site is discharged to the sanitary sewer for treatment at the public sewage treatment plant, and NIST holds a current discharge authorization permit from the Washington Suburban Sanitary Commission to discharge to the sanitary sewer. Since no liquid effluents are released to ground or surface waters, there is no dose to people from liquid effluent pathways. The dose to the population is from exposure from the release of radioactive gaseous effluents from the site's 30-meter tall stack. Argon-41 and tritium are the major components of this gaseous effluents.

The environmental monitoring program at NIST is designed to detect any changes in environmental radiation levels as a result of all activities involving radioactive material at the site, including the operation of the research reactor. Sample media collected are grass, soil, and water. Direct radiation levels are measured by the use of thermoluminescent dosimeters (TLDs). NIST's environmental program has been in place for over 25 years. The staff has evaluated the monitoring program and concluded it is adequate to detect any buildup of radionuclides released to the environment as a result of site operations.

Doses were calculated using the effluent data from the site's stack. The maximum values of activity released for argon-41 and tritium for the years 1984 through 1990 were used. For the individual dose, the maximally exposed individual is located in the southwest sector, 450 meters from the site's stack. The major exposure pathway is immersion in a cloud of argon-41. The effective whole body dose to the maximally exposed individual is 2.77 millirem per year. The critical organ is considered to be the whole body. The calculated dose is well below the 10 CFR 20.105(a) limit of 500 mrem per year and the revised 10 CFR 20.1301 limit of 100 mrem per year (published in the **Federal Register**, May 21, 1991). Also, the calculated dose is below the limit in the current 40 CFR 61.102 (25 mrem per year) and the revised 40 CFR 61.02 (10 mrem per year) that has been stayed from implementation.

The dose to the population around the NIST site is estimated to be 86.6 person-rem per year from site activities. This estimate is based on a population of 7,966,000 for a 50-mile radius around the site. This value is also conservative in that the highest activities of argon-41 and tritium released from the stack during the years 1984 through 1990 were used.

Conclusion

The staff concludes the impact to the environment and to human health and safety from work with radioactive materials authorized by License SNM–362 has been minimal. Results from the environmental radiation monitoring program, which has been in place for more than 25 years, have shown that environmental radiation levels have not increased as a result of site operations. Liquid effluents released to the sanitary sewer for treatment contain levels of radioactivity well below regulatory limits. Airborne effluents are at low levels which are difficult to quantify. In the future, the various discharge points will be monitored so the activity of material can be more easily quantified. However, the gaseous effluents released from the stack to the atmosphere will continue to be the major contributor to the dose to the population. The staff concludes that there will be no significant impacts associated with the proposed action.

Alternatives to the Proposed Action

The only alternative to the proposed action would be to deny approval of the license renewal application. Denial would mean NIST would have to cease all work with radioactive material controlled by this license. NIST's license would not be renewed if there were significant problems with human health and safety or with the environment that could not be resolved to the satisfaction of the NRC. Since there is minimal impact to the environment from work done under this license, little benefit would be gained by denying renewal of License SNM–362.

Agencies and Persons Consulted

Staff utilized the application dated March 30, 1990, and additional information dated January 23, 1991, and March 5, 1991. Also, on December 17, 1990, staff toured the NIST site and discussed the renewal application.

Finding of No Significant Impact

The Commission has prepared an Environmental Assessment related to the renewal of Special Nuclear Material License No. SNM–362. On the basis of this assessment, the Commission has concluded that environmental impacts that would be created by the proposed licensing action would not be significant and do not warrant the preparation of an Environmental Impact Statement. Accordingly, it has been determined that a Finding of No Significant Impact is appropriate.

The Environmental Assessment and the above documents related to this proposed action are available for public inspection and copying at the Commission's Public Document Room at the Gelman Building, 2120 L Street NW., Washington, DC. Copies of the Environmental Assessment may be obtained by calling (301) 492–3358 or by writing to the Fuel Cycle Safety Branch, Division of Industrial and Medical Nuclear Safety, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Opportunity for a Hearing

Any person whose interest may be affected by the issuance of this renewal may file a request for a hearing. Any request for hearing must be filed with the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555, within 30 days of the publication of this notice in the **Federal Register**, be served on the NRC staff (Executive Director for Operations, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852); on the licensee (U.S. Department of Commerce, National Institute of Standards and Technology Occupational Health and Safety Division, Gaithersburg, Maryland 20899); and must comply with the requirements for requesting a hearing set forth in the Commission's regulation, 10 CFR part 2, subpart L, "Informal Hearing Procedures for Adjudications in Materials Licensing Proceedings." These requirements, which the requestor must describe in detail, are:

1. The interest of the requestor in the proceeding;

2. How that interest may be affected by the results of the proceeding, including the reasons why the requestor should be permitted a hearing;

3. The requestor's areas of concern about the licensing activity that is the subject matter of the proceeding; and

4. The circumstances establishing that the request for hearing is timely, that is filed within 30 days of the date of this notice.

In addressing how the requestor's interest may be affected by the proceeding, the request should describe the nature of the requestor's right under the Atomic Energy Act of 1954, as amended, to be made party to the proceeding; the nature and extent of the requestor's property, financial, or other (i.e., health, safety) interest in the proceeding; and the possible effect of any order that may be entered in the proceeding upon the requestor's interest.

Dated at Rockville, Maryland, this 19th day of June, 1991.

For the Nuclear Regulatory Commission.

Jerry J. Swift,

Acting Chief, Fuel Cycle Safety Branch, Division of Industrial and Medical Nuclear Safety, NMSS.

BILLING CODE 7590–01–M

OFFICE OF MANAGEMENT AND BUDGET

Issuance of Interim Accounting Standards for the Preparation of Financial Statements Presented for Audit by Federal Departments and Agencies

AGENCY: Office of Management and Budget.

ACTION: Notice.

SUMMARY: This Notice provides a copy of a Memorandum for Heads of Departments and Agencies from the Director of the Office of Management and Budget issuing interim accounting standards for the preparation of financial statements presented for audit by Federal departments and agencies.

FOR FURTHER INFORMATION CONTACT: Wendy Zenker (telephone: 202–395–6911) or Steven Arisumi (telephone: 202–395–3050), Financial Management Division.

SUPPLEMENTARY INFORMATION: This Notice provides a copy of a June 11, 1991, Memorandum for Departments and Agencies from the Director of the Office of Management and Budget issuing interim accounting standards for the preparation of financial statements presented for audit by Federal departments and agencies.

Susan Gaffney,

Acting Assistant Director, Financial Management Division.

Herein follows the text of the Memorandum for Heads of Executive Departments and Agencies from the Director of the Office of Management and Budget:

Memorandum for Heads of Departments and Agencies

June 11, 1991.

From: Richard Darman.

Subject: Interim Accounting Standards.

The purpose of this memorandum is to establish interim accounting standards for the preparation of financial statements presented for audit by Federal departments and agencies. (This memorandum will be published in the Federal Register.)

Background

The Secretary of the Treasury, the Director of the Office of Management and Budget, and the Comptroller General of the United States (the Joint Financial Management Improvement Program (JFMIP) Principals) established the Federal Accounting Standards Advisory Board (FASAB) in October 1990. The FASAB recommends accounting standards and principles for the Federal government.

On April 4, 1991, the FASAB submitted a recommendation on interim accounting standards for Executive departments and agencies to use in preparing financial statements presented for audit. The JFMIP Principals have each adopted the recommendation.

Interim Accounting Standards

The following interim accounting standards shall apply to Executive departments and agencies:

In order to provide a benchmark for preparing financial statements presented for audit, executive agencies shall continue using, on an interim basis, the applicable accounting standards (i.e. those contained in agency accounting policy, procedures' manuals, and/or related guidance) now in effect for the preparation of their financial statements, pending FASAB recommendations and JFMIP Principals' adoption of federal accounting standards.

Where these applicable standards differ from those of Title 2 of The Policy and Procedures Manual For Guidance of Federal Agencies, published by the U.S. General Accounting Office, agencies are directed to make full disclosure of the differences and the alternative accounting basis used in preparing those financial statements.

Agencies are directed to submit to FASAB, on an expedited basis, those title 2 standards that they recommend be reexamined and possibly changed, or any other accounting standards which they propose to be considered for adoption. These submissions will be considered in establishing FASAB's agenda.

Nothing in this action should be construed as prohibiting or inhibiting agencies from improving their accounting policies, standards, or practices before JFMIP Principals' adoption of federal accounting standards.

Conclusion

Departmental and agency recommendations on proposed accounting standards should be submitted to: The Federal Accounting Standards Advisory Board, The National Building Museum, 401 F Street NW., room 302, Washington, DC 20552.

Questions regarding this memorandum may be directed to: Steven Arisumi, Office of Management and Budget, Financial Management Division, New Executive Office Building—room 10235, Washington, DC 20503 (Telephone number (202) 395–3050).

BILLING CODE 3110–01–M

RAILROAD RETIREMENT BOARD

Determination of Quarterly Rate of Excise Tax for Railroad Retirement Supplemental Annuity Program

In accordance with directions in section 3221(c) of the Railroad Retirement Tax Act (26 U.S.C. 3221(c)), the Railroad Retirement Board has determined that the excise tax imposed by such section 3221(c) on every employer, with respect to having individuals in his employ, for each work-hour for which compensation is paid by such employer for services rendered to him during the quarter beginning July 1, 1991, shall be at the rate of 28½ cents.

In accordance with directions in section 15(a) of the Railroad Retirement Act of 1974, the Railroad Retirement Board has determined that for the quarter beginning July 1, 1991, 33.6 percent of the taxes collected under sections 3211(b) and 3221(c) of the Railroad Retirement Tax Act shall be credited to the Railroad Retirement Account and 66.4 percent of the taxes collected under such sections 3211(b) and 3221(c) plus 100 percent of the taxes colleted under section 3221(d) of the Railroad Retirement Tax Act shall be credited to the Railroad Retirement Supplemental Account.

Dated: June 20, 1991.

By Authority of the Board.

Beatrice Ezerski,

Secretary to the Board.

BILLING CODE 7905–01–M

VOL 56 ISS 124 JE 27 1991 UMI

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-29351; International Series Release No. 290; File No., SR-ISCC-91-01]

Self-Regulatory Organizations; International Securities Clearing Corporation; Filing of Proposed Rule Change Regarding the Global Clearance Network Service

June 20, 1991.

Pursuant to section 19(b) (1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on May 30, 1991, the International Securities Clearing Corporation ("ISCC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which items have been prepared by ISCC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change consists of a rule which will permit qualified ISCC members, utilizing standardized input and output format, to obtain through ISCC, foreign clearing, settlement, and custody services offered by a bank selected by ISCC. Pursuant to the proposed rule change, ISCC would select Citibank, N.A., as one bank through which ISCC members will obtain foreign clearing, settlement, and custody services at reduced prices.

II. Self-Regulatory Organization's Statement Regarding the Proposed Rule Change

In its filing with the Commission, ISCC included statements concerning the purpose of and statutory basis for the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. ISCC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of Purpose of, and Statutory Basis for, the Proposed Rule Change

The service will enable members to submit data in a standardized trade format. Transmission of data to ISCC may occur several times throughout the day. Upon receipt, ISCC will validate the data and, if accepted, translate the data into the bank's format. If the data is not accepted, the member will be notified of such, and will be required to resubmit such rejected data. Accepted data will be transmitted to the bank where processing will occur under the bank's normal terms, conditions, and operating framework. If a transaction received by the bank is unacceptable because, for example, the shares in question are not in the member's account, the bank will notify the member directly of such occurrence. Each day the bank will report back to ISCC confirmations and statement and balance position reports. ISCC will translate this data into the universal output format and make it available to members. The service which Members obtain will conform with local market practices, procedures, regulations, and conventions.

ISCC has entered into an agreement with a major bank, Citibank, N.A., pursuant to which qualified ISCC members will be able to obtain foreign clearing, settlement, and custody services available from such bank at reduced prices. In order to obtain these prices, ISCC has guaranteed that a certain number of transactions will be processed over a fixed period of time. In the absence of such volume, ISCC has agreed that the bank will have the right to receive payment for any shortfall. In order to minimize ISCC's exposure from such guarantee, ISCC is requiring members who choose to use the service to guarantee to ISCC a proportionate share of such guarantee.

Each member of ISCC who chooses to participate in the service will have to be approved by the bank, since payment obligations for use of the service, such as fees, settlement amounts, or other funds necessary to conduct the clearance, settlement, and custody of foreign transactions, will remain an obligation between the member and the bank. Although ISCC has assumed no liability to the bank for these payments, ISCC has agreed to collect these fees from members on the bank's behalf, and will be responsible to remit only those funds collected.

ISCC will periodically review the adequacy of the services it receives from the bank under the agreement. ISCC has the right to terminate the arrangement if the bank materially fails to perform its obligations under the agreement.

The proposed rule change will facilitate and centralize the processing of international transactions at a beneficial cost to members. Accordingly, it is consistent with the requirements of section 17A of the Act and the rules and regulations thereunder.

(B) Self-Regulatory Organization's Statement on Burden on Competition

ISCC does not believe that the proposed rule change will have an impact or impose a burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments have been solicited or received. ISCC will notify the Commission of any written comments received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reason for so finding, or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of ISCC. All submissions should refer to File No. SR-ISCC-91-01 and should be submitted by July 18, 1991.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 91-15235 Filed 6-26-91; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 34-29340; File No. SR-NASD-91-29]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the National Association of Securities Dealers, Inc. Relating to Expiration of Exemption From Firm Quote Rule

Pursuant to section 19(b) (1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on May 30, 1991, the National Association of Securities Dealers, Inc. ("NASD" or "Association") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the NASD. The NASD has designated this proposal as one concerned solely with the administration of the self-regulatory organization under section 19 (b)(3)(A)(iii) of the Act, which renders the proposed rule change effective upon the Commission's receipt of this filing. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The NASD is proposing to delete language from part VI of Schedule D to the By-Laws regarding the expiration of an exemption to the firm quote rule for market makers receiving orders from competing market makers.

II. Self-Regulatory Organization's Statement of the Purpose, of, and Statutory Basis for the Proposed Rule Change

In its filing with the Commission, the NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The NASD has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The Association is proposing to delete language from Schedule D to the NASD By-Laws regarding an exemption from the firm quote rule [1] that expires on June 1, 1991. In 1989, the NASD submitted a rule proposal to the SEC to require NASDAQ market makers to display quotation size equal to the maximum order size displayed in the Small Order Execution System ("SOES"). The NASD requested an exemption from the firm quote rule for orders received from competing market makers. The firm quote rule requires broker/dealers to execute any order presented to them at their published quotation size, and the NASD was concerned about the possible financial exposure resulting from the combined effect of mandatory display of size with the requirement to deal with all market makers in a stock. Accordingly, the SEC approved the rule filing effective December 1, 1989 and granted an exemption for six months, expiring June 1, 1991.

The NASD believes the conforming rule change now being proposed is consistent with the SEC's approval order and with section 15A(b)(6) of the Act. Section 15A(b)(6) requires that the rules of a national securities association be designed to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transaction in securities, to remove impediments to and perfect the mechanism of a free and open market.

B. Self-Regulatory Organization's Statement on Burden on Competition

The NASD believes that the proposed rule change will not result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to section 19(b)(3)(A)(iii) of the Act and subparagraph (e) of rule 19b-4 thereunder. At any time within 60 days of the filing of such rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

[1] Rule 11Ac1-1(c)(2) under the Act. The proposed rule change removes language refesencing a temporary exemption from the firm quote rule to reflect the expiration of the exemption.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the NASD. All submissions should refer to the file number in the caption above and should be submitted by July 18, 1991.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority, 17 CFR 200.30-3(a)(12).

Dated: June 20, 1991.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 91-15237 Filed 6-26-91; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 34- 29345; File No. SR-NYSE-91-20]

Self-Regulatory Organizations; Filing of Proposed Rule Change by the New York Stock Exchange, Inc. Relating to Extraordinary Market Conditions

Pursuant to section 19 (b) (1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on May 23, 1991, the New York Stock Exchange ("NYSE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which items have been prepared by the self-regulatory organization. The Commission is publishing this notice to

VOL 56 ISS 124 JE 27 1991 UMI

solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The NYSE proposes to add new rule 758B to provide as follows:

Extraordinary Market Conditions

Rule 758B. In the interest of maintaining a fair and orderly market under unusual trading conditions for one or more classes of options, two Floor Officials shall have the power to determine that the level of trading activity or the existence of unusual market conditions are such that the Exchange is incapable of collecting, processing and making available to quotation vendors bids and offers with respect to one or more classes of options in a manner that accurately reflects the current state of the market on the Floor. Whenever two Floor officials make any such determination, they may declare that a "fast market" exists for these options. They shall immediately notify the Market Surveillance Division of the Exchange upon making any such determination. During the period for which a fast market is in effect, Competitive Options Traders shall be relieved of their obligations under paragraph (b)(i)(C)(1) of rule 758, and options specialists shall be relieved of their obligations under paragraph (e)(i) of rule 750 and under rule 758A, with respect to the maintenance of price continuity and depth. Two Floor Officials shall monitor the activity or condition which formed the basis for the determination that a "fast market" exists and shall immediately notify the Market Surveillance Division when the Exchange is once again capable of collecting, processing and making available to quotation vendors bids and offers with respect to the one or more classes of options in question in a manner that accurately reflects the current state of the market on the Floor. Upon such notification, Competitive Options Traders and options specialists shall once again be obligated as specified in paragraph (b)(i)(C)(1) of rule 750, paragraph (e)(i) of rule 750 and in rule 758A with respect to the maintenance of price continuity and depth.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B) and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed-Rule Change

The purpose of the proposed rule change is to establish procedures on the NYSE's options floor for declaring a "fast market" and for relieving Competitive Options Traders and options specialists of their specific obligations under the NYSE's rules regarding the maintenance of price continuity and depth during a fast market. Pursuant to paragraph (b)(i)(C) of rule 758 and paragraph (e) of rule 750, the NYSE will continue to require Competitive Options Traders and options specialists generally to engage in activities in a manner designed to maintain or contribute to the maintenance of a fair and orderly market during a fast market.

By relieving Competitive Options Traders and options specialists of their specific obligations with respect to price continuity and depth during a fast market, the proposed rule change will facilitate the operations of the NYSE's options market during extraordinary market conditions.

The NYSE believes that the proposed rule change is consistent with section 6(b)(5) of the Act in that it is designed to facilitate transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes that the proposed rule change will not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The NYSE has not solicited, and does not intend to solicit, comments on the proposed rule change. The NYSE has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(a) By order approve such proposed rule change, or

(b) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC. Copies of such filing will also be available for inspection and copying at the principal office of the abovementioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by July 18, 1991.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[1]

Dated: June 19, 1991.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 91-15236 Filed 6-26-91; 8:45 am]

BILLING CODE 8010-01-M

[1] 17 CFR 200.30-3(a) (12) (1990).

[Release No. 34-29350; File No. SR-PSE-91-09]

Self-Regulatory Organizations; Filing and Order Granting Partial Accelerated Approval of Proposed Rule Change by the Pacific Stock Exchange, Inc. Relating to Arbitration Procedures and Interest on Awards

Pursuant to Section 19(b) (1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on May 28, 1991, the Pacific Stock Exchange, Inc. ("PSE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in items I, II and III below, which Items have been prepared by the PSE. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons, and simultaneously publishing an order granting partial accelerated approval of a portion of the proposed rule change.

I. Self-Regulatory Organization's Statement on the Terms of Substance of the Proposed Rule Change

The PSE has submitted a proposed rule change to amend Rule 12, Arbitration, of the Rules of the Board of Governors. The text of the proposed rule change is available for inspection and copying at the PSE and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change. The text of these statements may be examined at the places specified in item IV below. The PSE has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

Service of Documents

The changes to rules 12.2 and 12.13 are being made so that the PSE arbitration rule relating to service of documents conforms with the Uniform Code of Arbitration ("Uniform Code").

Currently, the Director of Arbitration serves copies of the Answer, Counterclaim, Third Party Claim, and Reply on all the non-filing parties. This procedure applies to both Simplified Claims, Rule 12.2(d) and (e), and Regular Claims, Rule 12.13 (b) (1), (3) and (4). The Uniform Code provides that it is the Respondent who must serve all parties with their Answer, Counterclaim, Third Party Claim, and, likewise, the Claimant or Third Party Respondent must serve other parties with their responsive pleadings. The Director of Arbitration is not involved in the distribution process of the pleadings, except for the initial Claim. This provision of the Uniform Code has been adopted by the New York Stock Exchange ("NYSE") and the National Association of Securities Dealers ("NASD"). Similarly, the PSE wishes to adopt this procedure. The amendments are based on the language used in the Uniform Code.

Awards

The proposed amendment to rule 12.29(g), Awards, is based on a rule change approved by the Securities Industry Conference on Arbitration ("SICA"). Rule 12.29(g) currently provides that awards are to bear interest from the date of decision until payment. At the SICA meeting in April 1991, members noted the potential unfairness resulting to the paying party who may have to pay interest for delays beyond their control, *e.g.*, delays in processing and mailing the decision between the Exchange and the arbitrators. The proposed rule provides that the award will not bear interest from the date of the decision, (i) where it is paid within 30 days, (ii) where a motion to vacate has been filed and granted, or (iii) where the arbitrator specifies otherwise in the award. The proposed rule is designed (a) to eliminate the unfairness resulting to a party paying the award and (b) to provide an incentive to pay the award within 30 days, while still providing the arbitrators with discretion to award interest.

The proposed rule filing is consistent with Section 6(b) (5) of the Act in that it promotes just and equitable principles of trade by insuring that members and member organizations and the public have a fair and impartial forum for the resolution of their disputes.

B. Self-Regulatory Organization's Statement on Burden on Competition

The PSE does not believe that the proposed rule changes impose a burden on competition.

C. Self-Regulatory Organization's Statement on Comments Received on the Proposed Rule Change From Members, Participants or Others

Comments have not been received from members. The rule changes have been approved by SICA.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The PSE requests that the Commission find good cause for approving the portion of the proposed rule change relating to the service of documents prior to the thirtieth day after publication of the notice in the **Federal Register**. The Exchange states that the proposed amendment to the service of documents provision of the PSE's arbitration rules is based on the SICA Uniform Code of Arbitration. The Exchange also states that this provision has been adopted by the NASD and the NYSE.

The Commission finds that the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular, section 6(b)(5) of the Act.[1] Section 6(b)(5) of the Act requires that a national securities exchange have rules that are designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. The Commission believes that the proposal furthers the objectives of section 6(b)(5) because the proposed amendment is designed to save administrative time and costs while continuing to ensure that respondents receive adequate notice of the institution of arbitration proceedings. As a result, the Commission believes that the proposal should improve the efficiency and speed of arbitration proceedings administered by the PSE.

The Commission finds that there is good cause to approve the PSE's proposed rule change with respect to the service of pleadings prior to the thirtieth day after the date of publication of notice of filing in the **Federal Register**. The proposal is substantially identical to the NYSE, NASD, and American Stock Exchange ("Amex") rule filings that were approved by the Commission on May 10, 1989.[2] In addition, the

VOL 56 ISS 124 JE 27 1991 UMI

substance of the proposed rule change previously was published for comment in the Federal Register and no comments were received with respect to this portion of the proposed arbitration rules.[3] This notice and order granting partial accelerated approval of the proposed rule change is consistent with the substance of the Commission's May 10, 1989 order approving the NYSE, NASD, and Amex rule filings.

With respect to the proposed amendment relating to the interest on awards, within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve the proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552 will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the PSE. All submissions should refer to File No. SR-PSE-91-09 and should be submitted by July 18, 1991.

It is therefore ordered, Pursuant to section 19(b)(2)[4] of the Act, that the proposed rule change relating to the service of documents is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[5]

Dated: June 20, 1991.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 91-15295 Filed 6-26-91; 8:45 am]

BILLING CODE 8010-01-M

[3] Id. Although the PSE recently amended its arbitration rules, the PSE, unlike some of the other self-regulatory organizations that administer arbitration programs, chose at that time to continue to act as an intermediary in pleadings administration. See Securities Exchange Act Release No. 29295 (July 5, 1989), 56 FR 32740 (July 12, 1990) (approving File No. SR-PSE-89-19).

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearings; Philadelphia Stock Exchange, Incorporated

June 21, 1991.

The above named national securities exchange has filed applications with the Securities and Exchange Commission ("Commission") pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and rule 12f-1 thereunder for unlisted trading privileges in the following securities:

Societe Nationale Elf Aquitaine
American Depositary Receipts, Nominal Value F.F. 50 (File No. 7-6999)

Columbia Gas Systems, Inc.
Common Stock, $10 Par Value (File No. 7-7000)

International Specialty Products, Inc.
Common Stock, $.01 Par Value (File No. 7-7001)

Value City Department Stores, Inc.
Common Stock, No Par Value (File No. 7-7002)

Fruehauf Trailer Corporation
Common Stock, $0.01 Par Value (File No. 7-7003)

Nuveen Quality Income Municipal Fund, Incorporated
Common Stock, $0.01 Par Value (File No. 7-7004)

Calgon Carbon Corporation
Common Stock, $0.01 Par Value (File No. 7-7005)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before July 15, 1991, written data, views and arguments concerning the above-referenced application. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, 450 5th Street, NW., Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the application if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010-01-M

[Release No. 34-29323; File No. SR-PTC-91-07]

Self-Regulatory Organizations; the Participants Trust Company; Filing of Proposed Rule Change Relating to the Establishment of Margin Levels for Certain GNMAs

June 17, 1991.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. § 78s(b)(1), notice is hereby given that on May 22, 1991, the Participants Trust Company ("PTC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change (SR-PTC-91-07) as described in Items I, II, and III below, which items have been prepared by PTC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change establishes the percentages to be deducted from the market value of certain securities for purposes of determining the Applicable Percentage of the securities to be included in a participant's Net Free Equity. The securities and percentages are as follows:

GNMA Project Loan Securities—10%
GNMA Project Note Securities—10%
GNMA Construction Loan Securities—12%
GNMA Mobile Home Securities—20%

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, PTC included statements concerning the purpose of and statutory basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. PTC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule filing is to establish the percentages (*i.e.*, margin) to be deducted from the market value of certain types of GNMAs eligible for deposit at PTC. The securities and percentages are as follows:

GNMA Project Loan Securities—10%
GNMA Project Note Securities—10%
GNMA Construction Loan Securities—12%
GNMA Mobile Home Securities—20%

Under PTC's rules, a certain percentage, as determined by PTC, (referred to in PTC's rules as the "Applicable Percentage") of the market value of securities is included in the computation of participants' Net Free Equity. Net Free Equity of zero or greater is required to be maintained by participants in each of its Agency, Pledgee Transfer, or Proprietary accounts in order for transactions to be processed. PTC has the right to borrow against or liquidate the assets in those accounts in the event that a participant's debit balance at the end of the day is not satisfied. Net Free Equity is calculated as the sum of:

(1) The cash balance;

(2) The Applicable Percentage of the market value of securities in the Account;

(3) The value of Optional Deposits to the Participants Fund which are allocated to that Account; minus

(4) Reserve on Gain.

The Applicable Percentage is determined by deducting certain percentages from the market value of securities held by PTC participants. By including only a portion of the market value of securities in Net Free Equity, PTC attempts to limit the risk caused by fluctuations in market value of these securities held in those accounts.

Currently, PTC deducts 5% from the market value of GNMA single family securities to arrive at the Applicable Percentage. PTC has determined that, due to the relative lower liquidity of the Project, Construction and Mobil Home securities referred to above, a higher margin level is appropriate for those securities. The margin level selected was approved by PTC's Risk Management Committee and by PTC's Board of Directors.

Since the proposed rule change promotes the prompt and accurate clearance and settlement of securities transactions, it is consistent with section 17A of the Act and the rules and regulations thereunder applicable to PTC.

(B) Self-Regulatory Organization's Statement on Burden on Competition

PTC does not believe that the proposed rule change will have an impact on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

PTC has not solicited, and does not intend to solicit, comments on this proposed rule change. PTC has not received any unsolicited written comments from its participants or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period: (i) As the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which PTC consents, the Commission will:

(a) By order approve such proposed rule change, or

(b) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any persons, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of PTC. All submissions should refer to File No. SR-PTC-91-07 and should be submitted by July 18, 1991.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 91-15234 Filed 6-26-91; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 34-29348; File No. SR-PHLX-91-02]

Self-Regulatory Organizations; Filing and Order Granting Accelerated Approval of Proposed Rule Change by the Philadelphia Stock Exchange, Inc. Relating to the Listing of Long-Term Options on a Reduced Value, Value Line Composite Index

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on April 11, 1991, the Philadelphia Stock Exchange ("PHLX" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.[1]

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The PHLX proposes to modify Exchange rule 1001A, to provide for the listing of long-term options on a reduced value Value Line Composite Index ("VLE"). These long-term options on the reduced value VLE will trade independent of and in addition to regular VLE options traded on the Exchange and will be subject to the same rules that govern the trading of the regular VLE options except that the interval between strike prices will be no less than $2.50 instead of $5.00. As a result of PHLX rounding procedures, however, after dividing the VLE by 10, the reduced value index may vary slightly from one-tenth of the full value index.

The text of the proposed rule change is available at the Office of the Secretary, PHLX and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included

[1] The PHLX amended the proposed rule change on May 30, 1991, to adopt a January Expiration cycle for the reduced value long term Value Line Index options contracts. See letter from Murray L. Ross, Secretary, PHLX, to Howard Kramer, Assistant Director, SEC, dated May 30, 1991.

VOL 56 ISS 124 JE 27 1991 UMI

statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B) and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The PHLX has been trading index options on the VLE since 1985. The VLE is an arithmetically averaged, broad-based index composed of 1,000 primarily second-tier stocks.

On February 22, 1991, the Commission approved an Exchange proposal to list long term options having up to 36 months to expiration on any of the Exchange's broad-based indexes.[2] Under the current proposal, the PHLX would be permitted to list long term options on a reduced value index that would be computed at one-tenth the value of the PHLX's current VLE. The proposed reduced value long term VLE options will have expirations of up to 36 months.

The PHLX believes the listing of long term reduced value VLE options will provide retail investors with the opportunity to obtain, at an affordable price, long term portfolio protection over a wider range of securities than is presently obtainable through similar products trading on other options exchanges. The PHLX proposes that the long term reduced value VLE options will trade independently of and in addition to regular VLE options.

The reduced value VLE options will be subject to the same rules that presently govern the trading of regular VLE options, including sales practice rules, margin requirements and floor trading procedures, except that strike price intervals will be fixed at no less than $2.50, instead of $5, and position and exercise limits will be aggregated with regular VLE contracts as set forth below.

The PHLX has determined that because positions in the full size VLE options and those in the proposed reduced value VLE options will be based upon the same underlying stock index, positions in regular VLE options will be aggregated with positions in the reduced value VLE options for determining compliance with Exchange rules on position and exercise limits. However, since one full sized VLE contract is equivalent to ten reduced value VLE contracts, each reduced value VLE contract will be considered one-tenth of a regular VLE contract when regular VLE contracts and reduced value VLE contracts are aggregated for position and exercise limit purposes. Thus, for example, under current VLE position limits of 25,000 contracts (with 15,000 in the near term month), an option holder with no full size VLE contracts would be permitted to hold 250,000 reduced value VLE contracts (150,000 in the near term month).

Similar to regular VLE options, the proposed long term reduced value VLE options would feature European exercise (restricting exercise only to the last day of trading). Further, as is the case for all other indexes, the PHLX will continuously calculate and disseminate the underlying index value for the reduced value VLE in addition to the regular VLE.

The PHLX intends to adopt the following procedure in calculating and rounding the reduced value index: The PHLX will divide the VLE calculated value, as provided by Bridge Data, by ten and round the resulting quotient to the nearest one-hundredth. The PHLX states that the digits one through four will be rounded down to the next number and the digits five through nine will be rounded up to the next number. As a result of the one-tenth reduced value feature of the proposed reduced value VLE and application of PHLX rounding procedures, the reduced value index may vary slightly from one-tenth of the full value index.

Upon Commission approval of this proposed rule change, the PHLX intends to list initial option series on the new reduced value VLE with January 1992 and January 1993 expirations. While the initial series listings would have less than 36 months to expiration, options with 36 month expirations would be introduced at each January expiration thereafter. Accordingly, the PHLX intends to introduce long term reduced value VLE options with a January 1994 expiration after the January 1991 expiration.

The Exchange also proposes to retain some flexibility in the listing of new strike prices at each January expiration. The PHLX intends to list either one or two strike prices near or bracketing the then current index level. The PHLX also intends to list standardized puts and calls for each strike price. However, the Exchange only will list a put or a call if two strike prices are introduced.

The Exchange also proposes to add additional strike prices when the index makes a significant move of approximately 10 to 15 percent. Based upon current index levels, a move in the 10 to 15 percent range would approximate a 28 to 42 point market move as measured by the regular VLE. The Exchange believes this procedure will result in the listing of only a limited number of series for any expiration, thereby eliminating confusion that might otherwise be caused by listing a myriad of strike prices and expirations.

The Exchange expects that its proposed policy of listing strike prices on the reduced value VLE will permit the offering of options at premiums between $2 and $7 ($200 to $700 per contract) based upon current market volatility and other pricing considerations. The Exchange believes that such premiums appear to be in the desired range of prices that investors have favored in trading index warrants. The Exchange further believes that such premiums could not be achieved by using full size VLE options without the listing of strike prices so deeply out of the money and away from the current index value as to offer investors limited ability to participate in the market or protect a portfolio of primarily secondary stocks.

The PHLX believes that the proposed rule change is consistent with section 6(b)(5) of the Exchange Act because the listing of long term options on a reduced value VLE will facilitate transactions in securities and protect investors and the public interest. The Exchange also believes that the proposed rule change is consistent with the requirements under section 6(b)(5) that the rules of the Exchange be designed to promote just and equitable principals of trade and to protect the investing public.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes that the proposed rule change will not impose an inappropriate burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments on the proposed rule change were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has requested that the proposed rule change be given accelerated effectiveness pursuant to section 19(b)(2) of the Act.

[2] Securities Exchange Act Release No. 28910 (February 22, 1991) 56 FR 9002 (March 4, 1991).

The Commission finds that the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of section 6(b)(5).[3]

The Commission believes that the Exchange's proposal to list reduced value index options, computed at one-tenth of the value of the VLE, will facilitate transactions in options by providing investors with additional means to hedge equity portfolios against long-term market risk.[4] In particular, the Commission believes that options on a reduced value VLE will serve the needs of retail investors by providing them with the opportunity to use long-term options to protect their portfolios from long-term market moves at a reduced cost. In addition, options on a reduced value VLE may result in options premiums more affordable to retail investors.

The Commission also believes that trading in options on the reduced value VLE will not have an adverse market impact or be susceptible to manipulation. Previously, the Commission has determined that the VLE is a broad-based index. The Commission does not believe that merely changing this index by dividing its value by 10 will change this determination. The reduced value VLE will contain the same stocks with the same weightings as the full value index on which it is based (*i.e.* the VLE) and will be calculated in the same manner as that index (with the exception of being 1/10th its value). In addition, the Commission believes that any potential manipulation concerns raised by options on a reduced value VLE is minimized by the fact that positions in these options will be aggregated with positions in options on the full value VLE for position and exercise limit purposes. Moreover, the Commission notes that the same Exchange surveillance procedures for regular VLE options will be used for the reduced value VLE options.

The Commission also believes that reducing the strike price intervals for the reduced value index options is reasonable given the fact that any changes in the value of the reduced value VLE will occur at a rate which is 1/10th of the rate at which the value of the VLE will change. Finally, the Commission believes that the PHLX's proposed procedures for listing new strike prices is reasonable since it provides the Exchange with some flexibility in listing new strike prices which will, in turn, provide investors with a better opportunity to choose an options contract that meets their investment objectives. The Commission does not believe that the proposal by itself will result in a proliferation of strike prices since the proposal requires the reduced value VLE index to make a significant move of approximately 10 to 15 percent before additional strike prices can be added.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice thereof in the Federal Register. The PHLX's proposal to list options on a reduced value VLE is identical to a proposal by the American Stock Exchange, Inc. ("AMEX") to trade options on a reduced value Major Market Index that was approved on November 14, 1990.[5] The AMEX proposal was subject to the full notice and comment period and did not receive any comments, and the Commission does not find any different regulatory issues arising out of the PHLX proposal. Thus, the Commission believes it is appropriate to approve the proposed rule change on an accelerated basis in order to facilitate competition between the exchanges for product services, which, in turn, should benefit public investors. The Commission believes, therefore, that granting accelerated approval of the proposed rule change is appropriate and consistent with section 6 of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by July 18, 1991.

It Is Therefore Ordered, Pursuant to section 19(b)(2) of the Act [6] that the proposed rule change (SR-PHLX-91-07) is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[7]

Dated: June 19, 1991.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 91-15238 Filed 6-26-91; 8:45 am]

BILLING CODE 8010-01-M

[3] 15 U.S.C. 78f(b)(5) (1988).

[4] Pursuant to section 6(b)(5) of the Act, the Commission must predicate approval of any new securities product upon a finding that the introduction of such product is in the public interest. Such a finding would be difficult with respect to a product that served no hedging or other economic function because any benefits that might be derived by market participants likely would be outweighed by the potential for manipulation, diminished public confidence in the integrity of the markets, and other valid regulatory concerns.

[5] See Securities Exchange Act Release No. 28813 (November 14, 1990) 55 FR 48207 (November 20, 1990) (order approving SR-AMEX-90-14).

[Release No. 34-29352; File No. SR-Phlx-90-03]

Self-Regulatory Organizations; Order Approving Proposed Rule Change by the Philadelphia Stock Exchange, Inc. Relating to Exchange Arbitration Procedures

I. Introduction

On October 1, 1990, the Philadelphia Stock Exchange, Inc. ("Phlx") or ("Exchange") submitted to the Securities and Exchange Commission ("Commission"), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") [1] and rule 19b-4 thereunder,[2] a proposed rule change to amend its arbitration rules and procedures. Specifically, the Phlx proposes to delete and replace current Phlx rule 960, which governs arbitration, in its entirety. The Phlx also proposes to amend By-Law article X, section 10-6 which governs its Arbitration Committee. The proposed rule change is designed to address numerous issues regarding the fairness and efficiency of the arbitration process administered by the Phlx as well as to institute new fees applicable to customer and member disputes and to adopt new requirements for the use of predispute arbitration agreements by Exchange members in agreements with customers.

Amendments No. 1, 2 and 4, submitted to the Commission on February 13, 1991, March 18, 1991 and April 25, 1991,

[6] 15 U.S.C. 78s(b)(2) (1988).

[7] 17 CFR 200.30-3(a)(12) (1990).

[1] 15 U.S.C. 78s(b)(1) (1988).

[2] 17 CFR 240.19b-4 (1990).

VOL 56 ISS 124 JE 27 1991 UMI

respectively, make several technical and conforming changes to the Exchange's arbitration rules under its original rule filing.[3] Amendment No. 3, submitted to the Commission on April 8, 1991, makes a minor technical change to proposed rule 950, section 5 and section 8 with respect to the Exchange's ability to decline to accept jurisdiction over arbitration matters that already are subject to proceedings in another forum.[4]

The Phlx's rule filing is substantially similar to rule filings of the New York Stock Exchange ("NYSE"), the National Association of Securities Dealers ("NASD"), and the American Stock Exchange ("Amex") that were approved by the Commission on May 10, 1989.[5] Similar rule filings submitted by the Chicago Board Options Exchange ("CBOE"), the Midwest Stock Exchange ("MSE"), the Pacific Stock Exchange ("PSE"), and the Cincinnati Stock Exchange ("CSE") also were approved by the Commission on August 2, 1989, August 25, 1989, July 5, 1989, and October 11, 1990, respectively.[6]

[3] Amendments No. 1, 2 and 4 conform the Phlx's proposed rule change to either the Exchange's current arbitration rules or the current Uniform Code of Arbitration as developed through the auspices of the Securities Industry Conference on Arbitration ("SICA").

[4] See letter from Lydia Gavalis, Phlx to Mary Revell, Branch Chief, Commission, dated April 4, 1991 ("April 4 letter"). The Exchange originally sought to include a statement in proposed section 3, Legal Proceedings, which would specify that the Exchange would not accept for arbitration cases that are subject to an outstanding legal proceeding where a court has not authorized the parties to seek an arbitration award. The Phlx explained that this provision was intended to provide parties with notice that the Exchange would not accept jurisdiction under such circumstances and to prevent parties from attempting to file concurrent proceedings in different forums. See letter from Lydia Gavalis to Mary Revell, dated April 2, 1991. The Phlx, however, later determined to amend section 5 to delete that provision and add a commentary referencing proposed section 6(b). Proposed section 6(b) provides that the Director of Arbitration has the right to decline the use of arbitration where the dispute, claim, or controversy is not a proper subject matter for arbitration. The Phlx also determined to amend section 6(b) in order to provide, in a commentary to that section, that the Exchange would decline to accept jurisdiction over arbitration matters that already are subject to proceedings in another forum. See April 4 letter.

[5] Securities Exchange Act Release No. 26805 (May 10, 1989), 54 FR 21144 (May 16, 1989) (Order approving File Nos. SR-NYSE-88-06, SR-NYSE-88-29, SR-NASD-88-29, SR-NASD-88-51, SR-NASD-89-19 and SR-Amex-88-29).

[6] Securities Exchange Act Release No. 27083 (August 2, 1989), 54 FR 32731 (August 9, 1989) (Order approving File No. SR-CBOE-89-06); Securities Exchange Act Release No. 27187 (August 25, 1989), 54 FR 36028 (September 5, 1989) (Order approving File No. SR-MSE-89-1); Securities Exchange Act Release No. 28165 (July 5, 1990), 55 FR 28740 (July 12, 1990) (Order approving File No. SR-PSE-89-19); and Securities Exchange Act Release No. 28532 (October 11, 1990), 55 FR 42662 (October 22, 1990) (Order approving File No. SR-CSE-90-03).

The proposed rule change was noticed in Securities Exchange Act Release No. 28837 (November 21, 1990), 55 FR 49741 (November 30, 1990). No comments were received on this proposal. This Order approves the proposed rule change, as amended.[7]

II. The Proposal

A. Proposed Amendments

1. Service of Pleadings

The Phlx proposes to modify the procedures for service of pleadings. Currently, Phlx rule 950, section 13 requires the Director of Arbitration to serve the Submission Agreement, the Statement of the Claim, the Answer, Counterclaim, Third-Party Claim, Reply or other responsive pleadings on the parties. As the number of arbitrations has increased, using the Director of Arbitration as an intermediary for service of the pleadings has added unnecessarily to delays in processing arbitration hearings and to the cost of operating the arbitration system. The Phlx, in revised rule 950, section 21, proposes to serve only the initial pleadings in a case, the Submission Agreement and the Statement of the Claim, and to require that parties serve all subsequent pleadings directly upon one another. This approach is intended to save administrative time and costs while continuing to ensure that respondents receive adequate notice of the institution of arbitration proceedings.

Under the proposal, parties also will be required to supply the Director of Arbitration with sufficient additional copies of the pleadings for the arbitrator(s).[8] In addition, amended rule 950, section 21 specifies that service by first-class postage prepaid or by overnight mail service is considered to be made on the date of mailing and service by any other means is considered to be made on the date of delivery. The proposal also provides that if a member firm and a person associated with a member firm are named parties to an arbitration proceeding at the time of the filing of the claim, service on the person associated with the member firm may be made on the associated person or the member firm, which would be required to serve the associated person.[9]

[7] The text of the proposed rule change, as amended, is available for inspection at the Phlx and at the Commission.

[8] The Exchange proposes to adopt similar service procedures for arbitration proceedings conducted pursuant to rule 950, section 9 simplified arbitration.

[9] Amended rule 950, section 21 provides that if the member firm does not undertake to represent the associated person, the member firm shall serve the associated person with the Statement of the Claim, advise all parties and the Director of Arbitration of that fact, and provide the associated person's current address.

2. Classification of Arbitrators

The arbitration panels at the SROs for cases involving public customers historically have been composed of a majority of public arbitrators and a minority of industry arbitrators. However, there have not been clear requirements or specifications for who may serve as a public arbitrator. Under the Phlx's proposal, amended rule 950, section 15 would specify who may not serve as a public arbitrator and who may serve as an industry arbitrator.

The Exchange's proposal addresses the potential for real or apparent bias on the part of public arbitrators who may have some professional or personal association with the securities industry. Phlx rule 950, section 15 defines as an industry arbitrator a person who is associated with a member or other broker-dealer, municipal securities dealer, government securities broker or dealer or has been associated with any of the above within the past three years or has retired from any of the above. The rule also deals with the appropriate role in the arbitration system of professionals such as accountants or lawyers who provide services to securities industry clients. The rule would classify as industry arbitrators, rather than public arbitrators, accountants, attorneys, or other professionals who have devoted twenty percent or more of their professional work to securities industry clients within the last two years. In addition, the rule excludes from service as a public arbitrator persons who are spouses or other members of the household of a person associated with a registered broker, dealer, municipal securities dealer, government securities broker or government securities dealer.

The Phlx is proposing disclosure provisions designed to assist parties in assuring that the panel assigned to each case is appropriately balanced. Under proposed rule 950, section 17, the employment histories of the arbitrators for the past ten years as well as the information provided by the arbitrators pursuant to separate disclosure obligations contained in proposed rule 950, section 19 will also be disclosed to the parties.[10]

The amendments regarding the classification of arbitrators are designed to promote impartial knowledgeable decisions in the arbitration of disputes between investors and broker-dealers. The reclassification of securities industry retirees to the industry arbitrator pool and the establishment of a three year period before a former securities industry employee may serve as a public arbitrator should relieve doubts that investors may have had regarding the impartiality of the public arbitrator pool. Similarly, the decision to exclude from the public arbitrator pool lawyers, accountants and other professionals who regularly service the securities industry makes clearer the distinctions between the two arbitrator pools.

[10] For a summary of the section 19 disclosure requirements, see infra section 3 of this Order.

3. Arbitrator Disclosure and Background Information to be Supplied to the Parties

The Phlx also is proposing changes to its rules with regard to what disclosures arbitrators must make and how that disclosure is supplied to the parties. Under current rule 950, section 11, each arbitrator is required to disclose of the Director of Arbitration any circumstances which might preclude the arbitrator from rendering an objective and impartial decision. The Director of Arbitration may remove an arbitrator, prior to the commencement of the first hearing session, who discloses such information. The Director of Arbitration is required to inform the parties of any information disclosed, if the arbitrator who disclosed the information is not removed. In addition, current rule 950, section 9 requires that the Director of Arbitration inform the parties of the names and affiliations of the arbitrators at least eight business days prior to the date of the initial hearing.

The Exchange's proposed rule 950, section 17 would provide to the parties all of the information disclosed by arbitrators pursuant to the amended disclosure rules at the time when the parties are given the arbitrators' names. This change would provide full disclosure of the arbitrators' backgrounds at the earliest possible stage in the process, and should therefore avoid unnecessary postponements of hearings and promote knowledgeable use of challenges. In addition, the Exchange's proposed rule change also would provide guidance to arbitrators about the types of relationships that may create potential conflicts of interest.

Proposed rule 950, section 19(a) establishes specific disclosure obligations of arbitrators. The rule requires that each arbitrator disclose any direct or indirect financial or personal interest in the outcome of the arbitration. The rule also requires that arbitrators disclose any existing or past financial, business, professional, family or social relationships that are likely to affect impartiality or might reasonably create an appearance of partiality or bias. These disclosures extend to any relationship the arbitrators may have with any party, or its counsel, or with any individual whom they have been advised will be a witness. The rule requires arbitrators to disclose any such relationship involving members of their families or their current employers, partners, or business associates.

Phlx rule 950, section 19(b) requires prospective arbitrators to make a reasonable effort to inform themselves of any interests or relationships described above. Phlx rule 950, section 19(c) specifically advises arbitrators that the duty to disclose these interests or relationships is an ongoing duty, and that any person who serves as an arbitrator must disclose at any stage of the arbitration proceeding any such interests, relationships, or circumstances that arise, or that are recalled or discovered. Further, the Director of Arbitration will retain the ability to remove an arbitrator, prior to the commencement of the first hearing, based on the information disclosed pursuant to the rule. Parties are to be informed of any information disclosed pursuant to the rule, if the arbitrator has not been removed.[11]

As discussed above, Phlx rule 950, section 17 provides that parties will be informed of the names and business affiliations of the arbitrators for the past ten years, as well as any information disclosed pursuant to rule 950, section 19 at least fifteen business days prior to the date set for the initial hearing. Under this rule, parties also may make further inquiry through the Director of Arbitration concerning the arbitrators' background.

4. Appointment of Replacement Arbitrators on a Panel

The Phlx also is proposing two changes with respect to its ability to appoint a replacement arbitrator on a panel when a vacancy occurs. The first of these changes concerns the ability of the Director of Arbitration to replace an arbitrator who becomes unavailable to serve prior to the first hearing session. Under the proposed amendment, if after appointment and prior to the first hearing session an arbitrator resigns, dies, withdraws, is disqualified or otherwise is unable to perform as an arbitrator, Phlx rule 950, section 17 authorizes the Director of Arbitration to appoint a replacement arbitrator. The rule also explicitly provides that parties are entitled to receive the same disclosure regarding the background of the replacement arbitrator as they receive for the initial arbitrator(s), and have the same right to request more information, and to challenge the arbitrator as provided in the rules, although within a shorter time frame.

The second change concerning the ability to appoint replacement arbitrators addresses situations where an arbitrator resigns, dies, withdraws, is disqualified, or otherwise is unable to perform as an arbitrator after the commencement of the first hearing session but prior to the rendition of the award. Under the Phlx's existing rules, if a vacancy occurs under these circumstances, both parties must consent to either the appointment of a replacement arbitrator or the continuation of the proceedings with the remaining arbitrator(s).

Proposed rule 950, section 20 permits the remaining arbitrators to continue with the hearing and the determination of the controversy. However, under the proposal, if a party objects, a replacement arbitrator would be appointed by the Director of Arbitration, under the same procedures as for the replacement of an arbitrator prior to the first hearing, in the case of public customer controversies. A replacement arbitrator would be appointed by the Director of Arbitration from the next committee member in alphabetical rotation in the case of member controversies.

The rule is designed to permit parties in particular cases to make the decision that makes the most sense for their case. For example, in cases where only peripheral issues have been dealt with and relatively little progress has been made, it may make sense for the parties to request a replacement arbitrator. Conversely, where the hearings have progressed significantly, or are in fact substantially completed, it may make less sense for parties to request a replacement arbitrator, who then would have to learn all that occurred in his or her absence.

In the event that parties do request a replacement arbitrator, the arbitrators will have the authority to require the rehearing of part or all of the case.

[11] Once the arbitration panel is sworn, it controls all of the procedural aspects of the hearing. Accordingly, under the Uniform Code and the Phlx's arbitration rules, the Director of Arbitration may not remove an arbitrator after the hearings have begun. An arbitrator should be alert to the guidelines set out in the American Bar Association/American Arbitration Code of Ethics for Arbitrators in Commercial Disputes ("ABA/AAA Code") and the applicable law with respect to arbitrator bias, and remove himself or herself from the panel when conflicts arise after hearings have begun. See Canon II, E.(2) of the ABA/AAA Code.

VOL 56 ISS 124 JE 27 1991 UMI

effectively requiring the appointment of another panel, as is appropriate in their judgment. With this rule change, however, a party may no longer delay the resolution of the dispute by insisting on a rehearing whenever an arbitrator unexpectedly is unable to continue in his or her hearing of a case.

5. Availability of Small Claim Procedures and the Number of Arbitrators Required to Hear a Case

The Phlx proposes to amend rule 950 to increase to $10,000 from $5,000 the monetary claim limit for cases to be heard under the simplified procedures developed in the Uniform Code. Under these expedited procedures, a single arbitrator decides a casebased upon the papers submitted by the parties. No oral hearing is held unless requested by the investor, or ordered by the arbitrator. This change is designed to decrease the costs of arbitration.[12]

Phlx rule 950, section 15 would change the number of arbitrators required to compose an arbitration panel. Phlx rule 950, Section 8 currently provides that where the matter in controversy does not exceed $500,000 or where the matter in controversy does not involve or disclose a money claim, the Director of Arbitration shall appoint an arbitration panel of no less than three and no more than five arbitrators. Further, the current rule provides that where the amount in controversy is $500,000 or more, the Director of Arbitration shall appoint a panel consisting of five arbitrators, unless the parties agree in writing to a panel of three arbitrators. Amended rule 950, section 15 would require the Director of Arbitration to appoint an arbitration panel that consists of no fewer than three nor more than five arbitrators where the amount in controversy exceeds $10,000. In order to alleviate administrative delays and costs frequently encountered in such cases, the proposed rule would eliminate the requirement of five member panels and allow the Director of Arbitration to exercise discretion in appointing panels of no fewer than three and no more than five arbitrators in cases not heard under the Phlx's simplified arbitration proceedings.

6. Discovery

The Phlx is proposing significant changes to its arbitration discovery rules, which should assist in the early resolution of discovery disputes and encourage the efficient resolution of cases on their merits. Under the current Exchange rules, parties have been expected to exchange documents informally and voluntarily. Parties also may request documents pursuant to a subpoena under the existing rules, but these do not have to be produced until the day of the hearing.

Proposed rule 950, section 28 expands party access to prehearing discovery and provides specific time frames for parties to request information from parties and for responding to such an information request. The rule also establishes a mechanism for prehearing matters where needed. Under the Phlx's proposed rule change, arbitrators also may order depositions when appropriate.

Proposed rule 950, section 28(a) continues the policy established under the existing rules for parties to cooperate to the fullest extent possible in the voluntary exchange of documents and information. In the event that voluntary exchanges are not sufficient, however, the rule establishes a clear framework for document production and information requests.

Proposed rule 950, section 28(b) provides that a party may serve a written request for information or documents 20 business days after the service of the claim or upon the filing of an answer, whichever is earlier. All parties are to receive copies of the request, and parties must attempt to work out disputes regarding the request between themselves before an objection to the request is filed. Unless the requesting party allows more time, information requests must be satisfied or objected to within 30 business days from the date of service. The party who made an information request has 10 business days from the receipt of the objection to respond to the objection.

Under the proposal, a party whose information request had not been satisfied may request in writing that the Director of Arbitration refer the matter to a prehearing conference. Parties may also find that there are other matters in addition to unresolved information requests that require the assistance of a prehearing conference. Proposed rule 950, section 28(d) provides that the Director of Arbitration may appoint someone to preside over the prehearing conference. The prehearing conference may be held either in person or by telephone conference call, and is designed to help the parties to reach agreement on such matters as the exchange of information, exchange or production of documents, identification of witnesses, identification and exchange of hearing documents, stipulations of fact, identification and briefing of contested issues, and any other matter which will expedite the arbitration proceedings.

When a prehearing conference is unable to resolve any of these issues, rule 950, section 28(e) provides for the Director of Arbitration to appoint a single arbitrator to decide the issues outstanding. The rule allows the arbitrator to issue subpoenas, direct appearances of witnesses, direct the production of documents, set deadlines for compliance, and issue any other ruling which will expedite the arbitration process and will permit any party to develop its case fully. The rule provides that the single arbitrator appointed to decide prehearing matters involving public customers would be a public arbitrator, except where public customers have requested a majority of securities industry arbitrators for their panel.

Other amendments to the prehearing provisions require the parties to serve on one another, at least eight business days prior to the first hearing, copies of documents in their possession that they intend to present at the hearing and identify witnesses that they intend to present at the hearing. Under proposed rule 950, section 28(c), arbitrators may exclude from the arbitration any documents or witnesses not identified at that time. The provision does not extend to documents or witnesses that parties may use for cross-examination or rebuttal.

The Phlx also is proposing to amend its rules regarding subpoenas. In proposed rule 950, section 29(a), the Phlx proposes to require that all parties be given a copy of a subpoena upon its issuance. In addition, the Phlx proposes to provide in section 29(b) that the arbitrator(s) shall be empowered to direct the appearance of any person employed or associated with any member of the Exchange and/or the production of any records in the possession or control of such persons or members, without resort to the subpoena process. Further, section 29(b) would provide that unless otherwise directed by the arbitrators, the party requesting the appearance of a person or the production of documents under this section would bear all reasonable costs of the appearance and/or production.

7. Preservation of a Record

The Phlx proposes to amend its arbitration rules to assure that adequate records of arbitration proceedings are made and preserved. These records are necessary for court use in conjunction with any judicial review of arbitration proceedings. Proposed rule 950, section 33 would require that a verbatim record by stenographic reporter or tape recording be maintained. The rule would further provide that if a party to a proceeding elects to have the record transcribed, the cost of such transcription shall be borne by that party, unless the arbitrators direct otherwise. The arbitrators also may direct that the record be transcribed. If a record is transcribed at the request of a party, the rule requires that a copy shall be provided to the arbitrators.

8. Content and Public Availability of Arbitration Awards

The Phlx's proposed rule for arbitration awards expands both the content and availability of arbitration awards. Prior to the Commission's May 10, 1989 approval of the amended arbitration rules of the Amex, NASD, and NYSE, the only information generally available to the public regarding SRO arbitration cases was the percentage of investors that received some portion of the amount they claimed against their broker-dealer. No data had been previously available with respect to a particular arbitrator's awards. The Phlx's proposal, like the rules of the other SROs, affords substantially more public access to the results of this process of dispute resolution.

Proposed rule 950, section 37 provides that all awards shall be in writing and signed by a majority of the arbitrators or in such manner as is required by applicable law with respect to public controversies. With respect to member controversies, the proposed rule requires that the Chairman of the panel certify the decision of the panel in writing. Proposed rule 950, section 37 also provides that awards shall contain the names of the parties, a summary of the issues in controversy, the damages and/or other relief requested, the damages and/or other relief awarded, a statement of any other issues resolved, the dates the claim was filed and the award rendered, the number and dates of hearing sessions, the location of the hearing(s), the names of the arbitrators and the signatures of the arbitrators concurring in the award. All awards involving public customers and their contents, excluding the names of the arbitrators, are to be made public. The proposed rule further provides that a party to an arbitration involving a public customer may request that the Director of Arbitration provide copies of all awards rendered by the arbitrators chosen to decide his or her case. A party wishing to obtain such information under this section must notify the Director of Arbitration within three business days of receipt of notification of the identity of the person(s) named to the panel.

9. Arbitration Fees for Customer Disputes

The Phlx also proposes to clarify the potential fees to parties of pursuing a case through the arbitration procedures. The arbitration fee proposal represents a significant change in the fees that may be assessed by the arbitrators for particular cases. Proposed rule 950, section 39(a) would establish fees which range from $15 to $1,000 for amounts in dispute ranging from $1,000 or less to more than $500,000. The proposed rule also would provide that where the amount in dispute is $10,000 or less, no additional deposits shall be required despite the number of hearing sessions. Proposed section 39(a), however, would provide that where the amount in dispute is above $10,000 and multiple hearing sessions are required, the arbitrators may require any of the parties to make additional deposits for each additional hearing session.

The Phlx proposes to clarify the definition of a "hearing session" in the proposal. A hearing session under proposed rule 950, section 39 would be any meeting between the parties and the arbitrator(s), including a pre-hearing conference with an arbitrator, which lasts four hours or less. The current Phlx rules do not define a hearing session.

Proposed rule 950, section 39(d) would raise to $200 from $100 the minimum deposit for cases where no money damages are claimed. Further, section 39(a) would provide that all parties who file claims, such as counterclaims, third party claims, and cross-claims, are required to pay deposits unless the deposit is waived by the Director of Arbitration. Under the Phlx's existing rule, deposits are required only of original claimants.

Proposed rule 950, section 39(c) clarifies that arbitrators, in their awards, may determine the amount chargeable to the parties as forum fees and determine which party shall bear the costs of the arbitration. This section would specify that where the amount in dispute is $10,000 or less, the total fees to the parties shall not exceed the amount deposited. In addition to the forum fees, the section would provide that the arbitrators may determine in their awards the amount of costs incurred for adjournments, subpoenas, transcribing a record, and other costs and expenses contemplated by agreement between the parties or permitted by applicable law.

Proposed rule 950, section 39(e) provides that if a matter is settled or withdrawn prior to the commencement of the first hearing session, the parties are entitled to a refund of all but $100 of the amount deposited with the Exchange. This change is based on the increased expenses associated with arbitration empanelment and hearing arrangements. This section, however, would not apply to claims filed under the Simplified Arbitration procedures proposed by the Exchange.

Proposed rule 950, section 39(f) would provide that any matter submitted and later settled or withdrawn subsequent to the commencement of the first hearing session, may be subject to a refund of deposits, if any, as determined by the panel of presiding arbitrators. Proposed section 39(g) would specify that in the case of any matter settled or withdrawn subsequent to the commencement of the first hearing session, the arbitrators may assess forum fees and costs for adjournments, subpoenas, and transcribing a record.

10. Predispute Arbitration Clauses

The Phlx also proposes to adopt a provision governing the use of predispute arbitration clauses with customers. Revisions to predispute arbitration clauses were designed through the auspices of SICA to improve disclosure to customers in account opening agreements and to restrict the content of the arbitration clauses. Under the proposed rule change, rule 950, section 42 would require broker-dealers that employ predispute arbitration clauses to place immediately before the clause introductory language that would inform customers that they are waiving their right to seek remedies in court, that arbitration is final, that discovery is generally more limited than in court proceedings, that the award is not required to contain factual findings and legal reasoning, and that the arbitration panel typically will include a minority of arbitrators associated with the securities industry.

Proposed rule 950, section 42 would require that the disclosure language be highlighted in four ways. First, large or otherwise distinguishable type must be used. Second, the disclosure language must be set out "in outline form so as to be noticeable to readers. Third, a statement, also highlighted, that provides that the agreement contains a predispute arbitration clause and indicates where that clause is located in the contract, must be inserted into the agreement immediately preceding the signature line. Fourth, a copy of the agreement containing a predispute

[12] Phlx rule 950, section 9(c) would establish filing fees ranging from $15 to $200 in cases where the amount in controversy is $10,000 or less.

VOL

1991
UMI

arbitration clause must be given to the customer, who is to acknowledge receipt of the agreement, either in the agreement itself or in a separate document.

In addition, proposed rule 950, section 42 would prohibit SRO members from having agreements with customers that limit or contradict the rules of any SRO, or limit the ability of a party to file any claim in arbitration or limit the ability of the arbitrators to make any award.

11. Controversies Between Members

The Phlx's member-member controversies currently are arbitrated before a quorum of the Exchange's Arbitration Committee, pursuant to Phlx By-Law section 10-8. The Phlx proposes to amend By-Law section 10-8 in order to authorize the implementation of a panel system of Arbitration Committee members for arbitration of member-member controversies.[12] The Phlx states that this rule change is necessary to overcome difficulties in scheduling and conducting hearings and in deliberating the merits of each case. As a result of the proposal, the Phlx believes that arbitration between members will become a more expeditious process because several arbitrations may be scheduled concurrently.

The Phlx also proposes to amend By-Law section 10-8 to clarify the Exchange's jurisdiction in member-member controversies. The proposed amendments would include Exchange jurisdiction over associated persons in their capacity as such and would require that a dispute subject to arbitration arise in connection with the securities business of a member, member organization and/or associated person.

The Phlx proposes to add subsection (c) to section 10-8 to enable the Exchange's Business Conduct Committee to impose penalties for noncompliance with the Arbitration Code. Specifically, subsection (c) would provide that it may be deemed conduct inconsistent with just and equitable principles of trade for a member, member organization, or person associated with a member to fail to submit to arbitration under the By-Law, to fail to provide any document properly requested pursuant to discovery or to fail to honor an award of the arbitration panel.

The Phlx also proposes to amend rule 950 to incorporate procedures for controversies between members in its arbitration rules. Proposed rule 950, section 3 would require that member controversies be heard by a panel of Committee persons composed of on-floor and off-floor persons, appointed to serve on the panels by the Director of Arbitration in alphabetical rotation. This section also would provide that the Committee shall consist of a pool of 25 persons, 15 members or persons associated with an on-floor member and/or participant organizations and 10 members or persons associated with off-floor members or participant organizations. Further, the section would provide that a member controversy panel must consist of not less than five Committee persons when the amount in controversy does not exceed $100,000 and not less than seven Committee persons when the amount in controversy exceeds $100,000.

Proposed rule 950, section 6 would specify the circumstances for required submission of member controversies under the Exchange's arbitration procedures. Proposed rule 950, section 7 would provide that, except as otherwise provided in sections 1 through 6 of the arbitration rules and unless the context otherwise requires, the rules and procedures applicable to public customer arbitrations as set forth in sections 8 through 41 of the Phlx's arbitration rules also would apply to member controversies.

Proposed rule 950, section 41 would establish a schedule of arbitration fees for member and clearing controversies. Section 41(d) would establish a $500 minimum charge for cases where no money damages are claimed. This section also would require the deposit of $500 where the amount in dispute is less than $100,000 and require the deposit of $1,000 where the amount in dispute is above $100,000. In addition, proposed section 41(e) of rule 950 would provide that if a case is settled or withdrawn prior to the commencement of the first hearing session, the parties will be entitled to a refund of all but $125 of the amount deposited with the Exchange. The remaining proposed arbitration fee rules for member and clearing controversies are similar to the rules that the Phlx proposes to adopt for public customer disputes.

12. Miscellaneous

The Phlx's proposed rule change also amends several other of its rules that govern the administration of its arbitration forum. First, the Exchange proposes to adopt section 2 of rule 950 to specify that the Board of Governors shall appoint a Director of Arbitration. This section would provide that the Director of Arbitration shall be directly responsible to the Arbitration Committee and shall report to the Committee at periodic intervals established by the Committee. Second, the Exchange proposes to adopt section 4 of rule 950 in order to provide that the submission of any matter to arbitration does not limit or preclude any right, action or determination by the Exchange which it would otherwise be authorized to adopt, administer or enforce.

Third, the Phlx proposes to adopt section 5 of rule 950 in order to specify that during the arbitration of any matter, a party may not prosecute or commence any suit, action or proceeding against any other party touching upon any of the matters referred to arbitration under the Exchange's procedures. Conversely, the Exchange also proposes to adopt a commentary to proposed rule 950, section 8(b) which would provide that the Exchange shall not accept arbitration matters that already are subject to proceedings in another forum.

Fourth, in arbitrations involving multiple claimants, respondents, and/or third party respondents, proposed rule 950, section 18 provides the claimants, respondents, and third-party respondents with one peremptory challenge each of a proposed arbitrator, and with unlimited challenges for cause. Fifth, proposed rule 950, section 35 provides for amendments to pleadings; however, after an arbitration panel has been appointed, amended pleadings other than responsive pleadings may not be filed unless the panel consents to the amendment. Sixth, proposed rule 950, section 40 provides that when a member firm files a claim against a non-member, the member shall pay a nonrefundable filing fee of $500 in addition to all other fees, deposits, or costs which may be required.

Finally, in addition to the rules discussed above, the Exchange's proposal adopts other rules that substantially replicate their current counterparts in the Phlx rules.[14] Except for technical and conforming changes, these proposed rules do not differ materially from the current rules upon which they are modeled.

B. Statutory Basis

The Exchange believes that the proposed rule change is consistent with section 6(b)(5) of the Act [15] which requires that national securities exchanges have rules that are designed to prevent fraudulent and manipulative acts and practices, promote just and equitable principles of trade, provide for the equitable allocation of fees and, in general, protect investors and the public interest. The Exchange states that the proposed amendments will further the objectives of section 6(b)(5) by making the arbitration process a more efficient, expeditious and inexpensive forum for dispute resolution.

III. Discussion and Conclusions

The Commission has considered carefully the Exchange's proposed rule change, and finds, for the following reasons, that the proposed rule change is consistent with the requirements of section 6 of the Act and the rules and regulations thereunder applicable to a national securities exchange. In particular, the Commission finds that the proposed rule change is consistent with the requirements of sections 6(b) (4) and (5) of the Act,[16] which require that national securities exchanges have rules designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to provide for an equitable allocation of fees, and, in general, to protect investors and the public interest. The Commission believes the proposed rule change significantly advances the public interest in Exchange arbitrations and should improve the speed and efficiency of arbitration, while maintaining the traditional qualities of arbitration.

The Phlx developed these changes to its arbitration rules through the auspices of SICA. The securities industry's SROs have worked together over the past twelve years to develop uniform arbitration rules through SICA, which is comprised of a representative from each SRO that administers an arbitration program,[17] a representative of the securities industry, and four representatives of the public.

On September 10, 1987, after a review of securities industry-sponsored arbitration, the Commission sent to SICA a letter that set out its views regarding the need for changes to the Uniform Code of Arbitration ("Uniform Code").[18] The Commission also sent letters to the SROs on July 8, 1988 requesting that the SROs review the issues raised by the current use of mandatory predispute arbitration agreements by their member firms.[19] Since September 1987, SICA and its subcommittees have met regularly to develop proposals in response to the Commission's letters.

The majority of the proposals to amend the Phlx's rules were based on changes in the Uniform Code made by SICA largely in response to the September 1987 and July 1988 Commission letters.[20] The other proposals included in this order were developed to meet concerns that have arisen through the administration of the Exchange's arbitration forum.

As stated above, substantially similar rule filings submitted by the NYSE, Amex and NASD were approved by the Commission on May 10, 1989, and comparable rule filings of the CBOE, MSE, PSE and CSE were subsequently approved by the Commission on August 2, 1989, August 25, 1989, July 5, 1990 and October 11, 1990, respectively. The NYSE's, NASD's and Amex's versions of their respective rules were published for public comment in the **Federal Register**, providing both the public and the broker-dealer community with ample opportunity to comment on the proposed changes that are the subject of this order. All public comments directed at the other SROs' arbitration filings were considered in the context of the review undertaken for the Commission's May 10, 1989 approval order,[21] wherein the Commission addressed fully the significant public dialogue and comment that preceded its action. In light of the Commission's thorough consideration of all comments directed at the SRO arbitration filings that were the subject of the Commission's May 10, 1989 approval order, the substantially similar nature of the Phlx's arbitration proposal, and the benefits that will accrue to investors from the availability of these improved arbitration procedures, the Commission finds that approval of the Phlx's proposed rule change is consistent with the requirements of section 6 of the Act.[22]

The Commission believes that the Phlx's proposed arbitration rules improve the procedures for administering arbitration proceedings. The Commission further believes the proposed rule change appropriately balances the need to strengthen investor confidence in the arbitration systems at the SROs with the need to maintain arbitration as a form of dispute resolution that provides for the equitable and efficient administration of justice. More specifically, the Commission finds that the rule changes affecting the classification of arbitrators, arbitrator disclosure, discovery, the preservation of a record, the form and public availability of awards and guidelines for the use of predispute arbitration clauses significantly advance the efficiency and utility of SRO arbitration for public investors.[23] Likewise, the Commission believes that the Phlx's initiatives with respect to the handling of pleadings, appointment of replacement arbitrators, the use of small claims procedures, and the number of arbitrators should improve the efficiency and speed of arbitration. Because these rules will aid in the just resolution of disputes between investors and broker-dealers as well as the just resolution of disputes between members, the Commission concludes that these rules are designed to prevent fraudulent and manipulative practices, to promote just and equitable principles of trade and, in general, to protect investors and the public interest consistent with section 6(b)(5) of the Act. The Commission also

---

[12] As discussed *infra*, a member-member controversy includes disputes between employees or registered representatives of a member firm and the member firm itself, as well as disputes between member firms.

[13] The Exchange's proposed rules that substantially replicate their current versions are found in rule 950, sections 8 ("Required Submission"); 10 ("Hearing Requirements—Waiver of Hearing"); 11 ("Time Limitation Upon Submission"); 12 ("Dismissal of Proceedings"); 13 ("Settlements"); 14 ("Tolling of Time Limitations for the Institution of Legal Proceedings"); 22 ("Designation of Time and Place of Hearing"); 23 ("Representation by Counsel"); 24 ("Attendance at Hearings"); 25 ("Failure to Appear"); 26 ("Adjournments"); 27 ("Acknowledgement of Pleadings"); 30 ("Evidence"); 31 ("Interpretation of Code"); 32 ("Determinations of Arbitrators"); 34 ("Oath of Arbitrators and Witnesses"); 36 ("Reopening of Hearings"); and 38 ("Miscellaneous").

[17] See letter from Richard G. Ketchum, Director, Division of Market Regulation, SEC, to James E. Buck, Senior Vice President, NYSE, dated September 10, 1987. This letter also was addressed separately to each of the other members of SICA.

[18] See letter from David S. Ruder, former Chairman, SEC, to John J. Phelan, Jr., Chairman, NYSE, dated July 8, 1988. This letter also was addressed to the senior executive officers of all other SROs that administer arbitration facilities.

[19] The Exchange's rules developed in response to the Commission's letters are sections 13, 17, 19, 28, 33, 37 and 39(b) of rule 950.

[20] In addition, the Phlx proposal is substantially similar to the CBOE, MSE, PSE and CSE rule filings that were subsequently approved by the Commission. See supra note 5.

[21] Moreover, the Commission finds that approval of the Phlx's proposed rule change is consistent with its May 10, 1989 approval order, and the Commission herein incorporates by reference the relevant portions of its discussions from that order.

[22] The Commission's approval of Phlx rule 950, section 42 and the comparable rules of the NYSE, NASD, Amex, CBOE, MSE, MSRB, PSE and CSE is consistent with the conclusion of the United States Court of Appeals for the Sixth Circuit in *Roney* v. *Goren*, 875 F2d 1216 (6th Cir. 1989) that the Commission has the authority to assure customer choice among SRO arbitration forums.

VOL 56 ISS 124 JE 27 1991 UMI

finds that the fee increases represented by these changes appear to be reasonable and should provide for an equitable allocation of fees among SRO members and investors using the Phlx's arbitration facilities consistent with section 6(b)(4) of the Act.

It therefore is ordered, Pursuant to section 19(b)(2) of the Act,[24] that the proposed rule change is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[25]

Dated: June 20, 1991.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

[Release No. 34-29342; File No. SR-Phlx-91-15]

Self-Regulatory Organizations; Proposed Rule Change by the Philadelphia Stock Exchange, Inc. Relating to Options Floor Procedure Advice C-9—Floor Brokers Trading in Their Customer Accounts

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on May 24, 1991, the Philadelphia Stock Exchange, Inc. filed with the Securities and Exchange Commission the proposed rule change as described in items I, II, and III below, which items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Philadelphia Stock Exchange, Inc. (the "PHLX" or the "Exchange"), pursuant to rule 19b-4 of the Securities Exchange Act of 1934 ("Act"), proposes to amend PHLX Options Floor Procedure Advice ("OFPA") C-9—Floor Brokers and Clerks Trading in their Customer Accounts. OFPA C-9 prohibits the customer orders of floor brokers and floor brokers employees from being handled by co-employees with an interest in the account. The proposed rule change would extend the prohibition to include handling of such orders by co-employees with knowledge that the order is for the customer account of another employee. A copy of proposed PHLX OFPA C-9 is attached as exhibit A.

[24] 15 U.S.C. 78s(b)(2) (1988).

[25] 17 CFR 200.30-3(a)(12) (1990).

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for the Proposed Rule Change

OFPA C-9 currently regulates trading in PHLX options by member firm floor personnel. In addition to prohibiting all employees of member/participant firms from placing orders for execution in their customer accounts while on the floor, this advice also governs how such orders may be handled when received from off-floor. In this regard, the employee's order must be treated the same as any other customer order, except that it cannot be handled by an employee of the same firm who has a beneficial interest in that customer account.

Proposed OFPA C-9 would extend this prohibition to include any co-employee with knowledge that a customer order is on behalf of another employer of the firm; it is proposed that the non-customer employee with knowledge of such information be prohibited from handling the customer order. Noting that some brokerage firms require their employees to place all personal customer orders with that firm in order to appropriately monitor trading by employees, the PHLX proposes to permit handling of that order by associated persons only when those persons do not know that the customer order is actually on behalf of an associate of the firm.

The PHLX believes that this extension serves to decrease the opportunity for advantages to be afforded to customer orders of floor brokers and their co-employees while at the same time providing added protection to the firms in monitoring the trading activities of their employees. In this regard, the proposed rule change is consistent with and furthers the goals enumerated in section 6(b)(5) of the Act; specifically, the proposal is designed to prevent fraudulent and manipulative acts and practices as well as being intended to protect investors and the public interest. Handling an order knowing it is from a co-worker presents a similar conflict of interest and potential for preferential treatment as handling one's own order or one for an account in which one has a proprietary interest. The proposed version of OFPA C-9 will curtail such potential conflicts or abuses.

B. Self-Regulatory Organization's Statement on Burden on Competition

The PHLX does not believe that the proposed rule change will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the PHLX consents, the Commission will:

(A) By order approve such proposed rule change, or,

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization.

All submissions should refer to the file number in the caption above and should be submitted by July 18, 1991.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: June 19, 1991.

Margaret H. McFarland,

Deputy Secretary.

Exhibit A

Proposed text is italicized.

C-9 Floor Brokers and Clerks Trading in Their Customer Accounts

All persons employed on the trading floor in association with a Member or Participant, other than ROTs and Specialists, are prohibited from initiating trades in PHLX options in their customer accounts while on the floor. A Member or Participant firm which accepts an order for the customer account of such a person must process the order through the channels it normally provides for its other customer orders. When any such order is received by the Member or Participant firm and delivered to the floor for execution, it may not be handled by any person with a beneficial interest in the account, or by any associated person with knowledge that the order is for the account of an associate. Once such a person has placed an order for his/her customer account in an option, that person is prohibited from brokering orders in that option for the remainder of that day or until such order has been executed or cancelled whichever is later. This provision shall not apply to any transaction permissable under section 11(a)(1) of the Securities Exchange Act of 1934.

BILLING CODE 8010-01-M

[Release No. 34-29340; File No. SR-Phlx-91-17]

Self-Regulatory Organizations; Proposed Rule Change by the Philadelphia Stock Exchange, Inc. Relating to Options Floor Procedure Advice F-12—Responsibility for Assigning Participation on the Foreign Currency Floor

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on May 24, 1991, the Philadelphia Stock Exchange, Inc. filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Philadelphia Stock Exchange, Inc. (the "PHLX" or the "Exchange"), pursuant to rule 19b-4 of the Securities Exchange Act of 1934 ("Act"), proposes to add Options Floor Procedure Advice ("OFPA") F-12—Responsibility for Assigning Participation on the Foreign Currency Floor. Proposed OFPA F-12 would place responsibility on all participants in a trade to take certain steps to ensure that participation is clear. These steps include remaining in the trading crowd until participation is determined, not submitting a ticket when participation is not due, and informing the largest participant the extent of participation. A copy of proposed PHLX Options Floor Procedure Advice F-12 is attached as exhibit A.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for the Proposed Rule Change

The purpose of the proposed rule change is to establish a procedure for determining participation in a trade. As opposed to placing the responsibility for assigning participation solely on one party, such as the specialist or floor broker, proposed OFPA C-9 delineates responsibilities for each participant in the trade. First, each potential participant would be required to immediately express to the largest participant (usually the floor broker who initiated the trade with a customer order) the number of contracts believed to just have been bought or sold. This requirement serves to limit the amount of time that passes between the execution of a trade and a report to the customer, thus reducing the risk of not being able to do the targeted hedge trade due to a delay in confirming the extent of contracts to be hedged. Proposed OFPA F-12 would also require any potential participant to remain in the crowd, not just to notify the largest participant in accordance with the aforementioned requirements, but until the largest participant confirms that indeed this was the correct number of contracts calculated. The PHLX believes that it is both reasonable and necessary to impose such a requirement at least as long as it takes for participants to be clear and in agreement with the largest participant as to the level of participation. It is reasonable because, with but a few exceptions, assignment as to the transacted size of participation is normally confirmed with each participant within seconds of the trade; where it takes longer, it is necessary for all participants to be available to reconstruct what occurred and ascertain levels of participation as quickly as possible. Thus, the proposed rule change aims to achieve quicker reporting of order execution by laying out procedures for assigning participation.

The proposed rule change is consistent with the Act, and in particular, section 6(b)(5), in that it is designed to prevent fraudulent and manipulative acts and practices as well as to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The PHLX does not believe that the proposed rule change will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the PHLX consents, the Commission will:

(A) By order approve such proposed rule change, or,

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

VOL 56 ISS 124 JE 27 1991 UMI

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by July 18, 1991.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: June 19, 1991.

Margaret H. McFarland,

Deputy Secretary.

EXHIBIT A, F-12 Responsibility for Assigning Participation on the Foreign Currency Floor

(*a*) In each instance where a member/participant effects a transaction on the Foreign Currency floor, he must make reasonable efforts to ensure that a meeting of the minds occurred with the contra-side as to confirming the contra-side's participation in the trade. In trades where more than one contra-side is involved, each contra-side must immediately make known to the largest participant his understanding as to his respective level of participation in the trade.

(*b*) No such contra-side who believes that he may have participated in the trade shall leave the crowd until the level of his participation in the trade has been confirmed by the largest participant.

(*c*) No person in the crowd shall submit a ticket for matching on a trade when that person has or should have grounds to believe that he is not due participation in the trade.

(*d*) Disputes as to participation on a trade shall be resolved by a majority vote of those persons present in the crowd during the relevant time or, if not so settled, then by a floor official.

BILLING CODE 8010-01-M

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Pacific Stock Exchange, Incorporated

June 21, 1991.

The above named national securities exchange has filed applications with the Securities and Exchange Commission ("Commission") pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder for unlisted trading privileges in the following securities:

Societe Nationale Elf Aquitaine
American Depositary Receipts (File No. 7-7008)

Farah, Inc.
Common Stock, $4.00 Par Value (File No. 7-7007)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before July 15, 1991, written data, views and arguments concerning the above-referenced application. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, 450 5th Street, NW., Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the application if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010-01-M

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

Advisory Commission on Conferences in Ocean Shipping; Open Meeting

AGENCY: Department of Transportation (DOT), Office of the Secretary.

ACTION: Notice of open meeting of the Advisory Commission on Conferences in Ocean Shipping.

SUMMARY: The commission will be holding its third field hearing in Charleston, SC on July 12, 1991; the hearing will be open to the public. In the morning, the Commission plans to focus on issues related to conference tariff and service contract practices and to conference relations with shippers and intermediaries. In the afternoon, the Commission plans to hear testimony on all issues relating to the shipping Act of 1984 and conferences in the ocean shipping industry.

DATES: Public hearing: Friday, July 12, 1991, 9:30 a.m. to 5 p.m., Edt. Deadline for requests to speak at the public hearing: Friday, July 5, 1991.

ADDRESSES: The address for the public hearing is College of Charleston, Conference Center (Sears Building), room 226, 160 Calhoun Street (between King Street and St. Phillips Street), Charleston, SC 29426.

FOR FURTHER INFORMATION CONTACT: Ruth Dicker, Counsel, or James Reitzes, Economist, Advisory Commission on Conferences in Ocean Shipping, Department of Transportation, 400 Seventh Street, SW., room 5102, Washington, DC 20590; telephone (202) 366-0781; FAX (202) 366-7870.

SUPPLEMENTARY INFORMATION: The Commission was created by the Shipping Act of 1984 to conduct an independent and comprehensive study of conferences in ocean shipping, particularly whether the Nation would be best served by prohibiting conferences, or by closed or open conferences. The Commission is to provide its report, including recommendations, to the President and the Congress by April 10, 1992. Commission began formal operations on April 10, 1991, at a day-long open meeting in Washington, DC, at which the Commission heard reports from Federal agencies on the impact of the 1984 Act and discussed issues to be studied by the Commission.

As part of its study, the Commission will be holding a series of public hearings around the United States. Its first hearing was held June 3, 1991 in New Orleans, LA. Its second hearing was held on June 21, 1991, in San Francisco, CA. Other places selected for hearings are Portland, OR (August 9, 1991); and New York, NY (September 13, 1991). At each hearing, a part of the day will be dedicated to issues generally raised by the 1984 Act, and part of each hearing will focus on a specific predesignated issue.

The Commission will be holding its third field hearing on July 12, 1991 in Charleston, SC, at the College of Charleston, Conference Center (Sears Building), room 226, 160 Calhoun Street. Attendance is open to the public but limited to space available. The morning session will be devoted to testimony on issues related to conference tariff and service contract practices and to conferences' relations with shippers and intermediaries. The afternoon session will be open to receive testimony on any aspect of the Shipping Act of 1984.

Interested members of the public are invited to address the Commission at the July 12, 1991 hearing. In order to be assured of an opportunity to do so, each person wishing to speak should contact Ruth Dicker or James Reitzes at the address set out above by July 5, 1991. Each such person is also required to provide by July 5, 1991 a brief summary of the matters he/she expects to address at the Commission hearing. Should such person wish to submit a copy of his/her complete statement to be delivered at the Commission hearing, he/she should make every effort to deliver 30 copies of that complete statement to the Advisory Commission staff prior to the hearing date. Persons appearing before the Commission are encouraged to support all opinions with factual information and evidence. To the extent that time permits and that it does not disrupt the orderly process of the meeting and will not be unfair to any person, persons who do not make prior written requests to speak will be given opportunity to do so as part of the afternoon session.

Persons who wish to provide written comments for the Commission's consideration may do so at any time by forwarding them to the address set out above.

Issued in Washington, DC, on June 25, 1991.

Florizelle B. Liser,

Executive Director.

[FR Doc. 91-15445 Filed 6-26-91; 8:45 am]

BILLING CODE 4910-62-M

Federal Aviation Administration

[Docket No.28566]

Environmental Impact Statement; Effects of Changes of Aircraft Flight Patterns Over State of New Jersey

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Availability of Post-Scoping Document And Invitation to Comment.

SUMMARY: The FAA announces the availability for public comment of the post-scoping document for the Environmental Impact Statement (EIS) required under section 9119 of the Aviation Safety and Capacity Expansion Act of 1990, Public Law 101-508. That statute directs the FAA to prepare an EIS pursuant to the National Environmental Policy Act (NEPA) on the effects of changes in aircraft flight patterns over the State of New Jersey caused by implementation of the Expanded East Coast Plan (ECP). The post-scoping document identifies the range of alternatives, the environmental issues and concerns, and the potentially significant issues to be addressed in the EIS.

The FAA is taking the unusual and unprecedented step of circulating this document for public comment while the Draft EIS is being prepared, although circulation is not required under NEPA, because of the unique geographic scope of this EIS the entire State of New Jersey. Since this is a statewide EIS, and it was not feasible to hold scoping meetings in every city and town throughout the entire State, there are potentially many individuals who were unable to attend the 5 public scoping meetings or to submit written comments by the deadline of April 26, 1991. Three scoping meetings were held in south, central, and northern N.J. to cover a cross-section of the State. Because of the high degree of public interest in the EIS, the FAA held 2 additional meetings in northern N.J. Circulation of the post-scoping document will afford individuals unable to attend those meetings or to submit written comments another opportunity to be heard. Since the FAA has completed the scoping process, comments received on the post-scoping document will be addressed in preparing the Draft EIS.

FOR FURTHER INFORMATION CONTACT: Any person may obtain a copy of the post-scoping document by submitting a request to the Federal Administration, Office of Public Affairs, attention: Public Inquiry Center, APA-230, 800 Independence Avenue, SW., Washington, DC 20591, or by calling FAA's toll-free Consumer Hotline: 1 800-FAA-SURE between 8 a.m. and 4 p.m. eastern time, Monday through Friday, excluding Federal holidays. The document is also available for review at the following public libraries:

Teaneck Public Library, 840 Teaneck Road, Teaneck, NJ 07666, attention: Lucille Bertram.

Newark Public Library, 5 Washington Street, P.O. Box 630, Newark, NJ 01701 0630, attention: George Hawley.

Parsippany-Troy Hills Free Public Library, P.O. Box 5903, Parsippany, NJ 07054, attention: Dorothy Wanemaker.

Rochelle Park Public Library, 405 Rochelle Avenue, Rochelle Park, NJ 07662, attention: Mary Boes.

Runnemede Public Library, Broadway & Black Horse Pike, P.O. Box 110, Runnemede, NJ 08078, attention: Joann Strater.

Tinton Falls Public Library, 664 Tinton Avenue, Tinton Falls, NJ 07724, attention: Eleanor Szabo.

New Jersey State Library, Dept. of Education, 185 W. State Street, Trenton, New Jersey 08625-0520, attention: Janet Tuerff.

Joint Free Public Library of Morristown & Morris Township, 1 Miller Road, Morristown, NJ 07960.

SUPPLEMENTARY INFORMATION:

Background

On November 5, 1990, Congress passed the Aviation Safety and

VOL
56
ISS
124
JE
27
1991
UMI

Capacity Expansion Act of 1990, Public Law 101–508. In this statute, Congress directed the FAA to "issue an environmental impact statement pursuant to the National Environmental Policy Act of 1969 on the effects of changes in aircraft flight patterns over the State of New Jersey caused by implementation of the Expanded East Coast Plan." To facilitate preparation of the EIS, the FAA entered into a contract with the Volpe National Transportation Systems Center (TSC) of the Research and Special Projects Administration of the U.S. Department of Transportation. On February 21, 1991, the FAA published notice in the **Federal Register** of its intention to prepare the EIS and to conduct three public meetings in March 1991, as part of the scoping process. 56 FR 7292. The dates and locations of those meetings were advertised in local newspapers and published in the **Federal Register** on February 26, 1991. 56 FR 8042. The meetings were held in Tinton Falls, Runnemede, and Cranford, N.J. on March 11–12, 20–21, and 26–27, respectively, to cover a cross-section of the entire State.

Because of the high degree of public interest in the EIS, the FAA decided to hold two additional public scoping meetings on April 17 and 18 in Rochelle Park and Parsippany, N.J., respectively. The FAA again advertised the dates, locations, and times of the meetings in local newspapers and published notice in the **Federal Register**, 56 FR 15662. A total of approximately 260 persons testified at, and approximately 1,000 persons attended, these meetings.

The FAA has completed the scoping process. By July 1, 1991, the FAA expects to select a contractor who will assist the FAA in preparing the Draft and Final EIS. The comments received in response to this Notice will be addressed in preparing the Draft EIS. The FAA expects to file the Draft EIS in October 1991. Once the FAA issues the Draft EIS, there will be an additional 45-day period for public comment, during which public hearings will be held, on the Draft EIS.

Written comments on the post-scoping document should be received at the following address, in triplicate, by Headquarters Federal Aviation Administration, Office of the Chief Counsel, attn: Rules Docket (AGC–10), Docket No. 26566, 800 Independence Avenue, SW., Washington, DC 20591. Comments may be delivered or inspected at room 915G in FAA headquarters between 8:30 a.m. and 5 p.m., Monday through Friday, excluding Federal holidays.

Summary of the Post-Scoping Paper

The following is a summary of key portions of the post-scoping document. It is not intended to duplicate or cover every aspect of that document. Substantive comments submitted to the FAA should address the primary document, not this summary.

1. Description of the Action and Alternatives

A. Definition of the Action

The "proposed action" in this EIS is defined as continued implementation of the EECP. That definition is consistent with the statutory mandate which requires an EIS on the EECP and with the fact that this EIS is necessarily being prepared after that implementation.

B. Expanded East Coast Plan

The EECP created standard operating procedures to control air traffic flows over the Eastern United States. The EECP has been continuously evolving to improve its efficiency and alleviate noise since its first phase was implemented in 1987. The final phase of the EECP has been implemented.

To allow consistent analysis of the EECP in this EIS, the EECP must be identified at a fixed period in time. For purposes of this EIS, the term EECP is identified as standard FAA operating procedures for aircraft 3,000 feet above ground level over the State of New Jersey as of a week during the summer of 1991. In addition to routes and operational procedures, the EIS requires identification of en route traffic movements using the EECP routes and operational procedures over New Jersey. The air traffic during a typical week will be identified using automated air traffic control systems (the Automated Radar Terminal System (ARTS) and Advanced Traffic Management Systems (ATMS). Planned noise monitoring will also be conducted during that same week.

C. No-Action Alternative

CEQ regulations require an EIS to examine the no-action alternative. Typically, the no-action alternative consists of not implementing the proposed action, resulting in maintenance of the status quo. Because Congress has directed that the action to be examined in this EIS is the implementation of the EECP (i.e. the status quo), the no-action alternative here is synonymous with the "proposed action."

D. Return to the 1986 Route Procedures with Current and Future Traffic

Given the high level of public interest in the return to pre-EECP conditions, those 1986 routes and procedures will be identified. So that the impacts of the action, the conditions that would exist if the action had not been implemented, can be determined, the baseline conditions for this EIS will be defined as the 1986 route structure with 1991 traffic. By defining the baseline conditions thus, the impacts of the EECP can be analyzed as changes from the conditions that would have existed had it not been implemented. The EIS will also evaluate future impacts of the EECP by comparing the 1986 route structure with 2000 traffic with the EECP route structure and 2000 traffic.

To separate the impacts caused by the EECP from impacts caused by changes in air traffic volumes between 1986 and 1991, the 1991 traffic will be redistributed over the 1986 route network. In this manner, a database of the air traffic can be created that compensates for changes in flight volumes, destinations, etc. that occurred between 1986 and 1991.

E. Oceanic/Military Routing—24 hours per day

This alternative responds to numerous comments suggesting greater use of military/oceanic airspace. This approach would make maximum use of military/oceanic airspace by shifting air routes, as feasible, to that airspace.

F. Oceanic/Military Routing-Nighttime Only

This alternative is similar to the one above except that the routes would only be shifted during nighttime hours (10 p.m.–7 a.m.).

G. Spreading of Air Traffic

This alternative retains the EECP route structure but adds additional routes to increase the area subject to environmental impacts but to lessen the intensity and frequency of such impacts on any one area. Some commenters indicated that the routes appeared to be narrowly concentrated in northern N.J.

2. Assumptions and Limitations

A. Future Increases in Traffic Volumes

To inform the public and decision-maker as to whether the EECP or an alternative air traffic network is environmentally preferable for management of air traffic over New Jersey, the EIS will compare the baseline and current conditions projected for each alternative. Because the air traffic network will not create future air traffic volumes, the projections of future volumes will be the same under all alternatives. Thus, the impacts expected to result from the action and alternatives can be scaled by projections of future volumes to determine future impacts. The EIS will analyze future impacts for the year 2000.

B. Geographic Scope

Because of the interstate nature of air commerce, the EECP has a much larger area of possible impact than the typical Federal project. Many commenters requested that portions of at least four states covering tens of thousands of square miles be included in this EIS. That area goes far beyond the mandate of Congress. The FAA has determined that the geographic scope of the congressional mandate will be followed and the scope of the EIS will be limited to New Jersey, including adjacent coastal waters. However, no FAA action will be taken as a result of this EIS which has potential impacts outside of New Jersey. If any air traffic changes affecting areas other than New Jersey are eventually considered as a result of this study, those changes will not be implemented until appropriate environmental review is conducted.

C. Non-Environmental Effects

To the extent that economic and human safety issues were raised during the scoping process, those issues will be addressed in the Report to Congress required under section 9119(c) of the Aviation Safety and Capacity Act of 1990. Section 9119(c) requires the FAA to submit a report indicating what action, if any, the FAA decides to take with respect to the EECP operating procedures. The effects on air safety of EECP operating procedures over New Jersey will also be addressed in a separate Report required under Section 9119(b) of the Aviation Safety and Capacity Act of 1990.

3. Environmental Factors

A. Noise

1. Description of the Factor. A number of scoping comments cited noise impacts as a severe adverse effect of the EECP. Many comments cited noise caused by the EECP as significantly lowering the quality of life in many communities in New Jersey. They commented on the continuous nature of the noise, the heightened annoyance factor of nighttime and early morning flights, and health effects caused by noise-induced stress.

2. Issues and Concerns. The most frequent comment about the EECP concerned the change in the noise environment. Many commenters stated that prior to the implementation of the EECP their communities were quiet and offered a rural or semi-rural lifestyle. After implementation, they indicated that their lifestyle was altered and their lifestyle was adversely affected. To many residents, the most annoying factor was the constant nature of the noise. It was stated that the noise interrupted conversation, prevented use of backyards and patios, and rattled windows and scared children. It was also stated that nighttime noise awoke residents from sleep or prevented sleep. Commenters also stated that other adverse effects included noise-induced stress and health effects, lowering of property values, and interference with education.

3. Approach and Methodology. The FAA believes that use of the DNL methodology for analyzing aircraft noise is appropriate. The application of the DNL methodology to aircraft flights in the en route airspace above 3,000 feet above ground level over an area as large as the State of New Jersey is without precedent. The FAA will therefore develop an algorithm that uses the ARTS and ATMS data on actual aircraft flights as input and calculates the resulting DNL noise level. The FAA believes that this will be a highly effective analytical technique because an actual data base on flights will be available for the period selected as representative of the EECP and that database will be direct input into the computer model. The resulting output will be calculations of DNL for a grid of points within New Jersey. This analysis will be done for each alternative studied in the EIS. The final result will be both a DNL contour map and grid of locations for the baseline condition and each alternative.

To respond to comments about individual loud overflights, the computer model for analyzing ground-level noise will identify the loudest single events. Using the same grid as for the DNL analysis, the model will report the maximum noise level and for a selected range of single event noise levels, the number of aircraft flyovers by day and night.

Field noise monitoring will also be used, where appropriate. To maximum the usefulness of the monitoring data, the time period for monitoring will coincide with the period of ARTS and EARTS data to be used in conducting the EIS analysis. The EIS will also address the appropriateness of methodologies other than DNL and alternative metrics for assessing noise by examining the technical adequacy of those alternatives.

To quantify the noise impacts of the action and alternatives, the population exposure levels will be determined. The quantities for each alternative will be described in terms of decreases and increases in DNL when compared to the baseline. The affected population will also be classified by type of residential community so as to allow appropriate consideration of the ambient noise environment in determining noise impact.

4. Environmental Consequences. This section will discuss direct and indirect effects of noise in accordance with paragraph 66 of FAA Order 1050.1D. The significant levels defined in in Attachment 2—Environmental Analysis Procedures, Paragraph 1 of FAA Order 1050.1D will be used.

5. Possible Mitigation Measures. The alternatives in the EIS cover a number of mitigation measures for noise effects of the EECP. In addition, the EIS will analyze relocation of air routes to higher altitudes and use of special routes and procedures for specific time periods only.

B. Air Quality

1. Description of Factor. Next to noise, air quality was the most frequently cited impact of the EECP. Participants in the scoping process commented on the amount of air pollutants emitted by jet aircraft and possible health effects from exposure to elevated levels of air pollution. Some residents of New Jersey stated that they could smell the jet exhaust from overhead aircraft and that particulates from jet engines covered their houses and property.

2. Issues and Concerns. The main concern in this area was the health effects of exposure to air pollutants, including fuel dumped from aircraft. A secondary concern was the effects of air pollutants on wildlife, including migrating birds.

3. Approach and Methodology. As an initial step the FAA will consult with both the EPA and the New Jersey Department of Environmental Protection to obtain their concerns and data on air quality. To distinguish between aircraft emissions in general and those caused by the EECP, the cumulative number of miles flown by aircraft over New Jersey under the EECP will be compared with those flown under the 1986 routes with 1991 traffic. If the EECP caused an increase in aircraft mileage, then the increase in air emissions can be calculated using date on aircraft emissions developed by the EPA or the Air Transport Association. The potential impact of an effect on emissions due to a change in altitudes due to the EECP will also be analyzed.

If the initial analysis reveals an increase in criteria pollutants due to the implementation of the EECP, the next step will be to quantify that increase

VOL
56
ISS
124
JE
27
1991
UMI

and to determine the potential for mixing of aircraft pollutants with air below 3,000 feet. This will require meteorological data for the air basins of New Jersey.

The next step will be to evaluate the incremental contribution of aircraft emissions to maintenance (in areas designated for prevention of significant deterioration) or exceedances of the National Ambient Air Quality Standards [NAAQS] for the baseline condition and each alternative.

A second concern is the effect of nitrogen oxide aircraft emissions on the ozone layer of the upper atmosphere. Because there are no standards for high altitude emissions, the EIS will quantify the increased emissions and summarize available scientific data on ozone-depletion effects.

It is likely that the available scientific data will be inadequate to analyze mixing of high-altitude emissions with the ground level atmosphere and the effect of aircraft NOx emissions on ozone depletion. Therefore, those analyses will be done in accordance § 1502.22 of the CEQ regulations. Because it is unclear why the EECP would affect the amount of fuel dumping by aircraft over New Jersey, the EIS will describe fuel dumping, the situations in which it occurs, and its expected frequency. Available FAA and Air Force data will then be used to determine the level of impact.

4. Environmental Consequences. The threshhold for significant air quality impacts is substantial contribution to exceedance of the NAAQS. The EIS will inventory all air emissions caused by the action and alternatives and determine whether the increased emissions caused by the EECP that can reasonably be expected to mix with the air below 3,000 feet would threaten the NAAQS based on the State Implementation Plan.

5. Mitigation Measures. Effective measures may be identified as the EIS analysis is completed and problems are identified.

C. Water Quality

1. Description of Factor. Several commenters stated that particulates and fuel from aircraft adversely affected lakes and swimming pools.

2. Issues and Concerns. Scoping comments suggested that the impacts on water quality were more of an aesthetic than a health concern. No specific adverse health comments were described.

3. Approach and Methodology. This analysis will follow from the air quality analysis. Based on the size distribution of particulates emitted from jet engines and published data on settling rates of particulate matter, the FAA will determine the likelihood that particulates will settle to the ground.

The potential for water quality impacts due to fuel dumping will also be estimated using Air Force data regarding the likelihood of dumped fuel reaching the ground and data concerning the frequency of fuel dumping.

4. Environmental Consequences. The thresholds for significance, EPA's ambient water quality criteria, are unlikely to be exceeded.

5. Possible Mitigation Measures. None anticipated.

D. Energy Consumption

1. Description of Factor. FAA Order 1050.1D requires an EIS to examine "the energy requirements and conservation potential of various alternatives and mitigation measures."

2. Approach and Methodology. This analysis will be similar to that for air quality. The increase or decrease in energy use by aircraft will be quantified based on additional aircraft mileage and inefficiencies caused by the EECP or alternatives. The absolute change in energy consumption will be compared with the total energy consumption by commercial aircraft flying over New Jersey.

3. Possible Mitigation Measures. None anticipated.

E. Other Issues

1. Biological Resources/Threatened and Endangered Species. The U. S. Fish and Wildlife Service submitted a letter with comments identifying 5 threatened or endangered species and 5 wildlife refuges that it operates in New Jersey. The FAA will consider the likelihood of collisions of aircraft with members the 5 species. The EIS will consider the need to analyze the noise impacts on nesting birds at the wildlife refuges using the DNL contour maps for the EECP and alternatives.

2. Cultural Resources. The FAA will consult the New Jersey State Historic Preservation Officer (SHPO) to obtain an opinion on the potential for noise and vibration to significantly affect historic properties. Any site identified by the SHPO for analysis in the EIS will be considered individually in the EIS. Any determination of adverse effect will be resolved through compliance with the procedures set forth in Section 106 of the National Historic Preservation Act or other appropriate laws.

1. Land Use/Coastal Zone. The compatibility of land use categories with aircraft noise levels calculated for the EECP and alternatives will be analyzed. The EECP and, alternatives will be reviewed for consistency with N.J.'s Federally approved Coastal Zone Management Plan.

4. Section 4(f). The EIS will consider the need to analyze noise impacts on publicly owned parks, recreation areas, and wildlife refuges and sites of national, state, or local significance under Section 4(f) of the Department of Transportation Act.

5. Visual Impacts. The aesthetics of airplanes flying over residential areas and land uses where an aesthetically pleasing vista is important will be described. The effects of aircraft at various elevations on the overall vista will be analyzed.

Issued in Washington, DC on June 21, 1991.

William H. Pollard,

Associate Administrator for Air Traffic.

BILLING CODE 4910-13-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Privacy Act of 1974; Computer Matching Programs

AGENCY: Internal Revenue Service; Treasury Department.

ACTION: Notice.

SUMMARY: Pursuant to the Computer Matching and Privacy Protection Act of 1988, Public Law 100-508, October 18, 1988, and the Office of Management and Budget (OMB) Guidelines on the Conduct of Matching Programs, notice is hereby given of the conduct of computer matches by the Internal Revenue Service (IRS) on behalf of the Department of Veterans Affairs (VA). In accordance with section 6103(l)(7) of the Internal Revenue Code of 1986, as amended by the Omnibus Budget Reconciliation Act of 1990 (Pub. L. 101-508), November 7, 1988, the IRS will provide VA with tax information from IRS records to assist them in administering the programs and activities described hereafter. The purpose of the matching program is to substantially prevent or reduce fraud and abuse in certain VA programs and facilitate the settlement of government claims while protecting the privacy

interest of the subjects of the match. The records disclosed consist of return information for the current processing year ending June 30, 1991.

EFFECTIVE DATE: July 29, 1991.

ADDRESS: Inquiries may be mailed to Director, Office of Disclosure, Internal Revenue Service, P.O. Box 388, Washington, DC 20044.

FOR FURTHER INFORMATION CONTACT: Earl Klema, Chief, Disclosure Operations Section, Internal Revenue Service, (202) 566-3908.

SUPPLEMENTARY INFORMATION: The nature, purposes, and authority for this IRS computer matching activity are as follows:

Matches conducted pursuant to IRC 6103(l)(7)(D)(viii). Under subsection 6103(l)(7)(B) of the Internal Revenue Code, the Service is required, upon written request, to disclose current information from returns with respect to unearned income to any Federal, State, or local agency administering certain federally assisted needs-based programs. Subsection 6103(l)(7)(D) delineates the programs to which this rule applies. Section 8051 of the Omnibus Budget Reconciliation Act of 1990, amends subsection 6103(l)(7)(D) (by adding subparagraph (viii)) so as to require the IRS to disclose to VA unearned income information for purposes of determining eligibility for VA needs-based pension and parents' dependency and indemnity compensation and VA health-care services.

Return information from returns with respect to unearned income will be disclosed by the Service only for the purpose of, and to the extent necessary in, determining eligibility for, or the correct amount of, benefits under the aforementioned programs.

The return information will be extracted on a monthly basis from the Internal Revenue Service Wage and Information Returns Processing File (Treas./IRS System 22.061 (IRP)) for the latest processing year. This file contains information returns filed by payers of income such as interest and dividends reported on Forms 1099-INT and 1099-DIV. VA records involved in the match are taken from VA Compensation, Pension, Education and Rehabilitation Records [VA 58 21/22].

Approval of the IRS computer matching programs conducted pursuant to IRC 6103(l)(7) was granted by the Department of the Treasury Data Integrity Board on June 6, 1990.

Fred T. Goldberg,

Commissioner of Internal Revenue.

Approved:

David M. Nummy,

Acting Assistant Secretary of the Treasury (Management).

Sunshine Act Meetings

Federal Register
Vol. 56, No. 124
Thursday, June 27, 1991

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

DEPARTMENT OF AGRICULTURE

COMMODITY CREDIT CORPORATION

TIME AND DATE: 2:00 p.m., July 2, 1991.

PLACE: Room 104–A Administration Building, U.S. Department of Agriculture, Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED:

1. Minutes of Open and Closed Meeting of February 12, 1991.
2. Memorandum re: Update of Commodity Credit Corporation (CCC)-Owned Inventory.
3. Docket GCZ–327 re: Research and Development Programs for 1991 and Subsequent Years.
4. Memorandum re: CCC Stocks Available for Increased Availability of Nonfat Dry Milk for Donation Overseas Under Section 416(b) of the Agricultural Act of 1949, as amended, During Fiscal Year 1991.
5. Memorandum re: Use of Food Security Wheat Reserve Stocks During Fiscal Year 1991.
6. Resolution re: CZ–200, Resolution No. 28, Amendment 2, Ratification of Commodities Available for Public Law 480 During Fiscal Year 1991.
7. Docket CZ–200, Revision 5 re: Disposal of Commodity Credit Corporation Commodities and Materials.
8. Resolution re: Ratifications of Secretary's Authorization of the Market Promotion Program for Fiscal Year 1991.
9. Docket GCX–326 re: Market Promotion Program for Fiscal Year 1992 and Subsequent Years.

CONTACT PERSON FOR MORE INFORMATION: James V. Hansen, Secretary, Commodity Credit Corporation, Room 3603 South Building, U.S. Department of Agriculture, Post Office Box 2415, Washington, D.C. 20013; telephone (202) 475–5490.

Dated: June 24, 1991.

James V. Hansen,

Secretary, Commodity Credit Corporation.

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Changes in the Subject Matter of a Previously Announced Open Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the following matters are expected to be considered at the open meeting of the Board of Directors of the Federal Deposit Insurance Corporation scheduled to be held at 2:00 p.m. on Tuesday, June 25, 1991, in the Board Room on the sixth floor of the FDIC Building located at 550—17th Street, N.W., Washington D.C.:

Summary Agenda

No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Disposition of minutes of previous meetings.

Reports of actions approved by the standing committees of the Corporation and by officers of the Corporation pursuant to authority delegated by the Board of Directors.

Discussion Agenda

Memorandum and resolution re: Final amendments to Part 312 of the Corporation's rules and regulations, entitled "Assessment of Fees Upon Entrance to or Exit from the Bank Insuarnce Fund or the Savings Association Insurance Fund," which partially revise the method of computing entrance fees that must be paid by insured depository institutions participating in conversion transactions (transfers between the deposit insurance funds).

Memorandum and resolution re: FDIC appointment of FDIC as Receiver of Insured State Depository Institutions.

All previous announcements of the subject matters to be considered at that meeting are rescinded.

Dated: June 25, 1991.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

Part II

Office of Management and Budget

Proposed Revisions to Circular A-21; Notice

VOL 56 ISS 124 JE 27 1991 UMI

OFFICE OF MANAGEMENT AND BUDGET

Proposed Revisions to Circular A-21

AGENCY: Office of Management and Budget.

ACTION: Proposed revisions to Circular A-21.

SUMMARY: This notice offers interested parties an opportunity to comment on proposed revisions to Office of Management and Budget (OMB) Circular A-21, "Cost Principles for Educational Institutions."

This revision implements the previously stated intent of OMB to revise Circular A-21. On April 22, 1991, Director Richard Darman announced that OMB would move to impose additional new controls on Federal reimbursement to universities. On May 15, 1991, OMB published for comment at 56 FR 22618 the first proposal to amend Circular A-21. This notice contains the second proposed revision to Circular A-21.

In announcing this second proposal, Mr. Darman said: "America's university research enterprise is an indispensable contributor to U.S. competitiveness and to American leadership in science, engineering and technology. The Administration remains committed to funding a fair share of the costs of the research enterprise. But this share must not include excessive administrative costs. Abuses in cost recovery must be stopped. At the same time, since many of these abuses would not occur if there were agreed accounting standards, we must proceed immediately to define those standards."

DATES: Interested parties are invited to comment on these proposed changes. All comments should be received July 29, 1991.

ADDRESSES: Comments should be submitted to the Office of Management and Budget, Financial Management Division, room 10235, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Jack Sheehan, Financial Management Division, Office of Management and Budget (telephone: 202-395-3050).

SUPPLEMENTARY INFORMATION: The following explains the major changes proposed to Circular A-21 in this notice.

1. A new section is added to the Circular placing a cap of 26 percent of modified total direct costs as reimbursement for administrative costs. Those at or below the cap will continue to be reimbursed at their current negotiated rate. The cap will apply to sponsored agreements awarded or amended (including continuation and renewal awards) with effective dates beginning after September 30, 1991. Generally, no changes in accounting or cost allocation methods, which would shift costs from indirect to direct or from administrative costs to other indirect costs, are allowed. However, cognizant Federal agencies are authorized to permit changes where an institution's charging practices are at variance with acceptable practices followed by a substantial majority of other institutions. The adjustment of indirect cost rates, where necessary, will be made by the cognizant Federal agency based on information in its files.

2. Circular A-21 is amended to clarify existing requirements and clearly stipulate that the Federal Government will not in any way subsidize indirect costs of non-Federal research.

3. Circular A-21 is amended to provide for the establishment of a dedicated facilities fund to be used only for buildings and equipment supporting organized research.

4. A new section is added to the Circular to establish a consistent policy for adjustment of indirect cost rates based on a proposal(s) subsequently found to have contained unallowable costs.

Executive Order No. 12291

OMB has determined that the proposed revisions to Circular No. A-21 do not qualify as a "major rule" under the criteria in Executive Order No. 12291, "Federal Regulation."

The principal effect of the proposed revisions will be to require that Federal agencies ensure that Federal grant and contract funds are not used for purposes that are contrary to specific legislative prohibitions or that have been determined to be not necessary to carry out the program's objectives. The costs to implement the new revisions would be primarily accounting costs for grantees, contractors, and Federal agencies. These new costs, however, are minimal in both absolute and relative amounts, and, in many instances, the revisions should reduce compliance costs. Furthermore, much of the accounting work that the revision would require is already mandated by other sections of Circular No. A-21.

Susan Gaffney,

Acting Assistant Director, Financial Management Division.

Limitation on Administrative Costs

A new section number 6 is added to section G.

6. *Limitation on reimbursement of administrative costs.*

a. Notwithstanding the provisions of G.1.a, the administrative costs charged to sponsored agreements awarded or amended (including continuation and renewal awards) with effective dates beginning after September 30, 1991, shall be limited to 26% of modified total direct costs (as defined in section G.2) for the total of General Administration and General Expenses, Departmental Administration and Sponsored Projects Administration (including their allocable share of depreciation and/or use allowances, operation and maintenance expenses, and fringe benefit costs as provided by sections F.3.a, f.4.a.(3), and F.5.a).

b. Existing indirect cost rates that affect periods after September 30, 1991, shall be unilaterally amended by the cognizant Federal agency to reflect the cost limitation in subsection a above.

c. Institutions should not change their accounting or cost allocation methods which were in effect on May 1, 1991, if the effect is to: (i) change the charging of a particular type of cost from indirect to direct, or (ii) reclassify costs or increase allocations from the administrative pools identified in subsection a above to the other indirect cost pools or fringe benefits. Cognizant Federal agencies are authorized to permit changes where an institution's charging practices are at variance with acceptable practices followed by a substantial majority of other institutions.

Research Allocations

A new subsection C is added to section C.4, *Allocable costs.*

c. Any costs allocable to activities sponsored by industry or foreign governments may not be shifted to federally-sponsored agreements.

Section G.1.a is amended by renumbering the existing text G.1.a.(1) and G.1.a.(2) and adding the new subsection G.1.a.(3). This section will now read as follows:

G. *Determination and application of indirect cost rate or rates.*

1. Indirect cost pools.

a. (1) Subject to subsection b, the separate categories of indirect costs allocated to each major function of the institution as prescribed in Section F shall be aggregated and treated as a common pool for that function. The amount in each pool shall be divided by the distribution base described in section G.2 to arrive at a single indirect cost rate for each function.

(2) The rate for each function is used to distribute indirect costs to individual sponsored agreements of that function. Since a common pool is established for each major function of the institution, a separate indirect cost rate would be established for each of the major functions described in section B.1 under which sponsored agreements are carried out.

(3) Each institution's indirect cost rate process must be appropriately designed to ensure that Federal sponsors do not in any way subsidize the indirect costs of other sponsors, specifically activities sponsored by industry and foreign governments. Accordingly, each allocation method used to identify and allocate the indirect cost pools, as described in sections E.2 and F.1 through F.7, must contain the full amount of the institution's modified total costs or other appropriate units of measurement used to make the computations. In addition, the final rate distribution base (as defined in section G.2) for each major function (organized research, instruction, etc., as described in section B.1) shall contain all the programs or activities which utilize the indirect costs allocated to that major function. At the time an indirect cost proposal is submitted to a Federal cognizant agency, each institution must describe the process it uses to ensure that Federal funds are not used to subsidize industry and foreign government funded programs.

Dedicated Facilities Fund

A new subsection 7 is added to section G.

7. *Depreciation and use allowance rate.* When the cognizant agency determines an indirect cost rate, the portion of that rate which is for depreciation and/or use allowances for buildings and equipment shall be identified for use in determining the portion of Federal indirect cost payments which are to be set aside in accordance with the provisions of section J.9.f.

A new subsection f is added to section J.9.

f. This section applies to the largest college and university recipients of Federal research and development funds as displayed in Attachment A.

(1) The portion of Federal indirect cost payments made for depreciation or use allowances under sponsored agreements, consistent with section G.7, shall be identified and promptly set aside in a separate fund. This fund shall be prudently invested and all earnings credited thereto. This fund shall be used only for: (a) liquidation of debts incurred to acquire assets that are used directly for research activities, or (b) payments to acquire, repair, renovate, or improve buildings or equipment directly related to research. For buildings or equipment not exclusively used for direct research activity, only appropriately proportionate amounts may be expended from the fund.

(2) Reports on fund activity and on compliance with subsection (1) above shall be submitted and certified to (as provided for in section K.2.b) as part of each indirect cost proposal to the cognizant Federal agency. Expenditures from the fund which are inconsistent with subsection (1) shall be disallowed and must be paid to the Federal Government with interest, consistent with the applicable Federal agency regulations.

Adjustment of Indirect Cost Rates

A new subsection 9 is added to section C.

9. *Adjustment of previously negotiated indirect cost rates containing unallowable costs.*

Negotiated indirect cost rates based on a proposal later found to have included costs that are unallowable as specified by law, section J of this Circular, or the terms and conditions of sponsored agreements shall be adjusted, or a refund shall be made, in accordance with the requirements of this section. These adjustments or refunds are designed to correct the proposals used to establish the rates and do not constitute a reopening of the rate negotiation. The adjustments or refunds will be made regardless of the type of rate negotiated (predetermined, final, fixed, or provisional).

a. For rates covering a future fiscal year of the institution, the unallowable costs will be removed from the indirect cost pools and the rates appropriately adjusted.

b. For rates covering a past period, the Federal share of the unallowable costs will be computed for each year involved and a cash refund (including interest chargeable in accordance with applicable regulations) will be made to the Federal Government. If cash refunds are made for past periods covered by provisional or fixed rates, appropriate adjustments will be made when the rates are finalized to avoid duplicate recovery of the unallowable costs by the Federal Government.

c. For rates covering the current period, either a rate adjustment or a refund, as described in subsections a and b, shall be required by the cognizant agency. The choice of method shall be at the discretion of the cognizant agency, based on its judgment as to which method would be most practical.

d. The amount of unallowable costs included in each year's rate will be assumed to be the same as the amount in the base year proposal used to establish the rate.

1991
UMI

DEPARTMENT OF COMMERCE

International Trade Administration

[Docket No. 910637-1137]

Consortia of American Businesses in Eastern Europe

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of a new Business Consortia Grant Program to assist U.S. firms establishing a commercial presence in Eastern Europe.

SUMMARY: A pilot program has been designed to assist U.S. firms in establishing a commercial presence in Eastern Europe through the formation of Consortia of American Businesses in Eastern Europe (CABEE). CABEEs are private and public non-profit organizations which will be formed to promote U.S. goods and services in Eastern Europe. The participants in these consortia will be for-profit U.S. firms interested in trade with Eastern Europe. CABEEs will establish offices and staff in Eastern Europe to provide a broad range of services for their member firms, including market research, sales promotion, and other trade facilitation services. Grant funds will be awarded as seed money to pay the start-up costs of establishing and operating CABEE offices in Eastern Europe. CABEEs can be organized along a single industry line or represent more than one business sector. There is no limitation on the number of for-profit firms that a consortium may represent.

SUPPLEMENTARY INFORMATION:

Program Objectives

CABEEs are intended to strengthen the U.S. business presence in Eastern Europe. They will provide direct trade facilitation support for their member firms, stimulating increased U.S. exports, joint ventures, and U.S. direct investment in Eastern Europe. CABEEs will promote two-way trade and will be expected to support development of counterpart host country trade associations and/or other organizations that can respond to the business opportunities represented through the consortia.

Funding Availability

Pursuant to the provision headed section (a)(6) under the heading Assistance for Eastern Europe of title II of the Foreign Operations, Export Financing and Related Programs Appropriation Act, 1991, Public Law 101–513 and section 632(a) of the Foreign Assistance Act of 1961, as amended, funding for the program will come from the Agency for International Development. Commerce will administer the program on a pilot basis pursuant to the authority contained insection 635(b) of the Foreign Assistance Act of 1961, as amended. The total amount of grant funds available for the pilot program is $2.5 million.

Funding Instrument and Project Duration

The Federal grant contribution will not exceed 50 percent of proposed eligible project costs with a maximum grant amount of $500,000 per consortium. Applicants are expected to provide the remaining share, preferably in cash. Federal funding will be a one-time injection with a grant period not to exceed three years. Assistance will be available for the period of time required to complete the scope of work but not to exceed three years from the date of the grant offer.

Request for Applications

Competitive Application kits (Application Kits) #180–0028–1 will be available from Commerce starting June 28, 1991.

To obtain a copy of the Application Kit #180–0028–1, please send a written request with two self-addressed mailing labels to Mr. George Muller, Director, Office of Export Trading Company Affairs, room 1800 HCHB, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC 20230. Only written requests will be honored; telephone, fax, or walk-in requests will not be accepted. Only one copy of the Application Kit will be provided to each organization requesting it, but it may be reproduced by the requester. Applications (Standard Form 424 (Rev. 4–88)) are to be received at the address designated in the Application Kit no later than 3 p.m. e.d.t. August 13, 1991. Subject to the availability of funds, awards will be made prior to the end of 1991.

Eligibility

Eligible applicants for the Business Consortia Grant Program will be private and public non-profit U.S. organizations including non-profit corporations, associations and public sector entities. Within the industry or industries represented by the consortium, membership in a consortium must be available on a non-discriminatory basis. For example, membership in a trade association cannot be a requirement for membership in a consortium. Only applicants proposing to open an office in one or more of the following East European countries are eligible for this program: Poland, Hungary, Czechoslovakia, Bulgaria, Romania, and Yugoslavia. Each application will receive an independent, objective review by one or more review panels qualified to evaluate the applications submitted under the program. Applications will be evaluated on a competitive basis in accordance with the selection criteria set below.

Selection Criteria

Priority consideration will be given to those CABEE proposals which:

1. Focus on Poland, Hungary, and Czechoslovakia as the geographic target of commercial activities.
2. Involve or relate to the following industries: Environment, energy, telecommunications, agriculture and agribusiness, and housing. Marketability of the products and/or services in the applicable East European countries will be taken into account in evaluating applications.
3. Are proposed by applicants with the capacity, qualifications and staff necessary to successfully undertake the intended activities.
4. Demonstrate the capability and intent of enlisting small and mid-sized U.S. firms as CABEE members.
5. Provide a reasonable assurance that the proposed project can be continued on a self-sustained basis after expiration of the Federal grant.
6. Contain a commitment to encourage, support and assist development of indigenous counterpart organizations (e.g. trade associations) and a well reasoned explanation as to how that will be accomplished.
7. Present a realistic work plan detailing the services it will provide to the CABEE members.
8. Present a reasonable, itemized budget for the proposed activities.

Selection criteria 1–3 will be weighted equally but will be accorded a greater degree of importance than the remaining criteria. Selection criteria 4–8 will be weighted equally.

Notifications

All applicants are advised of the following:

1. Applicants that have an outstanding account receivable with the Federal Government may not be considered for funding until these debts have been paid or arrangements satisfactory to the Department are made to pay the debt.
2. 15 CFR part 28 prohibits recipients of Federal contracts, grants, and cooperative agreements from using appropriated funds for lobbying the Executive or Legislative branches of the Federal government in connection with a specific contract, grant, or cooperative agreement. A Certification Regarding Lobbying and the SF–LLL, Disclosure of Lobbying Activities (if applicable), is required for awards exceeding $100,000.
3. Applicants are subject to Governmentwide Debarment and Suspension (Nonprocurement) requirements as stated in 15 CFR part 26. In accordance with the Drug-Free Workplace Act of 1988, each applicant must make the appropriate certification as a prior condition to receiving a grant or cooperative agreement.
4. A false statement on the application may be grounds for denial or termination of funds.
5. Awards under this program shall be subject to all Federal and Departmental regulations, policies and procedures applicable to financial assistance awards.
6. All recipients are advised of the applicability of Executive Order 12372, Intergovernmental Review of Federal Programs.
7. The Standard Form 424 (Rev. 4–88) mentioned in this Notice is subject to the requirements of the Paperwork Reduction Act and it has been approved by OMB under Control No. 0348–0006.

Dated: June 24, 1991.

George Muller,

Director, Office of Export Trading Company Affairs.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Part 52

[FAR Case 91-31]

Federal Acquisition Regulation; Contract Award-Sealed Bidding-Construction

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Proposed rule.

SUMMARY: The Civilian Agency Acquisition Council and the Defense Acquisition Regulatory Council are considering amending the provision at FAR 52.214-19, Contract Award-Sealed Bidding-Construction, to include the language regarding unbalanced bidding now contained in the provisions at 52.214-10, Contract Award-Sealed Bidding, and 52.215-16, Contract Award. This will make the provision at 52.214-19 consistent with the provisions at 52.214-10 and 52.215-16.

DATES: Comments should be submitted to the FAR Secretariat at the address shown below on or before August 26, 1991 to be considered in the formulation of a final rule.

ADDRESSES: Interested parties should submit written comments to: General Services Administration, FAR Secretariat (VRS), 18th & F Streets NW., room 4041, Washington, DC 20405. Please cite FAR Case 91-31 in all correspondence related to this issue.

FOR FURTHER INFORMATION CONTACT: Mr. Jack O'Neill at (202) 501-3856 in reference to this FAR case. For general information, contact Ms. Beverly Fayson, FAR Secretariat, room 4041, GS Building, Washington, DC 20405, (202) 501-4755. Please cite FAR Case 91-31.

SUPPLEMENTARY INFORMATION:

A. Background

A previous amendment to the FAR amended the provisions at 52.214-10 and 52.215-16 to include the concept of unbalanced bidding. At that time, however, the provision at 52.214-19 was not amended. The councils are proposing to add the unbalanced bidding concept to the provision at 52.214-19 in order to provide coverage for those instances where solicitations for construction could result in unbalanced bidding.

B. Regulatory Flexibility Act

The proposed rule is not expected to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, because the proposed change has already been implemented for other sealed bid and negotiated contracts with no impact on the small business community. An Initial Regulatory Flexibility Analysis has, therefore, not been performed. Comments from small entities concerning the affected FAR subpart will also be considered in accordance with section 610 of the Act. Such comments must be submitted separately and cite 5 U.S.C. 601, *et seq.* (FAR case 91-31) in correspondence.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the proposed changes to the FAR do not impose recordkeeping information collection requirements or collection of information from offerors, contractors, or members of the public which require the approval of OMB under 44 U.S.C. 3501 *et seq.*

List of Subjects in 48 CFR Part 52

Government procurement; Contract Award-Sealed Bidding-Construction.

Dated: June 20, 1991.

Albert A. Vicchiolla,

Director, Office of Federal Acquisition Policy.

Therefore, it is proposed that 48 CFR part 52 be amended as set forth below:

PART 52—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

1. The authority citation for 48 CFR part 52 continues to read as follows:

Authority: 40 U.S.C. 486(c); 10 U.S.C. chapter 137; and 42 U.S.C. 2473(c).

2. Section 52.214-19 is amended by removing from the provision title the date "(FEB 1988")" and inserting in its place "(DATE)"; and by adding paragraph (d) to the provision to read as follows:

52.214-19 Contract Award-Sealed Bidding-Construction.

* * * * *

(d) The Government may reject a bid as nonresponsive if the prices bid are materially unbalanced between line items or subline items. A bid is materially unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated in relation to cost for other work, and if there is a reasonable doubt that the bid will result in the lowest overall cost to the Government even though it may be the low evaluated bid, or if it is so unbalanced as to be tantamount to allowing an advance payment.

(End of provision)

Part V

Department of Commerce

National Oceanic and Atmospheric Administration

50 CFR Part 227

Endangered and Threatened Species; Proposed Threatened Status for Snake River Spring, Summer, and Fall Chinook Salmon; Proposed Rules

Lower Columbia River Coho Salmon; Notice

VOL 56 ISS 124 JE 27 1991 UMI

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 227

[Docket No. 910647-1147]

Endangered and Threatened Species; Proposed Threatened Status for Snake River Spring and Summer Chinook Salmon

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Proposed rule.

SUMMARY: NMFS is issuing a proposed determination that the Snake River spring and summer chinook salmon (*Oncorhynchus tshawytscha*) is a "species" under the Endangered Species Act of 1973, as amended, 16 U.S.C. 1531 *et seq.* (ESA), because of compelling evidence that Snake River spring/summer chinook salmon are reproductively isolated from Snake River fall chinook salmon and because there is a high probability of substantial gene flow between the spring and summer chinook salmon forms. Further, NMFS proposes to list the Snake River spring/summer chinook salmon as threatened under the ESA. Snake River spring/summer chinook salmon have declined to low numbers of fish that are thinly spread over a large and complex river system. Hydropower development, water withdrawal and diversions, water storage, harvest, inadequate regulatory mechanisms, and artificial propagation are factors contributing to the decline and represent a continued threat to the Snake River spring/summer chinook salmon's existence. Should the proposed listing be made final, protective regulations under the ESA would be put into effect and a recovery program would be implemented.

DATES: Comments from all interested parties must be received by August 26, 1991. Public hearings are scheduled as follows:

1. July 30, 1991, 7 p.m. to 9:30 p.m., Portland, Oregon;
2. July 31, 1991, 7 p.m. to 9:30 p.m., Seattle, Washington;
3. August 1, 1991, 7 p.m. to 9:30 p.m., Richland, Washington;
4. August 7, 1991, 7 p.m. to 9:30 p.m., Boise, Idaho.

ADDRESSES: Comments on this proposed rule should be sent to the Environmental and Technical Services Division, NMFS, Northwest Region, 911 NE. 11th Avenue, suite 620, Portland, OR 97232, or provided at any one of the public hearings. The hearings will be held at the following locations:

1. 1st Floor West Side, Federal Complex, 911 NE. 11th Ave., Portland, Oregon;
2. NOAA, Western Administrative Support Center, Building 9 Auditorium, 7600 Sand Point Way, NE., Seattle, Washington;
3. Richland Federal Building Auditorium, 825 Jadwin Avenue, Richland, Washington;
4. Boise Interagency Fire Center Auditorium, 3905 Vista Ave., Boise, Idaho.

FOR FURTHER INFORMATION CONTACT: Tracey Vriens, Environmental and Technical Services Division, NMFS, Portland, Oregon, 503-230-5420 or FTS-429-5420.

SUPPLEMENTARY INFORMATION:

Background

On June 7, 1990, NMFS received petitions from Oregon Trout, with co-petitioners Oregon Natural Resources Council, Northwest Environmental Defense Center, American Rivers, and Idaho and Oregon Chapters of American Fisheries Society to list the Snake River spring chinook salmon and the Snake River summer chinook salmon under the ESA. NMFS published a notice on September 11, 1990, (55 FR 37342) announcing that the petitions presented substantial scientific information indicating that the listings may be warranted and requesting information from the public.

NMFS has reviewed all available scientific information pertaining to the status of Snake River spring/summer chinook salmon. To assist in this review, NMFS convened a Technical Committee to provide information and to review and comment on the data in the record. The Technical Committee consists of representatives from Federal and State fisheries agencies, Indian tribes, industries, professional societies, and public interest groups that have technical expertise relevant to Snake River spring/summer chinook salmon.

Status Review for Snake River Spring/Summer Chinook Salmon

The NMFS Northwest Region Biological Review Team prepared a "Status Review for Snake River Spring/Summer Chinook Salmon" (Matthews and Waples 1991) providing more detailed information, discussion and references. This status review is available upon request (see ADDRESSES), and is summarized below.

Ecosystem

The Snake River is the major tributary of the Columbia River, entering the Columbia 324.3 miles (522 kilometers) upstream from the Pacific Ocean. The Snake River contains five principal subbasins that currently produce spring- and/or summer-run chinook (CBFWA 1990). Three of the five subbasins, the Clearwater, Grande Ronde, and Salmon Rivers, are large, complex systems; the other, the Tucannon and Imnaha Rivers, are small systems in which the majority of salmon production is in the mainstream rivers (Matthews and Waples 1991). In addition to the five major subbasins, three small streams, Asotin, Granite, and Sheep Creeks, that enter the Snake River between Lower Granite and Hell's Canyon Dams, provide small spawning and rearing areas (CBFWA 1990).

The habitat occupied by spring/summer chinook salmon in the Snake River in unique to the biological species. Snake River spring/summer chinook salmon spawn at higher elevations, typically about 5,000-7,000 feet (1,500 to 2,133 meters), than any other populations of the species. They also migrate farther from the ocean, 600 to 900 miles (965 to 1,448 km.), than most other chinook salmon populations. Long migrating populations are also found in the Fraser and Yukon Rivers, and perhaps in the Soviet Union, but these populations do not spawn at such high elevations.

Spawning habitat in the Snake River is distinctive in having large areas of open, low relief streams at high elevation. Habitat, particularly in the Salmon River, is among the most productive for the species. The Salmon River (tributary to the Snake River) alone once produced approximately 40 percent of the spring/summer chinook salmon returning to the Columbia River. The Snake River flows through terrain that is warmer and drier on an annual basis than the upper Columbia River Basin or other drainages farther north. Geologically, the land forms are older and much more eroded than most other chinook salmon habitat. Collectively, these environmental factors result in a river that is warmer and more turbid, with higher ph and alkalinity, than most other within the biological species' range.

Life History

Adult chinook salmon migrating upstream past Bonneville Dam from March-May, June-July, and August-October are categorized as spring, summer, and fall run fish, respectively. In general, the habitats utilized for spawning and early juvenile rearing are different among the three forms. Spring chinook salmon tend to use small, higher elevation streams, summer chinook salmon tend to use mid-elevation

streams, and fall chinook salmon use larger, lower elevation mainstem streams. However, in the Snake River, summer chinook salmon inhabit smaller, higher elevation tributaries more typical of spring chinook salmon habitat (Matthews and Waples 1991). In contrast, upper Columbia River summer chinook salmon spawn in larger, lower elevation streams more characteristic of fall chinook salmon habitat. Juvenile behavior also suggests that Snake River summer chinook salmon are more closely related to Snake River spring chinook salmon than to Snake River fall chinook salmon, whereas the juvenile behavior of the upper Columbia River summer chinook salmon is more closely aligned to upper Columbia River fall chinook salmon. Snake River spring and summer chinook and upper Columbia River spring chinook salmon migrate seaward as yearling smolts (Matthews and Waples 1991 *citing* Schaeck *et al.* 1966). Upper Columbia River summer and fall chinook salmon migrate seaward as subyearlings. In addition, genetic analysis indicates that Snake River spring/summer chinook salmon are very similar, but, as a group, are quite distinct from Snake River fall chinook salmon (Matthews and Waples 1991).

The spawning age of Snake River spring/summer chinook salmon varies by stream and by sex, but the data indicate that most return after 2 or 3 years. the fecundity of the Snake River spring/summer chinook salmon varies; for example, in the Tucannon River, there was a mean fecundity of 3,918 and 4,086 eggs per female in 1986 and 1987, respectively (CBFWA 1990) and in the Grande Ronde River, a mean of 3,715 and 3,462 eggs per female in 1983 and 1984, respectively (Howell *et al.* 1985). Egg to smolt survival also varies, and the data are limited. However, in the Tucannon River, the survival rate was 13.0 percent for the 1985 brood year and 14.2 percent for the 1987 brood year (Bugert *et al.* 1990). In the Grande Ronde River, this rate varied from 0.4 to 8 percent from 1985 through 1989 (Howell *et al.* 1985).

There are no data available for smolt to adult survival for individual streams or drainages. However, Raymond (1979) estimated a 0.6-4.4 percent smolt to adult survival rate for wild smolts arriving at Ice Harbor Dam for 1966-1975. These estimates do not take into account any smolt mortality between rearing areas and the uppermost Snake River dam (Ice Harbor Dam 1962; Lower Monumental Dam 1968; Little Goose Dam 1970-1974).

Outmigrating Snake River spring/summer chinook salmon are present at lower Granite Dam (the first major dam encountered by the outmigrants) generally from early April through June.

Consideration as a "Species" Under the ESA

To consider the Snake River spring/summer chinook salmon for listing, they must qualify as a "species" either together or separately, under the ESA. The ESA defines a "species" to include any "distinct population segment of any species of vertebrate. . . which interbreeds when mature." NMFS published an interim policy (March 13, 1991; 56 FR 10542) on how it will apply the ESA species definition in evaluating Pacific salmon. A salmon population will be considered distinct, and hence a species under the ESA, if it represents an evolutionarily significant unit (ESU) of the biological species. The stock must satisfy two criteria to be considered an ESU: (1) It must be reproductively isolated from other conspecific population units and (2) it must represent an important component in the evolutionary legacy of the biological species. The first criterion, reproductive isolation, need not be absolute, but must be strong enough to permit evolutionarily important differences to accrue in different population units. The second criterion is met if the population contributes substantially to the ecological/genetic diversity of the species as a whole. Further guidance on application of this policy is contained in the NMFS paper "Definition of Species under the Endangered Species Act: Application to Pacific Salmon" (Waples 1991).

Spring/summer run fish have traditionally been considered separate runs based on the difference in timing of adult returns to spawning areas. In determining whether Snake River spring/summer chinook salmon should be considered together or separately as a species as defined by the ESA, it is necessary to determine whether fish with different run-time designations are reproductively isolated. Schaeck *et al.* (1966) and Utter *et al.* (1989) suggest that spring-, summer-, and fall-run chinook salmon probably do not represent separate lineages in the Pacific Northwest. They found that, in general, geographic proximity was a more important factor than run-timing in predicting similarities between stocks. This suggests that run-time differences may have evolved independently following colonization of a new area (Matthews and Waples 1991). However, in spite of this general pattern, there are pronounced genetic (Schaeck *et al.* 1966; Utter *et al.* 1989) and life history (Matthews and Waples 1991) differences between spring and fall chinook salmon in the Snake River.

The relationship between spring/summer run fish in the Snake River is not so clear. Even though some spring/summer populations appear to be substantially reproductively isolated, this isolation may be due to geographical separation as much as to temporal differences in spawn timing. Furthermore, reproductive isolation could be as strong (or stronger) between populations with similar run-timing from different drainages.

The key to understanding the evolutionary significance of spring and summer run-timing is the relationship between the two forms in streams where they occur together (Matthews and Waples 1991). Matthews and Waples (1991) discuss two hypotheses that could explain the presence of both forms in the same stream: (1) the two forms arose from a single colonization event by one of the forms or (2) spring and summer-run fish are two independent evolutionary units, and the reason both forms are found in the same stream is that, in these cases, two colonization events occurred. Presently, there is insufficient information to determine which of these hypotheses is true, or whether hypothesis 1 is true in some cases and hypothesis 2 is true in others.

Because of compelling evidence that Snake River fall chinook salmon are reproductively isolated from spring/summer chinook salmon and because there is a probability of substantial levels of gene flow between the spring/summer chinook salmon forms in at least some localities, NMFS is considering Snake River spring/summer chinook salmon as a unit. This decision, however, does not imply that the two forms are not both important; the presence of fish with a spectrum of run and spawn timing is crucial to the long-term health and viability of Snake River chinook salmon.

To determine whether Snake River spring/summer chinook salmon consist of one or multiple ESUs, the criteria of reproductive isolation and substantial contribution to ecological/genetic diversity of the biological species are important. The most compelling evidence of an anadromous salmonid population's reproductive isolation is the ability of individuals to return to their natal streams to reproduce. This is particularly true for upriver populations, such as Snake River spring/summer chinook salmon (Chapman *et al.* 1991). The great distances that these fish must travel (over 324 miles (522 km)) in fresh water to reach their natal streams reduces the likelihood of straying from

VOL
56
ISS
124
JE
27
1991
UMI

other major river systems outside the Snake River. All available information suggests that if an adult spring or summer chinook salmon enters the Columbia River, it will most likely spawn only in its natal stream (Matthews and Waples 1991).

Recent studies (Schreck 1986; Waples *et al.* 1990) examining the genetic relationships among Columbia River Basin chinook salmon stocks indicate that there is little, if any, genetic exchange between Snake River spring/summer-run chinook salmon and lower and mid-Columbia River spring chinook salmon and upper Columbia River summer chinook salmon (Matthews and Waples 1991).

The available information also indicates that Snake River spring/summer chinook salmon are ecologically/genetically distinct. The fact that juvenile migrational behavior is the same for spring/summer chinook salmon in the Snake River and is different for the same forms in the upper Columbia River, strongly implies ecological/genetic adaptiveness. The precision required to migrate great distances from different natal streams and tributaries and return with high fidelity and exact timing to start the next generation 1 to 3 years later speaks of biological entities that are highly adapted to their particular environments. Protein electrophoresis shows clear differences between Snake River spring/summer chinook salmon and other chinook salmon populations in the Columbia River Basin.

Snake River spring/summer chinook salmon as a group meet both criteria to be considered a "species" under the ESA; they are strongly isolated reproductively from other conspecific population units and they contribute substantially to the ecological/genetic diversity of the biological species. While more than one ESU may exist within the Snake River Basin, the data presently available are not sufficient to clearly demonstrate the existence of multiple ESUs, or to define their boundaries. Thus, NMFS is proposing that the Snake River spring/summer chinook be considered as one ESU of the biological species *O. tshawytscha* under the ESA. NMFS recognizes that there is evidence of important differences between some population segments within the Snake River Basin; therefore, NMFS emphasizes that the proposed ESU's viability is strongly dependent on the continued existence of healthy populations distributed throughout the area of the ESU. As more data become available, smaller ESUs within the Snake River ESU may be defined.

In determining the nature and extent of the ESU for Snake River spring/summer chinook salmon, it is also necessary to consider the effects of artificial propagation and transfers. In general, introduced salmon populations will not be considered for protection under the ESA, and changes caused by artificial propagation or hybridization may also erode qualities by which a population is recognized as distinct (Waples 1991). The extent to which these efforts have altered the genetic makeup of indigenous populations is not understood fully. Hindar *et al.* (in press) found evidence, in some cases, that hatchery-reared fish had interbred with native fish, but they also found cases in which repeated supplementation had no detectable genetic effect on the indigenous population. In the Snake River, there are a number of streams without any recorded history of outplanting, others have been planted with only minimal numbers of nonindigenous fish, and others have had extensive stock transfers and evidence of hybridization (for more detail, see ETSD 1991). Presumably, the native fish in streams with little or no outplanting retain essentially unchanged genetic characteristics of the native populations.

One area for which the evidence of stock transfers and hybridization is overwhelming is the Clearwater River. Indigenous chinook salmon populations were virtually, if not completely eliminated by the Lewiston Dam (1927–1940). Subsequent efforts to restore the runs included transfer of eggs from the Salmon River subbasin and massive outplants of juveniles from hatcheries throughout the Columbia River Basin. Descendants of these fish of mixed, non-native origin are not considered part of the ESU for Snake River spring/summer chinook salmon.

Distribution and Abundance

Historically, it is estimated that 44 percent of the combined Columbia River spring/summer chinook salmon returning adults entered the Salmon River (Fulton 1968). Matthews and Waples (1991) combined a number of estimates (Fulton 1968; Chapman 1986; CBFWA 1990) and concluded that during some years in the late 1800s, the Snake River produced in excess of 1.5 million spring/summer chinook salmon. From 1950 through 1980, the abundance of adult spring/summer chinook salmon had declined to an average of 125,000 per year (Fulton 1968). Since the 1960s, counts at Snake River dams have declined considerably, from an average at Ice Harbor Dam of 58,798 fish during 1962 through 1970, to a low of 11,855 in 1979. Counts gradually increased over the next 9 years, peaking at 42,184 in 1988. However, in 1989 and 1990, counts dropped to 21,244 and 26,524 fish, respectively. These numbers are illustrative of population trends, but are not indicative of wild fish abundance, because adult counts at dams have been confounded by returns of hatchery-reared fish since 1967.

Matthews and Waples (1991) estimated the abundance of wild fish going over the uppermost Snake River dam (1968—Ice Harbor Dam; 1969—Lower Monumental Dam; 1970–74—Little Goose Dam; and 1975–90—Lower Granite Dam) utilizing an expansion factor based on the relationship between adult counts at the uppermost dam and redd counts in index areas prior to hatchery influence. Redd counts are available since 1957 from all Snake River index areas except the Grande Ronde River, for which enumeration began in 1964. Using this method, the estimated number of wild adult spring/summer chinook salmon passing over Lower Granite Dam averaged 9,674 fish from 1980 through 1990, with a low count of 3,343 fish in 1980 and a high count of 21,870 fish in 1988.

Snake River redd counts in index areas provide the best indicator of trends and status of the wild spring/summer chinook salmon population. In 1957, over 13,000 redds were counted in index areas excluding the Grande Ronde River. By 1964, including the counts in Grande Ronde River, the annual count in index areas was 8,542 redds. Over the next 16 years, annual counts in all areas declined steadily, reaching a minimum of 620 redds in 1980. Annual counts increased gradually over the next 8 years, reaching a peak of 3,395 redds in 1988. However, in 1989 and 1990, counts dropped again to 1,008 and 1,224, respectively.

The abundance of wild Snake River spring/summer chinook salmon has declined more at the mouth of the Columbia River than the redd trends indicate (Chapman *et al.* 1991). Prior to curtailment in the mid-1970s, the in-river fisheries in the lower Columbia River below McNary Dam harvested 20 to 88 percent of these fish annually (Raymond 1988). Therefore, any analysis of population decline using redd counts provides a conservative approximation of the actual decline in abundance of adults.

Factors relevant to the determination of whether a "species" is threatened or endangered include current and historical abundance, population trends, the distribution of fish in space and time, and other information indicative of the health of the population. Nearly 95 percent of the total reduction in estimated abundance occurred prior to the mid-1980s. Over the last 30–40 years, the remaining population was further reduced nearly ten-fold. Currently, the abundance of these fish is about 0.5 percent of the estimated historical abundance. Furthermore, the 1990 (1,224) redd count in index areas represents only 14.3 percent of the 1964 count (8,542).

Although the data suggest that several thousand wild spring/summer chinook salmon currently return to the Snake River each year, these fish are thinly spread over a large and complex river system. In cases where significant population subdivision has occurred within the Snake River Basin, the size of some local populations have declined to levels at which risks associated with inbreeding, difficulty of finding spawning mates, and other random factors become important. Short-term projections for Snake River spring/summer chinook salmon are not optimistic. Based upon the lowest return on record of jack (precocious male salmon that return after 1 year of ocean residence) spring/summer chinook salmon return to Lower Granite Dam in 1990 (357 compared to 2,451 in 1989), adult and redd count are expected to drop considerably over the next 2 years. Furthermore, the recent series of drought years severely reduced the number of outmigrating juveniles that must produce returning adults in the next few years.

Summary of Factors Affecting the Species

Section 2(a) of the ESA states that various species of fish, wildlife, and plants in the United States have been rendered extinct as a consequence of economic growth and development untempered by adequate concern and conservation. The ESA requires a determination whether a species is threatened or endangered because of any of the five factors identified in section 4(a)(1). These factors, as they apply to Snake River spring/summer chinook salmon, are discussed extensively in the NMFS' "Supplementary Information on Factors Causing Decline for the Notice of Proposed Rulemaking, Snake River Spring/Summer Chinook Salmon" (ETSD 1991). This report is available upon request (see **ADDRESSES**). A brief description of these factors follows.

A. The present or threatened destruction, modification, or curtailment of its habitat or range

Hydropower development has resulted in blockage and inundation of habitat, turbine-related mortality of juvenile fish, increased delay of juvenile migration through the Snake and Columbia Rivers, increased predation on juvenile salmon due to reimpoundments in reservoirs and increased predator populations due to ideal foraging areas created by impoundments, and increased delay of adults on their way to spawning grounds. Water withdrawal and storage, irrigation diversions, siltation and pollution from sewage, farming, grazing, logging, and mining also degraded the Snake River spring/summer chinook salmon's habitat.

B. Overutilization for commercial, recreational, scientific, or educational purposes

Historically, combined ocean and river harvest rates of Snake River spring/summer chinook salmon exceeded 80 and sometimes 90 percent (Ricker 1959). However, current ocean and river harvest levels have been greatly curtailed in the commercial, recreational, and Indian fisheries due to low escapements and efforts to protect these runs. The majority of current harvest occurs in the Columbia River net fisheries. Recreational fishing in the Columbia River is second in significance (Beckman 1991). Columbia River fisheries directed toward other species can also impact significant numbers of spring/summer chinook salmon (ODFW and WDF 1989).

C. Disease or predation

Spring/summer chinook salmon are exposed to numerous bacterial, protozoan, viral, and parasitic organisms; however, these organisms' impacts on Snake River spring/summer chinook salmon are largely unknown.

Predators, particularly northern squawfish, *Ptychocheilus oregonensis*, and avian predator populations have increased due to hydroelectric development that created impoundments providing ideal foraging areas for the predators. Turbulent conditions in turbines, dam bypasses, and spillways have increased predator success by stunning or disorienting passing juvenile salmon migrants.

Marine mammal numbers, especially harbor seals and California sea lions, are increasing on the West Coast and increases in predation by pinnipeds have been noted in all Northwest salmonid fisheries. However, the extent to which predation is a factor causing the decline of spring/summer chinook salmon is unknown.

D. Inadequacy of existing regulatory mechanisms

A wide variety of Federal and state laws and programs have affected the abundance and survival of anadromous fish populations in the Columbia River. However, they have not prevented the decline of Snake River spring/summer chinook salmon. Several of the more pertinent laws are summarized in the Factors Report.

E. Other natural and manmade factors

Drought is the principal natural condition that may have contributed to reduced spring/summer chinook salmon production. Annual mean streamflows for the 1987 water year were generally less than ever recorded for many streams since the late nineteenth century (Columbia River Water Management Group 1988). The 1988 water year became the fourth consecutive year of drought conditions in the Snake River Basin (Columbia River Water Management Group—in press).

Artificial propagation has, in some cases, impacted the Snake River spring/summer chinook salmon. Potential problems associated with hatchery programs include genetic impacts on indigenous wild populations from stock transfers and reduced natural production due to collection of wild adults for hatchery brood stocks. Several hatchery brood stocks were initiated, at least in part, by trapping wild fish, and native returns are still utilized for a portion of their brood stock. In recent years, at least one hatchery has produced less than one adult for each wild fish collected.

Proposed Determination

The ESA defines an endangered species as any species in danger of extinction throughout all or a significant portion of its range; and a threatened species as any species likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range. Section 4(b)(1) of the ESA requires that the listing determination be based solely on the best scientific and commercial data available, after conducting a review of the status of the species and after taking into account those efforts, if any, being made to protect such species.

Based on its assessment of the best scientific and commercial information available, NMFS is issuing a proposed determination that the Snake River spring/summer chinook salmon is a "species" under the ESA. This collective evidence does not suggest that the ESU is in danger of extinction throughout a

VOL
56
ISS
124
JE
27
1991
UMI

significant portion of its range, but the ESU may reach that point in the foreseeable future if corrective measures are not taken. Therefore, NMFS proposes to list the Snake River spring/summer chinook salmon as threatened.

Proposed Protective Regulations

NMFS proposes to adopt protective measures to prohibit, with respect to Snake River spring/summer chinook, taking, interstate commerce, and the other ESA prohibitions applicable to endangered species, with the exceptions provided by the ESA for endangered species. This is the normal course followed by the U.S. Fish and Wildlife Service with respect to threatened listings (see 50 CFR 17.31(a)).

Available Conservation Measures

Conservation measures provided to species listed as endangered or threatened under the ESA include recognition, prohibitions on taking, recovery actions, and Federal agency consultation requirements. Recognition through listing promotes conservation actions by Federal and state agencies and private groups and individuals.

Section 7(a)(4) of the ESA requires that Federal agencies confer with NMFS on any actions likely to jeopardize the continued existence of a species proposed for listing and on actions resulting in destruction or adverse modification of proposed critical habitat. For listed species, section 7(a)(2) requires Federal agencies to ensure that activities they authorize, fund, or conduct are not likely to jeopardize the continued existence of a listed species or to destroy or adversely modify its critical habitat. If a Federal action may adversely affect a listed species or its critical habitat, the responsible Federal agency must enter into formal consultation with NMFS.

Examples of Federal actions that may be affected by this proposal include authorized purposes of mainstem Columbia River and Snake River hydroelectric and storage projects. Such authorized purposes include hydroelectric power generation, flood control, irrigation, and navigation. Federal actions including COE section 404 permitting activities under the Clean Water Act, COE section 10 permitting activities under the Rivers and Harbors Act, and FERC licenses for non-Federal development and operation of hydropower may also be affected.

Based on information presented in this proposed rule, general conservation measures that could be implemented to help conserve the species are listed below. This list does not constitute NMFS' interpretation of a recovery plan under section 4(f) of the ESA.

(1) Efforts could be made to ensure that adult passage facilities at dams effectively pass migrating salmon upstream.

(2) Flows in the Snake and Columbia Rivers could be regulated to pass downstream migrating juvenile fish through the system more effectively. It is recognized that coordination of hydropower production in the Northwest is a continuous, long-term effort, and that some changes cannot be made on short notice. However, NMFS believes that the parties responsible for flow regulation have sufficient authority and flexibility to improve flow conditions for Snake River spring/summer chinook salmon immediately. Additional provisions could also be incorporated into ongoing planning for system regulation in the spring and early summer of 1992. Beyond these short-term needs, the parties could also begin to address longer term needs through development of improved institutional mechanisms for the definition and treatment of fishery flow requirements in system regulation studies and implementation under the Pacific Northwest Coordination Agreement. Progress could also be made in power planning through greater consideration of resources and strategies that complement, rather than conflict, with the need for increased flows, and thus increase hydroelectric power generation in spring and summer. NMFS encourages efforts such as these during the period between this proposed rule and a final ruling.

(3) All water diversions affecting downstream migrating juvenile spring/summer chinook salmon could be screened. Chinook salmon juveniles migrate downstream from late March through June. Many unscreened diversions and existing screens in need of replacement have been identified, and a thorough review of the impact of irrigation diversions on spring/summer chinook salmon could be conducted.

(4) All irrigation diversion structures could be surveyed and adequate adult fish passage facilities provided.

(5) All water diversions could have adequate headgate and staff gauge structures installed to control and monitor water usage accurately. Water rights should be enforced to prevent irrigators from exceeding the amount of water to which they are legally entitled.

(6) Research could be conducted to evaluate the mortality level associated with the catch of sub-legal (undersize) Snake River spring/summer chinook salmon caught in ocean troll fisheries.

(7) Artificial propagation could be conducted in a manner minimizing impacts upon native populations of chinook salmon.

Critical Habitat

Section 4(a)(3)(A) of the ESA requires that, to the extent prudent and determinable, critical habitat be designated concurrently with the listing of a species. To avoid delaying this listing proposal, NMFS will propose critical habitat in a separate rulemaking.

Public Comments Solicited

To ensure that the final action resulting from this proposal will be as accurate and as effective as possible, NMFS is soliciting comments and suggestions from the public, other concerned governmental agencies, the scientific community, industry, and any other interested parties. Four public hearings have been scheduled (see **DATES** and **ADDRESSES**). The final decision on this proposal will take into consideration the comments and any additional information received by NMFS, and may differ from this proposed rule.

Classification

The 1982 amendments to the ESA (Pub. L. 97-304) in section 4(b)(1)(A), restricted the information that may be considered when assessing species for listing. Based on this limitation of criteria for a listing decision and the opinion in *Pacific Legal Foundation* v. *Andrus*, 657 F.2d 829 (6th Cir., 1981), NMFS has categorically excluded all endangered species listings from environmental assessment requirements of the National Environmental Policy Act (48 FR 4413, February 6, 1984).

The Conference Report on the 1982 amendments to the ESA notes that economic considerations have no relevance to determinations regarding the status of species, and that E.O. 12291 economic analysis requirements, the Regulatory Flexibility Act, and the Paperwork Reduction Act are not applicable to the listing process. Similarly, listing actions are not subject to the requirements of E.O. 12612.

List of Subjects in 50 CFR Part 227

Endangered and threatened species, Exports, Imports, Marine mammals, Transportation.

Dated: June 21, 1991.

Samuel W. McKeen,

Acting Assistant Administrator for Fisheries.

For the reasons set out in the preamble, 50 CFR part 227 is proposed to be amended as follows:

PART 227—THREATENED FISH OR WILDLIFE

1. The authority citation of part 227 continues to read as follows:

Authority: 16 U.S.C. 1531 *et seq.*

2. In § 227.4, a new paragraph (g) is added to read as follows:

§ 227.4 Enumeration of threatened species.

* * * * *

(g) Snake River spring/summer chinook salmon (*Oncorhynchus tschawytscha*).

3. In subpart C, a new § 227.22 is added to read as follows:

§ 227.22 Snake River spring/summer chinook salmon.

(a) *Prohibitions.* The prohibitions of section 9 of the Act (16 U.S.C. 1538) relating to endangered species apply to the Snake River spring/summer chinook salmon except as provided in paragraph (b) of this section.

(b) *Exceptions.* The exceptions of section 10 of the Act (16 U.S.C. 1539) and other exceptions under the Act relating to endangered species, and the provisions of regulations issued under the Act relating to endangered species (such as 50 CFR part 222, subpart C—Endangered Fish or Wildlife Permits), also apply to the Snake River spring/summer chinook salmon. This section supersedes other restrictions on the applicability of 50 CFR part 222, including, but not limited to, the restrictions specified in §§ 222.2(a) and 222.22(a) of this chapter.

[FR Doc. 91-15243 Filed 6-26-91; 8:45 am]

BILLING CODE 3510-22-M

50 CFR Part 227

[Docket No. 910649-1149]

Endangered and Threatened Species; Proposed Threatened Status for Snake River Fall Chinook Salmon

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Proposed rule.

SUMMARY: NMFS is issuing a proposed determination that the Snake River fall chinook salmon (*Oncorhynchus tshawytscha*) is a "species" under the endangered Species Act of 1973, as amended, 16 U.S.C. 1531 *et seq.* (ESA). Further, NMFS proposes to list the Snake River fall chinook salmon as threatened under the ESA. The Snake River fall chinook salmon has experienced a substantial decline in abundance, and is currently distributed over a fraction of its former range. Hydroelectric development, commercial harvest, water withdrawal, water storage, and inadequate regulatory mechanisms are the primary factors contributing to the "species" decline. Should the proposed listing be made final, protective regulations under the ESA would be put into effect and a recovery program would be implemented.

DATES: Comments from all interested parties must be received by August 26, 1991. Public hearings are scheduled as follows:

1. July 30, 1991, 7 p.m. to 9:30 p.m., Portland, Oregon;

2. July 31, 1991, 7 p.m. to 9:30 p.m., Seattle, Washington;

3. August 1, 1991, 7 p.m. to 9:30 p.m., Richland, Washington;

4. August 7, 1991, 7 p.m. to 9:30 p.m., Boise, Idaho.

ADDRESSES: Comments on this proposed rule should be sent to the Environmental and Technical Services Division, NMFS, Northwest Region, 911 NE 11th Avenue, suite 620, Portland, OR 97232, or provided at any one of the public hearings. The hearings will be held at the following locations:

1. 1st Floor West Side, Federal Complex, 911 NE 11th Ave., Portland, Oregon;

2. NOAA, Western Administrative Support Center, Building 9 Auditorium, 7600 Sand Point Way, NE., Seattle, Washington;

3. Richland Federal Building Auditorium, 825 Jadwin Avenue, Richland, Washington;

4. Bosie Interagency Fire Center Auditorium, 3905 Vista Ave., Boise, Idaho.

SUPPLEMENTARY INFORMATION:

Background

On June 7, 1990, NMFS received a petition from Oregon Trout, with co-petitioners Oregon Natural Resources Council, the Northwest Environmental Defense Center, American Rivers, and the Idaho and Oregon Chapters of the American Fisheries Society to list Snake River fall chinook salmon and to designate critical habitat under the ESA. NMFS published a notice on September 11, 1990 (55 FR 37342), that the petition presented substantial scientific information indicating that the listing may be warranted and requested information from the public.

NMFS has reviewed available scientific information pertaining to the stautus of Snake River fall chinook salmon. To assist in this review, NMFS convened a Technical Committee to provide information and to review and comment on the data in the record. The Technical Committee consists of representatives from Federal and state agencies, Indian tribes, industry, professional societies and public groups that have expertise relevant to Snake River fall chinook salmon.

Status Review for Snake River Fall Chinook

The NMFS Northwest Region Biological Review Team prepared a "Status Review for Snake River fall chinook salmon" (Waples *et al.* 1991) providing more detailed information, discussion and references. This status review is available upon request (see **ADDRESSES**), and is summarized below.

Ecosystem

The Snake River is the major tributary of the Columbia River, entering the Columbia 324.3 miles (522 kilometers) upstream from the Pacific Ocean. The Snake River Basin includes a range of climatic, geological and vegetative zones and extends into five States (Idaho, Washington, Oregon, Wyoming and Nevada). The habitat occupied by fall chinook salmon in the Snake River appears to be unique to this race of chinook salmon. In contrast to coastal mountains and the Cascade Range, the Snake River drainage is composed of batholithic granite that is prone to erosion, creating relatively turbid water

VOL
56
ISS
124
JE
27
1991
UMI

with higher mineral content and alkalinity in comparison to the Columbia River and coastal areas. The region is relatively arid with warm summers resulting in higher annual temperatures than in many other salmon production areas in the Pacific Northwest. These characteristics combine to produce a highly productive habitat.

Chapman *et al.* (1991) described ten geologic provinces in the Snake River Basin, each being unique to some degree in the type of habitat it provides for anadromous salmonids, in terms of both geology and climate. Together, these areas form an aquatic ecosystem for chinook salmon that is unique in the Columbia River Basin and, probably, the world. Utter *et al.* (1982) reported that the Snake and Columbia Rivers differ ecologically in a number of ways. Habitat characteristics of the Snake River Basin provide strong evidence of ecological/genetic distinctness of Snake River fall chinook salmon.

Life History

The life history of Snake River fall chinook salmon reflects unique adaptations to the Snake River Basin. Snake River fall chinook salmon adults enter the Columbia River in July, reaching the Snake River from the middle of August through October. Snake River fall chinook salmon historically sustained the longest freshwater migration (960 miles, 1,512 km) of any North American chinook salmon population with a juvenile life history strategy of subyearling migration to the ocean. Although fall chinook salmon are presently restricted to the lower Snake River, genes associated with this lengthy migration may still reside in the population. Given this extended freshwater migration, Snake River fall chinook salmon retain their colocation and flesh quality longer than lower Columbia River fall chinook salmon.

Spawning occurs in October and November (Bugert *et al.* 1990) in the mainstem Snake River from the upper extent of Lower Granite Dam pool to Hells Canyon Dam. Some spawning also occurs in the lower reaches of the Imnaha, Grande Ronde, Clearwater, and Tucannon Rivers, each a major subbasin of the Snake River.

Fall chinook salmon emerge from the gravel in March and April, and downstream migration usually begins with several weeks of emergence (Becker 1970; Allen and Meekin 1973). Water temperatures in the Snake River during summer months can exceed 25 °C (77 °F), and average monthly temperatures are often 6 to 8 °C higher than in the upper Columbia River (Utter *et al.* 1982). Elevated water temperatures are thought to preclude fall chinook salmon from rearing in the Snake River after mid-July (Van Hyning 1968; Chapman *et al.* 1990). Fall chinook salmon subyearlings are present in the Columbia River estuary from June to October (Rich 1922). Dawley *et al.* (1986) found that approximately 80 percent of all juvenile fall chinook salmon enter the estuary from late April through early September. Data specific to juvenile Snake River fall chinook salmon are unavailable.

Consideration as a "Species" Under the ESA

To consider the Snake River fall chinook salmon for listing, it must qualify as a "species" under the ESA. The ESA defines a "species" to include any "distinct population segment of any species of vertebrate . . . which interbreeds when mature." NMFS published an interim policy (March 13, 1991; 56 FR 10542) on how it will apply the ESA species definition in evaluating Pacific salmon. This policy stipulates that a salmon population will be considered distinct, and hence a species under the ESA, if it represents an evolutionarily significant unit (ESU) of the biological species. The population must satisfy two criteria to be considered an ESU: (1) It must be reproductively isolated from other conspecific population units; and (2) it must represent an important component in the evolutionary legacy of the biological species. The first criterion, reproductive isolation, need not be absolute, but must be strong enough to permit evolutionarily important differences to accrue in different population units. The second criterion would be met if the population contributed substantially to the ecological/genetic diversity of the species as a whole. Further guidance on the application of this policy is contained in the NMFS paper "Definition of Species under the Endangered Species Act: Application to Pacific Salmon" (Waples 1991).

Determining whether Snake River fall chinook salmon constitute a "species" under the ESA is complicated by the presence of spring/summer chinook salmon in the Snake River, and fall chinook salmon in the upper Columbia River. Based on a previous status review in 1992, NMFS concluded that Snake River and upper Columbia River fall chinook salmon were separate, identifiable, and distinct populations that warrant designation as "species" under the ESA (Utter *et al.* 1992). Available evidence indicates that, through the early 1980s, Snake River fall chinook salmon met both criteria necessary to be an ESU—reproductive isolation and ecological/genetic distinctness.

Based on the first criterion, populations with different migration timing that are reproductively isolated should be considered separately under the ESA. Fish with different migration timing for which reproductive isolation cannot be established should be considered as a unit. Compelling evidence indicates that Snake River fall chinook salmon are reproductively isolated from spring/summer chinook salmon (Matthews and Waples 1991). The very low incidence of natural straying of upper Columbia River fall chinook salmon (McIsaac and Quinn 1988), and consistent genetic differences between upper Columbia River and Snake River fall chinook salmon demonstrate significant, long-term reproductive isolation between these groups.

Available information indicates that Snake River fall chinook salmon satisfy the second criterion, which stipulates that a population must represent an important component in the evolutionary legacy of the biological species to be considered an ESU. Historically, the Columbia River system was the largest producer of chinook salmon in the world. Prior to 1960, the Snake River was the most important production area for fall chinook salmon in the Columbia River system (Bureau of Commercial Fisheries and Bureau of Sport Fisheries and Wildlife 1964). Unique ecological features of the Snake River Basin, characteristic freshwater habitats, contrasting ocean distribution patterns, and genetic differences relative to other chinook salmon, are evidence of the ecological/genetic distinctness of the Snake River fall chinook salmon.

It is noted that, since 1987, hatchery fall chinook salmon with genotypes characteristic of upper Columbia River fall chinook salmon have strayed into the Snake River in increasing numbers, and in 1990 some were recovered on the spawning grounds in the Snake River. However, the degree to which fall chinook salmon strays have produced viable progeny is unknown.

Evidence of introgression of upper Columbia River genes into Lyons Ferry Hatchery fall chinook salmon has prompted concern regarding the status of the Snake River fall chinook salmon ESU. However, because (1) Snake River fall chinook salmon represented an ESU prior to these straying events, (2) significant straying of hatchery reared Upper Columbia River fall chinook salmon has occurred only within the last generation, and (3) direct evidence of genetic change in wild Snake River fall chinook salmon is lacking, NMFS concludes, based on the weight of existing information, that Snake River fall chinook salmon still represent an ESU.

NMFS concludes that the best available information indicates that this population satisfies both criteria necessary to be considered an ESU. Therefore, NMFS is issuing a proposed determination that the Snake River fall chinook salmon is a "species" under the ESA.

Distribution and Abundance

Historically, fall chinook salmon were widely distributed throughout the Snake River and many of its major tributaries from its confluence with the Columbia River near Pasco, Washington, upstream 615 miles (990 km) to Shoshone Falls, Idaho (Columbia Basin Interagency Committee 1957; Haas 1965; Fulton 1968; Van Hyning 1968; Lavier 1976). During the early 1900s, a weir was placed in the Snake River downstream of Swan Falls Dam near Ontario, Oregon, river mile (Rm) 372, river kilometer (Rkm) 599, to collect fall chinook salmon broodstock. Although only a portion of the returning fish were intercepted, more than 20 million eggs (a minimum of 4,000 females) were taken in a single year (Parkhurst 1950). This provides some indication of the distribution and large number of fall chinook salmon migrating into the upper reaches of the Snake River during this period. Historically, the most important spawning grounds for fall chinook salmon in the Snake River were between Huntington, Idaho (Rm 328, Rkm 527) and Auger Falls, Idaho (Rm 607, Rkm 977) (Evermann 1896). Fall chinook salmon production above Rm 456, Rkm 734, was terminated in 1907 by Swan Falls Dam, which obstructed the passage of returning adults (Parkhurst 1950).

Snake River fall chinook salmon abundance remained relatively stable until 1950, but declined substantially thereafter. The estimated mean number of fall chinook salmon returning annually to the Snake River decreased from 72,000 between 1928 and 1949, to 29,000 from 1950 through 1959 (Irving and Bjornn 1981). In spite of this significant decline in abundance, the Snake River remained the most important production area for fall chinook salmon in the Columbia River Basin through the 1950s (Fulton 1968).

The construction of Brownlee at Rm 285, Rkm 459 (1958), Oxbow at Rm 273, Rkm 439 (1961), and Hells Canyon Dams at Rm 247, Rkm 397 (1967), inundated spawning areas and prevented access to the primary production areas of Snake River fall chinook salmon when fish passage facilities at these projects proved to be inadequate (Van Hyning 1968). Snake River fall chinook salmon habitats were further reduced with the construction of Ice Harbor at Rm 10, Rkm 16 (1961), Lower Monumental at Rm 42, Rkm 67 (1969), Little Goose at Rm 70, Rkm 113 (1970), and Lower Granite Dams at Rm 108, Rkm 173 (1975).

For Snake River fall chinook salmon, dam counts represent the best indication of the population's recent abundance. Counts at the uppermost dam affording adult fish passage averaged 12,720 at Ice Harbor from 1969 through 1974, and 610 at Lower Granite from 1975 through 1980 (ODFW 1990; Corps unpublished). Since 1983, dam counts have been confounded by returns of hatchery-reared fish. Adult returns of hatchery-reared fish cannot be visually distinguished from wild Snake River chinook salmon in all cases because only a portion of these fish are marked. Recent efforts have established the number of hatchery-reared fall chinook salmon and wild Snake River fall chinook salmon returning to Lower Granite Dam. Based on these estimates, wild Snake River fall chinook salmon escapement to Lower Granite Dam varied from 428 adults in 1983 to 295 in 1989, and was 78 in 1990 (Washington Department of Fisheries 1991).

Summary of Factors Affecting the Species

Section 2(a) of the ESA states that various species of fish, wildlife, and plants in the United States have been rendered extinct as a consequence of economic growth and development untempered by adequate concern and conservation. The ESA requires a determination whether a species is threatened or endangered because of any of the five factors identified in section 4(a)(1). These factors, as they apply to Snake River fall chinook salmon, are discussed extensively in the NMFS' "Supplementary Information on Factors Causing Decline for the Notice of Proposed Rulemaking, Snake River Chinook Salmon" (ETSD 1991). This report is available upon request (see **ADDRESSES**). A brief description of these factors follows:

A. The Present or Threatened Destruction, Modification, or Curtailment of its Habitat or Range

Hydropower development has substantially curtailed the range of Snake River fall chinook salmon and inundated large amounts of accessible habitat, contributing significantly to the population's decline. Turbine-related juvenile mortality, delayed juvenile migration through the Snake and Columbia River, juvenile predation from the creation of ideal foraging areas and resulting increases in predator populations, and adult migration delays, have also resulted from hydropower development.

Water withdrawal for agriculture, and water storage to accommodate flood control objectives and increased hydropower production, have increased juvenile mortality and may result in the dessication of spawning areas and mortality of fall chinook salmon fry.

B. Overutilization for Commercial, Recreational, Scientific, or Educational Purposes

Columbia River chinook salmon harvest rates have exceeded 80 percent, and sometimes 90 percent, since 1926. The total exploitation rate for Lyons Ferry Hatchery fish, which are assumed to have the same distribution as wild Snake River fall chinook salmon, is estimated to be 74 percent. These harvest rates may be higher than Snake River fall chinook salmon can sustain.

C. Disease and Predation

Fall chinook salmon are exposed to numerous bacterial, protozoan, viral, and parasitic organisms. Very little current or historical information exists to quantify changes in infection levels and mortality rates attributable to these diseases for Snake River fall chinook salmon.

Freshwater predators, particularly northern squawfish (*Ptychocheilus oregonensis*), have increased in abundance due to hydroelectric development that created ideal foraging areas. Turbulent conditions associated with turbines, dam bypasses, and spillways have increased predatory success by disorienting juvenile salmon migrants.

Marine mammal abundance, particularly harbor seals and California sea lions, has increased along the Pacific Coast, and increases in marine mammal predation have been noted in Northwest salmon fisheries.

D. Inadequacy of Existing Regulatory Mechanisms

A variety of Federal and state laws and programs are factors in the decline of Snake River fall chinook salmon. Although some progress has occurred, regulatory mechanisms have failed to provide for the conservation of the population.

VOL 56 ISS 124 JE 27 1991 UMI

E. Other Natural and Manmade Factors

Artificial propagation activities have not been a primary factor in the decline of Snake River fall chinook salmon. However, the taking of Snake River fall chinook salmon for hatchery broodstock has reduced natural escapements, and the recent straying of fall chinook salmon from other areas into the Snake River threatens the genetic integrity of wild Snake River fall chinook salmon.

Proposed Determination

The ESA defines an endangered species as any species in danger of extinction throughout all or a significant portion of its range; and a threatened species as any species likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range. Section 4(b)(1) of the ESA requires that determinations whether any species is threatened or endangered be based solely on the best scientific and commercial data available, after conducting a review of the status of the species and after taking into account those efforts, if any, being made to protect such species.

Regarding efforts being made to protect Snake River fall chinook salmon, NMFS believes that several measures merit consideration. During the planning of Lower Snake River Compensation Plan (LSRCP) production facilities, an egg bank program was initiated to ensure the conservation of Snake River origin fall chinook salmon. LSRCP efforts to maintain the integrity of Snake River fall chinook salmon were initially successful based on genetic monitoring of broodstock collection in 1977, 1978, 1979, and 1980 (Utter *et al.* 1982).

A review of coded-wire-tag (CWT) data showed that stray hatchery fish of Columbia River origin have been used as broodstock at LSRCP facilities (Lyons Ferry Hatchery) in recent years. These strays are predominantly upper Columbia River stock released as juveniles into the Umatilla River, a tributary of the Columbia River downriver from the confluence with the Snake River. Poor acclimation prior to release of these fish, and inadequate flow for returning adults resulting from the diversion of water from the Umatilla, are factors responsible for this straying. In the years 1964–1980, Columbia River strays made up 5, 11, 3, 4, 18, 39, and 25 percent, respectively, of the adults spawned at Lyons Ferry Hatchery.

Another consideration is the potential effect of stray Columbia River fish on the wild Snake River fall chinook salmon gene pool. Upper Columbia River fall chinook salmon comprised 1 to 2 percent of the adult fall chinook at Lower Granite Dam in 1986–1988, 6 to 9 percent in 1987–1988, and 25 to 29 percent in 1988–1989.

The Washington Department of Fisheries has implemented measures to minimize potential impacts of straying on Lyons Ferry Hatchery (LFH) broodstock (the only Snake River hatchery now producing fall chinook salmon), and wild Snake River fall chinook salmon (Washington Department of Fisheries 1991). All juvenile fall chinook salmon from 1989 LFH broodstock were marked, and will be excluded from use as broodstock upon their return as adults. Only progeny from confirmed LFH adults that returned in 1990 will be used for future broodstock. Commencing in 1991, all LFH fish will be tagged (CWT), and only confirmed LFH fish will be used as broodstock. During the previous 14 years, an average of 31 percent of the wild Snake River fall chinook salmon population is estimated to have been taken annually for broodstock purposes. The exclusive use of known LFH fish in broodstock collection will also allow significantly more wild Snake River fall chinook salmon to reach their spawning grounds beginning in 1991.

In addition to these measures, other efforts are underway to protect Snake River fall chinook salmon. The Oregon Department of Fish and Wildlife has initiated actions to reduce the straying of Umatilla fall chinook salmon into the Snake River by improving the acclimation of juvenile fall chinook salmon released into the Umatilla River, and beginning in 1991, marking all such releases for later identification. Facilities specifically designed to provide additional flow in the Umatilla River and reduce adult straying are under construction by the Bureau of Reclamation.

Prior to 1991, the Pacific Fisheries Management Council (PFMC) did not consider Snake River fall chinook salmon separately from upper Columbia River fall chinook salmon in the management of ocean fisheries. Management measures adopted by the PFMC for 1991 specifically address fishery impacts on Snake River fall chinook salmon and reduce the total ocean exploitation rate of Snake River fall chinook salmon relative to 1990 harvest rates by 20 percent (PFMC 1991).

Mortality of juvenile fall chinook salmon at dams and in reservoirs can be significantly reduced by collecting juveniles and transporting them downriver around the dams by barge and trucks. The Regional Salmon Program for 1991, implemented by the States of Idaho, Oregon, and Washington, Federal agencies, Indian tribes, utilities, and other interests, includes a commitment to provide maximum outmigrant and extend the transportation program through October (Andrus et. al. 1991).

Reductions in Snake River flows by the Hells Canyon Dam Complex have previously resulted in the dessication of spawning areas and mortality of emerging salmon fry. Projected reductions in flow during May 1991 to 5 to 7 kcfs (142 to 198 cubic meters per second) were expected to jeopardize Snake River fall chinook salmon nests (38 documented redds) spawned from October through December of 1990 at flows of approximately 12 kcfs (340 cubic meters per second). To protect these fish, flow augmentation from Brownlee Reservoir was requested (Fish Passage Center 1991) and ultimately provided through the system operation process, a coordinated effort between state and Federal agencies, Indian tribes and system managers.

Based on its assessment of available scientific and commercial information, and after taking into account those efforts being made to protect the species, NMFS is issuing a proposed determination that Snake River fall chinook salmon is a threatened "species" under the ESA. This collective evidence indicates that Snake River fall chinook salmon are likely to become an endangered species within the foreseeable future if corrective measures are not implemented.

Proposed Protective Regulations

NMFS proposes to adopt protective measures to prohibit, with respect to Snake River fall chinook, taking, interstate commerce, and the other ESA prohibitions applicable to endangered species, with the exceptions provided by the ESA. This is the normal course followed by the U.S. Fish and Wildlife Service with respect to threatened listings (see 50 CFR 17.31(a)).

Available Conservation Measures

Conservation measures provided to species listed as threatened or endangered under the ESA include prohibitions on taking, recovery actions, and Federal agency consultation requirements. Recognition through listing promotes conservation actions by Federal and state agencies and private groups and individuals.

Section 7(a)(4) of the ESA requires that Federal agencies confer with NMFS on any actions likely to jeopardize the continued existence of a species proposed for listing or an actions resulting in destruction or adverse modification of proposed critical habitat. For listed species, section 7(a)(2) requires Federal agencies to ensure that activities they authorize, fund, or conduct are not likely to jeopardize the continued existence of a listed species or to destroy or adversely modify its critical habitat. If a Federal action may adversely affect a listed species or it critical habitat, the responsible Federal agency must enter into formal consultation with NMFS.

Examples of Federal actions that may be affected by this proposal include operations of mainstem Columbia River and Snake River hydroelectric and storage projects. Such operations include hydroelectric power generation, flood control, irrigation, and navigation. Federal actions including COE section 404 permitting activities under the Clean Water Act, COE section 10 permitting activities under the Rivers and Harbors Act, and Federal Energy Regulatory Commission licenses for non-Federal development and operation of hydropower may also be affected.

Based on information presented in this proposed rule, general conservation that could be implemented to help conserve the species are listed below. This list does not constitute NMFS' interpretation of a recovery plan under section 4(f) of the ESA.

(1) Operate adult passage facilities as mainstem Snake and Columbia River dams to pass migrating salmon upstream more effectively.

(2) Regulate flows in the Snake and Columbia Rivers to pass downstream migrating juvenile fish through the system more effectively and protect incubating eggs. NMFS believes that the parties responsible for flow regulation have sufficient authority and flexibility to improve immediately flow conditions for Snake River fall chinook salmon. These parties could also address the definition and treatment of fishery flow requirements in system regulation under the Pacific Northwest Coordination Agreement. Greater consideration of resources and strategies that complement, rather than conflict, with the need for increased flows is necessary in power planning. NMFS encourages the implementation of measures to improve flows during the period between this proposed rule and a final ruling.

(3) Install adequate headgate and staff gauge structures to control and monitor water usage accurately. Enforce water rights at all water diversions to prevent withdrawals exceeding legal entitlement.

(4) Further evaluate mortality associated with the catch of sub-legal (undersize) Snake River fall chinook salmon in ocean troll fisheries.

(5) Conduct artificial propagation to minimize impacts to Snake River fall chinook salmon. Necessary measures include:

(a) Tag all hatchery reared fall chinook salmon released into the Snake River, Umatilla River and into the Columbia River upstream from the confluence with the Snake River.

(b) Remove marked adult fall chinook salmon returning to the Snake River at fish collection facilities to minimize their escapement to spawning areas and potential introgression with wild Snake River fall chinook salmon.

(c) Allow all unmarked adult fall chinook salmon (potentially wild fish) in the Snake River to escape to spawning areas. Exclude Wild Snake River fall chinook salmon from hatchery broodstock collection at this time.

(6) Manage harvest activities specifically to consider and provide Snake River fall chinook salmon escapement necessary to allow the population to recover.

Critical Habitat

Section 4(a)(3)(A) of the ESA requires that, to the extent prudent and determinable, critical habitat be designated concurrently with the listing of a species. To avoid delaying this listing proposal, NMFS will propose critical habitat in a separate rulemaking.

Public Comments Solicited

To ensure that the final action resulting from this proposal will be as accurate and as effective as possible, NMFS is soliciting comments and suggestions from the public, other concerned governmental agencies, the scientific community, industry, and any other interested parties. Four public hearings have been scheduled (see **DATES** and **ADDRESSES**). The final decision on this proposal will take into consideration the comments and any additional information received by NMFS, and may differ from this proposed rule.

Classification

The 1982 amendments to the ESA (Pub. L. 97–304) in section 4(b)(1)(A), restricted the information that may be considered when assessing species for listing. Based on this limitation of criteria for a listing decision and the opinion in *Pacific Legal Foundation* v. *Andrus*, 657 F.2d 829 (6th Cir., 1981), NMFS has categorically excluded all endangered species listings from environmental assessment requirements of the National Environmental Policy Act (48 FR 4413, February 6, 1984).

The Conference Report on the 1982 amendments to the ESA notes that economic considerations have no relevance to determinations regarding the status of species, and that E.O. 12291 economic analysis requirements, the Regulatory Flexibility Act, and the Paperwork Reduction Act are not applicable to the listing process. Similarly, listing actions are not subject to the requirements of E.O. 12612.

List of Subjects in 50 CFR Part 227

Endangered and threatened species, Exports, Imports, Marine mammals, Transportation.

Dated: June 21, 1991.

Samuel W. McKeen,

Acting Assistant Administrator for Fisheries.

For the reasons set out in the preamble, 50 CFR part 227 is proposed to read as follows:

PART 227—THREATENED FISH OR WILDLIFE

1. The authority citation of part 227 continues to read as follows:

Authority: 16 U.S.C. 1531 *et seq.*

2. In § 227.4, a new paragraph (h) is added to read as follows:

§ 227.4 Enumeration of threatened species.

* * * * *

(h) Snake River fall chinook salmon (*Oncorhynchus tschawytscha*).

3. In subpart C, a new § 227.23 is added to read as follows:

§ 227.23 Snake River fall chinook salmon.

(a) *Prohibitions.* The prohibitions of section 9 of the Act (16 U.S.C. 1538) relating to endangered species apply to the Snake River fall chinook salmon except as provided in paragraph (b) of this section.

VOL
56
ISS
124
JE
27
1991
UMI

(b) *Exceptions.* The exceptions of section 10 of the Act (16 U.S.C. 1539) and other exceptions under the Act relating to endangered species, and the provisions of regulations issued under the Act relating to endangered species (such as the 50 CFR part 222, subpart C—Endangered Fish or Wildlife Permits), also apply to the Snake River fall chinook salmon. This section supersedes other restrictions on the applicability of 50 CFR part 222, including, but not limited to, the restrictions specified in §§ 222.2(a) and 222.22(a) of this chapter.

BILLING CODE 3510-22-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[Docket No. 910649-1149]

Endangered and Threatened Species; Lower Columbia River Coho Salmon

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of determination.

SUMMARY: On June 7, 1990, NMFS received a petition from Oregon Trout, with co-petitioners Oregon Natural Resources Council, the Northwest Environmental Defense Center, American Rivers, and the Idaho and Oregon Chapters of the American Fisheries Society, to list lower Columbia River coho salmon and to designate critical habitat under the Endangered Species Act of 1973, as amended, 16 U.S.C. 1531 *et seq.* (ESA). NMFS published a notice on September 11, 1990 (55 FR 37342), that the petition presented substantial scientific information indicating that the listing may be warranted. NMFS also announced its intention at that time to conduct a status review of lower Columbia River coho salmon and requested comments from any party having relevant information. A Technical Committee comprised of individuals with expertise relevant to lower Columbia River coho salmon, representing public interest groups, Federal and State agencies, Indian tribes, industry and professional societies was convened by NMFS to provide technical information and comment on data in the administrative record. NMFS has evaluated the status of lower Columbia River coho salmon and concluded that available biological evidence indicates that these fish do not constitute a "species" under the ESA and, therefore, a proposal to list is not warranted at this time.

ADDRESSES: Environmental and Technical Services Division, NMFS, Northwest Region, 911 NE. 11th Avenue, suite 620, Portland, OR 97232.

FOR FURTHER INFORMATION CONTACT: Tracey Vriens, Environmental and Technical Services Division, NMFS, Portland, Oregon, 503-230-5420 or FTS-429-5420.

SUPPLEMENTARY INFORMATION: The NMFS Northwest Region Biological Review Team prepared a "Status Review for Lower Columbia River Coho Salmon" providing more detailed information, discussion and references. The status review is available upon request (see **ADDRESSES**), and is summarized below.

Background

Coho salmon (*Oncorhynchus kisutch*) range throughout the temperate waters of the northern Pacific Ocean. The species was once abundant throughout the Columbia River Basin, with naturally spawning populations exceeding 600,000 fish annually. Two-thirds of the historical Columbia River coho salmon production is thought to have originated in the lower Columbia River (LCR). The LCR, for the purposes of this document, is defined as the Columbia River and its tributaries below Bonneville Dam. Columbia River (upstream from John Day Dam) and Snake River coho salmon were drastically reduced or eliminated prior to the 1950s and are now extinct. LCR coho salmon were reduced to less than 5 percent of historic abundance levels by the late 1950s. Excessive harvest and habitat alteration are the primary factors responsible for this decline of Columbia River coho salmon.

This drastic decline in coho salmon abundance precipitated the development of an extensive hatchery program which restored LCR coho salmon adult returns to historic levels, often exceeding 400,000 fish annually during the last 30 years. Intensive hatchery production and the overharvest of wild coho salmon in mixed stock fisheries resulted in their continued decline. The LCR is managed exclusively for the commercial exploitation of hatchery coho salmon.

Consideration as a "Species" Under the ESA

To consider LCR coho salmon for listing, it must qualify as a "species" under the ESA. The ESA defines a "species" to include any "distinct population segment of any species of vertebrate * * * which interbreeds when mature." NMFS published an interim policy (March 13, 1991; 56 FR 10542) on how it will apply the ESA species definition in evaluating Pacific salmon. This policy provides that a salmon population will be considered distinct, and hence a species under the ESA, if it represents an evolutionary significant unit (ESU) of the biological species. The population must satisfy two criteria to be considered an ESU: (1) It must be reproductively isolated from other conspecific population units; and (2) it must represent an important component in the evolutionary legacy of the biological species. The first criterion, reproductive isolation, need not be absolute, but must be strong enough to permit evolutionarily important differences to accrue in different population units. The second criterion would be met if the population contributed substantially to the ecological/genetic diversity of the species as a whole. Further guidance on the application of this policy is contained in the NMFS paper "Definition of Species under the Endangered Species Act: Application to Pacific Salmon" and is available upon request (see **ADDRESSES**).

Regarding the first criterion, available information is not conclusive as to whether LCR coho salmon are reproductively isolated from coastal populations of coho salmon in Washington and Oregon. Available information does not indicate that LCR coho salmon satisfy the second criterion, which stipulates that a population must represent an important component in the evolutionary legacy of the biological species to be considered "distinct" (and hence a "species") for the purposes of the ESA. Information on coho salmon habitat utilization, life-history characteristics, and phenotypic and genetic traits was inconclusive, and did not demonstrate that LCR coho salmon are "distinct" from other wild coho salmon populations.

Special Considerations

The release of hatchery-reared fish into an area inhabited by a wild population, and overharvest, can affect a wild population to such an extent that it does not represent a "distinct" population segment under the ESA. Each of these factors has profoundly affected LCR coho salmon.

Non-indigenous coho salmon stocks have been extensively transferred into the LCR since the 1890s. All of the LCR coho salmon hatchery stocks evaluated exhibited a heritage of coastal or other non-indigenous coho salmon. Although the effect of non-indigenous stock transfers on the genetic character of LCR coho salmon has not been adequately studied, the extent and magnitude of these transfers suggest that significant introgression of non-indigenous stocks has occurred into LCR hatcheries.

Coho salmon have also been extensively transferred from various hatcheries into streams and drainages throughout the LCR. This practice (outplanting) began in the early 1960s and continues today (a period of over ten coho salmon generations) and has resulted in hatchery fish being transferred into practically every accessible stream in the LCR. In 1986, researchers from the Oregon Department of Fish and Wildlife found the density of wild coho salmon in

VOL
56
ISS
124
JE
27
1991
UMI

streams supplemented with hatchery coho salmon fry was reduced by over 40 percent and that the majority of returning adults from the year of the outplants had run-times representative of the hatchery, rather than of the wild population. Thus, outplanting, combined with the high percentage of coho salmon from hatcheries spawning in the wild, likely resulted in significant hatchery introgression of the indigenous population throughout the LCR.

Overharvest has severely affected wild coho salmon indigenous to the LCR. Ocean and in-river harvest rates for LCR coho salmon increased dramatically during the 1960s, and have stabilized at approximately 90 percent. Conservation measures for wild coho salmon indigenous to the LCR were not incorporated into the operation of hatcheries constructed to mitigate the decline in this population. Increased hatchery production, beginning in the 1960s, allowed harvest rates to remain high, and wild LCR coho salmon, already depressed in abundance, were not afforded an opportunity to recover.

Determination

Section 4(b)(1)(a) of the ESA requires that determinations whether any species is threatened or endangered be based solely on the best scientific and commercial information available after conducting a review of the status of the species. NMFS has evaluated the status of LCR coho salmon and determined that available biological evidence does not indicate that these fish represent a "species" under the ESA; therefore, a proposal to list LCR coho salmon under the ESA is not warranted at this time.

[FAR Case 91-26]

Federal Acquisition Regulation; Contractor versus Government Performance

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Proposed rule.

SUMMARY: The Civilian Agency Acquisition Council and the Defense Acquisition Regulatory Council are considering amendments to FAR subpart 7.3 to (a) alert the contracting officer to the possibility of performing a cost comparison for the specific reason that commercial prices were believed to be unreasonable; and (b) make more general the language that pertains to when a cost comparison study must be made, so that future changes to statutes or regulations concerning cost comparisons will not require a change to FAR coverage.

Other changes are made to make the FAR consistent with OMB Circular A-76. Minor technical and editorial changes are also made. In addition, an editorial change is made to the solicitation provision at 52.207-1, and to the prescriptive language for the solicitation provision at 52.207-2. Paragraph (d) of the provision at 52.207-2 is also revised for clarification.

DATES: Comments should be submitted to the FAR Secretariat at the address shown below on or before August 26, 1991; to be considered in the formulation of a final rule.

ADDRESSES: Interested parties should submit written comments to: General Services Administration, FAR Secretariat (VRS), 18th & F Streets, NW., room 4041, Washington, DC 20405. Please cite FAR Case 91-26 in all correspondence related to this issue.

FOR FURTHER INFORMATION CONTACT: Mr. Jack O'Neill at (202) 501-3856 in reference to this FAR case. For general information, contact Ms. Beverly Fayson, FAR Secretariat, room 4041, GS Building, Washington, DC 20405, (202) 501-4755. Please cite FAR Case 91-26.

SUPPLEMENTARY INFORMATION:

A. Background

The Secretary of Defense directed that the Defense Federal Acquisition Regulation Supplement (DFARS) be streamlined and rewritten as part of the DMR Regulatory Reform initiative. This initiative entails deletion of some DFARS language, consolidation of DFARS language, movement of some DFARS language to the FAR, redefinition of policies and procedures, and editing and rewrite of the entire regulation. This particular change proposes revisions to FAR language to correct inconsistencies between FAR subpart 7.3 and OMB Circular A-76 in the area of Government Versus Contract Performance, which were discovered during review of DFARS coverage on this subject.

B. Regulatory Flexibility Act

The proposed rule is not expected to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, because it merely brings existing regulatory language in line with OMB Circular A-76, and imposes no requirements of any kind upon small entities. An Initial Regulatory Flexibility Analysis has, therefore, not been performed. Comments from small entities concerning the affected FAR subpart will also be considered in accordance with section 610 of the Act. Such comments must be submitted separately and cite 5 U.S.C. 601, *et seq.* (FAR Case 91-26) in correspondence.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the proposed changes to the FAR do not impose recordkeeping information collection requirements or collection of information from offerors, contractors, or members of the public which require the approval of OMB under 44 U.S.C. 3501 *et seq.*

List of Subjects in 48 CFR Parts 7 and 52

Government procurement; Contractor versus Government Performance.

Dated: June 20, 1991.

Albert A. Vicchiolla,

Director, Office of Federal Acquisition Policy.

Therefore, it is proposed that 48 CFR parts 7 and 52 be amended as set forth below:

1. The authority citation for 48 CFR parts 7 and 52 continues to read as follows:

Authority: 40 U.S.C. 486(c); 10 U.S.C. chapter 137; and 42 U.S.C. 2473(c).

PART 7—ACQUISITION PLANNING

2. Section 7.300 is revised to read as follows:

7.300 Scope of subpart.

This subpart prescribes policies and procedures for use in acquisitions of commercial or industrial products and services subject to (a) OMB Circular No. A-76 (Revised) (the Circular), Performance of Commercial Activities, and (b) the Supplement to OMB Circular No. A-76.

3. Section 7.302 is amended by revising paragraph (d) to read as follows:

7.302 General.

* * * * * *

(d) Provide that, ordinarily, agencies should not incur the delay and expense of conducting cost comparisons studies when the full-time equivalent Government employees involved are fewer than those specified in law, the Circular, and implementing agency guidance. Cost comparisons may be conducted in these instances if there is reason to believe that commercial prices are unreasonable.

4. Section 7.303 is amended by revising paragraph (b)(1) and adding paragraph (b)(3) to read as follows:

7.303 Determining availability of private commercial sources.

* * * * *

(b) * * *

(1) Synopsizing the requirement in the Commerce Business Daily until a reasonable number of potential sources are identified. If necessary, synopsis shall be submitted up to three times in a 90-day period with a minimum of 30 days between notices (but, when necessary to meet an urgent requirement, this notification may be limited to a total of two notices in a 30-day period with a minimum of 15 days between them).

* * * * *

(3) If sufficient sources are not identified through synopsis or from subparagraph (b)(2) of this section, a finding that no commercial source is available may be made and the cost comparison canceled.

5. Section 7.304 is amended in the introductory text of paragraph (a) by removing the comma appearing between the words "comprehensive" and "performance"; in paragraph (b)(1) by removing from the first line the hyphen in the words "cost-comparison"; and by revising the first sentence in paragraph (c)(1) to read as follows:

7.304 Procedures.

* * * * *

(c) * * *

(1) The contracting officer shall issue a solicitation based on the performance work statement prepared in accordance with paragraph (a) of this subsection.

* * *

* * * * *

7.306 [Amended]

6a. Section 7.306 is amended by removing the hyphen from the words "cost-comparison" in the following places:

(a)(1)(i) through (a)(1)(iii);
(a)(1)(v);
(a)(2);
(a)(4);
(b) introductory text;
(b)(1)(ii);
(b)(2)(ii); and
(b)(3).

b. Paragraph (b)(3) is also amended in the last sentence by removing the words "subparagraph (1) above" and "subparagraph (2) above" and inserting in their place "subparagraph (b)(1) of this section" and "subparagraph (b)(2) of this section", respectively.

7. Section 7.307 is amended by revising paragraph (a) to read as follows:

7.307 Appeals.

(a) The Circular provides that each agency shall establish an appeals procedure for informal administrative review of the initial cost comparison result. The appeals procedure shall provide for an independent, objective review of the initial result by an official at a higher level than the official who approved that result. The purpose is to protect the rights of affected parties and to ensure that final agency determinations are fair, equitable, and in accordance with established policy.

* * * * *

PART 52—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

8. Section 52.207-1 is amended in the clause, in paragraph (b), in the third sentence, by removing the hyphen from the words "cost-comparison" and removing the last sentence; and by revising paragraph (c) to read as follows:

52.207-1 Notice of cost comparison (sealed-bid).

* * * * *

Notice of Cost Comparison (Sealed-Bid) (Date)

* * * * *

(c) The abstract of bids, completed cost comparison form, and detailed data supporting the cost estimate for Government performance will be made available to interested parties for review _____ [*insert a number from 15 to 30, depending on the complexity of the matter (see 7.306(a)(1)(iv)*] working days, beginning with the date the documents are available to interested parties will be provided for this public review. The Government will not make a final determination either for contract or Government performance during this period. During this period, directly affected parties may file with the Contracting Officer written requests, based on specific objections, for administrative review of the cost comparison result under the agency appeals procedure. The appeals procedure shall be used only to resolve questions concerning the calculation of the cost comparison and will not apply to decisions regarding selection of one bidder in preference to another. Agency determinations under the appeals procedure shall be final.

* * * * *

9. Section 52.207-2 is amended in the clause—

a. By removing the hyphen from the words "cost-estimate" and/or "cost-comparison" in paragraph (c) introductory text, first and third sentences; and in the first sentence of paragraphs (c)(1) and (c)(2);

b. By reviewing paragraph (d) to read as follows:

52.207-2 Notice of cost comparison (negotiated).

* * * * *

Notice of Cost Comparison (Negotiated) (Date)

* * * * *

(d) During the public review period, directly affected parties may file with the Contracting Officer written requests, based on specific objections, for administrative review of the cost comparison result under the agency appeals procedure. The appeals procedure shall be used only to resolve questions concerning the calculation of the cost comparison and will not apply to decisions regarding selection of one bidder in preference to another. Agency determinations under the appeals procedure shall be final.

* * * * *

LIST OF PUBLIC LAWS

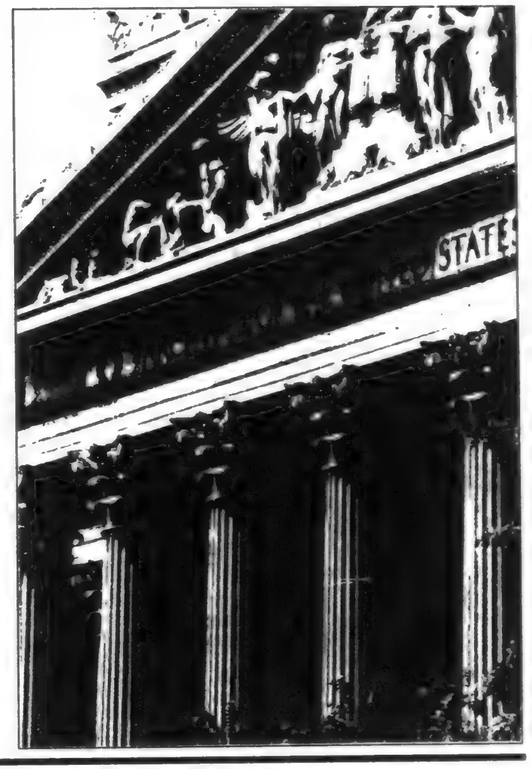
Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's List of Public Laws.

Last List June 26, 1991

Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA (List of CFR Sections Affected)*, the *Federal Register Index*, or both.

LSA • List of CFR Sections Affected



The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected.
$21.00 per year

Federal Register Index

The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.
$19.00 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers.
FR Indexes and the LSA (List of CFR Sections Affected) are mailed automatically to regular FR subscribers.

New edition .... Order now !

For those of you who must keep informed about **Presidential Proclamations and Executive Orders,** there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period April 13, 1945, through January 20, 1989, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1945–1989 period—along with any amendments—an indication of its current status, and, where applicable, its location in this volume.

Published by the Office of the Federal Register, National Archives and Records Administration

The United States Government Manual 1990/91

As the official handbook of the Federal Government, the *Manual* is the best source of information on the activities, functions, organization, and principal officials of the agencies of the legislative, judicial, and executive branches. It also includes information on quasi-official agencies and international organizations in which the United States participates.

Particularly helpful for those interested in where to go and who to see about a subject of particular concern is each agency's "Sources of Information" section, which provides addresses and telephone numbers for use in obtaining specifics on consumer activities, contracts and grants, employment, publications and films, and many other areas of citizen interest. The *Manual* also includes comprehensive name and agency/subject indexes.

Of significant historical interest is Appendix C, which lists the agencies and functions of the Federal Government abolished, transferred, or changed in name subsequent to March 4, 1933.

The *Manual* is published by the Office of the Federal Register, National Archives and Records Administration.

The authentic text behind the news . . .

The Weekly Compilation of Presidential Documents

Administration of George Bush

This unique service provides up-to-date information on Presidential policies and announcements. It contains the full text of the President's public speeches, statements, messages to Congress, news conferences, personnel appointments and nominations, and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. Each issue contains an Index of Contents and a Cumulative Index to Prior Issues.

Separate indexes are published periodically. Other features include lists of acts approved by the President, nominations submitted to the Senate, a checklist of White House press releases, and a digest of other Presidential activities and White House announcements.

Published by the Office of the Federal Register, National Archives and Records Administration.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the Federal Register.

How To Cite This Publication: Use the volume number and the page number. **Example: 55 FR 12345.**

THE FEDERAL REGISTER

WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

NEW ORLEANS, LA

WHEN: July 23, at 9:00 am
WHERE: Federal Building, 501 Magazine St., Conference Room 1120, New Orleans, LA
RESERVATIONS: Federal Information Center 1-800-366-2998

Rules and Regulations

Federal Register
Vol. 56, No. 125
Friday, June 28, 1991

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 981

[FV-91-290IFR]

Handling of Almonds Grown in California; Third Revision of the Salable and Reserve Percentages for the 1990–91 Crop Year

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule with request for comments.

SUMMARY: This interim final rule invites comments on further revision of the salable and reserve percentages for California almonds received by handlers during the 1990–91 crop year. The 1990–91 crop year commenced on July 1, 1990. The Almond Board of California (Board), the agency which locally administers the almond marketing order, unanimously recommended at its May 10, 1991, meeting, the revision of the salable and reserve percentages while keeping the export percentage the same at 0 percent. The salable percentage is increased from 80 to 93 percent, and the reserve percentage is decreased from 20 to 7 percent. This interim final rule is authorized under the marketing order for almonds grown in California. This action is necessary to provide a sufficient quantity of almonds to meet trade demand and carryover needs.

DATES: Effective Date: June 28, 1991. Comments which are received by July 29, 1991 will be considered prior to any finalization of this interim final rule.

ADDRESSES: Interested persons are invited to submit written comments concerning this action. Comments must be sent in triplicate to the Docket Clerk, Marketing Order Administration Branch, F&V, AMS, USDA, room 2525–S, P.O. Box 96456, Washington, DC 20090–6456. Comments should reference the docket number and the date and page number of this issue of the Federal Register and will be available for public inspection in the Office of the Docket Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: Sonia N. Jimenez, Marketing Specialist, F&V, AMS, USDA, Room 2525–S, P.O. Box 96456, Washington, DC, 20090–6456; telephone: (202) 475–5992.

SUPPLEMENTARY INFORMATION: This interim final rule is issued under marketing agreement and Order No. 981 (7 CFR part 981), both as amended, hereinafter referred to as the order, regulating the handling of almonds grown in California. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the Act.

This interim final rule has been reviewed by the U.S. Department of Agriculture (Department) in accordance with Departmental Regulation 1512–1 and the criteria contained in Executive Order 12291 and has been determined to be a "non-major" rule.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 105 handlers of almonds who are subject to regulation under the order and approximately 7,000 producers in the regulated area. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.601) as those having annual receipts of less that $500,000, and small agricultural service firms are defined as those whose annual receipts are less than $3,500,000. The majority of handlers and producers of California almonds may be classified as small entities.

This action decreases the quantity of California almonds which handlers must withhold from normal, competitive markets to meet their reserve obligations under the order for the 1990–91 crop year. The quantity of almonds which handlers must withhold to meet their reserve obligations is decreased from 20 percent to 7 percent of marketable almonds received by handlers for their own accounts during the 1990–91 crop year. The salable percentage of the crop, which could be sold by handlers in any market, is increased from 80 percent to 93 percent. Therefore, this action relaxes restrictions on California almond handlers and does not impose any additional burden or costs on handlers.

The salable, reserve, and export percentages for the 1990–91 almond crop were established in a final rule published in the Federal Register on September 21, 1990 (55 FR 38793). The initial salable percentage was 65 percent, the reserve percentage was 35 percent, and the export percentage was 0 percent. These percentages were established on the basis of two Board recommendations, on June 27 and July 25, 1990, pursuant to §§ 981.47 and 981.49 of the almond marketing order. The Board based its recommendations on the then current estimates of marketable supply and combined domestic and export trade demand for the 1990–91 crop year.

However, on December 3, 1990, the Board met to review the salable and reserve percentages that had been established for the 1990–91 crop year and the supply and demand estimates from which those percentages were derived. At that meeting, the Board unanimously recommended revising the salable and reserve percentages. Pursuant to § 981.48 of the almond marketing order, the Board arrived at its recommendation for revising the salable and reserve percentages by reviewing its estimates of marketable supply and combined domestic and export trade demand for the 1990–91 crop year. Subsequently, an interim final rule revising the salable percentage from 65 to 70 percent and revising the reserve percentage from 35 to 30 percent was published in the Federal Register on February 11, 1991 (56 FR 5308).

At its February 21, 1991, meeting the Board again reviewed the 1990–91 crop year salable and reserve percentages

VOL 56 ISS 125 JE 28 1991 UMI

and the supply and demand estimates from which those percentages were derived. At that meeting, pursuant to § 981.48 of the almond marketing order, the Board unanimously recommended to further revise the almond salable and reserve percentages for, the 1990–91 crop year. A second interim final rule, which further revised the salable percentage from 70 to 80 percent and further revised the reserve percentage from 30 to 20 percent, was published in the March 19, 1991 (56 FR 11499) issue of the **Federal Register**. The March 19 interim final rule revised the February 11 interim final rule by further relaxing restrictions on almond handlers. The comments to the February 11 and the March 19 interim final rules were subsequently addressed, and the March 19 interim final rule was adopted, in a final rule published in the **Federal Register** on May 31, 1991 [56 FR 24678].

The Board made its final review of the 1990–91 crop year salable and reserve percentages at its May 10, 1991, meeting. At that meeting, pursuant to § 981.48 of the almond order, the Board unanimously recommended to increase the salable percentage from 80 percent to 93 percent and to decrease the reserve percentage from 20 percent to 7 percent. The purpose of the increase in the salable percentage is to make a larger quantity of California almonds available for normal markets in order to meet higher adjusted trade demand needs during the remainder of the 1990–91, crop year. The 1991–92 crop year has been estimated at 450 million kernelweight pounds by the California Agriculture Statistics Service. In recent years, the almond industry has shipped well over 450 million kernelweight pounds annually. Therefore, the Board has recommended increasing the salable percentage from 80 percent to 93 percent for the 1990–91 crop year to increase the carryover available in meeting 1991–92 trade demand needs. Finally, the Committee's recommendation to revise the salable and reserve percentages will benefit producers by increasing their returns and benefit handlers by relaxing restrictions and not imposing any additional burden or costs on handlers, such as costs of storing reserve almonds.

The estimates used by the Board on May 10 in reviewing the salable and reserve percentages and in arriving at its latest recommendation are shown below. The Board's July 25, 1990, December 3, 1990, and February 21, 1991, estimates are shown as a basis for comparison.

Estimated Production:				
1. 1990 Production	655.0	655.0	655.0	655.0
2. Loss and Exempt—4%	26.0	26.0	26.0	26.0
3. Marketable Production	629.0	629.0	629.0	629.0
Estimated Trade Demand:				
4. Domestic	190.0	190.0	205.0	205.0
5. Export	375.0	375.0	410.0	410.0
6. Total	565.0	565.0	615.0	615.0
Inventory Adjustment:				
7. Carryin, 7/1/90	215.0	202.0	202.0	202.0
8. Desirable Carryover, 6/30/91	59.0	77.2	90.1	171.0
9. Adjustment (Item 8 minus item 7)	(156.0)	(124.8)	(111.9)	(31.0)
Salable/Reserve:				
10. Adjusted Trade Demand (Item 6 plus item 9)	409.0	440.2	503.1	584.0
11. Reserver (Item 3 minus item 10)	220.0	188.8	125.9	45.0
12. Salable Percentage (Item 10 divided by item 3×100)	65%	70%	80%	93%
13. Reserve Percentage (100 percent minus item 12)	35%	30%	20%	7%

As the chart above illustrates, the Board increased the desirable carryover from 90.1 million kernelweight pounds to 171.0 million kernelweight pounds. The desirable carryover is the quantity of salable almonds deemed desirable to be carried out on June 30, 1991, for early season shipment during the 1991–92 crop year until the 1991 crop is available for market. Incorporating this change in the trade demand calculations increased the adjusted trade demand from 503.1 million kernelweight pounds to 584.0 million kernelweight pounds, which is 93 percent of the 1990–91 crop.

Therefore, this action releases an additional 13 percent of the crop to the salable category immediately, and the remaining 7 percent (45 million kernelweight pounds) of the marketable production from the 1990–91 crop will be withheld by handlers to meet their reserve obligations. Reserve almonds may be sold by the Board, or by handlers under agreement with the Board, to governmental agencies or charitable institutions or for diversion into almond oil, almond butter, animal feed, and other outlets which the Board finds are noncompetitive with existing normal markets for almonds.

The order permits the Board to include normal export requirements with domestic requirements in its estimate of trade demand when recommending the establishment of salable, reserve, and export percentages for any crop year. For the 1990–91 crop year, estimated exports are included in the trade demand. Thus, an export percentage of 0 percent was established by the final rule published in the **Federal Register** on September 21, 1990 (55 FR 38793), and reserve almonds are not eligible for export to normal export outlets. However, handlers may ship their salable almonds to export markets. The export percentage is not changed as a result of this action.

Based on available information, the Administrator of the AMS has determined that the issuance of this interim final rule will not have a significant economic impact on a substantial number of small entities.

After consideration of all relevant matter presented, the Board's recommendation, and other available information, it is found that the revision of section 981.237 so as to change the salable and reserve percentages for almonds during the crop year which began on July 1, 1990, to 93 percent and 7 percent, respectively, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined that it is impractical, unnecessary and contrary to the public interest to give preliminary notice prior to putting this rule into effect, and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because: (1) This action increases the quantity of almonds that may be marketed immediately; (2) this action was discussed at a public meeting; (3) some handlers have exhausted their supply of salable almonds and should be apprised as soon as possible of the increased salable percentage as contained in this interim final rule; (4) this action is a relaxation of a regulation; and (5) this action provides for a 30-day comment period.

List of Subjects in 7 CFR Part 981

Almonds, Marketing agreements, Nuts, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 981 is amended as follows:

PART 981—ALMONDS GROWN IN CALIFORNIA

1. The authority citation for 7 CFR part 981 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

Note: This action will not appear in the annual Code of Federal Regulations.

2. Section 981.237 is revised to read as follows:

§ 981.237 Salable, reserve, and export percentages for almonds during the crop year beginning on July 1, 1990.

The salable, reserve, and export percentages during the crop year beginning on July 1, 1990, shall be 93 percent, 7 percent, and 0 percent, respectively.

Dated: June 21, 1991.

Robert C. Keeney,

Deputy Director, Fruit and Vegetable Division.

BILLING CODE 3410–02–M

7 CFR Part 981

[FV–91–291IFR]

Handling of Almonds Grown in California; Extension of Date for Satisfying Inedible Disposition Obligation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule with request for comments.

SUMMARY: This interim final rule changes the date from July 31, 1991, to August 31, 1991, by which handlers of California almonds must satisfy their 1990–91 crop year inedible disposition obligations. The action was unanimously recommended by the Almond Board of California (Board), the agency responsible for local administration of the federal marketing order for California almonds. This action is based on a unanimous recommendation made by the Board on May 10, 1991, to allow handlers additional time to process almonds which are being released to the salable category under a separate action published on this day in the **Federal Register**.

DATES: Effective Date: June 28, 1991. Comments which are received by July 29, 1991 will be consider prior to any finalization of this interim final rule.

ADDRESSES: Interested persons are invited to submit written comments concerning this action. Comments must be sent in triplicate to the Docket Clerk, Fruit and Vegetable Division, AMS, USDA, room 2525–S, P.O. Box 96456, Washington, DC 20090–6456. All comments should reference the docket number and the date and page number of this issue of the **Federal Register** and will be made available for public inspection in the Office of the Docket Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: Sonia N. Jimenez, Marketing Specialist, Marketing Order Administration Branch, room 2525–S, South Building, F&V, AMS, USDA, P.O. Box 96456, Washington, DC 20090–6456; telephone: (202) 475–5992.

SUPPLEMENTARY INFORMATION: This interim final rule is issued under marketing agreement and Order No. 981 (7 CRR part 981), both as amended, hereinafter referred to as the "order." The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the "Act."

This interim final rule has been reviewed by the U.S. Department of Agriculture (Department) under Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 105 handlers of California almonds subject to regulation under the marketing order for almonds grown in California during the current season. There are approximately 7,000 producers in the regulated area. Small agricultural producers have been defined by the Small Business Administration (13 CRR 121.601) as those having annual receipts of less than $500,000, and small agricultural service firms are defined as those whose annual receipts are less than $3,500,000. The majority of handlers and producers of California almonds may be classified as small entities.

This interim final rule provides handlers of California almonds an additional month to satisfy their 1990–91 crop year inedible disposition obligation. Therefore, this action relaxes restrictions on almond handlers and does not impose any additional burden or costs on handlers.

This interim final rule will revise, for 1991 only, § 981.442 of "Subpart—Administrative Rules and Regulations." The action is based on a unanimous recommendation of the Board and upon other available information.

Section 981.42 of the order provides that handlers are required to deliver a quantity of almond kernels equal to their inedible disposition obligation to the Board or Board accepted crushers, feed manufacturers, or feeders. A handler's inedible disposition obligation is the percentage of inedible kernels in lots received by such handler during a crop year, as determined by the Federal-State Inspection Service (inspection agency), less any tolerance in effect for the crop year. Section 981.42 also provides that the Board may establish rules and regulations necessary to the administration of these provisions.

VOL
56
ISS
125
JE
28
1991
UMI

Section 981.442(a)(5) of such rules and regulations provides that each handler's inedible disposition obligation is satisfied when the almond meat content of the material delivered to accepted users equals the inedible disposition obligation, but no later than July 31 succeeding the crop year in which the obligation was incurred. This action extends the July 31, 1991, date to August 31, 1991, for handlers' disposition obligations incurred during the 1990–91 crop year only.

Handlers have withheld almonds from normal markets as reserve throughout the 1990–91 crop year. Often, this reserve product is held in an unprocessed form. On May 10, 1991, the Board unanimously recommended a further revision of the salable percentage, increasing it from 80 to 93 percent and decreasing the reserve percentage from 20 to 7 percent for California almonds received by handlers during the 1990–91 crop year. The additional 13 percent reserve is being released to the salable category under a separate action published on this day in the **Federal Register**. It may not be possible for handlers of California almonds to process these almonds and sort out the inedibles in time to meet the current July 31 deadline. Extending the date by which handlers of California almonds must satisfy their 1990–91 crop year inedible disposition obligations will allow handlers additional time to process their reserve inventory and, thus, satisfy their obligations.

The Board considered not changing the July 31 date for satisfying the inedible disposition obligation, or utilizing a different date. However, the present date may impose difficulties on those almond handlers whose processing capabilities may not allow them to meet the current July 31 deadline, and possibly lead to violations. No specific alternative dates were discussed since the Board concluded that a 30-day extension was adequate to meet the needs of the almond industry.

Therefore, this action changes the date from July 31, 1991, to August 31, 1991, which will allow almond handlers additional time to process their reserve inventory and thus satisfy their 1990–91 crop year inedible disposition obligations.

Based on the above, the Administrator of the AMS has determined that the issuance of this interim final rule will not have significant economic impact on a substantial number of small entities.

After consideration of all relevant material presented, including the information and recommendation submitted by the Board and other available information, it is found that the change as hereinafter set forth will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined that it is impractical, unnecessary, and contrary to the public interest to give preliminary notice prior to putting this rule into effect, and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because: (1) This action relaxes restrictions on handlers by extending a July 31, 1991, deadline concerning their inedible disposition obligations; (2) this action should be taken as soon as possible before July 31, 1991, so that handlers may plan their operations accordingly; (3) this action was discussed at a public meeting; and (4) this action provides for a 30-day comment period.

List of Subjects in 7 CFR Part 981

Almonds, Marketing agreements, Nuts, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 981 is amended as follows:

PART 981—ALMONDS GROWN IN CALIFORNIA

1. The authority citation for 7 CFR part 981 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

Subpart—Administrative Rules and Regulations

Note: This amendment to this section will not be published in the annual Code of Federal Regulations.

Revise the last sentence in paragraph (a)(5) of § 981.442 to read as follows:

§ 981.442 Quality control.

(a) * * *

(5) * * * Each handler's disposition obligation shall be satisfied when the almond meat content of the material delivered to accepted users equals the disposition obligation, but no later than July 31 succeeding the crop year in which the obligation was incurred: *Provided*, That for the 1990–91 almond crop year, handlers have until August 31, 1991, to satisfy their inedible disposition obligations.

* * * * *

Dated: June 21, 1991.

BILLING CODE 3410–02–M

DEPARTMENT OF THE TREASURY

Office of the Comptroller of the Currency

12 CFR Part 21

[Docket No. 91–6]

Minimum Security Devices and Procedures, Reports of Crimes and Suspected Crimes and Bank Secrecy Compliance

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Final rule.

SUMMARY: The Office of the Comptroller of the Currency ("OCC"), in conjunction with the other federal banking agencies, has reviewed 12 CFR part 21—Minimum Security Devices and Procedures, Reports of Crimes and Suspected Crimes and Bank Secrecy Compliance and has determined that the regulation should be revised to reflect changes in the technology of security devices and to implement changes required by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA"). The OCC published the proposed revisions to part 21 for comment on April 18, 1990 (55 FR 14424). The revisions incorporate the amendments made to the Bank Protection Act of 1968 by FIRREA and provide depository institutions with added flexibility in addressing their security needs. Further, by eliminating numerous technical references to specific security devices, the final rule will avoid the need to periodically revise the regulation to reflect particular advances in security device technology.

EFFECTIVE DATE: July 29, 1991.

FOR FURTHER INFORMATION CONTACT: Frank R. Carbone, National Bank Examiner, Office of the Chief National Bank Examiner (202) 874–5170; Robert J. Roth or Scott R. Pratt, Attorneys, Legal Advisory Services Division (202) 874–5330, Office of the Comptroller of the Currency, Washington, DC 20219.

SUPPLEMENTARY INFORMATION: The Bank Protection Act of 1968 ("Act"), Public Law No. 90–389, 82 Stat. 294 (1968), 12 U.S.C. 1881 *et seq.*, requires the Federal banking agencies (the Comptroller of the Currency, Board of Governors of the Federal Reserve System, Federal Deposit Insurance Corporation, and Office of Thrift Supervision) to issue regulations establishing minimum standards for the installation and operation of bank security devices, and to implement procedures to both discourage crimes against depository institutions and assist in the identification of individuals who commit such acts.

On January 16, 1969, the Federal banking agencies adopted a uniform regulation to implement the Act. (34 FR 612). Aside from certain non-substantive amendments over the years, the regulation has remained largely unchanged since its adoption. The OCC, along with the other Federal banking agencies, requested comments on a proposed revision of this regulation last year. (55 FR 14424, April 18, 1990).

The OCC received a total of fourteen comments on the proposed changes to 12 CFR part 21. Six of these comments were received from banks; three were received from manufacturers of security equipment; and five were received from associations connected with banks (*e.g.*, trade associations). In general, commenters were supportive of the proposed revisions. Five commenters supported elimination of appendix A of the regulation, and four commenters supported elimination of appendix B of the regulation. Three commenters opposed the elimination of these appendices. Only one of the equipment manufacturers opposed the changes. The primary objection of those opposing the changes was that the revised standards, while establishing minimum standards, did not provide sufficient guidance to replace the more detailed appendix A and appendix B. One of the trade associations opposed the deletion of these appendices because, in its view, security officers of small institutions depend on these appendices for guidance.

Appendix A sets forth specifications for security devices to be used in banks. The OCC is deleting this appendix because it is too specific and parts of it have become obsolete. The OCC believes that any standards that continue to reference specific security devices are also likely to become obsolete because bank security technology is continuing to advance at a rapid pace. To avoid the necessity of frequently updating any list of required security devices, the revised regulation requires each bank to designate a security officer to administer a written security program. The regulation requires that, at a minimum, four specific security devices be installed. The revised regulation leaves the determination of which specific additional security devices will best meet the needs of the security program to the discretion of the security officer.

This approach allows the security officer to choose the most up-to-date equipment that meets the requirements of the particular bank. Some commenters recommended referring to Underwriters Laboratory ("UL") approval or American Society for Testing and Materials ("ASTM") specifications as a substitute for appendix A. However, because the level of risk varies from institution to institution, the OCC does not believe that it is appropriate to specify any particular security devices as mandatory. Nevertheless, security officers would be expected to identify the level of risk to their particular institution, take into consideration applicable UL and ASTM standards, and adopt an appropriate security program.

Appendix B concerned proper employee conduct after a robbery. Although this appendix has been eliminated, the OCC believes that employee training should be included in a bank's security program and notes that several organizations offer training programs for bank employees and security officers.

Some letters that were generally supportive of the revisions commented that the regulation should be expanded to encompass "white-collar crime" as well. This regulation, however, is promulgated under the Bank Protection Act, which is specifically intended to "discourage robberies, burglaries, and larcenies." Although the OCC agrees that "white-collar crimes" like fraud and embezzlement are problems, the OCC believes that these crimes are covered by other laws outside the scope of this regulation.

The revised regulation establishes a minimum standard by requiring four specified security devices: (1) A secure space for cash; (2) a lighting system for illuminating the vault; (3) an alarm system; and (4) tamper resistant locks on exterior doors and windows. In addition, the revised regulation establishes the contents of a security program, which must include, among other things, procedures for opening and closing for business, for safekeeping of valuables, and for identifying persons committing crimes. These are the minimum procedures that should comprise a bank's security program. To assist banks in establishing their programs, the regulation suggests certain factors to be considered when selecting additional security devices. In making these suggestions, the OCC notes that in the 22 years since the passage of the Bank Protection Act, trade associations and other vendors have produced security manuals and information designed for banks of various sizes.

To ensure that a bank's security program is reviewed on a regular basis for effectiveness, the regulation requires that the security officer make a report to the bank's board of directors at least annually. This report should be reflected in the minutes of the board meeting in which it is given. FIRREA eliminated the previous requirement that reports must be filed periodically with a bank's primary supervisory agency. Nevertheless, annual reports to the board of directors should still include information such as the status of employee training, the number of offenses aginst the bank, and the success of prosecution for such offenses.

Additionally, the Office of Management and Budget control number for § 21.11 is being revised to reflect the current number.

Regulatory Flexibility Act Analysis

Pursuant to the Regulatory Flexibility Act, 5 U.S.C. 605(b), the Comptroller of the Currency certifies that this final rule will not have a significant economic impact on a substantial number of small entities. Small entities were already complying with the security standards established in the prior regulation. This revision provides significant flexibility in devising security programs, and should help reduce costs to small entities. Requiring that reports be made to the bank's board of directors, rather than requiring reports be sent to the regulator, should also ease the regulatory burden on small entities.

Executive Order 12291

The OCC has determined that this final rule does not constitute a major rule within the meaning of Executive Order 12291 and, therefore, does not require a Regulatory Impact Analysis. This final rule will not have an annual impact on the economy of $100 million or more; would not result in a major increase in the cost of bank operations or government supervision; and would not have a significant adverse effect on competition, employment, investment, productivity, or innovation. Because national banks are required to maintain minimum security devices and procedures under the existing regulation, it is not anticipated that adhering to the revised regulation will prove burdensome to national banks.

VOL 56 ISS 125 JE 28 1991 UMI

Paperwork Reduction Act

The collection of information contained in this final rule has been reviewed and approved by the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. 3505(h)) under the control number 1557-0180. The estimated annual burden for maintaining the written security program may vary from several minutes to an hour or more depending on individual circumstances with an estimated average of .25 hour.

Comments concerning the accuracy of this burden estimate and suggestions for reducing the burden should be directed to the Comptroller of the Currency, Legislative and Regulatory Analysis Division, Office of the Comptroller of the Currency, Washington, DC 20219, and to the Office of Management and Budget, Paperwork Reduction Project (1557-0180), Washington, DC 20503.

List of Subjects in 12 CFR Part 21

Currency, National banks, Reporting and recordkeeping requirements, Security measures.

For the reasons set forth in the preamble, part 21 of chapter I of title 12 of the Code of Federal Regulations is amended as set forth below:

PART 21—[AMENDED]

1. The authority citation for part 21 continues to read as follows:

Authority: 12 U.S.C. 93a, 1818, 1881–1884, 3401–3422.

Subpart A of part 21 is revised to read as follows:

Subpart A—Minimum Security Devices and Procedures

Sec.
21.1 Purpose and scope of subpart A of this part.
21.2 Designation of security officer.
21.3 Security program.
21.4 Report.

Subpart A—Minimum Security Devices and Procedures

§ 21.1 Purpose and scope of subpart A of this part.

(a) This subpart is issued by the Comptroller of the Currency pursuant to section 3 of the Bank Protection Act of 1968 (12 U.S.C. 1882) and is applicable to all national banking associations and all banks located in the District of Columbia subject to the supervision of the Office of the Comptroller of the Currency. It requires each bank to adopt appropriate security procedures to discourage robberies, burglaries, and larcenies and to assist in identifying and apprehending persons who commit such acts.

(b) It is the responsibility of a bank's board of directors to comply with this regulation and ensure that a security program which equals or exceeds the standards prescribed by this part is developed and implemented for the bank's main office and branches (as the term "branch" is used in 12 U.S.C. 36).

§ 21.2 Designation of security officer.

Within 30 days after the opening of a new bank, the Bank's board of directors shall designate a security officer who shall have the authority, subject to the approval of the board of directors, for immediately developing and administering a written security program to protect each banking office from robberies, burglaries, and larcenies and to assist in identifying and apprehending persons who commit such acts.

(Approval by the Office of Management and Budget under control number 1557-0180).

§ 21.3 Security program.

(a) *Contents of security program.* The security program shall:

(1) Establish procedures for opening and closing for business and for the safekeeping of all currency, negotiable securities, and similar valuables at all times;

(2) Establish procedures that will assist in identifying persons committing crimes against the institution and that will preserve evidence that may aid in their identification or conviction; such procedures may include, but are not limited to:

(i) Using identification devices, such as prerecorded serial-numbered bills, or chemical and electronic devices;

(ii) Maintaining a camera that records activity in the banking office; and

(iii) Retaining a record of any robbery, burglary or larceny committed or attempted against a banking office;

(3) Provide for initial and periodic training of employees in their responsibilities under the security program and in proper employee conduct during and after a robbery; and

(4) Provide for selecting, testing, operating and maintaining appropriate security devices, as specified in paragraph (b) of this section.

(b) *Security devices.* Each national bank shall have, at a minimum, the following security devices:

(1) A means of protecting cash or other liquid assets, such as a vault, safe, or other secure space;

(2) A lighting system for illuminating, during the hours of darkness, the area around the vault, if the vault is visible from outside the banking office;

(3) Tamper-resistant locks on exterior doors and exterior windows designed to be opened;

(4) An alarm system or other appropriate device for promptly notifying the nearest responsible law enforcement officers of an attempted or perpetrated robbery, burglary or larceny; and

(5) Such other devices as the security officer determines to be appropriate, taking into consideration:

(i) The incidence of crimes against financial institutions in the area;

(ii) The amount of currency or other valuables exposed to robbery, burglary, or larceny;

(iii) The distance of the banking office from the nearest responsible law enforcement officers and the time required for such law enforcement officers ordinarily to arrive at the banking office;

(iv) The cost of the security devices;

(v) Other security measures in effect at the banking office; and

(vi) The physical characteristics of the banking office structure and its surroundings.

§ 21.4 Report.

The security officer for a national bank shall report at least annually to the bank's board of directors on the effectiveness of the security program. The substance of such report shall be reflected in the minutes of the Board meeting in which it is given.

(Approved by the Office of Management and Budget under control number 1557-0180).

3. In § 21.11, paragraph (f)(1) and the parenthetical at the end of the section are revised to read as follows:

§ 21.11 Reports of crimes and suspected crimes.

* * * * *

(f) *Exemptions.* (1) Banks need not file Criminal Referral Forms for robberies and burglaries committed or attempted at a banking office of a bank if the bank's security program provides for the maintenance of records under § 21.3(a)(2)(iii) documenting any such occurrences.

* * * * *

(Approved by the Office of Management and Budget under control number 1557-0180).

Appendix A and B [Removed]

4. Appendixes A and B to part 21 are removed.

Dated: June 24, 1991.

Robert L. Clarke,

Comptroller of the Currency.

[FR Doc. 91-15509 Filed 6-27-91; 8:45 am]

BILLING CODE 4810-33-M

Office of Thrift Supervision

12 CFR Parts 506, 563 and 568

[No. 91-229]

RIN 1550-AA25

Minimum Security Devices and Procedures

AGENCY: Office of Thrift Supervision, Treasury.

ACTION: Final rule.

SUMMARY: The Office of Thrift Supervision (the "OTS"), in coordination with the other Federal Financial institution supervisory agencies, has reviewed its regulation concerning minimum security devices and procedures, and determined that it is appropriate to revise the regulation to reflect changes in the technology of security devices, and to implement changes made by the Financial Institutions Reform, Recovery and Enforcement Act of 1989 ("FIRREA"), Public Law No. 101-73, 103 Stat. 183. The proposed revision was published for comment by the OTS in March 1990 (55 FR 10247 (March 20, 1990)). The revision incorporates amendments made to the Bank Protection Act of 1968 by FIRREA and provides savings associations with the flexibility to avoid the technical obsolescence that occurred with the existing regulation.

EFFECTIVE DATE: July 29, 1991.

FOR FURTHER INFORMATION CONTACT: Larry A. Clark, Program Manager, Trust, Specialized Programs (202) 906-5628, Office of Thrift Supervision, 1700 G St. NW., Washington, DC 20552.

SUPPLEMENTARY INFORMATION: The Bank Protection Act of 1968 (12 U.S.C. 1881-4) requires the Federal financial institution supervisory agencies to establish minimum standards for security devices and procedures to discourage financial institution crime and to assist in the identification of persons who commit such crimes. To implement this statute a uniform regulation was adopted in 1969 by each of the Federal supervisory agencies—Office of the Comptroller of the Currency, Federal Deposit Insurance Corporation, Board of Governors of the Federal Reserve System, and the Federal Home Loan Bank Board (predecessor to the OTS). With the exception of minor changes in 1973 and 1981, this regulation has not been modified since it was first adopted. The OTS, along with the other Federal financial institution supervisory agencies, requested comments on a proposed revision to this regulation last year. (55 FR 10247 (March 20, 1990)).

The OTS received a total of twelve comments on the proposed changes to its regulation on minimum security devices and procedures. Eight comments were received from savings associations, two from trade associations, and two from manufacturers of security equipment. The OTS also reviewed and considered comments received on the proposed rule by the other Federal financial institution supervisory agencies. Eleven of the twelve comments expressed overall support for the revisions. The opposing comments from a manufacturer of security equipment, expressed concern that the elimination of minimum security standards could among other things expose associations to unnecessary risks. Within the context of overall support, several comments suggested changes to specific sections or subsections of the regulation, many of which were incorporated in this final rule.

One commenter noted that OTS regulations pertaining to reports of crimes, suspected crimes, and unexplained losses (12 CFR 563.180(d)(2)) do not require that OTS Form 366 be submitted for the types of crimes for which a record must be kept under section 568. Since this final rule provides that retaining such a record is a suggested procedure under § 568.3(a)(2)(iii), § 563.180(d)(2) is being amended in order to be consistent with this rule.

Appendix A of the current rule contains specifications for security devices to be used in savings associations. The OTS is deleting this appendix because it is too specific and has become obsolete. The OTS believes that any standards that continue to reference specific security devices are also likely to become obsolete because technology is continuing to advance at a rapid pace. To avoid the necessity of constantly updating required security devices, the revised regulation requires each savings association to designate a security officer to administer a written security program that would require, at a minimum, that four specific security devices be installed, but would leave to the discretion of the security officer the determination of which additional security devices will best meet the needs of the program. In this way the security officer can choose the most up-to-date equipment that meets the requirements of the particular association.

Some commenters recommended referring to Underwriters Laboratory ("UL") approval or ANSI specifications as a substitute for appendix A. Because the level of risk varies from institution to institution, the OTS does not believe that it is appropriate to specify any particular additional security device(s) as mandatory. Nevertheless, OTS expects security officers to identify the level of risk to their institution and adopt an appropriate security program, taking into consideration applicable ANSI and UL standards.

Appendix B specified proper employee conduct after a robbery.

Although this appendix has been eliminated, the OTS believes that training of employees should be included in an association's security program and notes that several organizations offer training programs for employees of financial institutions and security officers.

Some letters that were generally supportive of the revision commented that the regulation was too narrow and should cover "white-collar crime" as well. The OTS's regulation implements the Bank Protection Act, which is specifically intended to "discourage robberies, burglaries, and larcenies." While the OTS agrees that white-collar crimes such as fraud and embezzlement are problems, these crimes are covered by other laws and regulations outside the scope of part 568.

The revised regulation establishes a minimum standard by requiring four specified security devices: A secure space for cash; a lighting system for illuminating the vault; an alarm system; and tamper resistant locks on exterior doors and windows. In addition, the revised regulation establishes the contents of a security program, e.g., procedures for opening and closing for business, for safekeeping of valuables, and for identifying persons committing crimes. These are the minimum procedures that should comprise an association's security program. To assist associations in establishing their program, the regulation suggests certain factors to be considered when selecting additional security devices. In making these suggestions, the OTS notes that in the 22 years since passage of the Bank Protection Act, trade associations and other vendors have produced security manuals and information designed for institutions of various sizes.

To ensure that an association's security program is reviewed on a regular basis for effectiveness, the regulation requires a report by the security officer to the association's board of directors at least annually. This changes the previous requirement, which was eliminated by FIRREA, that reports must be filed periodically with a financial institution's primary supervisory agency. Nevertheless, the

VOL 56 ISS 125 JE 28 1991 UMI

annual reports to the board of directors should still contain information such as the status of employee training, the number of offenses against the association, and the success in prosecution for such offenses.

Regulatory Flexibility Act

Pursuant to section 605(b) of the Regulatory Flexibility Act, the OTS certifies that this final rule will not have a significant economic impact on a substantial number of small entities. Small entities already were complying with the security standards established in the prior regulation, and this revision provides for more flexibility in devising security programs, which should help minimize the existing costs to the institutions. The amendment also replaces required reports to the government with annual reports to the association's board of directors, which should ease the regulatory burden on small institutions.

Executive Order 12291

The OTS has determined that this final rule does not constitute a major rule and, therefore, does not require a Regulatory Impact Analysis.

Paperwork Reduction Act

The collections of information contained in this final rule were submitted to and approved by the Office of Management and Budget ("OMB") at the proposed rule stage, in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3504(h)). OMB has assigned this collection of information OMB Control No. 1550-0062.

The collections of information referenced in this final rule may be found at 12 CFR 568.2 and 568.4. The OTS requires the submission of this information to ensure that savings associations are in compliance with the statutory and regulatory requirements relating to minimum security devices and procedures.

Comments on the collection of information should reference the aforementioned control number and should be sent to the Office of Management and Budget, Paperwork Reduction Project (1550), Washington, DC 20503, with copies to the Office of Thrift Supervision, 1700 G Street NW., Washington, DC 20552.

Authority and Issuance

Accordingly, the OTS hereby amends parts 506, 563, and 568, chapter V, title 12, Code of Federal Regulations, as set forth below:

SUBCHAPTER A—ORGANIZATIONS AND PROCEDURES

PART 506—[AMENDED]

1. The authority citation for part 506 continues to read as follows:

Authority: Section 2(a), 95 Stat. 2812, as amended (44 U.S.C. 3501 *et seq.*), 5 CFR 1320.7

2. Section 506.1 is amended by adding two new entries to the table in paragraph (b) to read as follows:

§ 506.1 OMB control numbers assigned pursuant to the Paperwork Reduction Act.

* * * * *

(b) *Display.*

12 CFR part or section where identified and described	Current OMB control No.
* * * * *	*
568.2	1550-0062
568.4	1550-0062
* * * * *	*

SUBCHAPTER D—REGULATIONS APPLICABLE TO ALL SAVINGS ASSOCIATIONS

PART 563—[AMENDED]

3. The authority citation for part 563 continues to read as follows:

Authority: Sec. 2, 48 Stat. 128, as amended (12 U.S.C. 1462); sec. 3, as added by sec. 301, 103 Stat. 278 (12 U.S.C. 1462a); sec. 4, as added by sec. 301, 103 Stat. 280 (12 U.S.C. 1463); sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); sec. 10, as added by sec. 301, 103 Stat. 318 (12 U.S.C. 1467a); sec. 11, as added by sec. 301, 103 Stat. 342 (12 U.S.C. 1468); sec. 18, 64 Stat. 891, as amended by sec. 321, 103 Stat. 267 (12 U.S.C. 1828); sec. 1204, 101 Stat. 662 (12 U.S.C. 3806); sec. 202, 87 Stat. 982, as amended (42 U.S.C. 4106).

4. Section 563.180 is amended by revising the introductory text to paragraph (d)(2) to read as follows:

§ 563.180 Criminal referrals and other reports or statements.

* * * * *

(d) *Reports of crimes, suspected crimes, and unexplained losses.* * * *

* * * * *

(2) *Filing of reports.* Except as permitted under paragraph (d)(3) of this section, and except where a security program developed under § 568.3(a) of this subchapter provides for the maintenance of a record documenting and robberies, burglaries and non-employee larcenies, a savings association or service corporation shall notify the appropriate law enforcement authorities and the OTS by filing OTS form 366 within 14 business days after discovery of any crime, suspected crime, or unexplained loss suffered by the savings association or service corporation, including:

* * * * *

5. Part 568 is revised to read as follows:

PART 568—SECURITY PROCEDURES

Sec.
568.1 Authority, purpose and scope.
568.2 Designation of security officer.
568.3 Security program.
568.4 Report.

Authority: Secs. 2-6, 82 Stat. 294-296 (12 U.S.C. 1881-1884).

§ 568.1 Authority, purpose, and scope.

(a) This part is issued by the Office of Thrift Supervision (the "OTS") pursuant to section 3 of the Bank Protection Act of 1968 (12 U.S.C. 1882), and is applicable to savings associations. It requires each association to adopt appropriate security procedures to discourage robberies, burglaries, and larcenies and to assist in the identification and prosecution of persons who commit such acts.

(b) It is the responsibility of an association's board of directors to comply with this regulation and ensure that a written security program for the association's main office and branches is developed and implemented.

§ 568.2 Designation of security officer.

Within 30 days after the effective date of insurance of accounts, the board of directors of each savings association shall designate a security officer who shall have the authority, subject to the approval of the board of directors, to develop, within a reasonable time but no later than 180 days, and to administer a written security program for each of the association's offices.

§ 568.3 Security program.

(a) *Contents of security program.* The security program shall:

(1) Establish procedures for opening and closing for business and for the safekeeping of all currency, negotiable securities, and similar valuables at all times;

(2) Establish procedures that will assist in identifying persons committing crimes against the association and that will preserve evidence that may aid in their identification and prosecution. Such procedures may include, but are not limited to:

(i) Maintaining a camera that records activity in the office;

(ii) Using identification devices, such as prerecorded serial-numbered bills, or chemical and electronic devices; and

(iii) Retaining a record of any robbery, burglary, or larceny committed against the association;

(3) Provide for initial and periodic training of officers and employees in their responsibilities under the security program and in proper employee conduct during and after a burglary, robbery, or larceny; and

(4) Provide for selecting, testing, operating and maintaining appropriate security devices, as specified in paragraph (b) of this section.

(b) *Security devices.* Each savings association shall have, at a minimum, the following security devices:

(1) A means of protecting cash and other liquid assets, such as a vault, safe, or other secure space;

(2) A lighting system for illuminating, during the hours of darkness, the area around the vault, if the vault is visible from outside the office;

(3) Tamper-resistent locks on exterior doors and exterior windows that may be opened;

(4) An alarm system or other appropriate device for promptly notifying the nearest responsible law enforcement officers of an attempted or perpetrated robbery or burglary; and

(5) Such other devices as the security officer determines to be appropriate, taking into consideration:

(i) The incidence of crimes against financial institutions in the area;

(ii) The amount of currency and other valuables exposed to robbery, burglary, or larceny;

(iii) The distance of the office from the nearest responsible law enforcement officers;

(iv) The cost of the security devices;

(v) Other security measures in effect at the office; and

(vi) The physical characteristics of the structure of the office and its surroundings.

§ 568.4 Report.

The security officer for each savings association shall report at least annually to the association's board of directors on the implementation, administration, and effectiveness of the security program.

By the Office of Thrift Supervision.

Timothy Ryan,

Director.

BILLING CODE 6720-01-M

Internal Revenue Service

26 CFR Part 31

[T.D. 8354]

RIN 1545-AP62

Membership in a Retirement System—State and Local Government Employees

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations under section 3121(b)(7)(F) of the Internal Revenue Code. The final regulations contain rules for determining whether an employee of a State or local government entity is a member of a retirement system of that entity for purposes of determining whether the employee's wages are subject to tax under the Federal Insurance Contribution Act (FICA). The final regulations reflect the enactment of section 3121(b)(7)(F) by the Omnibus Budget Reconciliation Act of 1990. The final regulations provide State and local government entities with guidance necessary to comply with the law and will affect State and local government entities, their retirement systems and certain of their employees.

EFFECTIVE DATE: These regulations are effective July 1, 1991, and apply to services performed after July 1, 1991.

FOR FURTHER INFORMATION CONTACT: Robin Ehrenberg (202) 377-9372 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Statutory Authority

This document contains final regulations under section 3121(b)(7)(F) of the Internal Revenue Code of 1986 (Code). The final regulations reflect the enactment of section 3121(b)(7)(F) by section 11332 of the Omnibus Budget Reconciliation Act of 1990, Public Law No. 101-508, 104 Stat. 1388 (OBRA 1990). Proposed regulations under section 3121(b)(7)(F) were published in the **Federal Register** on April 10, 1991 (56 FR 14488). A public hearing on the proposed regulations was held May 20, 1991. These regulations are issued under the authority contained in sections 3121 and 7805 of the Code.

Background

Under prior law, service as an employee for a State or local government entity was generally not treated as employment for purposes of the Federal Insurance Contributions Act (FICA), and wages of such an employee were thus generally not subject to FICA tax, unless there was an agreement under section 218 of the Social Security Act in effect between the State and the Secretary of Health and Human Services covering the service. OBRA 1990 amended prior law by adding a new section 3121(b)(7)(F) to the Internal Revenue Code. Section 3121(b)(7)(F) expands the definition of "employment" for FICA tax purposes to include service performed after July 1, 1991, as an employee for a State or local government entity unless the employee is a "member of a retirement system" of such entity. Exceptions are provided for certain emergency workers, election workers, patients in hospitals and other individuals. The rule in section 3121(b)(7)(F) also does not affect prior-law exceptions from employment such as that provided for services performed by certain students employed in public schools, colleges and universities, and certain other groups.

OBRA 1990 made a similar change to corresponding provisions of the Social Security Act. Thus, service by an employee of a State or local government entity who is not a member of a retirement system of such entity after July 1, 1991, will generally be taken into account in determining the employee's eligibility for Social Security and Medicare benefits.

Overview of Regulations

1. Meaning of Retirement System

With the enactment of section 3121(b)(7)(F) and the corresponding provisions of the Social Security Act, the Congress ensured that service by employees of State and local government entities would be covered either under Social Security or under a public retirement system providing meaningful benefits. To facilitate this purpose, the proposed regulations required, as do the final regulations, that in order for service in the employ of a State or local government entity to qualify for the exception from employment under section 3121(b)(7) the employee must be a member of a retirement system that provides at least a minimum level of retirement benefits to that employee.

A defined benefit retirement system maintained by a State or local government entity will generally satisfy

VOL
56
ISS
125
JE
28
1991
UMI

this minimum retirement benefit requirement with respect to an employee if the employee has a total accrued benefit comparable to the basic retirement benefit the employee would have under Social Security, based on his or her total compensation and periods of service with the entity. Generally, early retirement benefits may not be taken into account in determining whether this requirement is satisfied. Similarly, a defined contribution retirement system will generally satisfy this requirement with respect to an employee for a period within a plan year if an allocation equal to at least 7.5 percent of the employee's compensation for the period is made to his or her account.

Under the final regulations, as under the proposed regulations, generally any retirement system that satisfies this minimum retirement benefit requirement may be treated as a retirement system for purposes of section 3121(b)(7)(F). Thus, for example, the fact that a retirement system is not a qualified plan under the Internal Revenue Code is not relevant. Furthermore, benefits provided through employee contributions are taken into account to the same extent as benefits provided through employer contributions. Thus, under some circumstances a plan may be treated as a retirement system even if it is completely funded through elective or after-tax employee contributions.

Concurrently with the issuance of the final regulations, the Internal Revenue Service is issuing a revenue procedure setting forth a number of safe harbor formulas for defined benefit retirement systems pursuant to the authority granted in such regulations. This revenue procedure was previously issued in proposed form as an announcement.

Many comments were received suggesting modifications to the minimum retirement benefit requirement as that rule was set forth in the proposed regulations and proposed revenue procedure. Many of these suggestions have been adopted.

Several comments were received requesting that the determination of whether an employee has a benefit meeting the minimum retirement benefit requirement be based not upon the benefit provided by that employer, but upon the total benefits and service of an employee under the retirement system in which he or she participates. This is of particular significance in those State and local jurisdictions that contribute to large state-wide programs (e.g., public employees retirement systems) providing portability for employees with service relating to more than one contributing employer. The final regulations generally adopt this suggested approach. Thus, if the employee is a participant in a system that is maintained by more than one political subdivision, then the employee's total benefit under the system may be considered, regardless of the fact that the benefit may relate to service with-other than the current employer. This system-wide approach may be used only if all service under the system is considered in determining the employee's retirement benefit.

Many commentators stated that the definition of compensation contained in the proposed regulation and revenue procedure (generally the FICA contribution base) lacked sufficient flexibility for State and local retirement systems to utilize the safe harbors to meet the minimum retirement benefit requirement. The concerns of the commentators focused on the fact that many retirement systems use definitions of compensation that vary in significant respects from the FICA contribution base. For example, several commentators stated that definitions of compensation often exclude one-time payments, such as cashed-out annual leave, that are not representative of an employee's wage history. In addition, definitions of compensation also commonly exclude such extraordinary payments as overtime or bonus pay. In response to these comments, the final regulations provide that the definition of compensation must be at least as inclusive as the base pay of the employee. In addition, the safe harbors under the revenue procedure have been modified so that an employer may use any less inclusive definition of compensation, provided that the benefit percentage (e.g., the 1.5 percent factor) is adjusted to reflect aggregate differences between the definition of compensation under the regulation and the definition of compensation under the system. Thus, for example, under the final regulations, the safe harbor formulas may be met by a system that limits the compensation considered in determining the retirement benefit to an amount lower than the FICA contribution base (e.g., $30,000), provided the benefit level is increased sufficiently.

The final regulations also provide that service and compensation related to an employee's other than full-time employment may, in some cases, be disregarded in determining the employee's required level of benefit. Thus, for example, if a full-time teacher holds another job position with the school system, then whether the benefit of that teacher meets the minimum retirement benefit requirement may (but is not required to) be determined solely by reference to the service and compensation related to the full-time position.

Several comments were received requesting greater flexibility with respect to the service crediting rules contained in the proposed revenue procedure for part-time, seasonal or temporary employees. In response to these comments, this rule has been modified to permit any reasonable service crediting method to be used, provided it does not result in double proration. Thus, a system may prorate the benefit of a part-time, seasonal or temporary employee either on the basis of full-time compensation or on the basis of full-time service, but may not prorate such benefit based on both compensation and service.

The final regulations retain, with certain modifications, the transition rule of the proposed regulations with respect to defined benefit retirement systems. The transition rule provides that the minimum retirement benefit requirement does not apply to defined benefit retirement systems in existence on November 5, 1990 (the date of enactment of OBRA 1990) for plan years beginning before January 1, 1993, unless benefit levels under the system are materially reduced. Under the proposed regulations, a retirement system also could not utilize this transitional relief if there was a material increase in coverage. In response to comments, this provision is not part of the final regulations. Thus, the fact that new participants are added to the retirement system does not affect the transition relief granted the retirement system with respect to employees who participated in the system on November 5, 1990. This transition relief also extends to new participants hired to fill positions of employment that were covered under the system on that date (whether on a mandatory or elective basis). However, the minimum retirement benefit rule does apply to new participants who are in positions that were not covered under the system on the date of enactment of OBRA 1990.

A number of commentators requested transition relief for defined contribution retirement systems. In response to these requests, the final regulations provide that for plan years beginning before January 1, 1993, a defined contribution retirement system that was in existence on the date of enactment of OBRA 1990, may meet the minimum retirement benefit requirement based upon a 6 percent, rather than the usual 7.5 percent, contribution rate. Conditions similar to those that apply to the defined benefit transition rule apply to this rule as well.

2. Meaning of Member

The final regulations retain the general rule set forth in the proposed regulations that an employee is treated as a member of a retirement system only if he or she actually participates in the system and actually has an accrued benefit or actually receives an allocation sufficient to satisfy the minimum retirement benefit requirement. Allocations or accruals that are conditioned on the satisfaction of service, employee election or other requirements are generally not taken into account for this purpose unless and until the employee has actually satisfied those requirements.

The final regulations retain the alternative lookback method of determining membership to provide certainty at the beginning of a calendar year regarding whether an employee will be treated as a member of a retirement system for that year, and to minimize administrative burdens on employers. Under the alternative lookback method, a reasonable belief test is substituted for the lookback test in an employee's first and last years of participation. Thus, for example, a new employee who is admitted to a system on the day he or she is hired but will not accrue a benefit for the first year of participation unless he or she is still employed on the last day of the plan year may be treated as a member of the retirement system throughout the plan year if it is reasonable to believe that the employee will in fact be present on that last day and will accrue a benefit sufficient to satisfy the minimum retirement benefit requirement.

In response to several comments, the final regulations expand the special rule in the first year of participation to allow for a delay in the imposition of FICA taxes with respect to a new employee, in certain cases, until the first day of the second month of service with the employer. This rule is available only with respect to employees who are not part-time seasonal or temporary employees and is adopted to accommodate those systems that do not allow immediate participation in their retirement system and those elective systems that cannot process elections quickly enough to permit immediate participation. This rule of administrative convenience is available only to those employers maintaining a retirement system in which the employee can actually participate by the first day of the second month of service with the employer.

The final regulations also retain, with modifications, the special transition rules provided in the proposed regulations for the period July 1 through December 31, 1991. Under these rules, an employee may generally be treated as a member of a retirement system if it is reasonable to believe that he or she will become a member by January 1, 1992.

Certain commentators were concerned that the transition period did not grant sufficient relief in those instances in which the legislative body did not convene until late 1992 or 1993. The transition rules have been modified in light of these concerns. Thus, in those instances in which a plan amendment is necessary in order to meet the minimum retirement benefit or other requirements of this section, and such amendment may be effectuated only by the action of a legislative body that does not convene during the period July 1 through December 31, 1991, the end of the reasonable reliance period (i.e., December 31, 1991) is extended to the date that is the last day of the first legislative session commencing after December 31, 1991. For example, an employer that expects to establish a system covering a group of employees who are currently not covered by its retirement system may be able to treat those employees as members of a retirement system until the last day of the first legislative session commencing after December 31, 1991, if establishment of the retirement system requires legislation which cannot be enacted until that legislative session.

Part-time, Seasonal and Temporary Employees

Many comments were received on the rules in the proposed regulations relating to part-time, seasonal and temporary employees. Under the proposed regulations, any benefit that is relied upon to meet the minimum retirement benefit requirement is required to be 100-percent nonforfeitable. The final regulations retain this requirement while making certain significant modifications in response to the concerns of State and local governments.

Several commentators suggested that refundable contributions to a retirement system were a reasonable proxy for the nonforfeitable benefit requirement. These commentators pointed out that adoption of a rule permitting satisfaction of the nonforfeitable benefit requirement through guaranteed distributions to employees upon certain events would enhance parity between defined benefit and defined contribution retirement systems under the regulations. In response to these comments, the final regulations contain a rule under which the benefit of a part-time, seasonal or temporary employee is treated as nonforfeitable if, on account of separation from service or death, such employee is unconditionally entitled to a single-sum distribution from the retirement system equal to 7.5 percent of the employee's compensation over the period of covered service, plus interest. In addition, if the benefit of a part-time seasonal or temporary employee is nonforfeitable by reason of this rule, then the special service crediting rules contained in the revenue procedure relating to such employees do not apply. A distribution is considered available on account of separation from service if it is available when an employee retires or reaches normal retirement age after separation from service. Thus, there is no requirement that the distribution occur at the time the employee separates from service. Under a special transition rule, a plan meets this nonforfeitable benefit safe harbor if an employee is unconditionally entitled to a single-sum distribution equal to 6 percent of compensation, rather than the usual 7.5 percent, for any period of credited service beginning after July 1, 1991 and ending on the last day of the plan year beginning in 1992.

Several commentators were concerned about the possible discriminatory effect of the nonforfeitable benefit rule and the fact that it applied only to a discrete group of covered employees. They questioned whether the rule, or its effect, might cause a retirement system to fail to meet the nondiscrimination requirements of section 401(a)(4). The nonforfeitable benefit requirement and the disparate vesting schedules that may result will not, in and of themselves, cause a retirement system to fail to meet the nondiscrimination rules of section 401(a)(4). Similarly, a retirement system that adopts a special accrual rule with respect to part-time, seasonal or temporary employees in order to meet the minimum retirement benefit requirement will not fail to meet the nondiscrimination requirements of section 401(a)(4) solely by reason of that accrual rule.

Some commentators questioned whether the nonforfeitable benefit requirement is met if, under the system, the benefit of a part-time, seasonal or temporary employee can be cashed out without the employee's consent upon separation from service. In response to these inquiries, the final regulations provide that in determining whether a benefit is nonforfeitable for purposes of the part-time, seasonal or temporary rule, rules apply that are similar to those contained in section 411(a)(11). Thus, a system may retain the right to cash-out

VOL
56
ISS
125
JE
28
1991
UMI

the benefit of a part-time, seasonal or temporary employee in certain circumstances without the consent of the employee and still meet the nonforfeitable benefit requirement.

Many commentators requested clarification of the definitions of part-time, seasonal and temporary employees for purposes of the nonforfeitable benefit requirement. In response to these comments, the final regulations incorporate several modifications to the definitions. First, many commentators were concerned that the definition of part-time employee (those individuals normally working 20 hours or less per week) did not provide sufficient guidance with respect to certain school teachers whose employment hours were set by hours in the classroom instead of being based upon total hours worked. In response to these comments, the definition of part-time employee is modified in the case of post-secondary school teachers. These employees will not be considered part-time employees if they normally work at least half of the number of classroom hours defined by the post-secondary educational institution as constituting full-time employment.

Several commentators requested that employers be permitted to aggregate an employee's credited service relating to any employer that maintains the same retirement system for purposes of determining whether an employee is a part-time, seasonal or temporary employee. In general, the final regulations adopt this rule.

In the preamble to the proposed regulations, comments were requested on the definition of temporary employee and those instances where possible contract extensions could be considered in determining whether the length of the contractual arrangement between the employer and the employee exceeded two years. Several comments were received expressing the concern that the rule under the proposed regulations would include too many employees with annual contracts but with long histories of service with the employer. In response to these concerns, under the final regulations, one or more possible contract extensions may be considered if there is a significant likelihood that such extensions will occur. Contract extensions are treated as significantly likely to occur if (i) an average of 80 percent of similarly situated employees have been offered an extension in the immediately preceding two years, or (ii) the past contract renewal history of the particular employee, indicates that the employee is not a temporary employee.

3. Re-hired Annuitants

The proposed regulations provide that a re-hired annuitant may be treated as a member of a retirement system even if the annuitant does not actually receive any additional accruals or allocation to his or her account during a year and even if the annuitant does not have a total accrued benefit under the system sufficient to satisfy the minimum retirement benefit requirement. For this purpose, a re-hired annuitant is defined as any former participant of a State or local retirement system who has previously retired from service with the current employer and is either in pay status under a retirement system maintained by this employer or has reached normal retirement age under such retirement system. This rule has been retained in the final regulations and, in response to numerous requests, the definition of re-hired annuitant has been expanded to include an employee who previously retired from service with another employer maintaining the same retirement system, provided that prior service was in a position that was covered under such system.

Coordination with Medicare

Under current law (section 3121(u)), service as an employee of a State or local government entity is generally treated as employment for purposes of the Medicare portion of FICA taxes, despite the general rule in section 3121(b)(7) excluding such service from the definition of employment. This rule applies only in the case of employees hired on or after April 1, 1986. No such grandfather rule exists under new section 3121(b)(7)(F). Thus, service by an employee that is treated as employment by reason of new section 3121(b)(7)(F) must be treated as employment for purposes of both the Social Security and the Medicare portion of FICA taxes, regardless of when the employee was hired. Similarly, if an employee becomes subject to the Medicare portion of FICA taxes solely because of section 3121(b)(7)(F) (i.e., the employee was hired prior to April 1, 1986, but is not a member of a retirement system) and such employee subsequently becomes covered by a retirement system, the employee will cease to be subject to the Medicare portion of FICA taxes.

Special Analyses

It has been determined that these rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) and the Regulatory Flexibility Act (5 U.S.C. chapter 6) do not apply to these regulations, and, therefore, a final Regulatory Flexibility Analysis is not required. Pursuant to section 7805(f) of the Internal Revenue Code, the notice of proposed rulemaking for the regulations was submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on their impact on small business.

Drafting Information

The principal author of these proposed regulations is Robin Ehrenberg of the Office of the Assistant Chief Counsel (Employee Benefits and Exempt Organizations), Internal Revenue Service. However, personnel from other offices of the Service and Treasury Department participated in their development.

List of Subjects in 26 CFR Part 31

Employment taxes, Fishing vessels, Gambling, Income taxes, Penalties, Pensions, Railroad retirement, Reporting and recordkeeping requirements, Social security, Unemployment compensation.

PART 31—EMPLOYMENT TAXES AND COLLECTION OF INCOME AT SOURCE

Adoption of Amendments to the regulations

Accordingly, 26 CFR part 31 is amended as follows:

Paragraph 1. The authority citation for part 31 is amended by adding the following citation:

Authority: 26 U.S.C. 7805 * * * sec. 31.3121(b)(7)–2 also issued under 26 U.S.C. 3121(b)(7)(F).

Par. 2. A new § 31.3121(b)(7)–2 is added to read as follows:

§ 31.3121(b)(7)–2 Service by employees who are not members of a public retirement system.

(a) *Table of contents.* This paragraph contains a listing of the major headings of this § 31.3121(b)(7)–2.

§ 31.3121(b)(7)–2 Service by employees who are not members of a public retirement system.

(a) Table of contents.
(b) Introduction.
(c) General rule.
(1) Inclusion in employment of service by employees who are not members of a retirement system.
(2) Treatment of individuals employed in more than one position.
(d) Definition of qualified participant.
(1) General rule.
(2) Special rule for part time, seasonal and temporary employees.
(3) Alternative lookback rule.
(4) Treatment of former participants.

(e) Definition of retirement system.
(1) Requirement that system provide retirement-type benefits.
(2) Requirement that system provide minimum level of benefits.
(f) Transition rules.
(1) Application of qualified participant rules during 1991.
(2) Additional transition rules for plans in existence on November 5, 1990.

(b) *Introduction.* Under section 3121(b)(7)(F), wages of an employee of a State or local government are generally subject to tax under FICA after July 1, 1991, unless the employee is a member of a retirement system maintained by the State or local government entity. This section 31.3121(b)(7)–2 provides rules for determining whether an employee is a "member of a retirement system". These rules generally treat an employee as a member of a retirement system if he or she participates in a system that provides retirement benefits, and has an accrued benefit or receives an allocation under the system that is comparable to the benefits he or she would have or receive under Social Security. In the case of part-time, seasonal and temporary employees, this minimum retirement benefit is required to be nonforfeitable.

(c) *General rule*—(1) *Inclusion in employment of service by employees who are not members of a retirement system.* Except in the case of service described in sections 3121(b)(7)(F) (i) through (v), the exception from employment under section 3121(b)(7) does not apply to service in the employ of a State or any political subdivision thereof, or of any instrumentality of one or more of the foregoing that is wholly owned thereby, after July 1, 1991, unless the employee is a member of a retirement system of such State, political subdivision or instrumentality at the time the service is performed. An employee is not a member of a retirement system at the time service is performed unless at that time he or she is a qualified participant (as defined in paragraph (d) of this section) in a retirement system that meets the requirements of paragraph (e) of this section with respect to that employee.

(2) *Treatment of individuals employed in more than one position.* Under section 3121(b)(7)(F), whether an employee is a member of a retirement system is determined on an entity-by-entity rather than a position-by-position basis. Thus, if an employee is a member of a retirement system with respect to service he or she performs in one position in the employ of a State, political subdivision or instrumentality thereof, the employee is generally treated as a member of a retirement system with respect to all service performed for the same State, political subdivision or instrumentality in any other positions. A State is a separate entity from its political subdivisions, and an instrumentality is a separate entity from the State or political subdivision by which it is owned for purposes of this rule. See paragraph (e)(2) of this section, however, for rules relating to service and compensation required to be taken into account in determining whether an employee is a member of a retirement system for purposes of this section. This rule is illustrated by the following examples:

Example 1. An individual is employed full-time by a county and is a qualified participant (as defined in paragraph (d) of this section) in its retirement plan with regard to such employment. In addition to this full-time employment, the individual is employed part-time in another position with the same county. The part-time position is not covered by the county retirement plan, however, and neither the service nor the compensation in the part-time position is considered in determining the employee's retirement benefit under the county retirement plan. Nevertheless, if the retirement plan meets the requirements of paragraph (e) of this section with respect to the individual, the exclusion from employment under section 3121(b)(7) applies to both the employee's full-time and part-time service with the county.

Example 2. An individual is employed full-time by a State and is a member of its retirement plan. The individual is also employed part-time by a city located in the State, but does not participate in the city's retirement plan. The services of the individual for the city are not excluded from employment under section 3121(b)(7), because the determination of whether services constitute employment for such purposes is made separately with respect to each political subdivision for which services are performed.

(d) *Definition of qualified participant*—(1) *General rule*—(i) *Defined benefit retirement systems.* Whether an employee is a qualified participant in a defined benefit retirement system is determined as services are performed. An employee is a qualified participant in a defined benefit retirement system (within the meaning of paragraph (e)(1) of this section) with respect to services performed on a given day if, on that day, he or she is or ever has been an actual participant in the retirement system and, on that day, he or she actually has a total accrued benefit under the retirement system that meets the minimum retirement benefit requirement of paragraph (e)(2) of this section. An employee may not be treated as an actual participant or as actually having an accrued benefit for this purpose to the extent that such participation or benefit is subject to any conditions (other than vesting), such as a requirement that the employee attain a minimum age, perform a minimum period of service, make an election in order to participate, or be present at the end of the plan year in order to be credited with an accrual, that have not been satisfied. The rules of this paragraph (d)(1)(i) are illustrated by the following examples:

Example 1. A State maintains a defined benefit plan that is a retirement system within the meaning of paragraph (e)(1) of this section. Under the terms of the plan, employees in positions covered by the plan must complete 6 months of service before becoming participants. The exception from employment in section 3121(b)(7) does not apply to services of an employee during the employee's 6 months of service prior to his or her initial entry into the plan. The same result occurs even if, upon the satisfaction of this service requirement, the employee is given credit under the plan for all service with the employer (i.e., if service is credited for the 6-month waiting period). This is true even if the employee makes a required contribution in order to gain the retroactive credit. The same result also occurs if the employee can elect to participate in the plan before the end of the 6-month waiting period, but does not elect to do so.

Example 2. A political subdivision maintains a defined benefit plan that is a retirement system within the meaning of paragraph (e)(1) of this section. Under the terms of the plan, service during a plan year is not credited for accrual purposes unless a participant has at least 1,000 hours of service during the year. Benefits that accrue only upon satisfaction of this 1,000-hour requirement may not be taken into account in determining whether an employee is a qualified participant in the plan before the 1,000-hour requirement is satisfied.

(ii) *Defined contribution retirement systems.* Whether an employee is a qualified participant in a defined contribution retirement system is determined as services are performed. An employee is a qualified participant in a defined contribution or other individual account retirement system (within the meaning of paragraph (e)(1) of this section) with respect to services performed on a given day if, on that day, he or she has satisfied all conditions (other than vesting) for receiving an allocation to his or her account (exclusive of earnings) that meets the minimum retirement benefit requirement of paragraph (e)(2) of this section with respect to compensation during any period ending on that day and beginning on or after the beginning of the plan year of the retirement system. This is the case regardless of whether the allocations were made or accrued before the effective date of section

VOL 56 ISS 125 JE 28 1991 UMI

3121(b)(7)(F). This rule is illustrated by the following examples:

Example 1. A State-owned hospital maintains a nonelective defined contribution plan that is a retirement system within the meaning of paragraph (e)(1) of this section. Under the terms of the plan, employees must be employed on the last day of a plan year in order to receive any allocation for the year. Employees may not be treated as qualified participants in the plan before the last day of the year.

Example 2. Assume the same facts as in *Example 1* except that, under the terms of the plan, an employee who terminates service before the end of a plan year receives a pro rata portion of the allocation he or she would have received at the end of the year, e.g., based on compensation earned since the beginning of the plan year. If the pro rata allocation available on a given day would meet the minimum retirement benefit requirement of paragraph (e)(2) of this section with respect to compensation from the beginning of the plan year through that day (or some later day), employees are treated as qualified participants in the plan on that day.

Example 3. A political subdivision maintains an elective defined contribution plan that is a retirement system within the meaning of paragraph (e)(1) of this section. The plan has a calendar year plan year and two open seasons—in December and June—when employees can change their contribution elections. In December, an employee elects not to contribute to the plan. In June, the employee elects (beginning July 1) to contribute a uniform percentage of compensation for each pay period to the plan for the remainder of the plan year. The employee is not a qualified participant in the plan during the period January–June, because no allocations are made to the employee's account with respect to compensation during that time, and it is not certain at that time that any allocations will be made. If the level of contributions during the period July–December meets the minimum retirement benefit requirement of paragraph (e)(2) of this section with respect to compensation during that period, however, the employee is treated as a qualified participant during that period.

Example 4. Assume the same facts as in *Example 3*, except that the plan allows participants to cancel their elections in cases of economic hardship. In October, the employee suffers an economic hardship and cancels the election (effective November 1). If the contributions during the period July–October are high enough to meet the minimum retirement benefit requirement of paragraph (e)(2) of this section with respect to compensation during that period, the employee is treated as a qualified participant during that period. In addition, if the contributions during the period July–October are high enough to meet the requirements for the entire period July–December, the employee is treated as a qualified participant in the plan throughout the period July–December, even though no allocations are made to the employee's account in the last two months of the year. There is no requirement that the period used to determine whether an employee is a qualified participant on a given day remain the same from day to day, as long as the period begins on or after the beginning of the plan year and ends on the date the determination is being made.

(2) *Special rule for part-time, seasonal and temporary employees*—(i) *In general.* A part-time, seasonal or temporary employee is generally not a qualified participant on a given day unless any benefit relied upon to meet the requirements of paragraph (d)(1) of this section is 100-percent nonforfeitable on that day. This requirement may be applied solely to the portion of an employee's benefit under the retirement system attributable to compensation and service while an employee is a part-time, seasonal or temporary employee, provided that such service is taken into account with respect to the remaining portion of the benefit for vesting purposes. Rules similar to the rules in section 411(a)(11) are applicable in determining whether a benefit is nonforfeitable. Thus, a benefit does not fail to be nonforfeitable solely because it can be immediately distributed upon separation of service without the consent of the employee, provided that the present value of the benefit does not exceed $3,500.

(ii) *Treatment of employees entitled to certain distributions upon death or separation from service.* A part-time, seasonal or temporary employee's benefit under a retirement system is considered nonforfeitable within the meaning of paragraph (d)(2)(i) of this section on a given day if on that day the employee is unconditionally entitled under the retirement system to a single-sum distribution on account of death or separation from service of an amount that is at least equal to 7.5 percent of the participant's compensation (within the meaning of paragraph (e)(2)(iii)(B) of this section) for all periods of credited service taken into account in determining whether the employee's benefit under the retirement system meets the minimum retirement benefit requirement of paragraph (e)(2) of this section. An employee will be considered to be unconditionally entitled to a single-sum distribution notwithstanding the fact that the distribution may be forfeitable (in whole or in part) upon a finding of such employee's criminal misconduct. The participant must be entitled to interest on the distributable amount through the date of distribution, at a rate meeting the requirements of paragraph (e)(2)(iii)(C) of this section, as part of the single sum. See paragraph (f)(2)(i)(C) for a transition rule relating to this nonforfeitable benefit safe harbor. The rule of this paragraph (d)(2)(ii) is illustrated by the following example:

Example. An employee is required to contribute 7.5 percent of his or her compensation to a State's defined benefit plan each year. The contribution is "picked up" by the employer in accordance with section 414(h). Under the plan, these amounts plus interest accrued since the date each amount was contributed are refundable to the employee in all cases upon the employee's death or separation from service with the employer. If the interest rate meets the requirements of paragraph (e)(2)(iii)(C) of this section, then the employee's benefits under the plan are considered nonforfeitable and thus meet the requirement of paragraph (d)(2)(i) of this section. Of course, the benefit under the plan must still meet the minimum retirement benefit requirement for defined benefit plans of paragraph (e)(2)(ii) of this section.

(iii) *Definitions of part-time, seasonal and temporary employee*—(A) *Definition of part-time employee.* For purposes of this section, a part-time employee is any employee who normally works 20 hours or less per week. A teacher employed by a post-secondary educational institution (e.g., a community or junior college, post-secondary vocational school, college, university or graduate school) is not considered a part-time employee for purposes of this section if he or she normally has classroom hours of one-half or more of the number of classroom hours designated by the educational institution as constituting full-time employment, provided that such designation is reasonable under all the facts and circumstances. In addition, elected officials and election workers (otherwise described in section 3121(b)(7)(F)(iv) but paid in excess of $100 annually) are not considered part-time, seasonal or temporary employees for purposes of this section. The rules of this paragraph (d)(2)(iii) are illustrated by the following example:

Example. A community college treats a teacher as a full-time employee if the teacher is assigned to work 15 classroom hours per week. A new teacher is assigned to work 8 classroom hours per week. Because the assigned classroom hours of the teacher are at least one-half of the school's definition of full-time teacher, the teacher is not a part-time employee.

(B) *Definition of seasonal employee* For purposes of this section, a seasonal employee is any employee who normally works on a full-time basis less than 5 months in a year. Thus, for example, individuals who are hired by a political subdivision during the tax return season in order to process incoming returns and work full-time over a 3-month period are seasonal employees.

(C) *Definition of temporary employee.* For purposes of this section, a temporary employee is any employee performing services under a contractual arrangement with the employer of 2 years or less duration. Possible contract extensions may be considered in determining the duration of a contractual arrangement, but only if, under the facts and circumstances, there is a significant likelihood that the employee's contract will be extended. Future contract extensions are considered significantly likely to occur for purposes of this rule if on average 80 percent of similarly situated employees (i.e., those in the same or a similar job classification with expiring employment contracts) have had bona fide offers to renew their contracts in the immediately preceding 2 academic or calendar years. In addition, future contract extensions are considered significantly likely to occur if the employee with respect to whom the determination is being made has a history of contract extensions with respect to his or her current position. An employee is not considered a temporary employee for purposes of this rule solely because he or she is included in a unit of employees covered by a collective bargaining agreement of 2 years or less duration.

(D) *Treatment of employees participating in certain systems.* Whether an employee is a part-time, seasonal or temporary employee with respect to allocations or benefits under a retirement system is generally determined based on service in the position in which the allocations or benefits were earned, and does not take into account service in other positions with the same or different States, political subdivisions or instrumentalities thereof. All of an employee's service in other positions with the same or different States, political subdivisions or instrumentalities thereof may be taken into account for purposes of determining whether an employee is a part-time, seasonal or temporary employee with respect to benefits under the retirement system, however, *Provided that*: The employee's service in the other positions is or was covered by the retirement system; all service aggregated for purposes of determining whether an employee is a part-time, seasonal or temporary employee (and related compensation) is aggregated under the system for all purposes in determining benefits (including vesting); and the employee is treated at least as favorably as a full-time employee under the retirement system for benefit accrual purposes. The rule of this paragraph (d)(2)(iii)(D) is illustrated by the following example:

Example. Assume that an employee works 15 hours per week for a county and 10 hours per week for a municipality, and that both of these political subdivisions contribute to the same state-wide public employee retirement system. Assume further that the employee's service in both positions is aggregated under the system for all purposes in determining benefits (including vesting). If the employee is covered under the retirement system with respect to both positions and is treated for benefit accrual purposes at least as favorably as full-time employees under the retirement system, then the employee is not considered a part-time employee of either the county or the municipality for purposes of the nonforfeitable benefit requirement of paragraph (d)(2)(i) of this section.

(3) *Alternative lookback rule*—(i) *In general.* An employee may be treated as a qualified participant in a retirement system throughout a calendar year if he or she was a qualified participant in such system (within the meaning of paragraphs (d) (1) and (2) of this section) at the end of the plan year of the system ending in the previous calendar year. This rule is illustrated by the following examples:

Example 1. A political subdivision maintains a plan that is a retirement system within the meaning of paragraph (e)(1) of this section. An employee is a qualified participant within the meaning of paragraph (d)(1) of this section in the plan on the last day of the plan year ending on May 31, 1995. If the alternative lookback rule is used to determine FICA liability, no such liability exists with respect to the employee or employer for calendar year 1996 by reason of section 3121(b)(7)(F). The same result would apply if the determination is being made with respect to calendar year 1992 and the lookback year was the plan year ending May 31, 1991, even though that plan year ended before the effective date of section 3121(b)(7)(F).

Example 2. A political subdivision maintains an elective defined contribution plan described in section 457(b) of the Code. An employee is eligible to participate in the plan but does not elect to contribute for a plan year. Under the general rule of paragraph (d)(1) of this section, the employee is not a qualified participant in the plan during the plan year because contributions sufficient to meet the minimum retirement benefit requirement of paragraph (e)(2) of this section are not being made. However, if an employee's status as a qualified participant is being determined under the alternative lookback rule, then the employee is a qualified participant for the calendar year in which the determination is being made if he of she was a qualified participant as of the end of the plan year that ended in the previous calendar year.

(ii) *Application in first year of participation.* If the alternative lookback rule is used, an employee who participates in the retirement system may be treated as a qualified participant on any given day during his or her first plan year of participation in a retirement system (within the meaning of paragraph (e)(1) of this section) if and only if it is reasonable on such day to believe that the employee will be a qualified participant (within the meaning of paragraphs (d)(1) and (2) of this section) on the last day of such plan year. In the case of a defined contribution retirement system, the determination of whether the employee is actually (or is expected to be) a qualified participant at the end of the plan year must take into account all compensation since the commencement of participation. See paragraph (d)(3)(iv) of this section. If this reasonable belief is correct, and the employee is a qualified participant on the last day of his or her first plan year of participation, then the exception from employment in section 3121(b)(7) will apply without regard to section 3121(b)(7)(F) to services of the employee for the balance of the calendar year in which the plan year ends. For purposes of this paragraph (d)(3)(ii), it is not reasonable to assume the establishment of a new plan until such establishment actually occurs. In addition, the rule in this paragraph (d)(3)(ii) may not be used to treat an employee as a qualified participant until the employee actually becomes a participant in the retirement system. In the case of a retirement system that does not permit a new employee to participate until the first day of the first month beginning after the employee's commencement of service, or some earlier date, a new employee who is not a part-time, seasonal or temporary employee may be treated as a qualified participant until such date. This 1-month rule of administrative convenience applies without regard to whether the employer has a reasonable belief that the employee will be a qualified participant. The rules of this paragraph (d)(3)(ii) are illustrated by the following examples:

Example 1. A political subdivision maintains a plan that is a retirement system within the meaning of paragraph (e)(1) of this section and uses the alternative lookback rule of this paragraph (d)(3). Under the terms of the plan, service during a plan year is not credited for accrual purposes unless a participant has at least 1,000 hours of service during the year. Assume that an employee becomes a participant. If it is reasonable to believe that the employee will be credited with 1,000 hours of service by the last day of his or her first year of participation and thereby become a qualified participant by reason of accruing a benefit that meets the minimum retirement benefit requirement of paragraph (e)(2) of this section, the services

VOL
56
ISS

1991
UMI

of the employee are not subject to FICA tax from the date of initial participation until the end of that plan year. If the employee is a qualified participant on the last day of his or her first plan year of participation, then the exception from employment for purposes of FICA will apply to services of the employee for the balance of the calendar year in which the plan year ended.

Example 2. Assume the same facts as *Example 1*, except that the employee is a newly hired employee and the plan provides that an employee may not participate until the first day of his or her first full month of employment. Under the 1-month rule of convenience, the employee may be treated as a qualified participant until the first date on which he or she could participate in the plan.

(iii) *Application in last year of participation.* If the alternative lookback rule is used, an employee may be treated as a qualified participant on any given day during his or her last year of participation in a retirement system (within the meaning of paragraph (e)(1) of this section) if and only if it is reasonable to believe on such day that the employee, will be a qualified participant (within the meaning of paragraphs (d)(1) and (2) of this section) on his or her last day of participation. For purposes of this paragraph (d)(3)(iii), an employee's last year of participation means the plan year that the employer reasonably ascertains is the final year of such employee's participation (e.g., where the employee has a scheduled retirement date or where the employer intends to terminate the plan).

(iv) *Special rule for defined contribution retirement systems.* An employee may not be treated as a qualified participant in a defined contribution retirement system under this paragraph (d)(3) if compensation for less than a full plan year or other 12-month period is regularly taken into account in determining allocations to the employee's account for the plan year unless, under all of the facts and circumstances, such arrangement is not a device to avoid the imposition of FICA taxes. For example, an arrangement under which compensation taken into account is limited to the contribution base described in section 3121(x)(1) is not considered a device to avoid FICA taxes by reason of such limitation. See paragraph (e)(2)(iii)(B) of this section for a rule permitting the use of such limitation. This rule is illustrated by the following example:

Example. A political subdivision maintains a defined contribution plan that covers all of its full-time employees and is a retirement system within the meaning of paragraph (e)(1) of this section. Under the plan, a portion of each participant's compensation in the final month of every plan year is allocated to the participant's account. Employees covered under the plan generally may not be treated as qualified participants under the alternative lookback rule for any portion of the calendar year following the year in which such allocation is made.

(v) *Consistency requirement.* Beginning with calendar year 1992, if the alternative lookback rule is used to determine whether an employee is a qualified participant, it must be used consistently from year to year and with respect to all employees of the State, political subdivision or instrumentality thereof making the determination. If a retirement system is sponsored by more than one State, political subdivision or instrumentality, this consistency requirement applies separately to each plan sponsor.

(4) *Treatment of former participants*—(i) *In general.* In general, the rules of this paragraph (d) apply equally to former participants who continue to perform service for the same State, political subdivision or instrumentality thereof or who return after a break in service. Thus, for example, a former employee of a political subdivision with a deferred benefit under a defined benefit retirement system maintained by the political subdivision who is reemployed by the political subdivision but does not resume participation in the retirement system, may continue to be a qualified participant in the system after becoming reemployed if his or her total accrued benefit under the system meets the minimum retirement benefit requirement of paragraph (e)(2) of this section (taking into account all periods of service (including current service) required to be taken into account under that paragraph). See also paragraph (e)(2)(v) of this section for situations in which benefits under a retirement system may be taken into account even though they relate to service for another employer.

(ii) *Treatment of re-hired annuitants.* An employee who is a former participant in a retirement system maintained by a State, political subdivision or instrumentality thereof, who has previously retired from service with the State, political subdivision or instrumentality, and who is either in pay status (i.e., is currently receiving retirement benefits) under the retirement system or has reached nomal retirement age under the retirement system, is deemed to be a qualified participant in the retirement system without regard to whether he or she continues to accrue a benefit or whether the distribution of benefits under the retirement system has been suspended pending cessation of services. This rule also applies in the case of an employee who has retired from service with another State, political subdivision or instrumentality thereof that maintains the same retirement system as the current employer, provided the employee is a former participant in the system by reason of the employee's former employment. Thus, for example, if a teacher retires from service with a school district that participates in a state-wide teachers' retirement system, begins to receive benefits from the system, and later becomes a substitute teacher in another school district that participates in the same state-wide system, the employee is treated as a re-hired annuitant under this paragraph (d)(4)(ii).

(e) *Definition of retirement system*—(1) *Requirement that system provide retirement-type benefits.* For purposes of section 3121(b)(7)(F), a retirement system includes any pension, annuity, retirement or similar fund or system within the meaning of section 218 of the Social Security Act that is maintained by a State, political subdivision or instrumentality thereof to provide retirement benefits to its employees who are participants. Whether a plan is maintained to provide retirement benefits with respect to an employee is determined under the facts and circumstances of each case. For example, a plan providing only retiree health insurance or other deferred welfare benefits is not considered a retirement system for this purpose. The legal form of the system is generally not relevant. Thus, for example, a retirement system may include a plan described in section 401(a), an annuity plan or contract under section 403 or a plan described in section 457(b) or (f) of the Internal Revenue Code. In addition, the Social Security system is not a retirement system for purposes of section 3121(b)(7)(F) and this section. These rules are illustrated by the following examples:

Example 1. Under an employment arrangement, a portion of an employee's compensation is regularly deferred for 5 years. Because a plan that defers the receipt of compensation for a short span of time rather than until retirement is not a plan that provides retirement benefits, this arrangement is not a retirement system for purposes of section 3121(b)(7)(F).

Example 2. An individual holds two positions with the same political subdivision. The wages earned in one position are subject to FICA tax pursuant to an agreement (under section 218 of the Social Security Act) between the Secretary of Health and Human Services and the State in which the political subdivision is located. Because the Social Security system is not a retirement system for purposes of section 3121(b)(7)(F), the exception from employment in section 3121(b)(7) does not apply to service in the other position unless the employee is otherwise a member of a retirement system of such political subdivision.

(2) *Requirement that system provide minimum level of benefits*—(i) *In general.* A pension, annuity, retirement or similar fund or system is not a retirement system with respect to an employee unless it provides a retirement benefit to the employee that is comparable to the benefit provided under the Old-Age portion of the Old-Age, Survivor and Disability Insurance program of Social Security. Whether a retirement system meets this requirement is generally determined on an individual-by-individual basis. Thus, for example, a pension plan that is not a retirement system with respect to an employee may nevertheless be a retirement system with respect to other employees covered by the system.

(ii) *Defined benefit retirement systems.* A defined benefit retirement system maintained by a State, political subdivision or instrumentality thereof meets the requirements of this paragraph (e)(2) with respect to an employee on a given day if and only if, on that day, the employee has an accrued benefit under the system that entitles the employee to an annual benefit commencing on or before his or her Social Security retirement age that is at least equal to the annual Primary Insurance Amount the employee would have under Social Security. For this purpose, the Primary Insurance Amount an individual would have under Social Security is determined as it would be under the Social Security Act if the employee had been covered under Social Security for all periods of service with the State, political subdivision or instrumentality, had never performed service for any other employer, and had been fully insured within the meaning of section 214(a) of the Social Security Act, except that all periods of service with the State, political subdivision or instrumentality must be taken into account (i.e., without reduction for low-earning years).

(iii) *Defined contribution retirement systems*—(A) *In general.* A defined contribution retirement system maintained by a State, political subdivision or instrumentality thereof meets the requirements of paragraph (e)(2)(i) of this section with respect to an employee if and only if allocations to the employee's account (not including earnings) for a period are at least 7.5 percent of the employee's compensation for service for the State, political subdivision or instrumentality during the period. Matching contributions by the employer may be taken into account for this purpose.

(B) *Definition of compensation.* The definition of compensation used in determining whether a defined contribution retirement system meets the minimum retirement benefit requirement must generally be no less inclusive than the definition of the employee's base pay as designated by the employer or the retirement system, provided such designation is reasonable under all the facts and circumstances. Thus, for example, a defined contribution retirement system will not fail to meet this requirement merely because it disregards for all purposes one or more of the following: overtime pay, bonuses, or single-sum amounts received on account of death or separation from service under a bona fide vacation, compensatory time or sick pay plan, or under severance pay plans. Furthermore, any compensation remaining after such amounts are disregarded that is in excess of the contribution base described in section 3121(x)(1) at the beginning of the plan year may also be disregarded. The rules of this paragraph are illustrated by the following example:

Example. A political subdivision maintains an elective defined contribution plan that is a retirement system within the meaning of paragraph (e)(1) of this section. The plan has a calendar year plan year. In 1995, an employee contributes to the plan at a rate of 7.5 percent of base pay. Assume that the employee will reach the maximum contribution base described in section 3121(x)(1) in October of 1995. The employee is a qualified participant in the plan for all of the 1995 plan year without regard to whether the employee ceases to participate at any time after reaching the maximum contribution base.

(C) *Reasonable interest rate requirement.* A defined contribution retirement system does not satisfy this paragraph (e)(2) with respect to an employee unless the employee's account is credited with earnings at a rate that is reasonable under all the facts and circumstances, or employees' accounts are held in a separate trust that is subject to general fiduciary standards and are credited with actual earnings on the trust fund. Whether the interest rate with which an employee's account is credited is reasonable is determined after reducing the rate to adjust for the payment of any administrative expenses. The rule of this paragraph (e)(2)(iii)(C) is illustrated by the following example:

Example. A political subdivision maintains a defined contribution plan described in section 457(b). Under the plan, the accounts of participants are credited annually on the basis of a variable interest rate formula determined as of the beginning of the plan year. The formula requires an interest rate (after adjustment for administrative expense payments) equal to 100 percent of the Applicable Federal Rate for long-term debt instruments. This interest rate constitutes a reasonable rate of interest.

(iv) *Treatment of emloyees employed in more than one position with the same entity.* All service and compensation of an employee with respect to his or her employment with a State, political subdivision or instrumentality thereof must generally be considered in determining whether a benefit meets the requirement of this paragraph (e)(2). However, for individuals employed simultaneously in multiple positions with the same entity, this determination may (but is not required to) be made solely by reference to the service and compensation related to a single position of the employee with the State, political subdivision or instrumentality thereof making the determination, provided that the position is not a part-time, seasonal or temporary position.

(v) *Treatment of employees participating in certain systems.* In general, only compensation from and service for the State, political subdivision or instrumentality thereof that employs the employee (and the allocations or benefits related to such compensation or service) on a given day are considered in determining whether the employee's benefit under the retirement system on that day meets the requirements of this paragraph (e)(2), even if the employee has other allocations or benefits under the same retirement system from service with another State, political subdivision or instrumentality thereof. However, an employee's total allocations or benefits under a retirement system maintained by multiple States, political subdivisions or instrumentalities thereof (including the current employer) may be taken into account if:

(A) The compensation and service on which the additional allocations or benefits are based are also taken into account in determining whether the employee's allocations or benefits satisfy the minimum retirement benefit requirement;

(B) The retirement system takes all service and compensation of the employee in all positions covered by the system into account for all benefit determination purposes; and

(C) If the employee is a part-time, seasonal or temporary employee, he or she is treated under the plan for benefit accrual purposes in as favorable a manner as a full-time employee participating in the system.

(vi) *Additional testing methods.* Additional testing methods may be designated by the Commissioner in revenue procedures, revenue rulings, notices or other documents of general applicability.

(f) *Transition rules*—(1) *Application of qualified participant rules during 1991*—(i) *In general.* An employee may be treated as a qualified participant in a retirement system (within the meaning of paragraph (e)(1) of this section) on a given day during the period July 1 through December 31, 1991, if it is reasonable on that day to believe that he or she will be a qualified participant under the general rule in paragraphs (d)(1) and (2) of this section by January 1, 1992 (taking into account only service and compensation on or after such date). For purposes of this paragraph (f)(1)(i), given the facts and circumstances of a particular case, it may be reasonable to assume that the terms of a plan will be changed or that a new retirement system will be established by the end of calendar year 1991, as long as affirmative steps have been taken to accomplish this result.

(ii) *Extension of reliance period if legislative action required.* If a plan amendment or other action is necessary in order to treat an employee as a member of a retirement system for purposes of this section, such amendment or other action may only be taken by a legislative body that does not convene during the period July 1, 1991, through December 31, 1991, and the other requirements of paragraph (f)(1)(i) of this section are met, the end of the reasonable reliance period (including the rule that service and compensation prior to that date may be disregarded) provided under paragraph (f)(1)(i) of this section is extended from December 31, 1991, to the date that is the last day of the first legislative session commencing after December 31, 1991. These rules are illustrated by the following examples:

Example 1. A State maintains a defined benefit plan that meets the requirements of paragraph (e) of this section. The plan does not cover a particular class of full-time employees as of July 1, 1991. However, in light of the enactment of section 3121(b)(7)(F), State officials administering the plan for the State intend to request that the legislature amend the State statute to include that class of employees in the existing plan and otherwise to modify the terms of the plan to meet the requirements of section 3121(b)(7)(F) and this section. The State legislature meets from January through March each year, and legislative action is required to expand coverage under the plan. State officials administering the plan have publicized the proposed amendment providing for the addition of these employees to the plan. Under the transition rule for 1991, if it is reasonable to believe that the legislature will pass this bill in the 1992 session, service by the employees who will be covered under the plan by reason of the amendment is not treated as employment by reason of section 3121(b)(7)(F) during the period prior to April 1, 1992. This is true regardless of whether the plan provides retroactive coverage for the period July 1, 1991 through March 31, 1992.

Example 2. Assume the same facts as in *Example 1*, except that legislative action is not required in order to expand coverage under the plan, and that publication of the proposed change to the plan occurs in 1991. Assume further that coverage is expanded under the plan to include the new class of full-time employees as of April 1, 1992. Despite this action, in this situation the service by those employees during the period January 1, 1992 through March 31, 1992 is not excluded from "employment" under section 3121(b)(7)(F), and wages for that period are generally subject to FICA taxes even if the plan provides retroactive coverage for any portion of the period July 1, 1991 to March 31, 1992.

(2) *Additional transition rules for plans in existence on November 5, 1990*—(i) *Application of minimum retirement benefit requirement to defined benefit retirement systems in plan years beginning before 1993*—(A) *In general.* A defined benefit retirement system maintained by a State, political subdivision or instrumentality thereof on November 5, 1990, is not subject to the minimum retirement benefit requirement of paragraph (e)(2) of this section for any plan year beginning before January 1, 1993, with respect to individuals who were actually covered under the system on November 5, 1990. Such a retirement system is also not subject to the minimum retirement benefit requirement of paragraph (e)(2) of this section with respect to an employee who becomes a participant after November 5, 1990, if he or she is employed in a position that was covered under the retirement system on November 5, 1990, without regard to whether such coverage was mandatory or elective. A retirement system is not described in this paragraph (f)(2)(i)(A) if there has been a material decrease in the level of retirement benefits under the retirement system pursuant to an amendment adopted subsequent to November 5, 1990. Whether such a material decrease in benefits has occurred is determined under the facts and circumstances of each case. A decrease in benefits is not material to the extent that it does not decrease the benefit payable at normal retirement age. These rules are illustrated by the following examples:

Example 1. The retirement formula under a retirement plan that was in existence on November 5, 1990, is amended to use career average compensation instead of a high 3-year average, without any increase in the benefit formula. This amendment constitutes a material decrease in the level of benefit under the retirement plan. Therefore, the retirement plan is subject to the minimum retirement benefit requirement for the plan year for which the amendment is effective and for all succeeding plan years.

Example 2. A defined benefit retirement plan that was in existence on November 5, 1990, is subsequently amended to include part-time employees. Previously, this class of employees was not covered under the plan either on a mandatory or on an elective basis. The plan is subject to the minimum retirement benefit requirement with respect to the part-time employees because this class of employees was previously excluded from coverage under the retirement plan. Of course, the nonforfeitable benefit rule applies to the benefit relied upon to meet the minimum retirement benefit requirement with respect to any part-time, seasonal or temporary employee covered during this period.

(B) *Treatment in plan years beginning after 1992 of benefits accrued during previous plan years.* The general rule that a defined benefit retirement system meets the minimum retirement benefit requirement on the basis of total benefits and service accrued to date is modified for plans in existence on November 5, 1990. If a defined benefit retirement system in existence on November 5, 1990, does not meet the minimum retirement benefit requirement solely because the benefits accrued for an employee (with respect to whom the system is entitled to relief under paragraph (f)(2)(i)(A) of this section) as of the last day of the last plan year beginning before January 1, 1993, do not meet the minimum retirement benefit requirement of paragraph (e)(2) of this section with respect to service and compensation before that time, then the retirement system will be deemed to comply with the requirements of paragraph (e)(2) of this section if the future service accruals would comply with the requirement of paragraph (e)(2) of this section. If retirement benefits under a retirement system in existence on November 5, 1990 are materially decreased within the meaning of paragraph (f)(2)(i)(A) of this section, then the date the decrease is effective is substituted for January 1, 1993 for purposes of this paragraph. The rule of this paragraph (f)(2)(i)(B) is illustrated by the following example:

Example. A defined benefit plan maintained by a State was in existence on November 5, 1990. It provides a retirement benefit on the last day of the 1992 plan year that is insufficient to meet the requirements of paragraph (e)(2) of this section based on employees' total service and compensation with the State at that time. The plan will nevertheless meet the requirements of paragraph (e)(2) of this section if it is amended to provide benefits sufficient to meet the requirements of paragraph (e)(2) of this section based on employees' service and compensation in plan years beginning after December 31, 1992.

(C) *Treatment of part-time, seasonal or temporary employees.* A defined benefit retirement system is not exempt from the minimum retirement benefit requirement with respect to a part-time, seasonal or temporary employee during the transition period provided in paragraph (f)(2)(i)(A) of this section unless any retirement benefit provided to the employee is 100-percent nonforfeitable within the meaning of paragraph (d)(2) of this section. In determining whether the benefit is nonforfeitable, the special rule in paragraph (d)(2)(ii) of this section is modified in two respects during the transition period: first, the percentage of compensation required to be available for distribution is reduced from 7.5 percent to 6 percent; and second, the period of service with respect to which compensation must be determined is modified to include all periods of participation by the employee in the system since July 1, 1991.

(ii) *Application of minimum retirement benefit requirement to defined contribution retirement systems in plan years beginning before 1993.* A defined contribution retirement system maintained by a State, political subdivision or instrumentality thereof on November 5, 1990, meets the minimum retirement benefit requirement of paragraph (e) (2) of this section with respect to an employee for any plan year beginning before January 1, 1993, if mandatory allocations to the employee's account (not including earnings) for a period are at least 6 percent (rather than 7.5 percent) of the employee's compensation for service to the State, political subdivision or instrumentality during the period, and the plan otherwise meets the requirements of paragraph (e)(2)(iii) of this section. This transition rule is only available with respect to an employee who is actually covered under the system on November 5, 1990, and to an employee who becomes a participant after November 5, 1990, if he or she is employed in a position that was covered under the retirement system on November 5, 1990, without regard to whether such coverage was mandatory or elective. In addition, this transition rule is not available with respect to a part-time, seasonal or temporary employee unless the mandatory allocation required under this paragraph (f)(2)(ii) is 100-percent nonforfeitable within the meaning of paragraph (d)(2) of this section. A retirement system is not described in this paragraph (f)(2)(ii) if there has been a material decrease in the level of retirement benefits under the retirement system pursuant to an amendment adopted subsequent to November 5, 1990. Whether such a material decrease in benefits has occurred is determined under all the facts and circumstances.

(iii) *Application of qualified participant rules.* A participant with respect to whom relief is granted under paragraph (f)(2)(i)(A) of this section may be treated as a qualified participant in the defined benefit retirement system on a given day if, on that day, he or she is actually a participant in the retirement system, and, on that day, it is reasonable to believe that the participant will actually accrue a benefit before the end of the plan year of such retirement system in which the determination is made. A participant is not treated as accruing a benefit for purposes of this rule if his or her accrued benefits increase solely as a result of an increase in compensation. However, an employee is treated as a qualified participant for a plan year if the employee meets all of the applicable conditions for accruing the maximum current benefit for such year but fails to accrue a benefit solely because of a uniformly applicable benefit limit under the plan. In addition, an employee may be treated as a qualified participant in the system on a given day if the employee is a re-hired annuitant within the meaning of paragraph (d)(4)(ii) of this section. This rule is illustrated by the following example:

Example. A political subdivision maintains a defined benefit plan that is a retirement system within the meaning of paragraph (e)(1) of this section but does not meet the requirements of paragraph (e)(2) of this section. If the plan is not subject to the minimum retirement benefit requirement, an employee who is a participant in the retirement plan as of the end of a plan year beginning before January 1, 1993, and may reasonably be expected to accrue a benefit under the plan by the end of such plan year may be treated as a qualified participant in the plan throughout the plan year regardless of the actual amount of the accrual.

Fred T. Goldberg, Jr.,

Commissioner of Internal Revenue.

Approved June 13, 1991.

Kenneth W. Gideon,

Assistant Secretary of the Treasury.

BILLING CODE 4830-01-M

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Part 1610

Availability of Records

AGENCY: Equal Employment Opportunity Commission.

ACTION: Final rule.

SUMMARY: The Equal Employment Opportunity Commission (EEOC) is revising its Freedom of Information Act (FOIA) regulations to include procedures for obtaining records maintained under the Americans with Disabilities Act, 42 U.S.C. 12101 *et seq.*, and predisclosure notification procedures for confidential commercial information. The Commission also is making several nonsubstantive administrative changes.

EFFECTIVE DATE: June 28, 1991.

FOR FURTHER INFORMATION CONTACT: Nicholas M. Inzeo, Acting Associate Legal Counsel, Kathy Oram, Senior Attorney, or Maia Caplan, Attorney, (202) 663-4669 (voice) or (202) 663-7026 (TDD).

Copies of this final rule are available in the following alternate formats: Large print; braille; electronic file on computer disk; and audio-tape. Copies may be obtained from the Office of Equal Employment Opportunity by calling (202) 663-4395 (voice) or (202) 663-4399 (TDD).

SUPPLEMENTARY INFORMATION: The Commission published a notice of proposed rulemaking on March 14, 1991, proposing to revise its regulations under the Freedom of Information Act, 5 U.S.C. 552. 56 FR 10847. The proposed rule amended the regulation to encompass records maintained pursuant to the Americans with Disabilities Act of 1990 (ADA), 42 U.S.C. 12101 *et seq.*, added a new § 1610.19 on predisclosure notification procedures for confidential commercial information, and made a number of other clarifying changes. The Commission received one comment on the proposed amendments. In response to concerns voiced by the commenter, § 1610.19, as initially proposed, is hereby modified in two respects. Instead of uniformly requiring certification of confidentiality, the regulations seek certification "whenever possible." Additionally, the section now provides the Commission with discretion to select, on a case-by-case basis, deadlines for submitters to respond to Commission notices of requests for confidential commercial information; this will allow designation of response dates in light of the quantity of

VOL 56 ISS 125 JE 28 1991 UMI

documents to be reviewed and any other relevant circumstances.

We have also made minor editorial changes to increase clarity and to insure consistency, clarified two statutory citations and changed three office addresses. In all other respects, the Commission is adopting the proposed amendments to part 1610 as a final rule.

For the Commission.

Evan J. Kemp, Jr.,

Chairman.

Accordingly, 29 CFR part 1610 is amended as follows.

1. The authority citation for 29 CFR part 1610 is revised to read as follows:

Authority: 42 U.S.C. 2000e–12(a), 5 U.S.C. 552, as amended by Pub. L. 93–502 and Pub. L. 99–570; for § 1610.15, nonsearch or copy portions are issued under 31 U.S.C. 9701.

2. Section 1610.4 is amended by revising paragraph (c) to read as follows:

§ 1610.4 Public reference facilities and current index.

§ 1610.5 [Amended]

3. Section 1610.5 is amended by removing paragraph (d).

4. Section 1610.7 is amended by revising (a) to read as follows:

§ 1610.7 Where to make request; form.

(a) Requests for the following types of records shall be submitted to the regional attorney for the pertinent district, area or local office, at the district office address listed in § 1610.4(c) or, in the case of the Washington Field Office, shall be submitted to the regional attorney in the Baltimore District Office at the address listed in § 1610.4(c):

(1) Information about current or former employees of a field office;

(2) Existing non-confidential statistical data related to the case processing of a field office;

(3) Agreements between the Commission and state or local fair employment agencies operating within the jurisdiction of a field office; or

(4) Materials in field office investigative files related to charges under: Title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e *et seq*); the Equal Pay Act (29 U.S.C. 206(d)); the Age Discrimination in Employment Act of 1967 (29 U.S.C. 621 *et seq.*); or, the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*).

* * * * *

§§ 1610.7—1610.9, 1610.13 and 1610.14 [Amended]

5. Sections 1610.7, 1610.8, 1610.9, 1610.13, and 1610.14 are amended by removing the words "Deputy Legal Counsel" and adding, in their place, the words "Legal Counsel."

6. Section 1610.10 is amended by revising paragraphs (a) and (b) as follows:

§ 1610.10 Responses: form and content.

(a) Once a requested record is identified and available, the requester will be notified of when and where the record will be made available and the cost assessed for processing the request. Fees for processing requests will be determined in accordance with the schedule set forth in § 1610.15. Checks shall be made payable to the Treasurer of the United States.

(b) A reply denying a written request for a record shall be in writing, signed by the Legal Counsel's designee, or the appropriate regional attorney, and shall include:

(1) His or her name and title;

(2) A reference to the specific exemption under the Freedom of Information Act authorizing the withholding of the record and a brief explanation of how the exemption applies to the record withheld, or a statement that, after diligent effort, the requested records have not been found or have not been adequately examined during the time allowed under § 1610.9(a), and that the denial will be reconsidered as soon as the search or examination is complete; and

(3) A statement that the denial may be appealed to the Legal Counsel within 30 days of receipt of the denial or partial denial.

* * * * *

§§ 1610.8, 1610.9 and 1610.11 [Amended]

7. Section 1610.8, 1610.9 and 1610.11 are amended by removing the words "Deputy Legal Counsel or designee" and replacing them with "Legal Counsel's designee."

8. Section 1610.11 is amended by revising the title and adding a new paragraph (f) as follows:

§ 1610.11 Appeals to the Legal Counsel from initial denials.

* * * * *

(f) In the event that the Commission terminates its proceedings on a charge after the regional attorney denies a request for the charge file but during consideration of the requester's appeal from that denial, the request may be remanded to the appropriate Regional Attorney for redetermination. The requester retains a right to appeal to the Legal Counsel from the decision on remand.

9. Section 1610.17 is amended as follows:

(a) Paragraphs (f) and (g) are redesignated as paragraphs (g) and (h).

(b) Paragraph (f) is added to read as follows:

§ 1610.17 Exemptions.

* * * * *

(f) Section 107 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12117) explicitly adopts the powers, remedies, and procedures set forth in sections 706 and 709 of title VII. Accordingly, the prohibitions on disclosure contained in section 706 and 709 of title VII as outlined in paragraph (b), (c), (d), and (e) of this section, apply with equal force to requests for information related to charges and executed statistical reporting forms filed with the Commission under the Americans with Disabilities Act.

* * * * *

10. Section 1610.18 is revised to read as follows:

§ 1610.18 Information to be disclosed.

The Commission will provide the following information to the public:

(a) The Commission will make available for inspection and copying certain tabulations of aggregate industry, area, and other statistics derived from the Commission's reporting programs authorized by section 709(c) of title VII, provide that such tabulations: Were perviously compiled by the Commission and are available in documentary form; comprise an aggregation of data from not less than three responding entities; and, do not reveal the identity of an individual or dominant entity in a particular industry or area;

(b) All blank forms used by the Commission;

(c) Subject to the restrictions and procedures set forth in § 1610.19, all signed contracts, final bids on all signed contracts, and agreements between the Commission and state or local agencies charged with the administration of state or local fair employment practices laws;

(d) All final reports that do not contain statutorily confidential material in a recognizable form;

(e) All agency correspondence to members of the public, Members of Congress, or other persons not government employees or special government employees, except those containing information that would produce an invasion of privacy if made public;

(f) All administrative staff manuals and instructions to staff that affect members of the public unless the materials are promptly published and copies offered for sale; and

(g) All final votes of each Commissioner, for every Commission meeting, except for votes pertaining to filing suit against respondents until such litigation is commenced.

§ 1610.21 [Redesignate from § 1610.20]

11. Section 1610.20 is redesignated § 1610.21.

§ 1610.20 [Redesignated from § 1610.19]

12. Section 1610.19 is redesignated § 1610.20.

13. Section 1610.19 is added to read as follows:

§ 1610.19 Predisclosure Notification Procedures for Confidential Commercial Information.

(a) *In general.* Commercial information provided to the Commission shall not be disclosed except in accordance with this section. For the purposes of this section, the following definitions apply:

(1) "Confidential commercial information" refers to records provided by a submitter containing information that is arguably exempt from disclosure under 5 U.S.C. 552(b)(4), because disclosure could reasonably be expected to cause substantial competitive harm.

(2) "Submitter" refers to any person or entity who provides confidential commercial information to the government. The term includes, but is not limited to, corporations, state governments, and foreign governments.

(b) *Notice to submitter.* Except as provided in paragraph (g) of this section, the Commission shall provide a submitter with explicit notice of a FOIA request for confidential commercial records whenever:

(1) The Commission reasonably believes that disclosure could cause substantial competitive harm to the submitter;

(2) The information was submitted prior to January 1, 1988, the records are less than 10 years old, and the submitter designated them as commercially sensitive; or

(3) The information was submitted after January 1, 1988, and the submitter previously, in good faith, designated the records as confidential commercial information. Such designations shall:

(i) Whenever possible, include a statement or certification from an officer or authorized representative of the company that the information is in fact confidential commercial information and has not been disclosed to the public; and

(ii) Expire ten years from the date of submission unless otherwise justified.

(c) *Notice to requester.* When notice is given to a submitter under this section, the requester shall be notified that notice and opportunity to comment are being provided to the submitter.

VOL
56
ISS
125
JE
28
1991
UMI

(d) *Opportunity of submitter to object.* When notification is made pursuant to paragraph (b) of this section, the Commission shall afford the submitter a minimum of five working days to provide it with a detailed statement of objections to disclosure. Such statement shall provide precise identification of the exempted information, and the basis for claiming it as a trade secret or as confidential information pursuant to 5 U.S.C. 552(b)(4), the disclosure of which is likely to cause substantial harm to the submitter's competitive position.

(e) *Notice of intent to disclose.* (1) The Commission shall consider carefully the objections of a submitter provided pursuant to paragraph (d) of this section. When the Commission decides to disclose information despite such objections, it shall provide the submitter with a written statement briefly explaining why the objections were not sustained. Such statement shall be provided a minimum of three working days prior to the specified disclosure date, in order that the submitter may seek a court injunction to prevent release of the records if it so chooses.

(2) When a submitter is notified pursuant to paragraph (e)(1) of this section, notice of the Commission's final disclosure determination and proposed release date shall also be provided to the requester.

(f) *Notice of lawsuit.* Whenever a requester brings suit seeking to compel disclosure of confidential commercial information, the Commission shall promptly notify the submitter of the legal action.

(g) *Exceptions to the notice requirement.* The notice requirements of this section shall not apply if:

(1) The Commission determines that the information shall not be disclosed;

(2) The information is published or otherwise officially available to the public;

(3) Disclosure of the information is required by law (other than 5 U.S.C. 552).

BILLING CODE 6570-06-M

29 CFR Part 1611

Privacy Act of 1974

AGENCY: Equal Employment Opportunity Commission.

ACTION: Final rule.

SUMMARY: The Equal Employment Opportunity Commission is revising its regulations at 29 CFR part 1611, which implement the Privacy Act of 1974. These regulations set forth the procedures whereby individuals can request information about, access to, or amendments of records pertaining to them that are contained in a system of records established or maintained by the Commission. They also set forth the procedures to be followed in processing those requests. The amendments update the regulations, delegate authority, clarify the appeal process and exempt two EEOC systems of records from some of the Act's requirements.

EFFECTIVE DATE: June 28, 1991.

FOR FURTHER INFORMATION CONTACT: Nicholas M. Inzeo, Acting Associate Legal Counsel, Thomas J. Schlageter, Acting Assistant Legal Counsel or Kathleen Oram, Senior Attorney, at (202) 663-4670 (voice) or (202) 663-7026 (TDD).

Copies of this final rule are available in the following alternate formats: Large print, braille, electronic file on computer disk, and audio-tape. Copies may be obtained from the Office of Equal Employment Opportunity by calling (202) 663-4395 (voice) or (202) 663-4399 (TDD).

SUPPLEMENTARY INFORMATION: Pursuant to section (f) of the Privacy Act of 1974, 5 U.S.C. 552a(f), each agency that maintains a system of records must promulgate rules in accordance with the Administrative Procedure Act, 5 U.S.C. 553, establishing procedures and requirements for carrying out the provisions of the Privacy Act. The Commission published a notice of proposed rulemaking on March 14, 1991, proposing to amend its Privacy Act regulations to update them and to make other administrative and editorial changes. 56 FR 10850.

The Commission proposed to exempt government-wide system EEOC/GOVT-1 from subsections (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), (e)(4)(I) and (f) of the Privacy Act and to expand the existing exemption for system EEOC-1 to include exemption from sections (e)(4)(G) and (e)(4)(I) of the Privacy Act in order to parallel the exemption for system EEOC-8. It also proposed to delegate authority for processing appeals under the Privacy Act from the Chairman of the Commission to the Legal Counsel or the Legal Counsel's designee; to clarify the procedures for requests and appeals pertaining to records maintained in system EEOC/GOVT-1, EEOC's only government-wide system of records; to add the locations of EEOC maintained records covered by General Services Administration, Merit Systems Protection Board, Office of Government Ethics and Department of Labor government-wide systems and provide information regarding how and where to appeal denials under those systems; and to change the charge for copying of documents from $.05 per page to $.15 per page to conform with the Commission's Freedom of Information Act regulation, 29 CFR 1610.15.

We did not receive any comments on the proposed changes. This final rule, therefore, adopts the amendments proposed in the notice of proposed rulemaking without change.

List of Subjects in 29 CFR Part 1611

Privacy Act.

For the Commission.

Evan J. Kemp, Jr.,

Chairman.

Accordingly, 29 CFR part 1611 is amended as follows:

PART 1611—PRIVACY ACT REGULATIONS

1. The citation authority for part 1611 continues to read as follows:

Authority: 5 U.S.C. 552a.

2. Section 1611.1 is revised to read as follows:

§ 1611.1 Purpose and scope.

This part contains the regulations of the Equal Employment Opportunity Commission (the Commission) implementing the Privacy Act of 1974, 5 U.S.C. 552a. It sets forth the basic responsibilities of the Commission under the Privacy Act (the Act) and offers guidance to members of the public who wish to exercise any of the rights established by the Act with regard to records maintained by the Commission. All records contained in system EEOC/GOVT-1, including those maintained by other agencies, are subject to the Commission's Privacy Act regulations. Requests for access to, an accounting of disclosures for, or amendment of records in EEOC/GOVT-1 must be processed by agency personnel in accordance with this part. Commission records that are contained in a government-wide system of records established by the U.S. Office of Personnel Management (OPM), the General Services Administration (GSA), the Merit Systems Protection Board (MSPB), the Office of Government Ethics (OGE) or the Department of Labor (DOL) for which those agencies have published systems notices are subject to the publishing agency's Privacy Act regulations. Where the government-wide systems notices permit access to these records through the employing agency, an individual should submit requests for access to, for amendment of or for an accounting of disclosures to the Commission offices as indicated in § 1611.3(b).

3. Section 1611.3 is amended by revising paragraphs (a) and (b) to read as follows:

§ 1611.3 Procedures for requests pertaining to individual records in a record system.

(a) Any person who wishes to be notified if a system of records maintained by the Commission contains any record pertaining to him or her, or to request access to such record or to request an accounting of disclosures made of such record, shall submit a written request, either in person or by mail, in accordance with the instructions set forth in the system notice published in the **Federal Register**. The request shall include:

(1) The name of the individual making the request;

(2) The name of the system of records (as set forth in the system notice to which the request relates);

(3) Any other information specified in the system notice; and

(4) When the request is for access to records, a statement indicating whether the requester desires to make a personal inspection of the records or be supplied with copies by mail.

(b) Requests pertaining to records contained in a system of records established by the Commission and for which the Commission has published a system notice should be submitted to the person or office indicated in the system notice. Requests pertaining to Commission records contained in the government-wide systems of records listed below should be submitted as follows:

(1) For systems OPM/GOVT-1 (General Personnel Records), OPM/GOVT-2 (Employee Performance File System Records), OPM/GOVT-3 (Records of Adverse Actions and Actions Based on Unacceptable Performance), OPM/GOVT-5 (Recruiting, Examining and Placement Records), OPM/GOVT-6 (Personnel Research and Test Validation Records), OPM/GOVT-9 (Files on Position Classification Appeals, Job Grading Appeals and Retained Grade or Pay Appeals), OPM/GOVT-10 (Employee Medical File System Records) and DOL/ESA-13 (Office of Workers' Compensation Programs, Federal Employees' Compensation File), to the Director of Personnel Management Services, EEOC, 1801 L Street, NW., Washington, DC 20507;

(2) For systems OGE/GOVT-1 (Executive Branch Public Financial Disclosure Reports and Other Ethics Program Records), OGE/GOVT-2 (Confidential Statements of Employment and Financial Interests) and MSPB/GOVT-1 (Appeal and Case Records), to the Legal Counsel, EEOC, 1801 L Street, NW., Washington, DC 20507;

(3) For system OPM/GOVT-7 (Applicant Race, Sex, National Origin, and Disability Status Records), to the Director of the Office of Equal Employment Opportunity, EEOC, 1801 L Street, NW., Washington, DC 20507;

(4) For systems GSA/GOVT-3 (Travel Charge Card Program) and GSA/GOVT-4 (Contracted Travel Services Program) to the Director of Financial and Resource Management Services, EEOC, 1801 L Street, NW., Washington, DC 20507.

* * * * *

4. Section 1611.5 is amended as follows:

(a) Paragraph (a)(5) is amended by removing the words "or § 1611.14."

(b) Paragraphs (c) and (d) are revised to read as follows:

§ 1611.5 Disclosure of requested information to individuals.

* * * * *

(c) If a request for access to records is denied pursuant to paragraph (a) or (b) of this section, the determination shall specify the reasons for the denial and advise the individual how to appeal the denial. If the request pertains to a system of records for which the Commission has published a system notice, any appeal must be submitted in writing to the Legal Counsel, EEOC, 1801 L Street, NW., Washington, DC 20507. If the request pertains to a government-wide system of records any appeal should be in writing, identified as a Privacy Act appeal and submitted as follows:

(1) For systems established by OPM and for which OPM has published a system notice, to the Assistant Director for Workforce Information, Personnel Systems and Oversight Group, OPM, 1900 E Street, NW., Washington, DC 20415. The OPM Privacy Act regulations, 5 CFR 297.207, shall govern such appeals.

(2) For systems established by OGE and for which OGE has published a system notice, to the Privacy Act Officer, Office of Government Ethics, 1201 New York Avenue, NW., Suite 500, Washington, DC 20005-3917. The OGE Privacy Act regulations, 5 CFR part 2606, shall govern such appeals.

(3) For the system established by MSPB and for which MSPB has published a system notice, to the Deputy Executive Director for Management, U.S. Merit Systems Protection Board, 1120 Vermont Avenue, NW., Washington, DC 20419. The MSPB Privacy Act regulations, 5 CFR part 1205, shall govern such appeals.

(4) For systems established by GSA and for which GSA has published a system notice, to GSA Privacy Act Officer, General Services Administration (ATRAI), Washington, DC 20405. The GSA Privacy Act regulations, 41 CFR 105-64.301-5, shall govern such appeals.

(5) For the system established by DOL and for which DOL has published a system notice, to the Solicitor of Labor, Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210. The DOL Privacy Act regulations, 29 CFR 70a.9, shall govern such appeals.

(d) In the event that access to a record is denied on appeal by the Legal Counsel or the Legal Counsel's designee, the requestor shall be advised of his or her right to bring a civil action in federal district court for review of the denial in accordance with 5 U.S.C. 552a(g).

* * * * *

6. Section 1611.7(c) is amended to remove the words "Civil Service Commission's" and add, in their place, the word "OPM's".

7. Section 1611.8 is amended as follows:

(a) Paragraph (a)(2) is amended by removing the word "Chairman" and adding, in its place, the words "Legal Counsel".

(b) Paragraphs (d) and (e) are revised to read as follows:

§ 1611.8 Agency review of request for correction or amendment to record.

* * * * *

(d) In the event that the Commission receives a notice of correction or amendment from another agency that pertains to records maintained by the Commission, the Commission shall make the appropriate correction or amendment to its records and comply with paragraph (a)(1)(iii) of this section.

(e) Requests for amendment or correction of records maintained in the government-wide systems of records listed in § 1611.5(c) shall be governed by the appropriate agency's regulations cited in that paragraph. Requests for amendment or correction of records maintained by other agencies in system EEOC/GOVT-1 shall be governed by the Commission's regulations in this part.

9. Section 1611.9 is revised to read as follows:

VOL 56 ISS 125 JE 28 1991 UMI

§ 1611.9 Appeal of initial adverse agency determination on correction or amendment.

(a) If a request for correction or amendment of a record in a system of records established by EEOC is denied, the requester may appeal the determination in writing to the Legal Counsel, EEOC, 1801 L Street, NW., Washington, DC 20507. If the request pertains to a record that is contained in the government-wide systems of records listed in § 1611.5(c), an appeal must be made in accordance with the appropriate agency's regulations cited in that paragraph.

(b) The Legal Counsel or the Legal Counsel's designee shall make a final determination with regard to an appeal submitted under paragraph (a) of this section not later than 30 working days from the date on which the individual requests a review, unless for good cause shown, this 30-day period is extended and the requester is notified of the reasons for the extension and of the estimated date on which a final determination will be made. Such extensions will be used only in exceptional circumstances and will not normally exceed 30 working days.

(c) In conducting the review of an appeal submitted under paragraph (a) of this section, the Legal Counsel or the Legal Counsel's designee shall be guided by the requirements of 5 U.S.C. 552a(e).

(d) If the Legal Counsel or the Legal Counsel's designee determines to grant all or any portion of a request on an appeal submitted under paragraph (a) of this section, he or she shall so inform the requester, and the appropriate Commission official shall comply with the procedures set forth in § 1611.8(a)(1)(ii) and (iii).

(e) If the Legal Counsel or the Legal Counsel's designee determines in accordance with paragraphs (b) and (c) of this section not to grant all or any portion of a request on an appeal submitted under paragraph (a) of this section, he or she shall inform the requester:

(1) Of this determination and the reasons for it;

(2) Of the requester's right to file a concise statement of reasons for disagreement with the determination of the Legal Counsel or the Legal Counsel's designee;

(3) That such statements of disagreement will be made available to anyone to whom the record is subsequently disclosed, together with (if the Legal Counsel or Legal Counsel's designee deems it appropriate) a brief statement summarizing the Legal Counsel or Legal Counsel's designee's reasons for refusing to amend the record;

(4) That prior recipients of the disputed record will be provided with a copy of the statement of disagreement together with (if the Legal Counsel or Legal Counsel's designee deems it appropriate) a brief statement of the Legal Counsel or Legal Counsel's designee's reasons for refusing to amend the record, to the extent that an accounting of disclosure is maintained under 5 U.S.C. 552a(c); and

(5) Of the requester's right to file a civil action in federal district court to seek a review of the determination of the Legal Counsel or the Legal Counsel's designee in accordance with 5 U.S.C. 552a(g).

(f) The Legal Counsel or the Legal Counsel's designee shall ensure that any statements of disagreement submitted by a requestor are made available or distributed in accordance with paragraphs (e) (3) and (4) of this section.

§ 1611.11 [Amended]

10. Section 1611.11(a)(1) is amended to remove the words "copies made by photocopy device or otherwise [per page), $.05." and add, in their place, the words "photocopies (per page), $.15."

§ 1611.13 [Removed]

11. Section 1611.13 is removed.

12. Section 1611.14 is redesignated as § 1611.13 and revised to read as follows:

§ 1611.13 Specific exemptions.

Pursuant to subsection (k)(2) of the Act, 5 U.S.C. 552a(k)(2), systems EEOC–1 (Age and Equal Pay Act Discrimination Case Files), EEOC–3 (Title VII and Americans With Disabilities Act Discrimination Case Files) and EEOC/GOVT–1 (Equal Employment Opportunity Complaint Records and Appeal Records) are exempt from subsections (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), (e)(4)(I) and (f) of the Act. The Commission has determined to exempt these systems from the above named provisions of the Privacy Act for the following reasons:

(a) The files in these systems contain information obtained by the Commission and other federal agencies in the course of investigations of charges and complaints that violations of Title VII of the Civil Rights Act, the Age Discrimination in Employment Act, the Equal Pay Act, the Americans With Disabilities Act and the Rehabilitation Act have occurred. In some instances, agencies obtain information regarding unlawful employment practices other than those complained of by the individual who is the subject of the file. It would impede the law enforcement activities of the Commission and other agencies for these provisions of the Act to apply to such records.

(b) The subject individuals of the files in these systems know that the Commission or their employing agencies are maintaining a file on their charge or complaint, and the general nature of the information contained in it.

(c) Subject individuals of the files in each of these systems have been provided a means of access to their records by the Freedom of Information Act. Subject individuals of the charge files in system EEOC–3 have also been provided a means of access to their records by section 83 of the Commission's Compliance Manual. Subject individuals of the case files in system EEOC/GOVT–1 have also been provided a means of access to their records by the Commission's Equal Employment Opportunity in the Federal Government regulation, 29 CFR 1613.220.

(d) Many of the records contained in system EEOC/GOVT–1 are obtained from other systems of records. If such records are incorrect, it would be more appropriate for an individual to seek to amend or correct those records in their primary filing location so that notice of the correction can be given to all recipients of that information.

(e) Subject individuals of the files in each of these systems have access to relevant information provided by the allegedly discriminating employer as part of the investigatory process and are given the opportunity to explain or contradict such information and to submit any responsive evidence of their own. To allow such individuals the additional right to amend or correct the records submitted by the allegedly discriminating employer would undermine the investigatory process and destroy the integrity of the administrative record.

(f) The Commission has determined that the exemption of these three systems from subsections (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), (e)(4)(I), and (f) of the Privacy Act is necessary for the agency's law enforcement efforts.

BILLING CODE 6570–01–M

DEPARTMENT OF DEFENSE

Department of the Army

32 CFR Part 505

Privacy Act of 1974; Implementation

AGENCY: Office, Director of Information Systems for command, Control, Communications and Computers, DOD.

ACTION: Final rule.

SUMMARY: The Department of the Army is amending its rule for administering the Privacy Act by permitting Access and Amendment Refusal Authorities to delegate their responsibilities.

DATES: Effective on June 28, 1991.

FOR FURTHER INFORMATION CONTACT: Mr. William A. Walker, Policy Division, Office of the Director of Information Systems for Command, Control, Communications and Computers, Office of the Secretary of the Army, Washington, DC 20310–0107.

SUPPLEMENTARY INFORMATION: This amendment permits Access and Amendment Refusal Authorities to delegate their authority to an office or subordinate commander in the grade of GS/GM 15 and Colonel (0–6). The rule is not a "major rule" as defined by Executive Order 12291. Therefore, no regulatory impact analysis has been prepared. The Department of the Army certifies that this document will not have an impact on a significant number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq). Therefore, no regulatory flexibility analysis has been prepared. The rule has no collection of information requirements and therefore does not require the approval of OMB under 44 U.S.C. 3501 et seq.

List of Subjects in 32 CFR Part 505

Information, Archives and records, Privacy, Freedom of information.

PART 505—[AMENDED]

1. The authority citation for 32 CFR part 505 continues to read as follows:

Authority: 5 U.S.C. 52a; DOD Directive 5400.11, June 9, 1982; and DOD Regulation 5400.11R, August 31, 1983.

2. 32 CFR § 505.1 [Amended] 505.1 is amended by revising the introductory text of paragraph (g) as follows:

* * * * *

(g) *Access and Amendment Refusal Authority (AARA).* Each Access and Amendment Refusal Authority is responsible for action on requests for access to or amendment of, records referred to them under this regulation. The officials listed below and their designees are the only Access and Amendment Refusal Authorities for records in their authority to an office or subordinate commander. All delegations must be in writing. If an AARA's delegate denies access or amendment, the delegate must clearly state that he or she is acting on behalf of the AARA and identify the AARA by name and position in the written response to the requester. Denial of access or amendment by an AARA's delegate must have appropriate legal review. Delegations will not be made below the colonel (06) or GS/GM 15 level. Such delegations must not slow Privacy actions. AARA's will send the names, offices and telephone numbers of their delegates to the Director of Information Systems for Command, Central, Communications and Computers, HQDA, ATTN: SAIS-PDD Washington, DC 20310-0107.

36 CFR Part 327

Shoreline Management Fees at Civil Works Projects

AGENCY: United States Army Corps of Engineers, DoD.

ACTION: Final rule.

SUMMARY: This fee schedule complies with the Office of Management and Budget Circular A–25, User Charges. This rule provides policy and guidance to implement the fee schedule for shoreline management at Civil Works water resource projects. This action incorporates changes deemed necessary to meet new and changing conditions.

EFFECTIVE DATE: October 1, 1991.

ADDRESSES: Office of the Chief of Engineers, Attn: CECW–ON, 20 Massachusetts Avenue, NW., Washington, DC 20314–1000.

FOR FURTHER INFORMATION CONTACT: Mr. Darrell E. Lewis (202) 272–0247.

SUPPLEMENTARY INFORMATION: 36 CFR 327.30 Lakeshore Management at Civil Works Projects, published in the Federal Register in December 1974, stated in part "* * * As permits become eligible for renewal after July 1, 1976, a charge of $10 for each new permit and a $5 annual fee for inspection of floating facilities will be made. There will be no annual inspection fee for permits for vegetation modification of lakeshore areas. In all cases, the total administrative charge will be collected initially at the time of permit issuance rather than on a piecemeal annual bases." The cost of a five year permit was $30.

On June 8, 1988, a proposed rule was published in the Federal Register (53 FR 21495) which called for the Fee Schedule for Shoreline Management permits to be published separately from 36 CFR 327.30. A final rule was published in the Federal Register on July 27, 1990 (55 FR 30690).

Office of Management and Budget Circular A–25 requires that when a service (or privilege) provides special benefits to an identifiable recipient beyond those that accrue to the general public, a charge will be imposed to recover the full cost to the Federal Government for providing the special benefits.

The fee schedule will appear in § 327.31, a new section. Permits will be issued for a five year period to reduce costs to the permittee. To reduce the governments administrative workload, permits may be issued for a term less than five years. The new fees will not be assessed until the expiration of a current valid permit.

As stated in § 327.30 appendix A(2)(a), fees shall be paid prior to issuing the permit.

When an applicant receives a permit that covers more than one activity and/or facility, only a single permit covering the activities/facilities will be issued. A one time fee will be charged for all permit activities/facilities which are simultaneously authorized as if the permit was for a single activity/facility. If both a moorage facility and vegetation modification are authorized concurrently under one permit, only the fee for a moorage facility will be charged. This will apply to permit renewals as well as new facilities/activities.

Similarly, if multiple activities/facilities are authorized, under a single permit renewal, only one periodic fee will be charged for each year of the permit as if the permit was for a single activity/facility.

If one or more activity/facility modifications are authorized, on a permit which contains multiple activities/facilities, a one time activity/facility modification will apply. No periodic inspection fees will be charged for activity/facility modifications.

This fee schedule does not affect the fees charged for real estate instruments. These fees are established by a separate regulation.

The fees for Shoreline Management permits issued in accordance with 36 CFR 327.30, are as follows:

New facility—A one time fee of $400 plus $15 per year periodic inspection fee (payable in advance for 5 year increments).

New owner—A one time fee of $200 plus $15 per year periodic inspection fee

VOL 56 ISS 125 JE 28 1991 UMI

(payable in advance for 5 year increments).

Facility modifications—A one time fee of $100 for each modification request.

Facility renewal—A $15 per year periodic inspection fee (payable in advance in 5 year increments).

Vegetation modification—new permit—A one time fee of $200 plus $15 periodic inspection fee (payable in advance for 5 year increments).

Vegetation modification—change—A one time fee of $100.

Vegetation modification—new adjacent land owner—A one time fee of $100 plus $15 periodic inspection fee (payable in advance in 5 year increments).

Vegetation modification—permit renewal—A $15 per year periodic inspection fee (payable in advance in 5 year increments).

Fees will not be assessed for erosion control permits when the government, the public, and the permittee all benefit directly or indirectly from the construction of erosion control structures. However, they are still subject to section 404 and section 10 permit requirements.

No refunds will be made for any unused portions of permits terminated by the permittee before the permit expiration date. A refund may be issued if the permit is terminated by the government.

Classification

The Secretary of the Army has determined that this revision is not a "major" rule within the meaning of Executive Order (E.O.) 12291. This is because the revision will not: (1) Have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, geographic regions, or Federal, State, or local governmental agencies; or (3) have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of a United States-based enterprise to compete with foreign-based enterprise in domestic or export markets.

The purpose and effect of this revision is to incorporate changes deemed necessary to meet new and changing conditions. The revision is consistent with the regulation and strengthens the regulation for more effective management of Corps of Engineers water resource development projects. This rule is also intended to make the regulation consistent with legislative actions. No increased administrative or paperwork burden is imposed by this revision.

This revision was submitted to the Office of Management and Budget (OMB) for review as required by E.O. 12291.

Background

On August 10, 1990, a notice of proposed Shoreline Management Fees at Civil Works Projects, was published in the **Federal Register** (55 FR 32944). A 45 day period for public review was provided. During this period, 276 letters of comment were received from a broad spectrum of interests including individuals, businesses, local and national associations and state, local and federal agencies. The number of responses to the proposed fee schedule change were less than 1% of the existing shoreline management permits nationwide. The majority of the comments received were opposed to a fee increase. Other comments agreed with the increase but called for a smaller percentage of increase. The Army has considered and evaluated all the comments and recognizes that the new fee schedule is a substantial increase over the existing schedule. Since there has not been an increase to the fee schedule since 1974 the new schedule better enables the government to recover a greater percentage of the cost incurred in administering the shoreline management program. It should be noted that many of the comments were almost identical in their content. The following discusses the issues raised and the Army's response. Copies of all written comments are available for public inspection at the Office of the Chief of Engineers, room 6223, 20 Massachusetts Avenue NW., Washington, DC. Copies of the final rule are also available upon request.

Comments

Comment: Fee increases should be phased in over several years.

Response: Phasing the fee schedule in over several years would not be cost effective. Delaying the implementation of the new fees would increase the overall cost of administering the shoreline management program.

Comment: Shoreline Management fees should be more reasonable.

Response: Office of Management and Budget Circular A–25, requires that when a service (or privilege) provides special benefits to an identifiable recipient beyond those that accrue to the general public, a charge will be imposed to recover the full cost to the Federal Government for providing the special benefits." 36 CFR part 327 Fees reflect a greater portion of the administrative costs to manage the program, and include base labor, fringe benefits, overhead, equipment, materials and supplies. The fees were determined by dividing the nationwide administrative costs by the number of permits issued. There are currently over 38,000 shoreline management permits with an average term of 3.81 years. The current annual revenue from shoreline management permits is approximately $245,000 and the total annual cost of administering this program is approximately $3,600,000. It is estimated that the new fee schedule will produce an annual revenue of $1,310,575.

Comment: Present fees are more than adequate.

Response: The new fee schedule reflects a portion of the administrative costs to manage the program, and includes base labor, fringe benefits, overhead, equipment, materials and supplies. The new fee schedule enables the government to recover a greater portion of the cost of administering the program.

Comment: Increased fees penalize people for upgrading facility.

Response: The new fee schedule is not a penalty, it simply insures that those individuals or groups deriving the most benefit from shoreline management are paying the administrative cost of the program. The new fee schedule will also enable the government to recover a greater portion of the cost of the program.

Comment: Increased fees will jeopardize property values, and hurt the economy.

Response: The Corps has determined this rule will not have a significant adverse economic effect on consumers, individuals, geographic regions, or federal, state or local governmental agencies.

Comment: Advanced payments are a way to accrue additional monies by questionable ethics.

Response: Advanced payments will help to reduce the government's cost in administering this program by reducing the administrative workload.

Comment: There is no provision for the return of advanced payments if an owner moves.

Response: Advanced payments will not be refunded. The administrative cost associated with issuing refunds would increase the overall program cost. Refunds may be granted if the government terminates the permit.

Comment: The cost of a new facility should be identical to Facility-Renewal periodic inspection fees.

Response: The cost of administering a new permit is significantly higher than a renewal. Initial site visits and meetings with property owners make processing a new permit more expensive than reviewing facility renewals.

Comment: The fee schedule should be commensurate with the use of property by the owner.

Response: The fee schedule reflects a portion of the cost accrued to the government in administering the shoreline management program. The extent of use is not a factor.

Comment: Shoreline Management fee increases will deter development, and affect business on the lake.

Response: The Corps believes this rule will not have significant adverse economic effect on business or development and will not effect productivity, competition, investment, or employment.

Comment: The Corps is using cost as a way to prevent new docks.

Response: Fees reflect the administrative costs to manage the program, and include base labor, fringe benefits, overhead, equipment, materials and supplies. Shoreline permit holders are deriving the most benefit from this program and should pay the cost. The focus of the Corps Shoreline Management program will continue to allow development in limited development areas and strike a balance between permitted private use and resource protection for general public use.

Comment: A new owner has already paid for his property.

Response: The issuance of a shoreline management permit does not convey any real estate or personal property rights or exclusive use rights to the permit holder. Consistent with 36 CFR 327.30 appendix C, Shoreline Use Permits Conditions (20), permits are not transferable, "upon the sale or other transfer of the permitted facility or the death of the permittee and his/her legal spouse, this permit is null and void".

Comment: Charge non-compliance dock owners for return inspections.

Response: The cost of non-compliance will not be recovered under this rule. Any non-compliance will be handled through 36 CFR 327.19. Methods and procedures for enforcing non-compliance will be set forth in individual project Shoreline Management Plans. Permit holders who allow a permit to expire will be charged the "New Facility" fee if and when they desire to obtain a new permit.

Comment: The new fees pose an unfair burden on current and future property owners.

Response: The cost of the shoreline management program will be paid by those individuals who are deriving the most benefit, i.e., shoreline management permit holders.

Comment: Vegetation modifications fees should be prorated based on the area covered by the permit.

Response: The government's cost to administer a permit for 1,000 sq. ft. of mowed area is the same as for 10,000 sq. ft. of mowed area. The proration of fees is not a reasonable method of recovering administrative cost.

Comment: Allow adjacent property owners to take care of the shoreline at a reasonable cost.

Response: The new fees are reasonable and reflect a portion of the government's administrative costs to manage the program, and include base labor, fringe benefits, overhead, equipment, materials and supplies. The new fee schedule will allow the government to recover a greater portion of the cost of administering the program.

Comment: Since people do the work fees should stay the same.

Response: The shoreline maintenance work done by adjacent property owners is generally for their benefit. The new fees reflect a portion of the governments administrative costs to manage the program, and include base labor, fringe benefits, overhead, equipment, materials and supplies.

Comment: I do not feel we should pay to mow grass or clean the beach for the U.S. government.

Response: Mowing the cleaning the beach are not requirements of the Corps of Engineers nor are they requirements for obtaining/issuing a vegetation modification permit. Shoreline clean up is generally for the benefit of the adjoining private property owner. There is no fee associated with removing trash or debris from public lands.

Comment: Lot owners clean up the mess left by boaters and others.

Response: The Corps recognizes that not all persons who use the Corps lakes and lands practice good stewardship. Through programs such as Take Pride In America the Corps of Engineers sponsors events and activities that attempt to instill a respect for public property. Participation in these events by adjacent property owners is encouraged.

Comment: We do not want weeds or poison ivy growing next to our house.

Response: It is not the intent of the Corps of Engineers to have their neighbors put up with noxious weeds next to their houses. In many cases our neighbors have located their homes close to the Corps boundary line so that they can get a better view of the lake. The fee schedule allows the government to recover a greater portion of the administrative cost associated with issuing vegetation modification permits.

Comment: Opposed to paying for clearing a walk to the lake.

Response: Vegetation modification is an authorized activity that requires significant government expenditure to administer. The cost of administering these permits should be paid by those deriving the greatest benefit, i.e. shoreline permit holders.

Comment: Hold public hearing before fee implementation.

Response: The proposed rule, published in the **Federal Register** August 10, 1990, provided a 45 day public review period. The purpose of this comment period was to provide ample opportunity for the public to make their views and positions known.

Comment: The fee schedule should have been mailed to all permit holders.

Response: The proposed rule, published in the **Federal Register** August 10, 1990, provided a 45 day public review period. The purpose of this comment period was to provide ample opportunity for the public to make their views and positions known. The proposed fee schedule was also published in newspapers, public notices and was available for public review at the project Resource Managers office.

Comment: Inadequate advance on notice of rate increase.

Response: Federal regulation requires that the proposed fee schedule be published in the **Federal Register**. The proposed fee schedule was published in the **Federal Register** August 10, 1990. There was a 45 day period available for public comment. This review period has proven to be sufficient to receive public comment. Press releases were also made available to media sources on a nationwide basis.

Comment: Corps should sell land and eliminate problems.

Response: Joint Acquisition regulations require the Corps to retain sufficient land for authorized project purposes. The shoreline management program enables the Corps to effectively manage those lands it is required to maintain.

Comment: Do shoreline management permit inspections in-house instead of by contract.

Response: The Corps is required to administer the shoreline management program with the most cost effective methods possible. In some locations the most cost effective method is contracting.

Comment: With local tax increases this amounts to a double tax.

Response: The fee schedule is not a tax. It simply enables the government to

VOL 56 ISS 125 JE 28 1991 UMI

recover a greater portion of the cost that it incurs in administering the shoreline management program.

Comment: Costs should be passed on to all who use the lake.

Response: The cost of limited private exclusive use should be paid by those individuals gaining the most benefit, i.e. shoreline management permit holders.

Comment: If we pay increased fees, we should have authority on how property is used.

Response: Shoreline management permits convey only the privilege to use public property under the conditions of the permit and do not convey any ownership or special privilege beyond what is conveyed in the permit.

Comment: Make charges based on actual costs.

Response: Fees reflect a portion of the administrative costs to manage the program, and include base labor, fringe benefits, overhead, equipment, materials and supplies.

Comment: Increases have no relationship to Cost of Living increases.

Response: There has been no increase to the fee schedule since 1974. The new fee schedule reflects a greater portion of the cost accrued to the government in administering the program. No attempt has been made to link these fees to any cost of living increase.

Comment: There appears to be no increase for marinas, restaurants, etc.

Response: The objective of the fee schedule is to assess fees for private users more commensurate with the cost of administering the program. Commercial development activities are covered by lease, license or other legal real estate instruments and pay rental fees based on fair market values.

Comment: Dock and mowing fees are a bonus to the government.

Response: Shoreline management fees reflect a portion of the administrative costs to manage the program, and include base labor, fringe benefits, overhead, equipment, materials and supplies.

Comment: Power generation profits should offset project costs.

Response: Power generation fees from customers are sent directly to power market agencies (such as Bonneville or Western Power Administrations), and from them directly to the U.S. Treasury. There are not current plans to change this process.

Comment: The money received from shoreline management fees will do little to improve the environment.

Response: Shoreline management fees are intended to recover a portion of the administrative costs of managing the program. It was never the intent of the Corps to use these fees for environmental improvement projects.

Comment: Give 50% discount to senior citizens.

Response: A 50% discount is given to seniors through the Golden Age and Golden Access Programs by all Federal land management agencies. These discounts apply only to entrance and special use fees such as camping. 16 U.S.C. 4601 does not allow for a reduction of shoreline management fees.

Comment: Do not penalize the land owners for keeping the shoreline clean.

Response: The fee schedule was not developed to penalize property owners. It enables the government to recover a portion of the cost of administering the shoreline management program.

Comment: The Corps should encourage shoreline management.

Response: 36 CFR 327.30 provides the policy and guidance for shoreline management at Civil Works projects. The objective of all management actions is to achieve a balance between permitted private use and resource protection for general public use.

Comment: I just renewed my five year permit last year. When will I have to pay the new fees?

Response: The new renewal fee will be charged when your present permit expires. If, for some reason, you modify your facility you would be charged the appropriate facility modification fee after October 1, 1991.

Comment: Do not charge a one time fee.

Response: The one time fee is necessary to recover a portion of the cost associated with the initial administration of new permits, permit modifications and new owner permit reassignments. Charging an annual fee would increase the cost of administering the program and increase the level of fees accordingly.

Comment: Will the expiration date of a Shoreline Management Permit be adjusted when a Facility Modification Permit is issued?

Response: A Facility Modification Permit fee of $100 will be charged each time a facility is modified. Payment of the Facility Modification Fee will not change the expiration date of the Shoreline Management Permit.

Comment: Will the issuance of a Facility Modification Permit require payment of additional inspection fees?

Response: No. A Facility Modification Permit will only be issued to a current holder of a Shoreline Management Permit. Therefore, a periodic fee of $75 ($15×5 years) for inspections had already been paid.

Comment: Retain one year Vegetation Modification Permits instead of increasing them to a five year permit because mowed areas need to be inspected once a year. Many Vegetative Permit holders are renters who may not stay five years.

Response: The increase of Vegetation Permits to five year periods does not suggest abandoning periodic inspections of these properties.

Comment: Combining vegetative modification and floating facilities into one permit is acceptable, but there should be a separate fee for each activity/facility.

Response: The one time fee will be charged as if the permit was for a single activity. In all cases the highest fee will be charged.

Comment: A one time fee (say $30) should be assessed for all permit renewals and "new owner" permits.

Response: The cost associated with issuing New Facility or New Owner permits is significantly higher than permit renewals. Renewals will not require a one time fee. New owner permits will be assessed a one time fee of $200 and the $75 periodic fee ($15×5 years).

Comment: Some of the proposed fees are higher than forfeiture schedule requirements for violation of affected sections of title 36 (i.e. 327.14(a)

Response: The fee schedule is designed to recover a portion of the expense that the government incurs when administering the shoreline management program and includes base labor, fringe benefits, overhead, equipment, materials and supplies. The title 36 forfeiture schedules are determined by Federal Magistrates, not the Corps.

Comment: Expand the term "new owner" to "new owner/new permittee".

Response: A new owner has been defined as any reassignment of an existing permit other than a single permittee of a multi-slip community dock.

Comment: Limited mowing and underbrushing permits (such as along boundary lines, within corporate limits, to meet fire and health codes) should continue to be issued free of charge.

Response: The issuance of non-shoreline management permits to meet health and safety codes and commitments consistent with local project policy may be issued free of charge and will be evaluated on a case by case basis and approved by the project Resource Manager.

Comment: The draft schedule does not allow for multi-slip/multi-owner facilities where the most common transaction would be a change to one individual who is part of that community dock. Perhaps a separate section is needed for community docks.

Response: There is no separate fee for community docks. In the case of multi-owner facilities any reassignment of an individual owner would be done free of charge.

Comment: Will additional "periodic fees" be charged when a Facility Modification Permit is issued?

Response: No additional "periodic fees" will be charged when a Facility Modification Permit is issued. The fee schedule has been changed to reflect this suggestion.

Comment: Will "one time fees" be applied every time that an applicant proposes a specific activity/facility?

Response: The "one time fees" will be required every time a separate application is made for a specific activity/facility.

Comment: What fee is assessed to a co-permittee of an existing permit?

Response: In the case of a single facility, the assigning of co-permittees, other than husband and wife, is not allowed.

Comment: Please define New Owner, New Facility, Vegetation Modification—New Permit & New Owner, Facility Modification, Permit Renewal, and Vegetation Modification Change.

Response: Based on comments, these definitions were developed to clarify the Fee Schedule terminology. Vegetation Modification Change and Permit Renewal were added in response to comments received.

New Facility—A facility for which a permit has expired or where no facility has existed previously.

New Owner—The reassignment of an existing permit (other than single permit holder in a multi-slip community dock) to a different person.

Vegetation Modification—New Permit—A vegetation modification for which a permit has expired or where no vegetation modification has previously existed.

Vegetation Modification—New owner—An existing permit for a new adjacent land owner or reassignment of an existing permit to a different adjacent landowner.

Vegetation Modification—Change—Any substantial change as defined by the project Shoreline Management Plan, to an existing vegetation modification permit.

Facility Modification—Any substantial change, as defined by the project Shoreline Management Plan, to an existing permit or replacement of an existing facility.

Permit Renewal—The term of an existing permit has expired and the activity/facility is being reauthorized, without change, under a new permit.

Compliance With Executive Order 12291 and the Regulatory Flexibility Act

The Department of the Army has determined that this document is not a major rule under E.O. 12291 and certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

For the reasons set out in the preamble, the U.S. Army Corps of Engineers amends 36 CFR part 327 as set forth below.

PART 327—[AMENDED]

1. The authority citation for part 327 continues to read as follows:

Authority: The Rivers and Harbors Act of 1894, as amended and supplemented (33 U.S.C. 1).

2. Section 327.30 is amended by revising the last sentence of paragraph (k) as follows:

§ 327.30 Shoreline management on civil works projects.

* * * * *

(k) * * * The Fee Schedule is published in 327.31.

3. Section 327.31 is added as follows:

§ 327.31 Shoreline Management fee schedule.

(a) *Applicability.* This fee schedule is applicable to all permits issued in accordance with § 327.30, Shoreline Management at Civil Works Projects.

(b) *General.* (1) Permits will be issued for a five year period to reduce costs to the permittee. To reduce administrative workload, projects may elect to issue a permit for a term less than five years. The new fees will not be assessed until the expiration of a valid permit.

(2) When an applicant receives a permit that covers more than one activity and/or facility, only a single permit covering the activities/facilities will be issued. A one time fee will be charged for all permit activities/facilities which are simultaneously authorized as if the permit was for a single activity/facility. If both a moorage facility and vegetation modification are authorized concurrently under one permit, only the fee for a moorage facility will be charged. This will apply to permit renewals as well as new activities/facilities.

(3) Similarly, if multiple activities/facilities are authorized under a single permit renewal, only one periodic fee will be charged for each year of the permit as if the permit was for a single activity/facility.

(4) If one or more activity/facility modifications are authorized, on a permit which contains multiple activities/facilities, a one time activity/facility modification will apply. No periodic inspection fees will be charged for activity/facility modifications.

(5) No periodic inspection fee will be charged for facility modifications.

(6) This fee schedule does not affect the fees charged for real estate instruments. Those fees are established by a separate regulation.

(7) This fee schedule reflects a portion of the administrative costs to manage the program, and includes base labor, fringe benefits, overhead, equipment, materials and supplies. This fee schedule enables the government to recover a greater portion of the cost of administering the shoreline management program.

(8) This fee schedule insures that those individuals or groups deriving the most benefit from shoreline management are paying a larger portion of the administrative cost of the program.

(9) The one time fee is necessary to recover a portion of the cost associated with the initial administration of new permits, permit modifications and new owner permit reassignments.

(10) Payment of the Facility Modification Fee will not change the expiration date of the Shoreline Management Permit.

(11) A Facility Modification Permit will only be issued to a current holder of a Shoreline Management Permit. Current permit holders have already paid a periodic fee, therefore no additional periodic fees will be paid for the duration of the permit.

(12) There is no separate fee for community docks. In the case of multi-owner facilities any reassignment of an individual owner will be done free of charge.

(13) Fees will not be assessed for erosion control permits because the government, the public, and the permittee all benefit directly or indirectly from the construction of erosion control structures.

(14) No refunds will be made for any unused portions of permits terminated by the permittee before the permit expiration date. A refund may be issued if the permit is terminated by the government.

VOL 56 ISS 125 JE 28 1991 UMI

(15) The 50% fee reduction to senior citizens available through the Golden Age and Golden Access programs does not apply to shoreline management fees.

(16) The "one time fees" will be required each time an application is made for a specific activity/facility.

(17) Co-permit holders, other than husband and wife, are not allowed.

(18) Definitions:

New facility—A facility for which a permit has expired or where no facility has previously existed.

New owner—The reassignment of an existing permit (other than single permit holder in a multi-slip community dock) to a different person.

Vegetation modification new permit—A vegetation modification for which a permit has expired or where no vegetation modification has previously existed.

Vegetation modification—New owner—An existing permit for a new adjacent land owner or reassignment of an existing permit to a different adjacent landowner.

Vegetation modification—Change—Any substantial change as defined by the project Shoreline Management Plan, to an existing vegetation modification permit.

Facility modification—Any substantial change, as defined by the project Shoreline Management Plan, to an existing permit or, replacement of an existing facility.

Permit renewal—The term of an existing permit has expired and the activity/facility is being reauthorized, without change, under a new permit.

(c) *Fee schedule.* The fee schedule is as follows:

Type of permit	One time fee	Periodic fee*	Total 5 year fee
Facilities:			
New facility	$400	$15/year	$475
New owner	200	15/year	275
Facility mod.	100	0	100
Permit renewal	0	15/year	75
Vegetation modification:			
New permit	200	15/year	275
New owner	100	15/year	175
Permit renewal	0	15/year	75
Change	100	0	100
Erosion control	0	0	0

*Periodic fees (inspection fees) are set at $15 per year and are payable in advance for 5 year increments.

Approved.

Robert L. Herndon,

Colonel, Corps of Engineers, Chief of Staff.

[FR Doc. 91-15418 Filed 6-27-91; 8:45 am]

BILLING CODE 3710-69-M

LIBRARY OF CONGRESS

Copyright Office

37 CFR Part 201

[Docket No. 91-9]

Cable Compulsory and Satellite Carrier Statutory Licenses: Electronic Payment of Royalties

AGENCY: Copyright Office, Library of Congress.

ACTION: Final regulations.

SUMMARY: The Copyright Office amends the regulations for statements of account and filing requirements for sections 111 and 119 of title 17, United States Code. Those sections provide, respectively, a compulsory license for the secondary transmission by cable systems of broadcast signals, and a statutory license for certain secondary transmissions made by satellite carriers to satellite home dish owners.

Such transmissions by cable systems and satellite carriers require payment to copyright owners of royalties, which, under existing regulations, are remitted to the Copyright Office by certified or cashier's checks, or by money order. 37 CFR 201.11 (f) and (h); § 201.17(i) and (j) (1990).

The new regulation provides the additional option of electronic payment by electronic funds transfer, which should facilitate payment by cable systems and satellite carriers, and lessen the administrative burden of the Copyright Office.

EFFECTIVE DATE: June 28, 1991.

FOR FURTHER INFORMATION CONTACT: Dorothy Schrader, General Counsel, Copyright Office, Library of Congress, Washington, DC 20540. Telephone: (202) 707-8380.

SUPPLEMENTARY INFORMATION: Under the cable compulsory license of section 111 of the Copyright Act, title 17 of the United States Code, and the satellite carrier statutory license of section 119 of the Act, secondary transmissions by cable systems of broadcast signals and certain secondary transmissions by satellite carriers to home dish owners are subject to payment of royalties. The royalty payments are remitted to the Copyright Office semi-annually. The Copyright Office invests the royalties in United States Treasury securities, pending ultimate distribution of the royalties to entitled copyright owners by the Copyright Royalty Tribunal.

The current Copyright Office regulations permit cable systems and satellite carriers to pay royalty fees by certified or cashier's checks, or by money orders. 37 CFR 201.11 (f), (g) and (h); § 201.17 (i) and (j) (1990). The Copyright Office is amending the existing regulations to provide cable systems and satellite carriers with the additional option of paying royalties by electronic funds transfer.

Electronic payment allows cable systems and satellite carriers to preauthorize their financial institutions to debit their accounts, instead of having to factor in mail or other delivery time. Cable systems and satellite carriers will have the ability to transfer funds until the due date without incurring interest assessments. Royalties will go directly to the Department of Treasury, streamlining the current process of sending checks to the Copyright Office to be sent later to Treasury. The royalties will be invested in a more timely manner, earning additional funds for copyright owners. Finally, electronic payment will lessen the Copyright Office's administrative workload, reducing paperwork and related administrative costs, and improving reporting and audit control of cable and satellite royalty payments.

By these technical amendments to the regulations, we simply make it possible for cable systems and satellite carriers to effect electronic payment of royalties. The United States Treasury Department specifies the governing procedures. The Licensing Division of the Copyright Office should be contacted for further details about electronic payment of royalties. Treasury regulations are subject to change, but they generally establish minimum amounts for electronic transfer of funds.

Regulatory Flexibility Act Statement

With respect to the Regulatory Flexibility Act, the Copyright Office takes the position that this Act does not apply to Copyright Office rulemaking. The Copyright Office is a department of the Library of Congress and is part of the legislative branch. Neither the Library of Congress nor the Copyright Office is an "agency" within the meaning of the Administrative Procedure Act of June 11, 1946, as amended (title 5, chapter 5 of the U.S. Code, subchapter II and chapter 7). The Regulatory Flexibility Act consequently does not apply to the Copyright Office since the Act affects only those entities of the Federal Government that are agencies as defined in the Administrative Procedure Act.[1]

[1] The Copyright Office was not subject to the Administrative Procedure Act before 1978, and it is now subject to it only to areas specified by section

Continued

Alternatively, if it is later determined by a court of competent jurisdiction that the Copyright Office is an "agency" subject to the Regulatory Flexibility Act, the Register of Copyrights has determined and hereby certifies that this regulation, which establishes an optional procedure, will have no significant impact on small businesses.

List of Subjects in 37 CFR Part 201

Cable compulsory license, Satellite carrier license.

Final Regulations

In consideration of the foregoing, part 201 of 37 CFR is amended in the manner set forth below.

PART 201—[AMENDED]

1. The authority citation for part 201 continues to read as follows:

Authority: Sec. 702, 90 Stat 2541, 17 U.S.C. 702; § 201.7 is also issued under 17 U.S.C. 408, 409, and 410; § 201.16 is also issued under 17 U.S.C. 116.

§ 201.11 [Amended]

2. In § 201.11 paragraph (f) is revised to read as follows:

* * * * *

(f) *Royalty fee payment.* All royalty fees may be paid by electronic transfer of funds, provided the payment is received In the designated United States Federal Reserve Bank by the filing deadline for the relevant accounting period. Except in the case of an electronic payment, the royalty fee payable for the period covered by the Statement of Account shall accompany that Statement of Account and shall be deposited at the Copyright Office with it. Payment must be in the form of a certified check, cashier's check, or a money order, payable to: Register of Copyrights; or a United States Treasury electronic payment.

* * * * *

§ 201.11 [Amended]

3. Section 201.11(g)(3)(iv)(B) is amended by removing the period and adding a semi-colon after the word "Copyrights" and inserting the phrase "or electronic payment.".

3a. In § 201.11(h)(1) the third sentence is amended by removing the words "or money order" and replacing them with the words "money order, or electronic payment."

701(d) of the Copyright Act (i.e., "all actions taken by the Register of Copyrights under this title (17), except with respect to the making of copies of copyright deposits"). (17 U.S.C. 708(b)). The Copyright Act does not make the Office an "agency" as defined in the Administrative Procedure Act. For example, personnel actions taken by the Office are not subject to APA-FOIA requirements.

§ 201.17 [Amended]

4. In § 201.17 paragraph (i)(1) is revised to read as follows:

* * * * *

(i) *Royalty fee payment.* (1) All royalty fees may be paid by electronic transfer of funds, provided the payment is received in the designated United States Federal Reserve Bank by the filing deadline for the relevant accounting period. Except in the case of an electronic payment, the royalty fee payable for the period covered by the Statement of Account shall accompany that Statement of Account and shall be deposited at the Copyright Office with it. Payment must be in the form of a certified check, cashier's check, or a money order, payable to: Register of Copyrights; or a United States Treasury electronic payment.

* * * * *

5. In § 201.17(i)(2) the third sentence is amended by removing the words "or money order" and replacing them with the words "money order, or electronic payment."

6. Section 201.17(j)(3)(iv)(B) is amended by deleting the period and adding a semi-colon after the word "Copyrights" and inserting the phrase "or an electronic payment.".

Dated: June 14, 1991.

Ralph Oman,

Register of Copyrights.

Approved by:

James H. Billington,

The Librarian of Congress.

[FR Doc. 91-15206 Filed 6-27-91; 8:45 am]

BILLING CODE 1410-08-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 271

[FRL-3969-2]

Mississippi; Final Authorization of Revisions to State Hazardous Waste Management Program

AGENCY: Environmental Protection Agency.

ACTION: Immediate final rule.

SUMMARY: Mississippi has applied for final authorization of a revision to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). Mississippi's revision consists of the Toxicity Characteristic Leaching Procedure (TCLP) Rule, a component of HSWA Cluster II. The Environmental Protection Agency (EPA) has reviewed Mississippi's application and has made a decision, subject to public review and comment, that Mississippi's hazardous waste program revision satisfies all of the requirements necessary to qualify for final authorization. Thus, EPA intends to approve Mississippi's hazardous waste program revision. Mississippi's application for the TCLP program revision is available for public review and comment.

DATES: Final authorization for Mississippi's program revision shall be effective August 27, 1991, unless EPA publishes a prior **Federal Register** action withdrawing this immediate final rule. All comments on Mississippi's program revision application must be received by the close of business, July 29, 1991.

ADDRESSES: Copies of Mississippi's program revision application are available during 8 a.m. to 4 p.m. at the following addresses for inspection and copying: Mississippi Department of Environmental Quality, 2380 Highway 80 West, Post Office Box 10385, Jackson, Mississippi 39209: (601) 961-5062; U.S. EPA Headquarters Library, PM 211A, 401 M Street SW., Washington, DC 20460; 202/382-5926; U.S. EPA Region IV, Library, 345 Courtland Street NE., Atlanta, Georgia 30365; 404/347-4216. Written comments should be sent to Narindar Kumar at the address listed below.

FOR FURTHER INFORMATION CONTACT: Narindar Kumar, Chief, State Programs Section, Waste Programs Branch, Waste Management Division, U.S. Environmental Protection Agency, 345 Courtland Street NE., Atlanta, Georgia 30365; (404) 347-2234.

SUPPLEMENTARY INFORMATION:

A. Background

States with final authorization under section 3006(b) of the Resource Conservation and Recovery Act ("RCRA" or "the Act"), 42 U.S.C. 6926(b), have a continuing obligation to maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal hazardous waste program. In addition, as an interim measure, the Hazardous and Solid Waste Amendments of 1984 (Pub. L. 98-616, November 8, 1984, hereinafter "HSWA") allows States to revise their programs to become substantially equivalent instead of equivalent to RCRA requirements promulgated under HSWA authority. States exercising the latter option receive "interim authorization" for the HSWA requirements under section 3006(g) of RCRA, 42 U.S.C. 6926(g), and later apply for final authorization for the HSWA requirements.

VOL 56 ISS 125 JE 28 1991 UMI

Revisions to State hazardous waste programs are necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, State program revisions are necessitated by changes to EPA's regulations in 40 CFR parts 260–268 and 124 and 270.

B. Mississippi

Mississippi initially received final authorization for its base RCRA program effective on June 27, 1984. Mississippi received authorization for revisions to its program on October 17, 1988, October 9, 1990, and March 29, 1991. On February 6, 1991, Mississippi submitted a program revision application for additional program approval. Today, Mississippi is seeking approval of its program revision in accordance with 40 CFR 271.21(b)(3).

EPA has reviewed Mississippi's application and has made an immediate final decision that Mississippi's hazardous waste program revision satisfies all of the requirements necessary to qualify for final authorization. Consequently, EPA intends to grant final authorization for the additional program modification to Mississippi. The public may submit written comments on EPA's immediate final decision up until July 29, 1991.

Mississippi's application for this program revision is available for inspection and copying at the locations indicated in the "ADDRESSES" section of this notice.

On the effective date of final authorization, Mississippi will be authorized to carry out, in lieu of the Federal Program, the TCLP provisions of the State's program which are analogous to the Toxicity Characteristic Revisions promulgated by EPA on March 29, 1990 (55 FR 11798–1877).

Mississippi incorporates the Federal regulations by reference. The TCLP Rule was adopted on November 26, 1990 by the Mississippi Commission on Environmental Quality and became effective December 26, 1990. A copy of these regulations are available at the Mississippi Department of Environmental Quality as indicated in the "ADDRESSES" section of this notice.

EPA shall administer any RCRA hazardous waste permits, or portions of permits that contain conditions based upon the Federal program provisions for which the State is applying for authorization and which were issued by EPA prior to the effective date of this authorization. EPA will suspend issuance of any further permits under the provisions for which the State is being authorized on the effective date of this authorization.

Mississippi is not authorized to operate the Federal program on Indian Lands. This authority remains with EPA unless provided otherwise in a future statute or regulation.

Approval of Mississippi's program revision shall become effective in 60 days, unless an adverse comment pertaining to the State's revision discussed in this notice is received by the end of the comment period. If an adverse comment is received, EPA will publish either (1) a withdrawal of this immediate final rule or (2) a notice containing a response to the comment which either affirms that the immediate final decision takes effect or reverses the decision.

C. Decision

I conclude that Mississippi's application for this program revision meets all of the statutory and regulatory requirements established by RCRA. Accordingly, Mississippi is granted final authorization to operate its hazardous waste program as revised.

Mississippi now has responsibility for permitting treatment, storage, and disposal facilities within its borders and carrying out other aspects of the RCRA program, subject to the limitations of its program revision application and previously approved authorities. Mississippi also has primary enforcement responsibilities, although EPA retains the right to conduct inspections under section 3007 of RCRA and to take enforcement actions under section 3008, 3013 and 7003 of RCRA.

Compliance with Executive Order 12291

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Certification Under the Regulatory Flexibility Act

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this authorization will not have a significant economic impact on a substantial number of small entities. This authorization effectively suspends the applicability of certain Federal regulations in favor of Mississippi's program, thereby eliminating duplicative requirements for handlers of hazardous waste in the State. It does not impose any new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Public Land Order 6864

[Docket No. CO–932–4214–10; C–015944]

Opening of Land Subject to the Provisions of Section 24 of the Federal Power Act in Power Project No. 400; CO

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order opens, subject to the provisions of section 24 of the Federal Power Act, 15.48 acres of National Forest System lands withdrawn by Power Project No. 400. This action will permit consummation of a pending Forest Service land exchange, but will not authorize any nonproject use without the consent of the Federal Energy Regulatory Commission or the Project Licensee. The lands continue to be open to mineral leasing, but remain closed to all other uses.

EFFECTIVE DATE: June 28, 1991.

FOR FURTHER INFORMATION CONTACT: Doris Chelius, BLM Colorado State Office, 2850 Youngfield Street, Lakewood, Colorado 80215–7076, 303–239–3706.

By virtue of the authority vested in the Secretary of the Interior by the Act of June 10, 1920, section 24, as amended, 16 U.S.C. 818, and pursuant to the determination by the Federal Energy Regulatory Commission in DVCO–535, it is ordered as follows:

1. At 9 a.m. on June 28, 1991, the lands in Power Project No. 400 being 50 feet either side of the flowline of an underground pipeline, within the following described areas, will be opened to disposal by land exchange subject to the provisions of section 24 of the Federal Power Act, 16 U.S.C. 818, and that any use of the lands not authorized by the Federal Energy Regulatory Commission license for Project 400 without the consent of the Federal Energy Regulatory Commission or the Project Licensee is prohibited. This action is subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law.

New Mexico Principal Meridian

BILLING CODE 4310-JB-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

45 CFR Part 78

RIN 0905–AD32

Conditions for Waiver of Denial of Federal Benefits

AGENCY: Public Health Service, HHS.

ACTION: Final rule.

SUMMARY: This rule amends title 45 of the Code of Federal Regulations by adding a part 78 to provide definitions to assist Federal and State courts to implement section 5301 of Public Law 100–690, the Anti-Drug Abuse Act of 1988, 21 U.S.C. 853a, relating to the denial of Federal benefits to convicted drug traffickers and possessors. Among other things, this rule establishes definitions by which an individual may have his or her denial of Federal benefits waived under section 5301. The Department suggests that this rule be read in conjunction with the Department of Justice Guidelines, Denial of Federal Benefits for Certain Drug Offenders, published in the Federal Register (55 FR 37424) on September 11, 1990.

EFFECTIVE DATE: This regulation is effective July 29, 1991.

FOR FURTHER INFORMATION CONTACT: Dr. Frank Sullivan, Associate Administrator for Policy Coordination, Alcohol, Drug Abuse, and Mental Health Administration, room 12C26, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857; telephone number (301) 443–4111.

SUPPLEMENTARY INFORMATION: On September 11, 1990, the Assistant Secretary for Health, with the approval of the Secretary of Health and Human Services, published in the Federal Register (55 FR 37430), a Notice of Proposed Rulemaking (NPRM) to add a new part 78 to title 45 of the Code of Federal Regulations. The rule proposed definitions and procedures to assist Federal and State courts in their determination whether to deny Federal benefits to persons convicted of drug trafficking or drug possession. The public comment period on the proposed regulations closed on October 11, 1990, and comments were received from one Federal agency. This document considers those comments, makes minor changes to the NPRM, and adopts a final rule.

Response to Comments

The respondent's principal comment related to the Department's definition of "deemed to be rehabilitated" provided in § 78.2(a). That term, in relevant part, means "an individual has abstained from the illicit use of a controlled substance for the period of at least 180 days immediately prior to the date of sentencing * * *." According to 21 U.S.C. 853a (a)(2) and (b)(2), certain Federal benefits of drug traffickers and drug possessors will not be denied if the sentencing court determines that the individuals are "deemed to be rehabilitated."

The respondent requests modifications of the definition of "deemed to be rehabilitated" so that it can be applied consistently with the related term "has otherwise been rehabilitated" provided in 21 U.S.C. 853a(c)(B). Section 853a(c)(B) deals with the suspension of the period of ineligibility for Federal benefits, which occurs following the court's original decision to deny such benefits, and provides that the period of ineligibility will, among other things, be suspended if the individual "has otherwise been rehabilitated."

Respondent is concerned that a court at a hearing for suspension of the period of ineligibility may wish to apply the definition of "deemed to be rehabilitated" to the term "has otherwise been rehabilitated," but will find itself unable to do so. This inability would result because the proposed definition of "deemed to be rehabilitated" requires the court to find that the individual was drug-free for 180 days prior to sentencing. Since the determination whether to suspend the period of ineligibility under section 853a(c)(B) occurs after sentencing, this means that the definition of "deemed to be rehabilitated" could not literally be applied in that situation.

While the Department recognizes the reasonableness of having consistent definitions for the court to follow for these two closely related terms, it is unable to make the change requested because its authority to issue rules is limited to sections 853a (a)(2) and (b)(2); thus, it cannot explicitly extend its definition to the term "has otherwise been rehabilitated." Nevertheless, we believe a court may use the Department's definition of "deemed to be rehabilitated" as guidance and accomplish the same result, simply by requiring that an individual be drug-free for the 180 day period preceding the date on which the court finds that he or she had "otherwise been rehabilitated."

This approach is consistent with the Department of Justice Guidelines (55 FR 37434) which defines the term "has otherwise been rehabilitated" to mean, among other things, that an "individual has abstained from the illegal use of a controlled substance for a period of at least 180 days * * *." The Department of Justice Guidelines do not limit the 180 consecutive drug-free days to the date of sentencing; rather the individual must have abstained from drug use "for a period of at least 180 days." Thus, under the Department of Justice Guidelines and consistent with these regulations, a court can apply the 180 day drug-free period prior to the date of suspension of ineligibility of Federal benefits, rather than prior to sentencing.

The Department has also made some minor corrections and changes in the rule. In § 78.2(a), the reference to section 853a(a)(1) was changed to 853a(a)(2), and in § 78.2(a)(1), the reference to § 78.2(c) was changed to § 78.2(b). In § 78.3(b), the reference to section 853a(b)(1) was changed to 853a(b)(2). The words "and including" were also added to § 78.2(a) to clarify that an individual may be "deemed to be rehabilitated" only if he or she were drug-free for at least 180 days immediately prior to and including the date of sentencing. This clarifies that the individual must be drug-free on the date of sentencing as well as the period preceding.

Regulatory Flexibility Act and Executive Order 12291

In accordance with the Regulatory Flexibility Act of 1980, 5 U.S.C. 605(b), the Secretary certifies that this rule will not have a significant economic impact on a substantial number of small entities and that therefore a regulatory flexibility analysis need not be prepared.

The Secretary has determined that this rule does not meet the criteria for a

VOL 56 ISS 125 JE 28 1991 UMI

major rule under Executive Order 12291 and therefore a regulatory impact analysis is not required.

Paperwork Reduction Act of 1980

This notice of final rulemaking does not contain any requirements that are subject to review by the Office of Management and Budget under the Paperwork Reduction Act of 1980, 44 U.S.C. Chapter 35.

List of Subjects in 45 CFR Part 78

Drug abuse.

Accordingly, the Department of Health and Human Services is adding 45 CFR part 78 as set forth below:

Dated: May 17, 1991.

James O. Mason,

Assistant Secretary for Health.

Approved: June 12, 1991.

Louis W. Sullivan,

Secretary.

PART 78—CONDITIONS FOR WAIVER OF DENIAL OF FEDERAL BENEFITS

Sec.
78.1 Applicability.
78.2 Definitions.
78.3 Benefits not denied to rehabilitated offenders.

Authority: Section 5301 of Pub. L. 100-690, the Anti-Drug Abuse Act of 1988, 102 Stat. 4310, 21 U.S.C. 853a.

§ 78.1 Applicability.

This part is applicable to any decision to deny Federal benefits, under authority of 21 U.S.C. 853a, to an individual convicted of a Federal or State offense involving distribution or possession of a controlled substance as defined by the Controlled Substances Act, 21 U.S.C. 802.

§ 78.2 Definitions.

For the purposes of denying Federal benefits under 21 U.S.C. 853a:

(a) *Deemed to be rehabilitated* means that an individual has abstained from the illicit use of a controlled substance for the period of at least 180 days immediately prior to and including the date of sentencing provided that such abstinence is documented by the results of periodic urine drug testing conducted during that period; and provided further that such drug testing is conducted using an immunoassay test approved by the Food and Drug Administration for commercial distribution or, in the case of a State offense, either using an immunoassay test approved by the Food and Drug Administration for commercial distribution or pursuant to standards approved by the State.

(b) *Long-term treatment program or long-term drug treatment program* means any drug abuse treatment program of 180 days or more where the provider has been accredited by the Joint Commission on Accreditation of Health Organizations, the Commission on Accreditation of Rehabilitation Facilities, or the Council on Accreditation of Services for Families and Children, or licensed or otherwise approved by the State to provide drug abuse treatment.

§ 78.3 Benefits not denied to rehabilitated offenders.

(a) No individual convicted of any Federal or State offense involving the distribution of controlled substances shall be denied Federal benefits relating to long-term drug treatment programs for addiction under 21 U.S.C. 853a(a)(2) if:

(1) The individual declares himself or herself to be an addict and submits to a long-term treatment program for addiction as defined by § 78.2(b), provided that in the determination of the sentencing court there is a reasonable body of evidence to substantiate the individual's declaration that such individual is an addict; or

(2) The individual is, in the determination of the sentencing court, deemed to be rehabilitated as defined by § 78.2(a).

(b) No individual convicted of any Federal or State offense involving the possession of controlled substances shall be denied any Federal benefit, or otherwise subject to penalties and conditions, under 21 U.S.C. 853a(b)(2) if:

(1) The individual declares himself or herself to be an addict and submits to a long-term treatment program for addiction as defined by § 78.2(b), provided that in the determination of the sentencing court there is a reasonable body of evidence to substantiate the individual's declaration that such individual is an addict; or

(2) The individual is, in the determination of the sentencing court, deemed to be rehabilitated as defined by § 78.2(a).

Proposed Rules

Federal Register
Vol. 56, No. 125
Friday, June 28, 1991

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

7 CFR Parts 271, 272, 273, and 278

[Amdt. No. 335]

Food Stamp Program: Miscellaneous Provisions of the Mickey Leland Memorial Domestic Hunger Relief Act and food Stamp Certification Policy

AGENCY: Food and Nutrition Service, USDA.

ACTION: Proposed rule.

SUMMARY: This action proposes to amend Food Stamp Program regulations as a result of certain provisions of the Mickey Leland Memorial Domestic Hunger Relief Act (Pub. L. 101-624, Title XVII), the Omnibus Budget Reconciliation Act of 1990 Pub. L. 101-508), and additional certification policy questions. The following proposals are being made to implement Public Law 101-624: (1) Providing supplemental security income (SSI) applicants or recipients with the same information at the social security office as social security applicants or recipients receive, (2) expanding the type of group homes not considered institutions in Guam and the Virgin Islands, (3) increasing the minimum benefit for one- and two-person households, and (4) clarifying the method for State agencies to follow in offering eligible households a deduction for certain recurring medical expenses. As a result of section 5040 of Public Law 101-508, references to a single application for SSI and food stamps will be removed. In addition to these provisons, the Department is taking this opportunity to propose changes which were called to our attention through policy questions or our experience. The changes are: (1) Elderly or disabled aliens with temporary status would be eligible for food stamps, and (2) a technical correction to clarify which allowances received under the Job Training Partnership Act would be counted as income for food stamp purposes.

DATES: Comments on this proposed rulemaking must be received on or before July 29, 1991 in order to be assured of consideration.

ADDRESSES: Comments should be submitted to Judith M. Seymour, Supervisor, Certification Rulemaking Section, Eligibility and Monitoring Branch, Program Development Division, Food Stamp Program, Food and Nutrition Service, USDA, 3101 Park Center Drive, Alexandria, Virginia 22302 or FAX (703) 756-4354. All written comments will be open to public inspection during regular business hours (8:30 a.m. to 5 p.m. Monday through Friday) in room 720 at the above address.

FOR FURTHER INFORMATION CONTACT: Ms. Seymour, at the above address or, by telephone at (703) 756-3496.

SUPPLEMENTARY INFORMATION:

Classification

Executive Order 12291

This proposed rule has been reviewed by the Assistant Secretary of Food and Consumer Services under Executive Order 12291 and has been classified as not major because it does not meet any of the three criteria identified under the Executive Order. This action will not have an annual effect on the economy of $100 million or more, nor will it result in major increases in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions. Furthermore, it will not have significant adverse effects on completion, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Executive Order 12372

The Food Stamp Program is listed in the Catalog of Federal Domestic Assistance under No. 10.551 and is subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. (7 CFR part 3015, subpart V and 48 FR 29112, June 24, 1983.)

Regulatory Flexibility Act

This proposed rule has been reviewed with regard to the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 through 612). Betty Jo Nelsen, the Administrator of the Food and Nutrition Service has certified that this rule will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

This proposed rule does not contain reporting or recordkeeping requirements subject to approval by the Office of Management and Budget (OMB).

Background

On November 28, 1990, the President signed Public Law 101-624, which included the Mickey Leland Memorial Domestic Hunger Relief Act. The new law made a number of changes to food stamp policy, some of which are discussed in this proposed regulation. In addition to the changes resulting from Public Law 102-624, three other changes to program regulations are being proposed.

Inform All SSI Households of Food Stamp Program at Social Security Offices (7 CFR 273.2(k)(1)(i)(H) and 273.2(m))

Under current regulations at 7 CFR 273.2(k)(1)(i), if all members of a household receive SSI, then the household may apply for food stamps at the Social Security Administration (SSA) office (social security office). If only some household members receive SSI, then the SSA office does not take a food stamp application from the household.

The processing requirements are different for applicants or recipients of social security benefits under title II of the Social Security Act (42 U.S.C. 401). Under 7 CFR 273.2(l), an individual who is applying for or receiving social security benefits must be told about the Food Stamp Program and also told that a simple food stamp application form is available at the social security office.

Section 1741 of Public Law 101-624 extended these requirements to all persons applying for or receiving *SSI.* This is a straightforward change in the law to make the program more uniformly accessible to applicants for or recipients of SSI.

Accordingly, a new § 273.2(m) is proposed to be added to extend the same informational benefits to individuals who are applying for or receiving SSI as those who are applying for or receiving social security already receive. Also, 7 CFR 273.2(k)(1)(i)(H) is proposed to be amended to make a conforming change to delete the requirement that SSI applicants or recipients be referred to the food stamp office to find out about the program and receive an application.

Expanding of Types of Group Homes Not Considered Institutions (7 CFR 271.2, 273.1(e)(iii), and 278.1(f)

Under section 3(i) of the Food Stamp Act of 1977 (7 U.S.C. 2021(i)), as amended, persons who live in institutions or boarding houses cannot receive food stamps, unless certain criteria are met. (These criteria are set forth in section 3(i) of the Act and in the definition of "Group living arrangement" in 7 CFR 271.2 of the regulations.) As relates to elderly, blind, and disabled individuals, these criteria require that: (1) *The meals* must be prepared and served by a group living arrangement facility to no more than sixteen residents who are *blind* or *disabled* recipients of benefits under title II (Old-Age, Survivors, and Disability Insurance Benefits—social security), or title XVI (Supplemental Security Income for the Aged, Blind, or Disabled) of the Social Security Act (see definition of "eligible foods" at 7 CFR 271.2), (2) the institution must meet criteria defined under regulations issued under section 1616(e) of the Social Security Act (see definition of "group living arrangement" at 7 CFR 271.2), and (3) individuals must meet criteria designating them as disabled or blind persons receiving social security or SSI (see 7 CFR 273.1(e)(1)(iii)).

Guam and the Virgin Islands do not have an SSI program. Instead, they have Old Age Assistance, Aid to the Permanently and Totally Disabled, and Aid to the Blind—programs which SSI replaced elsewhere. Because they have no SSI program, blind and disabled citizens who live in group homes in Guam and the Virgin Islands are considered residents of institutions and therefore ineligible for the Food Stamp Program.

Section 1712 of Public Law 101-624 amended sections 3(g) and 3(i) of the Food Stamp Act (7 U.S.C. 2012(g) and (i)) to extend the same food stamp benefits to blind and disabled residents of Guam and the Virgin Islands as they would receive in the 50 States and D.C. Thus, they would no longer be considered "residents of institutions" for food stamp purposes, their residences would qualify to be considered group living arrangements, and their meals would be considered eligible food.

In order to implement this provision, 7 CFR 271.2, 273.1(e)(iii), and 278.1(f) are proposed to be amended to: (1) Change the definition of "eligible foods" to add meals prepared and served under titles I (Old Age Assistance), II (Social Security), X (Aid to the Blind), and XIV (Aid to the Permanently and Totally Disabled) of the Social Security Act, (2) change the definition of group living arrangements to include institutions in Guam and the Virgin Islands, and (3) clarify that residents of group living arrangements which are certified under standards determined by the Secretary to be comparable to standards under the Social Security Act are eligible for food stamps.

Minimum Benefit (7 CFR 271.2 and 271.2)

Under section 8(a) of the Food Stamp Act (7 U.S.C. 2017(a)) and 7 CFR 273.10(e)(2)(ii)(C), one- and two-person households are entitled to a minimum monthly food stamp allotment of $10.

Under section 1730 of Public Law 101-624, section 8(a) of the Act was amended to provide that the minimum benefit be adjusted based on annual changes in the Thrifty Food Plan (TFP) rounded to the nearest $5. (The TFP is a model food plan which households can use to purchase a low-cost, nutritionally adequate diet. Food stamp allotments are based upon 103 percent of the TFP for a particular month for a family of four. The cost of the TFP is updated each month based upon certain changes in food costs determined by the Bureau of Labor Statistics (BLS).)

In order to implement this provision, the Department is proposing that future adjustments in the minimum benefit be made as follows:

(1) Each year, the percentage change in the TFP from the preceding June to the current June (prior to rounding) will be calculated. For example, the June 1990 TFP (prior to rounding) was $342.25, and the June 1989 TFP was $324.55 for a percentage increase of 5.45 percent.

(2) This percentage change would be multiplied by the previous "unrounded" minimum benefit to obtain a new unrounded minimum benefit. The new unrounded minimum benefit would be rounded to the nearest $5 in accordance with the statute. The current minimum benefit of $10 would be considered the unrounded minimum benefit for the first year. Thus, for the current year, the minimum benefit of $10 would be multiplied by the percentage increase of 5.45 percent and a new unrounded minimum benefit of $10.55 would be obtained. This unrounded minimum benefit would be rounded to the nearest $5, resulting in no change from the current $10 minimum benefit. For fiscal year 1992 (the fiscal year beginning October 1, 1991), the percentage increase in the TFP from June 1990 to June 1991 will be multiplied by the fiscal year 1991 unrounded minimum benefit of $10.55 to obtain a new unrounded minimum benefit.

(3) Each year's unrounded and rounded minimum benefit numbers would be announced in the same manner as the other food stamp cost-of-living adjustments. (Because of the statutory rounding to the nearest $5, it will take some time before the unrounded minimum benefit will result in an increase in the minimum benefit to $15.)

Accordingly, 7 CFR 271.2 is proposed to be amended to reflect a new definition for minimum benefit. In addition, 7 CFR 271.7 (b) and (d) and 273.10(e)(2) (ii)(C) and (vi)(B) and 273.18(g)(3) are being amended to make conforming changes to remove references to the $10 minimum benefit.

Verification of Recurring Anticipated Medical Expenses/Excess Medical Deduction (7 CFR 273.10(d)(8) and 273.21(i)(1))

Under current regulations at 7 CFR 273.2(f)(1), new applicants must have certain information verified before they are certified. Since medical expenses which exceed $35 a month may be deducted for household members who are elderly or disabled as defined in 7 CFR 271.2, the information which must be verified includes the amount of any medical expenses deductible under 7 CFR 273.9(d)(3).

There are special rules for households whose medical expenses change during the certification period. For households not on monthly reporting, 7 CFR 273.12(a)(1)(vi) provides that changes greater than $25 in the total amount of allowable medical expenses must be reported. If the change is reported at recertification, previously unreported medical expenses and total recurring medical expenses which have changed by more than $25 must be verified prior to recertification, and changes of $25 or less must be verified only if they are questionable (7 CFR 273.2(f)(8)).

For monthly reporting/retrospective budgeting households, the household must choose one of two options under 7 CFR 273.21(i). It must: (1) Report all allowable medical expenses each month and verify expenses which have changed or are questionable, or (2)

VOL 56 ISS 125 JE 28 1991 UMI

report and verify only changes of more than $25 in total allowable medical expenses. If the household does not verify its monthly allowable medical expenses in accordance with whichever option it has chosen, it will not receive the medical deduction in accordance with 7 CFR 273.21(j)(5)(iii) (C) and (D). Thus, the regulations require some monthly reporting households to report and verify their medical expenses monthly.

Section 1717 of Public Law 101-624 amended section 5(e) of the Food Stamp Act (7 U.S.C. 2014(e)) to take into account situations where certain reasonably anticipated recurring medical expenses are expected to change. According to the language of the statute, the method: (1) Must "rely on reasonable estimates of the (household) member's expected medical expenses for the certification period (including changes that can be reasonably anticipated based on available information about the (household) member's medical condition, public or private medical insurance coverage, and the current verified medical expenses incurred by the member)" and (2) must "not require further reporting or verification of a change in medical expenses if" that change had "been anticipated for the certification period". Since section 1717 reflects current policy, food stamp regulations do not need to be revised.

Prerelease/Single-Application Requirement (7 CFR 273.2(c)(1), 273.2(i)(3)(i), and 273.2(k)(1)(i)(D))

Section 11006 of the Anti-Drug Abuse Act of 1988 (Pub. L. 99-570, enacted October 27, 1988), allows individuals in institutions applying for SSI and food stamp benefits to complete a single application for SSI and food stamps before they are released from the institution. On January 30, 1989, the Department published final regulations at 54 FR 4249 concerning this provision. At that time, the Social Security Administration (SSA) accepted SSI applications from individuals not yet discharged from an institution under their Prerelease Program for the Institutionalized. However, there were no similar procedures in Food Stamp Program regulations for processing food stamp applications for residents of public institutions prior to their release from the institution. Consequently, residents of institutions had to wait until they were released before they could apply for food stamp benefits.

As a result of the Anti-Drug Abuse Act of 1988, SSA and FNS began development of a single combined application form which would be accepted at the institution under SSA's Prerelease Program for the Institutionalized. The combined application form would be forwarded by SSA to the food stamp office. Since development of the single application has still not been completed, State agencies have not been required to implement the single application provision. Instead, current food stamp regulations at 7 CFR 273.1(e)(2) specify that certain residents of public institutions are permitted to apply for food stamps at the same time as they apply for SSI.

On November 5, 1990, section 5040 of the Social Security Act was amended by Public Law 101-508, the Omnibus Budget Reconciliation Act of 1990, to provide that, instead of a single joint application form, the Secretaries of the Departments of Health and Human Services and Agriculture would be required to establish procedures under which an individual could apply for food stamps at the same time he/she applies for SSI. Since this is the procedure currently being followed, no substantive change in food stamp regulations is necessary. However, in order to clarify that a single application is no longer required, the regulations are proposed to be amended to remove references to a single application.

Accordingly, 7 CFR 273.2(c)(1), 273.2(i)(3)(i), and 273.2(k)(1)(i)(D) are proposed to be amended to clarify that there will not be a separate joint application form for food stamps and SSI.

Elderly/Disabled Aliens With Temporary Status (7 CFR 273.4(a)(12))

Section 6(f) of the Food Stamp Act (7 U.S.C. 2015(f)) provides that in order to be eligible for food stamp assistance, applicants must be residents of the U.S. and either U.S. citizens or certain types of aliens. The Immigration Reform and Control Act of 1986 (IRCA), Public Law 99-603, dated November 6, 1986 (8 U.S.C. 1255c), established a number of new categories of legal aliens, some of which were eligible to participate in the Food Stamp Program. Current regulations at 7 CFR 273.4(a)(2)-(11) specify the types of aliens which are eligible for food stamps and set forth the circumstances under which aliens admitted to the U.S. as a result of the Immigration and Nationality Act (INA) can receive food stamps. Under 7 CFR 273.4(a), aliens lawfully admitted for permanent residence pursuant to section 245A of the INA must be aged, blind, or disabled (as defined in section 1614(a)(1) of the Social Security Act) and they must meet one of two criteria established by the Department in order to be eligible to receive food stamps. These are that they must be either: (1) Lawfully admitted for permanent residence, or (2) have received their lawful temporary resident status at least five years prior to applying for food stamps and they must have subsequently gained lawful permanent resident status pursuant to section 245A(b)(1) of the INA. Thus, under the Department's interpretations at 7 CFR 273.4(a), aged, blind, or disabled aliens who were originally admitted for temporary residence must wait five years prior to receiving food stamps, while aged, blind, or disabled aliens who were originally admitted for permanent residence were entitled to receive food stamps immediately.

The five-year ban on receiving food stamps related to a general provision under section 201(h) of IRCA that there would be a five-year ban on the participation of lawful temporary residents in certain federal assistance programs, one of which was the Food Stamp Program. However, section 245A(h) of IRCA specified that there would be two exceptions to this general ban. The first exception was Cuban and Haitian entrants [as defined in paragraph (1) or (2)(A) of section 501(c) of Pub. L. 96-422], and the second exception was for aged, blind, or disabled individuals [as defined in section 1614(a)(1) of the Social Security Act].

Since Cuban and Haitian entrants were already eligible to participate in the Food Stamp Program, the eligibility of Cubans and Haitians was not affected by the IRCA.

With regard to the second exception, the Department's original interpretation was set forth at 52 FR 20055, dated May 29, 1987. That is, in accordance with section 6(f) of the Food Stamp Act, these aged, blind, or disabled aliens must be in permanent resident status in order to receive food stamps. However, a question was raised about the Department's interpretation, causing the Department to reconsider its original interpretation. The Department now believes that the exception set forth in IRCA was meant to apply to aged, blind, or disabled individuals regardless of whether they were admitted for permanent residence or for temporary residence. The Department implemented this new interpretation in Indexed Policy Memo 3-90-35 dated August 22, 1990. It is also proposing that the regulations be revised to reflect this new interpretation. In accordance with current rules at 7 CFR 273.17, up to 12 months of restored benefits should be given upon request to any aged, blind, or disabled person who was denied benefits because he or she was admitted for temporary residence under section 245A of the INA.

Accordingly, 7 CFR 273.4(a)(8) is proposed to be amended to broaden the categories of aged, blind, or disabled aliens who may receive food stamps.

Technical Correction Concerning Certain Allowances Under the Job Training Partnership Act (JTPA) (7 CFR 273.9(b)(1)(iii) and 273.9(c))

Under 7 CFR 273.9(b), certain income and training allowances are considered to be earned income for food stamp purposes. As a result, this income must be counted toward a household's food stamp gross income, although under 7 CFR 273.9(d)(2), a deduction for 20 percent of gross earned income can be taken in calculating net income. Under 7 CFR 273.9(b)(1)(iii), allowances received through programs authorized by the JTPA would not be considered earned income. This is an oversight in the regulations, which arose because of a change in the JTPA which was never incorporated into the food stamp regulations (see 54 FR 12169, dated March 24, 1989).

The salient history is that income allowances, earnings, and payments to individuals participating in job training programs under the JTPA were originally excluded from consideration as income by the JTPA (Pub. L. 97-300, 96 Stat 22, October 13, 1981). That law was amended by section 1509(c) of the Food Security Act of 1985 (Pub. L. 99-198, December 23, 1985) to include most JTPA payments or allowances as food stamp income (except for earnings to individuals under age 19 participating in training programs under section 204(5) of Pub. L. 97-300).

Accordingly, 7 CFR 273.9(b)(1)(iii) and 273.9(c) are being amended to insure that most JTPA allowances are counted as income and that JTPA allowances under section 204(5) of the JTPA will be excluded.

List of Subjects

7 CFR Part 271

Administrative practice and procedures, Food stamps, Grant program-social programs.

7 CFR Part 272

Alaska, Civil rights, Food stamps, Grant programs-social programs, Reporting and recordkeeping requirements.

7 CFR Part 273

Administrative practice and procedure, Aliens, Claims, Food stamps, Fraud, Grant programs-social programs, Penalties, Reporting and recordkeeping requirements, Social Security, Students.

7 CFR Part 278

Administrative practice and procedure, Food stamps, Groceries-retail, Groceries, general line-wholesaler, Penalties.

Accordingly, 7 CFR parts 271, 272, 273, and 278 are proposed to be amended as follows:

1. The authority citation for parts 271, 272, 273, and 278 continues to read as follows:

Authority: 7 U.S.C. 2011-2031.

PART 271—GENERAL INFORMATION AND DEFINITIONS

§ 271.2 [Amended]

2. In § 271.2,

a. In the definition of "Eligible foods," paragraph (5) is amended by adding the words "Title I," before the words "title II, and by adding the words ", Title X, Title XIV," after the words "title II";

b. In the definition for "Group living arrangement," the first sentence is amended by adding the words "or under standards determined by the Secretary to be comparable to standards implemented by appropriate State agencies under section 1616(e) of the Social Security Act" at the end of the sentence before the period and the second sentence is amended by adding the words "Title I," before the words "title II" and by adding the words ", Title X, Title XIV," after the words "title II"; and

c. A new definition for "Minimum benefit" is added.

The addition reads as follows:

§ 271.2 Definitions.

* * * * *

Minimum benefit means the minimum monthly amount of food stamps that one- and two-person households receive. The amount of the minimum benefit will be reviewed annually and adjusted to the nearest $5 each October 1 based upon the percentage change in the Thrifty Food Plan for the twelve month period ending the preceding June.

* * * * *

§ 271.7 [Amended]

3. In § 271.7,

a. Paragraph (b) is amended by removing the words "a minimum benefit of $10" in the last sentence and adding the words "the minimum benefit" in their place;

b. Paragraph (d)(1)(ii) is amended by removing the words "a minimum benefit of $10" in the third sentence and adding the words "the minimum benefit" in their place;

c. Paragraph (d)(2)(i) is amended by removing the words "a $10 minimum benefit level' in the second sentence and adding the words "the minimum benefit" in their place; and

d. Paragraph (d)(3) is amended by removing the words "$10 shall receive a minimum benefit of $10" in the second sentence and adding the words "the minimum benefit shall receive the minimum benefit" in their place.

PART 273—CERTIFICATION OF ELIGIBLE HOUSEHOLDS

§ 273.1 [Amended]

4. In § 273.1, paragraph (e)(1)(iii) is amended by adding the words "Title I," before the words "title II" and by adding the words ", title X, Title XIV," after the words "title II";

5. In § 273.2,

a. In paragraph (i)(3)(i) the second sentence is amended by adding the words "food stamp" before "applicaiton";

b. In paragraph (k)(1)(i)(D) the second sentence is removed;

c. In paragraph (k)(1)(i)(H) the first sentence is revised; and

d. Paragraph (m) is added.

The revision and addition read as follows:

§ 273.2 Application processing.

* * * * *

(k) *SSI households.* * * *

(1) *Initial application and eligibility determination.* * * *

(i) * * *

(H) The SSA shall refer non-SSI households to the correct food stamp office. * * *

* * * * *

(m) *Households where not all members are applying for or receiving SSI.* An applicant for or recipient of SSI shall be informed at the SSA office of the availability of benefits under the Food Stamp Program and the availability of a food stamp application at the SSA office. The SSA office is not required to accept applications or to conduct interviews for SSI applicants or recipients who are not members of households in which all are SSI applicants or recipients unless the State agency has chosen to outstation eligibility workers at the SSA office. In this case, processing shall be in accordance with § 273.2(k)(1)(ii).

§ 273.4 [Amended]

6. In § 273.4, paragraph (a)(8) is amended by adding the words "temporary or" after the word "for" and before the word "permanent".

7. In § 273.9:

VOL
56
ISS
125
JE
28
1991
UMI

a. Paragraph (b)(1)(iii) is amended by removing the words ", except for allowance received through programs authorized by the Job Training Partnership Act"; and

b. Paragraph (c)(15) is added to read as follows:

§ 273.9 Income and deductions.

* * * * *

(c) *Income exclusions.* * * *

(15) Earnings to individuals who are participating in on-the-job training programs under section 204(5), title II, of the Job Training Partnership Act (Pub. L. 97-300), provided that these individuals are under age 19 and are under the parental control of another adult member of the household.

* * * * *

8. In § 273.10,

a. Paragraph (e)(2)(ii)(C) is amended by removing the words "of $10" and adding the words, "equal to the minimum benefit" in their place;

b. Paragraph (e)(2)(vi)(B) is revised;

c. Paragraph (e)(2)(vi)(D) is amended by removing the words "a $10" and replacing them with the word "the";

The revision reads as follows:

§ 273.10 Determining household eligibility and benefit levels.

* * * * *

(e) *Calculating net income and benefit levels*—* * *

(2) * * *

(vi) * * *

(B) Except as provided in paragraphs (a)(1), (e)(2)(ii)(B), and (e)(2)(vi)(C) of this section, one- and two-person households shall be provided with at least the minimum benefit.

* * * * *

§ 273.18 [Amended]

9. In § 273.18, paragraph (g)(4) is amended by removing the words "a $10 minimum benefit level" and adding the words "the minimum benefit" in their place.

PART 278—PARTICIPATION OF RETAIL FOOD STORES, WHOLESALE FOOD CONCERNS AND INSURED FINANCIAL INSTITUTIONS

§ 278.1 [Amended]

10. In § 278.1, the second sentence of paragraph (f) is amended by adding the words "or under standards determined by the Secretary to be comparable to standards implemented by appropriate State agencies under section 1616(e) of the Social Security Act" at the end of the sentence, before the period.

Dated: June 24, 1991.

Betty Jo Nelsen,

Administrator.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

National Highway Traffic Safety Administration

23 CFR Parts 1200, 1204, and 1205

[Docket No. 81-12, Notice 7]

RIN 2127-AD66

Uniform Procedures for State Highway Safety Programs

AGENCY: Federal Highway Administration (FHWA) and National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes the establishment of uniform procedures governing approval, implementation, and management of State highway safety programs. It would implement the Department's rule concerning the administration of grants with State and local governments as it applies to highway safety programs, update and codify existing procedures, and delete obsolete provisions.

DATES: Comments must be received on or before August 12, 1991. The proposed rule would be effective for fiscal year 1992 highway safety programs.

ADDRESSES: Comments must identify the docket and notice numbers set forth above and be submitted (preferably in 10 copies) to the Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street SW., Washington, DC 20590. Hand-delivered copies should be taken to room 5111. The Docket is open from 9:30 a.m. to 4 p.m. Monday through Friday.

FOR FURTHER INFORMATION CONTACT: In NHTSA, Brian McLaughlin, Regional Coordinator, NHTSA, 202-366-2121. In FHWA, Thomas A. Hall, Chief, Safety Management Division, Federal Highway Administration, 202-366-2171.

SUPPLEMENTARY INFORMATION:

Background

On September 9, 1966, the Highway Safety Act of 1966 (23 U.S.C. 401 *et seq.*) was enacted into law. Section 402 of the Act establishes a formula grant program to improve highway safety in the States. As a condition of the grant, the States must meet certain requirements. Section 402(a) of the Act requires each State to have a highway safety program approved by the Secretary of Transportation, which is designed to reduce traffic accidents and the deaths, injuries, and property damage resulting from those accidents. Section 402(b) of the Act sets forth the minimum requirements with which the State's highway safety program must comply. For example, the Secretary may not approve a program unless it provides that the Governor of the State is responsible for its administration, through a State highway safety agency which has adequate powers and is suitably equipped and organized to carry out the program to the satisfaction of the Secretary. Additionally, the program must authorize political subdivisions of the State to carry out local highway safety programs and provide a certain minimum level of funding for these local programs each fiscal year. The enforcement of these and other requirements is entrusted to the Secretary.

The Secretary's authority under section 402 of the Act has been delegated to the Administrators of the National Highway Traffic Safety Administration and the Federal Highway Administration ("the agencies") for highway safety programs within their respective jurisdictions. In carrying out their delegated duties, the agencies have, over time, issued regulations, order, program manuals, and guidance memoranda implementing the requirements of section 402 and establishing procedures for the administration of State highway safety programs. The issuance of guidance materials has continued as the concept of the State highway safety program has evolved, with the result that guidance or procedures governing the section 402 program appear in a variety of different documents, many of which are now obsolete. The continuing presence of potentially conflicting guidance has led to confusion among some States as to current procedures.

On March 11, 1988, Federal grant-making agencies issued a common rule requiring consistency and uniformity among Federal agencies in the administration of grants and cooperative agreements to State, local, and Federally recognized Indian tribal governments. The Department of Transportation's codification of that rule, with specific exceptions applicable to its programs (49 CFR part 18, "the Common Rule"), became effective, in part on March 12, 1989, and in full on October 1, 1989.

The Common Rule directed some fundamental changes in the administration of grants and cooperative agreements with State, local, and Indian tribal governments. Embodying the principles of federalism, it provided that in the areas of financial management, equipment, procurement, and administration of subgrants, States would expend and account for grant funds in accordance with their own laws and procedures. On July 14, 1988, a Departmental Order directed each of the modal administrations to implement the Common Rule, as it applies to agency grant programs (DOT Order 4600.9C).

The agencies appointed a task force to explore options for achieving greater regional uniformity in the procedural implementation of the program. The task force also considered the effects of the Common Rule on the agencies' then current program management procedures and determined that some changes in those procedures would be necessary. The task force recommended that uniform procedures for the approval, procedural implementation, and administration of the section 402 program, consistent with both section 402 of the Act and the provisions of the Common Rule, be codified in a rule and that inconsistent or obsolete materials be rescinded.

Proposal

A. General

The agencies propose to adopt, in a rule, uniform procedures governing State highway safety programs. The rule would include procedures for the submission, content, and approval of the State highway safety plan ("the HSP") (the document in which the State describes its proposed highway safety program and applies for Federal funds), and general requirements for implementation of the program. All duplicative, inconsistent, or obsolete guidance would no longer have effect. To that end, the agencies propose simultaneously to delete supplements A through I to 23 CFR 1204.4, which contain inconsistent and outdated information. The guidance contained in these supplements would be superceded by the applicable provisions of the proposed rule. The rescinding of inconsistent or outdated agency orders, program manuals, and other materials would be accomplished separately by notice or memorandum following the publication of a final rule.

It should be noted that while this Notice would also amend 23 CFR part 1205, Highway Safety Programs; Determinations of Effectiveness, it would not delete or amend the following sections of the Code of Federal Regulations: 23 CFR part 1200, Rules of Procedure for Invoking Sanctions Under the Highway Safety Act of 1966; 23 CFR part 1208, National Minimum Drinking Age; 23 CFR part 1230, Highway Safety Program Standards—Applicability to Federally Administered Areas; 23 CFR part 1250, Political Subdivision Participation in State Highway Safety Programs; 23 CFR part 1251, State Highway Safety Agency and 23 CFR part 1252, State Matching of Planning and Administration Costs.

In accordance with the Department's July 14, 1988 Order, the agencies also propose to implement formally the provisions of the Common Rule, as it applies to the administration of the section 402 program. The proposed implementation would clarify the application of some of its sections to the unique requirements of the section 402 program, while leaving essentially unchanged the Common Rule's requirements.

The proposed action would combine or reference, in title 23, chapter II of the Code of Federal Regulations, the major requirements which apply to State highway safety programs. While a significant goal of this proposal action is to achieve uniformity in the procedural implementation of the section 402 program, it does not impose procedures which vary significantly from those which are currently being followed by the States and the agencies' field offices. Interested parties are encouraged to submit comments on any aspect of this proposed action. States are especially encouraged to comment on those portions that would implement the Federalism provisions of the Common Rule.

B. Highlighted Provisions

Three-year HSP. Current procedures involve the submission of an annual HSP. As a result of the favorable response to NHTSA's pilot program testing a 3-year HSP, the proposed rule would authorize the submission of a 3-year HSP by any State, with advance notice to the approving official in each agency. The preparation and program approval of a 3-year HSP would assist both the States and the approving officials in long-range highway safety planning efforts. Administrative requirements for a 3-year HSP would continue to be imposed on a fiscal year basis. The obligation of funds would remain an annual requirement because funds for the section 402 program are appropriated by Congress on a fiscal year basis. Similarly, liquidation of obligations would occur annually, as provided by the Common Rule. The annual reporting requirement would be retained for a 3-year HSP to assist the planning process in general, to provide timely notice of problems or concerns meriting further attention in the HSP, and because the scope and complexity of a single report covering a 3-year period would place undue strain on State resources.

Agency Decisions. Review and approval of the HSP, authorization of changes, and time-extensions for an HSP, which appear in §§ 1200.11, 1200.13, and 1200.31, respectively, are currently delegated to the Regional Administrators of both agencies. For FHWA, the authority has been redelegated to the FHWA Division Administrator in each state. This proposal refers to NHTSA Regional Administrators and FHWA Division Administrators as "approving officials".

NHTSA Appeals. A new provision is proposed which allows appeals of all important decisions by a NHTSA approving official in these and other sections of the proposed rule. The appeal would be to the Deputy Administrator of NHTSA.

Obligation of Federal Funds. In the past, States have expressed concern that delays in the appropriation process at the start of a fiscal year might result in a concomitant delay in authorization to incur expenses under a new HSP. Because the Agencies possess contract authority with respect to authorized section 402 funds, the continuity of the program is unaffected by appropriation delays. Agency obligation procedures would be clarified to alleviate this concern.

Changes. Section 1200.13 lists requirements imposed by the Common Rule under which permission must be sought for budget or programmatic changes. These requirements have been listed in terms which clarify their application to the section 402 program. Requirements which appear in the Common Rule but are irrelevant to the program are not included. The submission of the identified standardized forms for both changes requiring prior approval and those which do not require approval is necessary so that Federal accounting records may be adjusted to accurately reflect the status of funds.

Equipment. The proposed rule's requirements covering items identified in the Common Rule as "equipment" and "supplies" are identical in effect to the requirements of the Common Rule. However, the terms "major equipment" and "non-major equipment" would be substituted for the Common Rule's terms "equipment" and "supplies."

VOL 56 ISS 125 JE 28 1991 UMI

respectively, because the former terms more closely convey the terminology used in the section 402 program. This purely semantic distinction is made in recognition of the fact that many items common to the section 402 program that would be treated by the Common Rule as supplies (e.g., breathalizers, radar detectors) are not usually characterized by State program officials as supplies, but rather as types of equipment. These program officials are generally not the officials responsible for overall property control in the State, and they sometimes characterize property items in a manner which is inconsistent with the State categories. This has led to some confusion concerning the proper implementation of the Common Rule for the Section 402 program. Moreover, the Common Rule's requirement concerning disposition of supplies speaks only to "a residual inventory of unused supplies," leaving unaddressed the disposition of used non-expendable personal property, also falling within its definition of supplies. As a practical matter, unused supplies requiring disposition are not a prominent feature of the section 402 program (because of the program's continuing nature), but used items are commonplace and require guidance concerning disposition. The proposed rule would address these concerns by identifying two types of tangible personal property: Major Equipment and Non-Major Equipment. The definition of major equipment would be identical in effect to the definition of equipment in the Common Rule. A State could elect, in writing, to use its own definition of major equipment under the conditions stated in the proposed rule, which mirror the provisions governing equipment in the Common Rule. The management and disposition of major equipment would be in accordance with State laws and procedures, as provided by the Common Rule. Under major equipment, the proposed rule also restates the Common Rule's procedures covering the right of the Government to transfer title and those covering Federally furnished property. Non-major equipment would be defined as all tangible personal property not meeting the definition of major equipment, including supplies. This definition is equivalent to the definition of supplies in the Common Rule. Under the proposed rule, States would manage and dispose of all non-major equipment in accordance with State laws and procedures, except as otherwise provided by the Common Rule. All equipment, major and non-major, would be required to be used for the originally authorized grant purposes for as long as the program need exists. Previous Inspector General audit reports have cited instances where grant-acquired property has been inadequately tracked or diverted to uses other than those authorized under the agency's statutory grant authority. Notable examples include a 1988 report citing twelve vehicles, one airplane, and various ancillary equipment with a total value of approximately $80,000, a 1989 report citing unspecified nonexpendable personal property purchased by a State office of highway safety with Federal funds, "but not used by that office," and a 1990 report citing a printer, a specialized radio, video equipment, and ten other items with a total value in excess of $15,000. Responding to the criticisms contained in these reports, the proposed rule would make it clear that diverting section 402 grant-acquired property away from highway safety related activities while a need still exists is not permissible. This is consistent with the large body of Federal grant law requiring that grantees use grant funds only for authorized grant purposes and only in accordance with the terms and conditions of the grant. The restriction on use would have no effect on the State's management of grant-acquired property or on their disposition of such property after the program need is fulfilled.

Program Income. The Common Rule provides that program income shall ordinarily be deducted from total allowable costs to determine net allowable costs, but provides for the use of identified alternative methods by regulation. Since the section 402 program is a formula grant program, a State is entitled to the full amount of its apportioned funds, with rare exceptions. Hence, use of the deduction method to reduce claimed costs would not result in a credit to the Government, as the State's entitlement to these funds would remain unaffected. The ultimate effect of using the deduction method in the section 402 program would be to add the full amount of reduced costs back into the program for the State's use. This result is equivalent to the one which would be achieved under the addition method identified in the Common Rule. For this reason, the agencies have proposed the addition method as the standard method for treatment of program income and, as provided by the Common Rule, the option to use the cost sharing or matching method only with the prior approval of the approving official.

Closeout. In accordance with the grant rule, the agencies propose that the evaluation report be submitted within 90 days after the end of each fiscal year, include to closeout. Prior practices allowed the report to be submitted in June. The requirement to submit statistical evidence of recent trends in fatal, injury, and property damage crashes would be deleted in order to decrease the burden to the States, in view of the shortened timeframe. The requirement that States provide recent statistical trend data in the HSP as part of their problem identification would remain, however.

Disposition of Unexpended Balances. States have been required to identify the amount of unexpended funds remaining at the end of each fiscal year by program area. In addition, the use of MHTSA funds during the following fiscal year, after reprogramming, has been limited to program areas which existed in the HSP from which the funds were reprogrammed. The requirement to make such scope determinations in the course of reprogramming funds has limited the States' flexibility to direct resources to the most critical problem areas and is being eliminated. The proposed rule would retain the requirement that States identify by program area, on a one-time basis at the end of each fiscal year, all unexpended balances. However, the requirement to restrict the use of NHTSA funds in the subsequent fiscal year would be deleted.

Section 1205.4 Amendments. Proposed revisions to § 1205.4 would not affect existing procedures. The deleted provisions would be reorganized and appear instead as requirements in the sections of proposed part 1200 concerning submission and approval of the HSP and the Annual Evaluation Report.

Impact Analyses

A. Federalism Assessment

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the rule does not have sufficient federalism implications to warrant the preparation of a Federalism assessment.

Highway safety is a national concern, and for this reason, Congress directed the Secretary of Transportation to ensure the implementation of effective State highway safety programs. In this proposed rule, we increase the flexibility of the States by implementing the procedures of a common rule for the administration of grants to State and local governments which has as its basis the principles of federalism. That rule recognizes that States possess unique constitutional authority, resources, and competence to administer national grant programs, and provides for the application of State laws and procedures to many aspects of grant administration.

B. Economic Impacts

The agencies have analyzed the effect of this proposed action and determined that it is not "major" within the meaning of Executive Order 12291 or "significant" within the meaning of Department of Transportation regulatory policies and procedures. The rulemaking will not affect the level of funding available in the highway safety program, or otherwise have a significant economic impact, so that neither a Regulatory Impact Analysis nor a full Regulatory Evaluation is required.

C. Impacts on Small Entities

In compliance with the Regulatory Flexibility Act, the agencies have evaluated the effects of this proposed action on small entities. Based on the evaluation, we certify that this action will not have a significant economic impact on a substantial number of small entities. States will be the recipients of any funds awarded under the regualtion and, accordingly, the preparation of a Regulatory Flexibility Analysis is unnecessary.

D. Environmental Impacts

The agencies have analyzed this proposed action for the purpose of compliance with the National Environmental Policy Act and have determined that it will not have a significant effect on the human environment.

E. Paperwork Reduction Act

The requirement relating to this proposal, that each State must submit a Highway Safety Plan and related forms to receive section 402 grant funds, is considered to be an information collection requirement, as that term is defined by the Office of Management and Budget (OMB) in 5 CFR part 1320. Accordingly, this information collection requirement has been submitted to and approved by OMB, pursuant to the provisions of the Paperwork Reduction Act (44 U.S.C. 3501, et seq.) The requirement has been approved through April 30, 1992; OMB No. 2127–0003.

F. Comments to the Docket

The agencies are providing a 45-day comment period for interested parties to present data, views, and arguments on the proposed action. The agencies invite comments on the issues raised in this notice and any other issues commenters believe are relevant to this action. All comments must not exceed 15 pages in length (49 CFR 553.21). This limitation is intended to encourage commenters to detail their primary arguments in a concise fashion. Necessary attachments may be appended to these submissions without regard to the 15-page limit.

All comments received before the close of business on the comment closing date indicated above for the proposal will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Comments received too late for consideration in regard to the final rule, if one is issued, will be considered as suggestions for further rulemaking action. The agencies will continue to file relevant information in the docket as it becomes available after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Those persons desiring to be notified of receipt of their comments by the docket should enclose a self-addressed, stamped postcard in the envelope with their comments. Upon receipt of the comments, the docket supervisor will return the postcard by mail.

List of Subjects in 23 CFR Parts 1200, 1204, and 1205

Grant programs—transportation, Highway safety.

For the reasons set out in the preamble, title 23, chapter II of the Code of Federal Regulations is proposed to be amended as set forth below.

1. The heading for subchapter A is added to read as follows:

SUBCHAPTER A—PROCEDURES FOR STATE HIGHWAY SAFETY PROGRAMS

2. In subchapter A, part 1200 is added to read as follows:

PART 1200—UNIFORM PROCEDURES FOR STATE HIGHWAY SAFETY PROGRAMS

Subpart A—General

Sec.
1200.1 Purpose.
1200.2 Applicability.
1200.3 Definitions.

Subpart B—The Highway Safety Plan
1200.10 Preparation and submission.
1200.11 Review and approval.
1200.12 Apportionment and obligation of Federal funds.
1200.13 Changes.

Subpart C—Implementation and Management of the Highway Safety Program
1200.20 General.
1200.21 Equipment.
1200.22 Vouchers and project agreements.
1200.23 Program income.
1200.24 Compliance.
1200.25 NHTSA appeals.

Subpart D—Closeout
1200.30 Expiration of the HSP.
1200.31 Extension of the HSP.
1200.32 Final voucher and project reports.
1200.33 Annual evaluation report.
1200.34 Disposition of unexpended balances.
1200.35 Post-grant adjustments.
1200.36 Continuing requirements.

Authority: 23 U.S.C. 402; delegations of authority at 49 CFR 1.48 and 1.50.

Subpart A—General

§ 1200.1 Purpose.

This part establishes the requirements governing submission and approval of State Highway Safety Plans and prescribes uniform procedures for the implementation and management of State highway safety programs.

§ 1200.2 Applicability.

The provisions of this part apply to States conducting highway safety programs in accordance with 23 U.S.C. 402, beginning with Highway Safety Plans submitted for Fiscal Year 1992.

§ 1200.3 Definitions.

As used in this subchapter—

Annual Evaluation Report means the report submitted each year by each State which describes the accomplishments of its highway safety program for the preceding fiscal year.

Approving Official means a Regional Administrator of the National Highway Traffic Safety Administration for issues concerning NHTSA funds or program areas and a Division Administrator of the Federal Highway Administration for issues concerning FHWA funds for program areas.

Carry-forward Funds means those funds which a State has obligated but not expended in the fiscal year in which they were apportioned, that are being reprogrammed to complete ongoing activities.

Contract authority means the statutory language which authorizes the agencies to enter into an obligation without the need for a prior appropriation or further authorization from Congress. When exercised, contract authority creates a binding obligation on the United States for which Congress must make subsequent appropriations in order to liquidate the

VOL
56
ISS
125
JE
28
1991
UMI

obligations incurred pursuant to this authority.

Contractor means the recipient of a contract or subcontract under the HSP.

FHWA means the Federal Highway Administration.

Fiscal year means the Federal fiscal year, consisting of twelve months beginning each October 1 and ending the following September 30.

Governor means the Governor of any of the fifty States, Puerto Rico, the Virgin Islands, Guam, American Samoa, or the Commonwealth of the Northern Mariana Islands, the Mayor of the District of Columbia, or, for the application of this part to Indians as provided in 23 U.S.C. 402(i), the Secretary of the Interior.

Governor's Representative means the Governor's Representative for Highway Safety, the official appointed by the Governor to implement the State's highway safety program or, for the application of this part to Indians as provided in 23 U.S.C. 402(i), an official of the Bureau of Indian Affairs who is duly designated by the Secretary of the Interior to implement the Indian highway safety program.

Highway Safety Plan or *HSP* means the Section 402 grant application document consisting of the plan submitted by a State describing the State's highway safety problems and detailing the projects the State plans to undertake to implement a highway safety program addressing those problems.

Highway safety program includes all of the projects planned or undertaken by a State or its subgrantees or contractors to address highway safety problems in the State.

Major equipment means tangible, nonexpendable, personal property having a useful life of more than one year and an acquisition cost of $5,000 or more per unit, or such other definition as a State may elect in accordance with the procedures in § 1200.21(b)(1) of this part.

National Priority Program Area means a program area identified in § 1205.3 of this chapter as eligible for Federal funding pursuant to 23 U.S.C. 402 because it encompasses a major highway safety problem which is of national concern and for which effective countermeasures have been identified.

NHTSA means the National Highway Traffic Safety Administration.

Non-major equipment means all tangible, personal property which does not meet the definition of major equipment, including supplies.

Program area means any area, including but not limited to a National Priority Program Area, which is eligible or approved for Federal funding pursuant to 23 U.S.C. 402.

Program income means gross income received by the State or any of its subgrantees or contractors which is directly or indirectly generated by a Federally-supported project during the project performance period.

Project means any of the activities proposed or implemented under an HSP to address discrete or localized highway safety problems falling within one or more program areas.

Reprogramming means applying carry-forward funds to projects in a fiscal year subsequent to the one for which the funds were originally apportioned to the State.

"Section 402" means section 402 of title 23 of the United States Code.

State means any of the fifty States of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, or, for the application of this part to Indians as provided in 23 U.S.C. 402(i), the Secretary of the Interior.

Subgrantee means a recipient of an award of financial assistance by a State in the form of money, or equipment in lieu of money, under an HSP.

Subpart B—The Highway Safety Plan

§ 1200.10 Preparation and submission

(a) *Time period covered by the HSP.* (1) Except as provided in paragraph (a)(2) of this section, a State shall submit an HSP for each fiscal year. The time period for which the State shall identify activities to address highway safety problems under each such HSP shall be one fiscal year, unless extended in accordance with the provisions of § 1200.31 of this part.

(2) A State may elect to submit an HSP once every three fiscal years, provided advance notice is given to the approving officials. The time period for which the State shall identify activities to address highway safety problems under each such HSP shall be three consecutive fiscal years, unless extended in accordance with the provisions of § 1200.31 of this part. Obligation of Federal funds and authority to incur costs, however, shall be based on each fiscal year.

(b) *Content of the HSP.* Each State's HSP shall contain the following elements:

(1) *Certifications and assurances.* A statement containing certifications and assurances shall be signed by the Governor's Representative and shall satisfy the requirements of 49 CFR part 18 and other applicable law. A sample statement, which may from time to time be amended to reflect changes in applicable law, shall be made available by each approving official.

(2) *Problem identification summary.* The problem identification summary will highlight highway safety problems throughout the State and briefly describe the countermeasures the State will employ to address these problems.

(3) *Description of and justification for program areas to be funded.* A State may identify and seek funding for projects, and related equipment purchases, within any National Priority Program Area or any other program area. National Priority Areas are identified in § 1205.3 of this chapter. Other program areas may, from time to time, be identified by statute, by rule, or by a State. For each program area for which Federal funding is sought, the following procedures shall apply:

(i) For National Priority Program Areas, the funding procedures at § 1205.4 of this chapter.

(ii) For program areas identified by statute, the funding procedures prescribed by the statute and implementing regulations or, in the absence of prescribed procedures, the funding procedures at § 1205.4 of this chapter.

(iii) For program areas identified by a State and not falling within paragraphs (b)(3)(i) or (b)(3)(ii) of this section, the funding procedures at § 1205.5 of this chapter.

(4) *Discussion of planning and administration needs.* Planning and administration needs shall be discussed in sufficient detail to justify proposed expenditures. Proposed and actual expenditures shall comply with the Federal contribution and State matching requirements of part 1252 of this chapter.

(5) *Description of training needs.* Training needed to support or further the objectives of the HSP should be described in adequate detail to justify proposed expenditures. Only training that supports or furthers the objectives of the HSP shall be eligible for funding.

(6) *Supporting financial documentation.* Financial documentation supporting the HSP shall include the Highway Safety Program Cost Summary, Standard Form HS–217, reflecting the State's proposed allocation of funds among program areas and for planning and administration needs, completed in accordance with the form's written instructions, and such other financial documentation as may be required by law.

(c) *Special funding conditions.* The planning and contents of an HSP shall reflect the following funding requirements:

(1) *Political subdivision participation.* Proposed expenditures under the HSP shall comply with the requirements for political subdivision participation contained in part 1250 of this chapter.

(2) *NHTSA project length.* NHTSA funding support for a specific project under an HSP shall ordinarily not exceed three years. However, a funding extension beyond three years may be approved in writing by the NHTSA approving official on a year-by-year basis, provided the project has demonstrated great merit or the potential for significant long-range benefits and includes a cost assumption plan requiring, at a minimum, 35 percent non-Federal support for the fourth year and 50 percent non-Federal support for the fifth and sixth years. Under no circumstances will a project be funded beyond six years. A denial of a project funding extension shall be in writing by the NHTSA approving official and shall be subject to the appeal procedures of § 1200.25 of this part. The project length requirements are not applicable to planning and administration activities; program management (e.g., program area coordinators' or managers' oversight of the continuing development, implementation and evaluation of 402 or related State/locally supported activities); mandatory (earmarked) programs; training projects which support activities within an identified program area; or other activities which are required by statute.

(d) *Due date.* The completed HSP must be received by the approving officials no later than August 1 preceding the fiscal year for which it applies or, in the case of a 3-year HSP, no later than August 1 preceding the first fiscal year for which it applies. For a State operating under a 3-year HSP, any updates for the second and third years which the State elects to submit must be received by the approving officials no later than August 1 preceding the fiscal year for which the updates apply. The State shall furnish three copies of its HSP, or updated HSP for a State operating under a 3-year HSP, to the NHTSA and FHWA approving officials. Failure to meet these deadlines may result in delayed approvals.

§ 1200.11 Review and approval.

(a) *Review.* (1) Each approving official shall verify that each HSP complies with the basic requirements of § 1200.10(b)–(c) of this part. Where an HSP is found not in compliance, the approving official will advise the State to take such action as necessary to bring the HSP into compliance.

(2) An HSP determined to satisfy the basic requirements of paragraph (a)(1) of this section shall be further reviewed to ensure that the State has proposed a highway safety program which justifies the commitment of Federal funds. Each approving official shall have the discretion to require further clarification or amendment of any portion of an HSP which does not adequately establish the existence of a bona fide highway safety problem, the selection of countermeasures reasonably calculated to address the problem, and the efficient proposed use of Federal funds.

(3) Each approving official shall provide States with reasonable notice and opportunity to amend portions of HSPs which are found inadequate. Such notice and opportunity to amend shall facilitate the informal resolution of problems in the HSP, to the maximum extent practicable, prior to the time by which the approving official must render a written decision in accordance with paragraph (b) of this section.

(b) *Approval/Conditional Approval/Disapproval.* (1) If after reasonable notice and opportunity to amend pursuant to paragraph (a)(3) of this section, the approving official determines that a State has provided information in the HSP which is inadequate to justify a proposed use of Federal funds, or has failed to comply with other requirements of this part or applicable law, the approving official shall conditionally approve or disapprove the relevant portion(s) of the HSP, as appropriate. Otherwise, the approving official shall approve the HSP, except that in no case shall the approving official approve an HSP which is submitted without the statement required by § 1200.10(b)(1) of this part until receipt of such statement.

(2) Approval, conditional approval, or disapproval of the HSP, in whole or in part, shall be in writing, dated, and signed by the approving official, and shall be sent to the Governor, with a copy to the Governor's Representative, within 30 days of receipt of the HSP by the agency, unless extended by mutual agreement of the approving official and the Governor's Representative.

(3) For any portion of the HSP which is conditionally approved or disapproved, a detailed explanation of conditions or reasons for disapproval shall be provided in writing by the approving official to the Governor's Representative. Conditional approval may include a requirement for project by project approval of Federally funded activities.

(4) All approvals and conditional approvals sent to the Governor's Representative shall state the total dollar amount of the program approved or conditionally approved and shall contain the following statement:

By this letter, _____'s (State) fiscal year 19____ Highway Safety Plan, as submitted on _____(Date), is hereby approved, subject to any conditions or limitations set forth below. Authorization to incur costs is subject to the availability of funds during fiscal year 19____ (including carry-forward funds available for reprogramming), and in no event permits the State to be reimbursed for expenses in excess of amounts authorized by law. Reimbursement is contingent upon the submission of Standard Forms HS–62 and HS–217 within 60 days after either the beginning of Fiscal Year 19____ or the date of this letter, whichever is later.

§ 1200.12 Apportionment and obligation of Federal funds.

(a) Except as provided in paragraph (b) of this section, on October 1 of each fiscal year covered by an HSP, the NHTSA/FHWA Administrator, as appropriate, shall, in writing, distribute funds available for obligation under section 402 to the States and provide a statement of any conditions or limitations imposed by law on the use of the funds.

(b) In the event that authorizations exist but no applicable appropriation act has been enacted by October 1 of a fiscal year covered by an HSP, the NHTSA/FHWA Administrator, as appropriate, shall, in writing, distribute a part of the funds authorized under section 402 contract authority to ensure program continuity and shall provide a statement of any conditions or limitations imposed by law on the use of the funds. Upon appropriation of section 402 funds, the NHTSA/FHWA Administrator, as appropriate, shall, in writing, promptly adjust the apportionment, in accordance with law.

(c) The Federal share of expenses incurred by a State against any funds distributed under paragraphs (a) or (b) of this section shall constitute an obligation of the Federal Government, subject to any conditions or limitations identified in the distributing document and not exceeding the total dollar amount of the approved program identified in § 1200.11(c)(4) of this part. No reimbursement of State expenses shall be made until the State submits and the approving official approves Forms HS–62 and HS–217.

VOL 56 ISS 125 JE 28 1991 UMI

§ 1200.10 Changes.

(a) *Changes requiring prior approval.* Each State shall obtain the written approval of the approving official prior to implementing or allowing subgrantees or contractors to implement any of the following changes:

(1) Any revision which would result in the need for additional Federal funding beyond that which is already apportioned or distributed to the State;

(2) Any request to extend the period during which costs may be incurred, as provided in § 1200.31 of this part;

(3) Contracting out, subgranting, or otherwise obtaining the services of a third party to perform activities which are central to the purposes of the HSP, but not including the procurement of major and non-major equipment and general support services approved under the HSP;

(4) Changes in key persons specified in the HSP; or

(5) Any change in the scope of objectives of a project. For the purposes of this paragraph, each of the following shall be considered a change in scope of objectives:

(i) Any transfer of funds into or out of a program area which, either singly or in combination with past movements of funds, exceeds ten percent of the approved funding for the program area (for the purposes of determining when the ten percent threshold is reached, amounts are cumulated additively regardless of whether the funds are transferred into or out of the program area; e.g., +6 percent −5 percent=11 percent, and not 1 percent; the plus represents moving funds into and the minus represents moving funds out of a program area);

(ii) Any transfer of funds allotted for training allowances which exceeds 10 percent of the approved funding for the program area (i.e., from direct payments to trainees to other expense categories);

(iii) Any redirection of the goals or of the effort devoted to accomplishing the goals of a project approved under the HSP.

(b) *Approval procedures.* (1) States shall request prior approval for changes by submitting a written request to the approving officials, accompanied by Forms HS-62 and HS-217 and/or such other information as is necessary to explain the proposed change.

(2) The approving official shall indicate approval in writing, and provide a signed Form HS-62 if applicable, to the Governor's representative normally within 10 working days after receipt of the request.

(3) Subject to the appeal provisions of § 1200.25 of this part, the approving official may disapprove a change in writing, with a brief explanation of the reasons therefor. Any such disapproval shall normally be made within 10 working days after receipt of the request.

(c) *Procedures for changes not requiring prior approval.* States shall provide documentary evidence of changes not requiring prior approval to the approving official by submitting amended Forms HS-62 and HS-217, and such other information as is necessary to explain the change.

Subpart C—Implementation and Management of the Highway Safety Program

§ 1200.20 General.

Except as otherwise provided in this subpart and subject to the provisions herein, the requirement of 49 CFR part 18 and applicable cost principles govern the implementation and management of State highway safety programs carried out under 23 U.S.C. 402.

§ 1200.21 Equipment.

(a) *All equipment*—(1) *Title.* Except as provided in paragraphs (b)(3) and (b)(4) of this section, title to equipment acquired under the HSP will vest upon acquisition in the State or its subgrantee, as appropriate.

(2) *Use.* All equipment shall be used for the originally authorized grant purposes for as long as needed for those purposes, and neither the State nor any of its subgrantees or contractors shall encumber the title or interest while such need exists.

(b) *Major equipment*—(1) *Choice of definition.* A State may elect to use its own definition of major equipment, provided such definition would at least include all items captured by the definition appearing in § 1200.3(1) of this part. Such election shall be made in writing by the Governor's Representative to the approving official, in the absence of which the definition in § 1200.3(1) of this part shall apply.

(2) *Management and disposition.* Subject to the requirements of paragraphs (a)(2), (b)(3), and (b)(4) of this section, States and their subgrantees and contractors shall manage and dispose of major equipment acquired under the HSP in accordance with State laws and procedures.

(3) *Federally-owned major equipment.* In the event a State or its subgrantee is provided federally-owned major equipment:

(i) Title shall remain vested in the Federal Government;

(ii) Management shall be in accordance with Federal rules and procedures, and an annual inventory listing shall be submitted;

(iii) The State or its subgrantee shall request disposition instructions from NHTSA or FHWA, as appropriate, when the item is no longer needed in the program.

(4) *Right to transfer title.* NHTSA or FHWA may reserve the right to transfer title to major equipment acquired under the HSP to the Federal Government or to a third party when such third party is otherwise eligible under existing statutes. Any such transfer shall be subject to the following requirements:

(i) The property shall be identified in the grant or otherwise made known to the State in writing;

(ii) NHTSA or FHWA, as applicable, shall issue disposition instructions within 120 calendar days after the end of the project for which the property was acquired, in the absence of which the State shall follow the applicable procedures in 49 CFR part 18.

(c) *Non-major equipment.* Subject to the requirements of paragraph (a)(2) of this section and except as otherwise provided in 49 CFR part 18, States and their subgrantees and contractors shall manage and dispose of non-major equipment acquired under the HSP in accordance with State laws and procedures.

§ 1200.22 Vouchers and project agreements.

Each State shall submit to the approving official vouchers documenting all expenses incurred, regardless of whether the State receives advance payments or is reimbursed for expenditures under the HSP. Each voucher shall be accompanied by a copy of the project agreement(s), and any amendments thereto, under which expenses have been incurred, unless a copy of such agreement(s) (or amendments, if applicable) has been previously provided.

(a) *Content of vouchers.* At a minimum, each voucher shall provide the following information for expenses claimed in each program area:

(1) Program Area/Project Number;

(2) Federal funds obligated;

(3) Amount of Federal funds allocated to local benefit (provided bi-annually only—March 31 and September 30 of each calendar year);

(4) Cumulative Total Cost to Date;

(5) Cumulative Federal Funds Expended;

(6) Previous Amount Claimed;

(7) Amount Claimed this Period;

(8) Special matching rate (i.e., sliding scale rate) authorized under 23 U.S.C. 120(a), if used, determined in accordance with the applicable NHTSA Order.

(b) *Submission requirements.* At a minimum, vouchers and supporting project agreements shall be submitted to the approving official on a quarterly basis, no later than 15 working days after the end of each quarter, except that where a state receives funds by letter of credit or electronic transfer at an annualized rate of one million dollars or more, the vouchers and agreements shall be submitted on a monthly basis, no later than 15 working days after the end of each month. Failure to meet these deadlines may result in delayed reimbursement.

§ 1200.23 Program income.

(a) *Inclusions.* Program income includes income from fees for services performed, from the use or rental of real or personal property acquired with grant funds, from the sale of commodities or items fabricated under a grant agreement, and from payments of principal and interest on loans made with grant funds.

(b) *Exclusions.* Program income does not include interest on grant funds, rebates, credits, discounts, refunds, taxes, special assessments, levies, fines, proceeds from the sale of real property or equipment, income from royalties and license fees for copyrighted material, patents, and inventions, or interest on any of these.

(c) *Use of program income*—(1) *Addition.* Program income shall ordinarily be added to the funds committed to the HSP. Such program income shall be used to further the objectives of the project under which it was generated.

(2) *Cost sharing or matching.* Program income may be used to meet cost sharing or matching requirements only upon written approval of the approving official. Such use shall not increase the commitment of Federal funds.

§ 1200.24 Compliance.

Where a State is found to be in noncompliance with the terms of the HSP or applicable law, the approving official may apply the special conditions for high-risk grantees or the enforcement procedures of 49 CFR part 18, as appropriate and in accordance with their terms.

§ 1200.25 NHTSA appeals.

Review of any written decision by the NHTSA approving official under this part, including a disapproval or conditional approval of any part of an HSP under § 1200.1(b) of this part, a disapproval of a request for a changed under § 1200.13(b)(3) of this part, a decision to impose special conditions or restrictions or to seek remedies under § 1200.24 of this part, and a denial of a funding extension under § 1200.10(c)(2) of this part, may be obtained by submitting a written appeal of such decision, signed by the Governor's Representative, to the NHTSA approving official. Such appeal shall be forwarded promptly to the NHTSA Deputy Administrator through the NHTSA Regional Coordinator. The decision of the Deputy Administrator shall be final and shall be transmitted to the Governor's Representative through the approving official.

Subpart D—Closeout

§ 1200.30 Expiration of the HSP.

Unless extended in accordance with the provisions of § 1200.31 of this part, a one-year HSP shall expire on the last day of the fiscal year to which it pertains and a three-year HSP shall expire on the last day of the third fiscal year to which it pertains. The State and its subgrantees and contractors may not incur costs past the expiration date.

§ 1200.31 Extension of the HSP.

Upon written request by the State, specifying the reasons therefor, the approving official may extend the expiration date for some portion of an HSP by a maximum of 90 days. The approval of any such request for extension shall be in writing, shall specify the new expiration date, and shall be signed by the approving official. If an extension is granted, the State and its subgrantees and contractors may continue to incur costs under the HSP until the new expiration date, and the due dates for other submissions covered by this section shall be based upon the new expiration date. However, in no case shall any extension be deemed to authorize the obligation of additional Federal funds beyond those already obligated to the State by the Federal Government, nor shall any extension be applicable to the submission of the Annual Evaluation Report. Only one extension shall be allowed for each HSP.

§ 1200.32 Final voucher and project reports.

Each State shall submit a final voucher which satisfies the requirements of § 1200.22(a) of this part and copies of project reports for all projects approved under the HSP within 90 days after the expiration of each fiscal year, unless extended in accordance with the provisions of § 1200.31 of this part. The final voucher constitutes the final request for payment for each HSP.

§ 1200.33 Annual evaluation report.

Within 90 days after the expiration of the fiscal year, each State shall submit to the approving official an Annual Evaluation Report describing the accomplishments of the highway safety program under the HSP for the fiscal year. The report shall include the following information.

(a) *Statewide overview.* A three to five page overview of statewide accomplishments in highway safety, regardless of funding source;

(b) *Report by program area.* For each funded program area, an evaluation of actual program accomplishments and costs compared to those set forth in the HSP, noteworthy projects underway or completed, and successes, innovative solutions, problems, and failures;

(c) *Legislative and administrative accomplishments.* A discussion of significant administrative and legislative accomplishments which promoted the goals of highway safety; and

(d) *Status of remedial actions.* An evaluation of the progress the State is making in correcting deficiencies identified through program and financial management reviews conducted by the approving officials or by the State.

§ 1200.34 Disposition of unexpended balances.

Any funds which remain unexpended after payment of the final voucher shall be carried forward, credited to the State's highway safety account for the new fiscal year, and be made immediately available for reprogramming under a new HSP or under the next year of a continuing three-year HSP, subject to the approval requirements of § 1200.11(b) of this part.

§ 1200.35 Post-grant adjustments.

The closeout of an HSP does not affect the ability of NHTSA or FHWA to disallow costs and recover funds on the basis of a later audit or other review or the State's obligation to return any funds due as a result of later refunds, corrections, or other transactions.

§ 1200.36 Continuing requirements.

The following provisions shall have continuing applicability, notwithstanding the closeout of an HSP:

(a) The requirement to use all equipment for the originally authorized grant purposes for as long as needed for those purposes, as provided in § 1200.21(a)(2) of this part;

(b) The management and disposition requirements for major equipment, as provided in § 1200.21(b)(2) of this part;

VOL 56 ISS 125 JE 28 1991 UMI

(c) The audit requirements and records retention and access requirements of 49 CFR part 18.

PART 1204—UNIFORM GUIDELINES FOR STATE HIGHWAY SAFETY PROGRAMS

3. The authority citation for part 1204 continues to read as follows:

Authority: 23 U.S.C. 402; delegations of authority at 49 CFR 1.48 and 1.50.

§ 1204.4 [Amended]

4. In § 1204.4, supplements A through I, are removed.

PART 1205—HIGHWAY SAFETY PROGRAMS; DETERMINATIONS OF EFFECTIVENESS

5. The authority citation for part 1205 continues to read as follows:

Authority: 23 U.S.C. 402; delegations of authority at 49 CFR 1.48 and 1.50.

6. In § 1205.4, the introductory text and paragraph (a) are revised, paragraphs (c) and (e) are removed, and paragraph (d) is redesignated as paragraph (c) and revised to read as follows:

§ 1205.4 Funding Procedures for National Priority Program Areas.

A State planning to use funds under 23 U.S.C. 402 to support a program that is within a National Highway Safety Priority Program Area shall be subject to the following procedures:

(a) The State shall describe each highway safety problem within such Priority Area and any countermeasure proposed to decrease or stabilize the problem, and provide recent statistical trend data concerning injury, fatal, and property damage crashes to support the problem and countermeasure identifications.

* * * * *

(c) NHTSA and/or FHWA, as applicable, shall review the information provided under paragraphs (a) and (b) of this section in accordance with the procedures of § 1200.11 of this chapter.

Issued on: June 24, 1991.

Jerry Ralph Curry,

Administrator, National Highway Traffic Safety Administration.

Thomas D. Larson,

Administrator, Federal Highway Administration.

BILLING CODE 4910-59-M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 934

North Dakota Permanent Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule; public comment period and opportunity for public hearing on proposed amendment.

SUMMARY: OSM is announcing receipt of a proposed amendment to the North Dakota permanent regulatory program (hereinafter, the "North Dakota program") under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). Part of the proposed amendment is in response to changes requested by OSM through its 30 CFR part 732 state program amendment process and part is discretionary changes initiated by the North Dakota Legislature.

OSM notified North Dakota of the required changes to their program by letters dated: November 17, 1989; and February 7, 1990 (Administrative Record Nos. ND–J–01; and ND–K–01, respectively). The amendment is intended to revise the State program to be consistent with the corresponding Federal standards, incorporate the additional flexibility afforded by the revised Federal regulations and improve operational efficiency.

This notice sets forth the times and locations that the North Dakota program and proposed amendment to that program are available for public inspection and the comment period during which interested persons may submit written comments on the proposed amendment.

DATES: Written comments must be received by 4 p.m., mdt, July 29, 1991. If requested, a public hearing on the proposed amendment will be held on July 23, 1991. Requests to present oral testimony at the hearing must be received by 4 p.m., mdt, on July 15, 1991.

ADDRESSES: Written comments should be mailed or hand delivered to Guy Padgett, Director of the Casper Field Office, at the address listed below.

Copies of the North Dakota program, the proposed amendment, and all written comments received in response to this notice will be available for public review at the addresses listed below during normal business hours, Monday through Friday, excluding holidays. Each requester may receive one copy of the proposed amendment by contacting OSM's Casper Field Office.

Guy Padgett, Director, Casper Field Office, Office of Surface Mining Reclamation and Enforcement, 100 East B Street, room 2128, Casper, WY 82601–1918, Telephone: (307) 261–5776.

Edward J. Englerth, Director, Reclamation Division, Public Service Commission, Capitol Building, Bismarck, ND 58505–0165, Telephone: (701) 224–4096.

FOR FURTHER INFORMATION CONTACT: Guy Padgett, Director, Casper Field Office, on telephone number (307) 261–5776.

SUPPLEMENTARY INFORMATION:

I. Background on the North Dakota Program

On December 15, 1980, the Secretary of the Interior approved the North Dakota program. General background information on the North Dakota program including the Secretary's findings and the disposition of comments can be found in the December 15, 1980 **Federal Register** (45 FR 82246). Subsequent actions concerning North Dakota's program and program amendments can be found at 30 CFR 934.12, 934.13, and 934.14, 934.15, 934.16 and 934.30.

II. Proposed Amendment

By letter dated June 12, 1991 (Administrative Record No. ND–M–01), North Dakota submitted a proposed amendment to its program pursuant to SMCRA. North Dakota submitted the proposed amendment to the North Dakota Century code (NDCC) and the North Dakota Administrative Code (NDAC) in response to OSM's 30 CFR 732.17 notifications of November 17, 1989; and February 7, 1990 (Administrative Record Nos. ND–J–01 and ND–k–01, respectively)

The sections of the program that North Dakota proposes to add or amend that are subject to review are: NDCC 38–12.1 Exploration Data; NDAC 43–02–01 Coal Exploration; NDAC 38–14.1 Surface Mining and Reclamation Operations; and NDAC 69–05.2 Termination of Jurisdiction.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 732.17(h), OSM is seeking comments on whether the proposed amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the North Dakota program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commentor's recommendations. Comments received after the time indicated under "**DATES**" or at locations other than the Casper Field Office will not necessarily be considered in the final rulemaking or included in the administrative record.

Public Hearing

Persons wishing to testify at the public hearing should contact the person listed under "**FOR FURTHER INFORMATION CONTACT**" by 4 p.m., m.d.t. on July 15, 1991. The location and time of the hearing will be arranged with those persons requesting the hearing. If no one requests an opportunity to testify at a public hearing, a hearing will not be held. Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to testify have been heard. Persons in the audience who have not been scheduled to testify, and who wish to do so, will be heard following those who have been scheduled. The hearing will end after all persons scheduled to testify and persons present in the audience who wish to testify have been heard.

Public Meeting

If only one person requests an opportunity to testify at a hearing, a public meeting, rather than a public hearing, may be held. Persons wishing to meet with OSM representatives to discuss the proposed amendment may request a meeting at the OSM office listed under "**FOR FURTHER INFORMATION CONTACT**". All such meetings will be open to the public and, if possible, notices of meetings will be posted at the locations listed under "**ADDRESSES**". A written summary of each meeting will be made a part of the administrative record.

BILLING CODE 4310-05-M

30 CFR Part 946

Virginia Regulatory Program; Regulatory Reform Review III and Incidental Coal Extraction Exemption

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule; reopening and extension of comment period on proposed amendment.

SUMMARY: On May 23, 1991 (56 FR 23664), OSM announced receipt of revisions to a previously proposed amendment to the Virginia permanent regulatory program (hereinafter, the Virginia program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). By letter dated April 18, 1991 (Administrative Record No. VA–783), Virginia had submitted additional information to both support and modify its proposed amendment dated October 1, 1990 (Administrative Record No. VA–768), which responded to two 30 CFR 732.17(f)(1) notifications (Administrative Record Nos. VA–743 and VA–749). The proposed amendment includes changes in Virginia's program relating to revegetation standards for success, siltation structures and impoundments, termination of jurisdiction, roads and support facilities, coal exploration, probable hydrologic consequences determinations, and permitting obligations relative to reclamation. Also included are changes to the regulations relative to the exemption for coal extraction incidental to the extraction of other minerals removed for purposes of commercial use or sale, and regulations concerning prime farmland and coal preparation plants that are not located within the permit area of a mine. In connection with the revision submitted by Virginia on April 18, 1991, OSM reopened and extended the public comment period on Virginia's October 1, 1990, proposed amendment. In announcing the revisions to the State's original proposed amendment, OSM failed to identify revisions to the State program at VR 480–03–19.773.18(c)(4)(ii) and (c)(7). Therefore, OSM is reopening and extending the comment period. OSM will consider the new information, the existing proposed amendment, and any previous comments when making a final decision on the proposed amendment.

This notice sets forth the times and locations that the Virginia program and proposed amendment to the program are available for public inspection and the comment period during which interested parties may submit written comments on the proposed amendment.

DATES: Written comments must be received on or before 4 p.m. on July 15, 1991.

ADDRESSES: Written comments should be mailed or hand delivered to Mr. Robert A. Penn, Director, Big Stone Gap Field Office at the first address listed below.

Copies of the Virginia program, proposed amendments and all written comments received in response to this notice will be available for review at the locations listed below during normal business hours Monday through Friday, excluding holidays. Each requester may receive, free of charge, one single copy of the proposed amendment by contacting the OSM Big Stone Gap Field Office.

Office of Surface Mining Reclamation and Enforcement, Big Stone Gap Field Office, P.O. Drawer 1216, Powell Valley Square Shopping Center, Room 220, Route 23, Big Stone Gap, Virginia 24219, Telephone (703) 523–4303.

Virginia Division of Mined Land Reclamation, P.O. Drawer U, 622 Powell Avenue, Big Stone Gap, Virginia 24219, Telephone (703) 523–8100.

FOR FURTHER INFORMATION CONTACT: Mr. Robert A Penn, Director, Big Stone Gap Field Office, Telephone (703) 523–4303.

SUPPLEMENTARY INFORMATION:

I. Background

The Secretary of the Interior approved the Virginia program on December 15, 1981. Information pertinent to the general background and revisions to the proposed permanent program submission, as well as the Secretary's findings, the disposition of comments and a detailed explanation of the conditions of approval can be found in the December 15, 1981, **Federal Register** (46 FR 61085–61115). Subsequent actions concerning the conditions of approval and proposed amendments are identified at 30 CFR 946.12, 946.13, 946.15, and 946.16.

II. Discussion of Amendments

By letter dated October 1, 1990 (Administrative Record No. VA–768), Virginia submitted a proposed amendment to its program pursuant to SMCRA. OSM announced in the October 31, 1990, **Federal Register** (55 FR 45811–45814) receipt of the amendment and invited public comment. By letter dated March 20, 1991 (Administrative Record No. VA–782), OSM notified Virginia of 25 items contained in the amendment that required either clarification or revision. By letter dated

VOL 56 ISS 125 JE 28 1991 UMI

April 18, 1991 (Administrative Record No. VA–793), Virginia submitted clarifications and revisions to the proposed amendment. OSM announced in the May 23, 1991, **Federal Register** (56 FR 23664) receipt of the clarifications and revisions and invited public comment. However, OSM failed to discuss two revisions which are described below.

Virginia has revised VR 480–03–19.773.16 (c)(4)(ii) and (c)(7) by deleting reference to spillway design storm criteria in order to be consistent with VR 480–03.19.816/817.49(b)(7).

III. Public Comments Procedures

In accordance with the provisions of 30 CFR 732.17(h), OSM is now seeking comment on whether the amendments proposed by Virginia satisfy the applicable program approval criteria of 30 CFR 732.15. If the amendments are deemed adequate, they will become part of the Virginia program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commenter's recommendations. Comments received after the time indicated under "DATES" or at locations other than the Big Stone Gap Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

BILLING CODE 4310–05–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

42 CFR Part 100

RIN 0905–AD25

Vaccine Injury Compensation: Calculation of Cost of Health Insurance

AGENCY: Public Health Service, HHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: Subtitle 2 of title XXI of the Public Health Service ACt (PHS), as enacted by the National Childhood Vaccine Injury Act of 1986, and as amended, governs the National Vaccine Injury Compensation (NVIC) Program. The NVIC Program, administered by the Secretary, provides that a proceeding for compensation for a vaccine-related injury or death shall be initiated by service upon the Secretary and the filing of a petition with the United States Claims Court. In some cases, the injured individual may receive compensation for future lost earnings, less appropriate taxes and the "average cost of a health insurance policy, as determined by the Secretary." It is the purpose of this proposed rule to set out the amount to be deducted from the award of compensation which would reflect the average cost of a health insurance policy.

DATES: Comments must be submitted on or before August 27, 1991.

ADDRESSES: Written comments should be addressed to Fitzhugh Mullan, M.D., Director, Bureau of Health Professions (BHPr), Health Resources and Services Administration (HRSA), room 8–05, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857. All comments received will be available for public inspection and copying at the Office of Program Development, BHPr, room 8A–55, Parklawn Building, at the above address weekdays (Federal holidays excepted) between the hours of 8:30 a.m. and 5 p.m.

FOR FURTHER INFORMATION CONTACT: Mr. Thomas Balbier, Director, Division of Vaccine Injury Compensation, 6001 Montrose Road, room 702, Rockville, Maryland 20852; telephone number: 301 443–6593.

SUPPLEMENTARY INFORMATION: Under the National Vaccine Injury Compensation Program, 42 U.S.C. 300aa-10 *et seq*, as amended, an individual may file petition in the United States Claims Court for compensation for vaccine-related injuries or death. The Secretary is named by the Act as Respondent in these proceedings and carries out other functions under the Act. The Secretary's authorities under the Program established by the Act have been delegated to the Health Resources and Services Administration.

The elements of compensation to be awarded to a successful petitioner are set out in section 2115 of the Public Health Service Act, 42 U.S.C. 300aa-15. Subsection (a)(3)(B) provides specifically for compensation for lost earnings for a person who has sustained a vaccine-related injury before attaining the age of 18, and whose earning capacity is or has been impaired sufficiently to anticipate that such person is likely to suffer impaired earning capacity at age 18 and beyond. The injured person would be eligible to receive compensation for loss of earnings, after the age of 18, which are calculated on the basis of the average gross weekly earnings of workers in the private, non-farm sector, less appropriate taxes and the "average cost of a health insurance policy, as determined by the Secretary." The wage data are taken from the Employment and Earnings survey done by the Department of Labor, Bureau of Labor Statistics. (Subsection (a)(3)(A) provides specifically for payment of lost earnings for individuals injured after reaching age 18 and does not include deductions for taxes and the cost of health insurance.)

The Department is proposing to set out the amount to be deducted from the award of compensation which would reflect the average cost of a health insurance policy. Based on data from a 1989 survey by The Health Insurance Association of America (HIAA), the average monthly premium cost for individuals covered under employment-related group insurance was estimated to be $117.00 in 1989. The survey reported the average costs of seven kinds of coverage: Conventional plans, both managed and unmanaged; nonpreferred provider and preferred provider; and health maintenance organizations, including individual practice association, staff/group, and hybrid arrangements. One hundred seventeen ($117) dollars is a weighted average of these costs. The results of the survey were published in the journal of Health Affairs, Vol. 9, No. 3, Fall 1990. The Department is proposing to use this survey to establish a baseline figure based upon its being the most accurate and complete analysis available.

It is proposed that this figure be indexed periodically by the medical care component of the Consumer Price Index (CPI) (All Urban Consumers, U.S. City Average) published by the United States Bureau of Labor Statistics. This index will be used because it reflects changes in the cost of medical care which underlie health insurance. The period covered by the Health Affairs survey ended on July 1, 1989. Accordingly, the Department has applied the 13.8 percent change in the index covering the period July 1, 1989, until December 31, 1990, to the baseline figure of $117.00, resulting in a preliminary figure for 1990 of $133.00. When this rule is published in the **Federal Register** in final form, the Department will update that figure as appropriate. Thereafter, the Department will file updated figures with the United States Claims Court and will list the changes in the index by publishing a notice in the **Federal Register** from time to time as determined by the Secretary.

If, over time, the average cost of health insurance, as calculated by the method described above, significantly differs from subsequent HIAA survey results or other authoritative sources than available, the Secretary will consider appropriate revisions to this rule.

A second approach is also being considered. Comments on this alternate method are also welcome. The Department recognizes that the medical component of the CPI only reflects changes in the cost of health care services. Other factors, which affect the cost of health insurance, such as higher utilization of health care services, the added expense of certain medical technological advances, and coverage decisions by insurers, are not fully taken into account by the CPI. Limited data available to the Department suggest that in recent years increases in the cost of health insurance have outpaced increases in the medical component of the CPI by approximately 2 percent per year.

Therefore, the second method being considered would inflate the baseline figure not only by the medical component of the CPI but also by the additional 2 percent that reflects the increases associated with higher utilization, technological advances and coverage decisions. Using this method against the baseline figure of $117.00 results in an estimate for 1990 of $137.00.

Regulatory Flexibility Act and Executive Order 12291

The Secretary certifies that this regulation does not have a significant economic impact on a substantial number of small entities, and therefore does not require a regulatory flexibility analysis under the Regulatory Flexibility Act of 1980.

Regulatory Flexibility Act

Consistent with the Regulatory Flexibility Act of 1980, the Department prepares and publishes an initial regulatory flexibility analysis for proposed regulations unless the Secretary certifies that the regulation would not have a significant economic impact on a substantial number of small business entities. The analysis is intended to explain what effect the regulatory action by the agency would have on small businesses and other small entities and to develop lower cost or burden alternatives. As indicated above, this proposed rule will not have a significant economic impact on a substantial number of small entities.

Executive Order 12291

Executive Order 12291 requires the Department to prepare and publish an initial regulatory impact analysis for any proposed major rule. A major rule is defined as any regulation that is likely to: (1) Have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, government agencies, or geographic regions; or (3) result in significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Department has determined that this proposed rule does not meet the criteria for a major rule as defined by section 1(b) of Executive Order 12291. Consequently, the Department has concluded that an initial regulatory impact analysis is not required.

Paperwork Reduction Act of 1980

This proposed rule has no information collection requirements.

List of Subjects in 42 CFR Part 100

Biologics, Compensation, Health insurance, Immunizations.

Accordingly, it is proposed to amend title 42 of the Code of Federal Regulations by adding a new Part 100, "Vaccine Injury Compensation," as set forth below.

Dated: January 29, 1991.

James O. Mason,

Assistant Secretary for Health.

Approved: May 9, 1991.

Louis W. Sullivan,

Secretary.

PART 100—VACCINE INJURY COMPENSATION

Sec.

100.1 Applicability.

100.2 Average cost of a health insurance policy.

Authority: Sec. 215 of the Public Health Service Act (42 U.S.C. 216); sec. 2115 of the PHS Act, 100 Stat. 3767, as amended (42 U.S.C. 300aa-15).

§ 100.1 Applicability.

This regulation applies to the National Vaccine Injury Compensation (NVIC) Program under subtitle 2 of title XXI of the Public Health Service (PHS) Act.

§ 100.2 Average cost of a health insurance policy.

For purposes of determining the amount of compensation under the NVIC Program, section 2115(a)(3)(B) of the PHS Act, 42 U.S.C. 300aa-15(a)(3)(B), provides that certain individuals are entitled to receive an amount reflecting lost earnings, less certain deductions. One of the deductions is the average cost of a health insurance policy, as determined by the Secretary of Health and Human Services. The Secretary has determined that the average cost of a health insurance policy is $ _____.00 per month. (As of December 31, 1990, the correct figure would have been either $133.00 or $137.00, depending on which of the approaches outlined in the preamble is finally adopted; when a final rule is published, the operative figure at the time, using whatever approach is finally adopted, will be inserted here.) This amount will be revised to reflect the changes in the medical care component of the Consumer Price Index (All Urban Consumers, U.S. City Average), published by the United States Bureau of Labor Statistics. The revised amounts will be effective upon their delivery by the Secretary to the United States Claims Court, and the amount will be published in a notice in the **Federal Register** from time to time as determined by the Secretary.

Medicare Program; Allowing Certifications and Recertifications by Nurse Practitioners and Clinical Nurse Specialists for Certain Services

AGENCY: Health Care Financing Administration (HFA), HHS.

ACTION: Proposed rule.

SUMMARY: This proposed rule would implement section 6028 of the Omnibus Budget Reconciliation Act of 1989, which authorizes nurse practitioners and clinical nurse specialists working in collaboration with a physician to certify and recertify that extended care services are needed or continue to be needed.

DATES: Comments will be considered if we receive them at the appropriate address, as provided below, no later than 5:00 p.m. on August 27, 1991.

ADDRESSES: Mail comments to the following address: Health Care Financing Administration, Department of Health and Human Services, attention: BPD–709–P, P.O. Box 26676, Baltimore, Maryland 21207.

If you prefer, you may deliver your comments to one of the followng addresses:

Room 309–G, Hubert H. Humphrey Building, 200 Independence Ave., SW., Washington, DC, or

Room 132, East High Rrise Building, 6325 Security Boulevard, Baltimore, Maryland.

Due to staffing and resource limitations, we cannot accept facsimile (FAX) copies of comments.

If comments concern information collection or recordkeeping requirements, please address a copy of comments to:

Office of Management and Budget, Office of Information and Regulatory Affairs, room 3208, New Executive Office Building, Washington, DC 20503, attention: Allison Herron.

In commenting, please refer to file code BPD–709–P. Comments received timely will be available for public inspection as they are received, beginning approximately three weeks after publication of this document, in room 309–G of the Department's offices at 200 Independence Ave., SW., Washington, DC, on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (phone: 202–245–7890).

FOR FURTHER INFORMATION CONTACT: Thomas Hoyer (303) 966–4607.

SUPPLEMENTARY INFORMATION:

I. Background

Section 1814(a) of the Social Security Act (the Act) requires specific certifications in order for Medicare payments to be made for certain services. Prior to the enactment of the Omnibus Budget Reconciliation Act of 1989 (Pub. L. 101–239), section 1814(a)(2)(B) of the Act required that, in the case of extended care services, a physician certify that the services are or were required to be given because the individual needs or needed, on a daily basis, skilled nursing care (provided directly by or requiring the supervision of skilled nursing personnel) or other skilled rehabilitation services which, as a practical matter, can only be provided in skilled nursing facility (SNF) on an inpatient basis.

The physician certification requirements were included in the law to ensure that patients require a level of care which is covered by the program and because the physician is a key figure in determining utilization of health services.

Section 2183 of the Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97–35), allowed physician assistants and nurse practitioners under the general supervision of a physician to do recertification (but not certifications) of certain services for Medicaid eligibles. Section 6028 of Public Law 101–239 amended section 1814(a)(2) of the Act to allow, in the case of extended care services, a nurse practitioner or clinical nurse specialist who does not have a direct or indirect employment relationship with the facility, but is working in collaboration with a physician, to certify and recertify that extended care services are needed to continue to be needed.

Current regulations located at 42 CFR part 424, concerning conditions for Medicare payments, specify that a physican must certify and recertify the need for services. Regulations located at § 424.20 provide Medicare Part A coverage for posthospital SNF care furnished by a SNF or a hospital with a swing-bed approval only if a physician certifies and recertifies the need for services. Section 424.20(a)(2) contains certification requirements for certain swing bed patients under which a physician must certify that transfer is not medically appropriate. Also, § 424.20(e) provides that certification and recertification statements may be signed by the physician responsible for the case or, with is or her authorization, by a physician on the SNF staff or a physician who is available in case of an emergency and has knowledge of the case.

II. Provisions of the Regulations

In accordance with section 1814(a)(2)(B) of the Act, we would amend 42 CFR part 424, which pertains to conditions for Medicare payments. We propose to revise §§ 424.1(b)(1) and 424.5(a)(4) pertaining to the general provisions of part 424 by deleting the statement that only a physician can certify and recertify the need for extended care services. We propose to revise § 424.10(a), which specifies that certifications and recertifications must be made only by a physician, to permit a nurse practitioner or clinical nurse specialist to certify and recertify the need for services.

We propose to revise § 424.11(b), which specifies procedures for obtaining certifications and recertifications, to remove the requirement that only a physician can certify and recertify the need for services. We would add a new § 424.11(e)(4) to specify that a nurse practitioner or clinical nurse specialist could certify and recertify that extended care services are needed or continue to be needed.

We propose to revise § 424.20(e), which pertains to the requirements for posthospital SNF care, by adding a new provision to specify that the signer of the certification and recertification may be a nurse practitioner or clinical nurse specialist, neither of whom has a direct or indirect employment relationship with the facility, but is working in collaboration with a physician. In this section we also propose to explain that "collaboration" means a process whereby a nurse practitioner or clinical nurse specialist works with a doctor of medicine or osteopathy to deliver health care services. The services must be delivered within the scope of the practitioner's professional expertise as defined and as licenced by the State, with medical direction and appropriate supervision as provided for in guidelines jointly developed between the practitioner and the physician or other mechanisms defined by Federal regulations and the law of the State in which the services are performed.

Public Law 101–239 did not amend section 1883(d)(2)(A) of the Act, which requires that for swing bed hospitals with more than 49 beds that are approved after March 31, 1988, the extended care patient's physician has 5 days, beginning on the availability date, to certify that the transfer of the extended care patient is not medically appropriate. Therefore, we are not proposing to make any changes to § 424.20(b)(2), which reflects this section of the Act. However, we are revising the authority citations for part 424 to include § 1883(d)(2) of the Act, since that section contains the authority for § 424.20(b)(2).

III. Response to Comments

Because of the large number of items of correspondence we normally receive on proposed regulations, we are not able to acknowledge or respond to them individually. However, we will consider all comments that we receive by the date and time specified in the "Date" section of this proposed rule, and, if we proceed with a final rule, we will respond to the comments in the final rule.

IV. Information Collection Requirements

Section 424.20 of this proposed rule contains information collection and recordkeeping requirements that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*) The information collection requirements concern signatures for certification and recertification statements for extended care services. The respondents who would be responsible are physicians, nurse practitioners or clinical nurse specialists working in collaboration with a physician. Public reporting burden for this collection of information is estimated to be (estimated to be provided before final publication) minutes/hours per response. A notice will be published in the **Federal Register** after approval is obtained.

Organizations and individuals desiring to submit comments on the information collection and recordkeeping requirements should direct them to the OMB official whose name appears in the "ADDRESSES" section of this preamble.

V. Regulatory Impact Statement

Executive Order 12291 (E.O. 12291) requires us to prepare and publish a regulatory impact analysis for any proposed rule that meets one of the E.O. 12291 criteria for a "major rule"; that is, that would be likely to result in—

- An annual effect on the economy of $100 million or more;
- A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or
- Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

In addition, we generally prepare a regulatory flexibility analysis that is consistent with the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 through 612) unless the Secretary certifies that a proposed rule would not have a significant economic impact on a substantial number of small entities. For purposes of the RFA, physicians are considered to be small entities. We also consider nurses who work on a consulting basis or who are self-employed to be small entities. Individuals are not considered as small entities.

Section 1102(b) of the Act requires the Secretary to prepare a regulatory impact analysis if a proposed rule may have a significant impact on the operations of a substantial number of small rural hospitals. Such an analysis must conform to the provisions of section 603 of the RFA. For purposes of section 1102(b) of the Act, we define a small rural hospital as a hospital that is located outside of a Metropolitan Statistical Area and has fewer than 50 beds.

The committee report to section 6028 of Public Law 101–239 did not provide any specific rationale for expanding the requirement for physician certification and recertification to include nurse practitioners and clinical nurse specialists. However, in the past Congress has looked at Medicare and Medicaid certification and recertification requirements and chosen to amend only certain parts of them under the Medicaid program. For instance, section 2183 of Public Law 97–35 amended section 1903(g)(1)(A) of the Act to allow physician assistants and nurse practitioners to recertify the continued need for inpatient (hospital, SNF and ICF) services. According to the legislative report which accompanied this law, (H.R. Rep. No. 97–158, 97th Cong., 1st Sess., (1981)), Congress found physician assistants and nurse practitioners, under the supervision of physicians, were well qualified to perform a recertification of a patient's need for continued inpatient care. We believe that Congress, since they passed the legislation, would also find nurse practitioners and clinical nurse specialists qualified to certify and recertify that extended care services are needed or continue to be needed.

The proposed rule states that in order for nurse practitioners and clinical nurse specialists to certify or recertify that extended care services are needed or continue to be needed, they cannot have a direct or indirect employment relationship with the facility. However, we believe that since the nurse practitioner or clinical nurse specialist must work in collaboration with a physician, as defined in the preamble and regulations text (proposed § 424.20(e)(2)), and have knowledge of the case, the nurse practitioner or clinical nurse specialist would be familiar with the procedures necessary to certify or recertify. The implementation of the provision to allow nurse practitioners and clinical nurse specialists to certify and recertify would be beneficial to physicians since this would free physicians to perform other procedures that require the full skill of his or her profession.

We have determined that this proposed rule, in itself, would not produce any effects that would meet any of the criteria of E.O. 12291; therefore, a regulatory impact analysis under E.O. 12291 is not required. For the same reasons, we have determined and the Secretary certifies that this proposed rule would not have a significant effect on a substantial number of small entities or have any adverse effects on small rural hospitals. Thus, a regulatory flexibility analysis under the RFA and rural impact analysis under section 1102(b) of the Act are not required.

V. List of Subjects in 42 CFR 424

Assignment of benefits, Physician certification, Claims for payment, Emergency services, Plan of treatment.

42 CFR part 424 would be amended as set forth below:

PART 424—CONDITIONS FOR MEDICARE PAYMENT

1. The authority citation for part 424 is revised to read as follows:

Authority: Secs. 216(j), 1102, 1814, 1815(c), 1835, 1842(b), 1861, 1866(d), 1870(e) and (f), 1871, 1872 and 1883(d)(2) of the Social Security Act (42 U.S.C. 416(j), 1302, 1395f, 1395g(c), 1395n, 1395u(b), 1395x, 1395cc(d), 1395gg(e) and (f), 1395hh, 1395ll and 1395tt(d)(2)).

Subpart A—General Provisions

2. Subpart A is amended as follows:

a. In § 424.1, the introductory language for paragraph (b) is republished and paragraph (b)(1) is revised to read as follows:

§ 424.1 Basis and scope.

* * * * *

(b) *Scope.* This part sets forth certain specific conditions and limitations applicable to Medicare payments and cites other conditions and limitations set forth elsewhere in this chapter. This Subpart A provides a general overview. Other subparts deal specifically with—

(1) The requirement that the need for services be certified and that a physician establish a plan of treatment (Subpart B);

* * * * *

b. In § 424.5, the introductory language for paragraph (a) is republished and paragraph (a)(4) is revised to read as follows:

§ 424.5 Basic conditions.

(a) As a basis for Medicare payment, the following conditions must be met:

* * * * *

(4) *Certification of need for services.* When required, the provider must obtain certification and recertification of the need for the services in accordance with Subpart B of this part.

* * * * *

Subpart B—Physician Certification and Plan of Treatment Requirements

3. Subpart B is amended as follows:

a. The title for Subpart B is revised to read: Subpart B—Certification and Plan of Treatment Requirements.

b. Section 424.10(a), is revised to read as follows:

VOL
56
ISS
125
JE
28
1991
UMI

§ 424.10 Purpose and scope.

(a) *Purpose.* The physician has a major role in determining utilization of health services furnished by providers. The physician decides upon admissions, orders tests, drugs, and treatments, and determines the length of stay. Accordingly, sections 1814(a)(2) and 1835(a)(2) of the Act establish as a condition for Medicare payment that a physician certify the necessity of the services and, in some instances, recertify the continued need for those services.

Section 1814(a)(2) of the Act also permits nurse practitioners or clinical nurse specialists to certify and recertify the need for post-hospital extended care services.

* * * * *

c. In section 424.11, paragraph (b) is revised, the introductory language for paragraph (e) is revised, and a new paragraph (e)(4) is added to read as follows:

§ 424.11 General procedures.

* * * * *

(b) *Obtaining the certification and recertification statements.* No specific procedures or forms are required for certification and recertification statements. The provider may adopt any method that permits verification. The certification and recertification statements may be entered on forms, notes, or records that the appropriate individual signs, or on a special separate form. Except as provided in paragraph (d) of this section for delayed certifications, there must be a separate signed statement for each certification or recertification.

* * * * *

(e) *Limitation on authorization to sign statements.* A certification or recertification statement may be signed only by one of the following:

* * * * *

(4) A nurse practitioner or clinical nurse specialist, as defined and licensed by the State, in the circumstances specified in § 424.20(e).

d. In § 424.20, the introductory language and paragraph (e) are revised to read as follows:

§ 424.20 Requirements for posthospital SNF care.

Medicare Part A pays for posthospital SNF care furnished by a SNF or a hospital with a swing-bed approval only if the certification and recertification for services are consistent with the content of paragraph (a) or (c) of this section, as appropriate.

* * * * *

(e) *Signature.* Certification and recertification statements may be signed by—

(1) The physician responsible for the case or, with his or her authorization, by a physician on the SNF staff or a physician who is available in case of an emergency and has knowledge of the case; or

(2) A nurse practitioner or clinical nurse specialist, neither of whom has a direct or indirect employment relationship with the facility but who is working in collaboration with a physician. For purposes of this section, "collaboration" means a process whereby a nurse practitioner or clinical nurse specialist works with a doctor of medicine or osteopathy to deliver health care services. The services are delivered within the scope of the practitioner's professional expertise, with medical direction and appropriate supervision as provided for in guidelines jointly developed between the practitioner and the physician or other mechanisms defined by Federal regulations and the law of the State in which the services are performed.

42 CFR Part 433

[MB-35-P]

RIN: 0938-AE26

Medicaid Program; Medicaid Management Information System (MMIS) Performance Review: Notification Procedures for Changes in Requirements, Performance Standards, and Reapproval Conditions

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: This rule proposes to eliminate the requirement in the Medicaid regulations that HCFA meet certain Federal Register notification requirements for any changes in performance standards and other conditions for reapproval of State Medicaid Management Information Systems (MMISs), even if such Federal Register notice would not otherwise be required. An independent regulatory Federal Register publication requirement would remain in place with respect to changes in system requirements and other conditions for approval of MMISs.

We believe that a revised process for notifying States and other concerned parties of changes in performance standards and other conditions of reapproval is appropriate and will facilitate the efficient issuance of revised MMIS review requirements and methodologies each year.

DATES: Comments will be considered if we receive them at the appropriate address, as provided below, no later than 5 p.m. on July 29, 1991.

ADDRESS: Mail comments to the following:

Health Care Financing Administration, Department of Health and Human Services, Attention: MB-35-P, PO Box 26676, Baltimore, Maryland 21207.

If you prefer, you may deliver your comments to one of the following addresses:

Room 309-G, Hubert H. Humphrey Building, 200 Independence Avenue, SW., Washington, DC, or

Room 132, East High Rise Building, 6325 Security Boulevard, Baltimore, Maryland.

If comments concern information collection or recordkeeping requirements, please address a copy of comments to:

Office of Information and Regulatory Affairs, Office of Management and Budget, Room 3002, New Executive Office Building, Washington, DC 20503, Attention: Allison Herron.

Due to staffing and resource limitations, we cannot accept facsimile (FAX) copies of comments.

In commenting, please refer to file code MB-35-P. Comments will be available for public inspection as they are received, generally beginning approximately 3 weeks after publication, in Room 309-G of the Department's offices at 200 Independence Avenue, SW., Washington, DC, on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m. (202-245-7890).

FOR FURTHER INFORMATION CONTACT: Rick Friedman, (301) 966-3292.

SUPPLEMENTARY INFORMATION:

Background

Under the authority of section 1903(a)(3) of the Social Security Act (the Act), HCFA requires most States with a Medicaid program to operate an approved mechanized claims processing and information retrieval system. The mechanized claims processing and information retrieval system (referred to as the Medicaid Management Information System (MMIS) is a system of software and hardware used to process Medicaid claims, and to retrieve and produce utilization data and management information about Medicaid recipients and services. These data and information are required by the Medicaid agency and by the Federal Government for administrative and audit purposes.

Federal financial participation (FFP) is available at the 75 percent rate for operation of an approved MMIS. Section 1903(r)(4)(A) of the Act requires reviews of each MMIS at least once every 3 years to determine whether it meets performance standards, system requirements, and other conditions and continues to qualify for FFP. Other limited or full reviews also may be conducted. Sections 1903(r)(1)(C) and 1903(r)(4)(B) of the Act require reductions in FFP otherwise due a State under secton 1903(a) if a State fails to meet certain deadlines for operating the system or if the system fails to meet certain conditions for approval or reapproval.

On June 30, 1981, we published in the Federal Register (46 FR 33653) a notice containing the initial performance standards used to evaluate State MMISs. In that notice, we indicated that the standards would be published in the Federal Register but the detailed supporting procedures concerning the application of the standards (sampling, scoring, evaluation methodologies, etc.) would be published in the State Medical Manual and issued to all MMIS States. We also provide the detailed instructions and supporting procedures, including the sampling, scoring, and evaluation methodologies that will be used to review each State's MMIS, as part of the System Performance Review (SPR) Guide issued to every State by June 30 of each year preceding the review period that begins October 1.

Section 1903(r)(6)(F) of the Act requires HCFA to periodically update the performance standards, systems requirements, review criteria, and other requirements, when appropriate, that are used in conducting reviews for reapproval of the MMIS. While the performance standards for reapproval of MMISs have remained mostly unchanged, the supporting procedures described earlier generally have been updated from year to year.

Although not required by statute, in July 1985 (50 FR 30848) we promulgated a regulation at § 433.123 which requires publication of a Federal Register notice describing proposed revisions to system requirements, standards, or other conditions for approval or reapproval without regard to whether such Federal Register publication is required under the Administrative Procedure Act. In that regulation, we specified that we would issue a subsequent notice responding to public comments on any proposed revisions and issue the new or modified standards or conditions in the State Medicaid Manual. Section 433.123(b) specifies that HCFA will allow a reasonable period of time before the applicable review period for States to meet changes in systems requirements and conditions for approval. Section 443.123(c) specifies that HCFA will notify Medicaid agencies at least one calendar quarter before the applicable review period for new or modified standards or conditions of reapproval.

In accordance with § 433.123, we have published the standards in the Federal Register, but we have not published all of the factors, methods of evaluation, and supporting procedures. This is consistent with the intent specified in the June 30, 181 Federal Register notice. As we indicated earlier, we issue, generally annually, the detailed factors, methods of evaluation, and supporting procedures for conducting MMIS reviews for reapprovals as part of the SPR Guide. (For informational purposes, we repeat the standards in the guide.)

State Involvement in Developing Updated Measures

Section 1903(r)(6)(E) of the Act requires us to notify all States of any revision in procedures, standards, and other requirements at least one quarter before they are to be used for conducting reviews for MMIS reapprovals. It does not mandate the form or the content of the notification. Since 1981, we have developed acceptable performance levels and specific methodologies for conducting reviews and evaluating State MMIS operations each fiscal year and issued them in the SPR Guide after consultation with and opportunity to comment by States through established HCFA administrative procedures. We have involved State representatives in this development, including the Systems Technical Advisory Group (S-TAG). The S-TAG is a component of the State Medicaid Directors Association (SMDA)). The SMDA is an organization affiliated with the American Public Welfare Association (APWA). The existing S-TAG consists of seven State representatives and a representative from the APWA who provide technical assistance to HCFA on the systems operations of the Medicaid program, especially the MMIS. HCFA holds meetings or teleconferences, or both, with the S-TAG to obtain their advice on proposed changes to the existing procedures and conditions of reapproval in the SPR Guide. In addition, HCFA frequently sends copies of the draft SPR Guide to the States and the S-TAG for further comment and input. This is done before the final distribution of the guide on or before June 30 preceding each fiscal year review period that begins on October 1. HCFA central office staff monitor this process and coordinate the changes from the States. As a result of this administrative process, the final SPR Guide that HCFA issues each year incorporates the States' input and addresses their concerns.

Based on our past experience, we believe that the opportunity offered to States by this administrative process to make recommendations and changes concerning the systems performance review requirements and to comment on specific proposals has proven to be an effective, efficient, and expeditious process in view of the frequency (at least once a year) with which we update and reissue the SPR Guide. We believe that this process of distributing the SPR Guide to all States by June 30 of each year preceding the review period that begins October 1 meets the requirements of section 1903(r)(6)(E) of the Act for notice of States.

Notice Changes

Since the inception of the MMIS program, HCFA has published in the Federal Register only one set of standards for reviewing the performance of the States' MMISs for reapprovals. In the June 30, 1981 notice cited earlier, standards and elements were specified; factors were included for illustrative purposes only. On September 5, 1990, we published in the Federal Register (55 FR 36319) a final notice to eliminate the use of elements in the SPR Guide. We further indicated that the factors would not be directly associated with any particular standard; that is, passing a given standard would not depend on meeting the requirements of a given grouping of factors. We made these changes because, based on our experience, the prior SPR Guide had a number of shortcomings. In some instances, specific activities we wanted to measure as indicative of the performance of the MMIS could not be logically classified under the standards or elements as they were formatted, or could arguably be placed under more than one of the standards and elements. In other instances, we felt it inappropriate to review activities under

VOL 56 ISS 125 JE 28 1991 UMI

a particular standard or element because shifting program emphasis indicated that priorities be placed in other areas.

On the basis of our experience in overseeing the administration of the MMIS and conducting the required performance reviews since 1981, we have concluded that the Federal Register notice requirements of § 433.123 concerning the performance standards and conditions of reapproval are constrictive, inflexible, and unnecessary. We have in place the previously discussed flexible and efficient procedures for making changes to the factors, methods of evaluation, and supporting materials, which provide ample notice to the States, allow for appropriate input by the States, and conform with provisions of the Act. Publication of revisions in the Federal Register generally requires a minimum lead time of 18 to 24 months. This lead time takes into account the approximate time for developing and clearing appropriate changes within HCFA and the Department, the process of publishing a proposed notice, a period of time for public comments, and issuance of a subsequent notice. As a result, we believe that the assessment data gathered from the reviews conducted under this lengthy publication process of changes would no longer be timely or relevant to current MMIS concerns.

We also believe that our notification process through issuance of the SPR Guide following consultation and cooperative development with the States and the S-TAG satisfy the requirement for appropriate notice in section 1903(r)(6)(E) of the Act. That requirement concerns the changes to the performance standards and other conditions used for the reapproval of State MMISs.

As indicated earlier, we obtain States' input and respond to their comments. In addition, the advance release time of the SPR Guide at least one quarter before the date that it will be used for reapproval reviews meets the notification period required in the Act. As also discussed earlier, all of the standards, factors, methods of evaluation, and scoring and sampling methodologies are included in the guide and issued to States 3 months before the affected review period (by June 30 before the October 1 implementation date). Therefore, we have concluded that publication of a notice of proposed changes, a final notice addressing public comments in the Federal Register, and a subsequent administrative issuance as a prerequisite for issuing final changes in the conditions for reapproval is not the most appropriate, efficient mechanism for notifying MMIS States of proposed changes and allowing them opportunity for comment. We will use a more expeditious means of providing States with notice of changes and opportunity for comment through the SPR Guide.

We are proposing to delete those provisions of § 433.123 which specify that notification of changes concerning performance standards and/or other conditions of reapproval must take place through publication of a proposed notice, a subsequent notice addressing public comments in the Federal Register, and publication in the State Medicaid Manual. In place of that language, we are proposing to revise § 433.123 to reflect the notice requirements in section 1903(r)(6)(E) of the Act; that is, we will notify Medicaid agencies directly at least one calendar quarter before the review period to which the new or modified performance standards or conditions of reapproval apply. As a result, HCFA will be able to develop or modify more effective reapproval requirements. HCFA also will be able to conduct system performance reviews of MMISs under a performance review mechanism that is more timely, easier to work with, and more reflective of the current concerns in MMIS State operations with more relevant and timely assessment data being derived from the reviews as well.

Response to Public Comments

Because of the large number of items of correspondence we normally receive on a proposed rule, we are not able to acknowledge or respond to them individually. However, we will consider all comments that we receive by the date and time specified in the "Date" section of this preamble and will respond to the comments in the preamble of the final rule issued following this proposed rule.

Paperwork Burden

Section 433.123 does not contain information collection requirements that are subject to review by the Office of Management and Budget under the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35).

Regulatory Impact Statement

1. Executive Order 12291

Executive Order 12291 (E.O. 12291) requires us to prepare and publish a regulatory impact analysis for any proposed rule that meets one of the E.O. 12291 criteria for a "major rule"; that is, that would be likely to result in—

- An annual effect on the economy of $100 million or more;
- A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or
- Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises in domestic or export markets.

This proposed rule would delete the requirements from § 433.123 of the regulations that we publish the performance standards and other conditions for reapproval of MMISs in the Federal Register. These requirements are not dictated by statute and are considered unnecessary at this time. Under current requirements of the regulations, flexibility and efficiency for making changes are greatly limited. For example, publication and final change in the Federal Register in accordance with § 433.123 ordinarily requires a minimum lead time of 18 to 24 months.

The objective of this proposed rule is to increase efficiency in implementing needed changes in MMIS operations and administration by eliminating the need for publication in the Federal Register as a prerequisite for our making changes to the SPR Guide. States would continue to receive notice and an opportunity to comment. Therefore, any effect on States due to this proposed regulation would be minimal.

We do not expect this proposed rule to meet any of the criteria for a major rule under E.O. 12291. Therefore, we are not including an initial regulatory impact analysis.

2. Regulatory Flexibility Act

We generally prepare a regulatory flexibility analysis that is consistent with the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 through 612) unless the Secretary certifies that a proposed regulation would not have a significant economic impact on a substantial number of small entities. For purposes of the RFA, we do not consider States to be small entities.

Also, section 1102(b) of the Social Security Act requires the Secretary to prepare a regulatory impact analysis if a proposed regulation may have a significant impact on the operation of a substantial number of small rural hospitals. Such an analysis must conform to the provisions of section 603 of the RFA. For purposes of section 1102(b) of the Act, we define a small rural hospital as a hospital which is located outside of a Metropolitan Statistical Area and has fewer than 50 beds.

Since States are not considered small entities, we have determined, and the Secretary certifies, that this proposed regulation would not have a significant economic impact on a substantial number of small entities. As discussed above, States would still be given notice and an opportunity to comment on proposed changes. In addition, this proposed regulation would not have a significant impact on the operations of a substantial number of small rural hospitals. Therefore, we have not prepared analyses for either the RFA or section 1102(b) of the Act.

List of Subjects in 42 CFR Part 433

Administrative practice and procedure, Child support, Claims, Grant programs—health, Medicaid, Reporting and recordkeeping requirements.

42 CFR part 433 would be amended as follows:

PART 433—STATE FISCAL ADMINISTRATION

1. The authority citation for part 433 continues to read as follows:

Authority: Secs. 1102, 1137, 1902(a)(4), 1902(a)(25), 1902(a)(45), 1903(a)(3), 1903(d)(2), 1903(d)(5), 1903(o), 1903(p), 1903(r), and 1912 of the Social Security Act; 42 U.S.C. 1302, 1320b-7, 1396a(a)(4), 1396a(a)(25), 1396a(a)(45), 1396b(a)(3), 1396b(d)(2), 1396b(d)(5), 1396b(o), 1396b(p), 1396b(r), and 1396k, unless otherwise noted.

2. Section 433.123 is revised to read as follows:

§ 433.123 Notification of changes in system requirements, performance standards or other conditions for approval or reapproval.

(a) Whenever HCFA modifies system requirements or other conditions for approval under § 433.112 or § 433.116, HCFA will—

(1) Publish a notice in the Federal Register making available the proposed changes for public comment;

(2) Respond in a subsequent Federal Register notice to comments received; and

(3) Issue the new or modified requirements or conditions in the State Medicaid Manual.

(b) For changes in system requirements or other conditions for approval, HCFA will allow an appropriate period for Medicaid agencies to meet the requirement determining this period on the basis of the requirement's complexity and other relevant factors.

(c) Whenever HCFA modifies performance standards and other conditions for reapproval under § 433.119, HCFA will notify Medicaid agencies at least one calendar quarter before the review period to which the new or modified standards or conditions apply.

BILLING CODE 4120-01-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 91-177, RM-7737]

Radio Broadcasting Services; Orland, CA

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition for rule making filed on behalf of Edward E. Abramson, permittee of Station KXHM(FM), Channel 293A, Orland, California, seeking the substitution of FM Channel 294B1 for Channel 293A and modification of his construction permit accordingly. Coordinates for this proposal are 39-45-40 and 122-22-20.

Petitioner's modification proposal complies with the provisions of Section 1.420(g) of the Commission's Rules. Therefore, we will not accept competing expressions of interest in the use of Channel 294B1 at Orland, California, or require the petitioner to demonstrate the availability of an additional equivalent class channel.

DATES: Comments must be filed on or before August 16, 1991, and reply comments on or before September 3, 1991.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner's counsel, as follows: Eric S. Kravetz, Esq., Brown, Finn & Nietert, 1920 N. Street, NW., suite 660, Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: Nancy Joyner, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 91-177, adopted June 17, 1991, and released June 25, 1991. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, Downtown Copy Center, (202) 452-1422, 1714 21st Street, NW., Washington, DC 20036.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

For information regarding filing procedures for comments, See 47 CFR 1.415 and 1.420.

47 CFR Part 73

[Docket No. 91-176, RM-7738]

Radio Broadcasting Services; Fortuna and Rohnerville, CA

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition for rule making filed by North Star Communications, permittee of Station KQEX(FM), Channel 263A, Rohnerville, California, seeking to change the designation of its community of license to specify Fortuna, and to modify its permit for Station KQEX(FM) to specify operation on Channel 262C2. Petitioner's proposal is premised on a desire to provide a first local, wide area coverage FM transmission service to Fortuna, the community to which Rohnerville is annexed. Coordinates for this proposal are the presently authorized site for

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

1991-1992 Marketing Year Penalty Rates for All Kinds of Tobacco Subject to Quotas

AGENCY: Agricultural Stabilization and Conservation Service (ASCS), USDA.

ACTION: Notice of determination.

SUMMARY: This notice sets forth the determination of the 1991-1992 marketing year penalty rate for excess tobacco for all kinds of tobacco subject to marketing quotas. In accordance with section 314 of the Agricultural Adjustment Act of 1938, as amended, marketing quota penalties for a kind of tobacco are assessed at the rate of seventy-five (75) percent of the average market price for that kind of tobacco for the immediately preceding marketing year.

EFFECTIVE DATE: June 28, 1991.

FOR FURTHER INFORMATION CONTACT: Sarah J. Matthews, Agricultural Program Specialist, Tobacco and Peanuts Division, USDA-ASCS, P.O. Box 2415, Washington, DC 20013 (202) 447-4318.

SUPPLEMENTARY INFORMATION: This rule has been reviewed under USDA procedures established in accordance with Executive Order 12291 and Department Regulation No. 1512-1 and has been classified as "not major." It has been determined that this rule will not result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State or local governments, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises, to compete with foreign-based enterprised in domestic or export markets.

The title and number of the Federal Assistance Program to which this rule applies are: Commodity Loan and Purchases; 10.051, as found in the catalog of Federal Domestic Assistance.

It has been determined that the Regulatory Flexibility Act is not applicable to this notice since the Agricultural Stabilization and Conservation Service (ASCS) is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this notice.

This program/activity is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and Local officials. See the notice related to 7 CFR part 3015, subpart V, published at 48 FR 29115 (June 24, 1983).

Discussion

Section 314 of the Agricultural Adjustment Act of 1938, as amended, provides that the rate of penalty per pound for a kind of tobacco that is subject to marketing quotas shall be seventy-five (75) percent of the average market price for such tobacco for the immediately preceding marketing year.

For all kinds of tobacco subject to marketing quotas, except Puerto Rico (type 46) Tobacco, The Agricultural Statistics Board, National Agricultural Statistical Service (NASS), U.S. Department of Agriculture determines and announces annually the average market prices for each type of tobacco. The penalty rates are determined on the basis of this information.

The National Marketing Quota for Puerto Rican (type-46) Tobacco for the immediately preceding marketing year was "0" pounds. There is no record of any such tobacco being marketed. Consequently, the penalty rate for the 1991-1992 marketing year cannot be determined based on seventy-five (75) percent of the average market price for the immediately preceding year. Therefore, the penalty rate for Puerto Rican (type-46) Tobacco for the 1991-1992 marketing year shall be the same as the penalty rate determined for the 1989-1990 marketing year, the last year in which marketing information is available.

Since the determination of the 1991-1992 marketing year rates of penalty reflect only mathematical computations which are required to be made in accordance with a statutory formula, it has been determined that no further public rulemaking is required.

Accordingly, it has been determined the 1991-1992 marketing year rates of penalty of kinds of tobacco subject to marketing quotas are as follows:

RATE OF PENALTY

(1991-1992 Marketing Year)

Kinds of tobacco	Cent per pound
Flue-Cured	125
Burley	131
Fired-Cured (Type 21)	120
Fired-Cured (Types 22, and 23)	148
Dark Air-Cured (Types 35, and 36)	140
Virginia Sun-Cured (Type 37)	109
Cigar-Filler and Binder (Types 42, 43, 44, 54, and 55)	113
Puerto Rican Cigar Filler (Type 46)	57

Signed at Washington, DC on June 24, 1991.

Keith D. Bjerke,

Administrator, Agricultural Stabilization and Conservation Service.

BILLING CODE 3410-05-M

Food Safety and Inspection Service

[Docket No. 91-024N]

National Advisory Committee on Microbiological Criteria for Foods; Meeting

Notice is hereby given that a meeting of the National Advisory Committee on Microbiological Criteria for Foods, will be held on Tuesday and Wednesday, July 16-17, 1991, in Denver, Colorado, from 8:30 a.m. to 4:30 p.m., at the Doubletree Hotel, 13696 East Iliff Place at I-225, (Aurora, Colorado) 80014, telephone (303) 337-2800.

In addition, this notice announces that the Seafood Working Group of the Advisory Committee on Microbiological Criteria for Foods will hold a working group meeting on July 15, 1991, from 1 p.m. to 4 p.m., also being held at the Doubletree Hotel, Denver, (Aurora) Colorado.

The Committee provides advice and recommendations to the Secretaries of Agriculture and Health and Human Services concerning the development of microbiological criteria by which the safety and wholesomeness of food can

VOL 56 ISS 125 JE 28 1991 UMI

be assessed, including criteria for microorganisms that indicate whether foods have been produced using good manufacturing practices.

The following topics are scheduled for discussion:

(1) Presentation on *Campylobacter* by Dr. Morris Potter, Centers for Disease Control, Atlanta, Georgia.

(2) *Listeria monocytogenes* document as prepared and presented by the *Listeria monocytogenes* Working Group.

(3) Read Meat and Poultry Hazard Analysis and Critical Control Points Plans as prepared and presented by the Meat and Poultry Working Group.

(4) Microbiological Safety of Raw Molluscan Shellfish as prepared and presented by the Seafood Working Group.

This notice also announces the appointment to the committee of Dr. Sterling S. Thompson of Hershey Foods Corporation, Hershey, Pennsylvania, and the reappointment for 1 year of Dr. Mitchell Cohen, Centers for Disease Control, Atlanta, Georgia.

The Committee meetings are open to the public on a space available basis. Comments of interested persons may be filed prior to the meeting and should be addressed to Ms. Catherine M. DeRoever, Director, Executive Secretariat, U.S. Department of Agriculture, Food Safety and Inspection Service, room 3175, South Agriculture Building, 14th and Independence Avenue, SW., Washington, DC 20250. When submitting comments, please reference Docket Number 91-024N. Background materials are available for inspection by contacting Ms. DeRoever on (202) 447-9150.

Done at Washington, DC, on: June 24, 1991.

Lester M. Crawford,

Administrator, Food Safety and Inspection Service.

Bureau of Export Administration

MCTL Implementation Technical Advisory Committee; Closed Meeting

A meeting of the MCTL Implementation Technical Advisory Committee will be held July 25, 1991, at 9:30 a.m., in the Herbert C. Hoover Building, room 1617-F, 14th Street and Constitution Avenue, NW., Washington, DC. The Committee advises the Office of Technology and Policy Analysis in the implementation of the Militarily Critical Technologies List (MCTL) into the Export Administration Regulations as needed.

The Committee will meet only in Executive Session to discuss matters properly classified under Executive Order 12356, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The Assistant Secretary for Administration, with the concurrence of the delegate of the General Counsel, formally determined on December 28, 1990, pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, that the series of meetings or portions of meetings of the Committee and of any Subcommittees thereof, dealing with the classified materials listed in 5 U.S.C. 552b(c)(1) shall be exempt from the provisions relating to public meetings found in section 10 (a)(1) and (a)(3), of the Federal Advisory Committee Act. The remaining series of meetings or portions thereof will be open to the public.

A copy of the notice of determination to close meetings or portions of meetings of the Committee is available for public inspection and copying in the Central Reference and Records Inspection Facility, room 6628, U.S. Department of Commerce, Washington, DC. For further information, call Ruth D. Fitts at 202-377-4959.

Dated: June 24, 1991.

Antifriction Bearings (Other Than Tapered Roller Bearings) and Parts Thereof From the Federal Republic of Germany, France, Italy, Japan, Romania, Singapore, Sweden, Thailand, and the United Kingdom; Initiation of Antidumping Administrative Reviews

AGENCY: Import Administration/ International Trade Administration, Department of Commerce.

ACTION: Notice of initiation of antidumping administrative reviews.

SUMMARY: The Department of Commerce has received requests to conduct administrative reviews of antidumping duty orders concerning Antifriction Bearings (Other Than Tapered Roller Bearings) and Parts Thereof From the Federal Republic of Germany, France, Italy, Japan, Romania, Singapore, Sweden, Thailand and the United Kingdom. In accordance with the Commerce Regulations, we are initiating those administrative reviews for the period May 1, 1990, through April 30, 1991.

EFFECTIVE DATE: June 28, 1991.

FOR FURTHER INFORMATION CONTACT: Roland L. MacDonald, Director, Office of Antidumping Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone (202) 377-2104.

SUPPLEMENTARY INFORMATION:

Background

The Department of Commerce ("the Department") has received timely requests, in accordance with section 353(a), (2), and (3) of the Department's regulations, for administrative reviews of antidumping duty orders covering antifriction bearings (other than tapered roller bearings) and parts thereof. The orders cover three classes or kinds of merchandise: ball bearings, cylindrical roller bearings (cylindrical), and spherical plain bearings (spherical).

Initiation of Reviews

In accordance with § 353.22(c) of the Department's regulations, we are initiating administrative reviews of the following antidumping duty orders. We intend to issue the final results of these reviews no later than May 31, 1992.

Brass Sheet and Strip From Sweden; preliminary results of antidumping duty administrative reviews

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of Preliminary Results of Antidumping Duty Administrative Review.

SUMMARY: In response to requests by the respondent, Outokumpu Copper Rolled Products AB (OAB) (formerly Metallverken AB), the Department of Commerce has conducted two administrative reviews of the antidumping duty order on brass sheet and strip from Sweden. The reviews cover one exporter and two consecutive periods from March 1, 1988 through February 28, 1990.

As a result of the reviews, the Department has preliminarily determined to assess antidumping duties equal to the difference between the United States price and foreign market value.

Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: June 28, 1991.

SUPPLEMENTARY INFORMATION:

Background

On March 6, 1987, the Department of Commerce ("the Department") published in the **Federal Register** an antidumping duty order on brass sheet and strip from Sweden (52 FR 6998). On March 1, 1989 and March 30, 1990, respectively, OAB requested that we conduct administrative reviews for the two periods from March 1, 1988 through February 28, 1990. We published notices of initiation of the antidumping administrative reviews on April 28, 1989 (54 FR 18320) and April 27, 1990 (55 FR 17792). The Department has now conducted these administrative reviews in accordance with section 751 of the Tariff Act of 1930, as amended ("the Act").

Scope of the Review

The products covered by this review are shipments of brass sheet and strip, other than leaded brass and tin brass sheet and strip, from Sweden. The chemical composition of the products under investigation is currently defined in the Copper Development Association (C.D.A.) 200 Series or the Unified Numbering System (U.N.S.) C20000 series. Products whose chemical compositions are defined by other C.D.A. or U.N.S. series are not covered by this investigation. Until January 1, 1989, such merchandise was classifiable in the Tariff Schedules of the United States Annotated ("TSUSA") under item numbers 612.3900, 621.3982, and 621.3986. Since that date, the merchandise has been classifiable under the Harmonized Tariff Schedule ("HTS") item numbers 7409.21.00 and 7409.29.20. The TSUSA and HS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The reviews cover one manufacturer/exporter, OAB, and the two annual periods from March 1, 1988 through February 28, 1990.

United States Price

In calculating the United States price, the Department used purchase price and exporter's sales price as defined in sect' .n 772 of the Act. For those sales made directly to unrelated parties prior to importation into the United States, we based the United States price on purchase price, in accordance with section 772(b) of the Act. For sales made through a related sales agent in the United States to an unrelated purchaser prior to the date of importation, we also used purchase price as a basis for determining United States price. For these sales, the Department determined that purchase price was the most appropriate indicator of United States price based on the following elements: (1) The merchandise in question was shipped directly from the manufacturer to the unrelated buyer, without being introduced into the inventory of the related selling agent; (2) this was a customary commercial channel for sales of this merchandise between the parties involved; and (3) the related selling agent located in the United States acted only as a processor of sales-related documentation and a communication link with the unrelated U.S. buyer. Final Determination of Sales at Less Than Fair Value: Color Picture Tubes From Japan, 52 FR 44171 (1987).

Where all of the above elements are met, we regard the routine selling functions of the exporter as merely having been relocated geographically from the country of exportation to the United States, where the sales agent performs them. *Id.* Whether these functions are performed in the United States or abroad does not change the substance of the transactions or the functions themselves. *Id.* Where the merchandise was further processed in the United States, we based United States price on exporter's sales price (ESP), in accordance with section 772(c) of the Act. The calculation of United States price is detailed below.

Purchase price was based on the delivered price to unrelated purchasers prior to importation into the United States. For purchase price, where applicable, we made deductions for U.S. customs duty, U.S. brokerage and handling, ocean freight and insurance. For exporter's sales price sales, where applicable, we made deductions for credit, U.S. customs duty, ocean freight and insurance, warranty, U.S. brokerage and handling, early payment discounts, U.S. inland freight, value added for further processing, commissions, and indirect selling expenses.

For the one U.S. customer for which we had information that OAB's U.S. subsidiary paid some of the freight costs from independent U.S. warehouses to the customer, but for which we had received no information on these freight costs, we used the reported ocean freight expenses as best information available (BIA). Because the respondent did not report exact commission rates for closed consignment sales, we used the highest rate in the respective period as BIA. For the sales that OAB's U.S. subsidiary further processed, where the shipping date from the subsidiary was not reported, we used the shipping date from Sweden as BIA. For ESP transactions, where indirect selling expenses were not reported, we used the rate reported for the commissions as BIA. When sales dates preceded the review period, we used the commission rate of the first year of the period as BIA.

Foreign Market Value

In calculating the foreign market value (FMV), the Department used home market price as defined in section 773(a) of the Act, because sufficient quantities of such or similar merchandise were sold in the home market to provide a reliable basis for comparison. Home market price was based on the delivered price to unrelated purchasers. We made adjustments, where applicable, for inland freight and insurance, and for differences in indirect selling expenses, credit, warranty, and packing, as well as for post-sale warehousing expenses incurred in the United States.

Since there were no commissions paid in the home market during the March 1, 1988 through February 28, 1989 period, for purchase price transactions, we deducted home-market indirect selling expenses from FMV to offset U.S. commissions. See 19 CFR 353.56(b)(1).

No indirect selling expenses were provided for the period March 1, 1989 through February 28, 1990 for both purchase price and exporter sale's price transactions. For purchase price transactions, we added the U.S. commissions to FMV and did not offset FMV for these indirect expenses. See 19 CFR 353.56(b)(1); 353.56(b)(2).

Because respondent did not report home market sales in 1987, we matched U.S. sales in 1987 to home market sales in January 1988. Because there were no sales of 1063 strip in the home market during one period, we matched U.S. sales of 1063 strip to home market sales of 1070 strip. We did not make adjustments for physical differences because no adjustment data were provided.

Preliminary Results of the Review

As a result of our comparison of United States Price to foreign market value, we have preliminarily determined that the following margins exist for OAB:

Period of review	Margin (percent)
3/1/88–2/28/89	4.56
3/1/89–2/28/90	13.76

Parties to the proceeding may request disclosure within 5 days of the date of publication of this notice. Any interested parties may request a hearing within 10 days of publication. Any hearing, if requested, will be held 44 days after the date of publication of this preliminary notice or the first workday thereafter.

Case briefs and/or written comments from interested parties may be submitted not later than 30 days after the date of publication. Rebuttal briefs and rebuttals to written comments, limited to issues raised in the case briefs and comments, may be filed not later than 37 days after the date of publication. The Department will publish final results of this administrative review, including the results of its analysis of issues raised in any such written comments or at a hearing.

The Department shall determine, and the Customs Service shall assess, antidumping duties on all entries of the subject merchandise covered by these reviews. Individual differences between United States price and foreign market value may vary from the percentages stated above. The Department will issue appraisement instructions directly to the Customs Service.

Furthermore, the following deposit requirements will be effective upon publication of the final results of this review for all shipments of the subject merchandise from Sweden entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(1) of the Act: (1) The cash deposit rate for the reviewed company will be that established in the final results of this review; (2) if the exporter is not a firm covered by this review or by the initial ivestigation, but the manufacturer is covered by this review or the investigation, then the cash deposit rate will be that established for the manufacturer of the merchandise in the final results of this review; and (3) the cash deposit rate for all other exporters/producers shall be 13.76 percent. These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 353.22 of the Commerce Department's regulations (19 CFR 353.22).

Dated: June 24, 1991.

Eric I. Garfinkel,

Assistant Secretary for Import Administration.

Notice of Final Results of Antidumping Duty Administrative Review: Certain Fresh Cut Flowers From Mexico

AGENCY: International Trade Administration, Import Administration, Department of Commerce.

EFFECTIVE DATE: June 28, 1991.

FOR FURTHER INFORMATION CONTACT: Kate Johnson, Steve Alley, or Shawn Thompson, Office of Antidumping Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 377–8830, (202) 377–1766, or (202) 377–1776, respectively.

Final Results

Background

On May 2, 1991, the Department published in the **Federal Register** the preliminary results of its administrative review of the antidumping duty order on certain fresh cut flowers from Mexico (56 FR 20189). On May 9, 1991, the Floral Trade Council, the petitioner, requested a public hearing in this case. On May 10, 1991, respondents Rancho Mision el Descanso (Rancho Mision), Florex, Tzitzic Tareta (Tzitzic), and Visaflor also requested a hearing. On May 10, 1991, respondents Rancho el Aguaje and Rancho el Toro indicated that they would participate in the hearing.

Case briefs were filed by petitioner and all respondents on May 24, 1991. Rebuttal briefs were filed by petitioner and all respondents on May 31, 1991. A public hearing was held on May 31, 1991.

The Department has now completed this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of Review

The products covered by this review are standard carnations, standard chrysanthemums, and pompom chrysanthemums. Such merchandise is currently classified under item numbers 0603.10.7010 (pompom chrysanthemums), 0603.10.7020 (standard chrysanthemums), and 0603.10.7030 (standard carnations) of the Harmonized Tariff Schedule (HTS). Although the HTS item numbers are provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

Best Information Available

Pursuant to section 776(c) of the Act, the Department is required to use best information available (BIA) whenever a party to the proceeding refuses or is unable to produce information requested in a timely manner and in the form required, or otherwise significantly impedes the proceeding. In accordance with this section, we determined in our preliminary results that the use of BIA was appropriate for three of the six respondents: Rancho Mision, Tzitzic, and Visaflor. These respondents have argued that it is inappropriate to use BIA for the final results. However, we have determined that the use of BIA continues to be appropriate for these companies. See Comment 2 in the "Interested Party Comments" section of this notice for further discussion.

Petitioner has argued that it is appropriate to also use BIA for two other respondents: Rancho el Aguaje and Rancho el Toro. However, these respondents were able to produce information requested in a timely manner and in the form required, and they did not significantly impede the proceeding. Therefore, we have used the information submitted by these respondents in these final results. See Comment 1 in the "Interested Party Comments" section of this notice for further discussion.

United States Price

As in the original fair value investigation and in all prior administrative reviews, all U.S. prices were weight-averaged on a monthly basis in order to account for the perishability of the product. For the preliminary results, we weight-averaged U.S. prices by grade of flower. However, for purposes of the final results, we have calculated weighted-average monthly U.S. prices by type of flower, without regard to specific grades. See Comment 9 in the "Interested Party Comments" section of this notice.

Florex

We based U.S. price on both purchase price and exporter's sales price (ESP) because sales were made to unrelated purchasers both before and subsequent to importation. The sales made subsequent to importation were made through an unrelated consignment agent in the United States. When sales were made to an unrelated purchaser prior to importation and ESP methodology was not indicated by other circumstances,

VOL 56 ISS 125 JE 28 1991 UMI

we calculated purchase price for Florex based on packed, f.o.b. Mexico City airport prices and f.o.b. farm prices. Specific adjustments to the amounts reported are fully discussed in the Preliminary Results of Antidumping Duty Administrative Review; Certain Fresh Cut Flowers from Mexico; 56 FR 20101 (May 2, 1991) (Preliminary Results).

Where sales were made subsequent to importation, we calculated ESP based on f.o.b. Houston airport prices. Specific adjustments to the amounts reported as well as deductions to ESP are fully discussed in the Preliminary Results.

Rancho el Aguaje

We based United States price on ESP, in accordance with section 772(c) of the Act, because all sales to the first unrelated purchaser took place after importation into the United States. These sales were made through unrelated consignment agents in the United States.

To calculate ESP, we used the packed, f.o.b. prices delivered to the consignment agent's offices in the United States. Specific adjustments to the amounts reported as well as deductions to ESP are fully discussed in the Preliminary Results.

Rancho el Toro

We based United States price on ESP, in accordance with section 772(c) of the Act, because all sales to the first unrelated purchaser took place after importation into the United States. These sales were made through an unrelated consignment agent in the United States.

To calculate ESP, we used the packed, ex-warehouse prices at the consignment agent's warehouse in the United States. Specific adjustments to the amounts reported as well as deductions to ESP are fully discussed in the Preliminary Results.

Foreign Market Value

Foreign market value (FMV) was calculated based on constructed value (CV) for Florex, Rancho el Aguaje and Rancho el Toro.

Florex

We found that more than 90 percent of Florex's sales of pompom chrysanthemums in Mexico were made at prices below the cost of production (COP). Accordingly, we disregarded all sales as the basis for determining FMV. In accordance with section 773(b) of the Act, we calculated FMV based on constructed value (CV). See the Preliminary Results for the calculation of COP and CV for Florex and an explanation of the deductions from CV and all circumstance of sale adjustments.

Rancho el Aguaje

Rancho el Aguaje did not have home market or third country market sales of export quality grade flowers. Accordingly, we calculated FMV based on CV, in accordance with section 773(a)(2) of the Act. See the Preliminary Results for the calculation of CV and an explanation of the deductions from CV.

Rancho el Toro

Rancho el Toro did not have home market or third country market sales of export quality grade flowers. Accordingly, we calculated FMV based on CV, in accordance with section 773(a)(2) of the Act. See the Preliminary Results for the calculation of CV and an explanation of the deductions from CV.

Analysis of Comments Received

We invited interested parties to comment on the preliminary results of this administrative review. We received case and rebuttal briefs from the petitioner and all respondents.

Comment 1

Petitioner contends that the final determination for Rancho el Aguaje and Rancho el Toro should be based on BIA. Petitioner argues that verification of the submissions of both companies established that these submissions were replete with inaccuracies and that substantial sales and cost data were not reported. In addition, petitioner contends that the fact that flowers grown by Rancho el Toro and the consignment agent's own ranch are routinely mingled by the consignment agent and that the Department found at verification that Rancho el Toro reported sales of flowers produced by a third grower, affect the reliability of the average U.S. price calculated by the Department. Finally, petitioner argues that the Department was unable to verify respondents' cost responses due to the lack of basic internal controls (*e.g.*, audited financial statements, bank accounts, etc.) in respondents' accounting systems.

Rancho el Aguaje and Rancho el Toro contend that the Department acted correctly and within its discretion in relying upon their responses for purposes of the preliminary results and that it should continue to do so for the final results. These respondents state that verification of the responses was exhaustive and that the verification reports show that their responses were, with the exception of the few errors found during verification, complete and accurate. These respondents further asserted that the magnitude of the errors discovered at verification was so minor as to be virtually insignificant. Regarding the sales of the subject merchandise produced by the consignment agent's own ranch reportedly "found" at verification, Rancho el Toro notes that it informed the Department of its inability to segregate individual sales at the time that the questionnaire was issued and that the Department instructed it to report these "commingled" sales. Finally, both respondents claim that their accounting systems fully capture all costs and that the Department did not find at verification that either grower had omitted any costs that were traditionally associated with flower cultivation.

DOC Position

We agree with respondents. Section 776(c) requires the Department to use BIA whenever a party to the proceeding refuses or is unable to produce information requested in a timely manner and in the form required, or otherwise significantly impedes the proceeding. The administrative record in this case demonstrates that both of these respondents have provided all information requested in a timely manner and have cooperated fully with the Department. In addition, verification of respondents' data established that the vast majority of their submissions to the Department was complete and accurate and that, in those instances where data was found to be inaccurate, the errors were generally clerical in nature and easily corrected.

Regarding petitioner's assertion that Rancho el Toro's price data is unreliable because the Department found at verification that Rancho el Toro reported sales of flowers produced by the consignment agent's own ranch, we note that Rancho el Toro informed the Department, prior to submission of its questionnaire response, that its consignment agent was unable to segregate sales of flowers produced by its own ranch and that of the respondent. At that time, we allowed Rancho el Toro to submit data on all of the sales made by the consignment agent. Standard carnations are a fungible commodity, and there is no price difference between flowers produced by different growers. Therefore, because the product is fungible with no price differences, we have determined that calculating an average price using the "commingled" sales data does not skew the results. With regard to the third grower discovered at verification, we saw no evidence that this additional grower produced subject merchandise. Therefore, any argument that it is improper to include sales of this specific grower in our analysis is moot because the sales were not reported nor included in the average U.S. price.

Finally, we have considered petitioner's allegation that the Department was unable to verify the cost response due to the lack of basic internal controls in these respondents' accounting systems. As we noted in our preliminary results, we are accepting the data reported by these companies because: (1) Under Mexican law, these companies, as agricultural producers, were not required to maintain their records in a more formal manner; (2) these companies did maintain at least an internal record system which supported the questionnaire responses; and (3) at verification we found no evidence of systematic underreporting of costs.

Based on the foregoing, we have determined that it is inappropriate to reject these respondents' responses. Accordingly, we have based our final results on the data submitted by these respondents.

Comment 2

Petitioner contends that BIA for Visaflor and Tzitzic should be based on the margin received by Florex. Petitioner notes that given their failure to cooperate, the ITA would normally assign to these respondents the rate calculated for Florex. Petitioner contends that the Department inappropriately departed from its standard practice because the margin was too high. Petitioner submits that the fact that Florex's margin is high should not preclude the Department from assigning this margin to uncooperative respondents. To do otherwise, petitioner claims, would reward uncooperative respondents by placing them on equal footing with cooperative respondents and would provide no incentive for these respondents ever to cooperate with the Department if their data reflects dumping at a greater level than the level of the margins established for them in previous reviews or the original investigation.

Visaflor states that the Department is not required to use data that is least favorable to uncooperative respondents. Visaflor argues that in light of all the facts, the Department's decision to use, as BIA for Visaflor, the highest margin previously calculated for Visaflor is appropriate because it is based on the company's own prior rate. Visaflor believes that Florex's rate is an aberration, not representative of the market, and should not be used for Visaflor or any other company.

DOC Position

We agree with respondent. The Department's regulations state that "if an interested party refuses to provide factual information requested by the Secretary or otherwise impedes the proceeding, the Secretary may take that into account in determining what is best information available" (19 CFR 353.37(b)). In this case, given the enormous disparity between the verified rate for Florex in this review and the verified rates for other companies in this review, prior reviews, and the original investigation, and Florex's extraordinarily high business expenses during this review period resulting from investment activities which are uncharacteristic of other companies subject to this review, we find it inappropriate to use Florex's rate as BIA.

Comment 3

Petitioner maintains that the Department should continue to use the "all other" rate established in the original investigation as the rate that applies to producers or exporters that have not been assigned a company specific rate as a result of participation in either the original investigation or one of the administrative reviews. Petitioner notes that the "ITA normally establishes, on the basis of the results obtained in the current review, estimated duty deposits for future entries of the merchandise by producers included in the review and new producers/exporters that are unrelated to the reviewed firms and who commence shipments after the publication of final results ('new shipper rate')."

DOC Position

The Department has changed its practice with respect to the "new shipper/all other" rate because of difficulties Customs has in determining when a producer/exporter begins shipping the subject merchandise to the United States. See Antifriction Bearings, (Other than Tapered Roller Bearings) and Parts Thereof from France, Italy, Japan, Romania, Singapore, Sweden, Thailand, the United Kingdom and West Germany; Preliminary Results of Antidumping Duty Administrative Reviews and Partial Termination of Administrative Reviews; 56 FR 11178–11204 (March 15, 1991). In the future, all shippers not having an individual rate in any administrative review or the original investigation, and who are not related to any firms with individual rates, regardless of when they begin exporting, will be assigned the "all other" rate, which is the highest rate calculated for any reviewed firm. (Note that this rate was formerly called the "new shipper" rate. The Department will no longer calculate a separate "new shipper" rate, but will update the "all other" rate with each administrative review.)

Comment 4

Florex maintains that interest expenses relating to its now defunct joint venture should not be included in the COP for the subject merchandise because they allegedly relate to a separate line of business. Citing to several cases, Florex argues that the Department has consistently determined that expenses from other lines of business or from the production of non-subject merchandise should not be included in the calculation of COP. Florex notes that its interest expense relates to investments concerning flowers not subject to this administrative review which were grown under significantly different conditions than the flowers under review. By including these expenses in the COP, Florex argues that both COP and the resulting CV are overstated.

Petitioner acknowledges the exception to the Department's past practice of including all interest expenses in selling, general and administrative (SG&A) expenses when it is established that the interest expenses incurred were not related to the merchandise under review. However, petitioner notes that the Department's determination that the interest expenses were related to the merchandise under review was reasonable given that the investment activities involved the production of flowers in Mexico. Petitioner also states that it is the Department's longstanding practice to accept a respondent's normal accounting practice except where to do so would distort the results. Because Florex's balance sheet listed the investment expenses as an asset being amortized, petitioner contends that the burden is on the respondent to demonstrate that the expenses were not properly carried in its own books and that Florex failed to do so. Lastly, petitioner asserts that the Department verified that the investments were related to the flowers under review.

DOC Position

We agree with petitioner. We consider interest expense to be a general expense relating to overall company operations. Accordingly, we

VOL 56 ISS 125 JE 28 1991 UMI

include all general expenses in our COP calculation and allocate these general expenses to all products of the company based on total company cost of sales. Florex confuses the Department's practice relating to the calculation of manufacturing costs (which include only costs associated with the subject merchandise) with its practice relating to its calculation of general expenses which, by definition, relate to both subject and non-subject merchandise.

While the Department agrees that in the past it has excluded certain manufacturing costs which relate to other lines of business, Florex's interest expense is a general expense and does not relate to a separate line of business.

Comment 5

Florex maintains that shipping and other movement expenses for flowers that could not be sold should be allocated over all flowers sold during the POR and should not be allocated only over the flowers in the same shipment that were sold. Florex claims that it experienced abnormal spoilage rates during the period of review. Respondent believes that abnormal spoilage is a period cost, rather than a product cost, and, as such, should be allocated over all sales in the period.

Petitioner argues that the fact that Florex experienced spoiled flowers in several of its shipments conflicts with Florex's claim that these losses were abnormal. Given the perishable nature of flowers, spoilage in several shipments is not an unexpected event and certainly is not abnormal. Petitioner also notes that Florex's claim that its losses were abnormal is not supported by evidence and that, absent evidence showing spoilage rates in the industry, there is no way of knowing whether Florex's losses were abnormal.

DOC Position

We agree with petitioner. Florex never claimed prior to the pre-hearing brief that it experienced abnormal spoilage nor provided evidence supporting such a claim. Absent such evidence, the Department cannot determine whether Florex experienced abnormal spoilage.

Comment 6

Tzitzic claims that the Department was unjustified in initiating a COP investigation and in requiring it to respond to Section D of the questionnaire. Respondent argues that petitioner made no allegation of sales below cost in this review, and that petitioner's allegation of sales below cost in the 1988–1989 review was largely unsupported by the facts insofar as all home market sales except for standard carnations were used as the basis for FMV. Accordingly, there was no justification for the Department's decision to issue to Tzitzic a COP questionnaire, or subsequently, the Department's decision to use BIA when Tzitzic failed to answer the COP questionnaire. Moreover, Tzitzic argues that, similar to the Department decision concerning Rancho Mision, the Department should have used BIA for only standard carnations, substantial sales of which were found to have been made below cost in the 1988–1989 review, and that the Department should have verified and considered data submitted by Tzitzic for the other flower types.

Petitioner contends that because the Department determined in the previous (1988–1989) review that Tzitzic had home market sales below the cost of production, it was reasonable to initiate a sales-below-cost investigation, and that it is the Department's policy to investigate below-cost sales whenever a prior review revealed significant below-cost sales with respect to the same producer. Petitioner also notes that the statute requires the Department to use BIA whenever a respondent refuses or is unable to provide requested data. Given that Tzitzic was asked to respond to Section D several times, and never did so, petitioner contends that the Department was justified in cancelling verification and using BIA.

DOC Position

We agree with petitioner. It is the Department's standard practice to initiate sales-below-cost investigations of an entire class or kind of merchandise when sales of merchandise in some such or similar categories are found to be below cost in previous reviews or the original investigation. In the case of Tzitzic, more than 90 percent of the sales of one flower type were sold below the COP in the 1988–1989 review. Thus, absent evidence that Tzitzic changed its selling practices, the Department had reason to believe that Tzitzic was still selling subject merchandise below the COP for purposes of the 1989–1990 review.

With respect to respondent's argument that the Department should have used BIA for only one flower type as was done in the case of Rancho Mision, the situation with regard to Tzitzic is entirely different. As stated in the Preliminary Results with respect to Tzitzic, "Absent the information required in Section D, we were unable to determine whether home market sales were made at prices above the cost of production, nor could we assume that all home market sales were made at prices below the cost of production and base foreign market value on construction (sic) value." By comparison, Rancho Mision had no home market or third country sales of one flower type which accounted for a very small percentage of its total sales. Unlike Tzitzic, Rancho Mision was not involved in a COP investigation. Therefore, the fact that Rancho Mision did not respond to Section D for this one flower type did not affect the entire calculation of FMV.

Comment 7

Rancho Mision maintains that the Department's determination that it failed verification is unsupported by the record, and that the Department's verification report showed that Rancho Mision's response was in fact accurate and complete. Rancho Mision, moreover, contends that the Department acted arbitrarily and capriciously in rejecting its voluminous verified data, and should base its final results on data submitted by Rancho Mision.

Petitioner claims that the Department listed in detail in the Preliminary Results the inadequacies and deficiencies contained in Rancho Mision's questionnaire responses, and that the Department's conclusions concerning Rancho Mision are fully supported by the verification report.

DOC Position

We agree with petitioner. We have listed in detail the inadequacies and deficiencies contained in Rancho Mision's questionnaire responses in the Preliminary Results and in the verification report. Rancho Mision's case brief addresses none of the specific deficiencies listed in those documents.

Comment 8

Tzitzic, Rancho Mision, and Florex contend that the Department applied inconsistent policies and methodologies between flower companies at verification resulting in less favorable treatment for themselves. Respondents claim that the Department allowed a finding of completeness for Rancho el Toro and Rancho el Aguaje based only on partial completeness and that the Department personnel verifying these two respondents bent the rules to allow the verifications to succeed. In contrast, respondents argue that their verification team determined that Rancho Mision failed verification due to incompleteness, did not allow Rancho Mision time to make certain corrections, and adopted "a hardline and even hostile approach."

Petitioner notes that Florex, Rancho Mision, and Tzitzic allege that the Department acted in a biased and unfair manner towards them, yet failed to submit evidence to support their claim. Therefore, petitioner argues that these allegations should be ignored.

DOC Position

We agree with petitioner. The Department did not apply different verification standards to different companies. Concerning respondents' allegation that the Department applied different completeness tests, we noted in the Preliminary Results that although we were unable to utilize our normal verification techniques to test the completeness of Rancho el Aguaje and Rancho el Toro's cost responses, we were able to test completeness by examining internal records and found no evidence that these companies systematically underreported their costs. To the contrary, Rancho Mision could provide no documentation whatsoever to establish the total volume and value of ESP sales, nor could Rancho Mision explain how it arrived at the various total volume and value figures reported by it in its responses. We consider these deficiencies to be very significant. As for respondents' contention that one team applied a different set of standards to them, respondents have submitted no evidence in support of their claim, nor have they been able to explain the significant deficiencies found at verification. Also, with respect to respondent's argument that the Department did not allow Rancho Mision time to make certain corrections, we in fact did allow respondent additional time subsequent to verification to make corrections. However, on March 22, 1991, respondent informed the Department that it would not be able to supply the Department with any additional information.

Comment 9

Rancho el Aguaje and Rancho el Toro contend that the Department should compare CV to monthly U.S. prices which have been weight-averaged by type, not grade. In the absence of some type of adjustment to CV to reflect the relative cost or value differences of the flower grades produced, the Departments should use a CV based on type of flower. Finally, these respondents state that the methodology used for the preliminary results of comparing a non-grade-specific CV to grade-specific U.S. prices is inconsistent with Department precedent in earlier administrative reviews involving fresh cut flowers from Mexico as well as reviews of the antidumping duty order on fresh cut flowers from Colombia.

DOC Position

We agree with respondents. For the final results, we have calculated weighted-average monthly U.S. prices by type of flower, without regard to specific grades.

Comment 10

Rancho el Aguaje and Rancho el Toro argue that in calculating CV the Department should first convert monthly costs incurred in pesos into dollars before computing an annual CV. Respondents argue that the use of an annualized CV in effect ascribes constant peso costs to flower producers, irrespective of the inflation rate. Moreover, after converting the annualized CV on a monthly basis, this methodology results in declining CVs, expressed in dollar terms, which is contrary to the fact that peso costs were actually rising throughout the period of review.

Petitioner claims that the Department correctly used monthly exchange rates in the calculation of CV. Petitioner argues that since the Department is using a monthly average U.S. price, a monthly average exchange rate is also appropriate. Petitioner further claims that if the actual costs in dollar terms declined over the POR, then the use of the monthly U.S. exchange rate is reasonably representative of this trend. Finally, petitioner states that respondents provide no analysis to support their claim that actual costs in dollar terms did not decline.

DOC Position

This issue is moot with respect to Rancho el Aguaje and Rancho el Toro because both companies would have margins of 0.00% irrespective of this adjustment. Moreover, with respect to Florex, the other company which arguably would be entitled to such an adjustment if we were to agree with respondents, we could not adjust Florex's calculations because it did not submit monthly costs.

Comment 11

Rancho el Aguaje and Rancho el Toro claim that the Department's recalculation of the credit period overstated imputed credit expenses because the revised period included the number of days between receipt of payment and the date on which such payments were cashed or deposited in the ranch's bank account. Respondents argue that there is no basis in the record to support the Department's assumption that payment was not received until the checks were tendered to a bank. Therefore, respondents contend that the original payment dates reported, amended to incorporate corrections identified at verification, should be used to compute imputed credit costs.

Petitioner argues that the Department correctly recalculated the credit period associated with imputed credit expenses. Petitioner states that the Department considers all receivables to be financed for the period of delayed payment, which in this case would be the date on which the checks were either cashed or deposited into the respondents' bank accounts.

DOC Position

We agree with petitioner. It is the Department's practice to calculate imputed credit cost to a producer using the period between the time that the producer ships its merchandise and the time that it deposits the funds received from that sale into its bank account.

Comment 12

Rancho El Aguaje contends that the Department double-counted indirect production costs associated with its flower production in the month of April 1989. Rancho El Aguaje argues that the Department did not rely on an amended response which removed the double counting.

DOC Position

The Department agrees with Rancho El Aguaje and has revised its calculations for the final results of this review.

Final Results of the Review

As a result of our review, we determine the margins to be:

Manufacturer/exporter	Margin (percent)
Florex	264.43
Rancho el Aguaje	00.00
Rancho el Toro	00.00
Rancho Mision el Descanso	24.33
Tzitzic Tarete	39.95
Visaflor	29.40

The Department will instruct the Customs Service to assess antidumping duties on all appropriate entries. Individual differences between United States prices and foreign market value may vary from the percentages stated above. The Department will issue appraisement instructions concerning all respondents directly to the Customs Service.

Furthermore, as provided for in section 751(a)(1) of the Act, the Department will require a cash deposit

VOL
56
ISS
125
JE
28
1991
UMI

of estimated antidumping duties based on the above margins on entries of this merchandise from Mexico. The cash deposit rate for all other producers/exporters shall be 0.00 percent.

Generally, we assign the highest non-BIA rate calculated for any responding firm in the current review to future entries of the subject merchandise from all other producers/exporters not reviewed. For the reasons stated in the Preliminary Results and reiterated herein, however, we find it inappropriate to use Florex's rate as the cash deposit rate for producers/exporters not related to Florex. Therefore, we are using the 0.00 percent rate calculated for both Rancho el Aguaje and Rancho el Toro, the next highest calculated rate, as the "all other" rate. As these two companies represent the majority by volume and value of exports of the subject merchandise from Mexico during the POR, we feel it is appropriate to base the "all other" rate on their calculations.

These deposit requirements are effective for all shipments of certain fresh cut flowers from Mexico entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice and shall remain in effect until the publication of the final results of the next administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22(c)(8)(1990).

Dated: June 21, 1991.

Eric I. Garfinkel,

Assistant Secretary for Import Administration.

Preliminary Results of Countervailing Duty Administrative Review: Certain Iron-Metal Castings From India

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: June 28, 1991.

FOR FURTHER INFORMATION CONTACT: Paulo F. Mendes, Office of Countervailing Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230 at (202) 377-5050.

Preliminary Results

We preliminarily determine that net subsidies within the meaning of section 701 of the Tariff Act of 1930, as amended (the Act), are being provided to manufacturers or exporters in India of certain iron-metal castings (castings). This review covers the period of January 1, 1987 through December 31, 1987 and the following programs:

- International Price Reimbursement Scheme (IPRS)
- Pre-Shipment Export Loans
- Post-Shipment Export Loans
- Income Tax Deduction Under Section 80HHC
- Market Development Assistance Grants
- Sale of Import Replenishment License
- Cash Compensatory Support Scheme
- Income Tax Deduction Under Section 80I
- Preferential Freight Rates
- Import Duty Exemptions Available to 100 Percent Export-Oriented Units
- Free Trade Zones

The weighted-average net subsidies are shown in the "Preliminary Results of Administrative Review" section of this notice.

Case History

On October 16, 1980, the Department published its countervailing duty order on castings from India (45 FR 68650). On January 18, 1991, the Department published the final results of its most recently completed administrative review for the period January 1, 1986 through December 31, 1986 (56 FR 1976).

Since the notice of initiation of this administrative review (53 FR 48951, December 5, 1988), the following events have occurred. On November 16, 1990, we presented a questionnaire to the Government of India and the manufacturers and exporters of castings. On February 8, 1991, we received the Government's response and all the company responses, except for Samitex Corporation (Samitex) and Commex Corporation (Commex). Samitex later responded on February 15, 1991. On April 3, 1991, we presented a supplemental questionnaire to the Government of India and the manufacturers and exporters of castings. We received responses to this supplemental questionnaire on April 22, 1991. From April 26 through May 3, 1991, we conducted verification in India of the government response and the company responses of Super Castings (India) (Super Castings), R.B. Agarwalla and Company (Agarwalla), and Crescent Foundry Co. Pvt. Ltd. (Crescent) (hereinafter collectively the verified companies). We also verified the amount of IPRS benefits received by RSI India Pvt. Ltd. (RSI). On May 22, 1991, additional information was submitted on behalf of the verified companies.

Scope of Review

The imports covered by this review are shipments of Indian manhole covers and frames, clean-out covers and frames, and catch basin grates and frames. These articles are commonly called municipal or public works castings and are used for access to or drainage for public utility, water, and sanitary systems. During the review period, this merchandise was classifiable under Tariff Schedules of the United States Annotated (TSUSA) item numbers 657.0950 and 657.0990. This merchandise is currently classifiable under Harmonized Tariff Schedule (HTS) item numbers 7325.10.0010 and 7325.10.0050. Although the TSUSA and HTS subheadings are provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

Certification of Questionnaire Responses

Section 1331 of the Omnibus Trade and Competitiveness Act of 1988 amended the Act by requiring that:

> Any person providing factual information to the administering authority or the Commission in connection with a proceeding under this title on behalf of the petitioner or any other interested party shall certify that such information is accurate and complete to the best of that person's knowledge. (19 U.S.C. 1677e(a))

Pursuant to this amendment, the Department promulgated procedural regulations which provide that:

> (i) *Certifications.* Any interested party which submits factual information to the Secretary must submit with the factual information the certification in paragraph (i)(1) and, if the party has legal counsel or another representative, the certification in paragraph (i)(2) of this section:
>
> (1) For the interested party's official responsible for presentation of the factual information: "I, (name and title), currently employed by (interested party), certify that (1) I have read the attached submission, and (2) the information contained in this submission is, to the best of my knowledge, complete and accurate."
>
> (2) For interested party's legal counsel or other representative: "I, (name), of (law or other firm), counsel or representative to (interested party), certify that (1) I have read the attached submission, and (2) based on the information made available to me by (interested party), I have no reason to believe that this submission contains any material misrepresentation or omission of fact." (19 CFR 355.31(i) (1) and (2))

In the present administrative review, the Department issued a questionnaire to the Indian producers of castings. This questionnaire specifically asked if the producers had received certain types of post-shipment export financing. (See, page 12 of the company questionnaire.) In their questionnaire responses, each of the companies indicated that they had not received any post-shipment financing during the period of review. These questionnaire responses were accompanied by certifications from the respondent companies and their legal counsel.

During verification, we discovered that each of the three verified companies had, in fact, clearly received post-shipment financing. No explanation was offered as to why the statements in the certified questionnaire responses were inaccurate.

The certification of factual information is a relatively new requirement, and one the Department intends have real meaning. To treat the requirement otherwise would violate our obligation to administer faithfully the provisions of the Act and would irreparably damage the integrity of Departmental procedures. Therefore, the Department intends to take the following actions. With respect to the relevant parties involved in this administrative review, the Department is referring the matter to the Department of Justice and the U.S. Customs Service to determine whether any relevant statutes within their jurisdiction have been violated and whether further action is warranted. Additionally, the Department will begin formulating a set of procedures for handling cases involving certification issues. In this way, we will continue to ensure that the responses the Department receives and uses to make its determinations are thorough and accurate. We have not, however, reached any conclusion with respect to the circumstances of this particular case.

Analysis of Programs

As mentioned above, we did not receive a response to our questionnaire from Commex. Therefore, as the best information available, for each program preliminarily determined to be countervailable, we are assigning Commex the highest company subsidy rate found for any company.

Based on verification and our analysis of the responses to our questionnaires, we preliminarily find the following:

I. Programs Preliminarily Found To Confer Subsidies

A. International Price Reimbursement Scheme (IPRS)

On February 9, 1981, the Government of India introduced the IPRS for exporters of products with steel inputs. The purpose of the program is to rebate the difference between higher domestic and lower international prices of steel. On September 28, 1983, the Government of India extended the IPRS to include pig iron, the primary input for the production of castings.

The rebate is funded through collection of a levy on all domestic purchases of steel, pig iron and scrap. The Joint Plant Committee (JPC), a government-directed organization composed largely of pig iron and steel producers, sets domestic steel and pig iron prices. The JPC also determines the specific levy for each pig iron and steel product based on the anticipated need for these inputs in exported products.

The Engineering Export Promotion Council (EEPC), a non-profit organization funded by the Government of India and private firms, processes the claims for and disburses the IPRS rebate. The IPRS rebate is based on the differential between domestic and international prices of pig iron, using a standard pig iron consumption factor of 110 percent, which includes a ten percent allowance for waste. Based on verification and our analysis of questionnaire responses, we preliminarily determine that all castings exporters covered by this review obtained IPRS rebates for pig iron.

We consider a government program that results in the provision of an input to exporters at a price lower than to producers of domestically-sold products to confer a subsidy within the meaning of section 771(5)(A) of the Act. We consider the benefit to be the entire IPRS rebate. Therefore, we preliminary determine the IPRS program to confer a countervailable export subsidy.

For any given review period, it has been our practice to consider the benefit from the IPRS program to equal the total amount of IPRS benefits received during the review period, even if some amounts received during the review period related to exports made in the previous year. In the current review all the companies, except Crescent and Uma Iron and Steel Works (Uma), only reported IPRS benefits associated with 1987 shipments. These companies did not report IPRS benefits received in 1987 which were related to 1986 shipments. We verified the IPRS information Crescent submitted, and during verification obtained the amount of IPRS benefits received in 1987 by Super Castings, Agarwalla and RSI. (These amounts received in 1987 included IPRS rebates relating to 1987 and 1986 shipments.)

For those companies that did not report the IPRS amounts associated with 1986 shipments which were received in 1987, we approximated these amounts as follows. We first calculated the amount of IPRS rebates received in 1987 which were attributable to 1986 shipments for the three verified companies, RSI and Uma. Next, we divided this amount by the total amount of all IPRS rebates received in 1987. We then used this percentage to adjust upward the reported amount of IPRS benefits which only included benefits associated with 1987 shipments.

We preliminarily determine the net subsidy from this program to be 31.08 percent *ad valorem* for all manufacturers and exporters in India of castings, except for those firms listed below which have significantly different aggregate benefits. The net subsidy for these firms is the following:

Company	Net ad valorem subsidy (percent)
1. RSI India Pvt. Ltd	7.77
2. Select Steel Ltd	35.71
3. Carnation Enterprise Pvt. Ltd	36.58
4. Uma Iron and Steel Works	20.81
5. Commex Corporation	36.58

We verified that the Government of India terminated the IPRS program with respect to castings exported to the United States effective June 30, 1987. During verification we saw evidence of two shipments of castings to the United States made in the first week of July 1987 for which IPRS rebates were received. However, we preliminarily determine that these two rebates were exceptions, granted because of shipping and handling difficulties, and that the IPRS program otherwise has been terminated for exports of castings to the United States. Therefore, for purposes of the cash deposit of estimated countervailing duties, we preliminarily determine the benefit from this program to be zero.

B. Pre-Shipment Export Loans

The Reserve Bank of India, through commercial banks, provides pre-shipment or "packing" credits to exporters. With these pre-shipment loans, exporters may purchase raw materials and packing materials based on presentation of a confirmed order or letter of credit. In general, the pre-shipment loans are granted for a period of 90 to 180 days, with penalty charges for late interest payments. Because only exporters are eligible for these pre-shipment loans, we determine that they

VOL 56 ISS 125 JE 28 1991 UMI

are countervailable to the extent that they are provided at preferential rates.

During the review period, the interest rate on pre-shipment export loans was 9.5 percent per annum. The maximum comparable commercial interest rate during fiscal year 1986–1987 for small-scale industries with loans from 200,000 to 2,500,000 rupees, as quoted by the Reserve Bank of India in its bulletin entitled "Report on Trend and Progress of Banking in India" for fiscal year 1986–1987, was 16.5 percent from January through March, and 15.5 percent from April through December. Since all castings manufacturers and exporters subject to this review are characterized as small-scale industries and because no castings firms reported pre-shipment loans exceeding 2,500,000 rupees during the review period, we have used these two rates to calculate an interest rate benchmark for the year. We did so by weight-averaging the two interest rates based on the amount of time the two above rates were in effect. We used the resulting figure of 15.75 percent as our benchmark interest rate. We compared this benchmark to the interest rate charged on pre-shipment financing under the program and found that the interest rate charged was lower than the benchmark. Therefore, we determine that loans provided under this program are countervailable.

To calculate the benefit on those preferential loans for which interest was paid during 1987, we followed the short-term loan methodology which has been applied consistently in our past determinations and is described in more detail in the Subsidies Appendix attached to the notice of Cold-Rolled Carbon Steel Flat-Rolled Products from Argentina: Final Affirmative Countervailing Duty Determination and Countervailing Duty Order (49 FR 18006, April 26, 1984); see also, *Alhambra Foundry* v. *United States*, 626 F. Supp. 402 (CIT, 1985).

During verification, we obtained information from each of the three companies concerning the total amount of interest paid on pre-shipment financing during the review period. For the non-verified companies, we used the reported amount of interest paid on pre-shipment financing relating to either exports of the subject merchandise to the United States or total exports to the United States.

We compared the amount of interest actually paid during the review period to the amount that would have been paid at the benchmark rate. The difference between these amounts is the benefit. We allocated the benefit to either total exports, exports of the subject merchandise to the United States or total exports to the United States, depending on how the amount of pre-shipment financing was reported or verified. On this basis, we preliminarily determine the net subsidy from this program to be 0.40 percent for all manufacturers and exporters in India of castings, except for those firms listed below which have significantly different aggregate benefits. The net subsidy for these firms is the following:

Company	Net ad valorem subsidy (per-cent)
1. RSI India Pvt. Ltd	1.55
2. Select Steel Ltd	0.00
3. Carnation Enterprise Pvt. Ltd	0.00
4. Uma Iron and Steel Works	0.02
5. Commex Corporation	1.55

C. Post-Shipment Loans

As mentioned above, we discovered during verification that each of the three verified companies failed to report post-shipment financing loans. The response from the Government of India on this program only referred to the company responses. Super Castings received post-shipment financing in the form of "post-shipment advances against IPRS," and Agarwalla and Crescent received post-shipment financing in the form of "transit interest." Post-shipment advances against IPRS are loans based on expected IPRS rebates. Post-shipment financing also includes bank discounting of foreign customer receivables. Because only exporters are eligible for these post-shipment loans, we determine that they are countervailable to the extent that they are provided at preferential rates.

We verified that the rate of interest under both types of post-shipment financing was 9.5 percent per annum. Moreover, during verification one of the companies was not able to provide documentation to prove that certain loans were, in fact, not post-shipment loans or non-preferential. Therefore, as the best information available, we are treating these loans as post-shipment loans made at the preferential rate of 9.5 percent.

For the reasons stated above in the pre-shipment loans section, we are using 15.75 percent as our short-term interest rate benchmark. We compared this benchmark to the interest rate charged on post-shipment financing under this program and found that the interest rate charged under this program was lower than the benchmark. Therefore, we determine that loans provided under this program are countervailable. To calculate the benefit, we followed the same short-term loan methodology discussed above. We then divided the benefit by the verified companies' total export sales.

As noted above, the government response on this program referred us to the company responses. Since we view the verification of the three companies with regard to post-shipment financing as constituting the overall verification of that program, we have preliminarily determined that exports of the non-verified companies also benefited from the program. As the best information available, for this purpose, we weight-averaged the rates of the three companies and applied the result to the non-verified companies.

On this basis, we preliminarily determine the net subsidy from this program to be 1.47 percent for all manufacturers and exporters in India of castings except for those firms listed below which have significantly different aggregate benefits. The net subsidy for these firms is the following:

Company	Net ad valorem subsidy (per-cent)
1. RSI India Pvt. Ltd	1.41
2. Select Steel Ltd	1.41
3. Carnation Enterprise Pvt. Ltd	1.41
4. Uma Iron and Steel Works	1.41
5. Commex Corporation	2.06

D. Income Tax Deduction Under Section 80HHC

Under section 80HHC of the Finance Act of 1983, for tax returns filed in 1987, the Government of India allowed exporters to deduct one percent of export sales and five percent of the incremental increase in export sales over the previous fiscal year. Because this program is only available to exporters, we preliminarily determine it to be countervailable. To calculate the benefit, we multiplied the income tax deductions of each company claiming the benefit by the corporate income tax rate and divided the result by its total exports.

We preliminarily determine the net subsidy from this program to be 1.09 percent *ad valorem* for all manufacturers and exporters in India of certain iron-metal castings, except for those firms listed below which have significantly different aggregate benefits. The net subsidy for these firms is the following:

Company	Net ad valorem subsidy (per-cent)
1. RSI India Pvt. Ltd	0.00
2. Select Steel Ltd	4.45
3. Carnation Enterprise Pvt. Ltd	2.74
4. Uma Iron and Steel Works	0.50
5. Commex Corporation	4.45

E. Market Development Assistance (MDA) Grants

The Federation of Indian Export Organization administers, and the Ministry of Commerce approves, all MDA grants. The purpose of the program is to provide grants-in-aid to approved organizations (*i.e.*, export houses) to promote the development of markets for Indian goods abroad. Such development projects may include market research, export publicity, and participation in trade fairs and exhibitions. Because these MDA grants are available only to exporters, we preliminarily determine that such grants are countervailable.

We verified that only Kejriwal Iron and Steel Works received MDA grants related to exports of the subject merchandise to the United States during the review period. Because the grant represented less than 0.5 percent of Kejriwal's export sales during the review period, we expensed the grant in the year of receipt (1987). To calculate the benefit, we divided the value of the grant received by the value of Kejriwal's total export sales to the United States in 1987.

We preliminarily determine the net subsidy from this program to be 0.01 percent *ad valorem* for all manufacturers and exporters in India of certain iron-metal castings, except for those firms listed below which have significantly different aggregate benefits. The net subsidy for these firms is the following:

Company	Net ad valorem subsidy (per-cent)
1. RSI India Pvt. Ltd	0.00
2. Select Steel Ltd	0.00
3. Carnation Enterprise Pvt. Ltd	0.00
4. Uma Iron and Steel Works	0.00
5. Commex Corporation	0.04

F. Sale of a Replenishment License

The Ministry of Commerce administers India's import licensing system. One type of license in India is the replenishment license. These licenses are provided subsequent to export so that companies can replace the imported components used in the production of the exported product. Imports under these licenses are subject to customs duties and are not necessarily used in production of exports. Because exporters receive these licenses based on their status as an exporter, we consider the proceeds resulting from sales of these licenses a countervailable subsidy.

During verification, we discovered that Agarwalla sold a replenishment license during the review period. Because the proceeds from this sale represented less than 0.50 percent of Agarwalla's export sales during the review period, we expensed the amount received to the year of receipt, 1987. To calculate the benefit from this sale, we divided the amount Agarwalla received on selling the license by its total exports to all markets.

We preliminarily determine the net subsidy from this program to be 0.01 percent *ad valorem* for all manufacturers and exporters in India of certain iron-metal castings, except for those firms listed below which have significantly different aggregate benefits. The net subsidy for these firms is the following:

Company	Net ad valorem subsidy (per-cent)
1. RSI India Pvt. Ltd	0.00
2. Select Steel Ltd	0.00
3. Carnation Enterprise Pvt. Ltd	0.00
4. Uma Iron and Steel Works	0.00
5. Commex Corporation	0.01

II. Programs Preliminarily Found Not To Confer Subsidies

A. Cash Compensatory Support (CCS) Program

In 1966, the Government of India established the CCS program to rebate indirect taxes on exported merchandise. We verified that the rebate for exports of castings was set at a maximum of five percent for the review period, and is paid as a percentage of the FOB invoice price.

To determine whether an indirect tax rebate system confers a subsidy, we must apply the following analysis. (See, Preliminary Affirmative Countervailing Duty Determination: Textile Mill Products and Apparel From Indonesia, 49 FR 49672, December 21, 1984.) First, we examine whether the system is intended to operate as a rebate of indirect taxes and/or import duties. Next, we analyze whether the government properly ascertained the level of the rebate. Finally, we review whether the rebate schedules are revised periodically in order to determine if the rebate amount reflects the amount of duty and indirect taxes paid.

When the rebate system meets these conditions, the Department will consider that the system does not confer a subsidy if the amount rebated for duties and/or indirect taxes on physically incorporated inputs does not exceed the fixed amount set forth in the rebate schedule for the exported product. Based on verification, and the Department's previous examination of the CCS program (see, e.g., Certain Iron Metal Castings From India: Final Results of Countervailing Duty Administrative Review, 55 FR 1976, January 18, 1991), we preliminarily determine that the CCS rebate meets all the above-mentioned criteria. Furthermore, in this review we verified that the rebates under this program continue to reasonably reflect the incidence of indirect taxes on inputs On this basis, we preliminarily determine that the CCS program provides no overrebate and, therefore, is not countervailable.

B. Income Tax Deduction Under Section 80I

Section 80I of the Indian Finance Act generally provides for a tax deduction of 25 percent to "new industrial undertakings." We verified that this program is not limited to a specific enterprise or industry or group of enterprises or industries on either a *de jure* or *de facto* basis. Therefore, we preliminarily determine this program to be not countervailable.

III. Programs Preliminarily Determined To Be Not Used

A. Extension of the Free Trade Zones
B. Preferential Freight Rates
C. Import Duty Exemptions Available to 100 Percent Export-Oriented Units

Preliminary Results of Review

In accordance with § 355.22(d), we preliminarily determine that the following net subsidies exist for the period January 1, 1987 through December 31, 1987:

Manufacturer/exporter	Net ad valorem subsidy (per-cent)
RSI India Pvt. Ltd	10.74
Select Steel Ltd	41.57
Carnation Enterprise Pvt. Ltd	40.74
Uma Iron and Steel Works	22.75

VOL
56
ISS
125
JE
28
1991
UMI

Manufacturer/exporter	Net ad valorem subsidy (percent)
Commex Corporation	44.73
All Other Manufacturers or Exporters	34.05

Upon completion of this administrative review, the Department will issue appraisement instructions to the U.S. Customs Service. The Department also intends to instruct the U.S Customs Service to collect 3.84 percent estimated countervailing duties on shipments of this merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review.

Public Comment

In accordance with 19 CFR 355.38, we plan to hold a public hearing, if requested, on August 1, 1991, at 2 p.m. in room 3708, to afford interested parties the opportunity to comment on this preliminary determination. Interested parties who wish to request or to participate in the hearing must submit a request within ten days of the publication of this notice in the Federal Register to the Assistant Secretary for Import Administration, U.S. Department of Commerce, room B-099, 14th Street and Constitution Avenue NW., Washington, DC 20230. Requests should contain: (1) The party's name, address, and telephone number; (2) the number of participants; (3) the reason for attending; and (4) a list of the issues to be discussed. Parties should confirm by telephone the time, date, and place of the hearing 48 hours before the scheduled time.

In addition, ten copies of the business proprietary version and five copies of the nonproprietary version of case briefs must be submitted to the Assistant Secretary no later than July 23, 1991. Ten copies of the business proprietary version and five copies of the nonproprietary version of rebuttal briefs must be submitted to the Assistant Secretary no later than July 30, 1991. An interested party may make an affirmative presentation only on arguments included in that party's case or rebuttal brief. If no hearing is requested, interested parties still may comment on these preliminary results in the form of case and rebuttal briefs. Written argument should be submitted in accordance with section 355.38 of the Commerce Department's regulations and will be considered if received within the time limits specified in this notice.

This administrative review and notice are published in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 355.22.

Dated: June 20, 1991.

Eric I. Garfinkel,

Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

National Institute of Standards and Technology

[Docket No. 910529-1129]

Test Method and a Validation Test Service for the Federal Information Processing Standard (FIPS 128) for Computer Graphics Metafile (CGM) and the Computer-aided Acquisition and Logistic Support (CALS) CGM Application Profile (AP

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice of a test method and a one-year trial validation test service for the Federal Information Processing Standard (FIPS) 128, Computer Graphics Metafile and the CALS CGM Application Profile (MIL-D-28003).

SUMMARY: The NIST Validation Test Service will be used to assess the degree to which binary encoded CGM files conform to FIPS 128 and MIL-D-28003. The NIST will use the trial test service period to verify the accuracy and completeness of the CGM test procedures. To assess the suitability of the test method and the test procedures for testing conformance to the FIPS and CALS AP, NIST solicits the views of industry, the public, and State and local governments.

DATES: The test service started May 1, 1991, and will continue for a one-year trial period through May 1992.

ADDRESSES: Written comments concerning the test method and the establishment of the CGM Test Service should be sent to: National Institute of Standards and Technology; ATTN: CGM Test Service, Technology Building, room B154, Gaithersburg, MD 20899.

FOR FURTHER INFORMATION CONTACT: Ms. Lynne Rosenthal, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone (301) 975-3265.

SUPPLEMENTARY INFORMATION:

Background

The Federal Information Processing Standard Publication (FIPS PUB) 128, Computer Graphics Metafile, was approved on March 16, 1987, and became effective August 10, 1987. The Computer-aided Acquisition and Logistics Support (CALS) CGM Application Profile (MIL-D-28003) was approved for use all departments and agencies of the Department of Defense on December 20, 1988. In accordance with FIPS PUB 128 and MIL-D-28003, the delivery of two-dimensional graphics data to Federal agencies should be in the digital format of the CGM. The purpose of the graphics software standard is to facilitate the transfer of graphical information between different graphical software systems, different graphical devices, and different computer graphics installations. Federal agencies may require conformance to FIPS PUB 128 and MIL-D-28003 whether computer graphics metafile systems are developed internally, acquired as part of an ADP system procurement, acquired by separate procurements, used under the ADP leasing arrangement, or specified for use in contracts for programming services. Testing may be required in order for agencies to determine if the CGM file conforms to the FIPS PUB and MIL-D-28003. The CGM Registered Validation Report provided from the NIST trial validation test service will be sources for Federal agencies to use in making this determination. The CGM Registered Validation Report will be listed in NISTIR 4500, "Validated Processor List", available from NIST, telephone (301) 975-2821.

Updates to the Test Method and Procedures

The NIST will use the CGM Validation Test Software as the test method for validating CGM files. The selection of the CGM Validation Test Software was announced in the Commerce Business Daily, June 18, 1990.

The Validation Test Software and Test procedures will be periodically updated and used as the basis for validating metafiles formatted according to FIPS PUB 128 and MIL-D-28003. The update process will be used to correct errors identified in the CGM Validation Test Software and to introduce new or modified programs as appropriate. Modification to the Test Software is also intended to ensure that computer graphics metafiles are being formatted according to the technical specifications of the standard. Should an interpretation of the FIPS or Military Specification be made that would affect the test software, these changes would also be reflected during the update process.

Obtaining Validation Services

The NIST provides validation test services on a cost-reimbursable basis. These services are available to both the producers and users of CGM files. Upon receipt of a request for validation, NIST will supply the client with a CGM Information Pack which will include a description of the test service and procedures, and a Testing Request form. To have a CGM tested, the client must return a completed Testing Request form along with proper payment to the NIST. The Validation Test Service Software is available from CTS, Gales Ferry, CT 06335

Authority: Federal Information Processing Standards Publications (FIPS PUBS) are issued by the National Institute of Standards and Technology after approval by the Secretary of Commerce pursuant to section 111(d) of the Federal Property and Administrative Services Act of 1949 as amended by the Computer Security Act of 1987, Public Law 100-235.

Dated: June 24, 1991.

John W. Lyons,

Director.

[FR Doc. 91-15443 Filed 6-27-91; 8:45 am]

BILLING CODE 3510-CN-M

National Oceanic and Atmospheric Administration

Pacific Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

The Pacific Fishery Management Council and its advisory entities will meet on July 8-12, 1991, at the Radisson Hotel, 17001 Pacific Highway South, Seattle, WA. Except as noted below, the meetings are open to the public.

The Council will begin its meeting on July 10 at 8 a.m., in a closed session (not open to the public), to discuss litigation and personnel matters. The Council's open session begins at 9 a.m., to consider administrative and other matters and salmon management issues. Also on July 10, the Council will accept comments on issues not on the agenda. On July 11, beginning at 8 a.m., Groundfish management items will be addressed and that discussion will continue into July 12. Also on July 12, Coastal pelagic species management issues will be discussed after the completion of the groundfish items.

Salmon management items on the agenda are: (1) Sequence of events and current status of the fishery; (2) guidelines for making inseason adjustments due to unusual weather; (3) consider adjustments in the 1991 fishery off California due to unusual weather; (4) status reports on high seas drift net fisheries; (5) analysis of Columbia River Sportfishing Association proposal for determining recreational subarea allocations; (6) an update on recent actions of the National Marine Fisheries Service to propose listing of certain Columbia River salmon stocks under the Endangered Species Act; and (7) a status report on reviews underway to determine causes of stock decline for Oregon coastal natural coho salmon and certain Puget Sound chinook and coho stocks. The Council also will address habitat issues affecting fisheries in its jurisdiction after the salmon management items are completed.

Groundfish management issues: (1) Status of regulations implementing Council actions; (2) review of the 1991 Pacific whiting fishery; (3) review specifications of limited entry options and possible selection of preferred options for public review; (4) determination of the consistency of the California gill net ban with the Council's groundfish plan and applicable law; (5) inseason management measure adjustments; (6) feasibility of a comprehensive observer program for groundfish vessels; (7) summary of preliminary stock assessments; and (8) identification of issues and alternatives for 1991 management measures.

Coastal pelagic species management issues: (1) Anchovy spawning biomass and quotas for 1991-1992, and (2) status report on development of an anchovy plan amendment to add other coastal pelagic species.

The Scientific and Statistical Committee will meet on July 8 at 10 a.m., to address scientific issues on the Council's agenda, and will reconvene on July 9 at 8 a.m.

The Salmon SubCommittee will meet on July 10 at 9 a.m. to review the chinook harvest model for the fishery north of Cape Falcon.

The Legislative Committee will meet on July 9 at 10 a.m., to discuss the desirability of a fee or tax for at-sea fish processing comparable to that paid by shoreside processors.

The Groundfish Advisory Subpanel will meet on July 9 at 1 p.m., to address groundfish items on the Council's agenda and will reconvene on July 10 at 8 a.m.

The Habitat Committee will meet on July 9 at 1 p.m., to address issues affecting habitat of fish stocks managed by the Council.

The Budget Committee will meet on July 10 at 3 p.m., to review the status of the Council's 1991 budget.

The Ad Hoc Committee on Adjustments Due to Unusual Weather will meet on July 9 at 3 p.m., to recommend guidelines for making adjustments to salmon seasons due to unusual weather.

The Groundfish Stock Assessment Workshop will meet on July 9 at 7 p.m., in an informal workshop, open to the public, to review preliminary stock assessments for certain groundfish species.

The Enforcement Consultants will meet on July 10 at 7 p.m., to consider the enforcement ramifications of management issues on the Council agenda.

Detailed agendas for the above meetings will be available to the public after June 28, 1991. For more information contact Lawrence D. Six, Executive Director, Pacific Fishery Management Council, Metro Center, suite 420, 2000 SW. First Avenue, Portland, OR 97201; telephone: (503) 326-6352.

Dated: June 24, 1991.

David S. Crestin,

Deputy Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Gulf of Mexico Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

The Gulf of Mexico Fishery Management Council and its Committees will meet on July 8-11, 1991, at the Reach Hotel, 1435 Simonton Street, Key West, FL.

Council: The Council will begin its meeting on July 10 at 8:30 a.m., and recess at 5 p.m. The agenda is as follows: (1) From 8:45 a.m., to 9:45 a.m., discuss the National Marine Fisheries Service Marine Mammal Program; (2) from 9:45 a.m., to 10:15 a.m., hear public testimony on the Tortugas Shrimp Sanctuary; (3) from 10:15 a.m., to 10:30 a.m., address Committee Recommendations on the Tortugas Shrimp Sanctuary; (4) from 10:30 a.m., to 2:30 p.m., review the Shrimp Amendment #6 Options Paper; and (5) from 2:30 p.m., to 5 p.m., review the Mackerel Amendment #6 Options Paper. The Council meeting will continue on July 11, as follows: (1) From 8:30 a.m., to 10:30 a.m., review Mackerel Amendment #6 Options Paper; (2) from 10:30 a.m., to 2:30 p.m., review Reef Fish Amendment #4 Options Paper; and (3) receive the Administrative Policy and Ad Hoc Limited Entry Committee Reports, followed by Law Enforcement Reports and Director's Reports. Adjournment is at 4 p.m.

BILLING CODE 3510–22–M

Sea Grant Review Panel; Meeting

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of open meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the Sea Grant Review Panel. The meeting will have several purposes. Panel members will provide and discuss follow-up reports of business transacted at the last Sea Grant Review Panel Meeting in the areas of artificial intelligence, law and policy, program management and funding procedures, coastal business initiatives, long-range planning and priorities, developing new business initiatives with the Sea Grant Program for enhancement of Department of Commerce goals, and new business. A nomination and election will be held for Chair Elect.

DATES: The announced meeting is scheduled during two days: Tuesday, July 30, 1991 (10 a.m.–12 noon and 1–4 p.m.), and Wednesday, July 31, 1991, 8–10 a.m.

ADDRESSES: Denver Marriott Hotel City Center, 1701 California Street, NW., Denver, Colorado 80202–9838.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Shephard, National Sea Grant College Program, National Oceanic & Atmospheric Administration, 1335 East-West Highway, #5104, Silver Spring, Maryland 20910, (301) 427–2431.

SUPPLEMENTARY INFORMATION: The Panel, which consists of balanced representation from academia, industry, state government, and citizens groups, was established in 1976 by section 209 of the Sea Grant Improvement Act (Pub. L. 94–461, 33 U.S.C. 1128) and advises the Secretary of Commerce, Under Secretary, NOAA, and the Director of the National Sea Grant College Program with respect to operations under the act, and such other matters as the Secretary refers to the Panel for review and advice. The agenda for the meeting is:

Tuesday, July 30, 1991—10 a.m.–12 noon—Denver 1 & 2 Rooms

Welcome to Dr. Knauss, NOAA Administrator
Dr. Knauss' Opening Remarks to the Panel
Complementary Roles for a Stronger Sea Grant Future
Open Discussion with Dr. Knauss
1. Panel Subcommittee Chairmen
2. Individual Panelists
3. Other Guests

BILLING CODE 3510–12–M

Marine Mammals: Issuance of Permit; Dr. Randall Davis (P477)

On May 16, 1991, notice was published in the **Federal Register** (56 FR 22701) that an application had been filed by Dr. Randall W. Davis, Department of Marine Biology, Texas A&M University, P.O. Box 1675, Galveston, Texas 77553, and Dr. Patrick Butler, School of Biological Sciences, University of Birmingham, Birmingham, U.K. B15, 2TT, to obtain eight (8) rehabilitated beached or stranded California sea lions (*Zalophus californianus*) deemed suitable for release. The animals will be obtained from Sea World, San Diego to be used for scientific studies testing a data-storage system for use in determining energy budgets. Upon completion of research the animals will be released into the wild.

Notice is hereby given that on June 18, 1991, as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a Permit for the above taking, subject to certain conditions set forth therein.

The Permit is available for review in the following offices:

By appointment: Permit Division, Office of Protected Resources, National Marine Fisheries Service, 1335 East-West Hwy., Silver Spring, Maryland 20910 (301/427–2289); and

Director, Southwest Region, National Marine Fisheries Service, 300 South Ferry Street, Terminal Island, CA 90731 (213/514–6196).

Dated: June 20, 1991.

Richard H. Schaefer,

Director, Office of Fisheries, Conservation and Management.

BILLING CODE 3510–22–M

Technology Administration

[Docket No. 910525–1125]

Invitation for Proposals Under the Advanced Technology Program

AGENCY: Technology Administration, Commerce.

ACTION: Notice; invitation for proposals; notice of meeting.

SUMMARY: The Technology Administration invites applications for funding under the Advanced Technology Program (ATP), and announces a public meeting for all interested parties. Anyone interested in applying for funding under this Program must contact the ATP at the address shown below to obtain materials for applications. The Advanced Technology Program is Program Number 11.612 in the Catalog of Federal Domestic Assistance.

CLOSING DATE FOR APPLICATIONS: Proposals must be received at the address listed below no later than 3 p.m., E.D.T., on September 25, 1991.

DATE OF PUBLIC MEETING: A public meeting for parties considering making application for funding under the Advanced Technology Program will be held beginning at 9:30 a.m. on July 29, 1991, in the Red Auditorium, Administration Building, National Institute of Standards and Technology, Quince Orchard and Clopper Roads, Gaithersburg, MD, exit 10 off Interstate 270. Attendance at the public meeting is not required of potential proposers. The purpose of the meeting is to provide information regarding the ATP to potential applicants.

NUMBER OF PROPOSALS: Applicants must submit one signed original plus ten (10) copies of their proposals numbered 1 through 11, along with NIST Form 1262 (for Single Applicants) of Form 1263 (for Joint Venture Applicants) to The Advanced Technology Program at the address below. The Office of Management and Budget has approved the information collection requirements contained in this notice under provisions of the Paperwork Reduction Act (OMB control number 0693–0009).

ADDRESSES: Advanced Technology Program, Proposal Solicitation, ATP 91–01, room A430, Administration Building (Bldg. 101), National Institute of Standards and Technology, Quince Orchard and Clopper Roads, Gaithersburg, MD 20899.

FOR FURTHER INFORMATION CONTACT: To receive application materials contact Gail Killen at (301) 975–2636 or write to the address shown above. The ATP facsimile number is (301) 869–1150.

SUPPLEMENTARY INFORMATION:

Background

The Advanced Technology Program (ATP) is managed by the National Institute of Standards and Technology (NIST), an element of the Technology Administration of the Department of Commerce. ATP was established by section 5131 of the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100–418, 15 U.S.C. 278n), and is operated under program procedures published in the **Federal Register**, dated July 24, 1990, on page 30140. The ATP assists U.S. businesses to improve their competitive position and promote U.S. economic growth by accelerating the development of a variety of pre-competitive generic technologies [1] by means of cooperative research agreements. A cooperative research agreement is a funding instrument to provide financial assistance when substantial involvement is anticipated between the government and the recipient. NIST intends to select proposals for funding approximately six months (actual completion date depends on the number of applications received) after the closing date for applications.

Research and development activities cover a wide spectrum, from basic research at one extreme to the development of specific new products at the other. The Advanced Technology Program is intended to foster the development of technology that is beyond basic research, but not close to the stage of new product development. Thus the ATP will include the development of laboratory prototypes intended to establish technical feasibility but not prototypes of commercial products. The ATP will not fund projects to demonstrate commercial viability or projects involving market testing of specific products.

The purpose of the ATP as stated in Public Law 100–418 is to assist U.S. companies in creating and applying "generic technology" and research results so as to commercialize new technology more quickly and improve manufacturing processes. While it is hoped and intended that new products will ultimately result from work funded by the ATP, the program will not focus on giving participating companies a competitive advantage for specific new products. Rather, the focus will be on supporting work that has great economic potential with broad benefits. Accordingly, joint ventures are emphasized in the legislation establishing the ATP. This legislation states that the ATP should "avoid providing undue advantage to specific companies." The ATP is open to proposals in all areas of precompetitive generic technology.

Invitation for Proposals: The Technology Administration invites applications for funding for two types of proposals: (1) Technology Development Proposals from individual United States businesses (see Applicant Eligibility) or independent research institutes in amounts not to exceed $2 million over three years, and, (2) Technology Development Proposals from qualified United States joint research and development ventures where ATP support will serve as a catalyst for the proposed joint venture, and provided however, that the ATP share shall be a minority share of the cost of the venture for up to five years, and subject to the availability of ATP funds. Future or continued funding for multi-year projects will be at the discretion of the Technology Administration and will be contingent on such factors as satisfactory performance and the availability of funds.

Funds Available for Cooperative Research Agreements: Between $20.0 and $25.0 million will be available for awards in the form of cooperative research agreements resulting from this solicitation. Depending on the number and quality of proposals received from this solicitation, NIST reserves the right to allocate all or a portion of the funds that may be available in the FY 1992 budget to projects selected through this competition. The actual obligation of FY 1992 funds is contingent on their appropriation. The number of awards will depend on the amount of funding requested by the selected proposals.

Applicant Eligibility: ATP funding is available to United States businesses and certain United States joint research and development ventures. Eligible joint research and development ventures are defined in section 295.2(d) of the ATP Procedures.[2] The information package for applicants contains the ATP Procedures.

An additional eligibility requirement for those applying for fiscal year 1991 ATP funding has been mandated by the following amendment to this year's ATP Appropriaiton Bill (Public Law 101–515 Sec. 105):

A company shall be eligible to receive financial assistance from the Secretary of Commerce only if-

(A) The Secretary of Commerce finds that the company's participation in the Advanced Technology Program would be in the economic interest of the United States, as evidenced by investments in the United States in research, development, and manufacturing (including, for example, the manufacture of major components or subassemblies in the United States); significant contributions to employment in the United States; and agreement with respect to any technology arising from assistance provided by the Secretary of Commerce to promote the manufacture within the United States of products resulting from that technology (taking into account the goals of promoting the competitiveness of

[1] The terms "generic technology" and "pre-competitive technology" are defined in the Advanced Technology Program Procedures (15 CFR part 295). A copy of the Procedures is included in the Proposer's Kit.

[2] An eligible joint venture must consist of at least two organizations each of which is eligible to apply as a single applicant and both of which must participate in the proposed R&D program and contribute toward the matching funds requirement.

VOL 56 ISS 125 JE 28 1991 UMI

United States industry), and to procure parts and materials from competitive suppliers; and

(B) either—

(i) The company is a United States-owned company; or

(ii) The Secretary of Commerce finds that the company has a parent company which is incorporated in a country which affords the United States-owned companies opportunities, comparable to those afforded to any other company, to participate in any joint venture similar to those funded through the Advanced Technology Program; affords to United States-owned companies local investment opportunities comparable to those afforded to any other company; and affords adequate and effective protection for the intellectual property rights of United States-owned companies.

As used in this section, the term "United States-owned company" means a company that has a majority ownership or control by individuals who are citizens of the United States.

All applicants should address the requirements of section 105(A) cited above in section 7 (Broad Based Benefits) of their proposal and provide an Assurance Statement of Ownership concerning whether all participants in the proposed program are United States-owned companies as defined above. Applications from single companies or from joint ventures involving one or more companies that are not United States-owned companies as defined above should also address the requirements of section 105(B)(ii) cited above in section 3 (Special Eligiblity Requirements) of the proposal.

ATP funds may not flow directly to universities, Federal laboratories, or state agencies, although universities and federal laboratories may participate as members of an industry-led joint venture and (except for NIST) may receive funding via industry members of the joint venture. Non-profit independent research laboratories may also participate and receive funding either directly or indirectly. The participation of universities and Federal laboratories through cooperative research and development agreements in joint ventures or as subcontractors to single applicants funded by the ATP is encouraged. As a matter of policy, NIST's intramural programs cannot receive ATP funding from a joint venture (or its members), company or independent research institute funded by the ATP. However, NIST intramural programs may choose to collaborate with applicants where appropriate. Such collaboration will not increase or decrease an applicant's chances of receiving an award.

Preparation of Proposals and Reporting Requirements: The ATP application package contains detailed guidelines for the preparation of proposals. Also included is information on reporting requirements. To be accepted for review, proposals must meet the following requirements:

1. The original proposal plus ten (10) copies must be delivered to the ATP at the address specified above before the closing time and date cited previously in this document.

2. The proposal must meet the requirements for format, length, and content described in the Information Requirements Document contained in the application kit for Proposal Solicitation 91-01.

3. The information contained in the proposal should adequately address *all* of the requirements of the Information Requirements Document. These include separate sections of the proposal describing the: (1) Research and Development Program, (2) Experience and Qualifications of the proposing organization, (3) Broad Based Benefits of the proposal, (4) Technology Transfer Benefits of the proposal, (5) Proposer's Level of Commitment and Organizational Structure, (6) Plan for addressing intellectual property rights requirements, and (7) Detailed budget.

4. The original and ten (10) copies of NIST Form 1262 (for single applicants) or 1263 (for joint venture applicants) must be bound wth the proposal.

5. Single applicants must provide in their proposal a Nonpayment of Indirect Costs Assurance Statement and address the requirement that ATP funds not be used for payment of indirect costs in their budgets. Joint Venture applicants must provide in their proposal a Matching Funds Assurance Statement and address the requirement that ATP funds will cover less than 50% of the resources required to carry out the proposed project in their budgets.

6. All applicants must provide a United States-Owned Company Assurance Statement. Those proposals that involve the participation of organizations that are not United States-owned companies as defined previously must also address the requirements of section 105(B)(ii) of Public Law 101-515 noted above.

Proposals that fail to meet one or more of the above requirements will be considered non-responsive to this solicitation.

Award Criteria for Technology Development Proposals: Criteria that will be used to evaluate technology development proposals submitted in response to this notice appear in the ATP Procedures published at § 295.3(b) of title 15 of the Code of Federal Regulations. The information package for applicants contains the ATP Procedures.

The Proposal Review Process: The proposal review process is described in the ATP Procedures at § 295.3(a) of title 15 of the Code of Federal Regulations. The information package for applicants contains the ATP Procedures. The review process is expected to take approximately six months, although the process might take longer if an unusually large number of proposals is received.

Other Requirements, Requests, and Provisions: Applicants who have outstanding accounts receivable with the Federal Government will not be awarded a cooperative research agreement until the debts have been paid or arrangements satisfactory to the Department are made to pay the debt.

Section 319 of Public Law 101-121 prohibits recipients of Federal contracts, grants, cooperative agreements and loans from using appropriated funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a specific contract, grant, cooperative agreement or loan. A "Certification for Contracts, Grants, Loans, and Cooperative Agreements" must be submitted with any application for ATP funding. ATP Applicants are subject to Government-wide Debarment and Suspension (Nonprocurement) requirements as stated in 15 CFR part 26. In accordance with the Drug-Free Workplace Act of 1988, each applicant must make the appropriate certification as a "prior condition" to receiving a cooperative research agreement. A false statement on any application for funding under ATP may be grounds for denial or termination of funds and grounds for possible punishment by a fine or imprisonment. The Advanced Technology Program does not involve the mandatory payment of any matching funds from state or local government and does not effect directly any state or local government. Accordingly, the Technology Administration has determined that Executive Order 12372, "Intergovernmental Review of Federal Programs" is not applicable to this program. Awards under ATP shall be subject to all Federal and Departmental regulations, policies, and procedures applicable to financial assistance awards.

Dated: June 7, 1991.

Robert M. White,

Under Secretary for Technology.

BILLING CODE 3510-07-M

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Procurement List Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Additions to Procurement List.

SUMMARY: This action adds to the Procurement List a commodity to be furnished by nonprofit agencies employing the blind or other severely handicapped.

EFFECTIVE DATE: July 29, 1991.

ADDRESSES: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202-3509.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 557-1145.

SUPPLEMENTARY INFORMATION: On January 11, 1991, the Committee for Purchase from the Blind and Other Severely Handicapped published notice (56 FR 1180) of proposed additions to the Procurement List.

Comments were received from the current contractor for the portion of the Government requirement for the canteen which is the subject of this rulemaking and from a former contractor for the canteen. The former contractor objected to the cumulative impact on it of this addition and the 1985 addition of a part of the Government requirement for this canteen to the Procurement List. The former contractor also suggested that having nonprofit agencies employing persons with severe disabilities as the only source for the canteen would lead to lower quality and higher prices.

The current contractor objected to the proposed addition and another addition under consideration by the Committee on several grounds. These consisted of adverse impact on its business, including the previous and expected impacts of actions by the other mandatory source program and loss of return on recent equipment and tooling expenses; adverse impact on people with disabilities, who perform work on the canteens under a subcontract; adverse impact on its own employees, most of whom are minorities; increased prices to the Government; and the risk of having only one source for a critical defense item in an emergency situation.

According to data made available to the Committee, the former contractor has not supplied this canteen to the Government since early 1987. As this contractor cannot be dependent on arguments concerning cumulative Government sales of the canteen, its impact of the two actions adding the canteen to the Procurement List must be considered an objection to the loss of future opportunities to bid on canteen contracts. The Committee does not consider this to constitute serious adverse impact on a contractor. Nonprofit agencies producing items on the Procurement List are required by law to sell them to the Government at a fair market price set by the Committee. They cannot use their position as the only source to raise the price beyond this level. They are also required to produce the item to a specification set by the Government, which does not permit them to reduce the quality of an item.

With respect to the current contractor, the Committee has determined that adding this canteen to the Procurement List will not have a serious adverse impact on that firm. The firm has already recovered from the previous impacts on its business by the other mandatory source, which has advised the Committee that the firm will continue to have the opportunity to compete for the other type of work in which it is engaged.

In addition, the firm continues to have the opportunity to compete for canteen cap business, which involves some of the same equipment involved in furnishing the canteen proposed for addition. Even if the canteen were to remain available for competitive procurement, the firm could lose its investment in equipment and tooling because it is not guaranteed contracts in the competitive bidding system. Similarly, the individuals employed directly by the contractor and the persons with disabilities employed by the subcontractor are not assured of continued employment under the competitive procurement system and, in the case of the individuals with disabilities, there is no guarantee that evn if the current contractor obtains future contracts that it will continue to employ them through subcontracts. Under the circumstances, the Committee has determined that the assurance of employment for blind persons associated with the addition of this item outweighs the possible future employment benefits for minorities and individuals with disabilities.

The price to be paid by the Government for the canteens has been determined by the Committee to be consistent with the intent of the JWOD Act and the Committee's pricing procedures. Both require a "fair market" price and not the "lowest possible" price. The Committee has also determined that the nonprofit agency proposed to to supply the canteen has the capability to meet Government surge requirements.

After consideration of the material presented to its concerning capability of qualified nonprofit agencies to produce the commodity at a fair market price and impact of the addition on the current or most recent contractors, the Committee has determined that the commodity listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.6.

I certify that the following actions will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

a. The action will not result in any additional reporting, recordkeeping or other compliance requirements.

b. The action will not have a serious economic impact on any contractors for the commodity listed.

c. The action will result in authorizing small entities to produce the commodity procured by the Government.

Accordingly, the following commodity is hereby added to the Procurement List:

Canteen, Water, Plastic (1-QT.); 8465-01-115-0026; (Remaining Government Requirement)

This action does not affect contracts awarded prior to the effective date of this addition or options exercised under those contracts.

Beverly L. Milkman,

Executive Director.

Procurement List; Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Additions to Procument List.

SUMMARY: This action adds to the Procurement List a commodity to be furnished by nonprofit agencies employing the blind or other severely handicapped.

EFFECTIVE DATE: July 29, 1991.

ADDRESSES: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202-3509.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 557-1145.

VOL 56 ISS 125 JE 28 1991 UMI

SUPPLEMENTARY INFORMATION: On April 19, 1991, the Committee for Purchase from the Blind and Other Severely Handicapped published notice (56 FR 16075) of proposed additions to the Procurement List.

The current contractor objected to the proposed addition and another addition under consideration by the Committee on several grounds. These consisted of adverse impact on its business, including the previous and expected impacts of actions by the other mandatory source program and loss of return on recent equipment and tooling expenses; adverse impact on people with disabilities, who perform work on the canteens under a subcontract; adverse impact on its own employees, most of whom are minorities; increased prices to the Government; and the risk of having only one source for a critical defense item in an emergency situation.

With respect to the current contractor, the Committee has determined that adding this canteen to the Procurement List will not have a serious adverse impact on that firm, even considering the impact of the Committee's recent addition of a similar item for which the firm is the current contractor. The firm has already recovered from the previous impacts on its business by the other mandatory source, which has advised the Committee that the firm will continue to have the opportunity to complete for the other type of work in which it is engaged.

In addition, the firm continues to have the opportunity to compete for canteen cap business, which involves some of the same equipment involved in furnishing the canteen proposed for addition. Even if the canteen were to remain available for competitive procurement, the firm could lose its investment in equipment and tooling because it is not guaranteed contracts in the competitive bidding system. Similarly, the individuals employed directly by the contractor and the persons with disabilities employed by the subcontractor are not assured of continued employment under the competitive procurement system and, in the case of the individuals with disabilities, there is no guarantee that even if the current contractor obtains future contracts that it will continue to employ them through subcontracts. Under the circumstances, the Committee has determined that the assurance of employment for blind persons associated with the addition of this item outweighs the possible future employment benefits for minorities and individuals with disabilities.

The Price to be paid by the Government for the canteens has been determined by the Committee to be consistent with the intent of the JWOD Act and the Committee's pricing procedures. Both require a "fair market" price and not the "lowest possible" price. The Committee has also determined that the nonprofit agency proposed to supply the canteen has the capability to meet Government surge requirements.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to produce the commodity at a fair market price and impact of the addition on the current or most recent contractors, the Committee has determined that the commodity listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.6.

I certify that the following actions will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

a. The action will not result in any additional reporting, recordkeeping or other compliance requirements.

b. The action will not have a serious economic impact on any contractors for the commodity listed.

c. The action will result in authorizing small entities to produce the commodity procured by the Government.

Accordingly, the following commodity is hereby added to the Procurement List:

Canteen, Water (2–QT.); 8465–01–118–8173.

This action does not affect contracts awarded prior to the effective date of this addition or options exercised under those contracts.

Beverly L. Milkman,

Executive Director.

[FR Doc. 91–15457 Filed 6–27–91; 8:45 am]

BILLING CODE 6820–33–M

Procurement List Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Additions to procurement list.

SUMMARY: This action adds to the Procurement List a commodity and services to be furnished by nonprofit agencies employing the blind or other severely handicapped.

EFFECTIVE DATE: July 29, 1991.

ADDRESSES: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, VA 22202–3509.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 557–1145.

SUPPLEMENTARY INFORMATION: On February 25, March 1 and May 10, 1991, the Committee for Purchase from the Blind and Other Severely Handicapped published notices (56 FR 7680, 8750 and 21664) of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to produce the commodity and provide the services at a fair market price and impact of the addition on the current or most recent contractors, the Committee has determined that the commodity and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.6.

I certify that the following actions will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

a. The actions will not result in any additional reporting, recordkeeping or other compliance requirements.

b. The actions will not have a serious economic impact on any contractors for the commodity and services listed.

c. The actions will result in authorizing small entities to produce the commodity and provide the services procured by the Government.

Accordingly, the following a commodity and services are hereby added to the Procurement List:

Commodity

Preventive Dentistry Kit, Patient, 6520–00–890–2080

Services

Commissary Shelf Stocking and Custodial, Fort Benning, Georgia

Janitorial/Custodial, Fifth Floor Restrooms, The Pentagon, Washington, DC

Janitorial/Grounds Maintenance, U.S. Army Reserve Center, Independence, Missouri

This action does not affect contracts awarded prior to the effective date of this addition or options exercised under those contracts.

Beverly L. Milkman,

Executive Director.

BILLING CODE 6820–33–M

Procurement List Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed additions to procurement list.

SUMMARY: The Committee has received proposals to add to the Procurement List services to be provided by nonprofit agencies employing the blind or other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: July 29, 1991.

ADDRESSES: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202–3509.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 557–1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2) and 41 CFR 51–2.6. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed actions.

If the Committee approves the proposed additions, all entities of the Federal Government (except as otherwise indicated) will be required to procure the services listed below from nonprofit agencies employing the blind or other severely handicapped.

It is proposed to add the following services to the Procurement List:

Janitorial/Custodial, Naval Air Station, Whiting Field, Milton, Florida

Janitorial/Custodial, Marine Corps Logistics Base, Building 7501, Albany, Georgia

Janitorial/Custodial, U.S. Army Reserve Center, 4200 Michaud Blvd., New Orleans, Louisiana

Beverly L. Milkman,

Executive Director.

BILLING CODE 6820–33–M

Procurement List Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Addition to procurement list.

SUMMARY: This action adds to the Procurement List a service to be furnished by a nonprofit agency employing the blind or other severely handicapped.

EFFECTIVE DATE: July 29, 1991.

ADDRESSES: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202–3509.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 557–1145.

SUPPLEMENTARY INFORMATION: On April 12, 1991, the Committee for Purchase from the Blind and Other Severely Handicapped published notice (56 FR 14931) of proposed addition to the Procurement List.

Comments were received from the current contractor for this service. The contractor stated that he did object to the addition of this service to the Procurement List.

After consideration of the material presented to it concerning the capability of a qualified nonprofit agency to provide the service at a fair market price and the impact of the addition on the current or most recent contractor, the Committee has determined that the service listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.6.

I certify that the following actions will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

a. The action will not result in any additional reporting, recordkeeping or other compliance requirements.

b. The action will not have a serious economic impact on any contractors for the service listed.

c. The action will result in authorizing small entities to provide the service procured by the Government.

Accordingly, the following service is hereby added to the Procurement List: Commissary Shelf Stocking and Custodial, Fort Bliss, Texas.

This action does not affect contracts awarded prior to the effective date of this addition or options exercised under those contracts.

Beverly L. Milkman,

Executive Director.

Defense Science Board Task Force on Weapon Development and Production Technology; Meeting

ACTION: Change in status from open to closed of advisory committee meeting notice.

SUMMARY: The meeting of the Defense Science Board Task Force on Weapon Development and Production Technology scheduled for 11 and 12 July, 1991, as published in the **Federal Register** (vol. 56, no. 115, page 27503, Friday, June 14, 1991, FR Doc. 91–14143) will be closed during the 12 July session.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of

VOL 56 ISS 125 JE 28 1991 UMI

Defense for Acquisition on scientific and technical matters as they affect the perceived needs of the Department of Defense. During the 12 July portion of the meeting the Task Force will receive classified briefings on the development and production of the Advanced Technology Fighter and on DARPA production process investments in support of "black" programs.

In accordance with section 10(d) of the Federal Advisory Committee Act, Public Law No. 92–463, as amended (5 U.S.C. app. II, (1988)), it has been determined that the 12 July session of the DSB Task Force meeting concerns matters listed in 5 U.S.C. 552b(c) (1) (1988), and that accordingly this session of the meeting will be closed to the public.

Dated: June 24, 1991.

Linda M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 91–15389 Filed 6–27–91; 8:45 am]

BILLING CODE 3810–01–M

Department of Defense Wage Committee; Closed Meetings

Pursuant to the provisions of section 10 of Public Law 92–463, the Federal Advisory Committee Act, notice is hereby given that a meeting of the Department of Defense Wage Committee will be held on Tuesday, July 2, 1991; Tuesday, July 9, 1991; Tuesday, July 16, 1991; Tuesday, July 23, 1991; and Tuesday, July 30, 1991 at 10 a.m. in room 1E801, The Pentagon, Washington, DC.

The Committee's primary responsibility is to consider and submit recommendations to the Assistant Secretary of Defense (Force Management and Personnel) concerning all matters involved in the development and authorization of wage schedules for federal prevailing rate employees pursuant to Public Law 93–392. At this meeting, the Committee will consider wage survey specifications, wage survey data, local wage survey committee reports and recommendations, and wage schedules derived therefrom.

Under the provisions of section 10(d) of Public Law 92–463, meetings may be closed to the public when they are "concerned with matters listed in 5 U.S.C. 552b." Two of the matters so listed are those "related solely to the internal personnel rules and practices of an agency," (5 U.S.C. 552b. (c) (2)), and those involving "trade secrets and commercial or financial information obtained from a person and privileged or confidential" (5 U.S.C. 552b. (c) (4)).

Accordingly, the Deputy Assistant Secretary of Defense (Civilian Personnel Policy/Equal Opportunity) hereby determines that all portions of the meeting will be closed to the public because the matters considered are related to the internal rules and practices of the Department of Defense (5 U.S.C. 552b. (c) (2)), and the detailed wage data considered were obtained from officials of private establishments with a guarantee that the data will be held in confidence (5 U.S.C. 552b (c) (4)).

However, members of the public who may wish to do so are invited to submit material in writing to the chairman concerning matters believed to be deserving of the Committee's attention.

Additional information concerning this meeting may be obtained by writing the Chairman, Department of Defense Wage Committee, room 3D264, The Pentagon, Washington, DC 20301.

Dated: June 24, 1991.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810–01–M

Department of the Navy

CNO Executive Panel; Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. 2), notice is hereby given that the Chief of Naval Operations (CNO) Executive Panel Long Range Planning Task Force will meet 16 July 1991 from 9 a.m. to 5 p.m. at 4401 Ford Avenue, Alexandria, Virginia. All sessions will be closed to the public.

The purpose of this meeting is to review maritime issues as they impact national security policy and requirements. The entire agenda of the meeting will consist of discussions for drafting final report of long range issues regarding national security policy, and related intelligence. These matters constitute classified information that is specifically authorized by Executive Order to be kept secret in the interest of national defense and are, in fact, properly classified pursuant to such Executive Order. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b(c)(1) of title 5, United States Code.

This notice is being published late because of administrative delays which constitute an exceptional circumstance, not allowing Notice to be published in the Federal Register at least 15 days before the date of the meeting.

For further information concerning this meeting, contact: Judith A. Holden, Executive Secretary to the CNO Executive Panel, 4401 Ford Avenue, room 601, Alexandria, Virginia 22302-0268, Phone (703) 756-1205.

Dated: June 19, 1991.

Wayne T. Baucino,

Lieutenant, JAGC, U.S. Naval Reserve, Alternate Federal Register Liaison Officer.

BILLING CODE 3810–AE–M

Department of the Navy

Naval Research Advisory Committee; Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. 2), notice is hereby given that the Naval Research Advisory Committee Panel on Countermine Capabilities for Amphibious Operations (Phase II) will meet on July 10, 11, and 12, 1991. The meeting will be held at the Center for Naval Analyses, 4401 Ford Avenue, Alexandria, Virginia. The meeting will commence at 8 a.m. and terminate at 4:30 p.m. on July 10, 11, and 12, 1991.

The purpose of the meeting is to provide technical briefings for the panel members pertaining to their review and update of the previous NRAC study on this subject, which was completed in 1990. This Panel will reexamine the issues raised, conclusions reached, and recommendations made by the previous Panel, and provide the Navy with reassessment of the findings in the light of Desert Shield/Storm, new knowledge of the threat and environment, and applicable advances in technology. The agenda will include briefings and discussions related to current operational capabilities and limitations; lessons learned from the Persian Gulf War related to the threat, minefield deployments, and operational plans; current U.S. Navy reactions; and promising emerging technology applicable to detection, neutralization, marking, and reporting in very shallow water, the surf zone, and on the beach. These briefings and discussions contain classified information that is specifically authorized under criteria established by Executive Order to be kept secret in the interest of national defense and are in fact properly classified pursuant to such Executive Order. The classified and nonclassified matters to be discussed are so inextricably interwined as to preclude opening any portion of the meeting. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b(c)(1) of title 5, United States Code.

This notice is being published late because of administrative delays which constitute an exceptional circumstance, not allowing Notice to be published in the Federal Register at least 15 days before the date of meeting.

For further information concerning this meeting contact: Commander John Hrenko, USN, Office of the Chief Of Naval Research, 800 North Quincy Street, Arlington, VA 22217-5000, Telephone Number: (703) 696-4870.

Dated: June 19, 1991.

BILLING CODE 3810–AE–M

Department of the Navy

Naval Research Advisory Committee; Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. 2), notice is hereby given that the Naval Research Advisory Committee Panel on Open Systems Architecture for Command, Control and Communications (C^3) will meet on July 11 and 12, 1991. This meeting will be held at the Center for Naval Analyses, 4401 Ford Avenue, Alexandria, Virginia. The meeting will commence at 8 a.m. and terminate at 4:30 p.m. on July 11 and 12, 1991. All sessions of the meeting will be closed to the public.

The purpose of the meeting is to provide technical briefings to the panel members to enable them to assess the ability of current Navy C^3 systems' architecture to support anticipated requirements, evaluate the performance of the present system relative to the existing threat, provide recommendations for an overall architecture to meet future needs, and provide recommendations concerning use of current and future commercial data communication systems for both interim and continuing satisfaction of Department of the Navy needs. The agenda will include briefings and discussions related to current C^4 Acquisition Policy, Standards, Guidelines, and Security Requirements; Copernicus Engineering; software technology research and development, amphibious over-the-horizon C^3 requirements and Desert Shield/Storm Lessons Learned; Navy ADA policy and implementation; Department of the Army C^3; university C^3I research and development; the integrated tactical date network; and DARPA C^3 projects. These briefings and discussions will necessarily address current C^3 capabilities and limitations, emerging C^3 technologies and anticipated limitations, and respective susceptibility to penetration or denial. These briefings and discussions contain classified information that is specifically authorized under criteria established by Executive Order to be kept secret in the interest of national defense and are in fact properly classified pursuant to such Executive Order. The classified and nonclassified matters to be discussed are so inextricably intertwined as to preclude opening any portion of the meeting. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b(c)(1) of title 5, United States Code.

This notice is being published late because of adminstrative delays which constitute an exceptional circumstance, not allowing Notice to be published in the Federal Register at least 15 days before the date of this meeting.

BILLING CODE 3810–AE–M

DEPARTMENT OF EDUCATION

Indian Education National Advisory Council; Meeting

AGENCY: National Advisory Council on Indian Education.

ACTION: Notice of partially closed meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the National Advisory Council on Indian Education. This notice also describes the functions of the Council. Notice of this meeting is required under section 10(a)(2) of the Federal Advisory Committee Act.

DATE AND TIMES: Monday, July 15, 1991, 8 a.m. to 2 p.m. (closed) and 2 p.m. until conclusion of business at approximately 5 p.m. (open).

ADDRESSES: Holiday Inn Capitol, 550 C Street SW., Washington, DC 20024. Telephone: 202/479–4000.

FOR FURTHER INFORMATION CONTACT: John Cheek, Office Manager, National Advisory Council on Indian Education, 330 C Street SW., room 4072, Switzer Building, Washington, DC 20202–7556. Telephone: 202/732–1353.

SUPPLEMENTARY INFORMATION: The National Advisory Council on Indian Education is established under section 5342 of the Indian Education Act of 1988 (25 U.S.C. 2642). The Council is established to, among other things, assist the Secretary of Education in carrying out responsibilities under the Indian Education Act of 1988 (Part C, title V, Pub. L. 100–297) and to advise Congress and the Secretary of Education with regard to federal education programs in which Indian children or adults participate or from which they can benefit.

The Council is authorized to appoint, without regard to the provisions of title 5 United States Code governing appointments in the competitive service, or otherwise obtain the services of such professional, technical, and clerical personnel as may be necessary to enable it to carry out its functions as prescribed by law. The Council is conducting a search to appoint a permanent Executive Director to serve as the chief staff member of the Council. The full Council will convene on July 15, 1991 for a partially closed meeting to interview candidates for the Executive Director position, and conduct general business of the Council.

The full Council will meet in closed session from 8 a.m. until approximately 2 p.m. on July 15, 1991, to conclude the Executive Director search process. The agenda for the closed portion of the meeting will consist of a discussion of the Search Committee's recommendations regarding the candidates and the questions and guidelines to be used in the interviews, actual interviews with candidates, and a discussion involving a final decision on the appointment of a permanent Executive Director for the Council.

Immediately following the closed search process, the full Council will meet in open session from 2 p.m. until 5 p.m. on July 15, 1991 for an informational business meeting. This portion of the meeting is open to the public and will include a presentation on America 2000, the President's education strategy, reports of the Chairman, a discussion of the content and format of the annual report to Congress, and a report on the current activities of the White House

Conference On Indian Education and the Indian Nations At Risk Task Force Study.

The closed portion of the meeting of the National Advisory Council on Indian Education will relate solely to the internal personnel rules and practices of an agency. Interviews with the candidates and discussions held in conjunction with the selection process will involve matters which relate solely to the internal personnel rules and practices of this Council and are likely to disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy if conducted in open session. Such matters are protected by exemptions (2) and (6) of section 552b(c) of the Government in the Sunshine Act (Pub. L. 94–409; 5 U.S.C. 552b(c)).

A summary of activities of the closed portion of the meeting and related matters which are informative to the public consistent with the policy of title 5 U.S.C. 552b will be available to the public within 14 days of the meeting.

Records shall be kept of all Council proceedings open to the public and shall be available for public inspection at the office of the National Advisory Council on Indian Education located at 330 C Street SW., room 4072, Washington, DC 20202–7556.

Dated: June 24, 1991. Signed at Washington, DC.

Eddie L. Tullis,

Chairman, National Advisory Council on Indian Education.

John T. MacDonald,

Assistant Secretary for Elementary and Secondary Education.

BILLING CODE 4000–01–M

DEPARTMENT OF ENERGY

Determination of Noncompetitive Financial Assistance; National Academy of Public Administration

AGENCY: Department of Energy.

ACTION: Notice of financial assistance award.

SUMMARY: DOE announces that pursuant to 10 CFR 600.14(e), it is making a financial assistance award based on an unsolicited application under Financial Assistance Award No. DE–FG05–91ER35126 to the National Academy of Public Administration (NAPA).

PROJECT SCOPE: The funding for this financial assistance award will allow the grantee to form a Working Group on Radioactive Waste Management with the purpose of organizing one workshop and participating in another workshop. The workshops will analyze how an institutional framework can be established for managing radioactive waste in a manner that ensures public trust and confidence. NAPA will commission several papers by leading management experts and provide a summary of its proceedings to DOE. The financial assistance award is sponsored by DOE's Secretary of Energy Advisory Board (SEAB).

ELIGIBILITY: Based on receipt of an unsolicited application, eligibility of this award is being limited to NAPA. This project represents a unique idea for which a competitive solicitation would be inappropriate. This is a project with high technical merit. NAPA has unique chartered responsibility and has rendered advice on policy management issues across a range of government programs. NAPA's elected Fellows consist of more than 400 scholars and practitioners of diverse backgrounds in public administration whose practical experience comes from every level of government. The total estimated cost is $89,996. The term of the award is from the date of award for 5 months.

FOR FURTHER INFORMATION CONTACT: Daniel Metlay, Task Force on Civilian Radioactive Waste Management, Secretary of Energy Advisory Board, 7B 198, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585 (202) 586–3903.

Issued in Oak Ridge, TN on June 20, 1991.

Robert Lynch,

Acting Director, Procurement & Contracts Division, Oak Ridge Operations.

[FR Doc. 91–15488 Filed 6–27–91; 8:45 am]

BILLING CODE 6450–01–M

Determination of Noncompetitive Financial Assistance; National Academy of Sciences

AGENCY: Department of Energy (DOE).

ACTION: Notice of unsolicited financial assistance award.

SUMMARY: DOE announces that pursuant to 10 CFR 600.14(e), it is making a financial assistance award based on an unsolicited application under Financial Assistance Award No. DE–FG05–91ER35127 to National Academy of Sciences.

PROJECT SCOPE: The funding for this financial assistance award will allow the grantee to organize a 2-day workshop on civilian radioactive waste management to analyze how an institutional framework can be established for managing radioactive waste in a manner that ensures public trust and confidence. The grantee will commission several papers by social scientists and organization theorists. The grantee will also organize and pay the expenses of some workshop participants to attend a second meeting that will involve participation of individuals selected by the National Academy of Public Administration. The grantee will provide Secretary of Energy Advisory Board (SEAB) with a summary of the proceedings.

ELIGIBILITY: Based on receipt of an unsolicited application, eligibility of this award is being limited to National Academy of Sciences. This project represents a unique idea for which a competitive solicitation would be inappropriate. This is a project with high technical merit. NAS has a unique chartered responsibility and capability to reach consensus positions in the scientific community. This capability is recognized by the scientific community on a world-wide basis. The total estimated DOE cost is $70,000. The term of the award is from the date of award for 5 months.

FOR FURTHER INFORMATION CONTACT: Daniel Metlay, Task Force on Civilian Radioactive Waste Management, Secretary of Energy Advisory Board, 7B 198, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586–3903.

Issued in Oak Ridge, Tennessee on June 19, 1991.

Peter D. Dayton,

Director, Procurement & Contracts Division, DOE Field Office, Oak Ridge.

BILLING CODE 6450–01–M

Economic Regulatory Administration

Final Consent Order With Eason Drilling Co. and ITT Corp.

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Final action on proposed consent order.

SUMMARY: The Department of Energy (DOE) has determined that a proposed Consent Order between the DOE and Eason Drilling Company (formerly Eason Oil Company) (Eason) and ITT Corporation (ITT), which was executed on May 3, 1991, and published for comment in 56 FR 22708 (May 16, 1991), shall be made final. The Consent Order resolves matters relating to Eason's compliance with the federal petroleum price and allocation regulations for the period November 1, 1973 through December 31, 1979. To resolve these matters, ITT, on behalf of Eason, will pay to the DOE $7,000,000 within 30 days from the effective date of the Consent Order. To distribute the settlement monies, the Economic Regulatory Administration (ERA) will petition DOE's Office of Hearings and Appeals (OHA) to implement Special Refund Procedures pursuant to 10 CFR part 205 subpart V, in which proceedings any persons who claim to have suffered injury from the alleged overcharges will have the opportunity to submit claims for payment.

FOR FURTHER INFORMATION CONTACT: Dorothy Hamid, Office of Enforcement Litigation, Economic Regulatory Administration, Department of Energy, room 3H–017, RG–32, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586–1699.

SUPPLEMENTARY INFORMATION:

I. Introduction
II. Comment Received
III. Analysis of Comment
IV. Decision

I. Introduction

On May 16, 1991, DOE issued a notice announcing a proposed Consent Order between Eason and ITT and the DOE, which would resolve matters relating to Eason's compliance with the federal petroleum price and allocation regulations during the period November 1, 1973 through December 31, 1979. 56 FR 22708. Specifically, the May 16 Notice provided information regarding the potential overcharge liability arising from Eason's pricing of petroleum products at issue in a Remedial Order issued by OHA on December 6, 1990; and detailed the considerations which underlay ERA's preliminary view that the settlement is favorable to the government and in the public interest.

The Notice solicited written comments from the public relating to the terms and conditions of the proposed settlement and whether the settlement should be made final. ERA received one written comment, which was considered in making the decision whether to issue the proposed Consent Order as a final order.

II. Comment Received

The one comment received on the proposed Consent Order, submitted by the Controller of the State of California, addressed the failure of the Consent Order to specify the manner in which OHA will distribute the settlement monies in a subpart V proceeding. The Controller expressed concern that silence in this respect may suggest or permit a departure from DOE's Modified Restitutionary Policy in Crude Oil Cases, issued in connection with the Final Settlement Agreement approved by the district court in *In Re the Department of Energy Stripper Well Exemption Litigation*, M.D.L. 378. See 51 FR 27899 (August 4, 1986).

III. Analysis of Comment

The Controller's comment relating to the distribution of the overcharge funds if the Eason Consent Order is finalized is not germane to the basis or adequacy of the settlement. Rather, as DOE previously explained in, *inter alia*, the Exxon **Federal Register** Notice, 51 FR 36052 (October 8, 1986), in response to similar comments, including one by the Controller, views regarding the disbursement of Consent Order monies are appropriately presented in the subpart V proceeding to be convened by OHA. Therefore, the lack of specificity in the Consent Order does not imply any departure from applicable DOE policy.

ERA's review and analysis of the comment received in response to the May 16 Notice did not provide any information that would support the modification or rejection of the proposed Consent Order. Accordingly, ERA concludes that the Consent Order is in the public interest and should be made final.

IV. Decision

By this Notice, and pursuant to 10 CFR 205.199J, the proposed Consent Order is made a final Order of the Department of Energy, effective the date of publication of this notice in the **Federal Register.**

Issued in Washington, DC, on June 21, 1991.

Milton C. Lorenz,

Chief Counsel for Enforcement Litigation, Economic Regulatory Administration.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket Nos. ES91–39–000, et al.]

The Detroit Edison Company, et al.; Electric Rate, Small Power Production, and Interlocking Directorate Filings

Take notice that the following filings have been made with the Commission:

1. The Detroit Edison Company

[Docket No. ES91–39–000]

June 20, 1991.

Take notice that on June 14, 1991, The Detroit Edison Company filed an application with the Federal Energy Regulatory Commission pursuant to section 204 of the Federal Power Act seeking authorization to issue from time to time, on or before September 30, 1993, in an aggregate principal amount not to exceed $1.0 billion at any one time outstanding, short-term debt securities and promissory notes bearing final maturities not to exceed two years.

Comment date: July 15, 1991, in accordance with Standard Paragraph E at the end of this notice.

2. PacifiCorp Electric Operations

[Docket No. ER91–486–000]

June 20, 1991.

Take notice that PacifiCorp Electric Operations ("PacifiCorp"), on June 13, 1991, tendered for filing in accordance with 18 CFR part 35 of the Commission's Rules and Regulations, exhibit A (revision No. 2), exhibit C (revision No. 1) and exhibit D (revision No. 1) to Western Area Power Administration ("Western") Contract No. 87-LAO-298 ("Contract") dated July 17, 1987 with PacifiCorp (PacifiCorp's Rate Schedule FPC No. 45, Supplement No. 1 to Supplement No. 22). The revised exhibits A, C and D to the Contract represent changes due to completion of the Spence-Jim Bridger 230–kV transmission line. Exhibit A is a TOT 4A/4B Transfer Capability nomograph, exhibit C identifies transmission lines corresponding to TOT 4B power flow and Exhibit D lists transmission lines used in the development of the TOT 4A/4B nomograph of which parties to the Contract share pro rata reduction in TOT 4B transfer capability.

PacifiCorp requests, pursuant to 18 CFR 35.11 of the Commission's Rules and Regulations, that a waiver of prior notice be granted and that an effective date of April 12, 1991 be assigned to each of exhibits A, C, and D, these dates being consistent with the commerical operation date of the Spence-Jim Bridger 230 kV transmission line.

Copies of this filing were supplied to Western, the Public Service Commission of Wyoming and the Public Utility Commission of Oregon.

Comment date: July 5, 1991, in accordance with standard Paragraph E at the end of this notice.

3. Minnesota Power & Light Company

[Docket No. ER91–434–000]

June 20, 1991.

Take notice that on June 13, 1991, Minnesota Power & Light Company (Minnesota Power) tendered for filing a correction to a rate schedule for Firm Power Interchange Service provided by Minnesota Power to other members of the Mid-Continent Area Power Pool (MAPP), originally filed in this docket on

VOL
56
ISS
125
JE
28
1991
UMI

May 10, 1991. The correction changes the rate schedule designation of the MAPP Agreement, and includes as an attachment Minnesota Power's Order 84 adder which had been referenced in the rate schedule.

Minnesota Power requests waiver of the Commission's notice requirements and an effective date of May 1, 1991.

Copies of the filing have been served on MAPP, other members of MAPP, and on the state utility commissions in the MAPP region.

Comment date: July 8, 1991, in accordance with Standard Paragraph E at the end of this notice.

4. Cleveland Electric Illuminating Company

[Docket No. ER90-586-001]

June 20, 1991.

Take notice that on June 4, 1991, Cleveland Electric Illuminating Company tendered for filing its compliance filing in this docket pursuant to the Commission's order issued May 2, 1991.

Comment date: July 5, 1991, in accordance with Standard Paragraph E at end of this notice.

5. Southern California Edison Company

[Docket No. ER91-492-000]

June 20, 1991.

Take notice that on June 17, 1991, Southern California Edison Company (Edison) tendered for filing supplemental agreements to Edison Rate Schedules 247, 248, and 249:

Supplemental Agreement Between Southern California Edison Company and the City of Azusa for the Integration of the Idaho Power Sales Agreement (Azusa Agreement)
Supplemental Agreement Between Southern California Edison Company and the City of Banning for the Integration of the Idaho Power Sales Agreement (Banning Agreement)
Supplemental Agreement Between Southern California Edison Company and the City of Colton for the Integration of the Idaho Power Sales Agreement (Colton Agreement)

Copies of this filing were served upon the Public Utilities Commission of the State of California and all interested parties.

Comment date: July 5, 1991, in accordance with Standard Paragraph E at the end of this notice.

6. Northwestern Public Service Company

[Docket No. ES91-40-000]

June 20, 1991.

Take notice that on June 17, 1991, Northwestern Public Service Company filed an application with the Federal Energy Regulatory Commission pursuant to section 204 of the Federal Power Act seeking authorization to issue not more than $25 million of short-term debt securities on or before August 1, 1993, with a final maturity date no later than August 1, 1994.

Comment date: July 16, 1991, in accordance with Standard Paragraph E at the end of this notice.

7. Pennsylvania Power & Light Company

[Docket No. ES91-466-000]

June 21, 1991.

Take notice that Pennsylvania Power & Light Company (PP&L) on May 31, 1991, tendered for filing a Supplement ("Third Supplemental Agreement") ("Agreement"), dated January 28, 1988, as supplemented by a First Supplemental Agreement dated August 10, 1988, and further supplemented by a Second Supplemental Agreement dated May 31, 1989, between PP&L and Baltimore Gas and Electric Company (BG&E), which is on file with the Commission as PP&L's Rate Schedule FERC No. 92. The Third Supplemental Agreement provides for an increase in the Installed Capacity Rate contract capacity under the Pennsylvania-New Jersey-Maryland Interconnection Agreement, which was accepted for filing by the Commission on May 10, 1991 in Docket No. ER91-339-000, and which will become effective on June 1, 1991.

PP&L requests waiver of the notice requirements of Section 205 of the Federal Power Act and Section 35.3 of the Commission's Regulations so that the proposed rate schedule can be made effective as of June 1, 1991.

PP&L states that a copy of its filing was served on Baltimore Gas and Electric Company, the Pennsylvania Public Utility Commission, and the Maryland Public Service Commission.

Comment date: July 5, 1991, in accordance with Standard Paragraph E at the end of this notice.

8. Lake Cogen, Ltd.

[Docket No. QF91-170-000]

June 21, 1991.

On June 13, 1991, Lake Cogen, Ltd. of 215 East Madison Street, P.O. Box 2562, Tampa, Florida 33601-2562, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

The proposed topping-cycle cogeneration facility will be located adjacent to the Golden Gem Growers, Inc. plant in Umatilla, Florida. The facility will consist of two combustion turbine generators, two supplementary fired boilers heat recovery boilers and an extraction/condensing steam turbine generator. Thermal energy recovered from the facility, in the form of steam, will be used for citrus concentrate processing purposes. The net electric power production capacity of the facility will be 102 MW. The primary source of energy will be natural gas. Construction of the facility is scheduled to begin in the last quarter of 1991.

Comment date: July 29, 1991 in accordance with Standard Paragraph E at the end of this notice.

9. United States Department of Energy—Southeastern Power Administration

[Docket No. EF90-3011-001]

June 21, 1991.

Take notice that on May 31, 1991, the Deputy Secretary of Energy filed on behalf of the Southeastern Power Administration of the United States Department of Energy new Rate Schedule GAMF-3-A to recover unanticipated costs of purchasing pumping energy at the Carters Project. The Deputy Secretary, by order of May 24, 1991, approved the new rate schedule on an interim basis.

Comment date: July 8, 1991 in accordance with Standard Paragraph E at the end of this notice.

10. Pasco Cogen, Ltd.

[Docket No. QF91-169-000]

June 21, 1991.

On June 13, 1991, Pasco Cogen, Ltd. of 215 East Madison Street, P.O. Box 2562, Tampa, Florida 33601, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

The proposed topping-cycle cogeneration will be located adjacent to the Lykes Pasco plant located in Dade City, Florida. The facility will consist of two combustion turbine generators, two supplementary fired heat recovery boilers, and an extraction/condensing steam turbine generator. Thermal energy recovered from the facility, in the form of steam, will be used for citrus concentrate processing purposes. The net electric power production capacity of the facility will be 102 MW. The primary source of energy will be natural gas. Construction of the facility is scheduled to begin in the last quarter of 1991.

Comment date: July 29, 1991, in accordance with Standard Paragrah E at the end of this notice.

11. York County Solid Waste and Refuse Authority

[Docket No. QF86-920-002]

June 21, 1991.

On June 13, 1991, York County Solid Waste and Refuse Authority of 2653 Blackbridge Road, York, Pennsylvania 17402 submitted for filing an application for recertification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

The Small Power Production Facility is located in Manchester Township, York County, Pennsylvania. The facility consist of three (3) boilers and a fully-condensing steam turbine generator set. The primary energy source is biomass in the form of municipal solid waste.

The original certification was issued on November 3, 1986 (37 FERC 62,100 (1986)). The instant recertification is requested due to an increase in capacity form 34.7 MW to 37 MW.

Comment date: July 29, 1991, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests shoud be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 91-15394 Filed 6-27-91; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. CP91-2298-000, et al.]

ANR Pipeline Company, et al.; Natural gas certificate filings

Take notice that the following filings have been made with the Commission:

1. ANR Pipeline Company

[Docket No. CP91-2298-000]

June 20, 1991.

Take notice that on June 18, 1991, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, MI 48243, filed in Docket No. CP91-2298-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide an interruptible transportation service for Enron Gas Marketing, Inc., a marketer, under the blanket certificate issued in Docket No. CP88-532-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

ANR states that, pursuant to an agreement dated June 7, 1990, under its Rate Schedule ITS, it proposes to transport up to 100,000 dt per day equivalent of natural gas. ANR indicates that it would transport 100,000 dt equivalent on an average day and 36,500,000 dt equivalent annually. ANR further indicates that the gas would be transported from Louisiana, Oklahoma, Kansas, Texas, Wisconsin, Offshore Louisiana, and Offshore Texas, and would be redelivered in Michigan, Wisconsin, Indiana, Ohio, Illinois, Louisiana, Kansas, and Kentucky.

ANR advises that service under § 284.223(a) commenced April 24, 1991, as reported in Docket No. ST91-8764.

Comment date: August 5, 1991, in accordance with Standard Paragraph G at the end of this notice.

2. Trunkline Gas Company

[Docket Nos. CP91-2301-000, CP91-2302-000, CP91-2303-000, CP91-2304-000, CP91-2305-000, CP91-2306-000]

Take notice that on June 18, 1991, Trunkline Gas Company (Trunkline), P.O. Box 1642, Houston, Texas 77251-1642, filed in the above-referenced dockets prior notice requests pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas on behalf of shippers under its blanket certificate issued in Docket No. CP86-586,000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the requests that are on file with the Commission and open to public inspection.[1]

Information applicable to each transaction, including the identity of the shipper, the type of transportation service, the appropriate transportation rate schedule, the peak day, average day and annual volumes, and the initiation service dates and related ST docket numbers of the 120-day transactions under § 284.223 of the Commission's Regulations, has been provided by Trunkline and is summarized in the attached appendix.

Comment date: August 5, 1991, in accordance with Standard Paragraph G at the end of this notice.

3. East Tennessee Natural Gas Company

[Docket No. CP91-2284-000]

June 20, 1991.

Take notice that on June 14, 1991, East Tennessee Natural Gas Company (East Tennessee), P.O. Box 12045, Knoxville, Tennessee 37919, filed a petition for declaratory order in Docket No. CP91-2284-000 requesting the removal of an uncertainty as to the meaning of the "on behalf of" standard under Section 311 of the Natural Gas Policy Act of 1978 (NGPA), all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

East Tennessee, requests the Commission to clarify whether East Tennessee, consistent with the interim rule in Docket No. RM90-14-000, as a downstream transporter can transport gas under section 311 "on behalf of" upstream intrastate pipelines which are not connected to East Tennessee's system for delivery to end-users served directly off East Tennessee system. East Tennessee seeks a declaration as to whether the lack of a direct interconnection between itself and the intrastate pipelines breaks a nexus which may be required by the interim rule in order for an interstate pipeline to transport gas under section 311 on behalf of the intrastate pipeline. East Tennessee notes that although the marketing of gas to specific end-users in downstream markets is beyond the typical function of upstream intrastate pipelines, East Tennessee also seeks a declaration as to whether it is authorized by the interim rule to transport gas under subpart B of part 284 of the Commission's Regulations for this type of marketing activity.

Comment date: July 11, 1991, in accordance with the first subparagraph of Standard Paragraph F at the end of this notice.

4. Western Gas Interstate Company

[Docket Nos. CP91-2274-000, CP91-2275-000, CP91-2276-000]

June 20, 1991.

Take notice that Western Gas Interstate Company, 9130 Jollyville Road, Suite 150, Austin, Texas 78759-7273, (Applicant) filed in the above-referenced dockets prior notice requests pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas on behalf of shippers under its blanket certificate issued by the Commission's Order No. 509 corresponding to the rates, terms and conditions filed in Docket No. RP88-179-000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the requests that are on file with the Commission and open to public inspection.[2]

Information applicable to each transaction, including the identity of the shipper, the type of transportation service, the appropriate transportation rate schedule, the peak day, average day and annual volumes, and the initiation service dates and related ST docket numbers of the 120-day transactions under § 284.223 of the Commission's Regulations, has been provided by Applicant and is summarized in the attached appendix.

Comment date: August 5, 1991, in accordance with Standard Paragraph G at the end of this notice.

5. Transwestern Pipeline Company

[Docket Nos. CP91-2286-000, CP91-2287-000]

June 20, 1991.

Take notice that Transwestern Pipeline Company, 1400 Smith Street, P.O. Box 1188, Houston, Texas 77251-1188, (Applicant) filed in the above-referenced dockets prior notice requests pursuant to § 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas on behalf of various shippers under its blanket certificate issued in Docket No. CP88-133-000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the requests that are on file with the Commission and open to public inspection.[3]

Information applicable to each transaction, including the identity of the shipper, the type of transportation service, the appropriate transportation rate schedule, the peak day, average day and annual volumes, and the initiation service dates and related ST docket numbers of the 120-day transactions under § 284.223 of the Commission's Regulations, has been provided by Applicant and is summarized in the attached appendix.

Comment date: August 5, 1991, in accordance with Standard Paragraph G at the end of this notice.

6. Florida Gas Transmission Company

[Docket No. CP91-2299-000]

June 20, 1991.

Take notice that on June 18, 1991, Florida Gas Transmission Company (FGT), 1400 Smith Street, Houston, Texas 77002, filed a request with the Commission in Docket No. CP90-2299-000 pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (NGA) for authorization to add an existing delivery point to its firm transportation service for Florida Power & Light Company (FPL), under FGT's blanket certificate issued in Docket Nos. RP89-50 *et al.*, all as more fully described in the request which is open to public inspection.

FGT proposes to add the new Martin North delivery point in Martin County, Florida, to its existing firm transportation service for FPL under FGT's FERC Rate Schedule FTS-1. FGT states that natural gas deliveries at the Martin North delivery point would be within the currently authorized maximum annual and daily transportation quantities. FGT also states that the Commission order issued May 21, 1991, in Docket No. RP91-133-000 granted it a limited waiver of the Commission's first-come, first-served policy and FGT's tariff, as necessary, to permit FPL to retain its existing place in FGT's first-come, first-served firm service queue while adding the Martin North delivery point to the firm transportation service agreement.

Comment date: August 5, 1991, in accordance with Standard Paragraph G at the end of this notice.

7. Arkla Energy Resources, a division of Arkla, Inc.

[Docket No. CP91-2277-000]

June 21, 1991.

Take notice that on June 14, 1991, Arkla Energy Resources (AER), a division of Arkla, Inc., 525 Milam Street, Shreveport, Louisiana 71151, filed in Docket No. CP91-2277-000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the acquisition and conversion of abandoned field production or exploratory wells to storage field wells, and the construction and operation of related minor facilities in AER's ADA, Chiles Dome and Ruston Storage Fields in Pontotoc, Coal and Hughes Counties, Oklahoma, and in Lincoln Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

AER requests authorization to acquire, over a ten-year period, up to 20 production or exploratory wells which have been, are being, or may be drilled by others within the existing boundaries of AER's Ada, Chiles Dome and Ruston Storage Field, to convert and operate any wells so acquired as observation or injection/withdrawal wells; to drill, complete and operate one additional injection/withdrawal well within the existing geographic boundaries and through the gas storage zone of AER's Ruston Storage Field; and to construct and operate, as necessary, related facilities to connect such wells to the existing storage field gathering systems in the Ada, Chiles Dome and Ruston Fields.

AER states that the geographic area in which the Ada, Chiles Dome, and Ruston Storage Fields are located has received renewed interest in terms of exploration and development of new natural gas reserves. It is stated that as a result, producers have drilled and are continuing to drill wells which penetrate the underground storage formations in efforts to tap deeper formations for the production of commercially producible quantities of natural gas. It is further stated that such wells can be abandoned at any time, either because they are dry holes or the available reserves become depleted. AER states that the conversion of some of these wells to injection/withdrawal or observation well status would be useful in conducting storage field operations or to monitor the integrity of AER's storage fields. AER states that an abandoned well which penetrates AER's storage reservoir and which is improperly completed could permit substantial migration and loss of stored gas, thereby increasing costs and AER's ability to serve its customers on peak days could be threatened. AER maintains that only by acquiring abandoned wells can AER insure that its stored gas will be protected against such losses.

AER states that the requested authorization would permit it to acquire such wells as it may determine would be useful in conducting its storage operation at the time the wells are abandoned by producers. AER states that while the costs related to acquisition, conversion and attachment to its existing field gathering system of specific wells cannot be known at this time, total costs to be incurred will not exceed $8,000,000. AER also states that it will not acquire more than 20 wells in total pursuant to the requested authorization. AER further states that it will file with the Commission annual reports similar to those described in § 157.215(b)(1) of the Commission's Regulations regarding underground storage testing and development.

In addition, AER requested authorization to drill, complete and operate a new injection/withdrawal well located at the Ruston Storage facility in Lincoln Parish, Louisiana, to increase the overall operating efficiency of the Ruston Storage Field by providing increased deliverability. AER estimates the cost of the new well and related facilities to be $675,000, which will be financed from available funds and/or short-term borrowings.

Comment date: July 12, 1991, in accordance with Standard Paragraph F at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will

VOL 56 ISS 125 JE 28 1991 UMI

not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in the subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

Office of Fossil Energy

[FE Docket No. 91-12-NG]

Mobil Natural Gas Inc.; Blanket Authorization to Export Natural Gas

AGENCY: Office of Fossil Energy, Energy.

ACTION: Notice of an order granting blanket authorization to export natural gas, including liquefied natural gas.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice that it has issued an order granting Mobil Natural Gas Inc. blanket authorization to export up to a total of 100 Bef of natural gas over a two-year period beginning on the date of the first export.

A copy of this order is available for inspection and copying in the Office of Fuels Programs Docket Room, room 3F-056, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586-9478. The docket room is open between the hour of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, DC, June 21, 1991.

Clifford P. Tomaszewski,

Acting Deputy Assistant Secretary for Fuels Programs, Office of Fossil Energy.

[FR Doc. 91-15490 Filed 6-27-91; 8:45 am]

BILLING CODE 6450-01-M

Office of Hearings and Appeals

Cases Filed During the Week of May 31 Through June 7, 1991

During the Week of May 31 through June 7, 1991, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Under DOE procedural regulations, 10 CFR part 205, any person who will be aggrieved by the DOE action sought in these cases may file written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of the regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, DC 20585.

Dated: June 21, 1991.

George B. Breznay,

Director, Office of Hearings and Appeals.

LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS

[Week of May 31 through June 7, 1991]

Date	Name and location of applicant	Case No.	Type of submission
5/31/91	Texaco/Paul's Texaco, Columbus, OH	RR321-67	Request for Modification/Rescission in the Texaco Refund Proceeding. If granted: The 9/20/90 Decision and Order (Case No. RF321-3164 & RF321-4488) issued to Paul's Texaco would be modified regarding the firm's application for refund submitted in the Texaco refund proceeding.
6/3/91	John M. Seehuus, Oak Ridge, TN	LFA-0129	Appeal of an Information Request Denial. If granted: The 5/24/91 Freedom of Information Request Denial issued by the Office of Placement and Administration would be rescinded, and John M. Seehuus would receive access to a copy of organizational conflict of interest letters for all subcontractors participating in contract number DE-OC01-90NE500429.
5/31/91	Texaco/Surfside Texaco, Palm Beach, FL	RR321-66	Request for Modification/Rescission in the Texaco Refund Proceeding. If granted: The 8/15/90 Decision and Order (Case No. RF321-4495 & RF321-8213) issued to Surfside Texaco would be modified regarding the firms's application for refund submitted in the Texaco refund proceeding.
6/3/91	Gulf/Conner's Gulf Station, Rutledge, GA	RR300-90	Request for Modification/Rescission in the Gulf Refund Proceeding. If granted: The 2/15/89 Decision and Order (Case No. RF300-3031) issued to Conner's Gulf Station would be modified regarding the firm's application for refund submitted in the Gulf refund proceeding.

LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS—Continued

[Week of May 31 through June 7, 1991]

Date	Name and location of applicant	Case No.	Type of submission
6/3/91	Texaco/Bendel's Texaco, Cape Coral, FL	RR321-68	Request for Modification/Rescission in the Texaco Refund Proceeding. If granted: The 8/22/90 Decision and Order (Case No. RF321-3303 & RF321-8175) issued to Bendel's Texaco would be modified regarding the firm's application for refund submitted in the Texaco refund proceeding.
6/3/91	Texaco/Hiway Texaco, Wahpeton, ND	RR321-69	Request for Modification/Rescission in the Texaco Refund Proceeding. If granted: The 9/12/90 Decision and Order (Case No. RF321-1539 & RF321-8451) issued to Hiway Texaco would be modified regarding the firm's application for refund submitted in the Texaco refund proceeding.
6/4/91	Texaco/Bill's Texaco, Daytona Beach, FL	RR321-70	Request for Modification/Rescission in the Texaco Refund Proceeding. If granted: The 8/10/90 Decision and Order (Case No. RF4267 & RF321-8043) issued to Bill's Texaco would be modified regarding the firm's application for refund submitted in the Texaco refund proceeding.
6/7/91	James L. Schwab, Spokane, WA	LFA-0130	Appeal of an Information Request Denial. If granted: The 5/24/91 Freedom of Information Request Denial issued by the Office of Administrative Services would be rescinced, and James L. Schwab would receive access to all records between E. Wayne Adams and Carol Roesomondo regarding alleged whistleblower at the Tonopah Test Range.
6/7/91	Starks Shell Service, Washington, DC	LEF-0034	Implementation of Special Refund Procedures. If granted: The Office of Hearings & Appeals would implement Special Refund Procedures pursuant to 10 C.F.R., Part 205, Subpart V, for money obtained through a Consent Order entered into with Starks Shell Service.

BILLING CODE 6450-01-M

Issuance of Decisions and Orders During the Week of April 29 Through May 3, 1991

During the week of April 29 through May 3, 1991, the decisions and orders summarized below were issued with respect to appeals and applications for exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeal

IGR Enterprises, Inc., 5/2/91, LFA-0109

IGR Enterprises, Inc. (IGR) filed an Appeal from a partial denial by the Authorizing Official of the DOE's Pittsburgh Energy Technology Center of a request for documents under the Freedom of Information Act (FOIA). The Authorizing Official had withheld certain portions of a technical proposal submitted by the Helipump Corporation in response to a program research and development announcement for Solid State Electrochemical Flue Gas Cleanup, PRDA RA22-90PC8902. The Authorizing Official justified the withholding on the ground that Helipump deemed the information to be privileged or confidential and, therefore, exempt from disclosure under Exemption b(4) of the FOIA. In considering the Appeal, the DOE found that the Authorizing Official had not adequately justified withholding the information. Therefore, the DOE remanded the matter so that the Authorizing Official could formulate an adequate determination.

Refund Applications

Atlantic Richfield Company/Domex, Inc., 4/30/91, RF304-3420, et al.

The DOE issued a Decision and Order concerning eight Applications for Refund filed by Domex, Inc. (Domex) in the Atlantic Richfield Company special refund proceeding. The DOE had

VOL 56 ISS 125 JE 28 1991 UMI

previously granted refunds in three other Applications for Refund filed by Domex. All eleven applications were considered as a unit for purposes of calculating the correct presumption of injury and refund amount. As a result, Domex qualified for the 41% mid-level presumption of injury. Since the refunds previously granted were based on the full volumes claimed, the DOE reduced the volume for each of the eight remaining applications proportionately. The refunds granted in this decision totalled $3,042, including $952 in accrued interest.

Drummond Co., Inc., 4/30/91, RF272–22373, RD272–22373

The DOE issued a Decision and Order granting the Subpart V crude oil refund application of Drummond Co., Inc., based on its purchases of refined petroleum products during the period August 19, 1973 through January 27, 1981. The applicant, a coal mining company, demonstrated the volume of its claim by using contemporaneous records and reasonable estimates. The applicant was an end-user of the products it claimed and was therefore presumed injured by the DOE. A group of state governments and territories of the United States (the States) objected to the application, contending that the firm was not injured because it was able to pass through to customers any overcharges it suffered due to the elasticities of supply and demand that exist in any industry. The DOE found that the States failed to submit any direct evidence to indicate that the applicant passed on increased fuel costs to its customers. The DOE also determined that absorption oil, a product claimed by Drummond but not previously considered in the crude oil refund proceeding, was eligible for a refund. Accordingly, the DOE granted Drummond a refund of $50,131. The DOE also denied the Motion for Discovery filed by the States in this case, for reasons discussed in earlier Subpart V crude oil Decisions, *See, e.g., Christian Haaland A/S*, 17 DOE ¶ 85,439 (1988).

Koppers Company, Inc., 5/1/91 RF272–10162, RD272–10162

The DOE issued a Decision and Order granting the Subpart V crude oil refund application of Koppers Company, Inc., based on its purchases of refined petroleum products during the period August 19, 1973 through January 27, 1981. The applicant, a diversified company, demonstrated the volume of its claim by using contemporaneous records and reasonable estimates. The applicant was an end-user of the products it claimed and was therefore presumed injured by the DOE. A group of state governments and territories of the United States (the States) objected to the application, contending that the firm was not injured because it was able to pass through to customers any overcharges it suffered due to the elasticities of supply and demand that exist in any industry. The DOE found that the States failed to submit any direct evidence to indicate that the applicant passed on increased fuel costs to its customers. The DOE also determined that slurry oil, pentane, and ortho-xylene, products claimed by Koppers which had not previously been considered in the crude oil refund proceeding, were eligible for refunds. Another product, isobutylene, was found to be ineligible for refund. Accordingly, the DOE granted Koppers a refund of $1,149,086. The DOE also denied the Motion for Discovery filed by the States in this case, for reasons discussed in earlier Subpart V crude oil Decisions. *See, e.g., Christian Haaland A/S*, 17 DOE ¶ 85,439 (1988).

Ligon Specialized Hauler, Inc., 4/30/91, RF272–75150, RF272–75150

The DOE issued a Decision and Order denying an Application for Refund filed by Ligon Specialized Hauler, Inc. (LSH), in the Subpart V crude oil special refund proceeding. The DOE's denial was based on the fact that an LSH affiliate had applied for and had been granted a refund from the Surface Transporters Escrow and had, thereby, waived LSH's right to a refund in the crude oil proceeding. The DOE also dismissed as moot a Motion for Discovery filed by a consortium of States and two Territories of the United States.

Murphy Oil Corporation/James N. Rogers, 5/2/90, RF309–854

The DOE issued a Decision and Order denying an Application for Refund filed in the Murphy Oil Corporation (Murphy) special refund proceeding. The applicant based his purchase volume estimate solely on his memory. The applicant was not able to substantiate this estimate with his own records nor those of his petroleum supplier or Murphy. Accordingly, his application was denied.

Shell Oil Company/Cesare's Shell, 5/3/91, RF315–10137

The DOE issued a Supplemental Order rescinding the $1,255 refund granted to Cesare's Shell in a January 29, 1991 Decision and Order, *Shell Oil Co./Veterans Petroleum Service, Inc., et al.*, Case Nos. RF315–1102 *et al.* The refund was rescinded after the Decision and refund check were returned to the DOE which, after detailed searching, could not locate a proper address or telephone number for Cesare's Shell or its contact person, Hollie Cesare.

State of Delaware, 05/02/91, RF272–65433

The DOE issued a Decision and Order granting a refund from crude oil overcharge funds to the State of Delaware based on its purchases of refined petroleum products during the period August 19, 1973 through January 27, 1981. The State applied on behalf of all of its state agencies, public schools and for Delaware College and Delaware Technical College. The DOE rejected objections that were filed by Philip P. Kalodner, counsel for utilities, transporters and manufacturers. Delaware was granted a refund of $141,807.

Texaco Inc./Laurie Meadows Texaco, 4/30/91. RF321–14951

The DOE issued a Decision and Order in which it required the recipient of a previously granted refund to remit a portion of that refund. In a July 30, 1990 Decision and Order in the Texaco Inc. refund proceeding, the DOE granted a refund to Laurie Meadows Texaco, a retailer of Texaco products. That refund was based upon the applicant's claim that he operated the retail outlet from June 1975 to February 1980, and the volume of purchases at that location between those dates. Subsequently, another applicant filed an application for a refund for the same retail location for the period ending September 1978. The second applicant submitted documentary evidence to support its claim. In addition, the owner of Laurie Meadows Texaco has now stated that the dates that he gave in his application were incorrect. Accordingly, the DOE found that he should repay, with interest, that portion of the refund attributable to purchases made through September 1978 and after December 1978.

Texaco Inc./Stone & Cooper Fuel Co., 5/3/91, RF321–60372

The DOE issued a Decision and Order concerning an Application for Refund filed in the Texaco Inc. special refund proceeding by William T. Johnson based on purchases made by Stone & Cooper Fuel Co. (S&C), a reseller of Texaco residual fuel oil during the consent order period. In his application, Mr. Johnson indicated that from 1952 until 1984 he was S&C's sole owner and shareholder. On July 31, 1984, S&C was sold by Mr. Johnson through a complete stock transfer. Although DOE generally finds that the seller of a corporation's stock relinquishes all rights to oil overcharge refunds, in this case, the DOE concluded that a certain clause in the sales agreement between Mr. Johnson and the subsequent owners allowed Mr. Johnson to retain the right to receive any refund awarded to S&C in this proceeding. Accordingly, Mr. Johnson's application was approved, and he was granted a refund of $642, representing $520 in principal and $122 in interest.

Refund Applications

The Office of Hearings and Appeals issued the following Decisions and Orders concerning refund applications, which are not summarized. Copies of the full texts of the Decisions and Orders are available in the Public Reference Room of the Office of Hearings and Appeals.

BILLING CODE 6450-01-M

ENVIRONMENTAL PROTECTION AGENCY

[ER-FRL-3969-7]

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared June 10, 1991 Through June 14, 1991, pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 382-5076.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 5, 1991 (56 FR 14096).

Draft EISs

ERP No. D-BLM-K67012-CA Rating EC2, Hayden Hill Open Pit Heap Leach Gold and Silver Mine Project, Construction and Operation, Mining Plan of Operations, Ancillary Right-of-Ways and Well Permits Approval, Lassen County, CA.

Summary

EPA expressed environmental concerns regarding potential impacts to water quality and wetlands. EPA requested more information in the final EIS on existing air and water quality and wetland conditions, mitigation of water quality impacts, wetland and post-closure maintenance and monitoring procedures.

ERP No. D-COE-K36100-CA Rating 3, American River Watershed Flood Plain Protection Project, Construction, Operation and Maintenance, Implementation, Sacramento, Placer and Sutter Counties, CA.

Summary

EPA feels this document has inadequate information to fully evaluate potential environmental impacts; the Corps should revise and reissue the draft EIS. The draft EIS does not sufficiently assess the impacts of flood protection alternatives nor measures to minimize impacts to waters of the United States fisheries and wildlife. The draft EIS should address the combined impacts of temporary and permanent flood protection alternatives to determine the least pay environmentally damaging flood protection system. EPA seeks assurances that major operational changes, including conversion from a dry dam to a multipurpose dam be implemented only after Congressional approval and public review on an EIS addressing such changes.

ERP No. D-FHW-F40316-MN Rating EO2, MN-TH 14 Improvements, North Mankato-Mankato Bypass and County Road 193 to Smiths Mill, Funding and Section 404 Permit, City of Mankato, Blue Earth County, MN.

Summary

EPA expressed environmental objections based on impacts to the high quality wetlands and upland hardwoods associated with Alternatives B1 and B2, and recommended the preparation of a conceptual plan of mitigation for wetland impacts.

ERP No. D-UAF-F11019-IL Rating EC2, Scott Air Force Base Joint Military-Civilian Use, Civil Runway and Associated Airport Facilities Construction, Plan Approval, St. Clair County, IL.

Summary

EPA's concerns will be addressed when the additional information on feasible mitigation for significant noise impacts, wetlands impacts, and wetlands compensation are submitted.

Final EISs

ERP No. F-FAA-L51013-WA Bellingham International Airport Runway Extension, Construction and Operation, Airport Layout Plan, Approval and Funding, Whatcom County, WA.

Summary

EPA expressed concerns with wetland impact and requested additional information on the avoidance and minimization of impacts to wetlands through the alternatives analysis.

ERP No. F-FHW-F40298-OH OH-297/ Whipple Avenue Improvement, US-30 Interchange at Raff Road/Whipple Avenue/OH-297 to I-77 Interchange at Everhard Road, Funding, Stark County, OH.

Summary

EPA has no objections to the project as presently described.

ERP No. F-FHW-J40066-ND Washington Street Corridor Improvements, Century Avenue to Bismarck Avenue, Funding, Bismarck, Burleigh County, ND.

Summary

Review of the final EIS has been completed and the project found to be satisfactory. No formal letter was sent to the agency.

ERP No. F-USN-L11012-WA Naval Station Puget Sound (NSPS) Sand Point Realignment to NSPS Everett, Implementation, City of Seattle, WA.

Summary

EPA feels this document has adequately addressed the identified adverse environmental consequence of Carbon Dioxide (CO) emission violations of State Implementation Plans (SIP) standards at identified intersections under the preferred alternative 2. Additionally, the final proposes an acceptable mitigation procedure to bring the project into compliance with SIP standards.

ERP No. FA-COE-L34003-OR Elk Creek Lake Project, Construction and Operation Implementation, Updated and Additional Information, Jackson County, OR.

Summary

EPA continues to have environmental concerns about the flood control "only/ no pool" preferred alternative. The outstanding issue is the effect of dam completion on Elk Creek and Rogue River fisheries. New information indicates that many of the stocks of anadromous fish in the Rogue River and Elk Creek are depleted and are at risk of further decline. The final EIS proposes hatchery mitigation; however, recent studies indicate that hatchery fish can contribute to the decline of native stocks.

Dated: June 25, 1991.

William D. Dickerson,

Deputy Director, Office of Federal Activities.

Toxic and Hazardous Substances; Test Market Exemption Applications

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA may upon application exempt any person from the premanufacturing notification requirements of section 5(a) or (b) of the Toxic Substance Control Act (TSCA) to permit the person to manufacture or process a chemical for test marketing purposes under section 5(h)(1) of TSCA. Requirements for test marketing exemption (TME) applications, which must either be approved or denied within 45 days of receipt are discussed in EPA's final rule published in the **Federal Register** of May 13, 1983 (48 FR 21722). This notice, issued under section 5(h)(6) of TSCA, announces receipt of 3 applications for exemption, provides a summary, and requests comments on the appropriateness of granting these exemptions.

DATES:

Written comments by:

T 91-21, 91-22, June 26, 1991.

T 91-23, June 30, 1991.

ADDRESSES: Written comments, identified by the document control number "(OPTS-59300)" and the specific TME number should be sent to: Document Processing Center (TS-790), Office of Toxic Substances, Environmental Protection Agency, 401 M St., SW, Rm. L-100, Washington, DC 20460, (202) 382-3532.

FOR FURTHER INFORMATION CONTACT: David Kling, Acting Director, Environmental Assistance Division (TS-799), Office of Toxic Substances, Environmental Protection Agency, Rm. EB-44, 401 M St., SW, Washington, DC 20460, (202) 554-1404, TDD (202) 554-0551.

SUPPLEMENTARY INFORMATION: The following notice contains information extracted from the nonconfidential version of the submission provided by the manufacturer of the TME received

VOL 56 ISS 125 JE 28 1991 UMI

by EPA. The complete nonconfidential document is available in the TSCA Public Docket Office NE–G004 at the above address between 8 a.m. and noon and 1 p.m. and 4 p.m., Monday through Friday, excluding legal holidays.

Extension of the Period for Action on a Proposed Determination To Withdraw or Restrict the Specification of an Area for Use as a Disposal Site; Kuparuk River Unit, North Slope Borough, AK

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of an extension of the period for Regional action on a proposed section 404(c) determination.

SUMMARY: On May 14, 1991, EPA Region X published notice in the Federal Register of a Proposed Determination pursuant to section 404(c) of the Clean Water Act [33 U.S.C. 1344(c)). EPA Region X also retained a consultant to analyze the hydrologic characteristics of the site. The regulation at 40 CFR 231.5 stipulates that EPA Region X should prepare a finding on the Proposed Determination within fifteen days of the close of the public comment period (by June 28, 1991). However, in order to provide sufficient time to fully review the substantive information contained in the administrative record, submitted during the public comment period and prepared by its consultant, EPA Region X hereby extends that time period until August 13, 1991, as authorized by 40 CFR 231.8. This brief extension will not substantially delay a final EPA decision on this matter.

FOR FURTHER INFORMATION CONTACT: Robert S. Burd, Director, Water Division, U.S. Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101.

Dated: June 21, 1991.

Robert S. Burd,

Director, Water Division.

FEDERAL DEPOSIT INSURANCE CORPORATION

Information Collection Submitted to OMB for Review

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Notice of information collection submitted to OMB for review and approval under the Paperwork Reduction Act of 1980.

SUMMARY: In accordance with requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35), the FDIC hereby gives notice that it has submitted to the Office of Management and Budget a request for OMB review of the information collection system described below.

Type of Review: Extension of the expiration date of a currently approved collection without any charge in the substance or method of collection.

Title: Application for Consent to Exercise Trust Powers.

Form Number: 6200/09, 6200/09A.

OMB Number: 3064–0025.

Expiration Date of OMB Clearance: August 31, 1991.

Frequency of Response: On occasion.

Respondents: Insured State nonmember banks wishing to exercise trust powers.

Number of Respondents: 50.

Number of Responses per Respondent: 1.

Total Annual Responses: 50.

Average Number of Hours per Response: 15.69.

Total Annual Burden Hours: 785.

OMB Reviewer: Gary Waxman, (202) 395–7340, Office Management and Budget, Paperwork Reduction Project (3064–0010), Washington, DC 20503.

FDIC Contact: Steven F. Hanft, (202) 898–3907, Office of the Executive Secretary, room F–400, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429.

Comments: Comments on this collection of information are welcome and should be submitted before August 27, 1991.

ADDRESSES: A copy of the submission may be obtained by calling or writing the FDIC contact listed above. Comments regarding the submission should be addressed to both the OMB reviewer and the FDIC contact listed above.

SUPPLEMENTARY INFORMATION: Insured State nonmember banks must submit applications to the FDIC for consent to exercise trust powers. Applications are evaluated by the FDIC to verify the qualifications of bank management to administer a trust department, and to ensure that the bank's financial condition will not be jeopardized as a result of trust operations.

Dated: June 24, 1991.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Submitted to the Office of Management and Budget for Clearance

The Federal Emergency Management Agency (FEMA) has submitted to the Office of Management and Budget the following information collection package for clearance in accordance with the Paperwork Reduction Act (44 U.S.C. chapter 35).

Type: Extension of 3067–0180.

Title: Civil Rights Higher Education and Rehabilitation Act Survey.

Abstract: FEMA form 14–5, Civil Rights—Higher Education and Rehabilitation Act Survey, is required to annually evaluate each State emergency management agency's compliance with nondiscrimination regulations. The survey is administered by FEMA program personnel to State and territorial governments receiving Federal financial assistance from FEMA through the Comprehensive Cooperative Agreement. Areas covered in the survey include administrative procedure, training, construction, and planning. The results of the survey will be used to provide technical assistance to accomplish voluntary compliance and will be a basis for budgetary recommendations to the Director, FEMA.

Type of respondents: State and local governments.

Estimate of total annual reporting and recordkeeping burden: 138 hours.

Number of respondents: 55.

Estimated average burden hours per response: 1.5 hours to complete the survey, and 1 hour for recordkeeping burden.

Frequency of response: Annually.

Copies of the above information collection request and supporting documentation can be obtained by calling or writing the FEMA Clearance Office, Linda Borror (202) 646–2624, 500 C Street SW., Washington, DC 20472.

Direct comments regarding the burden estimate or any aspect of this information collection, including suggestions for reducing this burden, to: The FEMA Clearance Officer at the above address; and to Gary Waxman (202) 395–7340, Office of Management and Budget, 3235 New Executive Office Building, Washington, DC 20503 within four weeks of this notice.

Dated: June 21, 1991.

Gail L. Kercheval,

Acting Director Office of Administrative Support.

[FR Doc. 91–15442 Filed 6–27–91; 8:45 am]

BILLING CODE 6718–01–M

Arkansas; Amendment to Notice of a Major Disaster Declaration

[FEMA–907–DR]

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster for the State of Arkansas (FEMA–907–DR), dated May 30, 1991, and related determinations.

DATED: June 12, 1991.

FOR FURTHER INFORMATION CONTACT: Neva K. Elliott, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, DC 20472 (202) 646–3614.

NOTICE: The notice of a major disaster for the State of Arkansas, dated May 30, 1991, is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of May 30, 1991:

The counties of Fulton, Lafayette, Scott, and Van Buren for Public Assistance.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance.)

Grant C. Peterson,

Associate Director, State and Local Programs and Support, Federal Emergency Management Agency.

BILLING CODE 6718–02–M

FEDERAL FINANCIAL INSTITUTIONS EXAMINATION COUNCIL

Appraisal Subcommittee; Extension of Deadline for Use of Certified or Licensed Appraisers in Federally Related Transactions

AGENCY: Appraisal Subcommittee of the Federal Financial Institutions Examination Council.

ACTION: Notice extending effective date For American Samoa ("AS") and the Commonwealth of the Northern Mariana Islands ("CNMI").

SUMMARY: Notice is hereby given that the Appraisal Subcommittee ["ASC"], with the approval of the Federal Financial Institutions Examination Council ["FFIEC"], ordered the extension until December 31, 1991, of the effective date for the use of certified or licensed appraisers for all appraisals performed in connection with federally related transactions under title XI of the Federal Financial Institutions Reform, Recovery, and Enforcement Act of 1989

VOL
56
ISS
125
JE
28
1991
UMI

["FIRREA"] [1] in AS and CNMI. This extension is now effective in 56 of the ASC's 57 jurisdictions.

DATES: This action is effective on June 28, 1991.

ADDRESSES: Copies of this notice are available upon request to the Appraisal Subcommittee, Federal Financial Institutions Examination Council, 1776 G Street, NW., suite 850B, Washington, DC 20006.

FOR FURTHER INFORMATION CONTACT: Edwin W. Baker, Executive Director, or Marc L. Weinberg, General Counsel to the Appraisal Subcommittee, at the address given above; telephone (202) 357–0133.

SUPPLEMENTARY INFORMATION: Title XI of FIRREA provides for the adoption and implementation by the various States of standards and procedures for the certification and licensing of appraisers. The ASC is required to monitor these State appraiser certification and licensing programs. Federally regulated depository institutions are to use these appraisers in federally related real estate transactions. However, the ASC is authorized in section 1119(a)(2) (12 U.S.C. 3346(a)(2)) to extend from July 1, 1991, to December 31, 1991, the effective date for using certified or licensed appraisers in connection with federally related transactions. That authority is premised upon "a written finding that a State has made substantial progress in establishing a State certification and licensing system that appears to conform to the provisions of this title."

Since enactment of FIRREA, the ASC has closely monitored the development of appraiser qualification standards in the various States and other jurisdictions subject to title XI. This effort has included the careful review of State legislative and regulatory proposals designed to implement title XI's requirements, as well as the providing of comments, suggestions, guidance and direction in this regard, both general and specific, oral and written. On May 1, 1991, the ASC found that each State, the District of Columbia, Puerto Rico, Guam and the Virgin Islands qualified for the December 31, 1991 extension. See 56 FR 20002 (May 1, 1991). AS, CNMI and Palau did not qualify for an extension at that time.

The ASC hereby finds that AS and CNMI have made substantial progress toward establishing an appraiser certification and licensing system in conformity with title XI. Statutes have been or are being enacted as required by title XI.[2] The ASC commends these jurisdictions and encourages each to implement its system before the end of the extension period. Moreover, the ASC encourages lenders to use appraisers certified or licensed by these systems as soon as possible.

The ASC further finds that such an extension facilitates Congress's intention to implement title XI's new regulatory scheme with minimal disruption and confusion at the state and Federal levels. The ASC recognizes that less than two years have passed since title XI was adopted on August 9, 1989, and while the States and other jurisdictions have made significant progress, they have had relatively little time to create from scratch an appraiser licensing and certification system. Many tasks are involved in that effort, including an analysis and determination of title XI's requirements, proposing and adopting legislation, creating valid testing and qualification standards, establishing agencies to administer the various aspects of the regulatory program, and coordinating these and other tasks with the ASC, other Federal agencies and entities, and various industry groups. By extending title XI's effective date for use of certified and licensed appraisers in federally related transactions until December 31, 1991, the ASC fully anticipates that, on January 1, 1992, all aspects of a nationwide, comprehensive and uniform real estate appraiser regulatory system will be in place, as contemplated by Congress when it adopted title XI.

For these reasons, the ASC, with the approval of the FFIEC, hereby extends to December 31, 1991, the deadline for use of certified or licensed appraisers in federally related transactions, pursuant to its authority in section 1119(a)(2) of FIRREA (12 U.S.C. 3348(a)(2)), in AS and CNMI.[3]

By order of the ASC, with the approval of the FFIEC.

Dated at Washington, DC this 24th day of June, 1991.

Fred D. Finke,

Chairman, Appraisal Subcommittee, Federal Financial Institutions Examination Council.

[FR Doc. 91-15308 Filed 6-27-91; 8:45 am]

BILLING CODE 6210-01-M

[1] Public Law No. 101-73, 103 Stat. 811 (1989); 12 U.S.C. 3310, 3331-3351.

[2] The ASC requests that all States and other jurisdictions continue to facilitate the orderly implementation of the Title XI regulatory program by promptly forwarding to the ASC staff all pertinent proposed and enacted legislation and rules and regulations.

[3] The ASC still has not received any formal communications from Palau. Therefore, the ASC at this time has no basis to extend the effective date from July 1, 1991, for Palau.

FEDERAL RESERVE SYSTEM

Edgemark Financial Corporation; Notice of Application to Engage de novo in Permissible Nonbanking Activities

The company listed in this notice has filed an application under § 225.23(a)(1) of the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo*, either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than July 17, 1991.

A. Federal Reserve Bank of Chicago (David S. Epstein, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. Edgemark Financial Corporation, Chicago, Illinois; to engage *de novo* through its subsidiary, Edgemark Mortgage Corporation, Downers Grove, Illinois, in originating, acquiring, selling and servicing residential mortgage loans pursuant to § 225.25(b)(1)(iii) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, June 24, 1991.

Jennifer J. Johnson,

Associate Secretary of the Board.

BILLING CODE 6210-01-F

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Assistant Secretary for Planning and Evaluation

Community-based Service Integration Projects: Announcement of the Availability of Funds and Request for Proposals

AGENCY: Office of the Assistant Secretary for Planning and Evaluation, DHHS.

ACTION: Announcement of the availability of funds and request for proposals to establish a Resource Center for Community-based Service Integration Efforts and to facilitate local community projects.

SUMMARY: Research and program administration experience strongly indicate that the needs of individuals and families living in poverty or facing demands for long-term support are complex and often pervasive. Families with family members at-risk most often have interconnected and interdependent residential, medical, educational, nutritional, emotional, social and recreational service needs, and progress on one or more of these fronts is often seriously compromised or blocked outright by the inability of such families to gain access to all of the needed services in a coordinated and continuous fashion.

States and localities are struggling with approaches to integrate health and human services for low-income families as a means of improving the access to and effectiveness of these needed services. This grant announcement announces the availability of funds to support (1) a National Service Integration Resource Center, and (2) planning grants to three to six facilitators who are currently working with clusters of urban or rural communities who have already made a commitment to undertaking systemic change to improve access to a wide array of services to address the increasingly multiple needs of young children and their families living in poverty. These efforts are intended to assist states and localities in their service integration efforts.

Pursuant to section 1110 of the Social Security Act (as specifically authorized by the United States Congress), the Assistant Secretary for Planning and Evaluation is seeking applications to conduct two separate, but related, pieces of work as described in part II. and III. of this announcement. Applicants may apply for one or both grants (see part IV. Application Procedures). Applications will be accepted from public organizations (including institutions of higher education); from private non-profit organizations; and from for-profit organizations.

This publication combines these two grant announcements for administrative purposes; however, applicants should understand that the funding, period of performance, and evaluation criteria differ between the two projects (see parts II. and III.). Potential applicants may apply for one or both grants as described in parts II. and III.

DATES: The closing date for submittal of applications under this announcement is August 19, 1991.

FOR APPLICATION KITS OR FURTHER INFORMATION CONTACT: Grants Officer, DHHS/ASPE, Hubert H. Humphrey Bldg., room 426F, 200 Independence Ave., SW., Washington, DC 20201, (202) 245-1794.

SUPPLEMENTARY INFORMATION:

Part I. Background

A. Current Problems in the Planning and Delivery of Services

Research and program administration experience strongly indicate that the needs of individuals and families living in poverty or facing demands for long-term support are complex and often pervasive. Families with family members at-risk most often have interconnected and interdependent residential, medical, educational, nutritional, emotional, social and recreational service needs, and progress on one or more of these fronts is often seriously compromised or blocked outright by the inability of such families to gain access to all of the needed services in a coordinated and continuous fashion.

Federal agencies currently administer several hundred categorical programs that provide benefits and/or services to individuals and families. The long-terms goals underlying most of these programs seek to maximize the opportunities and choices realistically available to participating individuals and families in three major areas: (1) Personal autonomy and independence, (2) social integration, participation and interdependence, and (3) economic productivity and self-sufficiency. Viewed as a whole, the day-to-day operation of Federal categorical programs reveals several types of service integration problems which have adverse effects on large numbers of individuals and families seeking access to needed services:

(1) Individuals and families are unable to access needed services and benefits which are, in fact, available within the community because of the *absence of a single point of access at the community level* to the range of needed services.

(2) Often, usually as a result of the rigid categorical nature of programs and funding streams and of the failure to involve families directly in defining service needs and priorities, *families needs are not approached holistically* and a *family-centered service continuum is not created* within the community.

(3) Disjointed and uncoordinated service planning among community agencies and the impact of incompatible *program structures and procedures*, (e.g., geographic location, service hours, assumed literacy) are serious impediments to needed services and benefits, and fragmentation of roles within the helping professions.

(4) Individuals and families are influenced or discouraged from seeking needed services and benefits as a result of *conflicting goals, eligibility criteria and administrative procedures* both within and among programs.

(5) Disincentives inherent in the design of some categorical programs actively discourage or penalize efforts by individuals and families to assume personal responsibility, often through termination of needed services or benefits.

(6) Services and benefits needed by individual and families are delayed or inappropriately interrupted or terminated as a result of the fragmentation of agency responsibility for service planning and provision and the absence of a single point of "accountability" across the various systems.

(7) Information on successful strategies for helping individuals and families become and remain economically and socially self-sufficient is relatively undeveloped, has little theoretical basis, and is often based on weak evidence.

B. Service Integration Strategies

Service integration is a strategy for removing these barriers to effective service planning and delivery which combine to frustrate the opportunity of individuals and families to obtain effective support (in the form of employment, income support, medical insurance, services and volunteer assistance) to exercise choice and control in pursuing the maximum range of opportunities in each of these areas. As seen from the perspective of the individual or family, the current program structures are a complex web of agencies and professionals with specific roles and missions which must be navigated successfully if any help is to be obtained. Even sophisticated clients and experienced professionals may find it difficult to determine which agency has responsibility or the expertise to respond to a particular client's needs. Thus service integration seeks to create an environment that addresses the comprehensive needs of the client in a holistic way and addresses problems of improper sequencing of services, conflicting treatment goals and methodologies, conflicting eligibility requirements, etc.

From the perspective of agency administrators and political leaders, the development and use of service integration strategies offer the potential for more efficient and effective use of scarce resources, particularly when the Federal and/or State sources of funding

persons or problems. In addition, service integration strategies may also reduce duplicative administrative overhead and permit improvements in the ability of state and local jurisdictions to respond to the growing demands of political leaders for greater accountability and measurable outcomes.

A variety of attempts have been made to define operationally what is meant by service integration. The operational definition arrived at as the result of an earlier exhaustive study of the subject conducted by the Department is:

> Services integration refers primarily to ways of organizing the delivery of services to people at the local level. Services integration is not a new program to be superimposed * * * rather, it is a process aimed at developing an integrated framework * * * Its objectives must include such things as (a) the coordinated delivery of services for the greatest benefit to people; (b) a holistic approach to the individual and the family unit; (c) the provision of a comprehensive range of services locally; and (d) the rational allocation of resources at the local level so as to be responsive to local needs. (Secretary Elliot Richardson, June 1, 1971.)

Four years later, in undertaking a national survey of service integration projects, the Rand Corporation proposed a simpler definition:

> An innovative organizational effort to coordinate or consolidate human service activities at the local level in traditional agencies as a means of enhancing the effectiveness, efficiency, and/or continuity of comprehensive service delivery. (The 1975 Census of Local Services Integration, William Lucas, et al. December, 1975.)

There has been a long tradition of local institutional reform efforts within the field of health and human services which meet these definitions and many attempts to redesign the delivery of health and human services at the local level. The scope of these efforts range from major agency reorganizations and/or consolidations to community planning efforts sponsored by local United Way organizations or private foundations. Federally sponsored efforts to improve the delivery of health and human services through greater coordination and planning date back to the mid-1960s. The efforts of Department of Health and Human Services to promote services integration have their origin in the statement by Secretary Richardson in 1971 quoted above.

Between 1971 and 1975 some 35 demonstration projects and 10 technical studies were funded under the title Services Integration Targets of Opportunity (SITO). The projects had a very wide range of goals and outcomes and were independent free-standing efforts. Between 1974 and 1977 the Department funded some 78 demonstration projects under the title of Partnership Grants Program. This program of short-term discretionary grants was intended to improve the capacity of state and local governments to plan and manage their social service programs. In addition, at this time five local governments were funded to develop their own "Comprehensive Human Service Planning and Delivery

VOL 56 ISS 125 JE 28 1991 UMI

System' that was focused both on improving services to clients and on improving accountability and rational allocation of resources mechanisms. In 1985 grants were made for Service Integration Pilot Projects (SIPP) in five states. A varity of service programs, populations, and levels of effort were represented in the projects.

C. Context of This Effort

Most recently in 1990, President Bush created the White House Economic Empowerment Task Force which, in turn, established a Service Integration Work Group. In contrast with early efforts aimed at service integration which were focused almost exclusively at the administrative process (e.g., improved government administration), current efforts reflect a new and important focus on both the outcome of service integration activities (e.g., employment, improved learning, better health) and on the dynamic, personal involvement of clients and beneficiaries in the process, itself. From the standpoint of this group, both the process and the outcomes of service integration activities should serve to increase "choice and control" by individuals and families over an expanded range of economic and social opportunities.

This new emphasis on personal responsibility and choice necessarily redirects the emphasis of service integration from caretaking to enabling. In practice, this change of emphasis requires increased attention within the service integration context to (1) the presence of a wide array of social and economic opportunities within the community, (2) support of an active and competitive market of services within the local community to assist individuals pursuing such opportunities, (3) the availability of complete and accurate information concerning both opportunities and related services within the community, and (4) access to sufficient, resources, both human and financial, for basic support and to choose (purchase) services needed to pursue opportunities. In sum, individuals and families must be able to obtain the knowledge, resources, and realistic options necessary to attain personal autonomy, social integration, and economic self-sufficiency without the need for the direct and ongoing intervention of government.

In recognition of the increasing problems families face and of the importance of supporting families, the Secretary of DHHS has identified many goals for HHS, including:

- Strengthening the family,
- Improving access to cost-effective health and human services for all Americans,
- Maximizing the opportunity for every American to participate fully in the national economy and the social mainstream.
- Making communities places where children can learn.

Based on these and other goals, the Secretary has delineated nine program directions to focus current and future policy and program development. Three of the Program Directions directly relevant to this announcement are:

Program Direction #5: Improve access of youth living in low-income families to needed support services, including employment training other transition to work services and adolescent pregnancy-related services;

Program Direction #8: Improve the integration, coordination, and continuity of various HHS-funded services potentially available to families currently living in poverty; and

Program Direction #8: Improve the access of young children and their families living in poverty to a wide array of developmental, support services and income assistance, including nutrition, foster care, health, mental health, social and child protective services.

This grant announcement supports the Secretary's goals and Program Directions, as it is aimed at assisting states and localities in their service integration efforts.

D. Current Developments

There is widespread dissatisfaction with the current fragmentation of services. As a result, efforts are underway in many communities to overcome the barriers to providing effective and accessible services. There are many different configurations of services operated under a variety of financial, organizational and political sponsorships. For example, we are aware of social and health services being organized around elementary schools, public housing projects, community health centers, and family resource centers. These are not usually systematic efforts built upon an idealized model of a delivery system, but rather creative and pragmatic responses to the needs of families and children within the constraints of the local community's resources. The purpose of these grants is to support and encourage these local efforts and thereby promote eventual changes in the systems themselves.

Part II. Resource Center for Community-Based Service Integration

A. Purposes

The Resource Center is intended to facilitate the collection and dissemination of information on attempts by Federal, State, and local organizations to redesign and integrate the delivery of a variety of health and human services, to advance the state of knowledge regarding service integration, and to facilitate the development of local initiatives for systemic change by providing technical assistance and linkages to others involved in similar efforts.

B. Core Functions

The Resource Center must carry out the following major functions: (1) Summarize and contribute to the state of knowledge by reviewing past efforts and synthesizing the lessons which have been learned, (2) provide accurate, practical, and timely information by acting as a clearinghouse for information about past, current, and planned community efforts directed at creating integrated health and human services delivery systems, (3) provide technical assistance in the development and operation of integrated service delivery systems, and (4) foster the development of local service integration efforts by periodically convening and assisting with the formation of a network of leaders and advocates of systemic change in the delivery of services at the local level.

C. Contents of the Program Narrative

In order to successfully compete for this grant, the applicant will describe how each of the following areas will be accomplished over the period of performance.

1. Development and Operation of Clearinghouse

a. Describe the methods that will be used to collect, catalog, and store documentation and other information about existing and past service integration projects so as to be retrievable. (Note that the documentation that is collected will become the property of the Government. In the event of the cancellation of this grant award or transfer of this function to another entity, the disposition of these documents shall be at the discretion of the Government.)

b. Describe how the Resource Center will have the capability of identifying, reviewing, and making other relevant information available without duplicating the work of other organizations by obtaining access privileges/rights to these resources.

c. Describe the capacity of the proposed Resource Center to undertake critical analyses of the results of previous attempts to integrate the delivery of services to discover what has been learned and to propose more effective strategies for meeting the needs of the client which can be systematically tested.

d. Describe how these documentary materials will be made available to researchers and other interested parties both through on-site examination and distribution of photocopies.

e. Describe how information about on-going and new projects and other relevant studies will be disseminated to interested parties by a variety of means, e.g., publication of a newsletter or other printed materials, participation in meetings and conferences, maintenance of a dial-in bulletin board, etc.

2. Provision of Technical Assistance

a. Describe the experience and qualifications of staff in the following core service and related program areas: public education and comprehensive schools, family dysfunction and public child welfare services, school readiness and child development and child health services, job training and employment. Knowledge and experience with other relevant systems (e.g., public housing, transition from school to work, employment, mental health, juvenile justice) and with specific populations (e.g., children and youth at-risk, individuals with disabilities) is highly desirable and will be credited.

b. Describe how the applicant will be able to offer and provide technical assistance in such areas as the preparation of funding proposals, the design of information systems, the structuring of public accounting systems to provide a service with multiple funding sources, the design of formal evaluation studies, the provision of staff training, the preparation of any legal documents, e.g., articles of incorporation, interagency agreements, etc., and any other technical skill that the applicant might expect would be requested.

c. Describe how the applicant intends to advertise the availability of technical assistance under this grant, initially respond to requests, come to an agreement about the nature, scope, and level of effort with client agencies and/or communities, and evaluate progress in satisfying the client's needs and in achieving the goal of the Resource Center.

e. Describe how the Resource Center's technical assistance resource will be coordinated with the activities of the facilitators described in Part III of this announcement.

3. Project Management

a. If appropriate, identify and provide a schedule for the execution of contracts and any other agreements necessary to carry out the activities of the Resource Center.

b. Describe how the Resource Center will plan, organize and conduct a required annual meeting of persons engaged in the development and operation of service integration projects at the state or local level.

c. Clearly describe the organizational structure of the proposed Resource Center, i.e., whether it is to be a single organization or a consortium. If a consortium arrangement is proposed, describe the legal, fiscal and organizational relationships to be established among the consortium members. Also, clearly demonstrate how the applicants will exercise leadership for the entire Resource Center.

d. Identify any advisory groups planned to assist the Resource Center's work and describe how such advisory groups will relate to the management of the Center.

e. Describe how the Resource Center will develop and submit required quarterly and annual progress reports, updated annual work plans and budgets, and a final project report which evaluates the outcome of the Center's efforts to promote changes in the way that health and human services are provided by supporting legal service integration efforts.

D. Evaluation Criteria.

Reviewers will determine the strengths and weaknesses of each application in terms of the evaluation criteria listed below, provide comments and assign numerical scores. The point value following each criterion heading indicates the maximum numerical weight that each section will be given in the review process.

1. Undertanding of the Effort

The application discusses in detail the applicant's understanding of the need for the project, the background and current status of service integration efforts. The application also shows an understanding of the complexity and difficulty of undertaking collaborative efforts between systems. The application relates the project to the goals and objectives described in the first section of this announcement. (15 points)

2. Project Approach

The application outlines a sound and workable plan of action pertaining to the scope of the project and explains how the proposed tasks will be accomplished; cites factors which might accelerate or decelerate the work, giving acceptable reasons for taking this approach as opposed to others; describes and supports any unusual features of the project, such as design or technological innovations, reductions in cost of time, or extraordinary community, volunteer or private sector involvement; and provides for projections of the accomplishments to be achieved. It lists the activities to be carried out in chronological order, showing a reasonable schedule of accomplishments and target dates.

To the extent applicable, the application identifies the kinds of data to be collected and/or maintained, and discusses the criteria to be used to evaluate the results and successes of the project. It describes the evaluation methodology that will be used to determine if the needs identified and discussed are being met and if the results and benefits identified are being achieved. The application also lists each organization, agency, consultant, or other key individuals or groups who will work on the project, along with a description of the activities and nature of their effort or contribution. (40 points)

3. Staffing Utilization, Staff Background and Experience

The application identifies the background of the principal project staff members. The name, address, training, educational background, and other qualifying experience are provided for the project director and the key project staff. The applicant provides assurance that the proposed staff will be available to wrok on the project effort upon award of the grant. The principal author of the application is identified and that person's rôle in the project is identified. (30 points)

4. Organizational Experience

The application identifies the qualifying experience of the organization (or group of organizations) to demanstrate the applicant's ability to effectively and efficiently administer this project. The relationship between this project and other work planned, anticipated, or underway by the applicant is described, including a chart which lists all related Federal assistance received within the last five years. The previous Federal assistance is identified by project number, Federal agency, and grants or contracting officer. (15 points)

VOL
56
ISS
125
JE
28
1991
UMI

E. Available Funding and Project Duration

DHHS intends to award one grant for a Resource Center in an amount not to exceed $325,000 the first year and $650,000 in each of the succeeding years, subject to a determintion by DHHS that there is continuing need for these activities. We anticipate that the Resource Center will be funded for a total of five years. However, the application should be developed to show the planned activities and accomplishments for a project period of 36 months under this announcement. After the third year, this grant may be extended on a year-to-year basis for an additional two years subject to satisfactory performance, and availability of funds, and an approved revised workplan.

Part III. Facilitation of Community-Based Service Integration Planning

A. Purposes

To promote service integration by facilitating the efforts of urban and rural communities who have already made a commitment to undertaking systemic changes to improve access to a wide array of services to address the increasingly multiple needs of young children and their families living in poverty. Accordingly DHHS intends to award two to five grants with "facilitators" to work with proposed clusters of 3–7 urban communities, and one grant with a facilitator to work with a proposed cluster of 3–7 rural communities who are committed to systems changes to meet the needs of children, youth, and their families through the integration of services.

A major goal of this effort is to provide localities with a framework, via the facilitators, to support their service integration efforts through coordinated community-based planning, providing or arranging for technical assistance, expediting any technology sharing, and convening periodic local meetings at each site. In this way, it is intended that the localities will adopt a proactive planning strategy that will enhance their likelihood of success in restructuring children and families services in the targeted site. Because localities are best suited to determine what their community needs to do to improve service delivery to families, an additional goal of this project is to allow facilitators flexibility in executing the required tasks in order to ensure that service integration approaches are locally-designed and implemented. Applicants should reflect an understanding of these goals and objectives in the proposal.

B. Definitions

1. *Facilitator.* An individual, group of individuals, or organization (including public, private non-profit, and for-profit organizations) who performs the core functions and activities described in section C. and section D.3.b.

2. *Urban Site.* A proposed target area—such as a neighborhood, school district, school, housing project, etc.—located in an urban area as defined by the Bureau of the Census.

3. *Rural Site.* A proposed target area—such as a neighborhood, school district, school, housing project, etc.—located in a rural area as defined by the Bureau of the Census.

C. Core Functions

The grantee will act as a promoter of service integration principles, a facilitator of community-based planning, an expediter of technology sharing, a broker of technical assistance, a convener of periodic meetings at each site, and one who documents this entire process.

D. Contents of Program Narrative

Although not mandatory, it is strongly recommended that applications be prepared with the format indicated by this outline. To be considered complete, the applicant should ensure that the following information is included in the application:

1. Describe the 3–7 sites to be included in the proposed cluster, documenting each site's:

a. Commitment to working toward systemic change of the delivery of children, youth, and family services (include a mission statement developed by members of the community);

b. Concentration of poverty;

c. Identified geographic area and/or population to target for specified services;

d. Current service integration efforts to serve families with children and youth with multiple needs;

e. Capability and desire to coordinate and integrate—at a minimum—the public education, public child welfare services, and health services. Efforts to integrate other relevant systems, e.g., public housing, employment, mental health, juvenile justice, are highly desirable and will be credited.

f. Provision of letters of commitment—detailing the kinds of commitment that each organization is making—from individuals, organizations, and agencies serving families in the targeted site from the public, private, and voluntary sectors of the community to work toward the stated goals; and

g. Comparability with other sites in the cluster.

2. In order to successfully compete for this grant, the applicant should describe how each of the following activities will be accomplished over the period of performance.

a. Facilitate community-based planning. Describe the composition of the community-based coalition of organizations committed to health and human service systems change; identify the roles and responsibilities of each organization in working toward the project goals. Describe how applicant will assist these organizations and individuals in the following planning activities:

i. Creating a vision for the site and its citizens;

ii. Clearly defining the objectives of the site's service integration efforts;

iii. Selecting a target population or geographic area in which to begin the service integration efforts;

iv. Assessing the problems faced and strengths possessed by the target population;

v. Specifying the client outcomes that the sites are striving to achieve for their target families;

vi. Identifying the service needs in order to achieve these client outcomes;

vii. Identifying existing mechanisms used, and problems in, delivering these services (including resource limitations, statutory and regulatory barriers; financing problems brought about by categorical funding, turf battles, professional and/or philosophical differences among human service staff, etc);

viii. Recommending creative alternative solutions;

ix. Developing a plan for implementing selected alternative strategies,

x. Building an accountability system, including developing indicators and measures, to ensure that needed services are provided and client outcomes are achieved, and

xi. Developing a plan for the continuation of the community coalition and system restructuring beyond the project period.

b. *Literature review.* Describe how applicant will review existing information on problems faced by localities attempting to restructure and integrate health and human services for children, youth, and families; current efforts to surmount these problems; and levels of success to date.

c. *Technical assistance and evaluation plan.* Describe how, based on the literature review, applicant will plan to provide technical assistance to sites to facilitate their restructuring of their health and human service systems. Describe how applicant plans to evaluate the success of his efforts.

d. *Expedite technology sharing.* Describe how applicant will act as a broker for technology transfer, that is, how applicant will facilitate the planned, systematic process by which technologies (such as innovative tools, procedures, concepts, and practices), developed by one organization or site, are adapted and implemented by another organization or site.

e. *Provide or arrange for technical assistance in the development and operation of sites' service integration activities.* Describe how applicant will link the sites to needed technical assistance. Describe mechanisms for providing sites with periodic updates and information in a proactive manner. Applicants should describe how they plan to coordinate their technical assistance efforts with those of the Resource Center described in part II. of this announcement and how the materials developed in working with sites will be systematically provided to the Resource Center.

f. *Convene one meeting with the Resource Center staff.* Describe how applicant will organize and convene a meeting between two representatives from each site and Resource Center staff. Discuss what information will be provided to sites relevant to the effective implementation of their service integration plan. Describe what (if any) and how technical assistance may be provided at this meeting.

g. *Convene at least two local meetings at each site.* Describe how applicant will provide a forum for exchange of information relevant to the effective implementation of the site's service integration plan. Describe what (if any) and how technical assistance may be provided at these meetings.

h. Prepare quarterly reports on the status of planning for and implementing of the sites' service integration strategies.

i. *Prepare a final detailed report* on all aspects of the development, implementation, and evaluation of the project which includes at least the information listed below:

i. Process information, including: (a) A description of the health and human service delivery system for children, youth, and families, prior to this project, gaps in the existing system, and changes that occurred following implementation of the planned strategy;

(b) A description of sites' service integration goals and objectives, and plans for achieving these;

(c) A description of implementation problems and (Federal, state, local, procedural) and barriers identified by sites to achieving these goals and proposed solutions;

(d) A summary status of the sites' accomplishments to date and lessons learned upon completion of the project period,

(e) A description of the technical assistance efforts in the sites prior to this project, gaps in the existing system, the types of TA requested by sites, and the changes that resulted as a consequence of the facilitator's activities;

(f) A description of the plan and funding strategy for how the sites will continue to support the systems change upon the completion of the project period.

ii. The current status of each site's efforts. Provide for the production of a final status report, which provides a practial description of the projects undertaken at each site in the cluster, including:

(a) The model or approach implemented;

(b) The clients served, among those needing services;

(c) The operation of the integrated system, including methods of coordinating and scheduling service delivery and accountability;

(d) The financing of the system; and

(e) The presentation of any available client-outcome data.

iii. Proposed next steps and future technical assistance needs. Synthesize findings from all sites' activities and highlight key factors that appear necessary to improving family outcomes via integrated health and human service systems. Propose useful next steps in the area of supporting localities' service integration efforts at the local, state, and Federal levels, including the roles of both the public and private sectors. Identify useful forms of technical assistance requested and used by sites, as well as types of technical assistance not readily available and needing development. Propose strategies for on-going effective coordination with the Resource Center.

E. Evaluation Criteria

The evaluation criteria correspond to the outline in the Content of Program Narrative section (D) of the application.

1. Understanding of the Effort (10 points)

The application discusses in detail the applicant's understanding of the need for the project, the background and evolution of the need to coordinate human services delivery, and the current activities being undertaken—beyond the proposed sites' activities—that demonstrate the pervasiveness and universality of issues being addressed by service integration efforts.

2. Overall Project Aproach (40 points)

a. Site selection (20 points). The applicant proposes a cluster (3–7) of either urban or rural sites who meet the criteria listed in section D.1.

b. Approach (20 points). The applicant proposes a plan for how s/he intends to conduct the activities described in section D.2.

3. Staff Background, Experience, and Proposed Utilization (25 points)

The application identifies the background, qualifications, and experience of the facilitator and any proposed principal project staff members. Staff have experience and qualifications in health and human services delivery related to: public education, public child welfare services, and health services. Staff have additional knowledge and experience with other relevant systems, e.g., public housing employment, mental health, juvenile justice, etc. The facilitator working directly with sties has experience in community leadership and problem-resolution at the community level. The applicant provides assurance that the proposed staff will be available to work on the project effort upon award of the grant. The principal author of the application is identified and that person's rule in the project is identified.

4. Management Capacity (25 points)

The application demonstrates the adequacy of the management plan, including:

- Overall management of the project and procedures for quality control and review;
- Work schedules for activities, timetables for deliverables;
- Personpower loading by activity which lists the person hours for each staff member;
- Evidence of ability to have sufficient staff available to accomplish the work, including letters of commitment from consultants, if utilized and the percent time for each person on the project;
- A matrix of skills for staff and consultants.

The application specifically identifies the applicant as one who has a record of assisting urban and/or rural communities with their service integration efforts. The relationship between this project and other work planned, anticipated, or underway by the applicant is described, including a

VOL 56 ISS 125 JE 28 1991 UMI

chart which lists all related Federal, state, and local assistance received within the last five years. The previous Federal assistance is identified by project number, Federal agency, and grants or contracting officer.

F. Availability of Funds

DHHS intends to award two to five grants with "facilitators" to work with proposed clusters of 3–7 urban communities, and one grant with a facilitator to work with a proposed cluster of 3–7 rural communities who are committed to systems changes to meet the needs of children, youth, and their families through the integration of services. DHHS anticipates awarding approximately $625,000 in FY 1991 with an additional $625,000 to the same facilitators and sites for continuing activities into FY 1992, subject to DHHS's determination of satisfactory performance and of a continued need for this effort, and to the availability of funds. The size of the awards will vary depending on the level of effort proposed for meeting the technical assistance needs of the sites, however no award will exceed $200,000 per year without special justification.

G. Effective Date and Duration of Project

We anticipate that these facilitators will be funded for at least 24 months. After the second year, this grant may be extended for an additional 12 months (for a total of three years) subject to satisfactory performance of and a determination of a continued need for this effort, and the availability of funds. No additional competition will be required. However, the application should be developed to show the planned activities and accomplishments for a project period of 24 months under this announcement.

Part IV. Information on Completing an Application

A. Application Preparation

This part contains information on the preparation of an application under this announcement. Applicants are advised to read and follow this section very carefully. Applications which do not meet certain requirements of timeliness or completeness will not be considered or reviewed in the competition, and the applicant will be so informed. These requirements are to assure fair consideration for all applicants. A failure to respond to other suggestions listed here, while not required, may result in a competitive disadvantage when compared to other applications.

1. Application Requirements

Three copies of an application shall be submitted. One of the copies shall contain an original signature (preferably in blue ink) in block 18(d) of SF 424 and on the other certification forms. In addition, applications must be timely and complete as described in sections C and D below in order to be considered for the independent competitive review required by chapter 1–62 of the DHHS Grants Administration Manual.

2. Funding Information

Applicants may apply for one or both grants as described in parts II. and III. Applicants should refer to the information provided in part II. and/or part III regarding the amount of funds available and the duration of the grants. Applicants should clearly state in the opening paragraph of their application narrative which part(s) of this announcement they are applying for.

DHHS reserves the right to award the entire effort to one organization or to separate the effort into multiple projects depending on the scope and quality of the submissions. It is the intent of DHHS to make sufficient awards as to accomplish the entire scope of effort described in this announcement, if submissions of sufficient scope and quality are received to permit it. However nothing in this application should be construed so as to obligate the Assistant Secretary for Planning and Evaluation or the Department to make any award.

3. Budget

Budgets for individual projects (clusters) under section III should not exceed $200,000 per year. Describe how project funds will be expended. Include a line item for participation in at least 2 cluster group meetings over the project period to exchange information about the status of and lessons learned from their efforts. Propose a location of mutual convenience to all sites. Include a line item for at least one meeting with the Resource Center staff for the principal facilitator and for two people per site. If applicant is applying for both part II and part III grants, indicate in the budget where there may be cost-savings from conducting both activities simultaneously. Provide assurance that these grant funds will not be used for service provision.

4. Program Narrative

The Program Narrative is the most important part of the application. It should be clear, concise, and pertinent to the functions, activities, and issues of the area for which the application is being submitted. There is no specific limit on for the length of the application. However, applications that are verbose or contain superfluous material will be viewed as lacking a clarity of purpose and design and likely to result in an inefficient approach.

The outline of the application narrative should follow the evaluation criteria listed in part II or part III. The application should include: (1) A management plan, which sets forth how the project will be managed and who will be the key personnel involved, including an organization chart and other diagrams which will display the management information provided in the text; and (2) a financial plan, which specifically displays and explains the details and assumptions behind the estimated costs shown in the budget information shown on the application form (SF 424).

The narrative should be typed on one side of standard-sized (8½" x 11") plain white paper with 1" margins on all sides. All pages of the program narrative (including charts and diagrams) should be sequentially numbered. In order to facilitate handling, please do not include extraneous material such as promotional brochures, slides, tapes, film clips, etc. It is not feasible to use such items in the review process, and they will be discarded if included.

5. State Single Point of Contact (E.O. No. 12372)

The Department of Health and Human Services has determined that this program is not subject to Executive Order No. 12372, Intergovernmental Review of Federal Programs, because it is a program that is national in scope and does not directly affect State and local governments. Applicants are not required to seek intergovernmental review of their applications within the constraints of E.O. No. 12372.

B. Review Process

All applications that are submitted by the deadline date will be screened to ensure completeness. Applications that are incomplete will not be reviewed. Applications that pass the initial screening will be reviewed and scored competitively using the evaluation criteria listed in sections II and III to score the applications. DHHS reserves the option to discuss applications with other Federal agencies, Central or Regional Office staff, specialists, experts, States and the general public. Comments from these sources, along with those of ASPE staff, will be considered in making funding decisions.

C. Components of a Complete Application

A complete application, responding either to the Resource Center announcement in part II. or the facilitator announcement in part III., consists of the following items in this order:

1. Application for Federal Assistance (Standard Form 424, REV 4–88);
2. Budget Information—Non-construction Programs (Standard Form 424A, REV 4–88);
3. Assurances—Non-construction Programs (Standard Form 424B, REV 4–88);
4. Table of Contents;
5. Budget justification for Section B-Budget Categories;
6. Proof of non-profit status, if appropriate;
7. Copy of the applicant's approved indirect cost rate agreement, if necessary;
8. Project Narrative Statement, organized in four sections addressing the following areas:
   (a) Understanding of the effort,
   (b) Project approach,
   (c) Staffing utilization, staff background, and experience
   (d) Organizational experience;
9. Any appendices/attachments;
10. Ceritification Regarding Drug-Free Workplace;
11. Certification Regarding Debarment, Suspension and Other Responsibility Matters; and
12. Certification and, if necessary, Disclosure Regarding Lobbying.
13. Supplement to key personnel;
14. Checklist.

D. Deadline for Submittal of Applications

The closing date for submittal of applications under this announcement is August 19, 1991.

Applications must be mailed with a post mark by midnight, or hand-delivered no later than 5 p.m. on August 19, 1991 to: Grants Officer, DHHS/ASPE, Hubert H. Humphrey Bldg., room 415F, 200 Independence Ave., SW., Washington, DC, 20201.

Hand-delivered applications will be accepted Monday through Friday prior to and on August 19, 1991 during the working hours of 9 a.m. to 5 p.m. in the lobby of the Hubert H. Humphrey Building located at 200 Independence Avenue, SW., in Washington, DC. When hand-delivering an application, call (202) 245–1794 from the lobby for pick up. A staff person will be available to receive applications.

An application will be considered as meeting the deadline if it is either: (1) Received at, or hand-delivered to, the mailing address on or before August 19, 1991, or (2) Postmarked before midnight of the deadline date, August 18, 1991 and received in time to be considered during the competitive review process (within two weeks of the deadline date).

When mailing application packages, applicants are strongly advised to obtain a legibly dated receipt from a commercial carrier (such as UPS, Federal Express, etc.) or from the U.S. Postal Service as proof of mailing by the deadline date. If there is a question as to when an application was mailed, applicants will be asked to provide proof of mailing by the deadline date. When proof is not provided, an application will not be considered for funding. Private metered postmarks are not acceptable as proof of timely mailing.

Applications which do not meet the August 19, 1991 deadline are considered late applications and will not be considered or reviewed in the current competition. DHHS will send a letter to this effect to each late applicant.

DHHS reserves the right to extend the deadline for all applications due to acts of God, such as floods, hurricanes or earthquakes; due to acts of war; if there is widespread disruption of the mail; or if DHHS determines a deadline extension to be in the best interest of the Government. However, DHHS will not waive or extend the deadline for any applicant unless the deadline is waived or extended for all applicants.

Dated: June 24, 1991.

Martin H. Gerry,

Assistant Secretary for Planning and Evaluation.

[FR Doc. 91–15424 Filed 6–27–91; 8:45 am]

BILLING CODE 4150–04–M

Administration on Aging

[Program Announcement No. AOA–91–3]

Fiscal Year 1991 Program Announcement; Availability of Funds and Request for Applications

AGENCY: Administration on Aging, HHS.

ACTION: Announcement of availability of funds and request for applications under the Administration on Aging's Discretionary Funds Program for research, demonstration, training, development, and related capacity-building project activities in support of the National Eldercare Campaign for older persons at risk.

SUMMARY: The Administration on Aging (AoA) announces its Discretionary Funds Program (DFP) for Fiscal Year 1991. This year the DFP is designed to strengthen knowledge building, program innovation and development, information dissemination, training, technical assistance, and other capacity-building efforts focused on eldercare service systems for older Americans at risk of losing their independence. Funding for AoA discretionary grants is authorized by Title IV of the Older Americans Act, Public Law 89–73, as amended.

This program announcement consists of three parts. Part I provides background information, discusses the purpose of the AoA Discretionary Funds Program, and documents its statutory funding authority. Part II describes the programmatic priorities under which AoA is inviting applications to be considered for funding. Part III describes, in detail, the application process and provides guidance on how to prepare and submit an application.

All of the forms necessary to submit an application are published as part of this announcement following part III. No separate application kit is necessary for submitting an application. If you have a copy of this entire announcement, you have all the information and forms required to prepare and submit an application.

Grants will be made under this announcement subject to the availability of funds for the support of these activities.

DATES: The deadline for receipt of applications under this announcement is August 9, 1991.

ADDRESSES: Application receipt point: Department of Health and Human Services, Administration for Children and Families, Grants and Contracts Management Division, Acquisition and Assistance Management Branch, 200 Independence Avenue SW., room 341F.2., Washington, DC 20201, Attn: AoA–91–3.

FOR FURTHER INFORMATION CONTACT: Department of Health and Human Services, Administration on Aging, Office of Program Development, 330 Independence Avenue, SW., room 4061, Washington, DC 20201, telephone (202) 619–0441.

SUPPLEMENTARY INFORMATION:

Part I Background

A. Eldercare: Challenge for the 1990s and Beyond

Demographic trends highlight the growing numbers and importance of our older population, both now and in the future. By the year 2030, one of every four Americans, over 83 million persons, will be 60 years or older and

VOL
56
ISS
125
JE
28
1991
UMI

approximately 8 million of them will be age 85 or older. What has been called the graying of America has captured considerable media attention and given rise to widespread concern over future economic, political, and societal trends, especially when the baby-boom generation reaches age 60+ in the early decades of the 21st century.

It is vitally important that we, as a nation, focus on the need to build our capacity to respond to the dramatic increase in our older population today and into the next century. That challenge is heightened by the growing numbers of elderly who are at risk, including those who are physically or mentally impaired; abused, neglected, or exploited; or without a caregiver to assist them when in need. At special risk are those older people who are poor; particularly women, rural Americans, and members of minority groups. For these and other older Americans, the crucial consideration is to function independently at home and in the community as long as possible. Their greatest fear is that, if and when they begin to lose that independence, there will be no one and no place to turn to for help.

The term "eldercare" is gaining broad acceptance as defining the caregiving role our society must play on behalf of older persons. Within that context, the National Eldercare Campaign focuses on care provided to older persons at risk through home and community-based services. While most care is provided by family members, friends and neighbors, eldercare can also be made available through formal social and health support systems, religious organizations, fraternal groups, national organizations and corporate benefit programs established to assist employees in carrying out their caregiver roles for at-risk family members.

The Administration on Aging recognizes that much has and is being accomplished through both the informal and formal support systems to care for older persons at risk. Federal, State, and local governments, as well as the private and voluntary sectors, have made progress to expand eldercare services. However, many prominent organizations and individuals have not yet played a role in this effort. More can be done not only to bring nontraditional resources and approaches to bear on the problem, but also to reinforce our family and community-based systems of care.

B. The National Eldercare Campaign

The U.S. Commissioner on Aging, Joyce T. Berry, Ph.D., has recently announced the start of a National Eldercare Campaign—a nationwide, multi-year effort to mobilize resources for home and community-based care for older persons at risk of losing their self-sufficiency. The cornerstone of the campaign is a national public awareness strategy. It will be directed toward making all segments of society aware of the implications of an aging society and of the role public, private, and voluntary organizations can play in ensuring the availability and accessibility of home and community-based services for older persons at risk, now and in the future.

The commitment to helping at-risk older persons encompasses both informal and formal support systems, organizations and leaders in the aging constituency as well as organizations with a new-found consciousness of eldercare issues. The eldercare campaign will be aimed at expanding the involvement of a wide variety of agencies and organizations representing government, business, labor, the voluntary, religious, and civic communities. The Administration on Aging will encourage these organizations to: (1) Develop relevant eldercare activities at the national level related to their organization's concerns; and (2) encourage their State and local affiliates to participate in State and local eldercare coalitions aimed at building systems of quality eldercare services in every community.

Because the National Eldercare Campaign is focused on how older persons at risk are served in their homes and in their communities, action at the State and local levels is critical to the success of the Campaign. State and community eldercare coalitions, in which State and Area Agencies on Aging have a catalytic leadership role, will be called on to demonstrate that the public, private, and voluntary sectors can be mobilized around an eldercare agenda and cooperate effectively in providing home and community-based services for older persons at risk.

The Administration on Aging is in the process of awarding a number of grants and contracts in conjunction with the National Eldercare Campaign. In accordance with DHHS policy governing the use of contracts and grants, activities which provide direct benefits to the Administration on Aging will be supported through the contract mechanism. Other activities which promote more generally the goals of the National Eldercare Campaign will be supported by grants and cooperative agreements.

NATIONAL ELDERCARE INSTITUTES will be established and operated as another major commitment by the Administration on Aging to achieve the objectives of the National Eldercare Campaign. The Eldercare Institutes are designed to focus on critical substantive areas closely related to the delivery of eldercare services in the home and in the community. Their roles will be to serve as a knowledge base and program resource, to promote the effective transfer, dissemination, and utilization of relevant information, and to provide needed training and technical assistance. National Eldercare Institutes are planned in the following areas:

- Long Term Care
- Elder Abuse and State Ombudsman Services
- Older Women
- Multipurpose Senior Centers and Community Focal Points
- Transportation
- Housing and Supportive Services
- Nutrition Services
- Human Resources Development
- Health Promotion
- Income Security
- Employment and Volunteerism
- Business and Aging
- Coalition Building

The National Eldercare Institutes, their functions, and their activities, were the subject of an AoA program announcement which was published in the **Federal Register** on April 29, 1991. Copies of that program announcement may be obtained by contacting AoA at (202) 619-0441.

C. Coordination With Other Federal Agencies

Under the Older Americans Act, the Administration on Aging functions as a focal point within the Federal government for aging-related concerns. In that capacity, AoA advises the Secretary of Health and Human Services in matters affecting older Americans and provides consultation and information to other Federal agencies on the characteristics, circumstances, and needs of older persons. AoA's national level program and advocacy responsibilities place major emphasis on the development of collaborative relationships with other Federal agencies aimed at coordinating diverse and wide-ranging Federal program resources and linking those resources to the similarly diverse needs of older persons.

Dating back two decades, AoA has worked hard to develop and implement a network of Interagency Agreements with such relevant Federal departments and agencies as the Departments of Transportation, Housing and Urban Development, and Labor, the Social Security Administration, the Health Care Financing Administration, ACTION, and the National Institute on Aging.

Recent examples of AoA initiatives to improve coordination with other Federal efforts include: a Housing initiative with a Memorandum of Understanding (MOU) with the Farmers Home Administration (FmHA) of the Department of Agriculture, the focus of the MOU being to promote the well-being of older persons by providing a coordinated, integrated response to the housing and supportive service needs of older persons, particularly those programs serving the rural and low-income elderly; and an employment initiative with the Employment and Training Administration (ETA) to facilitate cooperation between the two agencies, to assist States and local communities in improving linkages between human service programs, and to achieve an integrated response to increasing employment and training opportunities for older persons.

During 1990 joint efforts included *AoA/ACTION* sponsorship and funding of a three-year program to demonstrate innovative approaches to gain private sector support for expanding the number of Senior Companions providing in-home services to homebound vulnerable older persons, and a multi-purpose *Transportation* initiative, which was designed to improve the coordination of transportation services funded under the Urban Mass Transportation Act of 1964, as amended, and the Older Americans Act which relate to older persons.

AoA has recently established a Federal Interdepartmental Task Force to better identify issues for policy and program coordination and to develop collaborative interdepartmental approaches in preparation for the changing and growing elderly population. The Task Force is comprised of representatives from the Department of Education, Department of Veterans Affairs, Department of Labor, Department of Housing and Urban Development, Department of Transportation, Department of Agriculture, Social Security Administration, Health Care Financing Administration, National Institute on Aging, Administration on Families and Children, Health Resources and Services Administration, and the Food and Drug Administration. The Task Force established four work groups to address the following areas: Housing, Employment/Volunteers, Health, and In-home and Community-Based Care Services. The work groups have convened meetings to identify and select issues of major concern in the designated subject area, prioritize issues, develop action plans and report recommendations to the Task Force.

These interagency collaborations, along with the National Eldercare Campaign, represent a strategic coupling of AoA's resources to serve the nation's elderly, especially those at risk of losing their independence. AoA's Federal Interagency Agreements cover a spectrum of program efforts—in housing, transportation, health promotion, elder abuse, etc.—that closely parallels the subject areas of the National Eldercare Institutes (which, as stated above, are the subject of a previously published program announcement) as well as a number of the priority areas in this announcement. In both subject matter and functional terms, discretionary projects will serve to complement and augment the gains achieved through interagency cooperation.

The discretionary projects to be funded under this announcement and the Institutes will also serve as a technical resource in enhancing AoA's ability to play a coordination role in such complex emerging areas as, for example, Federal implementation of the Americans with Disabilities Act (ADA), which will have wide ramifications for housing, transportation, employment, rehabilitative, and other services for the disabled elderly. ADA is expected to be a focus of attention and policy consideration during the next several years and several of the projects funded under this DFP could serve as a major resource to AoA in this area.

D. The AoA Discretionary Funds Program

This Fiscal Year 1991 Discretionary Funds Program (DFP) is another element of AoA's program commitment to the National Eldercare Campaign. The DFP is the focus of this announcement and is described in detail below.

The Discretionary Funds Program, as authorized by title IV of the Older Americans Act, constitutes the major research, demonstration, training, and development effort of the Administration on Aging. The title IV program is directed, generally, toward supporting advances in knowledge, developing innovative model programs and training personnel for service in the field of aging, and matching these resources to the changing needs of older persons and their families in the coming decades. AoA's research, demonstrations, training and other discretionary programs are also focused on current issues significant to the well-being of the older population.

With its dual emphasis on contemporary aging program issues and on preparing for a future aging society, the Title IV Discretionary Funds Program is well suited to support the National Eldercare Campaign. Eldercare for older persons at risk embodies a set of salient policy issues and societal concerns that will carry through the 1990's and well into the 21st century. Underlying these issues and concerns is the recognition by AoA and the nationwide aging network that we must develop and use our resources to (1) serve the current generation of older Americans more effectively and (2) achieve a long range capacity to respond to the dramatic increases in the older population projected for the coming decades. The AoA Discretionary Funds Program for FY 1991 is directed toward building that capacity, in the near and the long term, to better serve older Americans at risk of losing their independence.

E. Technical Assistance Workshops for Prospective Applicants

Workshops will be held in Washington, DC and several other cities to provide guidance and technical assistance to prospective applicants. Please call the appropriate AoA contact person for the time and location of the technical assistance workshop you are interested in attending.

City	AoA contact person
Washington, DC	Saadia Greenberg, (202) 619-0441.
Boston, Massachusetts	Acting AoA Regional Program Director, (617) 565-1168
New York, New York	Judith Rackmill, (212) 264-2976.
Philadelphia, Pennsylvania	Paul E. Ertel, Jr., (215) 596-8891.
Atlanta, Georgia	Franklin Nicholson, (404) 331-5900.
Chicago, Illinois	Eli Lipschultz, (312) 353-9503.
Dallas, Texas	John Diez, (214) 767-2971.
Kansas City, Missouri	William Weisert, (816) 426-2955.
Denver, Colorado	Elizabeth Clinton, (303) 844-2951.
San Francisco, California	Acting AoA Regional Program Director, (415) 556-6003.
Seattle, Washington	Chiaato Kawabori, (206) 553-5341.

F. Statutory Authority

The statutory authority under which grants and cooperative agreements will be awarded through the AoA Discretionary Funds Program is Title IV of the Older Americans Act, as amended [42 U.S.C. 3001 et seq.].

G. Public Comments on this Announcement

AoA invites comments on this Discretionary Funds Program Announcement. Please direct your comments to: Office of Program Development, Administration on Aging, 330 Independence Avenue, SW., Washington, DC 20201.

Part II—Priority Areas

The objectives of AoA's National Eldercare Campaign constitute the basic organizing framework for the FY 1991 Priority Areas included in this Discretionary Funds Program announcement. This part of the announcement provides general guidelines concerning eligible applicants as well as project costs and duration. More specific instructions regarding eligibility, costs, and duration may be found under the individual priority areas. For the convenience of prospective applicants, a listing of the FY 1991 priority areas is provided. Following the listing, each priority area is described in detail.

Applications are expected to be directly and explicitly responsive to the expressed concerns of the particular priority area under which they are submitted.

A. Eligible Applicants

As a general rule, any public or nonprofit agency, organization, or institution is eligible to apply under this Discretionary Funds Program announcement. Where there are exceptions to this rule, they are specified in the appropriate priority area description. Applications from individuals can not be considered because they are ineligible to receive a grant award under the provisions of title IV of the Older Americans Act. For-profit organizations are not eligible applicants, but they may participate as subgrantees or subcontractors to eligible public or nonprofit agencies.

Any nonprofit organization applying under this Program announcement that is not now a DHHS grantee should include with its application Internal Revenue Service or other legally recognized documentation of its nonprofit status. A nonprofit applicant can not be funded without proof of its status.

B. Project Costs and Duration

Under each priority area, AoA has estimated the number of projects to be funded and offered guidelines regarding both the duration of those projects and the anticipated Federal share of project costs. Because applications are reviewed on a competitive basis within priority areas, they are expected to be comparable in terms of cost and duration. Therefore, applicants are strongly urged to adhere to those guidelines.

C. List of Priority Areas

1. Building Public Awareness About Eldercare
2. Community Action and Coalition Building to Promote Eldercare for Older Persons At Risk
3. Human Resources Development for Quality Eldercare Services
   3.1 Promoting Academic Involvement in Eldercare
   3.2 Dissertation Program (Home and Community Based Care)
   3.3 Minority Management Training Program
   3.4 Improving the Supply of Paraprofessional Home Care Workers
4. Greater Advocacy by National Aging Organizations
5. Enhancement of Dissemination and Utilization of Information on Aging
6. National Academy on Aging

Priority Area Descriptions

1. Building Public Awareness About Eldercare (Non-Aging Organizations)

The Administration on Aging (AoA) announces the availability of funds aimed at stimulating organizations and associations, whose predominant focus is not aging, to involve their members/affiliates in concerted efforts to enhance public awareness about issues facing our increasingly aging society. The graying of our population is a concern of all segments of society—business, labor, professional organizations, religious and academic institutions, and the voluntary sector, among others. They can expect that an ever greater portion of their agenda will be concerned with the nation's older population.

Most older persons are resourceful, healthy and active. However, a significant segment of our elderly need some assistance to maintain their independence and may become increasingly vulnerable without the proper eldercare service systems.

Many aging-specific organizations have made significant inroads toward increasing public awareness of concerns relative to aging. It is our intent, however, through this solicitation to encourage national organizations and associations which have not had a predominant focus on aging to broaden their goals to include the promotion of awareness activities on behalf of older persons. Some of the areas in which greater awareness is needed include: (1) Demographic changes in American society; (2) the special needs of the at risk elderly; and (3) how individuals and organizations can assist in meeting those needs.

Applications are solicited from non-aging national organizations and associations to promote awareness among their membership as well as the general public of the need to take action now to prepare for an aging society. Such organizations and associations include, but are not limited to, business groups, labor unions, professional organizations, religious and academic institutions, and voluntary and civic associations. Greater attention must be given by all segments of society to the special needs of the vulnerable elderly; organizations funded will be promoting this goal as an activity of their organization and not as agents of AoA.

It is not the intention of AoA to specify the approach to be taken by the grantees. Examples (not requirements) of such activities might include: (1) The development and dissemination of printed or audio-visual materials both for their membership and the general public; (2) development and presentation of regional and national training both for the public and for the members of the organization or association; (3) special emphasis events at conventions and meetings; or (4) providing assistance to their local chapters or affiliates in developing local programming to make their communities more aware of the needs of older people and of how they can strengthen their services network. Of particular interest is the utilization of opportunities for organizations and associations to adopt or integrate eldercare into their ongoing agendas. Such opportunities are often presented through symposia, forums, workshops, regional and national conferences.

Where appropriate, AoA encourages applicants to promote a greater understanding of the issues associated with eldercare and develop innovative approaches to meeting the special needs of those older people at risk of loss of independence. Projects are expected to collect sufficient information on their operational activities to facilitate independent program evaluations.

Approximately ten (10) awards will be made to national associations—whose predominant focus is not on aging—which have affiliate members or chapters across the nation. Organizations must have a track record of effective dissemination and public awareness type activities. Applicants must demonstrate an institutional commitment toward establishing an agenda of action on behalf of the at risk elderly; provide information about how similar or related activities will continue following the grant award period. Grant awards of approximately $100,000 are available to successful applicants for project periods of approximately 17 months.

2. Community Action and Coalition Building to Promote Eldercare for Older Persons at Risk

Communities across the nation are currently confronted with the challenge of providing eldercare services for older persons at risk. In response to this challenge, and as a key component of the National Eldercare Campaign, the Administration on Aging has launched *Project CARE: Community Action to Reach the Elderly*. Project CARE is a nation-wide coalition building effort which combines the resources of AoA, State Agencies on Aging, Area Agencies on Aging, and other organizations committed to better meeting the needs of the vulnerable elderly. It is focused on grass-roots community action, on establishing Project CARE communities which will demonstrate that through coalition building, non-traditional approaches can and will work in providing home and community-based eldercare services for older persons at risk.

Under the funding support of a recently announced AoA Project CARE Eldercare Coalition Demonstration Program, State and Area Agencies on Aging will designate up to 150 communities which will take on a special leadership role in spearheading Project CARE. This priority area is designed to be a complementary part of Project Care. It seeks to further catalyze community action, in as many as 150 additional Project Care communities, aiming toward the building of new non-traditional coalitions to work on behalf of the at-risk elderly.

It is AoA's intent under this priority area to support coalitions in communities that are different from those communities which will be selected as part of the Eldercare Coalition Demonstration Program. To help ensure that these two programs elements of Project CARE are coordinated, State Agencies on Aging should be consulted regarding the communities selected for participation in the projects proposed for funding under this priority area. As noted below, for purposes of this priority area, applicant eligibility is limited to Area Agencies on Aging and those State Agencies on Aging with single Planning and Services Areas. (For convenience of expression only, unless otherwise noted, the Area Agency on Aging will typically be identified as the applicant organization).

Under this priority area, Area Agencies on Aging are encouraged to identify and utilize the talents of organizations (working under sub-contract to the Area Agency on Aging) which are skilled at community organizing and coalition building to assist communities in developing the leadership and plan of action necessary to meet the home and community-based service needs of increasing numbers of older persons at risk. The degree to which seniors will maintain their independence rests, in large part, with the effectiveness of our support systems at the community level. Available information makes it clear that many seniors do not receive the needed assistance from the traditional formal or informal caregiving systems. For example, many older persons following their discharge from a hospital, are in need of non-health related care to be fully able to recuperate in their own homes. Yet others have lost the ability to perform one or more of the activities of daily living which are the key to remaining independent in the home. It is critical and imperative, therefore, that we develop mechanisms, systems and procedures to assist these and other at-risk elderly.

State and Area Agencies on Aging, service providers, and senior centers have been in the forefront of helping older persons for over 25 years. The growing numbers of seniors in need of home and community based care warrant innovative approaches to complement the traditional supportive services provided through our ongoing programs. Nontraditional approaches are needed to provide services to older persons. To serve the elderly effectively, all segments of the community must join together to assess the specific needs of its seniors, examine what systems are in place; and develop a plan of action to assist the vulnerable elderly. This priority area is focused on stimulating community action on behalf of at-risk older persons through community organization and the building of broad-based coalitions to mobilize the resources of the community to develop and carry out action agendas.

Applications are solicited from, and awards will be made to, only those Area Agencies on Aging which identify, and propose to work through, a subcontractor community organization which can demonstrate to the Area Agency on Aging that it has: a capability for applying innovative approaches to community organization; a proven ability to effectively mobilize resources and services systems on behalf of a targeted population; and an appropriate understanding of the issues related to service provision on behalf of the elderly. The application must specify the community organization which will receive the subcontract and must describe the experience of that organization in community organization work.

Under the first phase of this grant, the community organization, using title IV funds, will assist at least three communities within the Area Agency's Planning and Service Area (PSA) to develop effective community coalitions to help older persons. The application must clearly identify the communities to be targeted. In the second phase of the grant the community organization will, using funds from other sources, assist at least three additional communities within the PSA. The application must clearly state that the effort supported by this grant award will be replicated in at least three additional communities with non-title IV resources to be obtained by the applicant and the communities to be assisted. The applicant must identify the other three communities as well as the potential source(s) of funding.

For purposes of carrying out both phases of activity under this priority area, the following definitions are applicable:

Community: Defined in geographic terms, a community is almost always smaller than a Planning and Service Area (PSA). Examples are a neighborhood in a large city, a medium or small city, a town or other place where people live and work.

Membership of Coalitions: Defined as comprised largely of organizations and groups without a predominant focus on aging, such as the business sector, organized labor, the civic, fraternal, and religious communities.

Objectives of Coalitions: With the defined aim of expanding home and community-based services for at-risk older persons, coalitions will identify and focus on one priority need of the community and develop and implement an action plan to meet that priority.

The methodology or process to be used to stimulate and promote the development of nontraditional approaches to service delivery to older persons at risk such as effective coalition building must be clearly defined. The use of creative approaches is strongly encouraged. The application must demonstrate the ability of the community organization, working under the direction of the Area Agency on Aging, to serve in a critical catalytic role and assist six communities to address

VOL
56
ISS
125
JE
28
1991
UMI

the serious challenges now confronting them as a result of the growing numbers of at-risk seniors in need of eldercare services. The Area Agency on Aging community organization must strive to assist communities to strengthen or develop effective eldercare systems for older persons at-risk through the utilization of nontraditional providers such as, religious institutions, civic and fraternal organizations, business and labor, academic institutions, volunteers, professional organizations and associations, and many other segments of the community.

The Area Agency on Aging and the community organization must show an ability to assist the community to institutionalize a process which promotes an ongoing and responsive support system for its seniors. The community organization must serve as a facilitator in promoting leadership by members of the community on behalf of seniors. AoA is particularly interested in projects which show how they will utilize the best practices for carrying out effective community organization and dissemination activities. Letters of support are required from the cognizant State Agency on Aging and from an official representative agency of each community to be helped.

Only Area Agencies on Aging and State Agencies on Aging with single Planning and Service Areas, working in conjunction with qualified community organizations are eligible to apply for this grant. It is anticipated that a total of twenty-five (25) awards will be made at a Federal share of approximately $25,000 each and for approximately 17 months. Of the $25,000 to be awarded, at least $20,000 must be subcontracted to the community organization; the remainder may be used to support project related allowable costs of the Area Agency on Aging.

3. Human Resources Development

A major element of the Administration on Aging (AoA) mission is to address the critical shortages of personnel to provide eldercare services for the elderly. There is a need to attract a greater number of qualified personnel into the field of aging and to develop more highly skilled persons to improve the quality of care provided to the elderly.

AoA is encouraging academic institutions to become more involved in increasing public awareness about societal changes needed to address the greater demands for home and community based care for the elderly. Academic institutions need to become more actively involved in creating greater public awareness about the expanding aging population; in stimulating greater understanding within all relevant academic disciplines regarding the role they can play in addressing the growing need for eldercare; and in expanding efforts to educate the public about the need for more and better eldercare services.

In order to focus greater attention on the problems of older persons at risk, gerontological content should be incorporated into college curricula and the training of all professionals who work with, or on behalf of, older persons. In addition, there is a need for providing mid-level or career ladder training for those working in the human services and aging networks. Yet another concern is how to provide specialized training to attract qualified individuals to those program areas experiencing shortages of personnel.

In light of the considerations expressed above and our concerns about the growing number of "old-old" (those persons 85 years of age and older) in our society, AoA has selected priority areas under the heading of Human Resources Development that are designed to develop an expanded, more skillful, and better trained workforce capable of responding to the ever greater demands for home and community based care for the at risk elderly. Training and career development applications are solicited in four priority areas:

3.1 Promoting Academic Involvement in Eldercare;

3.2 Dissertation Program;

3.3 Minority Management Training Program; and

3.4 Improving the Supply of Paraprofessional Home Care Workers

3.1 Promoting Academic Involvement in Eldercare

The Administration on Aging (AoA) has long recognized the critical need for faculty and program development in the field of aging in institutions of higher learning. This year AoA intends to address this need by encouraging institutions to incorporate the concepts of the National Eldercare Campaign into the curricula of appropriate disciplines and professions. As described above, the National Eldercare Campaign is mobilizing new and existing resources for home and community-based care for at-risk older persons.

Institutions of higher learning are in a position to greatly benefit the elderly now and in the future. They have at their disposal information, know-how, manpower and other resources, that, when applied to the problems facing the elderly could greatly retard the loss of independence in the at-risk older population.

Manpower studies highlight the need for faculty with expertise in aging in all health and human services professional schools. Highly trained faculty members are needed to help students understand the aging process, gain sensitivity about the needs and values of older persons, and most importantly, to discover ways for our society to meet the challenges of an aging society. Faculty must assume leadership roles in inspiring students to work effectively with older persons. AoA is relying upon the formal preparation, research interests, and departmental orientation of new and tenured faculty to influence the course offerings of academic institutions. AoA endeavors to develop an experienced cadre of faculty who are adequately prepared in geriatrics and gerontology to provide leadership essential to increase the number of graduates who are prepared for employment in fields of aging.

These same studies highlight the need for faculty and institutional development in minority institutions in order to increase the numbers of minorities prepared for employment in the field of aging. Many institutions of higher education with predominantly minority enrollments, including the Historically Black Colleges and Universities (HBCUs), could benefit from assistance in developing and upgrading gerontological training programs. Assistance is needed in the areas of program and faculty development, and student support.

AoA solicits applications from institutions of higher education and education based organizations for projects to conduct program development efforts to establish and/or upgrade gerontological training programs by including the concepts of the National Eldercare Campaign in their programs. The applicant should address Eldercare concerns by focusing on such activities as:

(1) Incorporation of a community organization approach with an eldercare agenda into the teaching and internship programs of the institution. Curriculum content should focus on the home and community-based service needs of older persons at risk.

(2) New approaches to involve faculty in community level coalition building as an effective approach to enhancing home and community-based services for older persons at risk.

Programs may use a variety of approaches, including: formal programs for linking faculty and curricula to eldercare issues; curriculum replication where one institution works with three to five other institutions which are interested in developing programs, a team approach in working together; or a mentoring approach. In addition, we encourage programs which provide opportunities for faculty to undertake special assignments in developing community eldercare coalitions and initiatives.

Projects funded under this priority area may include faculty and student stipends as necessary to promote the development of their programs, especially those at minority institutions. All stipends are expected to be set at a level commensurate with the experience and qualifications of the individual supported.

Applications should include the following:

(1) Written assurances from each of the organizations and institutions involved in the collaborative effort regarding the types of activities planned and how they will be carried out; and

(2) Written commitment and plans from faculty participants and appropriate officials from participating institutions to develop and/or enhance the curriculum within one year of program completion.

AoA intends to fund approximately eight (8) projects under this priority area with a Federal share approximating $75,000 per project for a maximum duration of approximately 17 months. Applicants are encouraged to develop close linkages with State and Area Agencies on Aging as well as community level coalitions formed under the National Eldercare Campaign and other relevant community organizations in the development of the application and the implementation of the project.

3.2 Dissertation Program (Home and Community Based Care)

Our older population has increased dramatically and will continue to do so into the next century. By the year 2030 one of every four Americans, over 83 million people, will be 60 years or older and 8 million will be age 85 or older. It is vitally important, therefore, that we focus on the need to build our capacity to respond to the dramatic increase in our older population today and into the next century. That challenge is heightened by the growing numbers of elderly at risk, including those who are physically or mentally impaired; abused, neglected, or exploited; or without a caregiver to assist them when in need. For these and other older Americans, the crucial consideration is to function independently at home and in the community as long as possible.

The Administration on Aging (AoA) is interested in supporting doctoral dissertations that focus on the eldercare needs of older persons at risk and the care provided such persons through home and community-based services. It is expected that these studies will expand our knowledge base relevant to policy and program issues in this area. In evaluating doctoral dissertation applications for approval and funding by AoA, emphasis will be placed on:

(1) The objectives of the proposed research and its relevance to the problems faced by older persons at risk of losing their independence;

(2) The results and benefits to be expected from applying the findings of the research to the needs and circumstances of older persons at risk;

(3) The methodological soundness of the proposal.

Investigations, utilizing principles from the social, behavioral, and/or health oriented sciences, should examine how policies and programs in such areas as health care, adult day care, foster care, or other services affect older people in need of eldercare services. Applicants are strongly encouraged to submit proposals whose findings will have broad applicability and nationwide implications for older people. In order to both attract minority professionals to the field of aging and to advance research on minority aged, AoA actively encourages universities to submit doctoral dissertation proposals by minority students.

AoA anticipates funding approximately 8 projects for approximately 17 months at a level of approximately $15,000. The grant must be used during the year(s) designated on the notice of Financial Assistance Award and cannot be deferred. The approved doctoral dissertation will constitute the Final Report to the Administration on Aging.

The following terms apply to grants awarded under this priority area:

(1) The grant will be used to support costs incurred by the doctoral candidate in conducting the research and writing of the project outlined in the approved dissertation proposal.

(2) No indirect costs will be provided to the university. (Applicants should not fill in budget line items referring to indirect costs.)

Eligibility

(1) *Universities*

Proposals will be submitted by universities granting doctoral degrees and not by the student requesting the grant.

(2) *Doctoral Candidates*

Only doctoral candidates are eligible to participate in this program. Each candidate must have completed all the course work, written and oral examinations, language and other requirements for the doctoral degree, and received approval of the dissertation research proposal, or have met these requirements before the grant is effective.

Application Process

The applying university should include separate applications for each proposed dissertation research grant. The doctoral candidate's dissertation proposal itself should constitute the program narrative section of the application. In addition to meeting the pertinent requirements of part III of this Announcement, each application should contain a page which highlights the following:

(1) Project Director: Name, address and phone number of doctoral candidate. Candidate should sign original or master copy of the application.

(2) Sponsor: Name, position, phone number of university advisor or sponsor. Sponsor should sign original or master copy.

(3) Notice of dissertation research proposal's approval by appropriate faculty advisors and committees.

3.3 Minority Management Training Program

AoA is interested in funding special training projects to increase the number of qualified minorities in key management/administrative positions in State and Area Agencies on Aging and other agencies and organizations which impact on those older persons who are at-risk of losing their independence. Applications are solicited from State Agencies on Aging, Area Agencies on Aging where the proposal has the endorsement of the appropriate State Agency on Aging, educational institutions, Indian Tribal Organizations funded under Title VI of the Older Americans Act, and other appropriate aging related organizations to participate in the Minority Management Training Program. The objective of this program is to increase the professional credentials of minority trainees to help these individuals make the transition from a staff level position to a managerial/administrative position.

The program is designed to assist highly motivated minority professionals, preferably with advanced degrees or a bachelor's degree and several years of significant prior aging program experience, to work in settings where

VOL
56
ISS
125
JE
28
1991
UMI

they can serve as trainees in managerial or administrative positions. It is hoped that training experience will result in either the permanent placement of the individual as a manager, supervisor or administrator in the host organization providing the training experience, or will equip participants in the program to be hired in comparable positions by other agencies or institutions upon completion of the training experience. Trainee selection should be based upon a strong commitment to work in the field of aging.

Applicants should seek commitments from host agencies which are willing to provide a varied work experience with ample opportunity for the trainee(s) to assume a managerial role. Placement in State and Area Agencies on Aging is strongly encouraged. Trainees should be given on-the-job instruction, support, counseling, and feedback about work performance. The grantee organization under this priority area must be in a position to provide administrative support to trainees and host institutions, on site monitoring of the work experience on a periodic basis and assistance in the placement of trainees once the training experience is completed.

Applications should contain information about the host agencies, procedures for selecting and recruiting trainees, a description of the traineeship itself and information about training and supervision associated with the traineeship. Applicants must include (1) a plan for assuring placement of trainees in a management or administrative position in an organization which serves older persons upon completion of the training program and (2) an evaluation component for tracking the progress of the trainees' advancement to management positions and in carrying out their managerial responsibilities. Stipends provided under this priority area are expected to be commensurate with the cost of living in a particular geographic area and the qualifications and experience of a particular trainee. Applicants should endeavor to obtain other financial support for the trainee program. Host agency cost sharing is strongly encouraged.

AoA expects to fund approximately four projects under this priority area with a Federal share of approximately $125,000 per project, and an estimated project duration of approximately 17 months.

3.4 Improving the Supply of Paraprofessional Home Care Workers

Among the challenges that the National Eldercare Campaign faces in attempting to stimulate the expansion of home and community services for the at-risk elderly is the need to increase and improve the supply of paraprofessional home care workers.

Because of expected growth of the at-risk older population between now and the year 2000, the Bureau of Labor Statistics is projecting that home care paraprofessionals, such as homemakers and home health aides, will become the third fastest growing occupational category over the next ten years. Nationally, home care providers are averaging a 60% turnover rate per year among paraprofessional home care workers and many States are now reporting serious workforce shortages. As the need for in home care expands, there is growing concern about how to both provide a sufficient number of in-home workers and assure that the services they provide are of high quality.

The purpose of this priority area is to demonstrate innovative, collaborative approaches for increasing and improving the supply of paraprofessional home care workers. The expected outcome is to develop and disseminate several model approaches which State Agencies on Aging, Area Agencies on Aging and others may use to promote the provision of in home services for the at-risk elderly, especially through State and local eldercare coalitions around the country.

Applicants are encouraged to develop collaborative efforts with all the major parties concerned with improving the supply of qualified paraprofessional home care workers, e.g., aging network agencies, community college and vocational training institutions, employment and training programs, and health care provider coalitions.

Applicants also are encouraged to demonstrate as many program elements as possible to maximize the impact of the project. These may include:

- Improving the training and supervision offered to workers;
- Developing improved and alternative wage and benefit packages;
- Strengthening the understanding of possible cultural differences between workers and their clients;
- Stabilizing work hours;
- Developing alternative approaches to restrictive task and job requirements;
- Establishing career paths within and beyond the home care industry; and
- Improving public understanding about the vital role in home workers fill.

Proposals should be based on knowledge of: (1) Existing State and local programs whose operation depends significantly on the availability and use of in home workers; (2) the results of pertinent AoA and other agency supported research and demonstration projects, and; (3) approaches utilized by the private sector. Wherever possible, proposals should build upon successfully tested policies, procedures and materials and not duplicate existing efforts. Applicants may contact the National Aging Resource Center on Long Term Care at Brandeis University (1–800–456–9966) for more information about recent activities that address the supply of in home workers.

Proposals should contain an evaluation component that effectively measures project outcomes for all proposed program elements and the impact of the project on improving worker supply and quality of patient care. They also should include a nation-wide effort to disseminate practical project results and program recommendations to State and Area Agencies on Aging and other relevant public and private agencies and organizations.

All State and Area Agencies on Aging and public and private non-profit organizations, institutions and agencies are eligible to submit an application under this priority area. Because the priority area has great interest to the aging network, all applications must provide clear evidence of consultations with the leadership of appropriate State and Area Agency(ies) on Aging in the development of the proposal.

AoA expects to fund approximately five (5) projects under this priority area, with a Federal share of approximately $100,000 per project and a project duration of approximately 17 months.

4. Greater Advocacy by National Aging Organizations for Older Persons at Risk

As stated in part I above, the Administration on Aging (AoA) has launched a National Eldercare Campaign which is a nationwide, multi-year effort to mobilize resources for home and community-based care for older persons at risk of losing their independence. Such persons include those who are physically or mentally impaired; abused, neglected, or exploited; or without a caregiver to assist them when in need. At special risk are the poor, women, residents of rural areas, and minority individuals.

The intent of this priority area is to involve nationa aging organizations significantly in the National Eldercare Campaign, with an emphasis on new initiatives designed to address the home and community-based care needs of older persons at risk and to expand public awareness relevant to the problems and issues concerning eldercare. Therefore, applicants must demonstrate familiarity with all aspects of the Campaign and clearly state how the organization seeking funds can contribute to the overall Campaign goals and objectives. Information about the National Eldercare Campaign can be obtained by contacting AoA.

National aging organizations have successfully advocated on behalf of older persons in a number of areas including housing, employment, legal services, and health care. It is AoA's intent to build upon this track record by encouraging this network of organizations to focus its advocacy related activities on issues related to the eldercare needs of the at risk population of older people. Applications are solicited from national aging organizations that propose to develop new initiatives which give special attention to eldercare for older persons at risk. Projects should focus on innovative and non-traditional approaches to greater advocacy on behalf of this population and such projects should, where appropriate, heighten visibility of the issues related to the eldercare needs of vulnerable older persons.

Activities to be undertaken should include, but are not limited to: (1) Efforts to open or expand a dialogue on aging with other organizations such as religious institutions, academia, business, labor, fraternal, civic and professional organizations and associations; (2) undertaking public awareness campaigns through appropriate use of the media, and; (3) working with eldercare coalitions to gain greater leverage for the advocacy effort. Activities supported under this priority area are to be new initiatives, above and beyond what the organization is already doing. Applicants should describe current activities that may be related to the National Eldercare Campaign and how their proposed activities present a significant departure from past work.

Eligibility to apply for funds under this priority area is limited to national aging organizations. AoA intends to support approximately eight (8) projects at a level of approximately $100,000 per project for a period of approximately 17 months. The applicant must, at a minimum, match the Federal share of project costs. Thus, this priority area requires a grantee share of at least 50% of total project costs.

5. Enhancement of Dissemination and Utilization of Information on Aging

The purpose of the Title IV Research, Demonstration, and Training Program is to provide results, products, and findings which can be used by all those in the field of aging to help older people. Dissemination is the key to appropriate utilization. A recent study suggested that while Title IV dissemination is having a positive impact, a more comprehensive dissemination strategy is needed. The purpose of this priority area is to develop and implement a comprehensive and cooperative approach (involving the awardee, AoA, and others in the field of aging) to improving the dissemination and utilization of Title IV results, products, and findings in a manner which will increase their usefulness to State and Area Agencies on Aging as well as others in the field of aging.

Current interest centers not only on the dissemination and utilization of Title IV project findings, products, and results. An even larger issue, which cuts across the entire field of aging, is how to bridge the gaps between research, demonstration, training, and practice. The central questions which need to be resolved are:

- How can dissemination and utilization be built into research, demonstration, training, and development projects from the very outset?
- How can we assure that support for dissemination activities is related to the quality of the material to be disseminated?
- How can the potential for utilization be included as a consideration in discretionary grants planning and review?
- What practical and feasible dissemination and utilization efforts can Federal, State, foundation, and other funding agencies in the field of aging undertake, singly and jointly, to transfer knowledge into program policy and practice?
- AoA is interested in funding one (1) project which will address these issues. Applicants should propose a comprehensive approach, including both strategy development and implementation, which will include, but is not limited to, the following components:
- Review current dissemination and utilization strategies and activities and suggest improvements covering, for example, more effective techniques for incorporating dissemination into all stages of the projects, rather than at their completion;
- Evaluate the utilization of a sample of completed projects including such factors of how utilization correlated with the effectiveness of dissemination activities;
- Provide advice and assistance to funded projects on how to improve project dissemination and support activities such as work in progress sessions to increase joint dissemination activities by related grantees;
- Develop and implement a systematic evaluation process for the products, results, and findings of Title IV projects including review of promising products by experts and potential users in the aging network and others in the field of aging;
- Identify, and implement a variety of dissemination techniques (with particular attention to use of technology to assist in dissemination and utilization) for use with materials which are found to have the potential for use by those serving older people. Some possible techniques include computer bulletin boards, teleconferencing, and CD Rom distributions;

The following features will characterize this project:

- This award will be made as a cooperative agreement. The statutory authority under which AoA awards cooperative agreements is found in Title II and Title IV of the Older Americans Act as amended (42 U.S.C. 3001 *et seq.*);
- An Advisory Committee will be established to ensure that the organization will be responsive to the needs of the aging network;
- An evaluation process will be developed and implemented to ensure that systematic, objective information is available about the utilization and effectiveness of the products of this project. Specific outcomes must be built into the project for evaluation. The evaluation should be performed by an *independent* evaluator; and
- The organization receiving the award will not be conducting this project on behalf of AoA. However, AoA and the awardee will work cooperatively in the development and implementation of the project's agenda as described below.

Under the cooperative agreement mechanism, AoA and the awardee will share the responsibility for managing this project. The awardee will have the primary responsibility for developing and implementing the activities of the project. AoA will jointly participate with the awardee in such activities as clarifying the specific issue areas to be addressed, through periodic briefings and ongoing consultation—sharing with the awardee its knowledge of the issues being addressed by past and current projects, providing feedback to the awardee about the usefulness to the field of its written products and information sharing activities, and participating as much as possible in the deliberations of the project's advisory

VOL 56 ISS 125 JE 28 1991 UMI

committee. The details of this relationship will be set forth in the cooperative agreement to be developed and signed prior to issuance of the award.

AoA expects to fund one project under this priority area, with an approximate total Federal share of $300,000 per year for an estimated duration of approximately 36 months.

6. National Academy on Aging

The Administration on Aging is soliciting proposals for the creation of a National Academy on Aging. The Academy will bring together leaders in American society to discuss and debate emerging trends and issues, as well as strategies regarding how they and their organizations can better address the challenges of an aging society.

Leaders and decision makers are constantly facing, directly or indirectly, the growth and change in the nation's older population. Our country's leadership at all levels—from public, private, and voluntary sectors alike—will have to become more knowledgeable about the transformations now taking place toward an aging society and be in a position to provide wise and timely decisions affecting the elderly. Decision makers will be especially challenged by the growing numbers of older persons at risk. These vulnerable older persons, whose continued independence depends upon adequate and accessible home and community based services, are the focus of the AoA National Eldercare Campaign described earlier in this document.

The goals of the Academy are to encourage greater national leadership in aging issues through the clarification of critical issues in the field of aging for analysis and discussion by those participating in Academy sponsored programs. The Academy is to promote discussion of nationwide approaches to these issues for the use and benefit of the Academy participants. Participants in Academy events should be better informed and equipped to advocate for the needs of the elderly.

Applications should include plans for curricula development and for the conduct of symposia, seminars, public forums, research, and analysis relative to emerging national issues on aging. The program design should encourage the exchange of ideas and information that will encourage creativity and innovation in programs and methods for meeting the needs of the elderly. Attention should be devoted to bringing together participants with diverse points of view.

Participants in the program activities developed by the Academy should be drawn from aging as well as non-aging organizations, from both the private and public sectors. They should, however, share both an interest in aging issues and a capacity for shaping future aging programs and policies. Participants from the field of aging may include executives of State and Area Agencies on Aging, leaders in service provision, executives of national aging organizations, as well as researchers, educators, and others in the field of aging. Participants drawn from outside the field of aging are expected to be composed of individuals with an impact on and interest in eldercare issues and the needs of older persons at risk. This second group includes subject matter and policy area experts, business leaders, executives from national organizations (non-aging), and leaders of public and voluntary agencies, elected and appointed public officials, labor unions, religious bodies, civic groups, and educational institutions. Through the programs offered by the Academy, these leaders will gain an enriched, more comprehensive understanding of the elderly and the challenges of shaping national, State, community, and organizational responses to their needs.

Applicants for the National Academy on Aging award must be qualified to provide a level of knowledge and information synthesis appropriate to the high ranking officials for whom the Academy is planned. The applicant should propose a faculty of experts in aging-related matters with particular knowledge in a variety of topic areas. It should set forth a plan to undertake a range of activities tailored to the distinct needs of its participants. In particular, it should describe how the Academy program will assist decision makers whose organizations are part of the National Eldercare Campaign for older persons at risk. In that regard, the Academy will be expected to coordinate its curriculum and program, as appropriate, with the work being undertaken by the AoA supported National Eldercare Institutes.

Other features of the Academy include the following:

- The applicant selected will be awarded a Cooperative Agreement for a three-year project period.
- AoA and the organization selected to serve as the National Academy on Aging will work cooperatively in the development of the Academy's agenda. The Academy will not conduct its activities on behalf of AoA but on a cooperative basis with AoA as described below.
- The National Academy on Aging shall have its own organizational identity within the structure of the performing organizations.
- The National Academy on Aging shall have a Director with an appropriate background who will devote full time to this position. Appropriately qualified individuals shall be appointed to the Academy's faculty.
- An Advisory Committee will be established to ensure that the Academy is responsive to the needs of those participating in its activities.

AoA expects to fund one cooperative agreement under this priority area with a Federal share of approximately $300,000 per year for a project duration of approximately three years. Initially, AoA funds will support in whole or in part the administration of the Academy, the cost of conducting core activities, including educational programs and living expenses of those attending. As the Academy becomes more established, it is anticipated that the agencies sponsoring the participants will bear a larger portion of the costs.

Under the cooperative agreement mechanism AoA and the awardee organization will share the responsibility for managing the Academy. The awardee organization will have the primary responsibility for developing and implementing the activities of the Academy. AoA will jointly participate with the Academy in such activities as clarifying the specific issues and audiences to be addressed by the Academy, through periodic briefings and ongoing consultation—sharing with the Academy its knowledge of the issues being addressed by the Academy as well as information about relevant activities being undertaken by others, providing feedback to the Academy about the usefulness to the field of its programs, and participating as much as possible in the deliberations of the Academy's advisory committee. The details of this relationship will be set forth in the cooperative agreement to be developed and signed prior to issuance of the award.

Part III. Information and Guidelines for the Application Process and Review

This part contains general information for potential applicants and basic guidelines for submitting applications in response to this announcement. Application forms are provided along with detailed instructions for developing and assembling the application package for submittal. General guidelines on applicant eligibility are provided in part I. Specific eligibility guidelines are provided in part II under certain priority areas.

A. General Information

1. Review Process and Considerations for Funding

Within the limits of available Federal funds, the Administration on Aging (AoA) makes financial assistance awards consistent with the purposes of the statutory authorities governing the AoA Discretionary Funds Program and this announcement. The following steps are involved in the review process.

a. Notification: All applicants will automatically be notified of the receipt of their application and informed of the identification number assigned to it.

b. Screening: To insure that minimum standards of equity and fairness have been met, applications which do not meet the screening criteria listed in section D below, will not be reviewed and will receive no further consideration for funding.

c. Expert Review: Applications that conform to the requirements of this program announcement will be reviewed and scored competitively against the evaluation criteria specified in Section F, below, by review panels consisting of qualified persons from outside the Federal government and knowledgeable non-AoA Federal Government officials. The scores and judgments of these expert reviewers are a major factor in making award decisions.

d. Other Comments: AoA solicits comments from other Federal Departments, State Agencies on Aging, interested foundations, national organizations, specialists, experts, and others. These comments are considered by the Commissioner on Aging in making funding decisions.

e. Other Considerations: In making funding award decisions, AoA will pay particular attention to applications which focus on older persons with the greatest economic and social need, with particular attention to the low-income minority elderly. Final decisions will also reflect the equitable distribution of assistance among geographical areas of the nation, and rural and urban areas. The Commissioner on Aging also guards against wasteful duplication of effort in making funding decisions.

f. Other Funding Sources: AoA reserves the option of discussing applications with, or referring them to, other Federal or non-Federal funding sources when this is determined to be in the best interest of the Federal government or the applicant.

g. Decision-Making Process: After the panel review sessions, applicants may be contacted by AoA staff to furnish additional information. Applicants who are contacted should not assume that funding is guaranteed. An award is official only upon receipt of the Financial Assistance Award (Form DGCM 3–785).

h. Timeframe: Applicants should be aware that the time interval between the deadline for submission of applications and the award of a grant may be several months in duration. This length of time is required to review and process grant applications.

2. Notification Under Executive Order 12372

This is not a covered program under Executive Order 12372.

B. Deadline for Submission of Applications

The closing date for submission of applications is August 9, 1991. Applications must be either sent or hand-delivered to the address specified in section D, below. Hand-delivered applications are accepted during the normal working hours of 9 a.m. to 5:30 p.m., Eastern Time, Monday through Friday. An application will be considered as meeting the deadline if it is either:

1. Received at the mailing address on or before the deadline date; or

2. Sent before midnight of the deadline date as evidenced by either (1) a U.S. Postal Service receipt or postmark or (2) a receipt from a commercial carrier. The application must also be received in time to be considered under the competitive independent review mandated by chapter 1–62 of the DHHS Grants Administration Manual. Applicants are strongly advised to obtain proof that the application was sent by the deadline date. If there is a question as to when an application was sent, applicants will be asked to provide proof that they have met the deadline date. Private metered postmarks are not acceptable as proof of a timely submittal.

Applications which do not meet the above deadline are considered late applications. The Acquisition and Assistance Management Branch will notify each late applicant that its application will not be considered in the current competition.

AoA may extend the deadline for all applicants because of acts of God, such as floods, hurricanes or earthquakes, when there is widespread disruption of the mail or when AoA determines an extension to be in the best interest of the government. However, if AoA does not extend the deadline for all applicants, it may not waive or extend the deadline for any applicant(s).

C. Grantee Share of the Project

Under the Discretionary Funds Program, AoA does not make grant awards for the entire project cost. Applicants must, at a minimum, contribute one (1) dollar, secured from non-Federal sources, for every three (3) dollars received in Federal funding. The non-Federal share must equal at least 25% of the entire project cost. (Except for Priority Area 4 which requires, at a minimum, a 50% non-Federal Share.) Applicants should note that, among applications of comparable technical merit, the greater the non-Federal share the more favorable the application is likely to be considered.

The one exception to this cost sharing formula is for applications originating from American Samoa, Guam, the Virgin Islands or the Northern Mariana Islands. Applicants from these territories are covered by Section 501(d) of Public Law 95–134, as amended, which requires the Department to waive "any requirement for local matching funds under $200,000."

The non-Federal share of total project costs for each budget period may be in the form of grantee-incurred direct or indirect costs, third party in-kind contributions, and/or grant related income. Indirect costs may not exceed those allowed under Federal rules established, as appropriate, by OMB Circulars A–21, A–87, and A–122. If the required non-Federal share is not met by a funded project, AoA will disallow any unmatched Federal dollars. A frequent error is to match 25% of the Federal share rather than 25% of the entire project cost. Applicants should be sure that they have met the match requirement before submitting their budgets.

D. Application Screening Requirements

All applications will be screened to determine completeness and conformity to the requirements of this announcement. These screening requirements are intended to assure a level playing field for all applicants. Applications which fail to meet one or more of the criteria described below will not be reviewed and will receive no further consideration for funding. Complete, conforming applications will be reviewed and scored competitively.

In order for an application to be reviewed, it must meet the following screening requirements:

1. The application must not exceed forty-five (45) pages, double-spaced, exclusive of certain required forms and

VOL 56 ISS 125 JE 28 1991 UMI

assurances which are listed below. Applications whose typescript is single-spaced or space-and-a-half will be considered only if it is determined the applicant has not thereby gained a competitive advantage.

The following documents are excluded from the 45 page limitation: (1) Standard Forms (SF) 424, 424A (including up to a four page budget justification) and 424B; (2) the certification forms regarding lobbying; debarment, suspension, and other responsibility matters; and drug-free workplace requirements; (3) proof of non-profit status; and (4) indirect cost agreements. Within the forty-five (45) page limitation, the following guidelines are suggested:

—Summary description (one page);
—Narrative (approximately thirty pages);
—Applicant's capability statement, including an organization chart, and vitae for key project personnel (approximately ten pages) and;
—Letters of commitment and cooperation (approximately four pages).

2. Applications must be either postmarked by midnight, August 9, 1991, or hand-delivered by 5:30 p.m., Eastern Time, on August 9, 1991 to:

Department of Health and Human Services, Grants and Contracts Management Division, Acquisition and Assistance Management Branch, 200 Independence Avenue, SW., Room 341F.2, Washington, D.C. 20201, Attn: AoA–91–3.

3. Applicants must meet any eligibility requirements specific to the priority area under which they are applying.

Under No Circumstances Will Applications That Do Not Meet These Screening Requirements Be Assigned To Reviewers.

E. Funding Limitations on Indirect Costs

1. Training projects awarded to institutions of higher education, hospitals, and other non-profit institutions, are limited to a Federal reimbursement of indirect costs of eight (8) percent of the total allowable direct costs or, where a current agreement exists, the organization's negotiated indirect cost rate, whichever is lower. See section J–2, item 6j.

2. For all other applicants, indirect costs generally may be requested only if the applicant has a negotiated indirect cost rate with the Department's Division of Cost Allocation or with another Federal agency. Applicants who do not have a negotiated indirect cost rate may apply for one in accordance with DHHS procedures and in compliance with relevant OMB Circulars.

F. Evaluation Criteria

Applications which pass the screening will be evaluated by an independent review panel of at least three individuals. These reviewers will be primarily experts from outside the Federal government. Based on the specific programmatic considerations set forth in the individual priority area under which an application has been submitted, the reviewers will comment on and score the applications, focusing their comments and scoring decisions on the criteria below.

1. Objectives and Need for Assistance: 25 points

a. Does the application pinpoint relevant economic, social, financial, institutional or other problems requiring a solution?

b. Is the need for the proposed project clearly demonstrated and supported by documentation? Are the needs of low income and minority elderly included and discussed?

c. Are the principal and subordinate objectives, functions, and activities of the project clearly stated, justified, innovative (as appropriate), and relevant to the issue/problem area?

d. Does the application include any relevant data based on planning studies in providing a thorough discussion of the current state of knowledge relevant to the proposed project?

2. Results or Benefits Expected: 20 points

a. Are the expected project benefits and/or results clearly identified, realistic, and consistent with the objectives of the project? Are important anticipated contributions to policy, practice, theory and/or research clearly indicated?

b. Does the application clearly indicate how the expected results will be of direct and tangible benefit to older people? Does the application describe how its products will be disseminated to and utilized by appropriate, well-chosen audiences?

3. Approach: 30 points

a. Does the application provide a sound and workable plan of action pertaining to the scope of the project and detail how the proposed work will be accomplished?

b. Are persuasive reasons offered for taking the proposed approach as opposed to others? Does the application clearly explain the methodology for determining if the results and benefits identified are being achieved?

c. Does the proposed work/task schedule offer a logical and realistic projection of accomplishments to be achieved? Is a time-line chart or its equivalent employed to list project activities in chronological order and show the target dates for the projected accomplishments?

d. Has the application clearly identified the kinds of data to be collected and analyzed, and discussed the criteria to be used in evaluating the success of the project?

e. Has the application identified and secured the commitment of each of the key cooperating organizations, groups, and individuals who will work on the project and provided an adequate description of the nature of their effort or contribution?

4. Level of Effort: 25 points

a. Are the project management, staff resources and time commitments adequate to carry out the proposal effectively and efficiently? Is the staff chart consistent with the project plan expressed in the Approach section of the Program Narrative?

b. Are the key staff well qualified for this project? Are consultants and advisors used appropriately? If volunteers will be used, is there adequate supervision and support from project staff?

c. Does the budget justification adequately describe the resources necessary to conduct the project? Is the budget reasonable in terms of the intended results?

d. Are the authors of the proposal, their relationship with the applicant agency and their intended role in the project, if any, identified?

G. The Components of an Application

To expedite the processing of applications, we request that you arrange the components of your application, the original and two copies, in the following order:

- SF 424, Application for Federal Assistance; SF 424A, Budget, accompanied by your budget justification; SF 424B (Assurances); and the certification forms regarding lobbying; debarment, suspension, and other responsibility matters; and drug-free workplace requirements.

Note: The original copy of the application must have an original signature in item 18d on the SF 424.

- Proof of nonprofit status, as necessary;
- A copy of the applicant's indirect cost agreement, as necessary;
- Project summary description;
- Program narrative;
- Organizational capability statement and vitae;
- Letters of Commitment and Cooperation.
- A copy of the Check List of Application Requirements (See Section K, below) with all the completed items checked.

The original and each copy should be stapled securely (front and back if necessary) in the upper left corner. Pages should be sequentially numbered. In order to facilitate handling, please do not use covers, binders or tabs. Do not include extraneous materials such as agency promotion brochures, slides, tapes, film clips, etc. It is not feasible to use such items in the review process, and they will be discarded if included.

H. Communications with AoA

Do not include a self-addressed, stamped acknowledgment card. All applicants will automatically be notified of the receipt of their application and informed of the identification number assigned to it. This number and the priority area should be referred to in all subsequent communication with AoA concerning the application. If acknowledgment is not received within seven weeks after the deadline date, please notify the Acquisition and Assistance Management Branch by telephone at (202) 245–9016.

After an identification number is assigned and the applicant has been notified of the number, applications are filed numerically by identification number for quick retrieval. It will not be possible for AoA staff to provide a timely response to inquiries about a specific application unless the identification number and the priority area are given.

Applicants are advised that, prior to reaching a decision, AoA will not release information relative to an application other than that it has been received and that it is being reviewed. Unnecessary inquiries delay the process. Once a decision is reached, the applicant will be notified as soon as possible of the acceptance or rejection of the application.

I. Background Information and Guidance for Preparing the Application

1. Current Projects and Previous Project Results

In the Program Narrative of the application (see section J below), applicants are expected to demonstrate familiarity with recent and ongoing activity related to their project proposal. With respect to AoA-supported discretionary grant projects, information on Current AoA Projects may be obtained by contacting the Office of Program Development at 202/619–0441.

Regarding Completed AoA Projects, copies of all AoA discretionary grant final reports and printed materials are sent to: the National Technical Information Service (NTIS), an abstract clearinghouse and document source for Federally sponsored reports; AgeLine, a bibliographic database service sponsored by the AARP; and the U.S. Government Printing Office Library Program, a catalog and microfiche service for 1400 depository libraries located throughout the United States.

Information concerning access to the bibliographic and document referral services provided by these clearinghouses can be obtained through most public and academic libraries. For direct information use the following addresses and telephone numbers:

National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161, (703) 487–4600.

AgeLine Database, BRS Customer Services, 1200 Route 7, Latham, NY 12110, (800) 345–4277.

Acquisition Unit, Library Programs Service, U.S. Government Printing Office, North Capital and H Streets, NW., Washington, DC 20401, (202) 275–1070.

2. Dissemination and Utilization

The purposes and expectations associated with Title IV discretionary projects extend well beyond the immediate confines of a particular project's local impact. Projects should have a ripple effect in the field of aging in terms of replicating their design, utilizing their results, and applying their benefits to a widening circle of older persons. This section suggests certain principles of dissemination to be considered in developing your application:

- The most useful projects make dissemination and utilization a central, not peripheral, component of the project;
- Dissemination starts at the beginning of a project not when it is completed;
- Potential users should be involved in planning the project, if possible, and products developed with the needs of potential users in mind;
- Dissemination is a networking process;
- At a minimum, dissemination includes getting your final products into the hands of appropriate users and making presentations at conferences; and
- Coordination with other related projects may increase the chances of your products being used.

J. Completing the Application

In completing the application, please recognize that the set of standardized forms and instructions prescribed by the Office of Management and Budget (approved under OMB control number 0348–0043) is not perfectly adaptable to the particulars of AoA's Discretionary Funds Program. (The narrative guidance and checklist reporting form are approved under OMB control number 0937–0189). Wherever possible, we have attempted to provide clarification. If you encounter a problem in completing the application, please call (202) 619–0441 for assistance.

Forms SF 424, SF 424A, SF 424B, and the certification forms (regarding lobbying; debarment, suspension, and other responsibility matters; and drug-free workplace requirements) have been reprinted as part of this **Federal Register** announcement for your convenience in preparing the application. Single-sided copies of all required forms must be used for submitting your application. You should reproduce single-sided copies from the reprinted form and type your application on the copies. Please do not use forms directly from the **Federal Register** announcement as they are printed on both sides of the page.

To assist applicants in completing Forms SF 424 and SF 424A correctly, samples of these forms have been provided as part of this announcement. These samples are to be used as a guide only. Please submit your application on the blank copies. When specific information is not required under this program, N/A (not applicable) has been preprinted on the form.

Please prepare your application consistent with the following guidance:

1. SF 424, Cover Page:

Complete only the items specified in the following instructions:

Top Left of Page. In the box provided, enter the number of the priority area under which the application is being submitted.

Item 1. Preprinted on the form.

Item 2. Fill in the date you submitted the application. Leave the applicant identifier box blank.

Item 3. Not applicable.

Item 4. Leave blank.

Item 5. Legal name of applicant, name of primary organizational unit which will undertake the assistance activity, applicant address, and name and telephone number of the person to contact on matters related to this application.

Item 6. Enter the employer identification number (EIN) of the

VOL
56
ISS
125
JE
28
1991
UMI

applicant organization as assigned by the Internal Revenue Service. Please include the suffix to the EIN, if known.

Item 7. Enter the appropriate letter in the box provided.

Item 8. Preprinted on form.

Item 9. Preprinted on form.

Item 10. Preprinted on form.

Item 11. The title should describe concisely the nature of the project. It should not exceed 10 to 12 words and 120 characters including spaces and punctuation. It should not repeat the title of the priority area or the name of the applicant institution.

Item 12. Not applicable.

Item 13. Enter the desired start date for the project, beginning on or after September 1, 1991 and the desired end date for the project. Projects are generally 12 to 36 months in duration. Check the description of the priority area under which you are applying for the expected project duration.

Item 14. List the applicant's Congressional District and the District(s), if any, directly affected by the proposed project.

Item 15. All budget information entered under item #15 should cover: (1) the total project period if that period is 17 months or less or (2) the first 12 months if the project period exceeds 17 months. The applicant should show the Federal grant support requested under sub-item 15a. Sub-items 15b–15e are considered cost-sharing or "matching funds". The value of third party in-kind contributions should be entered in sub-items 15c–15e, as applicable. It is important that the dollar amounts entered in sub-items 15b–15e total at least 25 percent of the total project cost (total project cost is equal to the requested Federal funds plus funds from non-Federal sources).

Check: Does all information entered in items 15a to 15f cover: (1) the total project period if that period is 17 months or less or (2) the first 12 months if the project period exceeds 17 months?

Item 16. Preprinted on form.

Item 17. This question applies to the applicant organization, not the person who signs as the authorized representative. Categories of debt include delinquent audit disallowances, loans and taxes.

Item 18. To be signed by an authorized representative of the applicant organization. A document attesting to that sign-off authority must be on file in the applicant's office.

2. SF 424A—Budget Information

This form is designed to apply for funding under more than one grant program; thus, for purposes of this AoA program, most of the budget item blocks are superfluous and have been marked not applicable (N.A.). The applicant should consider and respond to only the budget items for which guidance is provided below. Sections A, B, and C should include the Federal as well as non-Federal funding for the proposed project covering (1) the total project period if that period is 17 months or less or (2) the first 12 months if the project period exceeds 17 months.

Section A—Budget Summary

This section includes a summary of the budget. On line 5, enter total Federal Costs in column (e) and total Non-Federal Costs (including third party in-kind contributions but not program income) in column (f). Enter the total of columns (e) and (f) in column (g).

Section B—Budget Categories

Under column (5) enter the total requirements for funds (both Federal and non-Federal) by object class category.

A separate *budget justification* should be included to fully explain and justify major items, as indicated below. The budget justification should not exceed four typed pages and should immediately follow SF 424A.

Line 6a—Personnel: Enter the total costs of salaries and wages of applicant/grantee staff. Do not include the costs of consultants, which should be included under 6h - Other.

Justification: Identify the principal investigator or project director, if known. Specify the key staff, their titles, and time commitments in the budget justification.

Line 6b—Fringe Benefits: Enter the total costs of fringe benefits unless treated as part of an approved indirect cost rate.

Justification: Provide a break-down of amounts and percentages that comprise fringe benefit costs, such as health insurance, FICA, retirement insurance, etc.

Line 6c—Travel: Enter total costs of out-of-town travel (travel requiring per diem) for staff of the project. Do not enter costs for consultant's travel or local transportation.

Justification: Include the total number of trips, destinations, length of stay, transportation costs and subsistence allowances.

Line 6d—Equipment: Enter the total costs of all equipment to be acquired by the project. For State and local governments, including Federally recognized Indian Tribes, "equipment" is non-expendable tangible personal property having a useful life of more than two years and an acquisition cost of $5,000 or more per unit. For all other grantees, the threshold for equipment is $500 or more per unit.

Justification: Equipment to be purchased with Federal funds must be justified as necessary for the conduct of the project. The equipment, or a reasonable facsimile, must not be otherwise available to the applicant or its sub-grantees. The justification also must contain plans for the use or disposal of the equipment after the project ends.

Line 6e—Supplies: Enter the total costs of all tangible expendable personal property (supplies) other than those included on line 6d.

Line 6f—Contractual: Enter the total costs of all contracts, including (1) procurement contracts (except those which belong on other lines such as equipment, supplies, etc.) and, (2) contracts with secondary recipient organizations including delegate agencies. Also include any contracts with organizations for the provision of technical assistance.

Do not include payments to individuals on this line.

Justification: Attach a list of contractors indicating the name of the organization, the purpose of the contract, and the estimated dollar amount. If the name of the contractor, scope of work, and estimated costs are not available or have not been negotiated, indicate when this information will be available. Whenever the applicant/grantee intends to delegate all or part of the project work to another agency, the applicant/grantee must provide a completed copy of Section B, Budget Categories for each contractor, along with supporting information.

Line 6g—Construction: Leave blank since new construction is not allowable and Federal funds are rarely used for either renovation or repair

Line 6h—Other: Enter the total of all other costs. Such costs, where applicable, may include, but are not limited to: insurance, medical and dental costs; noncontractual fees and travel paid directly to individual consultants; local transportation (all travel which does not require per diem is considered local travel); space and equipment rentals; printing and publication; computer use; training costs, including tuition and stipends, training service costs including wage payments to individuals and supportive service payments; and staff development costs.

Line 6i—Total Direct Charges: Show the totals of Lines 6a through 6h.

Line 6j—Indirect Charges: Enter the total amount of indirect charges (costs), if any. If no indirect costs are requested, enter "none." Indirect charges may be requested if: (1) The applicant has a current indirect cost rate agreement approved by the Department of Health and Human Services or another Federal agency; or (2) the applicant is a State or local government agency.

Applicants other than State and local governments are requested to enclose a copy of this agreement. Local and State governments should enter the amount of indirect costs determined in accordance with HHS requirements. When an indirect cost rate is requested, these costs are included in the indirect cost pool and should not be also charged as direct costs to the grant.

In the case of training grants to other than State or local governments (as defined in 45 CFR part 74), Federal reimbursement of indirect costs will be limited to the lesser of the negotiated (or actual) indirect cost rate or 8 percent of the amount allowed for total project (Federal and non-Federal) direct costs exclusive of any equipment charges, rental of space, tuition and fees, post-doctoral training allowances, contractual items, and alterations and renovations. As part of the justification, applications subject to this limitation should specify that the Federal reimbursement will be limited to 8%.

For training grant applications, the entry for line 6j should be the total indirect costs being charged to the project. The Federal share of indirect costs is calculated as shown above. The applicant's share is calculated as follows:

(a) Calculate total project indirect costs (a*) by applying the applicant's approved indirect cost rate to the total project (Federal and non-Federal) direct costs.

(b) Calculate the Federal share of indirect costs (b*) at 8 percent of the amount allowed for total project (Federal and non-Federal) direct costs exclusive of any equipment charges, rental of space, tuition and fees, post-doctoral training allowances, contractual items, alterations and renovations.

(c) Subtract b* from a*. The remainder is what the applicant can claim as part of its matching cost contribution.

Line 6k—Total: Enter the total amounts of Lines 6i and 6j.

Line 7—Program Income: Estimate the amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount. Describe the nature, source, and expected use of income in the Level of Effort section of the Program Narrative.

Section C—Non-Federal Resources

Line 12—Totals: Enter amounts of non-Federal resources that will be used in carrying out the proposed project. If third-party in-kind contributions are included, provide a brief explanation in the budget justification section.

Section D—Forecasted Cash Needs

Not applicable.

Section E—Budget Estimate of Federal Funds Needed for Balance of the Project

This section should be completed only if the total project period exceeds 17 months.

Line 20—Totals: Enter the estimated required *Federal* funds (exclude estimates of the amount of cost sharing) for the period covering months 13 through 24 under column "(b) First;" and, if applicable, for months 25 through 36 under "(c) Second."

Section F—Other Budget Information

Line 21—Direct Charges: Not applicable.

Line 22—Indirect Charges: Enter the type of indirect rate (provisional, predetermined, final or fixed) to be in effect during the funding period, the base to which the rate is applied, and the total indirect costs.

Line 23—Remarks: Provide any other explanations or comments deemed necessary.

3. SF 424B—Assurances

SF 424B, Assurances—Non-Construction Programs, contains assurances required of applicants under the Discretionary Funds Program of the Administration on Aging. Please note that a duly authorized representative of the applicant organization must certify that the applicant is in compliance with these assurances.

With the possible exception of an Assurance of Protection of Human Subjects, no other assurances are required. For research projects in which human subjects may be at risk, an Assurance of Protection of Human Subjects may be needed. If there is a question regarding the applicability of this assurance, contact the Office of Research Risks of the National Institutes of Health at (301) 496–7041.

4. Certification Forms

Certifications are required of the applicant regarding (a) lobbying; (b) debarment, suspension, and other responsibility matters; and (3) drug-free workplace requirements. Please note that a duly authorized representative of the applicant organization must attest to the applicant's compliance with these certifications.

5. Project Summary Description

On a separate page, provide a project summary description headed by two identifiers: (1) the name of the applicant organization as shown in SF 424, item 5 and (2) the priority area as shown in the upper left hand corner of SF 424. Please limit the summary description to a maximum of 1,200 characters, including words, spaces and punctuation.

The description should be specific and succinct. It should outline the objectives of the project, the approaches to be used and the outcomes expected. At the end of the summary, list major products that will result from the proposed project (such as manuals, data collection instruments, training packages, audio-visuals, software packages). The project summary description, together with the information on the SF 424, becomes the project "abstract" which is entered into AoA's computer data base. The project description provides the reviewer with an introduction to the substantive parts of the application. Therefore, care should be taken to produce a summary which accurately and concisely reflects the proposal.

6. Program Narrative

The Program Narrative is the most important part of the application. It should be clear, concise, and pertinent to the priority area under which the application is being submitted. In describing your proposed project, make certain that you respond fully to the evaluation criteria set forth in section F above. The format of the narrative should, in fact, parallel the criteria, beginning with a discussion of (a) the project's objectives and the need for assistance; leading to an account of (b) the results/benefits that you expect the project to accomplish; followed by a detailed explanation of (c) the approach(es) the project would take to achieve its objectives; and ending with (d) the level of effort the project would undertake, in terms of staff, funding, and other resources.

Please have the narrative typed on one side of 8½" x 11" plain white paper with 1" margins on both sides. All pages of the narrative (including charts, tables, maps, exhibits, etc.) should be sequentially numbered, beginning with "Objectives and Need for Assistance" as page number one. (Applicants should not submit reproductions of larger size paper, reduced to meet the size requirement).

The narrative should conclude by identifying the author(s) of the proposal, their relationship with the applicant,

VOL 56 ISS 125 JE 28 1991 UMI

and the role they will play, if any, should the project be funded.

7. Organizational Capability Statement and Vitae for Key Project Personnel

The organizational capability statement should describe how the applicant agency (or the particular division of a larger agency which will have responsibility for this project) is organized, the nature and scope of its work and/or the capabilities it possesses. This description should cover capabilities of the applicant not included in the program narrative. It may include descriptions of any current or previous relevant experience or describe the competence of the project team and its track record for preparing cogent and useful reports, publications, and other products. An organization chart showing the relationship of the project to the current organization should be included.

Vitae should be included for key project staff only.

K. Checklist for a Complete Application

The checklist below should be typed on 8½" x 11" plain white paper, completed and included in your application package. It is for use in ensuring proper preparation of your application.

CHECKLIST

I have checked my application package to ensure that it includes or is in accord with the following:

—One original application plus two copies, each stapled securely (no folders or binders) with the SF 424 as the first page of each copy of the application;
—SF 424; SF 424A—Budget Information (and accompanying Budget Justification); SF 424B—Assurances; and Certifications;
—SF 424 has been completed according to the instructions, signed and dated by an authorized official (item 18);
—The number of the priority area under which the application is submitted has been identified in the box provided at the top left of the SF 424;
—As necessary, a copy of the current indirect cost rate agreement approved by the Department of Health and Human Services or another Federal agency;
—Proof of nonprofit status, as necessary;
—Summary description;
—Program narrative;
—Organizational capability statement and vitae for key personnel;
—Letters of commitment and cooperation, as appropriate.

L. Points to Remember

1. There is a forty-five (45) double-spaced page limitation for the substantive parts of the application. Before submitting your application, please check that you have adhered to this requirement which is spelled out in section D.

2. You are required to send an original and two copies of an application.

3. Designate a priority area in the box provided at the top left hand corner of the SF 424.

4. The summary description (1,200 characters or less) should accurately reflect the nature and scope of the proposed project.

5. To meet the cost sharing requirement (see section C above), you must, at a minimum, match $1 for every $3 requested in Federal funding to reach 25% of the *total* project cost (the Federal share plus your cost share). For example, if your request for Federal funds is $90,000, then the required minimum match or cost sharing is $30,000. The total project cost is $120,000, of which you $30,000 share is 25%.

6. Indirect costs of training grants may not exceed 8%.

7. In following the required format for preparing the program narrative, make certain that you have responded fully to the four (4) evaluative criteria which will be used by reviewers to evaluate and score all applications.

8. Do *not* include letters which endorse the project in general and perfunctory terms. In contrast, letters which describe and verify tangible commitments to the project, e.g., funds, staff, space, should be included.

9. If duplicate applications are submitted under different priority areas, AoA reserves the right to select the single priority area under which it will be reviewed.

10. If more than one application is submitted, each should be submitted under separate cover.

11. Before submitting the application, have someone other than the author(s): (1) Apply the screening requirements to make sure you are in compliance; and (2) carry out a trial run review based upon the evaluative criteria. Take the opportunity to consider the results of the trial run and then make whatever changes you deem appropriate.

12. Applications must be mailed by midnight, or hand delivered (by 5:30 p.m., Eastern Time), by August 9, 1991 to: Department of Health and Human Services, Grants and Contracts Management Division, Acquisition and Assistance Management Branch, 200 Independence Avenue SW., room 341F.2, Washington, DC 20201, Attn: AoA–91–3.

Dated: June 24, 1991.

Joyce T. Berry,

U.S. Commissioner on Aging, Administration on Aging.

OMB Approval No. 0348-0040

ASSURANCES — NON-CONSTRUCTION PROGRAMS

Note: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States, and if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§ 4728-4763) relating to prescribed standards for merit systems for programs funded under one of the nineteen statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§ 6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§ 523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. 290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. § 3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.
7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
8. Will comply with the provisions of the Hatch Act (5 U.S.C. §§ 1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.
9. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§ 276a to 276a-7), the Copeland Act (40 U.S.C. § 276c and 18 U.S.C. §§ 874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§ 327-333), regarding labor standards for federally assisted construction subagreements.

Standard Form 424B (4-88)
Prescribed by OMB Circular A-102

Authorized for Local Reproduction

VOL 56 ISS 125 JE 28 1991 UMI

10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.

11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§ 1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. § 7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended, (P.L. 93-523); and (h) protection of endangered species under the Endangered Species Act of 1973, as amended, (P.L. 93-205).

12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§ 1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. 469a-1 et seq.).

14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.

15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. 2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.

16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§ 4801 et seq.) which prohibits the use of lead based paint in construction or rehabilitation of residence structures.

17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act of 1984.

18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations and policies governing this program.

Certification Regarding Lobbying

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

VOL 56 ISS 125 JE 28 1991 UMI

Certification Regarding Debarment, Suspension, and Other Responsibility Matters - Primary Covered Transactions

By signing and submitting this proposal, the applicant, defined as the primary participant in accordance with 45 CFR Part 76, certifies to the best of its knowledge and believe that it and its principals:

(a) are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal Department or agency;

(b) have not within a 3-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) are not presently indicted or otherwise criminally or civilly charged by a governmental entity (Federal, State of local) with commission of any of the offenses enumerated in paragraph (1) (b) of this certification; and

(d) have not within a 3-year period preceding this application/proposal had one or more public transactions (Federal, State, or local) terminated for cause or default.

The inability of a person to provide the certification required above will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the Department of Health and Human Services(HHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

The prospective primary participant agrees that by submitting this proposal, it will include the clause entitled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion - Lower Tier Covered Transaction. " provided below without modification in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions
(To Be Supplied to Lower Tier Participants)

By signing and submitting this lower tier proposal, the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

(a) are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

(b) where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal.

The prospective lower tier participant further agrees by submitting this proposal that it will include this clause entitled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion - Lower Tier Covered Transactions," without modification in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

U.S. Department of Health and Human Services
Certification Regarding Drug-Free Workplace Requirements
Grantees Other Than Individuals

By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

This certification is required by regulations implementing the Drug-Free Workplace Act of 1988, 45 CFR Part 76, Subpart F. The regulations, published in the May 25, 1990 Federal Register, require certification by grantees that they will maintain a drug-free workplace. The certification set out below is a material representation of fact upon which reliance will be placed when the Department of Health and Human Services (HHS) determines to award the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HHS, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act. False certification or violation of the certification shall be grounds for suspension of payments, suspension or termination of grants, or government-wide suspension or debarment.

Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios.)

If the workplace identified to HHS changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see above).

Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

"Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 USC 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15).

"Conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

"Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

"Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All "direct charge" employees; (ii) all "indirect charge" employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

The grantee certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an ongoing drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace; (2) The grantee's policy of maintaining a drug-free workplace; (3) Any available drug counseling, rehabilitation, and employee assistance programs; and, (4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and, (2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency in writing, within ten calendar days after receiving notice under subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

(Continued on reverse side of this sheet)

HHS--Certification Regarding Drug-Free Workplace Requirements--continued from reverse page

(f) Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or, (2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant (use attachments, if needed):

Place of Performance (Street address, City, County, State, ZIP Code)_____

_____

Check ___ if there are workplaces on file that are not identified here.

Sections 76.630(c) and (d)(2) and 76.635(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central receipt point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, S.W., Washington, D.C. 20201.

Centers for Disease Control

Availability of DCD Bacterial Isolates for Evaluating Antimicrobial Susceptibility Testing Devices

AGENCY: Centers for Disease Control (CDC), Public Health Service, HHS.

ACTION: Notice of availability.

SUMMARY: CDC bacterial isolates for quality control of antimicrobial susceptibility testing devices are available. Charges are listed under supplementary information.

EFFECTIVE DATE: June 15, 1991.

FOR FURTHER INFORMATION CONTACT: Fred C. Tenover, Ph.D., or Carolyn Baker, Antimicrobics Investigation Branch, Center for Infectious Diseases (G07), CDC, Atlanta, GA 30333. Telephone: FTS: 236-3246, Commercial: (404) 639-3246.

SUPPLEMENTARY INFORMATION: Notice is hereby given of the availability from CDC of two sets of bacterial isolates, one set of gram-positive organisms and one set of gram-negative organisms, of known antimicrobial susceptibility patterns. These organisms could be used by manufacturers to fulfill the requirements for testing antimicrobial susceptibility testing devices as part of Food and Drug Administration 510(k) or pre-market approval (PMA) submissions.

The charge for the set of 100 gram-positive organisms will be $1500.00, and the charge for the set of 200 gram-negative organisms will be $2500.00. These charges were derived from the cost of materials and labor required by CDC to acquire, test, maintain, and prepare each set for shipment. The gram-positive set is currently available. The gram-negative set will be available as of June 28, 1991.

These sets can be obtained by writing to Connie Flowers, Scientific Resources Program, Technical Services Branch (C21), Center for Infectious Diseases, Centers for Disease Control, 1600 Clifton Road, NE., Atlanta, Georgia 30333. Orders may also be sent by facsimile (FAX) to (404) 639-3037. Telephone orders will not be accepted. The catalog number for the gram-positive set is GPO100; the number for the gram-negative set is GNO250. No individual organisms or partial sets will be made available. The sets will be sent frozen on dry ice by overnight express shipping.

Orders for sets should include the purchase order number, catalog number, the name and account number of the company's overnight express shipping service, the name and telephone number of the contact person who will receive the isolates, and the company's shipping and billing address. The materials will be provided only after the company executes a Non-disclosure Agreement which will be provided by CDC once the order has been made. Companies will be billed the month after the isolates are shipped.

Disk diffusion and broth microdilution susceptibility testing results will be sent with the sets, and agar dilution results will follow.

Dated: June 21, 1991.

Robert L. Foster,

Acting Director, Office of Program Support, Centers for Disease Control.

BILLING CODE 4160-18-M

[Announcement Number 162]

A Cooperative Agreement Demonstration Project to Determine the Morbidity and Mortality After Measles Vaccine Administered at Six Months of Age

Introduction

The Centers for Disease Control (CDC) announces the availability of funds for research concerning morbidity and mortality following administration of high-dose Edmonston-Zagreb (EZ) and Schwarz vaccines administered at 6 months of age.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of Immunization and Infectious Diseases. (For ordering a copy of Healthy People 2000, see the section **WHERE TO OBTAIN ADDITIONAL INFORMATION.**)

Authority

This program is authorized under the Public Health Service Act, sections 301 [42 U.S.C. 241] and 317K [42 U.S.C. 247b(k)], as amended.

Eligible Applicant

The Ministry of Health, Mexico, alone has data on an existing cohort of children who received different doses of EZ and Schwarz measles vaccines 4 years ago which meets the needs of this proposed program. The necessary relationships with the Mexican government and local health systems are in place. Qualified epidemiologists have worked with CDC and with the study participants. These pre-existing conditions ensure the most timely and cost-effective start up of the proposed project. Assistance will only be provided to the Ministry of Health, Mexico. No other applications are solicited or will be accepted.

Availability of Funds and Project Period

Approximately $60,000 is available in Fiscal Year 1991 to fund one award. It is expected that award will begin on or about September 1, 1991, for one 12-month budget period within a 1-year project period. Funding estimates may vary and are subject to change.

Purpose

As a result of the studies in West Africa, this program is proposed to follow up on children to determine differences in mortality or other indicators between children who received the EZ and Schwarz vaccines and children who were not vaccinated before the age of 1 year.

Program Requirements

In conducting activities to achieve the purpose of this program, the recipient shall be responsible for conducting activites under A, below, and CDC will be responsible for conducting activities under B, below.

A. Recipient Activities

1. Develop a protocol to assess the mortality and severe morbidity in all children who were enrolled in 1987 measles vaccine study and persistence of antibody as a subsample.
2. Implement the protocol.
3. Collaborate with CDC in analysis and publication of the results.

B. Centers for Disease Control Activities

1. Collaborate in protocol development and study design.
2. Assist in monitoring the collection of data.
3. Collaborate in data entry, analysis and publication of results.

Evaluation Criteria

The application will be reviewed and evaluated according to the following major criteria (Maximum 100 points):

A. The extent to which the proposed objectives are measurable, specific and related to the required recipient activities and program purpose. (40 points)

B. The quality of the plan for conducting program activities and the potential effectiveness of the proposed methods in meeting its objectives. (50 points)

C. The qualifications of the project personnel and evidence of their experience in related activities. (10 points)

In addition, consideration will also be given to the extent that the budget request is clearly justified and consistent with the intended use of the funds (no weight).

Other Requirements

A. Confidentiality

All information obtained on any person by any program that is acting with funds awarded through this cooperative agreement shall not be disclosed unless that person provides written consent. Information may be released only as necessary to provide services to that person or as may be required by a law of Mexico or a political subdivision of Mexico. Information derived from any such program may be disclosed (a) in summary, statistical, or similar form that maintains the person's anonymity, or (b) for clinical or research purposes, but only if the persons who received diagnoses or care under such programs are not identified. The recipient of CDC funds that must obtain and retain identifying information as a part of the CDC-approved work plan must: (a) Maintain the physical security of such records and information at all times; (b) have procedures in place and staff trained to prevent unauthorized disclosures of client identifiers; (c) obtain informed consent by explaining the possible risk of disclosure and the recipient's policies and procedures for preventing unauthorized disclosure; and (d) provide written assurance to this effect. The applicant must have in place systems to ensure the confidentiality of all patient records at each study site.

B. Human Subjects

This project, which involves human subjects, will not be awarded until an acceptable assurance has been given that the human subjects protocol will be subject to initial and continuing review by an appropriate institutional committee(s) as described in 45 CFR part 46.

E.O. 12372 Review

The application for this program is not subject to review as governed by Executive Order 12372, Intergovernmental Review of Federal Programs.

Catalog of Federal Domestic Assistance Number

The Catalog of Federal Domestic Assistance Number is 93.185, Immunization Research, Demonstration, Public Information, and Education-Education, Training, and Clinical Skills Improvement Projects.

Application Submission and Deadline

The original and two copies of the application (PHS Form 5161-1) must be submitted to Edwin L. Dixon, Grants Management Officer, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road NE., room 300, Atlanta, GA 30305, on or before August 1, 1991.

A. Deadline

The application shall be considered as meeting the deadline if it is either:

1. Received on or before the deadline date, or
2. Sent on or before the deadline date and received in time for submission to the independent review group. The applicant must request a legibly dated postmark or obtain a legibly dated receipt from a commercial carrier or postal service. Private metered postmarks shall not be accepted as proof of timely mailing.

B. Late Application

An application which does not meet the criteria in A.1 or A.2 above is considered a late application. A late application will not be considered and will be returned to the applicant.

Where to Obtain Additional Information

If you are interested in obtaining additional information regarding this cooperative agreement, please reference announcement number 162 and contact the following:

Business management technical assistance: Eddie L. Wilder, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road NE., room 300, Atlanta, GA, 30305, telephone (404) 842-6640.

Programmatic technical assistance: Lauri E. Markowitz, M.D., Division of Immunization, Center for Prevention Services, Centers for Disease Control, Atlanta, GA 30333, (404) 639-1864.

A copy of Healthy People 2000 (Full Report; Stock No. 017-001-00474-0) or Healthy People 2000 (Summary Report; Stock No. 017-001-00473-1) referenced in the Introduction may be obtained through the Superintendent of Documents, Government Printing Office, Washington, DC 20402-9325 (Telephone 202-783-3238).

Dated: June 24, 1991.

Ladene H. Newton,

Acting Director, Office of Program Support, Centers for Disease Control.

BILLING CODE 4160-18-M

National Institutes of Health

Lung Biology and Pathology Study Section; Establishment

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776) and section 402(b)(6), of the Public Health Service Act, as amended (42 U.S. Code 282(b)(6)), the Director, National Institutes of Health (NIH), announces the establishment of the Lung Biology and Pathology Study Section.

The Lung Biology and Pathology Study Section will provide review of research concerned with physiology, pathology, and immunology of the pulmonary system with a focus on the airways, pulmonary vascular system, interstitium, immune system, and lung fluids, and using cellular, biochemical, molecular biological, and immunological approaches to normal and pathological processes.

Duration of this committee is continuing unless formally determined by the Director, NIH, that termination would be in the best public interest.

Dated: June 20, 1991.

Agency Forms Submitted to the Office of Management and Budget for Clearance

Each Friday the Public Health Service (PHS) publishes a list of information collection requests it has submitted to the Office of Management and Budget (OMB) for clearance in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). The following requests have been submitted to OMB since the list was last published on June 21, 1991.

(Call PHS Reports Clearance Officer on 202-245-2100 for copies of request)

1. Intraocular Lens (IOL) Investigational Device Exemption Application (21 CFR part 813)—0910-0057—The Intraocular Lens Investigational Device Exemption Application exempts devices from several provisions of the Federal Food, Drug and Cosmetic Act. The application contains information necessary to evaluate potential and continuing safety of the lenses during the investigational stage. Respondents: Businesses or other for-profit; Small businesses or organizations.

	Number of respondents	Number of responses per respondent	Number of hours per response
Reporting	18	35	23.12
Recordkeeping	18	1	80

Estimated Annual Burden.....16,920 hours

2. Employee Vital Status Letter—0920-0035—The Vital Status Letter is sent to members of retrospective studies to determine if an employee who was exposed to a toxic substance in the workplace that is suspected of causing long-term adverse health effects is deceased or alive. This letter is used as a last resort, after all other methods have been exhausted. Respondents: Individuals or households; Number of Respondents: 252; Number of Responses Per Respondent: 1; Average Burden per Response: .167 hour; Estimated Annual Burden: 42 hours.

3. Indian Health Service Loan Repayment Program—New—Respondents are health professionals applying to the Indian Health Service (IHS) Loan Repayment Program (LRP). The application provides information on training status in compliance with program requirements. Respondents: Individuals or households, State or local governments, Businesses or other for profit.

BILLING CODE 4160-17-M

Secretary's Council on Health Promotion and Disease Prevention Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following meeting of the Secretary's Council on Health Promotion and Disease Prevention, scheduled to meet Wednesday, July 24, 1991.

Name: Secretary's Council on Health Promotion and Disease Prevention.

Date and Time: July 24, 1991, 9 AM to 5 PM; United Way of America, Board Room, 701 North Fairfax Street, Alexandria, Virginia 22314-2045.

Open, except for working lunch.

Purpose: The Secretary's Council on Health Promotion and Disease Prevention is charged to provide advice to the Secretary and to the Assistant Secretary for Health on national goals and strategies to achieve those goals for improving the health of the Nation through disease prevention and health promotion and to provide a link to the private sector regarding health promotion activities.

Agenda: This will be the eighth meeting of the Secretary's Council, the theme of this meeting is "Innovations in Health Education and Health Information Systems."

Anyone wishing to obtain a roster of members, minutes of meetings, or other relevant information should contact Linda M. Harris, PhD., Staff Director for the Council, Office of Disease Prevention and Health Promotion, Public Health Service, U.S. Department of Health and Human Services, Washington, DC 20201, Telephone (202) 472-5370.

Agenda items are subject to change as priorities dictate.

James A. Harrell,

Deputy Director, Office of Disease Prevention and Health Promotion.

BILLING CODE 4160-17-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Public and Indian Housing

[Docket No. N-91-3236; FR-2953-N-03]

Clarification to FY 91 Notice of Fund Availability (NOFA), Invitation for Applications: Public Housing Development/Major Reconstruction of Obsolete Public Housing

AGENCY: Office of the Assistant Secretary for Public and Indian Housing, HUD.

ACTION: Clarification of published Notice of Fund Availability (NOFA).

SUMMARY: This notice clarifies the procedure for the correction of deficient applications submitted in response to the NOFA announcing FY 1991 funding for public housing development and for the Major Reconstruction of Obsolete Projects (MROP).

FOR FURTHER INFORMATION CONTACT: The HUD Field Office for the PHA's jurisdiction.

SUPPLEMENTARY INFORMATION: On March 28, 1991 (56 FR 13240), the Department published a notice in the Federal Register announcing the availability of FY 1991 funding for public housing development and for the Major Reconstruction of Obsolete Projects (MROP), and invited eligible Public Housing Agencies (PHAs) to submit applications. Paragraph 2b contained a submission checklist and paragraph 2c provided a process for determining whether applications met certain eligibility thresholds and the circumstances under which missing or incomplete information could be submitted after the application submission deadline of May 28, 1991.

Some of the items included in the paragraph 2b submission checklist were asterisked, while other items were not. The significance of whether or not an item was asterisked was explained in paragraph 2c: "If items, other than those identified with an asterisk in paragraph 2b above, are missing from the application, the PHA's application will be considered substantially incomplete and, therefore, ineligible for further processing." The intent was that non-asterisked items that were missing in their entirety from an application would serve as the basis for determining the application to be substantially incomplete and ineligible for further processing. All other items could be corrected or cured within a fourteen day period following notification from HUD, so long as they consisted of technical deficiencies related only to items that were not necessary for HUD review under the ranking factors, and the correction action did not improve the substantive quality of the application.

Recent queries have suggested that paragraph 2c of the NOFA has been interpreted in a manner inconsistent with the Department's intention, specifically with regard to the non-asterisked items in the paragraph 2b submission checklist. The intent of the NOFA is that only if non-asterisked items are wholly missing would the application be considered substantially incomplete and ineligible for further processing. The correction of technical omissions and mistakes in non-asterisked items is permissible, and non-asterisked items that are included in part, or by reference, in the application are also in the category of curable technical deficiencies subject to the 14-calendar-day correction process described in the NOFA, in the same manner as are the asterisked items in the submission checklist of paragraph 2b.

This clarification has been brought to the attention of the appropriate Field Office staff, and applications with deficiencies are being re-examined accordingly. Any additional 14-day technical deficiency letters that result from the reexamination will be expeditiously issued.

Dated: June 25, 1991.

Joseph G. Schiff,

Assistant Secretary for Public and Indian Housing.

BILLING CODE 4210-33-M

Office of the Assistant Secretary for Community Planning and Development

[Docket No. N-91-1917; FR-2834-N-32]

Federal Property Suitable as Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

EFFECTIVE DATE: June 28, 1991.

ADDRESSES: For further information, contact James N. Forsberg, Room 7262, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410; telephone (202) 708-4300; TDD number for the hearing- and speech-impaired (202) 708-2565 (these telephone numbers are not toll-free), or call the toll-free Title V information line at 1-800-927-7588.

SUPPLEMENTARY INFORMATION: In accordance with 24 CFR part 581 and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD is publishing this Notice to identify Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties were reviewed using information provided to HUD by Federal landholding agencies regarding unutilized and underutilized buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. This Notice is also published in order to comply with the December 12, 1988 Court Order in *National Coalition for the Homeless* v. *Veterans Administration*, No. 88-2503-OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: suitable/available, suitable/unavailable, suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency's needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Homeless assistance providers interested in any such property should send a written expression of interest to PHIS, addressed to Judy Breitman, Division of Health Facilities Planning, U.S. Public Health Service, HHS, room 17A-10, 5600 Fishers Lane, Rockville, MD 20857; (301) 443-2265. (This is not a toll-free number.) HHS will mail to the interested provider an application packet, which will include instructions for completing the application. In order to maximize the opportunity to utilize a suitable property, providers should submit their written expressions of interest as soon as possible. For complete details concerning the processing of applications, the reader is encouraged to refer to the interim rule governing this program, 56 FR 23789 (May 24, 1991).

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this Notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1-800-927-7588 for detailed instructions or write a letter to James N. Forsberg at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including ZIP code), the date of publication in the Federal Register, the landholding agency, and the property number.

For more information regarding particular properties identified in this Notice (*i.e.*, acreage, floor plan, existing sanitary facilities, exact street address), providers should contact the appropriate landholding agencies at the following addresses: U.S. Army: Robert Conte, Dept. of Army, Military Facilities, DAEN-ZCI-P, Rm. 1E671, Pentagon, Washington, DC 20310-2600; (202) 693-4583; Dept. of Agriculture: Marsha Pruitt, Realty Officer, USDA, South Bldg. Rm. 1566, 14th and Independence Ave. SW., Washington, DC 20250; (202) 447-3338; Corps of Engineers: Bob Swieconek, Army Corps of Engineers, Civilian Facilities, Rm. 5136, 20 Massachusetts Ave. NW., Washington, DC 20314-1000; (202) 272-1750; FSA: Ronald Rice, Federal Property Resources Services, GSA, 18th and F Streets NW., Washington, DC 20405; (202) 501-0067; Dept. of Transportation: Angelo Picillo, Deputy Director, Administrative Services & Property Management, DOT, 400 Seventh St. SW., room 10007, Washington, DC 20590; (202) 366-5801;

VOL 56 ISS 125 JE 28 1991 UMI

Dept. of Interior: Lola D. Knight, Property Management Specialist, Dept. of Interior, 1849 C St. NW., Mailstop 5512–MIB, Washington, DC 20240; (202) 208–4080. (These are not toll-free numbers.)

Dated: June 21, 1991.

Paul Roitman Bardack,

Deputy Assistant Secretary for Economic Development.
